## H1N1 Flu Confirmed In Cisco Schools

Parents of children attending Cisco schools received a letter from the Cisco I. S. D. Office of the Superintendent, Hal Porter, dated September 30, 2009 informing them that currently there are two confirmed cases of H1N1 flu strain (popularly called swine flu) among the student body. The children were taken immediately to the doctor by their parents and are currently being treated, the letter continues.

Inquiries were made by this newspaper on Thursday, October 1 regarding the situation in Ranger and Eastland schools. Ranger I. S. D. reported no cases as of now. Eastland I. S. D. Superintendent, Donald Hughes, said there were suspected cases, but none confirmed.

Dr. Cynthia McNeely, M.D. of Plexus Healthcare Center in Cisco, Bryan West of the Heart of Texas and One Source Health Clinic, as well as federal and state web sties, confirmed that influenza like illness are higher than expected during this time of year and are on the increase. Many of these illnesses are thought to be H1N1 flu, as the traditional flu season is usually later in the year. Bryan West said Heart of Texas clinics in Early and San Saba had seen quite a few flu like illnesses.

Vaccinations are not yet available, and although no exact date has been given, they could start arriving within the next weeks, sources say. The first priority group to receive vaccinations will be 6 months to 24 years,

### **County Judge Fields** Responds to H1N1 **Flu Questions**

I have been asked to respond to inquiries about the current flu issue and how it is affecting Eastland County. As of this writing, there are two known cases of H1N1 flu in our county. Two children in the lower grades of Cisco ISD have confirmed cases of H1N1 flu. Those children were taken immediately to a doctor by their parents and are being treated. A letter of explanation from Hal Porter, Superintendent of Cisco ISD and Pam Duncan, Cisco ISD School Nurse was sent out to parents. This letter may be read online at the Cisco ISD website. No schools in Eastland County have been closed and no other cases of H1N1 flu have been reported

to me. So to restate, the H1N1 "swine flu" is here and you do need to take precautions to prevent infection from this or any communicable disease. I will paraphrase some of the information that I have received from the state (Continued Inside)

## 4. Joint meeting with Band Boosters To **Sell Stadium Seats**

The Band Boosters are selling stadium seats. They already have the logo Cisco Loboes printed on the back of the chair, and the frame has a 10 year guarantee. The price is \$54.07.

We will be selling them at the home football games or you can contact the band director at 254-442-3051.

pregnant women, people who care for infants, healthcare and emergency medical personnel, and adults with high-risk medical conditions.

As reported, several deaths among children linked to H1N1 flu have occurred in September. A 14 year old Fort Worth girl, Chloe Lindsey, formerly of Cisco, TX died after being diagnosed with H1N1, as well as a 6 year old from Texarkana, and a 12 year old from Corpus Christi. Health officials, however, say most deaths connected to H1N1 occur when other health problems are present. Most H1N1 cases are reported to be light.

As to prevention, Dr. Neely emphasized staying at home if you are sick. "And I know everyone's probably doesn't want to hear this anymore, but wash your hands, wash your hands, wash your hands," she

The letter sent to parents of

Cisco school students further stated that Cisco I. S. D. "has been on a high alert regarding flu identification and prevention since the beginning of school and our Health Services Director, Ms. Pam Duncan, and her staff continue to be vigilant in caring for all the children. We stay in contact with the county and state health officials to stay informed and be proactive..... Ms. Duncan works with the District's Health Services Liasion, Dr. Paulk, and the Eastland County Health Officer, Dr. Deluca, to monitor the situation in our county."

The letter continues that at this time state/county health official have said students who are not ill may safely come to school and that schools will remain open. However, to prevent the flu from spreading, students who are ill should be kept at home, and sick students will be sent home.

(Continued Inside)

Dear Parents,

This letter will give you information about the flu outbreak in Eastland County and specifically Cisco Independent School District. Several strains of flu attack our children during the winter and fall months, and this year the H1N1 strain is among those. Currently we have two confirmed cases within our student body. Those children were taken immediately to the doctor by their parents and are currently being treated.

Cisco ISD has been on a high alert regarding flu identification and prevention since the beginning of school and our Health Services Director, Ms. Pam Duncan, and her staff continue to be vigilant in caring for all the children. We stay in contact with the county and state health officials to stay informed and to be proactive. A couple of the things the Health Services Department does are are:

When students arrive at school if their teacher notices signs of illness they are sent to the nurse immediately and they are screened for flu symptoms. If it is believed they might be in the beginning stages of some type of flu/respiratory illness they are sent home and the parents are asked to take them to their family physician.

The Health Science Technology students help to sanitize classrooms on a daily basis and the teachers have been advised to use hand sanitizer in their classrooms with students.

