NUMBER 8

Lone Star Gas Co. to Attempt to Monopolize Gas Production

Let's Consider the Nine Amendments State Constitution

Every voter will be called to pass upon the nine amendments to the state constitution which will be submitted in the election to be held Nov. 8. First of all we want to vote intelligently, and to this end the Citizen will give its views on each amendment, and attempt to advise its readers as to the merits of each one proposed. Our readers are advised in advance to scrutinize each proposition carefully before endorsing this amendment by their vote. For instance:

No. 1. House Joint Resolution No. 24, provides that only a sufficient amount of property on which taxes are delinquent shall be sold to satisfy the amount due, and providing further that the owner shall have the right to redeem said property in one year by paying all the money the purchaser paid, plus a filing fee of \$1.00, and not over 25 per cent additional on the purchase price and fees paid. After two years the principal, interest, \$1.00 filing fee and not over 50 per cent on the total cost to the buyer, including taxes, interest, penalties, and other costs shall be paid for redemption. After that the former owner's rights are forfeited.

The provision of this amendment is reasonable, as there is not any just grounds for selling all of the property for taxes when only a portion would be required to liquidate the tax unpaid. Then the owner could redeem the property in one year by paying 25 per cent interest, plus the filing fee of \$1.00.

No. 2. House Joint Resolution No. 2, provides for the authorization of counties and cities bordering on the Gulf of Mexico to issue bonds for seawalls, breakwaters, and for sanitary purposes, on two-thirds vote of the qualified voters. The amendment provides proper safeguards for the payment of the bonds and interest.

People of this section should vote for this amendment since it

(Continued on page 4)

JUDGE BUTTS RECOVERS FROM RECENT ILLNESS

Friends were joyously greeting Judge J. J. Butts Tuesday when he appeared on the streets of Cisco after an illness of a few weeks duration. Judge Butts was seriously ill a part of the time of his confinement, and his recovery is good news to all who know him.

Mrs. J. C. McAfee, who has been visiting her parents, Mr. and Mrs. J. C. Neely, at Austin, returned home Tuesday. Mr. McAfee motored to the capitol city to accompany her home. Mr. A. B. O'Flaherty returned with them for a short visit here.

MRS. LINK HUNTINGTON TAKEN FROM HOSPITAL

Mrs. Link Huntington, the only survivor of the Simpkins tragedy that ended the lives of Henry A. Simpkins and his wife, Lucile, at their home here September 27, has so far recovered from her wounds as to be able to leave the Graham Sanitarium where she has been treated and nursed back to a state of convalescence. She was taken to the home of Mr. and Mrs. Carl Nix, 608 E Avenue, in an ambulance of the Green Funeral Home, last Tuesday. She is reported to be recovering nicely, and will like to her farm home in the near future.

Mrs. Huntington received two serious wounds from the same gun that ended the lives of both Simpkins and his wife.

LEE POE RECOVERS FROM RECENT MAJOR OPERATION

R. Lee Poe, president of the First National Bank of Cisco, and one of the best known citizens of Eastland county, has so far recovered from a recent major operation to enable him to be on the streets yesterday.

Mr. Poe submitted to a rather serious operation at the Baylor hospital at Dallas about two weeks ago, and that he is able to be on the streets again is cause of congratulations from his friends. He is looking fine, and indications are that his complete restoration to health are flattering.

CONDITION OF GREER REPORTED FAVORABLE

K. N. Greer, who has been a patient at the Graham Sanitarium for several weeks, recovering from a broken thigh, is getting along nicely, according to reports from the hospital, when it is taken into consideration the seriousness of the injury sustained.

His strong will and constitution stands him good, as he is cheerful, and always glad to have his friends visit him in the evenings.

J. E. SPENCER CALLED BY MANAGER BANDEEN

J. E. Spencer, secretary of the Cisco chamber of commerce, was called to Austin Thursday by a telegram from Manager Bandeen, of the West Texas chamber of commerce, to confer with the governor and members of the committee considering the distribution of the R. F. C. fund. The cities of Eastland county are applying for a loan of \$48,000.

WANTED—Capable man to take charge and operate wood yard. Reference required, as party will have full charge. Apply at Roan's Wrecking Shop, avenue D.

Commission Defers Action on Charter Amendments Filed

Official action was deferred of intention of the commission to order an election to submit the five amendments to the city charter to a vote of the people at the meeting of the commission Tuesday evening. Mayor Berry stated he desired to bring up the matter at this meeting, but on account of the absence of Commissioners Burnett and Winston he thought it best to postpone the matter until a full commission was present. So the disposition of the amendments will go over until the next regular meeting, October 25.

Commissioner Clements reported that eight additional lots had been plotted at the cemetery, which would be more desirable than those heretofore plotted.

Katy Taxes Adjusted
The matter of the adjustment of the assessed valuation of the property of the M., K. & T. railroad was taken up on application of Katy representatives, who stated that their valuations was not in line with that rendered by the Texas & Pacific road. This was ascertained to be true and the commission, upon recommendation of the board of equalization, made the adjustment, placing the valuation of the company's property at \$38,000.

