

SUFFRAGE RATIFICATION IN COURTS

NEW WELL COMES IN MAKES FORTY-EIGHT HUNDRED BARRELS

Shook No. 3 at Oil Center Shot at Thirty-two Hundred Feet Was Reported Yesterday Evening Making This Under Gauge — Two Other Wells Ready To Come in — Much Excitement in That Locality.

Word reached here last night that the Shook No. 3, at Oil Center, adjoining the Hilburn field, south of this city, had come in during the afternoon when it was shot with 240 quarts of nitroglycerine at a depth of 3,200 feet and yesterday evening it was making 4,800 barrels under gauge.

There was a large crowd of people there, being in attendance on the three days picnic which ended there and at Hilburn yesterday evening and there was much excitement, oil spreading in every direction.

When the invitation was extended to the people of Cisco to attend the picnic and barbecue, the gentlemen told them they would probably witness the coming in of a well or two, as there were four in that vicinity expected to come in at any time.

Friday was the day for most of the Cisco people to go and they missed this event, but there were a number of persons there from this city yesterday when the well came in.

Shook No. 1 is showing oil and gas, it is reported and is expected to come in at any time.

Shook No. 4, which is a half mile from any production, in new territory is expected to come in within twelve hours it was stated last night. It has a good showing of oil and gas.

Persons coming from that locality last night were much excited over this development. One man said Oil Center is now surrounded with producing wells having four, and that more are coming in soon. He insisted that within a short time there would be more and larger wells brought in in that locality than ever before at any point in the state.

Another at Leeray.

Special to the News. LEERAY, Aug. 21.—Tolle number one of the Red Bank oil company, located about one mile northeast of Leeray now gauging twelve hundred barrels and increasing after being shot last Thursday night at thirty-two hundred and twenty three feet.

RAISE INTERSTATE RATES ON FREIGHT BUT NOT PASSENGER

Associated Press. AUSTIN, Aug. 21.—The railroad commission granted an increase in all intra-state freight rates of thirty-three and one-third per cent. A twenty-five per cent increase on excess baggage rates was granted, effective August 25, but the application for a twenty per cent increase on interstate passenger rates was dismissed for want of jurisdiction.

TRYING TO ABOLISH THE MARATHON FROM OLYMPIC CONTESTS

Associated Press. ANTWERP, Aug. 21.—A determined movement has begun among the various national Olympic committees to abolish the Marathon race as a feature of future Olympic contests. It is claimed the race is not humane.

A petition will be presented to the international committee. Sponsors of the movement would substitute a fifteen-mile race. Arrangements have been completed for the Marathon tomorrow. The members of the Belgian Olympic committee sought to secure a change in the rules to permit the runners refreshment.

EXPECT WORK WILL BEGIN ON HILBURN ROAD BY TOMORROW

Finance Committee So Well Pleased With Success Attained So Far That It Is Deemed Unnecessary to Delay the Building of the Road — Demand for it Imperative—Other Subscriptions.

Secretary Fowlkes of the chamber of commerce and production, was yesterday awaiting the coming of a contractor, due at his office, to make final arrangements whereby work on the road from Cisco to the Hilburn field will begin tomorrow morning.

The success of the men having in charge the soliciting the remainder of the funds has been such that they feel justified in beginning the work, as the need for the road is pressing and considering, too, that they have interviewed only a small portion of the citizens and will therefore continue the work Monday and Tuesday, are satisfied the necessary amount for the entire road will be in hand at the end of Tuesday.

All those citizens who went from Cisco to Hilburn to attend the picnic and barbecue there Friday, quickly realized the immediate necessity for this good road, particularly when they found the kind of road now leading to that field and the great demand being made for the transportation of goods and material from this city to meet the wants of the people now there, and the many more who will flock to that point.

G. C. Robertson, who has been at the head of the soliciting committee, said yesterday:

"The merchants, business men, oil concerns and farmers, have responded nobly to this most important undertaking, and while the committee has been unable to see all the business men, the results so far have been very encouraging and the chamber of commerce and production is very anxious to start work at once on the road. The finance committee expects to have its work completed by the early part of next week and they believe that those yet to be called upon will contribute as liberally as those who have already signed the list.

It is impossible to estimate what Cisco, as an oil center, will derive from the Hilburn road, but every one is agreed that the road must be built in order to keep the balance of trade in Cisco. However, should an oil truck, an oil wagon or an oil automobile never travel this road, the cost of the same will be returned to the merchants many times over, as it opens up to Cisco one of the richest farming communities in the state. In our scramble for the golden fluid, let us not forget that our farms are our most permanent asset."

LIBERATION OF THE POLISH PEOPLE HAS NOW BEEN ASSURED

Associated Press. PARIS, Aug. 21.—The liberation of Poland is assured by the great victory last week over the Russians, according to the general opinion in French military circles, but it is doubted if it will yield more important results. The bolshevik army will probably escape total destruction, although the retreat is entailing very heavy losses.

LONDON, Aug. 21.—At the second sitting of the peace conference Thursday at Minsk, the head of the Polish delegation announced Poland's peace conditions to be complete, inviolable independence for the Polish republic, with no interference in international affairs, according to a wireless dispatch from Moscow.

PARIS, Aug. 21.—Six bolshevik divisions, consisting of 30,000 to 40,000 men, are surrounded by the Poles between Siedle and Brest Litovsk, according to press dispatches received here.

WARSAW, Aug. 21.—The Poles captured 18,000 soviet prisoners up to Thursday, it is announced here.

WIRELESS MESSAGE HEARD FIRST TIME AROUND THE WORLD

Associated Press. WASHINGTON, Aug. 21.—The first wireless message "to be heard around the world," was received today by Secretary Daniels from the Lafayette radio relay at Bordeaux, France. The Lafayette station is the largest in the world and the feat was accomplished during official tests and before turning the station over to the French government for operation.

TWENTY-NINE LIVES LOST WHEN STEAMER IN COLLISION SINKS

Four Members of the Crew Including the Captain Were Saved — One Woman Among Those Missing — Owners of the Vessel Express Fears That None of Twenty-nine Was Saved.

Associated Press. SAULT STE. MARIE, Mich., Aug. 21.—The lives of twenty-nine persons, one of them a woman, are believed to have been lost shortly after 9 o'clock last night when the steamer Superior City, a freighter, sank four and a half miles northeast of Whitefish Point, in Lake Superior after colliding with the steamer Willis King.

Four members of the crew, including the captain, were saved. The names of the missing could not be learned. All the records of the Superior City were lost. The missing woman was the wife of the second engineer.

But Little Hope

CLEVELAND, Aug. 21.—Officials of the Pittsburgh Steamship company, owners of the steamer Superior City, had received no word at 11 o'clock today of the safety of twenty-eight members of the crew. They expressed grave fear that all were drowned.

PRICE OF SUGAR TO BE TEN OR ELEVEN CENTS BEFORE LONG

Associated Press. CHICAGO, Aug. 21.—Sugar will be 10 or 11 cents per pound by January, Russell Poole, secretary of the city council of the high cost of living committee, stated in submitting the result of the investigation.

The country's beet crop will be from 30 to 40 per cent larger than ever before, he predicted. The new Cuban crop will be three times that of the 1914 crop.