Ms. Duncan works withe the District's Health Services Liaison, Dr. Paulk, and the Eastland County Health Officer, Dr. Deluca, to monitor the situation in our county.

At this time the state/county health officals tell us that students who are not ill can safely come to school. The schools will remain open and we will keep you updated with any important information.

To keep the flu from spreading to more people, we ask you to keep sick children home. Any children who are sick in school will be sent home.

Public health officials want you to protect yourself and your family against pandemic flu. Here are some ways to stop the spread of germs and sickness:

Keep children who are sick home. Don't send them to

Teach your children to wash their hands a lot with soap and water for 20 seconds. Be sure to set a good example by doing this yourself.

Teach your children to cover coughs and sneezes with tissue or by coughing into the elbow. Be sure to set a good example by doing this yourself.

Teach your children to stay at least three feet away from people that are sick. People who are sick should stay home from work and stay

away from other people until they are well. Stay away from shopping malls, movie theaters or other

places where there are large groups of unknown people.

These are things we try to teach and model at school and it reinforces it for the children if their parents say and model the same things.

It is very important that we communicate with each other to protect your children. It helps us to know if your child has other risk factors immune disorders, asthma, etc. Please, be sure your child's health records indiciate these factors.

We will continue to be vigilant here at school for the safety of your child, and we desire to be your partner as their first line of defense in providing for their health and safety. If we can answer any questions, please contact:

A/H1N1 flu is spread by human to human transmission: The Symptoms include fever, fatigue, lack of appetite, coughing, runny nose, sore throat, nausea, vomiting, and diarrhea. If you are ill, it is advised that you stay at home and avoid contact with other people as much as possible.

Emergency signs in Children: Fast breathing or trouble in breathing, bluish skin color, not drinking enough fluids, not waking up or interacting, being extremely irritable, does not want to be held, flu-like symptoms improve but return with fever and worse cough, fever with a rash. Seek medical attention immediately.

Emergency warning signs in Adults: Difficulty breathing or shortness of breath, pain or pressure in the chest or abdomen, sudden dizziness, confusion, severe or persistent vomiting. Seek medical attention immediately. (Information from CDC)

Steps to Stay Healthy: cover your nose and moth with a tissue when you cough or sneeze, and throw the tissue in the trash after you use it. Wash your hands often with soap and water. Alcohol-based hand cleaners are also effective. Avoid touching your eyes, nose or moth. Avoid close contact with sick people. If ill with influenza, CDC recommends you stay home from work or school and limit contact with others to keep from infecting them.

healthy habits to stop the contact your medical provider spread of germs by washing for specific information as your hands and by using it pertains to you and your alcohol-based hand sanitizers. Cover your mouth when you sneeze or cough. Seek medical care if you feel sick. The bottom line is to prevent infection and protect yourself and your family from any disease. Consider getting a flu vaccination so you can guard against the illness. There will be two types of flu shots, one for the seasonal flu and one for the H1N1 flu. I received a seasonal flu vaccination last week, the first for me in 30 years and I didn't get sick from the shot. The H1N1 vaccine is currently not available but will be in the near future.

I had a meeting with staff members from the Texas Dept of State Health Services (DSHS) Thursday morning. They told me that Texas is in line for the H1N1 vaccine and that those doses will be distributed across the state ASAP. Those most at risk will

and other resources. Practice get this vaccine first. Please family.

Finally, here are State sources of information on the flu issue:

Texas Flu .Org at www. texasflu.org and www.dshs. state.tx.us Texas Dept of State Health Services (DSHS). These websites contain very useful instruction on what to do about this issue. You can even set up an email update on Texas Flu. Org to be alerted to new developments. Dr. Robert DeLuca is designated as the Eastland County Health Officer and he will disseminate information as it is received. I encourage you to do some research so that you can be better prepared now and in the future.

Respectfully submitted, Rex Fields, Eastland County Judge

Box Tops, Tyson, Camp-

Along with the "green" recycling, the "green" money is being raised, too, through Box Tops and Tyson 123 labels. Our goal for Box Tops this year is \$2000. With your diligence and support, the goal can be reached!!! Campbell's soup labels are also being collected.

#### Deal or No Deal

For the past two years, we have had a competition amongst the students and a reward for the top 3 who bring in the most Box Tops. The reward is called "Deal or No Deal (DOND)." The top 3 who bring the most Box Tops from the first of the school year until December 16th will get to play the DOND game on December 18th. We will then play the game again The program will be at 1:30 pm for the 2nd semester. This has always been a blast, so keep collecting those Box Tops.

ALL students are to enter through the gym upon arrival between 7:30 and 7:50. They may then go to the cafeteria, library, or Lobo Den. If a student arrives after 7:50, they may come in the front door and go directly to class.