Dr. W. P. Lee, city health physician, in his monthly report for September, stated that the general health of the city was good, showing only one case of contagious disease, which had been quarantined. There were eleven births and seven deaths in September, Dr. Lee's report revealed. He read a letter from the state health department cautioning city physicians against oysters from uncertified oyster beds. Dr. Lee stated he had investigated all dealers in the bivalve, and found none were handling oysters from these beds. The report showed that the fruit dealers, who have been operating on North D avenue and Third street, had removed to other locations, and had applied for health certificates.

What promised to develop into a spirited gab fest between H. L. Kunkel and Commissioner Elliott was terminated by Mayor Berry who closed the case by assuring Mr. Kunkel that the matter in controversy was settled after Elliott had stated that Kunkel's taxes would be settled "if I have to pay them myself." Mr. Kunkel had come before the commission relative to his taxes, having previously tendered a check on the Cisco

(Continued on page 4)

Socialist Speech Dallas Monday

The Citizen is requested to announce that Norman Thomas, Socialist candidate for president, will speak in Dallas Monday, Oct. 17, which will be the only speech he will be able to deliver in Texas during the campaign. From 5 to 5:30 o'clock Mr. Thomas will broadcast over WFAA, Dallas News-Journal radio station, and through the courtesy of the Atwater-Kent local dealers loud speakers will be installed on the city hall lawn to enable everyone to hear the Socialist candidate for president of the United States, the Citizen is advised by the local organization of the Socialist party. If you are interested in knowing what the Socialist party advocates this will be your opportunity to hear their doctrine from the recognized leader of that political party.

While the sale has not yet been made public, but unless some obstacle is encountered not at present anticipated, the Lone Star Gas company will soon take over the gas properties now controlled by Jack Lewis, of Eastland, according to information given the Cisco Citizen from what we consider a most reliable source. This sale is now in the formative stage, as there is considerable work to be done in perfecting the title etc. It is learned that an Eastland abstract firm is now making an abstract of the property preparatory to the actual passing of title to the Lone Star. Just when the sale will be publicly confirmed is not stated, as the necessary legal ramifications must be adjusted before title can actually pass, and the sale announced.

The acquisition of this property will give the Lone Star a monopoly most complete of practically all of the gas producing lands in Eastland county, which leaves them without competition, and unless some legal restraint is exercised over this monopoly they can continue to maintain a city rate of 45 cents per 1,000 cubic feet to their illegitimate offspring, the Natural hijackers, who are supplying the towns in the Oil Belt.

As the Citizen views the new situation Cisco can expect little benefits by this transfer, either in the hope of cheaper fuel, or more liberal takings from the gas wells owned by Cisco people. It is understood that the gas wells held under lease are included in the transfer, many of which are owned by Cisco folk.

Unless the Lone Star reverses its former attitude these owners can expect decreased takings of gas from their wells. In fact, unauthenticated rumors have reached the Citizen that the Lone Star has a system of expert meter readings that fail to give the well owners the best of the takings. We do not know that these rumors are

Trade What You Do Not Want For That Which You Do Want

Knowing that cash is a scarce commodity, and many people have something that they do not need, the Citizen has decided to run a free swap department for the benefit of those who want to trade.

Let's start something! If we can't pay cash for what we want, let's get action by swapping with our neighbors. Nearly every person has something they are not using, and could use something they do not have, but have no cash to buy it. Get what you want by swapping.

Let's swap. This department will be open to the farmers in the Cisco trade territory, and persons living in Cisco who are not engaged in business. Only something to swap will be printed free. If it is a cash sale you want you can use this column by paying one cent a word.

T. L. Lassater is the first to take advantage of this offer. He authorizes the Citizen to insert the following:

WANTED TO SWAP—Red Poland China bred gilt, to farrow about Nov. 1, for good milk cow, or heavy springer.—T. L. Lassater, Rt. 2, Nimrod.

WANT TO SWAP—Good Coleman lamp, used three months, for something of equal value. What have you. Box 355.

WANT TO SWAP—Subscription to Cisco Citizens for butter, eggs, chickens, black eye peas, sweet potatoes, fresh meat, canned goods, sausage or other food that you would like to trade for the only home-owned newspaper in Cisco. A dollar's worth of the above articles pays for one year's subscription, either new or old subscribers.

To insure free insertions in the "Swap Department" the swap-ad copy must reach this office not later than Tuesday afternoon

true, and it is possible that the meter readings are correct, but we do know that some of the owners of the wells under lease by the Lone Star complain of the small takings. Most owners have expressed themselves satisfied with the takings as reported by the Jack Lewis interests.

So, by this transfer the communities served by the Lone Star, through their subsidiary company, the Community Natural, can hardly expect a lower gas rate, as the gate rate is the chief obstacle to lower gas, nor can the well owners expect larger takings from their wells.

The acquisition of this additional gas property further entrenches the Lone Star monopoly, which if not restrained, will place the communities and the well owners more completely in the power of the most ruthless monopoly that ever cursed the state.

Another evidence that this sale is authentic is the removal of Mr. E. A. Murrell, Lone Star official at Cisco, to Ranger. The reason for this removal is stated that the Lone Star owns a vacant residence at Ranger, which Mr. Murrell will occupy.

John L. Dennison Passed Away Monday

Death removed another pioneer citizen of Eastland county early Monday morning when John L. Dennison passed away at his farm home in the Dan Horn community at 1:15 o'clock. Friends and neighbors prepared the body for burial and arranged the funeral. The casket was secured from the Wippen Funeral Home. Burial was in Oakwood cemetery, Cisco, last Tuesday.

