## Officials of Phillips Petroleum Co. to Arrive in Cisco Tomorrow at 6 a. m. on Trip of Inspection

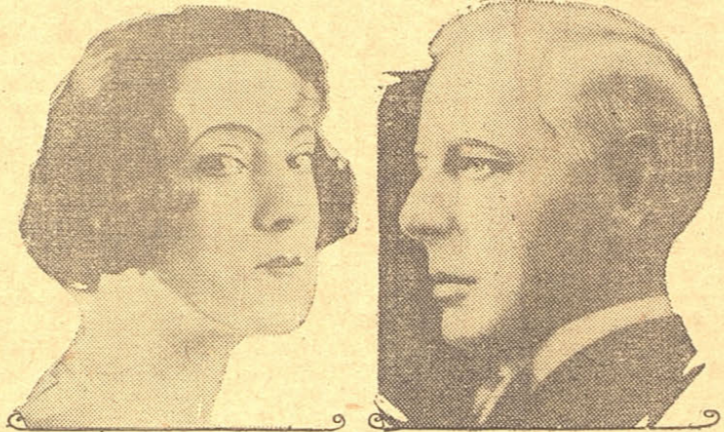

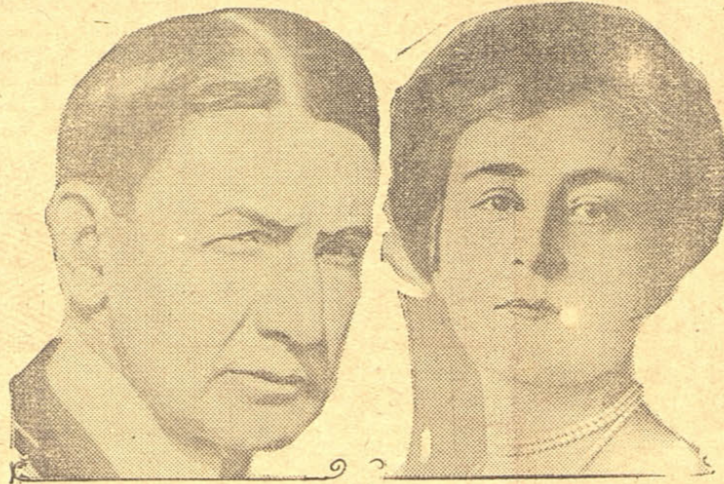

### FEE WILL KICK 65-YEAR GOAL POST TOMORROW

Officials of the Phillips Petroleum Co. will arrive in Cisco tomorrow morning, but their stay here will be brief, as they will reach Cisco over the Texas & Pacific at 6 o'clock in a special train, of 11 Pullmans, diner and observation car. At 6:30 tomorrow morning their train will be picked up by the Cisco & Northeastern and the party will depart for Breckenridge. On the trip to Breckenridge President R. Q. Lee of the Cisco & Northeastern, will accompany the party.

It is understood the officials will be guests of the Pendleton & Roeser Co., and the Landreth Production Co. at a barbecue given in their honor at Breckenridge. From there the Phillips officials will be driven in cars to the Ibox field, and inspect the company's holdings in that section before returning to Cisco in the afternoon, where they will entrain for Holdenville, Okla., where they are due to arrive Sunday, according to information given in a letter to President R. Q. Lee, Mr. Lee had extended them an invitation to spend some time in Cisco, but he was informed this would be impossible. However, the officials will be invited to be the guests of Cisco for a visit to the dam on their arrival from the Shackelford county fields. Their special train will return from Breckenridge and be here on their arrival for their departure, which is scheduled for 5 o'clock tomorrow afternoon.

In the party will also be most of the New York and eastern stockholders of the Phillips Co., who are inspecting the holdings of the company.

## Men and Women in News Spotlight

Above: CHARLES G. DAVES & ANNE MORGAN Below: MRS. MADELINE COREY & JESSE V. LIVERMORE

Vice-President Charles Gates Dawes will ride on April 20 from Roxbury to Lexington, Mass., over the route taken by his great-grandfather, William Dawes, Jr., who dashed over the roads with Paul Revere to warn the countryside of the approach of the British soldiers and the beginning of the Revolutionary War. Miss Ann Morgan, of New York, has rendered her report as treasurer of the American Committee for Devastated France, showing that \$5,000,000 has been raised and expended in six years. Mrs. Mabelle Gilman Corey, formerly wife of William E. Corey, once president of the United States Steel Corporation, was seriously hurt when stepping from her automobile at Dijon, France. She tripped and fell down a steep embankment into a mass of barbed wire. Jesse L. Livermore, noted New York financier, broke his right arm and several ribs by a fall down the steps of his country home at Great Neck, Long Island.

## One Hundred Killed, Two Hundred Injured When Funeral Procession Bombed at the Doors of Cathedral

SOFIA, Bulgaria, April 17.—Military rule was established throughout Bulgaria today as a result of the communists bombing outrage at a cathedral in which 100 were killed and 200 injured. General Davidoff, General Merzoff and Ambassador Kolouheff were identified today as victims of the bomb plot. The infernal machine was timed to go off as the funeral services for General Chergieff got under way. However, the blast came just as the funeral procession reached the main doors of the cathedral. Several persons are under arrest in connection with the explosion. General Chergieff was killed in the bomb plot Wednesday when King Boris was fired upon. Troops halted pillaging and rioting today. Thousands are searching the ruins of the cathedral for relatives.

## TWO ARRESTED IN CONNECTION WITH FARM FIRE

While in Cisco on business Wednesday morning fire destroyed the farm home of Mr. and Mrs. Hardy Moseley of Nimrod, together with the entire contents. Mr. Moseley informed the officers of the fire, stating that he believed it of incendiary origin, and upon this information Constable Looney placed under arrest Rev. Ben Sandel and A. M. Nolen of Cook community, who were released under nominal bonds for their preliminary hearing before Justice McDonald tomorrow morning. According to Constable Looney Sandel is reported to have made the statement that "he was going to get rid of Moseley if he had to burn him out," and it is largely upon this alleged statement that Sandel was taken into custody.

