## COUNTY AGAIN TOPS ITS WAR BOND QUOTA

### NEW YORKER ASSAILS VICTORY MAGAZINE

WASHINGTON, Feb. 11.—A charge by Senator Holman of Oregon that the office of war information's overseas magazine "Victory" was booming President Roosevelt for a fourth term brought a denial from OWI Director Elmer Davis as Representative Taber of New York leveled a fresh attack at the publication.

Davis, replying to Holman's recent charge asserted the magazine had "no political purpose whatever." Referring to an article about Roosevelt in the first issue, he said it was impossible to publish a magazine for overseas distribution without mentioning the president, and added:

"You can't elect a president of the United States with votes in foreign countries."

Taber described the magazine as useless and declared its publication and distribution was "criminal." Estimating the 990,000 copies of the first two issues represented 402 tons of shipping space, he said:

"It is a sad state of affairs, when shipping space is so short that our soldiers can not receive a carton of cigarettes or a box of candy or the hometown newspapers from their families, but plenty of space seems to be available for such foolish publications as "Victory."

### ROTARY LUNCH WAS GAY OCCASION TODAY

One of the outstanding entertainment programs of the year was brought to the Rotary club by Dr. Gary L. Smith today when he presented a round of vocal numbers with piano accompaniment that ran the gamut of valentine love songs, negro spirituals, humorous and sacred themes, all emphasized by Pansy Crawford's deep bass voice.

President Ernest Hittson announced that J. E. Hays would become a full-fledged Rotarian at next week's meeting. Other visitors were Rotarian R. E. Kuykendall and son Robert of Abilene; R. C. Patterson and J. M. Reedy, Tulsa, Okla., both guests of R. L. Ponsler; Dr. Elwin Skiles, Russellville, Ky., and Jim Horton, Eastland.

Dr. Smith's program worked very smoothly except for the fact that Rotarians Hittson and Crawford wanted to make speeches between numbers. Of all the numbers, perhaps the climax that brought the house down was the "Three Old Maids," in which Mrs. Ernest Hittson at the piano, Mrs. A. E. Jamison as the soprano and Mrs. W. W. Wallace as alto, burlesqued their parts to perfection. Mrs. Hittson presided at the piano for all numbers with Ernest Hittson as tenor and Pansy Crawford as basso.

The program ended with all present standing and singing, "Praise the Lord and Pass the Ammunition."

### INVASION THIS YEAR.

LONDON, Feb. 11.—Prime Minister Churchill declared today that the Allies had landed nearly 500,000 men in Africa and planned an offensive campaign during the next nine months with the goal of engaging the enemy "on the largest possible scale and at the earliest possible moment."

### DIES STARTS WORK.

WASHINGTON, Feb. 11.—Authorized to continue its investigation of un-American activities for two more years, the Dies committee turned today to a list of more than a thousand federal employees to determine how many should be discharged for disloyalty.

### CITIZENS COMMEND COLLECTOR

H. T. Brannon, C. W. Drechsel and H. M. Vineyard, deputy tax collectors from the office of W. O. Thomas, internal revenue collector, Dallas, spent a busy day in Cisco Wednesday while aiding Cisconians in making out their income tax returns.

The office in the basement of the postoffice assigned to the visitors by Postmaster L. H. McCrea, was comfortably filled all day by those needing the help so graciously tendered by Collector Thomas, who was verbally commended by many citizens for the courteous, efficient service rendered.

### AMAZING SOVIETS KEEP MOVING ON

MOSCOW, Feb. 11.—Russian armies tightened a death grip today on Kharkov, Russia's fourth city, and drove toward the suburbs of Rostov in a new threat to that Don-mouth city from the northeast.

Closing in on Kharkov in a steel-clad arc tightening like an inexorable giant hand, the Russians were now less than 22 miles from the city, with the big guns following closely the tanks, infantry and cavalry.

(Stockholm dispatches put the Russians only six to 10 miles from Kharkov. They reported the Germans starting to evacuate it, moving out such men and heavy materials as they could, under a heavy bombardment by the Russian guns, as the mobile forces advanced through blinding snow.)

