NEW YORK, Nov. 13.—Action has been taken to make effective a strike of 15,000 long-distance telephone and telegraph workers in tates at midnight Friday, says Joy J. Moran, president of the Federation of Long Lines Telephone Workers, an independent

The decision to carry out the strike, which was voted Nov. 3, was announced by Moran Wednesday night after union representatives of the American Telephone and Telegraph company failed to reach an agreement on the union demands for a 4 per cent wage increase and a narrowing of geographic pay differentials.

He said they all also had been notified that the union desired to provide enough service to maintain telephone and telegraph wires for national defense purposes.

#### Dallas Ready.

DALLAS, Nov. 13.-J. Ray Stringer, representative of the Federation of Long Lines Telephone Workers, said Dallas members would strike at midnight tomorrow unless last-minute action averts the walkout. The strike, he said, would effect all press wires, broadcasting chains and similar long-time services. Stringer, chairman of the executive committee of the union here, said there are 30 LLTW members at

### CERTIFICATE OF TITLE TO AUTO IS NECESSARY

A certificate of title is necessary for one to license an automobile after January 1, says Clyde Karkalits, tax assessor-collector for Eastland county.

Section 63, paragraph B of the Certificate of Title act provides that the Texas highway department or any agent thereof shall not, after January 1, 1942, register or re-register any motor vehicle unless the owner has in his possession an official certificate of title or ownership.

If you owned your automobile prior to October 1 1939, says Mr. Karkalits, and have not secured a certificate of title, you may obtain one by applying through the tax assessor- collector's office and furnishing evidence of ownership such as a license receipt or bill of sale prior to October 1, 1939.

STUDEBAKER PULLS LOCOMOTIVE

Above you see the giant steam locomotive that pulls the Milwaukee Road's famous Hiawatha train being towed down the switch track by a Studebaker President. The locomotive, fully loaded, weighs more than 500 tons, but the car was able to start it and haul it down the tracks at half throttle. Prime reason, except for the ower of the automobile, was the engineering advancements, such as roller bearings, that are incorporated in these high speed locomotives.

"Some bulbsnatcher borrowed my bulb again!" says Jim-

"... And they're always worrying about my grades. Then look what happens!"

Too bad, Jimmie. You ought to have plenty of GOOD light.

". . . Dad borrows my lamp bulb 'n says to take the one out of the hall. But I don't believe he knows that old 40-watt bulb is not enough light. Teacher says we ought to have at least a 100-watt study lamp or we might strain our eyes. Gee

Yes, Jimmie, you need good light. Young eyes and old eyes, too, need to be protected against strain. Try this: suggest to your dad or mother that they call one of our trained lighting advisors to make a FREE survey of your home to help give EVERYBODY better light.

Good light, you know, is about the biggest bargain you can