This fire is a heavy loss to these people, as they had no insurance, and they were in debt partly for their furniture.

## SAFELY MOORED IS BIG ENGLISH DIRIGIBLE Z-23

PULHAM, England, April 17.—The Z-23 is safely moored at Pulham field this afternoon after being adrift over the north sea for nearly two days. A large crowd cheered as the great dirigible was made fast to the mooring mast. Britain's runaway dirigible was reported by wireless nearing Pulham field early today over the north sea. As radio connections were better established tales of heroism were broadcasted from the dirigible of one member of the crew who hung by his heels and packed steel cables that were holding the large mooring wheels that dangled from the disabled ship and threatened disaster. The 20-year-old radio operator performed deeds veterans might have been proud of in keeping the ship in touch with land communication.

## PALATIAL HOME OF KKK. DRAGON BURNED TODAY

INDIANAPOLIS, April 17.—Flames believed to be of incendiary origin, early today swept through the palatial residence of David S. Stephenson, former grand dragon of the Ku Klux Klan, who is under indictment on charges of criminally assaulting Madge Oberholzer. The girl later killed herself by swallowing poison. Witnesses declared the flames shot high in the air after an explosion. Firemen found quantities of gasoline and kerosene in the rear of the building. Stephenson was not at home at the time of the conflagration.

## STOLEN GOODS RECOVERED BY C. S. LOONEY

WASHINGTON, April 17.—A general reorganization and consolidation of sectional division officers of the department of justice, "in the interest of efficiency and economy," was announced today by Attorney General Sargent. Sargent said that three agents in the San Francisco offices of the department, including Dr. M. V. Fahey, had been released, and added that numerous changes in other cities would follow "in the very near future."

## NEW ATTORNEY GENERAL SHAKES UP DEPARTMENT

"Within a short period," the attorney general stated, "the heads of other offices in important cities will be shifted. This shifting process does not indicate anything wrong, but merely is part of the department's plan to enhance efficiency."

## To Be Premier

At the suggestion of Paul Painleve, President of the French Senate and a former Premier of France, President Doumergue has called in M. Aristide Briand, another former Premier, who conditionally accepted the post as French Premier, succeeding M. Edouard Herriot, Socialist, who resigned.

Above: M. PAUL PAINLEVE Below: ARISTIDE BRIAND

At the suggestion of Paul Painleve, President of the French Senate and a former Premier of France, President Doumergue has called in M. Aristide Briand, another former Premier, who conditionally accepted the post as French Premier, succeeding M. Edouard Herriot, Socialist, who resigned.

## SUPERINTENDENT AND PRINCIPALS ARE RE-ELECTED

The new board of school trustees held their first session Wednesday night for the purpose of organizing, with retiring President D. S. Rumph present, who called the meeting to order. Those present were Wm. Reagan, Dr. E. L. Graham, J. T. Berry and C. C. Jones, new members; J. S. Stockard, of the hold-over members. Secretary Vaughan and Superintendent Godbey were in attendance.

This was a called meeting, and the board was formally organized by the election of J. S. Stockard, president; J. T. Berry, vice president, and Dr. C. C. Jones, secretary. When it came to electing the officers of the board there was some evidence of the little game of "passing the buck," but Reagan got his motions through first, and his motion placing Stockard in nomination prevailed, four to one. Also Reagan won out again when he placed J. T. Berry and Dr. Jones in nomination for vice president and secretary, respectively. This completed the organization of the board, and the meeting was formally turned over to President-elect Stockard, who presided after his election.

The new board re-elected the superintendent, J. J. Godbey, and the principals of the high and ward schools. In offering the motion re-electing these, Trustee Reagan stated that the matter of salaries would be left to a future meeting, but it was presumed the superintendent and principals would desire to know whether they would be retained for another year. Superintendent Godbey thanked the board for the evidence of confidence placed in him by his re-election, but stated he was not in a position to give his acceptance at this time, and asked for a week in which to consider the matter. He said it was very probable he might not be able to accept the position, but would know definitely within the time specified.

The principals elected are H. G. Wells, principal of the high school; T. C. Williams, principal of the west ward school; E. B. Isaacks, principal of the east ward school, and Mrs. Irene Hallmark, principal of the south ward school. Before adjournment the board approved the contract made by the chamber of commerce for a band instructor of the high school.

## HISTORICAL ASSOCIATION IN CISCO SAT.

The West Texas Historical association will meet here tomorrow. The morning session will be held in the city hall, opening at 10:30. The afternoon session will be held at Lake Cisco. Some of West Texas' most prominent citizens, educators and business men will be here for the meeting. All Cisco people are cordially invited and urged to attend the morning and afternoon sessions. Old time citizens of this section are especially urged to be present, and Cisco citizens are requested to invite all the old timers and aid them in getting to the convention hall.

The membership of the association is small, but their possibilities of doing good are large. About twenty-five or thirty persons are expected from out of town, but each of them are prominent in their cities and deserve a royal welcome from the city honored by their meeting. Secretary Rupert N. Richardson, professor of history at Simmons College, in letters to the Cisco chamber of commerce and Mrs. J. D. Alexander, expressed his gratitude to Cisco and the Cisco chamber of commerce for the interest evidenced by Cisco in their coming, and for the work done by the local chamber in giving publicity to the event. He stated that the members are expecting a great meeting and are looking forward with pleasant anticipation to their coming visit. Cisco must do her part and turn out to meet these people and attend the meetings of the body.

At the conclusion of the program the officers will be elected, committees appointed and the next place of meeting selected.

## LUBBOCK LINEMAN GETS 2,300 VOLTS; IS DEAD

LUBBOCK, April 17.—John Atkins, 32 years old, lineman for a west Texas utilities firm, was electrocuted Wednesday shortly after 4 o'clock, when he picked up a line carrying 2,300 volts of electricity. Atkins was strapped to a pole. As he picked up the wire, L. G. Bell, another lineman, who was strapped to the other side of the pole, cut the wire, but the voltage had already entered Atkins' body and he was dead when members of the crew took his body from the pole.