## On The Hill

Submitted by Norm Logan

Howdy all and welcome to a late edition of "On the Hill". Here are some scores from last week. Chemotherapy 28, Norm 0. I took a chemo a week ago Monday and it wiped me out. I left school Wednesday and wound up in the Hospital Thursday, got a Pneumonia and Flu shot Friday afternoon when I left the hospital and had a reaction to it about the time the Football game started. It was so bad I had to leave the game which killed me cause I really like announcing the games. Had to go back in the Hospital Saturday and got out Monday. Special Thanks to Marie, Lisa, Kristina, and Britt for all the attention I

Anyway, I am back this week and we are getting the float ready for Ripfest. The theme is to let it "All hang out" so we are doing some modifications to him to make him fit the bill.

The whole High school and the Middle school as well attended a presentation today at Marshall Gym from a retired Rodeo clown. He showed us some videos of when he won the World Title in 1994 for Bull Fighting. Not like the Mexican style, but rodeo style. It was pretty neat, and he talked to the kids about sticking to you goals and not giving up. Life is hard, and it takes hard work

to become successful. Don't forget about the Firemen's catfish feed Sat-urday evening and the Bull riding at Leon River Cowboy Church that night.

The Football team did well against Jim Ned last Friday even in my absence and they are open this week. The JV team however is going to Sweetwater and the Freshmen are playing Abilene Cooper on Thursday.

I have a lot of football players in Art this year which is uncommon, but since we are on the 8 period days now they have more elective op-

Here is Volleyball news. Varsity defeated Dublin in 4 games to move to 1-1 in district play. They will next be in action on Saturday when they will travel to Bangs. Coach Mayes is selling T-

shirts to raise money for the Softball trip. It is an Under Armor Logo with a Jesus Fish incorporated into the logo. They are really neat looking and are selling for

I am wearing my brand new Austin Orm's T-shirt today, they are really cool.

Fall musical auditions for the Oct. 6th play are Tuesday night at 7 P.M. in the E.H.S. Theater. Current students who are academically eligible may audition. This year we are planning to produce Just Another High School Musical by Bryan Starchman, music by Ste-phen Murray, It is a hilarious play about a group of actors abandoned by their theater teacher.

Well, school is almost over and I got kids coming in to help with the toad. Don't forget to go to the parade, we will see ya there. Norm.

## CofC Announces 'Ponyo' Showing At Majestic

film "Ponyo", fresh from International awards, has been translated into English.

Walt Disney is distributing it in the United States, and it opened in the U.S. and Canada in August, 2009.

Now it is at the Majestic Theater in Eastland, beginn ing on Friday, Oct. 2. It will show there nightly through Monday, Oct. 6.

Curtain time will be at 7:30 p.m., with admission \$4.50 at the box office. Adults may obtain balcony tickets for \$6.00.

This film is rated G, (general admission) and described as a fanciful and beautiful, fairy tale.

Noted Japanese film director Hayao Miyazaki was in charge of making this movie, and he says he was inspired by the story of "The Little Mermaid" by Hans Christian Anderson.

All the art work and animation is hand drawn. The seaside village where the story happens is based a real place in Japan.

The music is also striking. In the Japanese version, the theme song was sung by Nozomi Ohaski, eight- yearsold. An English pop version of the theme was recorded by Frankie Jonas and Noah Cyrus, with some of her singing dubbed in.

The plot centers on a goldfish named Ponyo who wants to become a human girl. This fish-girl lives in an aquarium in her father's castle, but longs to see the world outside.

When she is taken on a swim in the ocean she es capes, but is finally stranded on the beach of a fishing village. There she is rescued and befriended by a little boy named Sosuke, who wants to care for her always.

But as her father searches for Ponyo, it is plain that her desire to be human has thrown all the elements out of balance.

This English version stars

### NOTICE OF PUBLIC MEETING FOR THE PROPOSED LONE STAR TRANSMISSION 345KV TRANSMISSION LINE PROJECT

As Texas energy needs continue to grow, safe, reliable electric service depends on adequate transmission. At the direction of the Texas Legislature, the Public Utility Commission of Texas (PUCT) created five geographic Competitive Renewable Energy Zones (CREZs) in West Texas and the Texas Panhandle. These are areas for the development of new wind generation plants. The PUCT also ordered utilities, including Lone Star, to build over 2,300 miles of new transmission lines to connect these zones with other parts of Texas. Lone Star Transmission plans to construct approximately 300 miles of those new transmission lines to bring electricity from wind-rich areas of West Texas to consumers throughout the state. The preliminary proposed routes cross the following counties: Scurry, Fisher, Jones, Mitchell, Taylor, Callahan, Shackelford, Stephens, Eastland, Palo Pinto, Erath, Comanche, Somervell, Johnson, Bosque, Hill and Navarro.