TEN MEN ENTOMBED IN COAL MINE; TWO BODIES RECOVERED

Associated Press. WILBURNTON, Okla., Aug. 21.—Two miners were killed and eight others are believed to be entombed in the Degman-McConnell mine number nineteen, at Degman, three miles west of here.

The bodies of Jim Lenore and his sixteen year old son were taken from the mine at five o'clock.

Failure of the fans in the mine shaft is believed to have caused an explosion. Volunteer rescuers immediately began work at the mine but it is believed the work will not be accomplished tonight and little hope is held for the eight men known to be entombed.

SENATOR SPENCER RESIGNS FROM THE SPECIAL COMMITTEE

Associated Press. ST. LOUIS, Aug. 21.—United States Senator Selden Spencer has announced he would resign as a member of the special senate committee, appointed to investigate presidential campaign expenses.

In a statement, Senator Spencer explained that he being a candidate for re-election, he would prefer no longer being a member of the committee, inasmuch as the investigation might be extended into the expenses of candidates during the primary election and therefore his own expenditures would be subject to investigation.

WEATHER

Oklahoma—Sunday and Monday, fair, warmer. East Texas—Sunday partly cloudy, cooler southwest portion; Monday partly cloudy, warmer northwest portion.

West Texas—Sunday partly cloudy, warmer north and west portions; Monday generally fair, warmer north portion.

GREENVILLE HAS 12,384

WASHINGTON, Aug. 21.—The census show Greenville, Texas, population to be 12,384, an increase of 3,534, or thirty-nine and nine-tenths per cent.

THAT OLIGARCHY IS SCORED BY GOV. COX SPEAKING IN OHIO

Says Harding Fails to Distinguish Between the United States Senate As An Institution and a List of Senators Who Have Taken Charge of An Important Part of Government.

Associated Press. ORRVILLE, Ohio, Aug. 21.—Another spirited attack on the senate oligarchy was made here today by Governor Cox in an address replying to Senator Harding which the senate commended as the forum of popular government.

Governor Cox said the republican candidate has devoted his front porch sessions to a defense of the United States senate, which he characterized as reactionary isolation from the current public thought.

He fails to distinguish between the United States senate as an institution and a list of senators who have taken charge of the important part of the government. The democrats contend a group of men formed a dominating, arrogant oligarchy in the senate. They have deliberately interfered with the welfare of the world and delayed readjustment of the country. Republicans in the senate group are trying to annex the presidency, Governor Cox asserted.

Continuing the attack on republican campaign contributions, he charged the greedy interests with making contributions, to have been in notorious consort with the senatorial oligarchy.

In Labor's Stronghold.

Associated Press. CANTON, Aug. 21.—Labor problems, the league of nations and republican campaign contributions were featured by Governor Cox in an address here tonight and also at the afternoon meeting at Orrville.

Settlement of industrial controversies by force of public opinion instead of the boycott, while order is maintained and neither side to the controversy is aided by the government, was urged by Governor Cox tonight.

The labor issue was emphasized in this industrial community, in which Governor Cox figured during the steel strike last fall by refusing to send troops and also by removing a democratic mayor.

"The large interests are contributing to the republican campaign fund," declared Governor Cox, "because they want to buy an administration under which soldiers and boycotts will be used to settle difficulties."

On the league issue Governor Cox declared, "There cannot be an economical readjustment in America until things are tied together in other parts of the world," and reiterated his arguments that America should enter the league to "keep faith" with the American soldiers and the allies.

He denounced separate peace with Germany as "bad faith, base dishonor and desertion of the allies."

AMENDMENT TO HIT THE POLL TAX LAW? HOBBY IS GUESSING

Associated Press. AUSTIN, Aug. 21.—Possibility that the final ratification of the federal suffrage amendment might nullify the Texas poll tax laws, which, it is said, might conflict with the suffrage laws, is being investigated by Governor Hobby and the attorney general.

Governor Hobby said the situation has not been sufficiently investigated to determine its seriousness, but he intimated that a special session might be necessary to clear the legal muddle.

The main question involved, it is said, is whether women may vote in the general election without poll tax receipts, if the suffrage amendment is finally ratified before November.

AFTER TRAVELING MEN.

Associated Press. NEW YORK, Aug. 21.—Plans for the establishment of Harding Coolidge Clubs among the country's six hundred thousand traveling men were announced by the republican national committee. George Beap, republican national committeeman from Florida, himself a traveling man, will be in active charge of the organization work.

ORIENT IS ALLOWED TO BORROW MONEY AND OPERATE ROAD

Welcome News to Many Stockmen of Texas Who Were Told the Road Would Be Compelled to Cease Operating — Plan Now to Complete Line to the Pacific.

Associated Press. KANSAS CITY, Aug. 21.—William Kemper, receiver for the Kansas City, Mexico & Orient Railroad company, announces the receipt of information from Washington that the interstate commerce commission has granted the application of the road for a loan of \$1,500,000, which is to be used for paying off receivers' certifications outstanding and maintaining operations of the property.

Kemper said he would at once set about a plan of financing, under which money will be obtained to complete the railroad from Kansas City to the Pacific ocean and to Mexico.

He predicted the time is not far distant when the railroad will be developed into a through transcontinental line about 500 miles shorter than Kansas City to the Pacific than any other existing line.

MEN WHO STOLE ONE HUNDRED THOUSAND KNOWN TO OFFICERS

Associated Press. CHICAGO, Aug. 21.—The three messenger boys who were robbed of \$100,000 in registered mail pouches yesterday at the One Hundred and Eleventh street station of the Illinois Central Railroad, identified to the Chicago police three of the robbers as members of a band of safe blowers, well known to the Chicago police. Eye witnesses of the daylight theft identified their pictures at the identification bureau as those of the men present in yesterday's affair.

COMMISSION MEN TO FIGHT TO MAINTAIN PRESENT HIGH RATES

Associated Press. KANSAS CITY, Aug. 21.—A petition for an injunction asking that Edwin T. Meredith, secretary of agriculture, be prevented from enforcing an order forbidding livestock commission men from increasing their charges, was ordered prepared by fifty representatives of livestock exchanges in Kansas City, St. Joseph, Wichita and Denver, at a meeting here.

BATTLE OF MINERS IS WAGING IN WEST VIRGINIA IS REPORT

Associated Press. CHARLESTON, W. Va., Aug. 21.—Striking miners and private mine guards were fighting tonight at Clirtsville, Raleigh county, according to advices received tonight by Colonel Jackson Arnold, commander of the state police, from Corporal Roads, who is stationed in that region.

Arnold said, according to the corporal's message, the miners of the Willis Branch Coal company had joined forces with the guards of the Wirewood Coal company at Girtsville.

Dr. C. O. Lee secretary of Willis Branch Coal company, told the Charleston Gazette, by telephone tonight, that shooting could be heard in Glenn Jean, ten miles from Girtsville.

He said he had been informed that the "wires had been cut." The telephone operator at Pax, two miles from the scene, said, "It appears that the lines are down." She added that shooting could be heard plainly at Pax.

Senator Cummins Ill

Associated Press. DES MOINES, Aug. 21.—United States Senator Cummins was much improved today, following an attack of influenza. It was announced at his home that his rapid recovery is expected.