## METHODISTS ENJOYING A FINE REVIVAL

The revival at the First Methodist church continues with great interest on the part of members and others. An especially interesting feature of the meeting is the excellent music. Tonight's services will start at 7:45 o'clock, and a cordial invitation is extended to all the people, whether members of this church or not. Rev. T. E. Bowman, the pastor, announces that there will be no meeting Saturday night, that everybody may rest up and be ready for a great day Sunday.

## FIRST CHRISTIAN ENDEAVOR WAS ORGANIZED 1841

ST. LOUIS, April 17.—Walter Biscup, 15-year-old Sunset Hill Country club caddy, will spend the \$6,000 damages awarded him in his suit against two golfers to repair his eyesight, he said today. Biscup was struck in the eye by a ball driven by Homer A. Hoffman, a club guest. Doctors testified the blow impaired his sight.

## GOLF CADDY GETS DAMAGES

ST. LOUIS, April 17.—Walter Biscup, 15-year-old Sunset Hill Country club caddy, will spend the \$6,000 damages awarded him in his suit against two golfers to repair his eyesight, he said today. Biscup was struck in the eye by a ball driven by Homer A. Hoffman, a club guest. Doctors testified the blow impaired his sight.

## LYNN COUNTY OPENS GOOD ROADS MOVE

TAHOKA, April 17.—A good roads movement has been started in Lynn county which promises to result in a hard surface highway leading in four directions from Tahoka through the entire county. Many people are urging a bond issue to build the roads. Citizens are predicting from \$40,000 to \$600,000 will be needed by the county, which together with the state and federal aid, will finish the work.

## Youth Weds Age

MR. & MRS. THEODORE FORREST

Theodore Forrest, twenty-three, a musician and Government clerk in Washington, has been married to Mrs. Flora Ritter Gorton, sixty-three-year-old widow, and sister of William McC. Ritter, millionaire lumberman.

THE LITTLE TOY BANK

Among old relics nothing is more appealing than toys that children played with long ago. So the most interesting thing, perhaps, yet dug up in the scientific excavation of ancient Utica, in northern Africa, is a toy bank that belonged to some Phoenician child twenty-five hundred years ago. It was found in a cemetery.

Utica was the twin city of Carthage, as St. Paul is of Minneapolis. It yielded to the envious Romans, and so saved itself when the Romans destroyed its famous neighbor, dragging out an existence for several more centuries until the Mediterranean receded, its harbor filled with silt, its buildings crumbled and the desert sands covered it. Now it is being unearthed, like the ruins of Pompeii.

That little bank is remarkably like the banks that our children have today, except that it is made of pottery, whereas ours are mostly metal. There is the same kind of slot that lets money in and resists letting it out. Pennies it was intended to be broken when full. It jingled merrily when the discoverers shook it. After much shaking and turning, they finally extracted half a dozen small bronze coins.

There was thrift in ancient Utica and Carthage, and there were probably public banks then, as now, where little treasure box full of pennies could be deposited. The Phoenicians were great financiers.

Gypsies, a magazine writer says, use water for medicine. Perhaps that explains why they don't use it for anything else.

CHEAPER TRANSPORTATION

A French aviator wins a big prize by flying 80 miles at a cost of one cent a mile for fuel and oil. Gasoline expensive, too, in France.

This is getting somewhere in economics as well as in aviation. Those who offered the prize for the economy race are to be praised no less than the winner. They recognize the big thing in aviation, as in other forms of transportation, which is low cost per mile.

This is something that Americans, from pride in wealth and vast resources, have been inclined to ignore. Yet, even here, economy of operation is now becoming the most important factor in the use of motor cars, and is sure to be so in air transportation. It is the high cost of flying more than anything else, which has kept the American public so far from demanding airplane service. Europe, which has been going in for gas engine economy while we have indulged in power and comfort, is ahead of us in this respect, on land and in the air.

Somebody in Colorado must have plenty of faith. A mountain there has moved 150 yards.

SILOS IN THE GROUND

Farmers in Benson county, North Dakota, are building silos underground instead of up in the air, and find they work very well. "Trench silos" they call them. Construction is simple, though laborious. The trenches are covered with timbers, with wire and straw on top. Among their various merits, they keep the silage from freezing. One such silo made last year is 92 feet long.

It looks like a good idea, but it is not so new as the Dakotans think. Trench silos have been used in the South Sea Islands from time immemorial, for the storage of human food. Frederick O'Brien, in his "White Shadows of the South Seas," tells how the natives dig trenches in the earth, line them with banana leaves and fill them with breadfruit, leaving it there for fermentation and storage exactly as the American farmer handles silage crops for his cattle.

ENTIRE POEM BEDECKS NEW STAMPS ISSUE

says St. Loe Strachey, who, however, brings forward one anecdote as affirmative evidence. A German officer reproached one of the papal Swiss guards for being a mercenary. "You fight for money," he said, "while we Germans fight for honor."

Dinah was a product of New Orleans, a big, plump "yaller gal," who could cook the finest dinners for miles around. One day a new butler appeared upon the scene, and Dinah's mistress noticed that she took a great interest in the man. At last her mistress asked: "Dinah, do you know that new man?"

Dinah took another long and scrutinizing look, and then replied slowly and reminiscently: "Well, ah tuanno, Miss Alice; but Ah think he was my first husband!"