Lone Star Transmission invites you to attend one of its open house meetings to learn more about the proposed transmission line project. Comments received from the public are important and Lone Star is interested in learning more about people's interests and priorities as they relate to this transmission line project. Lone Star Transmission is committed to working with landowners, elected officials, cities, counties, state and federal agencies, and other interested parties to find the optimal route for the line. Company representatives will be on-hand at the open house meetings to provide information and answer questions.

## Leon River **Cowboy Church**

By Pastor Paul Howie

I have a young mare that always seems to have her head through the fence every time I look out there. She's not hungry. There's plenty of grass in the horse pasture and I feed grain every evening. She's so fat, she grunts when she walks. But she just insists on eating through the fence and therefore, always keeps her mane rubbed out. I put cedar staves all around the horse pasture to correct this problem, but now she puts her head through the fence and gets stuck! She cut a pretty good gash in her ear trying to get back out.

Why would a horse simply insist on going outside the boundaries when I've gone out of my way to provide everything she needs within those boundaries? I guess that's a question we could answer for ourselves. Why do we insist on things that we know aren't good for us when God has provided us with everything we need? (Phil. 4:19) Let's learn to enjoy all God has given us and be content with that! So, if I see you tomorrow with a big gash on your ear, I'll know you didn't read this!

#### **DOORKEEPERS AND FAITHFULNESS**

When I read the Bible there are times that in reading the Scripture my mind turns to special people or events. People or events that have had a great impact on my life. On of those Scriptures is, "I would rather be a doorkeeper in the house of my God than dwell in the tents of the wicked" (Psalm 84:10, NIV).

Several years ago while a pastor in Madill, Oklahoma there was a very special man in my church, Royce Stroud. Now Royce was not endowed with a lot of special talents. He did serve on our church board and did a good job, but you would never find him

teaching a Sunday School class, working in Vacation Bible School, or doing any tasks that required a lot of mental abilities. Royce did not have a high profile job at W & W Trailers, but he was a very efficient maintenance man and retired there after nearly 40 plus years of service.

However, one thing I could always count on, Royce would be at the church before anyone else arrived. Cisco Church of the He would take his place at the door, bulletins in hand, and ready to greet everyone that entered the building with a "good morning, how are you today" and for visitors any instructions as to how to navigate the building and find their classes.

A song we sing in the Church of the Nazarene says, "May all who come behind us find us faithful." May there be more people like Royce in the church.

Royce has long since those days went to his eternal reward. I'm hot sure that I can prove this with any scriptural reference, but it seems to me that one of the first people I will see when I enter the pearly gates may not be St. Peter, but Royce Stroud, the faithful doorkeeper.

## **Chloe Elisabeth Lindsey**

On September 27, 2009, in Ft. Worth, Texas the world lost an angel practicing on earth. Chloe Elisabeth Lindsey was the dream child of every mother, father, grandparent, teacher, aunt, uncle, cousin and friend. Kind to every living thing, a perfectionist in everything she tried to do. Always thinking of others before herself. Chloe was taken from this earth, but we rejoice in knowing she is now with her Father in heaven. In the short 14 years she was with us, she touched many lives and continues to

### **Texas Historical Commission Offers** Cemetery Preservation Workshop

Texas has some 50,000 state, many of which could be eligible for historic designation. Is yours one of them? How do you protect it? Find out on Saturday, October 17, beginning at 9 Abilene.

Commission (THC), in conjunction with the Taylor County Historical Commission (CHC), is holding a cemetery preservation workshop to introduce volunteers to the Historic Texas Cemetery (HTC) designation process and the RIP Guardian

The free workshop is limited to 30 participants, per represented cemetery, please. To preregister, call Anita Lane at 325.572.3269.

The Historic Texas cemeteries throughout the Cemetery designation and Guardian program RIP help save the real stories of Texas and are part of a broad cemetery preservation program offered by the THC. The goal of these programs a.m. at the Abilene Public is to address the problem Library, 202 Cedar in of cemetery destruction and to record as many The Texas Historical historic Texas cemeteries as possible.

> The workshop is a component of the West Texas Cemetery Preservation Initiative, which sponsored by a grant from the Dodge Jones Foundation. Participants will learn about the steps and eligibility requirements needed to receive an HTC designation. The RIP Guardian portion of the agenda will focus on the services provided by the program, how to get started and how to use the tools provided to workshop attendees.

gasoline and oil, as all of these were needed by the men fighting over seas.

Seems like farmers had gas for their tractors and you were not supposed to use tractor gas for your car!