ELKS ENTERTAIN WITH BARBECUE AND DELIGHTFUL DANCE

Over Four Hundred Guests at Lake Bernie When the Supper Was Served and at Elks Hall for the Music and Dancing — Most Successful Social Event of the Season.

Undoubtedly the most splendid entertainment of the entire season was that tendered by the Elks yesterday afternoon and last night to their many friends, and there were 425 of these friends present to enjoy the hospitality of the members of the Cisco lodge of the order and the many pleasing features provided.

The entertainment partook first of a barbecue at Lake Bernie. The Elks had provided conveyances and took the guests from their hall to the lake, where supper was served at 7 o'clock. The guests were at the lake from 5 to 9 o'clock, where they enjoyed the barbecued meats and many other good things and the program which was offered.

Judge L. N. McCrea spoke of "The Building of the New Elks Home," while Claude G. Wild told "What the Home Will Mean to Cisco."

C. G. Gray, esteemed leading knight, was master of ceremonies and filled the position to the delight of all present.

At 9 o'clock the Elks and their guests retired to the city and to the Elks hall, where music and dancing filled out the remainder of the evening. This made it, with the delightful entertainment at Lake Bernie, a social evening long to be remembered in Cisco. Every appointment was perfect and the Elks proved themselves most delightful entertainers.

Bill Koch, of Moran, had donated a thoroughbred white face yearling for the barbecue and then, unfortunately, was unable to be present. Two heaves, two goats and one sheep were barbecued and the meat was done to a turn by "Pop" Williams.

Through the courtesy of Manager Campbell and E. T. Gunther, of the Light and Power company, the grounds at the lake were brilliantly lighted with electric bulbs.

Some of the jovial Elks stated that John Butts didn't founder, but some of his friends are yet fearful of the consequences.

WAGO POPULATION OVER THIRTY-EIGHT THOUSAND - CENSUS

Associated Press. WASHINGTON, D. C., Aug. 21.—The population of Waco, Texas, is 38,300, an increase of 12,075, or forty-five and seven-tenths per cent.

PUBLIC UTILITIES BILL TO BE DRAFTED BEFORE NEXT YEAR

Associated Press. AUSTIN, Tex., Aug. 21.—Governor Hobby has announced the appointment of a committee to draft a public utilities bill for introduction at the regular session of the thirty-seventh session of the legislature when it convenes on the second Tuesday in January, 1921. When the question of submitting a public utilities bill came up for consideration at the special session of the legislature in May, after a conference with Mayor Frank W. Wozencraft, of Dallas, president of the league, it was decided not to submit the measure at that time, but that the governor should appoint a representative committee later to draft a comprehensive measure on the subject which would be satisfactory to the various interests. This committee is expected to meet shortly and prepare the measure so that it will be ready for introduction when the next legislature convenes.

The committee as named by the governor follows: Mayor Frank W. Wozencraft, Dallas; Major J. W. Chancellor, Bowie; E. A. Amerman, Houston, representing the cities; Charles A. Harty, W. B. Head and J. D. Frank all of Dallas, representing public utilities; Senator W. L. Dean, Huntsville; Dr. George C. Bulte, Austin and Dexter Hamilton, Corsicana, representing the bench and bar; Senators H. P. Donough, Texarkana; Harry Hertzberg, San Antonio, and A. C. Buchanan, Temple, on the part of the senate, and representatives Barry Miller, Dallas, Ben L. Cox, Abilene, A. B. Curtis, Fort Worth, Adrian Pool, El Paso and Leonard Tillotson, Sealy, on the part of the House; Charles A. Bland, Beaumont, representing the Texas Industrial Traffic League and Texas ports Association.

INJUNCTION HOLDS BACK CERTIFICATE OF SUFFRAGE VOTE

Thirty Members of Tennessee House Go to Alabama Leaving No Quorum But Pro Members Defeat Motion to Reconsider — Then a Writ of Injunction Was Secured.

Associated Press. NASHVILLE, Aug. 21.—Chancellor James Newman has issued a writ of injunction, temporarily restraining Governor Roberts, Secretary of State Stevens and the speaker of the Tennessee house and senate from certifying to Secretary of State Colby Tennessee's ratification of the woman suffrage amendment. The papers were served on Governor Roberts immediately.

Less Than Quorum Acts

Associated Press. NASHVILLE, Aug. 21.—The Tennessee house today defeated, 50 to 0, a motion to reconsider the suffrage amendment and ordered that the senate joint ratification resolution be transmitted back to the senate to be sent to the engrossing clerk.

State Law Ignored

Associated Press. NASHVILLE, Aug. 21.—The meeting of the Tennessee house to clinch the amendment was blocked by anti-suffrage members, thirty of whom left Nashville last night for Alabama to make impossible a quorum at the session to have opened at 10 o'clock. Only 59 members, or seven less than a quorum, answered when their names were called.

Speaker Walker declared that the house would recess one hour to give the sergeant at arms time to round up the absentees. The 39 absent members are reported in Alabama. There seemed little prospect of a quorum.

I. K. Riddick, declaring the legislature was acting under federal and not state law, and that a constitutional quorum was unnecessary, moved that the Walker motion for reconsideration be taken from the Journal. The speaker held the Riddick motion out of order. On appeal to the house the speaker was over-ruled 49 to 8. Riddick moved the house reconsideration of the ratification and the motion was lost 50 to 0.

Find Members Missing

Associated Press. NASHVILLE, Aug. 21.—More than 30 members of the Tennessee house, opposed to suffrage, were missing from hotels early this morning. It was reported here they left shortly after midnight for Alabama, in an effort to break a quorum in the house and delay final action on the woman suffrage amendment.

Suffrage leaders said it is almost certain there would be no quorum when the house, scheduled to meet at 10 o'clock, convened.

Safe in "Alabam."

Associated Press. DECATUR, Ala., Aug. 21.—Twenty-five members of the Tennessee house have arrived here from Nashville.

RECEIVER IS ASKED FOR BROTHERHOOD RAILWAY TRAINMEN

Associated Press. COLUMBUS, Aug. 21.—Appointment of a receiver for the brotherhood of railroad trainmen and an accounting of the distribution of the brotherhood "trust fund," estimated at ten million dollars, is asked in a suit filed by Benjamin Callahan, head of the Columbus yardmen's association.

IRISH LORD MAYOR'S HUNGER STRIKE IS BECOMING SERIOUS

Associated Press. LONDON, Aug. 21.—The lord mayor of Cork is reported in a very low state owing to his hunger strike. He was, however, able to read today's communications from the home secretary stating that he would not be released.

The lord mayor's reply was that he would not give in and was prepared to die cheerfully. It is understood the lord mayor has been strongly advised by the Catholic clergy to desist hunger striking.

### EFFORTS TO REVIVE CISCO POST OF THE AMERICAN LEGION

Steps are being taken to revive interest in the John Williams Butts Post of the American Legion at Cisco, to the end that the post may become a dominant factor in local affairs, and provide ex-soldiers and ex-sailors here suitable club quarters and that community of interest and comradeship that a strong post should provide.