Maintaining an amazing mile-an-hour advance yesterday, the Russians captured Volchansk, 337 miles northeast of Kharkov; Belyi Kolodets, 12 miles southeast of Volchansk and 40 miles east of Kharkov; Chuguyev, 22 miles southeast, and Pechenegi, 10 miles east of Chuguyev.

### HOG CHOLERA A THREAT TO EASTLAND CO.

Dr. T. O. Booth, Texas sanitary livestock commission veterinarian, will discuss hog cholera and the importance of vaccination and give a demonstration of vaccination next Monday night at 7:30 o'clock, Eastland chamber of commerce.

This announcement is made by Floyd Lynch, county agent, who says birds and winds are carriers of the disease, which is reported in various parts of the county at this time.

With the present price of hogs and the need of meat to help win the war, it is most important that this disease be stamped out as quickly as possible.

Continuing, Mr. Lynch added: "Many questions have been asked about the disease and many different opinions expressed, hence it is the duty of all those having hogs to attend this meeting and ascertain exactly the proper thing to do and how to do it."

### CISCO SAILOR ARRIVES OVERSEAS SAFELY

Mr. and Mrs. Louis J. Schlaepfer have received word that their son, Corporal Frank R. Schlaepfer, has arrived safely overseas.

The Cisco young man was formerly on the USS. Lexington, later at Pearl Harbor and for the past six months has been on duty at Oceanside, Calif.

### 2,400 TEXAS CHURCHES AID DEBT WIPEOUT

DALLAS, Feb. 11.—The last remnant of debts owed by the Baptist general convention of Texas will be wiped out, with the burning of final notes, at a convention board meeting here April 6, it was announced by Dr. W. W. Melton, executive secretary, as he left for the annual mid-winter meeting of Southern Baptist state secretaries, West Palm Beach, Florida.

More than 2400 Texas Baptists churches participated in the victory debt-paying campaign last fall, Dr. Melton said, and this resulted in raising \$365,000 of the \$400,000 needed to wipe the slate clean of debts on the general convention as such. These debts had been steadily reduced from \$2,000,000 a few years ago to \$400,000 at the start of last fall's campaign.

ONLY ONE—Captain Louise Anderson of WAACS, stenographer at General Dwight Eisenhower's headquarters in North Africa, was only woman at Roosevelt-Churchill conference.

### THREE LOCAL AIRMEN ARE MAKING GOOD

The Daily Press is in receipt of handsome photos of three boys slated for early graduation from the army air forces training center at Randolph Field, Texas. The pictures have been placed in the Daily Press Picture Gallery and may be seen by calling at this office.

The young men in question, who soon will be swooping out of the clouds to destroy Axis objectives, are as follows:

Lieut. Leonard M. Yarbrough, 805 W. Seventh street, Cisco.  
Lieut. Alvin R. Heslep, Putnam.  
Lieut. Fred G. Montgomery, Ranger.

### GREER HAS OPERATION.

K. N. Greer, popular manager of the Palace theatre, went on the operating table in a Dallas hospital Wednesday for a minor trouble and a report following the operation said he was doing nicely, according to Mrs. Reed Young, in charge of ticket sales at the theater. Mrs. Greer is with the Ciscoan.

### WHITEHEAD FUNERAL.

The funeral of L. R. Whitehead, 70, who died Tuesday night at his home in Cisco, was held at the Church of Christ this afternoon at 3 o'clock. Rev. Mr. Dunn of Rising Star officiated at the funeral and the Thomas funeral home was in charge of the burial, which was in Oakwood cemetery.

### PIONEER OIL MAN.

TITUSVILLE, Pa., Feb. 11.—Robert D. Locke, 92, pioneer Pennsylvania oil man who helped drill the first oil well in the Chinese Empire, died Wednesday.

### 2 LADIES CREATE A HUBBUB

WASHINGTON, Feb. 11.—Mrs. Eleanor Roosevelt says she saw no reason for the United Nations to withhold defining their peace aims until they learn what Josef Stalin is thinking about — Rep. Claire Boothe Luce (R. Conn.), to the contrary notwithstanding.