NEW YORKER IN CISCO LOUD IN CITY'S PRAISE

"You have a wonderful climate down here," said John A. Foley of New York City, who is a guest this week of Mrs. J. E. Wild. "I would like very much to make this my home, but I am not experienced in the avocations of this section. I think you have a wonderful climate, and I am feeling fine since coming among you. Yes, I have visited the dam. Went all through it. And say, that is the most wonderful engineering feat I have ever seen. When it is considered that a proposition of this magnitude was put over in a town of less than 100,000 inhabitants, the statement seems incredulous to one who has not been here and seen for himself. Its magnitude cannot be conceived by any descriptive matter. Nor can one get an idea of its immensity until it is visited and personally examined. This can only be obtained by going through the corridors. In this dam you have untold possibilities that'll eventually put Cisco on the map of Texas cities of enterprise and push." Mr. Foley will return to New York next week, deeply impressed with this part of Texas as a delightful place to spend the winter months.

"By the rude bridge that arched the flood, Their flag in April breeze unfurled. Here once the embattled farmers stood And fired the shot heard round the world."

The new stamps have not yet been received by Postmaster J. W. Triplett from Washington, but are expected daily, it was stated at the Cisco office this morning. The local postoffice also expects to receive a supply of the new denomination of one-half cent stamps. This denomination is to replace the old one-cent stamps now used on third class matter.

DAN HORN

The Livewire Girls' club met with Miss Ramey at the club house Tuesday, April 14, with ten members present. Several cooking demonstrations were given, and Miss Ramey started the second year girls to making their sewing bags. The "tacky contest" was a success, and an oil

stove has been purchased with the proceeds for the club house. At our next meeting, two weeks from Tuesday, we will each make a pair of pillow cases. The membership committees are working hard, and we are expecting several new members at our next meeting.

Miss Ethel Starr spent last week with Miss Opal McDermitt at Abilene.

Dan Horn was well represented at the singing convention at Mangum. The next convention will be at the Mitchell church.

The Parent-Teachers meeting met Tuesday night and new officers were elected for the coming year. Ralph Bradshaw was elected president. It was decided to build a permanent stage at the school house in the near future. Mr. Bush was present and made a very interesting talk on poultry and live stock, and they decided to have a community fair in the fall and officers and committees were elected for the different departments.

THURBER AT RANGER THURBER, April 17.—The locals will motor over to Ranger Sunday to

tackle the Ranger Magnolias for the third time this season. Twice have the Magnolias defeated the Thurber baseball club, and the locals vow that twice will be all, as Sunday's game will change the tide and they will bring home the bacon. Thurber defeated Breckenridge last Sunday by an 8 to 3 score, and with the way their team is now working, they plan to make it hot for Ranger next Sunday.

JANE'S BERRY JOURNEYS IN THE ENCHANTED FOREST

"Do you always enjoy what you take as much as you seem to enjoy my lunch?" asked Mary Jane

Mary Jane Thinks That The Corvus Is A Very Intelligent Bird

MARY JANE was having quite a time of it all by herself in the Spring House of the Enchanted Forest one day, and was wondering whom she should visit next.

She laid out a little lunch for herself right near the bubbling well of the spring, and ran out to get some nasturtium leaves to make drinking cups. When she returned there sat upon the window ledge a great black bird, much larger than a crow. He was just finishing one of Mary Jane's sandwiches and had another tucked under his wing. From between the nice white slices of bread, rich, golden MARY JANE SYRUP was dripping all over his beak and on

"Well," said Mary Jane "and who are you? Why don't you go and ask me for a bite?"

"I am the Corvus, I know me as the Raven. I know what I want. I take it

"You must be very smart, indeed, if you always enjoy what you take as much as you seem to enjoy my lunch," replied Mary Jane.

"Ah!" answered the Raven sadly, "It is not always my good fortune to get such delicious pickings. Your sandwiches are the best I've ever eaten. What are they made of, Mary Jane?"

"MARY JANE SYRUP—that's what you must ask for," said Mary Jane with a smile.

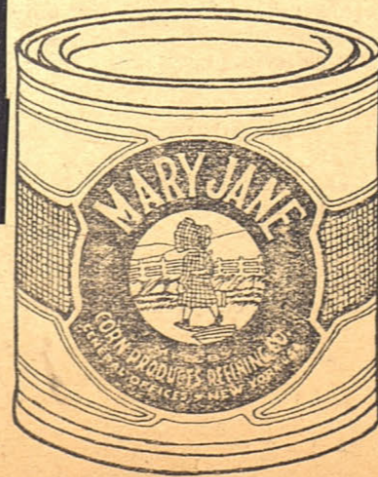

"It is certainly worth asking for," replied "I shall look for MARY JANE wherever I go."

you go where the children are and healthiest, I'm sure you'll find they have MARY JANE SYRUP. I advised Mary Jane, as the Raven

Quoth "EVERY

### JOHN FRANCIS SHOWS PROMISE BIG ATTRACTION

The John Francis Shows, which come to Cisco next week, have one of the largest pleasure trails in existence. This will be the largest show ever exhibiting in Cisco. They travel on their own special train and present twenty-five shows and riding devices. V. J. Yearout, advance man for the shows, arrived in the city last week. He enumerates many of the features to be seen as follows:

One of the features will be Captain Fred Ivey's big water circus, bathing beauty review, fancy swimmers, divers and water clowns. Captain Ivey concludes each performance with a back summersault from the top of a 90-foot ladder into four feet of water.

Dr. Bushnell, famous African explorer, presents men and women of the Pin Head family. The doctor has made four trips to far off Africa and is well met and takes a particular delight in his lectures and his exhibition will be found very educational. All students will find it well worth their time to pay the doctor a visit.

Two big side shows where a large and varied collection of animals, educated ponies, strange people, monstrosities and elusions; in fact you will find 10 big shows for the price of one in each of these great shows. Captain Gonzales of Spain, the man who fights a lion in a fourteen-foot cage, will be one of the features among the many to be witnessed at each performance. One of the best minstrel shows traveling will be found on the midway. Twenty-two people are carried with this show, each a talented performer—not a plantation show, but real singers,

dancers and musicians. Congress of fat people presenting Jolly Ray, the most beautiful fat woman on exhibition. It takes eight men to hug her. Ramona, the show beautiful, a big time musical review, featuring Miss Selby in her beautiful poses and serpentine dance.