We had no TV's, no computers, no calculators; we learned to do math by repetition on paper with a pencil or on the black board with chalk. "I guess you would be called a redneck if you said blackboard."

There were no ball point pens, we did have fountain pens, ink wells in our desk and if we got a whipping at school, we got one when we got home.

Times have changed and they continue to change everyday!

Saw a letter the other day though that stated that cats cause mice to come into your home along with ants and roaches and this statement caused me to pause and reflect on some of the changes I have seen and I have yet to see a herd of mice around cats!

## **Letter To Editor**

Dear Editor,

I have lived nigh on 70 years on this good earth and I have been fortunate enough to observe many changes and I find it does not make me amazed any more by the changes that have occurred around here.

I was born when electricity was not in our homes, especially those rural areas such as Flatwoods.

Shortly after the conclusion of World War II when brothers, dads and husbands (and sometimes even sisters and daughters) came home from the war effort things began to change.

My oldest brother, Cecil started a butane business in Eastland and we of course had butane in our house, no more chopping wood. The food got ready quicker, even the ice box was done away with. A Servel refrigerator could operate on butane and we should call it a refrigerator and not an ice

Guess now if you said ice box you would be called a redneck.

Around 1947 R.E.A. came

to Flatwoods and one of my brothers Burl, figured if you were to place a colored napkin over a light bulb you could have colored light, dang near burned the house

We never did get a telephone while living in Flatwoods.

We went to church at the first Methodist Church in Flatwoods. It was one room, one piano, several benches, a brush arbor and two toilets. (Not restrooms, guess you would be redneck if you called it a toilet).

The men's toilet was a "one holer" structure on the northwest corner of the lot and the ladies toilet was a 'two holer" on the northeast. corner of the lot.

Seems like we had a preacher come once, maybe twice a month and I think we fed him and his skinny wife just about every time they came.

I remember that during the war there was a ration on just about everything, tires, inner tubes (doubt if many under the age of 60 knows what an inner tube is) sugar,

## **Notes From Rising Star Nursing Center**

By Dona McIntire

Well, Good Day to all of you. We have had a couple of great weeks since my last writing. We started out with our Birthday Party on the 15th and had a great time. We had our cake and punch and a few people joined us. It would be really great to have live music so all of you out there just give me a call so we can get that set up.

The Chamberlains continue to grace us each and every Wednesday with their gospel music. We really look forward to singing with them.

On Friday we got to play with Play-doh. The ladies were pretty imaginative with a cup and saucer, we had a fried pie, longhorns, and a snake to name a few. It was a lot of fun.

Then on Tuesday the 22<sup>nd</sup> we enjoyed Tootsie Roll Day. We had a HUGE bag of Tootsie candies and discussed the company from where it started to where it is today. The discussions were really good.

Before I forget, we would like to thank Crystal Conway with Integra Care for all she does. She comes on Thursday at Bingo time and treats us with cookies, cakes, etc. She also helps those who need it with playing Bingo. She also provided the ice cream and all the trimmings for our Banana Split party we had. Thank you Crystal.

On Friday the 25th we had an Antique Day. We sat for quite a while discussing the antiques that were brought and how people now days have it so easy. We would like to say a special thank you to the ones who brought the antiques. We had a butter churn, very old clock, Victrola, iron, pictures, curling iron, petticoat, snuff container and an old wooden bowl used for making breads to name a few.

Well, guess I will close for now and get my manicures done. We will see you in a couple of weeks.

So, till next time may God bless and keep you.

**BOOK REVIEW** 

"The Thorny Rose of Texas" by Mike Shropshire & Frank Schaefer. This is the first fullscale biography of Governor Ann Richards of Texas, a charismatic, sharp-tongued political phenomenon on a national scale. Richards, who emerged as a great role model for women, overcoming a life filled with trauma and tragedy. Born during the Depression in an impoverished farm community in Texas, she became proficient with a pump-action shotgun that her father taught her to shoot. While attending Baylor University during the Korean War, Richards gained notoriety as a fierce intercollegiate debater. From there she would obtain the loftiest position available to a young Texas woman of that era: a teaching job at a junior high school in Austin. Ann then married a young lawyer, and after moving to Austin, she became increasingly involved with issues that she deemed vital. For example, she was an early advocate of statuary protection for abused women. During the next decade, she entered the world of gut-level politics, where, like her idol Harry Truman, she became a county commissioner

in charge of roads and sewers. She regularly went out with the good ol' boys who she could drink under the table. Her marriage ended in divorce, and she became a recovering alcoholic after a dramatic "intervention day." With her notable appearance as the keynote speaker at the Democratic National Convention in 1988, she turned into a national celebrity with the lines: "Poor George. He can't help it. He was born with a silver foot in his mouth."