Mrs. Roosevelt, at a press conference, late yesterday, took exception to practically everything Mrs. Luce said in her maiden speech in the House yesterday. The speech was stirring up considerably more comment than usually is forthcoming from congressional speeches, even those by the elder statesmen.

Mrs. Luce referred to Vice President Henry A. Wallace's aims, and Wallace went to the unusual length of issuing a one-paragraph statement about it.

Wallace said he was sure "the vast bulk of Republicans do not want to stir up animosity against either our Russian or English allies at the present time."

It remained for Mrs. Roosevelt, however, to talk about the speech at length.

Mrs. Luce had said that before advocating "freedom of the airways" and other post-war theories the leaders of this country and Great Britain might do well to await Stalin's pronouncements. Said Mrs. Roosevelt:

"We cannot be inside peoples' heads. We have to accept what they say. Personally I think Mr. Stalin has said a great deal."

Mrs. Luce said she thought the policy of freedom of the seas had been detrimental to the American merchant marine. She suggested that when the war has ended the British would be prepared to develop international airways, possibly with Lend-Lease planes.

Mrs. Roosevelt said: "We have always had freedom to sail the seas, and the only reason Great Britain has had more ships on the ocean than we is because she is an island and a merchant marine is vitally necessary to her trade. . . . I believe all nations should have free access to the travel lanes of the world, whether they are air or sea."

A reporter told Mrs. Roosevelt that Mrs. Luce said she did not think this country should permit other nations absolute freedom of air over our territory.

"Well, are we going to have a peaceful world, or aren't we?" she said. "Anybody who thinks he can live in isolation is putting his interests, which are primarily personal, ahead of those of his country or of the world as a whole."

Mrs. Luce said Wallace's "global thinking is — no matter how you slice it — still globaloney." Wallace's proposal for "freedom of the air," she said, was not likely to prevent another world war.

### ROOSEVELT ON AIR.

WASHINGTON, Feb. 11.—The white house announced today that President Roosevelt would make a 20-minute radio speech beginning at 8:30 p. m., Central war time, tomorrow in which he will discuss many objects concerned with the foreign and home fronts. The speech will be broadcast on all networks.

### IN FULL COMMAND.

WASHINGTON, Feb. 11.—President Roosevelt today nominated Lt. Gen. Dwight D. Eisenhower to be a full general, coincident with Prime Minister Churchill's disclosure that Allied forces opposing the Axis in North Africa would be unified under Eisenhower's command.

### HALL REAPPOINTED.

AUSTIN, Feb. 11.—Governor Stevenson today reappointed Marvin Hall of Brownsville as state fire insurance commissioner for a six-year term beginning Feb. 10.

### FOR SECOND TIME, GORMAN IS IN LEAD, WITH CISCO SECOND; TOTAL WILL REACH \$100,000

Eastland, Feb. 11, 1943. Cisco Daily Press Cisco, Texas.

Gorman, for the second successive month, leads all other cities in Eastland county in the sale of War Bonds and Stamps.

It will be recalled that for the month of December Gorman lead all other towns in the county, Gorman having purchased more bonds and stamps for December than the county's quota was for December. Now, with the January reports in, Gorman again takes the lead by subscribing almost one-half of the January quota.

The county quota for January was \$50,400 and to date the different communities in the county have reported sales of \$90,133.25.

To this will be added the credits for employer-employee deductions, which will run our purchases to approximately \$100,000 for January. This is a wonderful showing.

Our quota for February has been set at \$50,400 and it is to be hoped that the county will make as good a showing for February as they have for January.

The amount purchased by each town is as follows:

Gorman	\$24,285.50
Cisco	24,216.10
Eastland	18,046.25
Ranger	15,257.50
Rising Star	4,927.50
Carbon	2,905.00
Desdemona	208.75
Olden	168.95
Scranton	66.35
Pioneer	28.75
Okra	11.40
Nimrod	6.20
Dothan	5.00

As we invest our money in these bonds we make it possible for our government to pay the expenses of this war; we head off inflation and we build up our savings which we will all need very much when this war is over. Let us continue to increase our savings on the home front while our boys and girls continue to lengthen the fighting lines on the war front!