Big Wild West and Rodeo with plenty of cowboys and cowgirls, several big fun shows and many other attractions that space will not permit to describe.

Gus Anderson's athletic stadium with four professional boxers and wrestlers.

Seven big joy rides—the whip, humming bird, Ferris wheel, merry-go-round, baby Ely, ferry swing, and for those who are looking for a real thrill the merry-mix-up. You will find some of these rides new and never seen in this section before.

Extra added feature—the largest collection of big snakes with any show traveling. Anacondas, over 20 feet long and weighing four hundred pounds; boa constrictors, fock and black pythons. These snakes only eat once in several months and then only when they are permitted to kill their own prey. Luck for the people who attend the fair—feeding time comes while the shows are exhibiting in Cisco, so they will be permitted to see the sight of a life time in watching these huge snakes capture and devour rabbits, chickens and small pigs.

### Pioneer Gives Facts About This Section of Texas as Easy Place to Make a Living; Work Will Do It

R. M. Thompson of Brownwood, was a pleasant visitor at the office of Cisco American Thursday morning. Mr. Thompson is an old newspaper man, having recently been connected with the Brownwood News. He said: "It is pretty dry in our section of the state, but that is nothing unusual. We generally have a dry season some time during the year, but it generally turns out all right. I have lived in this section of Texas for 35 years, and find that the country will produce enough to pull through any year, regardless of the season."

"I think hillside irrigation would solve most of the problems that our people are now confronted with, but the fact that it is so easy to get along in this section of Texas it will be a hard matter to induce the people to adopt these advanced ideas. We make something every year, whether it rains or not, and the farmers can have a living, even with indifferent cultivation. I recall a case of a farmer who moved to my section from DeWitt county, where they have to fight the weeds and grass till the crops are made, and in the meantime all manner of parasites that infest the crops. This man found things different here. But being accustomed to labor from the time the crop was planted till harvested, his first year yielded him a bountiful harvest. He had more money than he could spend for his needs. He had found his Eldorado. Letters and the local papers sent back to his former friends told them of the wonderful possibilities of this section of Texas, and he induced many to come out here. He was the country's best booster. But things were coming so easy with him that the second year he slowed down a bit—his crops were not so well cultivated, and he spent more time riding around to see how his neighbors were faring. The result was his yield was not so good. He finally drifted into the habit of neglecting his farm until it was non-productive, and the last time I saw him he was wearing second hand clothing, and had developed from a booster into a calamity howler."

"West Texas' great curse is it is too easy to make a living. If we had to hit the ball every day in the year like they do in the older sections of Texas, ours would be a paradise."

"I was talking to an auto dealer the other day and he had a bad case of the blues—the country was going to the devil on account of no rain. He said the farmers were all walking around on their lips, and he saw very little hopes for the future. I reminded him of the fact that he and I had been in this section a long time, and men who made such a calamity howl would later come in and pay him the cash for a car. He replied, 'That is true. I have sold 16 cars for cash this month already.'" So there you are.

**THREE HUNDRED ATTENDING INTERSCHOLASTIC MEET ABILENE, April 17.**—Students and teachers from schools in more than a dozen counties, numbering between 300 and 400, gathered here today and Saturday for the district interscholastic meet. The Abilene schools are attempting to furnish accommodations for all the visitors during the two days.

### EASTLAND MAY NOT PLAY FOOT BALL THIS YEAR

Football will be abolished in Eastland high school, if present plans of the Eastland school board go through. A recent story in the Oil Belt News was to the effect that the board was seriously considering this move because of the fact that the school authorities had experienced much disciplinary trouble with football men. By abolishing football and giving attention to athletic development of under developed pupils, the board expects to render a greater service to the community because those who play football are usually already robust and do not need athletics for muscular development.

Census figures for the Eastland Independent School district show 1,000 scholastics, a decline from 1,135 last year. This is a net loss of 135 scholastics.

**REAL COUNTY LAND VALUE HAS LARGE INCREASE**  
WASHINGTON, April 17.—county, Texas, shows an increase of 80,249 acres in farms and \$687,726 in value of farm lands and buildings in the last five years, according to results of the 1925 farm census released Monday. The number of farms has increased from 260 in 1920 to 317 in 1925. The farms operated by owners have increased from 176 to 207, by tenants from 76 to 109 and those operated by managers have decreased from eight to only one. The value of farm lands and buildings in the county has increased from \$2,504,161 to \$3,181,887. Horses and hogs show a decrease, while mules and cattle have increased. The number of cattle went from 6,777 to 8,102 in the five years, while horses decreased from 1,602 to 1,013. Hogs numbered 4,991 in 1920 and 2,581 this year. The acreage in cotton increased from 174 to 344 acres but the quantity harvested decreased one bale, from 64 to 63. The corn acreage likewise increased while the harvest decreased, the acreage going from 2,806 to 3,351 in five years, and the harvest decreasing from 78,034 to 45,069 bushels. The oat harvest was less and the hay more this year than in 1920.

### DISTRICT MEET OF SCHOLASTIC LEAGUE APR. 24

J. E. Burnett, director general of the district meet of the interscholastic league of the eleventh district, which will be held at Stephenville, April 24-25, issues the following instructions to teachers, coaches and contestants:

All contestants to meet in John Tarleton auditorium Friday, April 24th, 9:00 a. m., for general announcements, and in the college gymnasium Saturday, April 25, 9:30 a. m., for general announcements. All coaches are requested to be present in college gymnasium April 24, 7:30 p. m., for the purpose of a general discussion of rules and regulations pertaining to meet. Admission will be free to all events, therefore there will be no rebates on transportation. Free entrance will be given all contestants and coaches. Be sure and see arrangements committee in college gymnasium. Competent judges will be secured in and out of the district. All athletic events will be carried out in the order that they are listed in the Interscholastic League Bulletin. Gold medals will be given for all first places in literary events. Medals will be given to first, second and third place winners in track and field. Winners of medals will receive them immediately after event.