The above summary is from Barnes & Nobles website. As Texans, there are possibly many interested in knowing more about this remarkable woman, our former Governor. The hardback book also has some fascinating photos of Ann Richards...one is her Senior High School portrait from 1950.

This book promises to keep your interest; and provide little known trivia about one of the most colorful and best-loved politicians of our day.

### NOTICE OF PUBLIC MEETING FOR THE PROPOSED LONE STAR TRANSMISSION 345KV TRANSMISSION LINE PROJECT

As Texas energy needs continue to grow, safe, reliable electric service depends on adequate transmission. At the direction of the Texas Legislature, the Public Utility Commission of Texas (PUCT) created five geographic Competitive Renewable Energy Zones (CREZs) in West Texas and the Texas Panhandle. These are areas for the development of new wind generation plants. The PUCT also ordered utilities, including Lone Star, to build over 2,300 miles of new transmission lines to connect these zones with other parts of Texas. Lone Star Transmission plans to construct approximately 300 miles of those new transmission lines to bring electricity from wind-rich areas of West Texas to consumers throughout the state. The preliminary proposed routes cross the following counties: Scurry, Fisher, Jones, Mitchell, Taylor, Callahan, Shackelford, Stephens, Eastland, Palo Pinto, Erath, Comanche, Somervell, Johnson, Bosque, Hill and Navarro.

Lone Star Transmission invites you to attend one of its open house meetings to learn more about the proposed transmission line project. Comments received from the public are important and Lone Star is interested in learning more about people's interests and priorities as they relate to this transmission line project. Lone Star Transmission is committed to working with landowners, elected officials, cities, counties, state and federal agencies, and other interested parties to find the optimal route for the line. Company representatives will be on-hand at the open house meetings to provide information and answer questions.

6) I write because I see all the blood, tears and lives that has been given for freeis more mighty then the dom and liberty and that is now being destroyed.

> 7) I write also because of a Committee of 300 which is made up of the Socialist Elite who want to make a Utopia on earth.

> 8) I write because these Socialist Engineers want to destroy all facets of productivity in the USA so we will INTERDEPENDENT on other nations for their One

9) Another reason I write is let my fellow Americans know there are people who hate GOD, have probate minds and will do things without restraint or shame.

10) I write because God and Jesus is being removed from everything in the USA by the ACLU, the religion of Humanism and the Muslims.

11) The greatest reason I write is because I am a Soldier For The Cross. I love the Lord and He is my best friend. If the forces of evil would look towards the Lord it would be a much, much better world. The following are verses for these people with a reprobate mind who want change, but it is evil, but not on my watch.

Proverbs 1:7 "The fear of the Lord is the beginning of knowledge: but fools despise wisdom and instruction."

Psalm 34:21 "Evil shall slay the wicked, and they that hate the righteous shall be desolate."

12) I write also so my fellow Americans can learn two verses:

Psalm 9:17 "The wicked shall be turned into hell and all the nations that forget God."

Psalm 33:12 "Blessed is the nation whose God is the Lord, and the people whom He hath chosen for His own inheritance."

#### **Put These Estate-Planning Moves To Work**

to leave a legacy. To make it happen, though, you need to do some estate planning. For most of us, that sounds like a scary task, but it doesn't have to be--as long as you break it down into a few key moves.

Here, in a nutshell, are some of the broad-based moves you'll want to consider:

•Communicate your wishes. When drawing up your estate plan, you can't leave anything to chance- so you need to communicate your wishes in writing. This means you need to draw up the appropriate legal documents, such as a will and a living trust. If you die intestate (without a will), your be-longings will be distributed to your "heirs" as defined by state laws--and these distibutions may not be at all what you had in mind. If you want to avoid probate and possibly draw up more complex instructions-for instance, leaving different amounts of money to different heirs at different points in their lives--you may also need to

•Protect your family. When you hear the words "estate planning" your first thoughts may be of what you can leave behind to grown children, grandchildren and even great-grandchildren. But if you develop your estate plan while your children are young--and you certainly should you should name a guardian for them in case you and your spouse were to die prematurely. Of course, you'll also need to consider having the right type and amount of life insurance for survior income and loan repayments.