Post Commander Joe Cullinan is now spending most of his time in Brockton looking after his oil interests there, and has turned the matter over

to Stuart L. Williams. Mr. Williams has appointed Walter Sikes and Goodner Bedford to assist him, and post-cards will be mailed out to about a hundred ex-service men who are known to the committee.

Every ex-service man in Cisco will be reached through other mediums of publicity, and it is the hope of the committee that two or three hundred men will respond to the "assembly call" which will be sounded within a few days.

The committee has issued the following call to all ex-service men:

"Watch the bulletin board and listen for assembly." We are going to "fall in" at the city hall in a few nights and reorganize the John Williams Butts Post of the American Legion and make it the strongest, liveliest post in this section of the state. There are at least three hundred bucks, gobs and gold bars around Cisco that should be in the Le-

gion. You owe it to yourself, to the service you once graced and to your former comrades at arms. Fall out on the date announced and fall in.

### HILBURN BARBECUE AND PICNIC PROVES SUCCESSFUL EVENT

The three days' picnic and barbecue at the Hilburn field, closing yesterday evening, proved a great success and all who attended were much pleased. Friday a large number went from Cisco. They highly commend the barbecue and all express themselves as thoroughly enjoying the picnic.

In the afternoon there was speaking. County Commissioner Robertson boosting Rising Star, and Banker Barnes telling of, not so much the merits of Cross Plains, but of the shortcomings of Rising Star and Cisco. He said the former was compelled to come to Cross Plains for its bread and ice and Cisco was too far away from the field to be considered for a minute. He had many harsh things to say about towns other than his own.

Judge D. K. Scott, Judge J. J. Burke and Secretary Sam Fowlkes spoke for Cisco. The feature of this part of the speaking was the talk of Judge Scott in telling of the beauties and advantages of co-operation among the towns and cities of West Texas and the oil fields. He had no harsh words for any town or city, but insisted they should all work together for the common good of this section of the state.

During the three days of the picnic there was a lot sale in Hilburn, the new town laid out in that field, and a number of lots were sold, prices ranging from \$75 to \$450.

### MATERIAL FOR BIG REFINERY IS BEING MOVED TO LEERAY

Special to the News.

LEERAY, Aug. 21.—Consummating a deal with the Cisco & Northeastern railroad company, the Desdemona Refinery company, composed of Temple men and associates, this week started wheels moving toward completion of Leeray's first refinery, to be located on a five-acre tract in the southwest corner of the townsite, and just west of the railroad tracks.

According to officers of the company, who arrived in Leeray this week to make their home, and to superintend construction, material is now in the Cisco railroad yards and will be moving into Leeray before next week. Equipment is enroute from Dallas and five carloads of material have been shipped from Dublin. The site for the refinery has been surveyed and the boundaries were plotted yesterday. Construction will begin immediately after arrival of material. Present plans are to have the plant in operation within ninety days.

For the present, one unit will be built to care for 1,000 barrels daily. Additional units will be added later and eventually the refinery will have a daily capacity of 6,000 barrels.

The Desdemona refinery has a capital stock of \$875,000, with the first issue already sold. An opportunity will be given Leeray people to invest. Par value of the stock is one dollar. The location at Leeray, with the plant practically surrounded by production will mean quite a saving on pipe line and pipe line charges.

Officers of the company are as follows:

I. W. Culp, president, Temple, Tex. Prominent attorney, extensive refinery interests and oil operator.

F. M. Duncan, vice president, Killeen, Tex. Member of New Orleans Cotton Exchange. Member of Texas National Grain Dealers' association.

Sam J. Ranover, second vice president. President of the First National bank, Killeen, Tex. was cashier for twenty-five years and now president.

W. W. White, general superintendent, DeLeon, Tex. Years of experience in construction and actual operation of refineries in Texas and Oklahoma.

I. E. Cantrell of Lampasas county, secretary and treasurer, bonded.

Directors of the company:

L. D. Ater, cashier Potts-Ater Bros. bank, Bertram, Tex. Joe Talasek, Temple, Tex., prominent citizen and substantial property holder. W. R. Underwood, Desdemona, Tex., oil and refinery man. J. H. Shondier, president First National bank of Crawford, Tex. J. N. Colwick, farmer and stockman, Norse, Texas.

An uptown office site has been chosen as the Leeray headquarters.

### SCRIPTURE

Job 5:17-24

Behold, happy is the man whom God correcteth; therefore despise not thou the chastening of the Almighty.

For he maketh sore, and bindeth up; he woundeth, and his hands make whole.

He shall deliver thee in six troubles; yea, in seven there shall be no evil touch thee.

In famine he shall redeem thee from death; and in war from the power of the sword.

Thou shalt be hid from the scourge of the tongue; neither shalt thou be afraid of destruction when it cometh.

At destruction and famine thou shalt laugh; neither shalt thou be afraid of the beasts of the earth.

For thou shalt be in league with the stones of the field; and the beasts of the field shall be at peace with thee.

And thou shalt know that thy tabernacle shall be in peace; and thou shalt visit thy habitation, and shalt not sin.

### AT THE CHURCHES

**First Methodist.**

At 11 a. m. sermon by W. B. Merton; at 8 p. m. sermon by Rev. O. F. Senzbaugh. Sunday School and league services at the usual hours.

**First Baptist.**

## Money Value

--in clothes that mark distinction.

There is no doubt about it — fine tailoring makes fine clothes.

That is why we sell Schloss, Style Plus and Bloch Clothes — they are finely tailored.

That fine tailoring we are constantly talking about has a lot to do with the durability of the clothes we sell.

Society Brand Clothes will keep their shape as long as you wear them.

That's real money value — not simply price persuasion.

On the other hand, our prices are just as low as they can be made for really desirable clothes; clothes that are not of the commonplace crowd of suits and overcoats.

Come in and see the new models; they are certainly keen fashions, and you know we guarantee satisfaction.

### Head Dress, Most Important

If your hat is not properly fitted, you don't buy the style that harmonizes with your build and age, you are never satisfied with it. Your hat, like your shoes should be fitted by men who know and have had years of experience. You will find displayed here Stetson Hats with men to fit them who know, for \$10.00.

### Silk Shirts at Right Prices

Every Silk in our stock is from the superior lines of ultra fashionable wear and at prices that will surprise you when you see the quality of these Shirts. Highest quality, \$7.45 to \$13.90.

Our Shoe Department for Men is quite complete---The Quality is NETTLETON.

## Richardson-Brown Company, Inc.

## Reduce the H. C. L by Saving Your Clothes---

In these days of peak prices for all wearing apparel many of us cannot afford three and four suits a year or a complete wardrobe as we had in the pre-war days. Clothes are too high, so we must resort to means of saving them.

Our dry cleaning process will restore your old clothes to their original newness. It's a harmless process, but is a terror to anything foreign. It's a service you will like, for it is prompt, efficient and satisfying. Simply call us on the phone and we'll attend to the rest.

### FIRST BALE COTTON REACHING THE CITY WILL WIN PREMIUM

The meeting of the board of directors of the chamber of commerce and production, called Friday night to hear the report of the committee soliciting funds for the Hilburn road, resulted in the presentation of a very satisfactory report and the conclusion that the labors of the committee be continued the first of the week.