Since our district has less than ten counties the winners of second place in extemporaneous speaking and declamation may compete in the district. In order to be second place winner there must have been as many as three contestants. Your attention is directed to the fact that there is just one division in track and field. All debating teams are required to be in the auditorium of the First Baptist church early enough in the day to begin at 10 a. m. Friday.

Cups will be given to schools winning in the following: Relay, tennis singles, tennis doubles, track and field, boys' debate, girls' debate. These are to be circulating cups, the school winning them three successive years will become owner of the cup. An individual cup will be given to the athlete winning the greatest number of points in track and field.

We want every person who comes to Stephenville to participate in this district meet to feel that he is going to get a square deal if it is possible to get it.

We want the people of the district to realize that it is not Stephenville's meet, but that it belongs to the entire district and the success of it shall depend upon the lending of helping hand by the people of the district. We want you to come and be with us and feel at home among us.

All literary events will take place Friday, 24. All athletic events Saturday, 25.

Mesdames Howard D'Spain, Roy Simmons, Glenn D'Spain and Miss Norma Wren Mahan formed a motor party to Breckenridge Thursday afternoon.

### Take no chances with your baking

MAKE sure that you get the best possible results every time you cook or bake by using Mrs. Tucker's Shortening. You will find that it makes muffins, hot breads, cakes—light and flaky and tender. That fried meat and vegetables are never greasy. That whenever you use it, it imparts the richness of butter—and none of the heavy indigestibility of lard.

That is because Mrs. Tucker's is a pure, wholesome vegetable shortening. It is made exclusively of choice cottonseed-oil. Buy a pail of it from your grocer today. It will be enough to convince you of its economy.

You'll be delighted, too, with the new container for Mrs. Tucker's. Absolutely air-tight, it assures you shortening that is fresh and pure. It's wonderfully easy to open—a matter of seconds. Once empty, it is useful about the house as a bucket or dinner pail. Interstate Cotton Oil Refining Co., Sherman, Texas.

**Mrs Tucker's Shortening**  
America's finest cooking fat

### SECOND PRIZE ESSAY READ AT ROTARY LUNCH

The following essay, written by little Miss Juanita Smith, twelve years of age, in the sixth grade of the Colony school, who was awarded the second prize in the essay contests put on by the extension department of the chamber of commerce, was read by the author at the Rotary luncheon at the Rotary-Lions club Thursday:

**Why I Would Like to Live in Cisco**

The first reason why I would like to live in Cisco is because it has good schools. Cisco has the best schools in Eastland county, and ranks among the best schools in Texas. There are lots of good, and also cheap, boarding places in Cisco, and the Cisco chamber of commerce always sees that the poor boys and girls that have graduated from high school get to go to college. They help them get a job so they can pay their way through college. So there's no reason whatever that any boy or girl should not get an education this day and time.

The second reason why I would like to live in Cisco, is because they have all kinds of amusements for old and young. They have theaters and shows. Also the big dam, the largest reinforced hollow tube dam in the world. Fishing, hunting, boating, golf, bathing, tennis and many other sports await you at Cisco. Also the floating beach, in Lake Cisco, will be enjoyed by thousands of bathers this summer. There is a tourist park at Cisco, which cost \$10,000, where visitors will find every convenience.

The third reason why I would like to live in Cisco is because they have good churches. Every one is welcome to the Cisco churches.

The fourth reason why I'd like to live in Cisco is, because it is such a clean and nice little city. Everything is cheap, but good.

There is the big poultry farm. It is called "Eastland County, the Egg Basket of Texas." They have a 30,000 egg-hatchery there now. You can take your eggs there, and they will hatch little chicks for you very cheap.

Cisco also has fruits. Cisco's territory produces peaches, pears, apricots, plums, apples, grapes, black-

### MORAN PEOPLE LIKE CISCO AS SHOPPING POINT

Mr. and Mrs. M. D. Bray, Mrs. J. R. Leftwich and Mrs. E. R. Ferguson, all of Moran, were shopping in Cisco Wednesday. These people are patriotic with reference to trading in their home town, but there are many things that cannot be secured short

of a town like Cisco and they, like many others of Moran, have found this city so convenient for their needs that they have come to feel very close to us as a shopping point. They report conditions very good despite the dry weather. Oil is still the topic of the day and drilling is going on constantly. New shallow wells are being brought in and there seems to be no signs of a let up in operations. The health of the community is exceptionally good, there having been very little sickness, comparatively, during the winter and spring. Moran people in general are interested in good roads, and especially, in a good road to Cisco. Farming operations are at a standstill now awaiting a better season. Much cotton will likely be planted to take place of grain that may have died from the dry weather. A large feed crop will be planted by most every farmer.

**"Up to Three Years Ago**

I had always used high priced baking powders for the reason that I thought they would make the best cakes, pastries, etc., but after giving KC a trial I have had no other on my pantry shelf . . ."

*Thrift means a higher standard of living without added expense, the dignity of serving oneself, and domestic independence.*

### ARE MEN LAZIER THAN WOMEN

Are men lazier than women, or only less conservative? It is a fact that man's work, which mostly lies outside the home, has been simplified and made easier by the adoption of a thousand devices, but women's work, which is mostly in the home, continues very often to be back-breaking, nerve-wrecking, expensive drudgery.

How many women still wash with a tub and a wringer, iron bending over a flat board, ruin their hands with greasy dish water, scrub floors on their knees, and chase dirt with a clumsy, ineffective broom? Of course they do it. Of course they complain about it. They feel a loss of self-respect in doing it, and whenever possible they get some other woman to do it for them, at high cost, thrusting away their responsibilities and denying themselves the opportunity of thrift. And if there was no way of changing the character of this work, who could blame them? The times are civilized, but they see that housework as it is too frequently done is primitive. It need not be so. The washing machine is here, the electric flat iron

and the ironing machine, the vacuum cleaner with a dozen neat attachments for every sort of cleaning, the automatic dish washes and drier, electric and fireless cookers, and many other devices of the precise type which in general industry and transportation make work easier and less expensive. These things pay their way rapidly in time and ease. But more particularly, they pay in money. What we all insist on is the need of thrift in this country. But what is thrift? Not economy alone. Thrift is economy with foresight. After the initial cost of the devices necessary to make reasonable the work of an ordinary household, the interest on that cost will hardly equal the wages of a girl and a washwoman for one month.