Mr. Dennison came to Eastland county from Tennessee, and it is believed he was one of the emigrants who came here through the efforts of Mr. Bettis, father of the late Dr. Bettis, who was instrumental in getting many of his former friends and neighbors in the state of Tennessee to locate in this county.

At the time of his death Mr. Dennison was 70 years, eight months and four days old, and had lived in the Dan Horn community ever since coming to this section about 40 years ago. He is survived by his widow and four sons, Paul, Jack, Ed and William Dennison, all grown. His only daughter was Mrs. Flora Owings, who passed away early this year.

He was well known to many Cisco people and other people of the county, and was esteemed for his honesty and uprightness in all his dealings with his fellow man. One of his surviving sons lives in Washington state, and he was planning to sell his farm home here and spend the remainder of his life with him.

Baptists of Pueblo Sunday Celebrated Ordination Service

The Baptist church at Pueblo celebrated ordination services last Sunday, when Rev. Cole, who had been called to the pastorate of the church, was formally ordained as pastor of that congregation. By request of the church Rev. E. S. James, pastor of the First Baptist church of Cisco, presented the candidate and conducted the ordination services, assisted by Rev. Jas. L. Smart, pastor of the East Cisco Baptist church, who led in the questionnaire; Rev. M. A. Agnew, who led in the dedication prayer, and Mr. Asa Skiles, who presented the Bible with a very impressive talk from a layman's view.

Mr. E. L. Wisdom was elected clerk and Rev. James L. Smart as moderator.

Rev. E. S. James delivered the charge in a sermon from the scriptures, "Preach the Word."

Other members of the presbytery present were J. M. Pence, Chester Allen, J. W. Booth, Pueblo; Conrad Schaefer, J. R. Green, O. L. Mason, East Cisco church; W. L. Fencher, Moran.

Mr. and Mrs. J. A. Lash spent the week in Dallas where they were guests of their daughter, Mrs. W. T. Graham and Mr. Graham.

When brought to the editor's attention any erroneous reflection upon any person, firm or organization will be cheerfully corrected.

BIBLE THOUGHT FOR TODAY

But thou, when thou prayest, enter into thy closet, and when thou hast shut the door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly.—Matt. 6:6.

Ere dawn her saffron sails unfurled,
Or timid night-wraiths fled away,
The penitent looks up and crieth:
My Father, I would learn to pray.
—E. Jewel Robinson in C. S. Sentinel.

Since desire is prayer, and fervent prayer, coupled with the longing to do the will of the Father, conditions us to receive the blessings which God hath prepared, from the foundation of the world, for those who love Him.

"AS THE TWIG IS BENT THE TREE IS INCLINED"

The Benjamin Post says: "Selectman, Hunt and San-difer, three of the state's so-called educational leaders are joining hands with the bolters again this year. Is it any wonder that the people hesitate to send their children to a school where the president says by his actions: 'Sure, I am a liar; it's alright to lie to your party; the church of which I am a part condones it, this school over which I preside upholds it.'"

VOTE AGAINST CENTENNIAL AMENDMENT

Citizen readers are advised to vote against the constitutional amendment authorizing the legislature to make an appropriation for a Texas centennial. This is one of the proposed amendments that will be presented to the voters November 8. The Citizen is not opposed to the proposition to advertise Texas to the world, but as there are many more meritorious projects that is before the legislature, we see no reason for a state appropriation of funds at this time to advertise the state's resources when thousands of Texans are hungry.

THE STERLING REACTION

A press dispatch says the state is awaiting the reaction of the bolt of Ross Sterling. There will be no reaction, according to Sterling's anticipation, rather it will be in the nature of a reverse, for few who even voted for the fat boy will follow his lead into the Republican camp except those who have previously intended to vote the Republican ticket should the Standard Oil candidate be repudiated. Other than that small bunch, masquerading as Democrats, who vote in the primaries to nominate a representative of the special interests, and if successful, remain good Democrats for that election. But if their man is repudiated, they do the cry-baby act, and move over into the Republican camp.

Four years ago they succeeded in getting enough religious intolenters to follow them to deliver the state to Hoover, but never again. Already the tide has set against Sterling, and even those who supported him are denouncing his bolt. The Citizen believes but a handful of his followers will go with him in his bolt, and nine out of ten of these will be partisans of easy virtue. No real Democrats will join the exodus.

MRS. FERGUSON WINS COURT FIGHT

The courts have decided the contest instituted by Ross Sterling to prevent the certification of Mrs. Ferguson's name as the Democratic nominee in favor of Mrs. Ferguson. The supreme court granted the mandamus commanding Mrs. Jane McCallum, secretary of state, to certify the name of Miriam A. Ferguson to the county clerks of the counties of Texas as the Democratic nominee. At the same time the court held that District Judge Robertson, in dismissing the contest filed by Sterling, had committed no error.