Among other business transacted was a decision to offer a suitable premium for the first bale of cotton received in Cisco this season. The amount of the premium was not stated, but it was said it would be of such a substantial sum as to attract the attention of all the cotton growers of the county. There will be two or more cotton buyers in Cisco throughout the season, it was stated, and an effort is to be made to have the city retain its former prestige as a cotton market.

J. O. Sue, whose business now compels him to be absent from the city much of the time, resigned as treasurer of the chamber of commerce and production and J. E. McCord was elected to fill the vacancy. A vote of thanks was given Mr. Sue for his excellent services. He will continue as a member of the board of directors.

### MUCH ACTIVITY IN OIL DEVELOPMENT AROUND STAMFORD

Special to The News. STAMFORD, Aug. 21.—The Kouri No. 1, fifteen miles northeast of Stamford, is causing considerable excitement at Haskell because, as reported, it has hit a good paying oil sand. Several Wichita Falls oil operators are now on the scene. This well is at a depth of 3,390 feet, after having penetrated the Breckenridge grey lime. Good showing of both gas and oil has been reported recently.

Kouri No. 2 at 1,450 feet has a showing of both oil and gas and looks good for a small producer at this depth, according to reports.

Eight-inch casing is being hauled to the Texas Venture Weart-York test, seven and one-half miles northeast of Stamford, preparatory to setting and continuing drilling. The depth is 1,750 feet. At 1,810 feet it is expected to strike the big oil sand which made a good producer out of the Colbert well several years ago, but which was lost because of craving and collapsing casing and not further investigated during the war. The Texas Venture company has spent \$40,000 here in the last few months. Stamford and Haskell business men attest to the good production in the Colbert well that was lost. On the faith of the newest bringing in a producer \$150,000 in stock has already been subscribed for a refinery to be located in Stamford.

Texas Cushing No. 2, fifteen miles east of Stamford, on the line of Haskell and Shackelford counties, has a derrick up and tools moving in preparatory to spudding in. Sufficient funds repose in a local bank to take this contract through, it is reported.

Texas Cushing No. 2, idle for several months while awaiting special fishing tools, will resume drilling in the next few days. Both gas and oil showings were reported from this well.

Texas Cushing No. 1, south of Stamford, is still drilling slowly at considerable depth, with fair prospects.

### WEST TEXAS NEEDS FIFTY THOUSAND TO PICK COTTON CROP

Special to The News. STAMFORD, Aug. 21.—A drag for 50,000 cotton pickers from other portions of the state and from other states will have to be made by September 15 in order that the greatest cotton crop in the history of the west may be gathered, says the West Texas chamber of commerce. It is believed that the 50,000 figure is very small, and that probably a great many more men will have to be imported. This is based upon the fact that three towns in West Texas—in distant West Texas at that—have already asked the West Texas chamber of commerce to get them 5,000 men by not later than September 15.

The acreage in West Texas this year will show an increase of between 25 and 35 per cent with the crop reported at about 95 per cent normal. The grain crop will be between 50,000,000 and 60,000,000 bushels of sorghum grain. The cotton and grain gathering will coincide making at one time an immense army of laborers necessary. In some parts of the west two and one-half tons of maize will be gathered to the acre. In 1919 some farmers lost more than 50 per cent of their grain and cotton because labor could not be furnished.

Vote for Lynch Davidson, of Houston, for lieutenant governor. He led the ticket in the first primary. d3t,w1

Hemstitching at Babbs. Mrs. L. A. Carter. 163

### MORE SATISFACTORY ARRANGEMENTS FOR HANDLING GARBAGE

Beginning September 1 the garbage removal department will begin a new administration. The city commission has contracted with a man who promises efficiency. Recently much complaint has been brought to the attention of the city officials, that garbage has not been removed systematically. The health department heads, as well as every sanitary officer have striven to do the very best they could to remedy this condition, but under the old contract it was impossible to make any better progress than was made.

Every detail has been gone into in making the new contract for the ensuing year. In order that every citizen in the city may do much toward handling the garbage question more satisfactorily it is expected that all persons provide a metal can with a tight fitting top for placing garbage in and that it be secured at once, as provided by ordinance No. 252. The sanitary department has issued an ultimatum that beginning September 1, every alley in the city shall be inspected in search for garbage cans and the names of persons not having complied with this ordinance will be reported and fined. Several such complaints have already been filed and persons paid fines, and afterwards

secured cans in compliance with the garbage can ordinance.

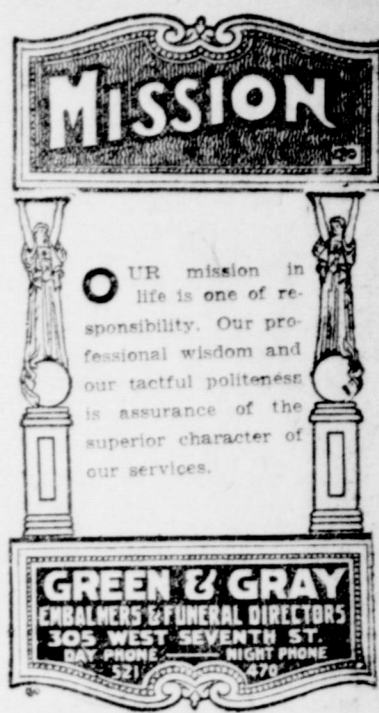

### EASTLAND COUNTY MEDICAL SOCIETY WILL HAVE PROGRAM

The Eastland County Medical society will hold its next bi-monthly meeting at Eastland, Tuesday, September 14. A program is now being arranged by the society's secretary, Joseph W. Gregory, of this city. Several prominent physicians outside the county have agreed to read papers at this meeting. Doctors Webb and Lott, chief surgeons of the Missouri, Kansas & Texas railway, have accepted an invitation to attend this meeting. The program will be published later.

### HAIR TONIC BRINGS ON FIGHT FOLLOWED BY FINES AND COSTS

The four men who engaged in a fight Friday afternoon at the depot were all in the city court yesterday morning, tried and fined. The three men placed in jail were fined \$25 and costs each. The man who got the worst of the fight, also got the worst of it in the court, for he was fined \$25 and costs, as were the others for fighting, with a fine of \$50 and costs added for being drunk. They are all said to be

from the country and have been working on a pipe line. One of the men said he had been to Hilburn and bought some whiskey there from a bootlegger but they all said they had been drinking hair tonic.

## CISCO PUBLIC SCHOOLS

"The Cisco schools were never in better condition to meet whatever demands may be made upon them than they are now," is a statement made a few days ago by the board of trustees.

The rapid growth of the city has for the past year made a continuing demand upon the trustees for greater school facilities and how well they have met this demand is explained in the statement above referred to.

While the first effort, necessarily, was to acquire buildings, to prepare a place where the pupils might be received and given instruction and while this was promptly done, the trustees never allowed it to become a makeshift proposition, but while all the time looking to capacity in providing buildings, they have kept to the front the idea that the very best obtainable must enter into the construction of buildings, into their furniture and equipment, considering first everything from a sanitary standpoint for the protection of the pupils, with the result that there is not a town or city in the state where the public schools will be found in better, if as good, condition as are those of Cisco.