The time has come when forward-looking housewives no longer take pride in having their work done for them. They take pride in doing it themselves, so comfortably that it is no sacrifice, and so economically that it is the basis of their self-respect.

## OF A PERSONAL NATURE

Circle 4 of the Presbyterian auxiliary met Tuesday afternoon with Miss Mayme Davis at her home in Humboldt. Mrs. C. H. Fee presided at the business session, during which the following officers were elected for the year: Chairman, Mrs. C. H. Fee; vice chairman, Mrs. Phil Keelan; secretary, Mrs. Ray Vaughan; treasurer, Miss Bess Maxwell. During the social hour, the hostess served a refreshing ice course to Mesdames C. H. Fee, Glenn D'Spain, Mac Wilson, John Neel, J. R. Almond, Vivian Donovan, Hayes, and Misses Gussie Newcomb and Bess Maxwell.

Mrs. Ray Vaughan has as her guests her sister, Mrs. R. H. Hope, and little daughter, Rebel, of Fort Worth.

Allan Sapp of Abilene, is spending this week in Cisco on business.

Mesdames Wm. Reagan, R. Q. Lee, Philip Pettit, J. J. Butts and G. B. Kelly leave Saturday night for Alpine to attend the Sixth District convention of the Texas Federated clubs.

Will St. John is spending a few days in Lubbock on business.

Mr. and Mrs. Allie Wooten of Eastland, spent yesterday afternoon in Cisco.

K. H. Pittard made a business trip to Breckenridge Thursday.

Stein Lee of Caddo, was a business visitor in the city yesterday.

Mr. and Mrs. W. R. Simmons and Miss Titia Bell Simmons spent Thursday afternoon in Ranger.

Mrs. A. W. McBride and son, Richard, of Wichita Falls, are the guests of Mr. and Mrs. C. H. Dent.

Friends will be glad to know that C. H. Dent is still improving and

was able to sit up for a short time today.

Mr. and Mrs. A. C. Green leave tomorrow for San Antonio for a visit with relatives. Mr. and Mrs. Green will remain in San Antonio for the Battle of Flowers and the other festivities of the season.

Mr. and Mrs. Cecil Joyce of Rising Star were in Cisco on business Thursday.

Misses Mary and Artie Boaz of Rising Star, spent yesterday afternoon in the city.

Hugh White of the Southwestern Motor company, was in Dallas Thursday on business.

### AMUSEMENTS

Broadway Tomorrow

Picture-goers who like novelty of plot and romantic situations have a genuine treat in store for them, according to advance reports, in "The Man Without a Heart," which is coming to the Broadway theater Saturday.

Kenneth Harlan and Jane Novak, both of them established screen favorites of premier rank, head the all star cast. The former ably portrays the debonair, fancy free man of the world, from whom the story takes its title, while the latter charmingly plays the girl, who puts the skids under his bachelor resolves.

"Dog Days," a new "Our Gang" Pathé comedy, which will be shown at the Broadway theater, is a riotous mixture of kids, dogs and fun. Every one of the "gang" have a trick dog. Farina got his the same way Jesse James got his horse. Joe Cobb's animal is most exclusive. Nobody else in the world would own him.

What with a runaway pony cart, in which Mary Korman, a jaded

society lady of 10, and a riotous birthday party, the kids surely have a wild time in their latest effort at merry making and, from all accounts, they are more than usually successful in their most recent panic of mirth.

The cast of famous youngsters includes Mickey Daniels, Joe Cobb, Mary Korman, Jackie Condon, Gene Jackson and Farina. Rex McGowan was the director.

Ideal Tomorrow  
Rex "Snowy" Baker in "The White Panther." See his famous wonder horse Boomerang.

## JACK KELLY WAS HIGH SCORE AT LEGION BRIDGE

The bridge tournament, staged by the members of the John William Butts post, American legion, at the armory Thursday night was a very pleasant occasion. The bridge play was the second of a series of tournament games planned by the local post; the first, the checker tournament, was held about two weeks ago. The third of the series will be a domino tournament, which will be announced in about two weeks. This program is part of the plans of the local post to make the legion meetings attractive, and to arouse interest in the American legion work. These entertainments are open to all friends of the ex-service men, and it is predicted that they will become most popular social events since the recent organization of the women's auxiliary of the post, whose members will add much to the social features of the post.

The members of the women's auxiliary served homemade candy to the guests at the bridge tournament last night, when there was a most congenial company present for the bridge games, and several tables were filled. The prizes, four in number, two for the ladies and two for the gentlemen players, were furnished by John H. Garner's and the Corner drug store. High score was won by Jack Kelly, who was awarded first prize for the men, a belt chain, donated by John H. Garner's; second prize, a box of cigars, was awarded to Bob Herron, donated by the Corner drug store. Mrs. J. R. Mason made high score among the ladies, and was presented with a bottle of Alary Garden perfume, furnished by John H. Garner's; the second ladies prize went to Mrs. Jack Kelly, a bottle of Black Narcissus toilet water, from the Corner drug store.

### GUNSIGHT

Health of the community is good at the present writing, but everyone is wishing for a rain.

There is a little excitement over the well that is in the course of drilling on the W. F. Ramsey farm, and several oil men are trying to secure leases in the neighborhood.

School is getting along fine. There was an Easter egg hunt held Friday afternoon. A fine time was enjoyed by the children and several of the patrons. A prize was awarded to the one finding the golden egg, and Master Wesley Poe was the lucky one.