This ends the most unprecedented legal proceedings ever filed in Texas, as well as the most unusual. That the contest was filed in the interest of the Republican candidate for governor is believed by many, especially since Sterling has announced he will support Orville Bullington, the Republican nominee for governor. That Sterling should take this position no one was surprised, as his attitude following his repudiation by the voters of Texas was that of a poor loser, to say the least. After waging one of the most questionable campaigns ever staged in Texas, one fraught with many questionable practices, tinged with fraud and corruption, he raised the howl of illegal voting, and declared that Mrs. Ferguson had procured her nomination by the votes of those not qualified for the ballot. In doing so he branded some of the best men and women Dem-

ocrats in Texas as law-breakers, for 'tis a felony to vote illegally in Texas.

Now that Sterling has lost his contest he smites the hand that has fed him, denounces the party that has honored him and is ungrateful to the honest men and women Democrats who supported him at the polls, conscientiously and persistently in both primaries. He will find it a hard job to lead these honest men and women into the camp of the enemy, for they will desert him as they have been deserted, and class him a poor sport and an ingrate.

While this campaign and subsequent events have shown Sterling up in his true colors, it has also manifested the fighting qualities of Ferguson. Instead of eliminating Fergusonism from Texas, Sterling has done more to make him stronger before the people than ever. The Fergusons are today more strongly entrenched in political esteem than ever before, as he has conducted a campaign that few can condemn. He has held his poise at every angle, and put up a strong fight for his wife, and won.

The people like a fighter, and they also admire a winner, if he has fought fair. And this Ferguson has done. He has met his opponent on every battlefield and bared his breast to the enemy's political shafts without asking quarter. Championing the cause of the masses in their fight against the special interests, he has won a place in the affections of the people that will go down in history equal to that held by Hogg, Reagan and Coke when the present generation has faded from Texas, and the memories of hate and prejudice, engendered in the heat of campaign, has been forgotten.

Impeached though he be, the name of Ferguson will be remembered when that of Sterling has been long forgotten.

J. A. Dill Awarded Garbage Contract For Ensuing Year

The city commission Tuesday night awarded the garbage contract for next year to J. A. Dill, he being the next lowest bidder after the two preceding bidders had failed to qualify. This was the third time the commission had let this contract, which will likely settle this matter for all time. There is nothing to prevent this from being true except the filing of the required bond, for which Mr. Dill says he has already made arrangements. In awarding the garbage contract the commission voted to require a surety bond, but the Citizen is informed that an ordinance passed by a previous administration was already in force, as there is no record of it having been repealed.

By resolution the commission decided to let this contract in August, and attempted to do so when J. H. Woodward was the lowest bidder in a field of about 13. Woodward was unable to make the required surety bond. Then the contract was given to W. A. Baber, as the next lowest bidder. Baber notified the commission that he could not accept, so the matter was again open for bids, which was definitely settled by Dill being unanimously voted the job, and will be recognized as duly installed January 1, 1933, provided the required bond of \$3,000 is filed.

HARRINGTON NICKLE PLATE CIRCUS COMING HERE TUES.

Harrington Nickle Plate Circus, which is scheduled to exhibit here on Tuesday, October 18, is the largest motorized show on the road today. It takes 48 trucks and 16 house and private cars to transport this circus.

The Sedalia Capital says in part regarding this show: "About 5,000 persons lured to the Liberty Park show grounds by the call of blaring circus trumpets attended three performances of the Harrington shows yesterday afternoon and night. 3,000 spectators crowded the tents for the first night show and 1,000 were turned away to await the second night attraction. In addition to circus line of acting lions, elephants, horseback riding, a new innovation in shows in this section was seen in the circus. Lambs performed for the trainer." Special prices here: Children, 10c adults, 25c. Show grounds at D avenue and 14th street.

FIRST FEDERAL ROAD AID PROJECT STARTS

The Abilene News says: Gibb Gilchrist, state highway engineer, who spent Sunday in Abilene, left early Monday for Brownwood to see the start of the first federal emergency highway construction in this section of West Texas. He was accompanied by W. A. French, division 8 engineer.

The project is on highway 7, from Brownwood to the Mills county line, on which contract was let recently for a triple bituminous road, at \$101,000. In conformance with the federal regulations on emergency employment work, the contractors will give labor on the job a maximum of 30 hours weekly per man. A Brown county committee will assist the contractors in considering applications for work.

Crushed rock laying is under way on highway 7 in the northern part of Brown county, from Brownwood to the Coleman county line. Another project, a triple bituminous surface on highway 129 from Brownwood to Rising Star, will be completed in November.

VOTED FIRST ABSENTEE

Bill Dill, well known Cisco citizen, voted his first absentee ballot this year, also Mrs. Dill, who both voted for Miriam A. Ferguson. Both decided to visit their daughter, Mrs. W. F. Watts, at Shallowater. But before their departure they cast their ballot for Miriam A. Ferguson for governor.

MARY CONTRARY AND LITTLE BOY BLUE

By KENNETH YOUNG

I have come to your bedside, dear sweetheart,
To lighten your worries and pain.
I have quitted life's labors and troubles
To live over our memories again.
While my hand rambles over your tresses
Let us dwell on the pleasures we knew,
When you were my Mary Contrary
And I was your little Boy Blue.

Today as I strolled through the valley
I stopped at a murmuring rill
And remembered the days of our childhood
When we lived on our Paradise Hill.
I recalled that it must have been Heaven
To have such a comrade as you,
When you were my Mary Contrary
And I was your Little Boy Blue.