With the buildings, furnishings and equipment secured and sanitary conditions about the school rendered perfect, came the great question of

capable and proper instruction. In this work, the trustees had precedent to follow for, beyond the ordinary, the people of Cisco have always insisted upon the very best for their schools, particularly in the employment of instructors, and now they have gone still further in this direction and secured and built up a corps of teachers second to none in the state. The minimum required was fixed at a high standard and it has been strictly adhered to in engaging teachers.

The reputation of the Cisco schools has traveled far and parents are looking to this city as a place for the education of their children, with the result that many families are moving to Cisco, drawn here by the city's excellent school system. The Chamber of Commerce and Production has recently given much publicity to the schools in appraising the people of surrounding counties of what Cisco has to offer in this direction.

The standard the schools have attained, the excellent buildings and equipment provided, the measures taken for the preservation of the health of the pupils, all these are accentuated by the surroundings of an excellent citizenship, a moral community, an excellent climate, a perfect water supply, all modern conveniences of living and a city easy access by reason of the best railway facilities of any city in West Texas.

## PROFITEERING

With the granting of an increase in pay to railway employees amounting to \$60,000,000, came the increase in freight rates sufficient to bring to the railway companies the amount they must raise to meet this increase to their employees.

Of course, the people realized at once that their "pay the freight" no matter what the action of the government business and strike arbitrators awarded. But they were hardly prepared for what immediately followed. Just one citation. The price of hams was increased ten cents per pound immediately on the granting of the increase to the employees and in anticipation of higher freight rates, and that price maintains today in many quarters.

To the fair merchant, this increase is not going to amount to much when it comes to fixing retail prices, but the profiteer will find in it an excuse for unheard of advances of price, and then say the increase in freight rates compels it.

"American Railroads," a paper published in New York by the railroad executives, anticipating what the profiteer would do, publishes some facts relative to increased freight rates and what it amounts to in certain districts and on many commodities and articles of merchandise.

In the southern division, it is shown that the increase in freight rates necessarily will raise the cost

of articles when shipped from point to point, as follows: A pair of shoes, from Boston to Atlanta, 6.65 cents; a shirt from New York to New Orleans, 5.5 mills; a suit of clothes from Chicago to Jacksonville, 14 cents; fresh beef, from Chicago to Birmingham, 1.06 per pound; sugar, from New Orleans to Greensboro, 7 mills per pound.

This may be taken as fairly representative of everything used in the home until it comes to coal. That, of course, will be much higher, as in this and like articles the shipment is struck by the full force of the rate advance.

In addition to the advance of the price of hams, a case was reported where a dealer added one cent to the retail price of a popular brand of cigars, saying he was compelled to do it by reason of the increase in freight rates. Unless he is an apt mathematician he would have difficulty in figuring out what a small percentage of one cent is really added to the cost of transportation of a single cigar, when shipped in quantities such as those in which they are generally received by dealers.

The buying public will probably have no excuse of complaint when dealing with fair merchants, but that there are some, and that there will be more cases of attempted profiteering, with the increase in freight rates as an excuse, goes without saying and it is this class who should be left with their goods on the shelves.

## SOMETHING WRONG

Members of the lower house of the Tennessee legislature running away to break a quorum, going beyond the confines of the state, beyond the jurisdiction of the sergeant at arms who has been ordered to bring them to the bar of the house, does not look right. It looks cowardly. It is not showing a willingness to fight in the open. Members of a legislative body absenting themselves in order to prevent a quorum, is excusable only, if ever, in rare cases.

But in this case, there may be extenuating circumstances. If there was such an influence wielded by a corrupt lobby, as is said to have been the case, in order to bring about the ratification of this amendment, or to prevent it, such as has been alleged and which a grand jury has been called upon to investigate, and if the absentee members, who are all known to be opposed to the ratification, have knowledge of this corruption, they may show that they desired to remain away and prevent action in the house until the facts alleged, with reference to the lobby and the means employed to bring about the vote cast last week, they may be

acting for the best interest of the people of not only the state of Tennessee but the entire nation as well.

If there is anything wrong in connection with that vote, the world should know it. The women want the ballot. Their work has been hard enough and the period of their labors extends over years so many as to siltle them to it, but they do not want it tainted with fraud. The great cry has ever been to allow women to vote and purify politics and make the ballot sacred as it was intended to be. It would hardly be proper, nor could it be pleasing to the women themselves, to receive it were they not satisfied it had been secured by honest and honorable means.

Perhaps while these members absent themselves from the state of Tennessee and prevent a quorum in the house, the investigation may proceed and quite a different aspect be put upon the case from that surrounding it at the present time.

Probably these absentees are following the old saying, "He who fights and runs away, may live to fight another day."

### NOTHING STAYS SETTLED

A good many people are genuinely distressed and alarmed at accumulating evidences that the treaty of Versailles did not settle everything forever and for the best. They are shocked and dismayed and a good deal depressed, at

what seems to them to be the obstinacy, unreason and bad faith that are delaying and perhaps defeating a just and righteous settlement off hand, of all the world's troubles and differences.

But there never was any chance that the treaty of Versailles and the League

of Nations would do any such thing. Such a thing never has been done in the whole history of the world by any single act, agreement or settlement performed or arrived at by mortals. We need not look for it to be accomplished among nations while individuals, parties and bodies of opinion within nations remain divided. People of the same race, nationality and apparent interests, dwelling together and bound together by the strongest social bonds, are constantly arrayed against each other over irreconcilable differences of political and economic creed. Nobody looks to see these differences composed, or has reason to believe human happiness would be greatly promoted if they were. Yet, with all history and present every day experience against the expectation, mankind clings to the hope that forms and agreements arrived at by a dozen or so statesmen around a table will somehow operate to halt and reverse the strongest human impulses and cause the widest opposites to fly together and be one.

After the Crimean war Lord Aberdeen said, rather cynically it was thought, that perhaps its results might secure peace in Eastern Europe for 25 years. That was in 1856. In 1878 Russia and Turkey again took up arms. Lord Aberdeen had been too modest in his prediction by three years.

The world is doing pretty well when it succeeds in getting anything for a quarter of a century. In 1820 American public opinion was put pleasantly to sleep in the belief that the Missouri compromise had settled the slavery question. Thirty years later when that measure was repealed and slavery emerged boldly as an acute pressing political issue between north and south, the shock to public opinion was such as this generation can hardly conceive of. Because a condition brought about by an acknowledged compromise continued unalterable convictions had continued thirty years men were foolish enough to suppose, or to try to make themselves believe, it would continue forever. The point to be observed is that it did not continue a moment beyond the time when one body of opinion found it would be to its advantage to change it.

That is the history of all settlements involving opposing interests. They are necessarily temporary, for the conditions that exist as the basis of compromise themselves change sometimes slowly, sometimes rapidly, and the measure of this change must be the measure of the life of the settlement itself. In 1850 the south saw that the conditions of 1820 no longer existed and that slavery must be extended or die. Disappointed in the admission of California as a free state, and seeing the whole Mexican conquest slipping from its intended grasp, the south suddenly smashed the compromise and reached out for Kansas and Nebraska. The nation awoke as from a dream. For 20 years it had looked into the face of a delusion without recognizing it. In 10 years from its awakening the clash of civil arms was resounding.