Very Kindly Yours,  
CYRUS B. FROST,  
Eastland County Chairman.

### WMC HEADS IN MIDDLE OF A HEFTY TASK

WASHINGTON, Feb. 11.—The war manpower commission, in working out the 48-hour-week problem, has gone on what looks like a 48-hour day.

Telegrams pour in, telephones jangle with inquiries from employers, from regional offices of WMC, all day and into the night. Harried officials have discovered many complications they had not thought of when they devised the 48-hour-week formula to meet the manpower shortage. There were evidences that the

announcement had been a bit hasty. All the answers won't be ready for some days.

By the end of this week the WMC expects to have prepared general standards and specifications to guide its local and regional offices in applying the 48-hour principle.

Administration will be decentralized through the dozen regional offices, which will interpret these standards and specifications in accordance with local conditions, and in collaboration with industry-labor committees. Questions that can't be decided locally will be referred here for decision.

A sample of the complicated problem WMC faces, and the failure to foresee and decide some issues, a series of questions and answers about the 48-hour week which had been prepared for distribution to newspapers had to be recalled for correction of some of the answers.

## LOUVAIN'S ARCHITECT.

The death of Whitney Warren at 78 removes a great American architect. He designed the Grand Central Terminal in New York, as well as several of the city's largest hotels. He is best remembered, however, for his reconstruction of the Louvain Library in Belgium, destroyed in the last war by the Germans.

His work on this was attacked not for artistic reasons, but because of the Latin inscription which, translated, read, "Destroyed by German Fury; Restored by American Generosity." Though this seems a fair statement of the facts, it was attacked, in Mr. Warren's words, by "pacifists and politicians" who called the inscription "a legend of hate." Though the wording had been suggested by the late Cardinal Mercier, the Belgian leader during the German occupation, it was opposed by other Belgians, and despite a legal battle by Mr. Warren, was at last omitted.

Now the Louvain Library has been destroyed a second time. If, as cannot be doubted, American generosity again makes good the loss, it is to be hoped that another Warren will arise to create an equally beautiful building. In any case, now that a second demolition has rubbed in the lesson, there will probably be no more opposition to an inscription fixing German responsibility.

## TEXAN IN COMMAND.

At last something in North Africa really seems to make sense.

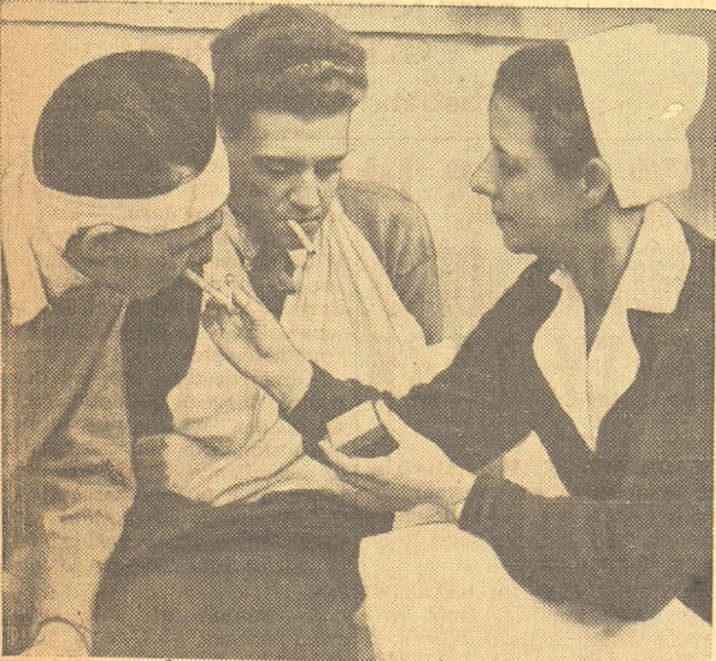

So far, nothing has been clear there except the British stopping Rommel in western Egypt and pushing him westward in the rain week after week, like Yellow Dog Dingo chasing Old Man Kangaroo all across Australia. Everything else was politicking and geeing and hawing around, with rival leaders following each other in all directions forever, like enchanted troops in a fairy tale.