I dreamed in this valley of sunshine
Of days in the long, long ago—
Where the music of laughter had echoed
In the childhood that we used to know.
Then I knew what a heaven-sent blessing
It was to love one such you,
When you were my Mary Contrary
And I was your Little Boy Blue.

So, dear sweetheart, I kneel at your bedside
With my hand on your silver-streaked hair,
With my eyes, begging God to have mercy
While my lips offer skyward a prayer.
And when death in its stillness seeks entrance
May I beg a last favor of you:
That you be my Mary Contrary
And I be your Little Boy Blue.

DEMOCRATIC NOMINEES

Following are the Democratic nominees for state and county offices to be voted for in the general election November 8. Those who take their Democracy, like they do their religion, and regard their political obligations like they do their religious, social and business promises, will not need a pencil when they cast their ballot except for service in voting for or against the constitutional amendments. (Intermediate state nominees omitted.)

Governor: Miriam A. Ferguson, Travis county.
Congress at large: Place 1—George B. Terrell, Cherokee county; place 2—Joseph W. Bailey, Dallas county; place 3—Sterling P. Strong, Dallas county.
Congress, 17th District: Thomas L. Blanton, Taylor county
Senator, 24th District: Wilbourne B. Collie, Eastland county.
Representative, 106th District: Oscar Chastain, Eastland county.
Representative, 107th Floterial District: Cecil A. Lotief, Callahan county.
County Treasurer: Mrs. May Harrison.
Judge 88th Judicial District: Burette W. Patterson.
District Clerk: P. L. Crossley.
Criminal District Attorney: Grady Owen.
County Judge: Clyde L. Garrett.
County Clerk: Turner M. Collie.
County Sheriff: Virge Foster.
Tax Collector: T. L. Cooper.
Tax Assessor: Thomas J. Haley.
Commissioner, Precinct 4: Arch Bint
Justice of the Peace, Precinct 6: J. H. McDonald.
Constable, Precinct 6: Joe B. Hicks

Agreed Judgment Awards Craddock Twin Lakes in 1938

At the called meeting of the city commission October 1, the members were of one mind in agreeing to accepting the terms for disposition of the Twin Lakes property, for which Mrs. Minnie Craddock had filed suit in the district court for the reversion of the property to her under the terms of the original conveyance of the 21 acres of land, which specified that the property should revert to the heirs of the grantor when the city ceased to use it for the purpose of operating the city's water system.

The city has two settling tanks on the property, now said to be in a bad state of repair, but not yet wholly abandoned. However, the plans of the city contemplate building a settling basin at Lake Cisco, and when the basin is constructed it is the intention to abandon this

property as a part of the water system. Under these terms the attorney for the Craddocks submitted an agreed judgment of be entered upon the court dockets conveying the property to Mrs. Craddock as a legal heir of the grantor, and it was this judgment the commissioners agreed to Saturday, which will cause the property to revert to the plaintiff in 1938.

The judgment specifies that the plaintiff will pay all cost of the litigation, and the city will have the right to remove any city property situated upon the land.

The Citizen is not sufficiently familiar with the conditions existing to make any comments, but Commissioner Clements said when the matter was presented at the meeting Sept. 26, "we will likely be criticised, anyway." But the Citizen will not comment at this time, leave that to others. We have heard some objections, in as much as these say the city should have held the property, as it would be valuable should an emergency arise.

But the commission's action settles a problem that has caused considerable vexation, and ends the litigation that has been pending in the courts for two years.

QUIET YOUR "NERVES"

This Delightful Way

MRS. Alice Fischer (picture above) says she is "the happiest woman in the world."

"I often used to wish I was dead. Couldn't sleep; couldn't enjoy myself. It seems as though I had tried every nerve medicine made, but without any benefit until I tried Dr. Miles' Effervescent Nerve Tablets. They certainly proved their worth for me. I am the happiest woman in the world and I don't mean maybe."

Mrs. Alice Fischer
If you are Nervous, Sleepless, Cranky, Blue. If you have Nervous Headache, Nervous Indigestion, take Dr. Miles' Effervescent Nerve Tablets.

CISCO CITIZEN

Garner-Wagner Bill Allocates Eastland A Federal Building

Washington.—Two hundred and twenty-seven cities and towns throughout the country have been allocated new postoffices under the building provisions of the Garner-Wagner relief law.

The new list, made up almost exclusively of buildings to cost less than \$100,000, brought the total so far allotted to be spent for postoffices under that bill to \$84,872,600, divided among 410 communities. Previously the secretary of the secretary of the treasury and the postmaster general, who made today's announcement, had allocated 41 buildings costing more than \$300,000 each and 142 structures costing between \$100,000 and \$300,000.

The relief measure provided that where leases expire prior to July 1, 1934, the government must construct buildings. This class of project predominated in today's list. Each such is marked by an (X).

Texas: (X) Athens, (X) Colorado, (X) Eastland, (X) Graham, Kerrville, (X) Lamessa, (X) Nocona, Vernon, Pecos.

Last Car Red Cross Flour Allotted For Cisco is Unloaded

The ninth and last car of Red Cross flour allotted to Cisco was unloaded last week, which will be distributed through the Cisco and other Red Cross chapters in Eastland county. The Citizen had a story last week of Red Cross flour, which told the total amount of flour, plus this car that has been distributed through the Cisco chapter by J. E. Spencer, county chairman.