If the treaty of Versailles had lulled the world for thirty years it would have been a pretty successful treaty. It didn't do that well. That isn't wholly the fault of the treaty—only partly so. Partly it is the fault of human nature which must be repealed before any treaty can be wholly successful. When that will be done we don't know, but probably not in time to correct the present situation in Europe which must continue until again readjusted by a fresh agreement of some sort. That is what we understand the history of mankind to be made up of—a series of readjustments sometimes called war and some times called treaties of peace.—Kansas City Star.

### The People's Forum

#### CISCO GETTING CROWDED FOR THE SCHOOL

To the Editor of the News: It is very noticeable at this time that Cisco is getting badly crowded because of the fact that many people are moving here for the benefit of the splendid public schools that we have. At most a month before our school opens yet the town is pretty badly crowded already. It might be in order just here to suggest to the chamber of commerce and production that a campaign for building more residences might relieve the condition to some degree. People are willing to pay high rents in fact they expect it, and the rents that now prevail in Cisco for residence property should be a great inducement to people who are able to build residences. A large per cent of people who would come here are not willing to buy their homes, in fact many of them are not able. The attention of the people should be called to the splendid revenue that is received from an investment of this kind, and no doubt many of them who had never known of the returns they will receive will place their money in some cottage which will contribute more to the up building of Cisco than any other one thing. People are now crowding into Cisco and the fall season has not yet opened. The town is full of people, and if we prosper as the opportunity of fore more homes should be built so that we may be able to accommodate the people who are anxious to make their homes in Cisco.

## SPRAINS

**HUNT'S LIGHTNING OIL**  
RED FRONT DRUG STORE

will bring in a splendid revenue, then the person investing money in this way is contributing very materially to the upbuilding of Cisco. The individual should not wait for the chamber of commerce and production to speak to him about this good investment, but should investigate the proposition and if he is able and thinks that it will be a paying investment for him, he should start the good work. Our schools will open now within four weeks and this matter of furnishing adequate accommodations for the people should be pushed right now.

### CITIZEN.

#### BITS OF HUMOR

**What Happened to Him**  
The visitor to the lawyer's office stood in amazement.

"I say, old man," he exclaimed, "What ever has happened to you? Had a motor smash, or what?"

The lawyer shook his head wearily, as he gingerly touched his bruised and bandaged face.

"No. You remember that case the other day when I defended a man charged with assault? Well I made a strong plea for him on the ground that he was a fool rather than a criminal."

"Yes, but—"

"I did it so well that he was acquitted and he waited for me outside the court!" —Houston Post.

**And Browning Was**  
Admiral Browning of the British navy is a wit as well as a disciplinarian. A story is told of his quick repartee when he was captain of a battle ship. A ready tongued member of the crew was brought before him charged with having broken his leave outrageously. The evidence being heard, the captain asked the culprit, "Have you anything to say in your defense?" "Nothing, sir," came the reply, "except to err is human, to

forgive divine—Shakespeare." "Ninety days' detention without the option of a fine—Browning." was the apt but stern rejoinder.—Portland Oregonian.

#### A Serious Accident

The Surgeon—That was quite a bad accident. You have a sprained ankle and a dislocated shoulder. But we'll soon fix you up all right.

Mlle. Chimay of "The Foolishness Company"—I don't care about the ankle if it doesn't look bad. But I can't dance with a lame shoulder. —Houston Post.

#### A Credit to the Profession

"Who are the principals in this breach of promise suit?" asked Mr. Dubwaits.

"A telephone girl and a millionaire," answered Lawyer Beagles. "If you will pardon the slang, she seems to have his number."

"Ah! And how long did it take her to get his number?"

"About two years."

"She's a telephone girl, all right." — Birmingham Age-Herald.

#### Changing the Label

The small boy's parents had distinct ideas of discipline. The walls of the sitting room were lined with tracts and the cane was always kept behind "Love one another."

One day everything went wrong, and the little boy was whipped eight times.

After the eighth caning he said between his sobs: "D-d-d-don't you think it's time to take the cane from behind 'Love one another' and put it behind 'I n-n-need thee every hour'?"

## C. G. HAZEL

### For County Attorney

TO THE DEMOCRATIC VOTERS OF EASTLAND COUNTY:

I, the undersigned District Judge of Eastland County, being acquainted with the public and private life and record of Mr. Greene Hazel, present County Attorney, unhesitatingly commend his candidacy for re-election for the second term for this office. I have investigated the question of bonds and bond forfeitures about which his opponent has so much to say, but I unhesitatingly declare that Mr. Hazel's department was in no sense responsible for the taking or approving of any bonds, and in fact has nothing to do with bond making until after bonds have been forfeited. I find that suits have been instituted by him to collect forfeited bonds. Because of experience and service, I believe that to defeat him for this office at this time would be an act of great injustice to Mr. Hazel who is asking only for the Democratic Second Term.

E. A. HILL

Judge 88th District Court.

### INSTRUCTIONS TO ELECTION JUDGES FOR THE PRIMARY

G. Fisk, chairman of the county democratic executive committee, has sent to all election judges for the run-off primary election August 28, the following:

To the Judge of the Election: Eastland county won a reputation by rapid counting and making quick reports in the last primary, and I hope that we will be able to do even better this time, August 28th.

The ticket is short and we should be able to keep up with the counting if we are ready to begin immediately after the polls open.

Open your election supplies and see that your tickets are alright. You have two envelopes, one to keep and one to send to me. Put in each one of these a tally sheet, poll list and list of total vote. Put two 2-cent stamps on the one addressed to me and mail at once. I will refund your money. Put all tickets in ballot box and take or send to the county clerk at Eastland. The envelope addressed to me is your official returns. If you wish you may register this package.

Take a ticket and copy the total vote of each candidate just as soon as the counting has been finished, go to the nearest telephone and call me at Cisco, collect. Do not talk to any one else, and give me the results, and ask for any information that you may wish.

We should guard carefully the ballot box and see to it that no persons belonging to some other party votes in this primary. We should urge all democrats to vote, but persons belonging to other parties should be turned down. The judge has the right to challenge and to swear the voters and the party will hold each election judge responsible. The election judge should refuse to permit a person to vote whom he knows is not a democrat, just as he would a person who has not paid his poll tax. No ticket which has the pledge scratched can be counted. The judge of election should be careful with each and every ticket so that he may account for every one of them. If we should have a contest let us so guard the election that we may "come clean."

If for any reason the person to whom this is addressed is unable to hold the election please place this letter in the hands of the person who is to preside two or three days before election and insist that he read it carefully. Meet me in Eastland Saturday, September 4th, at which time the committee will count the votes. Let us have a full attendance of the committee. Be sure to call me over the telephone just as soon after the counting as possible. Call several times if you wish. Thanking you for your co-operation, I am,

Very truly yours,  
G. FISK,  
County Chairman.

The following is the form of pledge:

\_\_\_\_\_, Texas  
August 28th, 1920.

\_\_\_\_\_, the undersigned, do hereby swear that I am a democrat, having voted the democratic ticket at the last general election (if voted at all) and pledge myself to support the nominees of this party of both primaries, the one held July 24th and this election.

Signature of voter.  
Sworn to and subscribed before me this, 28th day of August, 1920. Election judge of precinct No. \_\_\_\_\_, Eastland County, Texas.