Now President Roosevelt, himself emerging from that weird region, says Uncle Sam is going to give General Giraud some guns and grub and uniforms, and stand behind him while he cleans up North Africa and drives the Nazis into the Mediterranean. That means one concentrated job of cleaning up the Dark Continent, preliminary to pushing across the Middle Sea and getting at the "soft underbelly" of the Axis.

It looks like a clear and practical plan, instead of just whipping the Devil around the stump. As it gets under way, the American general, Ike Eisenhower, of Texas, is given supreme command of all North Africa forces, including the British Eighth army, which is as it should be. And the Turks, who are tough babies in any man's war, may lend a hand if General Eisenhower needs them.

ing "Brighten the Corner Where You Are," with Mrs. Paul Poe playing piano accompaniment after which quiz contest was directed by Miss Word.

Roll call response was an account of "My Penny Saver." Several members displayed their "Second Front," an old dress made by adding a new dicker. The meeting was then turned to Miss Gladys Martin, who brought the lesson. A period was taken up in discussing grape culture and she presented grape cuttings, furnished by Mrs. Bob Walker.

The second period was a discussion of "Making Poultry Pay." Miss Martin gave a bulletin on poultry helps which contained advice on purchase of baby chicks, preparation before they arrive and how to care for them. Instruction on "Home-made Lamp Brooders" was another subject discussed.

The third period was devoted to telling how to plant a victory garden. First, preparation of the soil, selection of seeds, obtaining a list of names of vegetables that grow well in Eastland county, and proper cultivation. She urged all members to plant a bed. An old tub, dish pan or box may be filled with soil mixed as follows: Two parts top soil, one part rotted manure and one part sand. Put a layer of coarse sand one inch thick over the bed. Mark off rows in the sand two inches apart, plant seed there, three or four to the inch and cover one-half inch deep; scatter small gravel on the surface and sprinkle freely with water. Seed that do well in a bed of this kind are lettuce, cabbage, egg plant, tomatoes and peppers.

The council report, given by Mrs. Clint Britain, followed. Word club decided to meet in all-day work session, Thursday, February 18, at the Red Cross sewing room.

Each club held short business sessions at the close of the joint meeting.

# POINT Rationing

Point rationing will begin soon and most people are wondering just how it will work. Some raids have been made on stores to provide against its catching them napping.

But it is very likely that any worry is needless. It will probably prove out in the end that, like sugar rationing, people will get all they really need and some to spare.

Meanwhile we can serve your needs in most all lines of honest merchandise, and JAY'S Market will still have some of that famous Home Killed Meat and Home-Made Sausage.

**FROM RAIL SPLITTING TO THE PRESIDENCY...  
THAT'S AN AMERICAN TRADITION**

This month we are celebrating the birthday of Abraham Lincoln. February 12 is a landmark in American history because that day stands for the birth of a man who was an outgrowth of what the American land and government can do for the humblest boy if he but have the industry, the ability to absorb the hard knocks, and the idealism that is a part of the American heritage.

Lincoln was ready to sacrifice for those ideals. To day, we must be willing also, to sacrifice some measures of luxury to win a war to retain our American freedom.

We must buy bonds and stamps; we must pay higher income taxes and Victory taxes; we must ration sugar, coffee and many other food luxuries; we must ration our tires and gasoline—in short, we must be willing to give of our manpower and whatever else we have to keep that American flag waving to the free breezes of all that American liberties can mean to our own land and to lands across the seas where such freedom and opportunities were never even dreamed of by the boys of those imperially ruled countries.

**Take Abraham Lincoln as your ideal. Be willing to work and sacrifice for the perpetuation of American liberties for your children and posterity.**

### What You Buy With WAR BONDS

Down in the Solomons and on the African coasts the Crocodile Boat or tank lighter played a most important role in landing our invasion armies. These self-propelled, light fast boats haul tanks, artillery and other equipment from the big ships off-shore to the beach heads.

We need more and more of them for they are essential to the successful operation of the war. They are made in several sizes from small fifty-footers, costing about \$2,400 to the big 500-tonners costing around \$37,000. Your purchase of War Bonds every payday will help pay for them. U. S.