"This last car will run the value of this flour to an approximately \$9,000," Chairman Spencer said, "all of which has been used to relieve the needy in Eastland county."

The distribution of this flour alone is sufficient reason for our people giving the Red Cross society 100 per cent support, for approximately 2,000 families have been aided by Red Cross bounty, through which this government flour was distributed. During the lean years we have experienced, the Red Cross Society has truly been an angel of mercy, without which many would have suffered that have been aided.

CIRCUS TO BE IN CISCO

Hey kids, look what's coming to Cisco on next Tuesday, October 18!

A real circus with side show, menagerie, bands, clowns, calliope, 80 performers, elephants, camels, an emu, scores of other wild and unusual animals, 30 horses, aerial artists, wire walkers, trained dogs, ponies, and monkeys.

And it's a crackerjack of a circus. The Harrison Nickle Plate Circus carries a brand new 300 foot circus tent which will seat 3000 persons at each performance. It has been packing in crowds all over Kansas. At Chanute, Lawrence and Fort Scott extra performances had to be given to take care of the people turned away at regular performance.

Special prices here: Children, 10c; adults, 25c. Show grounds at D avenue and 14th street.

SUBSCRIBERS RESPOND WITH COUNTRY PRODUCE

S. A. Davis, living near Cisco, and J. C. Holt, of Nimrod, were the first to respond to the Citizen's proposition to accept produce in payment for subscriptions to this paper. Davis brought in a nice chunk of beef, which he ordered credited on his subscription, and Holt supplied the editorial parsonage with a nice batch of yams to flank that beef roast. Both were appreciated just as much as the cash.

There are others who are reading the Citizen that might follow the example of these gentlemen by bringing in anything edible from a batch of eggs to a choice cut of a baby beef.

KEROSENE HELD NOT SUBJECT TO TAXES

Washington.—A tractor is not a motor vehicle, and kerosene is not taxable, under the revenue act of 1932, unless it is further compounded or processed until it becomes suitable for propulsion of motor vehicles, motorboats or airplanes, according to a ruling of R. M. Estes, deputy commissioner of internal revenue.

In a letter to the National Petroleum association Estes held that ordinary kerosene is not a fuel for propulsion of motor vehicles and that its use in farm tractors does not make it taxable, because "tractors are not construed to be motor vehicles within the meaning of the law."

POLITICAL OBITUARY OF LITTLE STERLING

Departed, politically, August 27, little Ross Sterling, who has been ailing for the last year and a half with Rangeritis, Highway colic and special session morbus.

All his children were at his bedside when he died, everything that loving hands could do was done. But most thinking people were expecting the worst.

All of the great physicians of the land have been in consultation at Austin since August 30, thinking he could be revived. Some thought a dose of oil (Standard, not castor) would do the trick, but it failed.

The family physician, Dr. Dan Moody, gave up in despair, so his little political body was laid to rest at Lubbock, with big business, Bankers and big Oil companies as pallbearers.

Would suggest that they erect a tombstone shaped like an oil derrick and inscribe thereon:

Here lies little Ross, poor little thing,

Who thought he was safe under Standard's protecting wing;

He labored and strived with all his vim,

But went down on account of too damned much Jim.

L. P. TEMPLETON.
Paris, Texas, Rt. 4.

BAIRD CITY COMMISSION REMITS TAX PENALTIES

The city commission of Baird, following the precedent set by the state, has passed an ordinance remitting the penalties on delinquent taxes due that city. To get the benefit of this ordinance the city taxes must be paid on or before December 31, 1934.

Other cities over the state are remitting these penalties, which, under the act of the last called session of the legislature, leaves the matter optional with the municipalities. Cisco has not yet taken any action on this matter, but as the city commission has turned over the collection of delinquent taxes to a special collector, whose remunerations are the penalties accrued, it seems to the Citizen, it would be more beneficial to remit these penalties to the already overburdened tax payer. To offer him this inducement will be a greater incentive to pay than to penalize him. The Citizen believes it will bring in more cash to the city than the delinquent collector can produce.

FOR TRADE—Modern household goods, including late model Frigidaire, for 1930 or 1931 Chevrolet or Ford coach. This office or address Box 355.

THE BEST PRESCRIPTION
IS TO AVOID OVER-WORK
People who avoid fatigue are people who avoid illness
And what is more fatiguing than the weekly wash? It is not only too long, too hard and too tiresome for you to do—it's too dangerous. Why not be safe—with our laundry? Clothes beautifully done, prices moderate—and no more exhausting days with the wash.

West Texas Utilities Company
The Spread of Power Is the Spread of Industry
What does it mean when electric power is distributed widely over the countryside to small towns and farms? Such is the task that has been accomplished by the building of far-flung power lines in the past twenty years. What is its effect?
It means that industry can operate as efficiently in small communities as in the large cities. It means a better distribution of industrial activity, with an improvement of working conditions and a reduction in manufacturing costs.
Industry is following the power line to the small community . . . and here in West Texas, the "Land of Opportunity," the West Texas Utilities Company is leading industries to the 125 progressive cities and towns dependably served from its 2,500-mile transmission line network.
Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?
West Texas Utilities Company

Let's Consider the Nine Amendments State Constitution

(Continued from Page One)

is a matter that concerns those people living in counties near the Gulf, and is for their protection, which would require a two-thirds vote of the counties affected.