·Position your investments to benefit your heirs. You can arrange for some of your in-

Like everyone else, you want vestments to provide significant benefits to your heirs. For example, you can stretch your IRA to extend its key benefit--tax-deferred earnings--over a period of several years. You should also make sure you've updated beneficiary designations on various accounts, such as annuities and 401(k) plans, so that the assets go to the right people. These designations are very important, as they can supersede even the instructions

 Protect against incapacity. None of us can predict the shape of our physical and mental well-being in the years to come. But to protect your family, you'll certainly want to be prepared for everything. That's why you'll want to make the appropriate arrangements. such as establishing a power of attorney and health care directive, while you're still healthy.
These types of documents will empower family members, or other people close to you, to take the peoples of the state of the to take the necessary steps to carry out your wishes even if you become incapacitated. As with other aspects of your estate plan, however, you'll want to review these arrangements periodically to make sure they still reflect your current think-

To consider making these moves- in fact, to make any moves related to estate planning--you'll need to work with a team of professionals, including your tax, legal and financial advisors. Comprehensive estate planning can be complex--but it's worth the ef-

land until the end (of time)." The form "Eireann go brath" or "Eire go brath" which also means "Ireland forever" or literally "Ireland until the Day of Judgment", is also used in Irish.

It should be noted that the Scottish Gaelic phrase "Eirinn gu brath," which means "Ireland until the Day of Judgment," is pronounced almost identically to the Angicized phrase. It may seem surprising that a phrase which has come to so strongly represent Ireland could have come not from Irish (Gaeilge) but instead from Scottish (Gaidhlig). However, a Scottish song from the 19th century entitled "Erin-go-Bragh" may have had something to do with this unusual progression. It tells the story of a Highland Scot who is mistaken for an Irishman. The first two verses (2) are:

My name's Duncan Campbell from the shire of Argyll

I've traveled this country for many's the mile I've traveled through Ireland,

Scotland and a' And the name I go under's bold Erin-go-bragh

One night in Auld Reekie as I walked down the street

Never a better time to purchase your at-need or pre-need memorial for your loved ones or yourself. All granite, bronze, and marble memorials continue to rise in price, along with all production cost involved in producing and setting a memorial.

If you or your family is in need of a memorial for a loved one or if you may be thinking of a pre-need memorial for yourself, you should take advantage of this sale.

Increasingly, people are choosing to purchase their own monument before the need arrives. By planning ahead you can select the style, size, and color you prefer. A personalized design which can reflect your beliefs, values, or whatever is meaningful to you. What do you want to tell future generations about yourself and your family? This is your opportunity to make your personal statement for history.

You can save money. Purchasing a memorial before the need arrives means that you are utilizing today's dollars. Like everything else, it will cost less now than in years to

It is less traumatic and emotional to purchase a memorial in advance. You have the opportunity to discuss the purchase with all family members. Most major purchases are completed with the interest of all members of the family. This is one of those major purchases.

Texas Sunset Road Granite, Canadian Morning Rose Granite, and Georgia Gray Granite memorials will be discounted 12% if paid in full and 10% with half down. 10% paid in full and 8% with half down if purchased by Master Card or Visa.

All other colors of granite and bronze memorials will be discounted 8% if paid in full and 6% with half down. 6% paid in full and 4% with half down if purchased by Master Card or Visa.

Memorial prices are determined by Size, Color, Shape, and if there is a need for any custom art work to produce the memorial.

Granite is a very heavy material and needs a good foundation in order to stay level and not sink. All memorials set by Sterling Monument Company are set on a 4 inch thick, steel re-enforced, concrete foundation with a guarantee. This is included in the purchase of a memorial. Sterling Monument Company will deliver or set your memorial anywhere in the State of Texas. Any fees that might possibly be due the cemetery for the memorial must be paid to the cemetery by the family before delivery or setting.

We at Sterling Monument Company take pride in our work and would be honored to help you and your family with your memorial needs.

## Youth Conference With Jacob Sheriff

Jacob Sheriff

#### **Duane Sheriff To Minister In Eastland**

**Duane Sheriff** 

Duane Sheriff's ministry team will be in the area again. This time, Duane will be ministering at the River of Life Church in Eastland, Texas. Pastor Duane is a gifted and anointed teacher called to edify and encourage the body of Christ. He believes that God's love crosses all denominational barriers and desires to see the churches come together and walk in love and unity. Duane's honest approach in his teachings is refreshing and has brought hope and healing to countless people across America and abroad.

Duane and his wife, Sue, place a high priority on the home where true ministry is practiced and lived. Along with his various ministries, Pastor Duane conducts a free tape and CD ministry. His audio preaching tapes and CDs are free upon request and will add strength and value to your life as you listen to them.

The services Duane Sheriff will conduct in Eastland begin on Sunday, October 11th, and go through Wednesday, October 14th. The Sunday morning service begins at 10:00am. Evening services begin at 7:00pm. River of Life Church will also host a Pastors/Leaders Conference with Duane Sheriff on Monday and Tuesday between 11:00am and 1:30pm.

The public is invited to attend these meetings at the River of Life Church located at 103 Pogue Avenue in Eastland. For more information contact the church at 254-629-1015 or www.eriveroflife.org.