The trustees' election was held Saturday, April 4. Messrs. John Blackburn, John Watson and Ballard Boles were elected trustees. Everyone is looking for a successful school next year.

Mr. and Mrs. Wesley Hinson, accompanied by Mrs. Josie Noel, returned Monday from a visit to the plains. They reported a fine time and were delighted with the country.

Several people went to a concert at Pleasant Hill last Tuesday night and enjoyed a fine program rendered by the Vaughan Quartette of Wills Point. The Vaughan Quartette also gave a splendid program at Gunsight Saturday night. It was enjoyed by an unusually large crowd.

Gunsight's young people are getting rather active, motorcycle riding being the latest hobby. Robert C. Guiles, while introducing a new trick, that of riding over wash pots, received a slight injury.

**TOO LATE TO CLASSIFY**  
NOTICE—Place now open at Graham sanitarium for young lady to enter training as nurse. 306c

**CARD OF THANKS**  
We desire to express our thanks and appreciation to Cisco people for their sympathy and many acts of kindness to us on account of the sad death of our husband and brother, the late Bruce Carroll, and assure you every deed is fully appreciated. ## Gas Mask Murder

ALEXANDER BUCHANAN

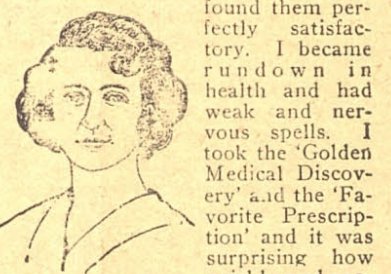

One of the strangest murders in the annals of American crime occurred at Waverly, Mass., when Alexander Buchanan, former Canadian soldier, was taken into the cellar of an unused building of the McLean Hospital, where a war time gas mask was tied over his face and he was chloroformed to death. The police believe he was slain by war time "buddies."

## LEGION STAGED BEST PROGRAM YET AT PUEBLO

The best program yet put on in the series of rural entertainments was that at Pueblo church last night. At least 250 people were present from the various communities served by Pueblo, and they greatly appreciated the program of music, readings and singing by the Cisco people.

The high school orchestra played Turkey and strawberry short cake for dinner Sunday, 75c; children 50c. Gables house, 208 west Seventh street. 304-305

## Are You Weak, Nervous?

Houston, Texas—"I have used some of Dr. Pierce's remedies and found them perfectly satisfactory. I became run down in health and had weak and nervous spells. I took the Golden Medical Discovery and the 'Favorite Prescription' and it was surprising how quickly and rapidly I improved. Just a few bottles of each put me in good health. I can recommend the 'Golden Medical Discovery' as a general tonic and the 'Favorite Prescription' for feminine troubles."—Mrs. W. H. Jackson, Route 1, Box 294, N. All dealers. Send 10c to Dr. Pierce, Buffalo, N. Y. for trial pkg. tablets.

## Yes, I Have Them

**MORRIS SIMON**  
Outfitter for Men  
Exclusive, But Not Expensive

## Folks Don't Think Blotches Are Pretty

You can't expect people to say you are "good looking" as long as your appearance shows you are careless about keeping your skin free from blotches, pimples, rash, "breaking out" and eczema. You may feel like you have no hope of getting rid of these things, but you should not give up because Black and White Ointment, and Soap, are proving to thousands of people every day that they can depend on them to keep their skin clear, smooth and lovely.

Black and White Ointment and Soap are nominally priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap.

Turkey and strawberry short cake for dinner Sunday, 75c; children, 50c. Gables house, 208 west Seventh street. 304-305

numerous selections and won great applause. Carl Mount gave a humorous reading that went over big and brought prolonged applause. E. H. Whitehead made a short talk on behalf of the Cisco chamber of commerce and introduced Crigler Paschall who made the principal address of the day. Mr. Paschall's subject was "Cisco and Americanism." He told of the work of the American legion of the entire country and of the Cisco post particularly. He told the people of Cisco's desire to come into closer relationship with the people in the different communities, and invited them to come to Cisco frequently and get better acquainted with Cisco business men and their service.

Irving Brown and Herman Terry staged their humorous Spanish dialogue and got a good laugh. However, several real Mexicans who were looking in a window got a real laugh the boys knew nothing about.

Charlie Gray of the chamber of commerce directorate, made a short talk. Mr. Gray formerly lived in the Moran section and was quite at home in Pueblo.

A quartet composed of P. L. Kelley, Buster Mitchell, James Shepherd and Niel Lane sang several old folk songs, and one or two more

modern ones. The applause brought them back for several encores.

Following the final numbers by the orchestra, the ladies of the Pueblo community served an ice cream supper and auctioned off a cake. The cake was sold for \$2:50 to Chas. Gray, while the sale of the ice cream netted a neat sum to the fund for purchasing the piano at the church.

The Pueblo people have recently built a new church that does credit to the community. This church was used for the meeting.

Several Cisco guests were introduced. They were Phil Keelan, E. V. Frost, H. G. Bailey, Mrs. Keelan, Raymond Nye, Crigler Paschall and E. H. Whitehead.

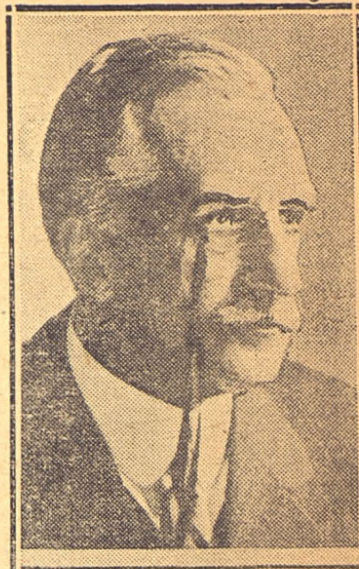

The next program of the series will be held at Wayland next Thursday night. The Cisco business men hope that more of them will realize the importance of this work and that a representative attendance will make the trip to Wayland.

### TEXAS WEATHER

East and west Texas—Fair to night and probably warmer Saturday.