Exempt Homesteads

No. 3. House Joint Resolution No. 6, provides that \$3,000 of the assessed taxable values of all residence homesteads as now defined shall be exempt from all taxation for state purposes, except in those counties now receiving remission of taxes for improvement purposes but when again subject to taxation shall also apply to these.

We hardly think it is necessary to advise our readers to vote for this amendment, as it is probable every small home owner will favor it. At present the small home owner is taxed out of proportion with the larger tax payers, as they have better facilities of evading taxes than the man who only owns a town home or small farm. Vote for this amendment and save your home for your family.

No. 4. Joint House Resolution No. 12, provides that the Legislature of the state of Texas shall have no power to release or extinguish, or to authorize the releasing or extinguishing, in whole or in part, the indebtedness, liability or obligations of any corporation or individual, to this state or to any county or defined subdivision thereof, or other municipal corporation therein, except delinquent taxes, which have been due for a period of at least ten years.

This amendment would prevent the legislature remitting the taxes of counties, as has been done in the past, and probably should be adopted.

No. 5. House Joint Resolution No. 1, provides for establishing the prohibitions against voting of any persons in this state and provides that no person shall hold two offices of honor, or trust, or emolument, nor shall they receive moneys from the state while holding two places of trust, emolument, honor or compensation.

The latter part of this amendment is especially meritorious, and should have the support of all who believe in honesty in government. It would prohibit an officer or col-

lection of officers from holding more than one office, as is now being done in our city administration.

No. 6. House Joint Resolution No. 21, provides for the consolidation of the offices of tax assessor and tax collector in counties of 10,000 population or over.

Another meritorious amendment, and should be adopted.

No. 7. House Joint Resolution No. 26, provides that hereafter when bond elections are held by any county, counties, or any political subdivision of the state or county, or defined district, only qualified electors who own taxable property in the state, political subdivision, county, district, city, town or village, where such election is held, and who have duly rendered the same for taxation, shall have a right to vote.

The adoption of this amendment simply provides that those who will pay the bonds should vote to issue the obligations. We think it should be adopted.

Get Your Pencil Sharpened

No. 8. House Joint Resolution No. 28, provides for the expenditure of the state of Texas an amount of money through appropriations by the legislature, necessary for holding a Texas centennial, commemorating the heroic period of early Texas history.

This is no time to use the credit of the state for show purposes. Every man who believes in less extravagance in office should be at the polls early and vote against the centennial amendment. If the property owners cannot finance the centennial let's forego this luxury. Necessarily it means additional taxation and the people want less expenses in state administration. Get your neighbor to vote against this extravagance.

No. 9. Senate Joint Resolution No. 20, provides for the placing of all lands and other property heretofore set apart and appropriated for the establishment and maintenance of the University of Texas, together with all proceeds of sales of the same, heretofore made or hereafter to be made, and all grants, donations and appropriations that may hereafter be made by the state of Texas, or from any other source, except donations limited to specific purposes, shall constitute and become a permanent University fund. And the same as realized and received into the treasury of the state (together with such sums belonging to the fund, as may now be in the treasury), shall be invested in bonds of the United States, the state of Texas, or counties of said state, or in school bonds or municipalities, or in bonds issued under and by virtue of the federal Farm Loan Act approved by the president of the United States, July 17, 1916, and amendments thereto, and the interest accruing therefrom shall be subject to appropriation by the legislature to accomplish the purpose declared in the foregoing section; provided that one-tenth of the alternate sections of the lands granted to railroads, reserved by the state, which were set apart and appropriated to the establishment of the University of Texas, by an Act of the legislature of February 11, 1858, shall not be included in, or constitute a part of the permanent University fund.

This amendment re-establishes the permanent University fund, and should probably be adopted to protect the permanent fund of the University for all time.

Will Rogers Film At Palace 3 Days Beginning Sunday

Noted Star Gives Superb Performance in Screen Play Specially Written for Him—Dorothy Jordan and Irene Rich Add Charm to Screen Scenes

Very different in theme and treatment from its star's previous screen offerings, but all the more interesting and entertaining for that, "Down To Earth" is opening at the Palace theatre Sunday for a two-day showing.

Realizing the timeliness of turning his witty spotlight on present unobtrusively woven the very human story of a business man's domestic and financial worries into the background of a riotously funny picture. His solution for his problems is as significant as it is hilarious.

"Down to Earth" brings back the lovable Pike Peters and the socially ambitious Idy Peters of Rogers' first talkie, "They Had to Go to Paris." Their European jaunt over, they are again in Claremore, Oklahoma, where Idy is now the town's social leader. Pike is worried over the financial outlook, but Idy and their son, Ross, are too busy spending the family income to pay any attention to his warnings.

A bank failure sends Pike hurrying to Chicago for a big loan, the only thing that will save his business from a crash. In this he is unsuccessful, but he meets the Grand Duke Michael, an old friend of Paris days, and brings him back to Oklahoma. On arrival matters come swiftly to a head; Ross has gambled away the family fortune; Idy is giving an extravagant costume ball to announce Ross' engagement to a girl he dislikes but whose money he feels the family needs; Pike himself is about to be thrown into bankruptcy.