We welcome all church news at this newspaper. Please mail to: P.O. Box 29, Eastland, TX 76448; E-mail: ecn@att.net; Fax: 254-629-2092; or you can bring it by the newspaper at 215 S. Seaman, Eastland, TX.

was" back in those unbelievable times. The village became a thriving metropolis overnight and hotel beds were rented by the hour and teams of oxen pulled vehicles through the non-existent mudflat streets. The boom has been described as the provider of the fuel oil that won World War I. When the McCleskey No. 1 blew in on Oct. 17th, it started it all. \$10. Postage and handling included. #### Volunteer **Firefighters And Emergency** Medical

It is reasonable to assume that on an intellectual level almost everyone in Eastland County understands the vital role of volunteer firefighters and emergency medical personnel. They respond to fires, accidents, medical emergencies, floods, and other life threatening situations. Most of us know this, but don't stop to think about it until it becomes personal. Then it is understood at an emotional level.

Eastland County's volunteer firefighters and emergency medical personnel are just that--people who donate their time, work at their own risk, pay their own expenses to go to training, take time off from work, take time from being with their family, sometimes use their own equipment, and sometimes loss sleep. They respond when called, without question, to help those in distress.

Eastland County is blessed to have 8 volunteer fire departments. We should all join together in financially supporting them. We should all go to their fundraisers. and we should meet the volunteers who give so much of themselves, we should thank them, and we should support their efforts in whatever way we can.

### LIFE PLANNING ISSUES By Jim Kennedy

2009 Q&A

This week I would like to address some of the most commonly asked questions of 2009. So here we go...

Question: I am being forced to tap into my retirement funds prematurely. What do I need to do?

Answer: On the one hand, don't feel like you are alone. In today's economy more retirement plan owners are being forced to tap into their retirement plans prematurely. On

the other hand, feel like you are alone - or at least act like it - and don't take advice from a friend, an article you found on the internet or advisor you heard on the radio or television. There is no "one size fits all" answer for this type of life planning decision. Your family situation is unique and you need a plan that is tailored to you. If you are being forced to retire early or take distributions from your retirement account early or especially prior to age 59 1/2, get professional

help. This is not an area to take lightly. Let me say something that you may have heard me say before: You don't know what you don't know. And it is often times what you don't know that will hurt you-and in this scenario it means real dollars and cents especially tax consequences. Remember today is the first day of the rest of your Life-How do you make your money last as long as you will?

year. Will I have to take a required minimum distribution by April 1, 2010?

mum distributions, commonly referred to RMDs, are the annual withdrawals the federal government requires you to take from your IRA or other qualified plan after you turn 70 1/2. Normally you would have until April 1st of the year after you turn 70 1/2 to take your first RMD. However, section 201 of the Worker, Retiree, and Employer Recovery Act of 2008

waives any RMD for 2009 including those individuals who are turning or have turned 70 ½ this year and choose not to take their first RMD until April 1, 2010.

Question: How can I get my debt paid off sooner?

Answer: It's hard to answer this question directly - planning isn't always about the answers. It is about knowing the right questions that need to be answered. Which is the case Question: I turned 70 ½ this here. It's not always best to pay your debt down as soon as possible: it depends on the type of debt you have, your income, Answer: Required mini- whether or not you are able to write off the interest and how beneficial this is, the interest rate, the rate of return you are receiving on your other investments etc. A better question might be: What is the best way to approach the debt I have? The key word here is best. This may sound redundant, but the best way is to work with your Life Consultant to establish a liability plan that best fits your

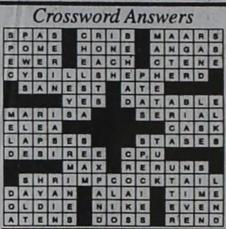

unique situation. For some, the best approach may be to pay off your debt as soon as possible. If this is the case, we utilize a software program that helps our clients reduce this time. If not, we help our clients establish a timeline that prioritizes their liabilities.

Question: My son and his wife both lost their jobs and need financial assistance. How can we support them when our own financial situation is tight?

Answer: Unfortunately there is no cookie-cutter answer I can give you, but I can give you a few starting points. As with any significant life change, revisit your Life and financial plans. Work with you planner to find out what you can afford to do. Also, have your Life Planner work with your son and his wife to analyze or build a plan of their own in order to help them look at all possible options. One of the services we provide to our clients is family planning meetings. These meetings are de-

signed to discuss the family's current and future financial situation in a heutral, professional setting. It is important to explore the available options. discuss the positive and negative outcomes of these options and answer some barrier questions that often become apparent between parent and child. The one thing you don't want to do is not plan. In today's current economic and financial environment not planning could put a negative doubledigit mark on your retirement account.

## SUDOKU

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