A Whirlwind Climax

The unconventional methods Pike uses to bring his headstrong family "down to earth" again makes a whirlwind climax to the film, which in many respects, is the best effort to the star's career. Irene Rich again plays the part of his irresponsible wife and Theodore Lodi once more becomes the Russian duke. Dorothy Jordan, Matty Kemp, Mary Carlisle, Brandon Hurst and other notables head the supporting cast with uniformly excellent work.

David Butler, who has two previous Rogers films to his credit, has done a fine job of directing, and Homer Croy's story is even better suited to the cowboy philosopher's personality than was the author's "They Had to See Paris."

By all means see this offering—and bring the family.

MR. AND MRS. GARDNER WILL VISIT IN CISCO

Mr. and Mrs. J. E. Gardner are expected visitors in Cisco within a few weeks. Mrs. Gardner is pleasantly remembered as the former Miss Mary Elizabeth O'Flaherty, who numbered many of our people as her close friends.

Mr. and Mrs. Gardner, who are now living in Maracaibo, Venezuela, where Mr. Gardner has been with the Gulf Oil Co. for the past three years, are spending their vacation in the states. They are now in Bryan, and will visit Mr. Gardner's relatives in other cities before their return. This will be their first visit to Cisco since leaving for the South American city.

Commission Defers Action on Charter Amendments Filed

CONTINUED FROM PAGE ONE

Banking Co. for the amount, as advised to do so by Elliott, but was not accepted. To his statement that he wanted to know if Mr. Elliott had reported what action would be taken, Elliott replied with some heat that he had no report to make, as he had not seen the man who issued the check. That Kunkle could have seen him any time and got this information. Kunkle stated it was not his intention to get hardboiled, but if Elliott thought that way about it that he could speak in kind. But the mayor poured oil on the troubled waters, and the incident closed.

Commissioners Clements and Elliott were named as a committee to complete a lease contract with J. V. Heyser, about which there had been some misunderstanding. Also negotiate an exchange of a small tract of land with Bob Weddington at Lake Cisco.

Discuss R. F. C. Loan

Mayor Berry read a communication from Bill Tyler, of Rising Star, advising united action of Eastland county cities in applying for federal relief through the Reconstruction Finance Corporation to give employment to idle labor. It is understood that a loan of \$40,000 will be sought. Commissioner Elliott was instructed to accompany J. E. Spencer to Stamford Wednesday to attend a meeting of the regional commercial secretaries with Manager Bandeen, of the West Texas chamber of commerce, for that purpose. Elliott thought this the biggest opportunity we have had to participate in, as the money will take care of 2,400 unemployed in the county.

Cisco was invited to participate in the meeting of 239 cities of the Southwest to consider the gas situation. City Attorney Grantham stated that the railroad commission was studying the situation, and he thought the first skirmish would be between that body and the gas company. The matter was postponed pending information from the railroad commission.

Mayor Berry reported that proper posting of the adoption of the city budget had been made, and on motion of Commissioner Henderson the revised budget was adopted, carrying an increase of about \$2,600, as follows:

	1931-32	1932-33
Admin., Gen.	\$19,458.47	\$11,858.00
Water Dep.	22,475.85	20,000.00
Sanit. Dep.	16,284.42	11,900.00
Street Dep.	21,546.39	16,059.00
Fire Dep.	5,604.04	5,392.50
Police Dep.	9,489.14	7,880.00
Cem., Parks	6,648.31	3,500.00
C. of C.	11,874.31	5,600.00
Zoo	1,886.58	2,000.00
Outstanding acct.		3,000.00

A telegram from John D. McCall asking for any new developments in the bond settlement, if any, and requesting suggestions on the matter. Elliott stated that he had given considerable thought to the sewer and sanitation matters, and when the representatives Dunne and associates return from New York, should they have a proposition to make to the city, could act more intelligently about framing a proposition for submitting to the voters.

The usual bills were allowed and ordered paid, after which the commission recessed.

SPLENDID SPECIMEN OF ENGLISH WALNUT

E. H. Varnell was showing Wednesday one of the finest specimen of English walnuts that we have ever seen. It was nearly as large as a hen's egg, and from its weight seemed fully matured. Mr. Varnell said that he has two trees of this variety of nuts growing in his yard on West Fifth street, both perfectly healthy and bearing prolifically for young trees.

4-H CLUB WINNERS WERE GUESTS OF DALLAS FAIR

Eastland county 4-H club boys, who won the free trip to the Dallas Fair Educational Encampment were Roy Bennet, of Flatwoods; Alvis Woods, of Grandview; Paul Davis, of Alameda, and Herman Dunlap, of Cheaney, for the boys clubs. Trips were awarded at the county fair for the best reports of achievements on club work. These boys spent three days this week in Dallas, guests of the fair association and the Texas & Pacific railway, the latter furnishing the transportation and the fair association paying the expenses of the boys while in Dallas.

Four girls, selected by the same process will also be guests of the fair association, and will be given free transportation by the Texas & Pacific, which was initiated by Ollie B. Webb as a stimulus to the youngsters in the field of agriculture.

CISCO VOICE ADDED TO BAYLOR U. CHORUS

Miss Lela Mae White, of Cisco, has been accepted as a member of the Baylor university chorus, a musical aggregation of 26 Baylor students. Miss White is a daughter of Mr. and Mrs. L. A. White, of Cisco, and a member of the freshman class of Baylor university at Waco.