Signature of Election Judge.

Notice: The election judge has the right to swear any voter, and if he knows that the applicant is not a democrat he has the right to refuse to let him vote, the same right that he has to turn a man down for not having a poll tax receipt.

G. FISK,  
Chairman.  
Note: Each judge of election should endeavor to hold the election with as little expense as is possible on account of our funds running low.

### AMUSEMENTS

#### Judith

Out at the Thomas H. Ince studio they have a place that has been named the "kiddle keep". It's the "set" where Douglas MacLean and Doris May make those delightful screen comedies, like "Twenty Three and a Half Hours' Leave" and "Let's Be Fashionable." The reason for the nickname is, of course, the tender age of the two players, who are probably the youngest stars in filmdom. Doris is just past eighteen, and Doug is about three years older.

Doug and Doris are the life of the Ince "lot." Both seem to radiate the air of good-natured youth and they have made abject slaves of every property man, veteran director, and electrician who comes into contact with them. They are continually "on the go," whether wizzing to the "golf links in Doug's scarlet roadster for a brief round during lunch hour or frolicking through a scene in one of their pictures.

"Let's Be Fashionable," at the Judith theater today and tomorrow reflects their high spirits. It is the story of a pair of newlyweds who become enmeshed in all sorts of laughable complications from trying to keep up with the wealthy crowd at a California summer resort. Thomas H. Ince produced the picture for Paramount Aircraft release.

#### National Airdome

Billy Main presents the Klever Kapers Monday night at the National open air show, consisting of fifteen people, lots of singing and dancing specialties and a singing trio. Opening the bill is a laughable farce-comedy entitled "Because She Loved Him So."

This company comes from San Angelo, where they have just closed a six weeks' engagement. The management of the theater has spent a week's time getting reports on Klever Kapers and says that he finds that they are given up to be the best show that ever played this territory from an entertaining standpoint as well as clean and refined, and is conscientiously endorsing same to his patrons.

The doors open at 7:30 promptly. Pictures and music by the Cisco band until 8:15, at which time the vaudeville starts. Come early, as there will only be one vaudeville show. Adults 50c and 5c war tax. Do not miss them. In case of rain will show at city hall.

#### Victory

John Barrymore in striking photoplay Stevenson's story, "Dr. Jekyll and Mr. Hyde" is filmed. What is declared to be one of the outstanding motion

picture events of the season is the picture by Paramount Aircraft of Robert Louis Stevenson's famous story, "Dr. Jekyll and Mr. Hyde," with John Barrymore in the leading role. This remarkable photoplay will be on view at the Victory theater Monday and Tuesday.

The Stevenson classic is undoubtedly the greatest story about dual personality ever written. It is fitting that John Barrymore, with his surpassing talents as an emotional star, should interpret the part. His portrayal of "Jekyll" and "Hyde" is said to rank with the best of his achievements in the past.

Martha Mansfield, a beauty of the stage, has the leading feminine role, and Brandon Hurst and Cecil Clovelly are among those in the supporting cast. John S. Robertson directed the picture.

#### CITATION BY PUBLICATION THE STATE OF TEXAS.

To the Sheriff or any Constable of Eastland County, Greeting:

YOU ARE HEREBY COMMANDED, That by making Publication of this Citation in some newspaper published in the County of Eastland, if there be a newspaper published in said County, where a newspaper is published, for four weeks previous to the return day (but if not, then in the nearest county hereof, you Summons Carl S. Kollmeyer, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be held in the County of Eastland, at the Court House thereof, in Eastland, Texas, on the 6th day of September, 1920. File Number being 4824, then and there to answer the Petition of Ruth Gates Kollmeyer, filed in said

Court, on the 15th day of July A. D. 1920, against the said Carl S. Kollmeyer and alleging in substance as follows, to-wit:

Being a suit for divorce on the grounds of cruel treatment, excesses and non-support. Plaintiff also prays for the restoration of her former name, to-wit: Ruth Gates.

HEREIN FAIL NOT, but have you then and there before said Court this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, in Eastland, this 15th day of July A. D. 1920.  
Attest:  
(Seal)  
J. A. RUSSELL,  
Clerk, District Court,  
Eastland County, Texas.  
By LILLIAN PHILLIPS,  
Deputy.

## That Popular Porch, At Marion, in Ohio

International News Service.

MARION, O., Aug. 21.—That Harding front porch down here is getting to be more popular than the genial Warren or Mrs. Harding ever dared to hope. When first it was announced that the republican nominee campaign, for the most part, would be made from the front of his home, the Hardings hoped and the republicans in general hoped that it would be a popular idea.

And while it indirectly—the newest posside of the front porch we speak of—because of the Senator himself, here he is the republican's big hope for success in November, it is mainly because of Mrs. Harding and her presence as become mistress of the White House, and while it can not be said that Mrs. Harding is displaced, it keeps her "oughty boy" to use her own words, seeing that nobody is slighted. Mrs. Harding has a lovable nature, however, and she'd let the suffrage meetings and little social calls go hang rather than give up her latest duty.

The mothers of the little town of Marion and nearby towns, as far as that goes, are so afraid that the Hardings

will occupy the White House next year and that their "beautiful babies" will not have been kissed and fondled by the mother of the White House. It's a great thing, you know, to be able to say in after years, "Johnnie was kissed by the wife of President Harding," or "Mary just laughed and laughed when rocked by President Harding's wife." You know the stuff.

Well, Mrs. Harding and the Harding front porch are besieged daily by many mothers with their little tots. The day of the Harding notification, when the great parade of enthusiastic republicans passed by the Harding home, is nothing compared to the daily parade of perambulators that may be seen winding its way toward the Harding home.

Nobody's child has been slighted. The genial Warren himself, when he has the time, comes out and assists in the ceremony.

The mad scramble to have the babies kissed and loved by Mrs. Harding gets madder every day. If this latest baby-kissing craze continues to grow, it is likely, according to Senator Harding, that he will have a sign painted and placed at a certain place on the lawn: "Park your perambulators here."

## "PARSON" SCARCITY DUE TO CRITICISM, AND LOW SALARIES

International News Service.

PITTSBURGH, Pa., Aug. 21.—Constant criticism to which preachers are subjected, low salaries, the lure of commercialism and the migration from farm to city help contribute to the dearth of ministers, according to Dr. James D. Rankin, professor of theology and sociology in the Pittsburgh theological seminary.

"From the information I have there are about enough ministers in the United Presbyterian church to fill, acceptably, three-fourths of the pulpits," said Dr. Rankin. "I believe the same condition holds good in most evangelican churches."

There are several causes to which this condition may be traced. One is the spirit of materialism, which places the rich man ahead of the good man, and makes the man of wealth or social or political position a leader in the community, rather than the minister of the gospel. Formerly the minister was the leader. The term 'parson' originally meant 'the person of the community.'

"Ministers are being criticized by their congregations. I have known families to dissuade sons from entering the ministry because they did not wish to see them constantly criticized. A man in most walks of life does not have to contend with such annoyances."

"The passing of the family altar with consequent weakening of the religious spirit, also has its effect. It used to be customary for a father and mother to urge boys to become preachers, but this is seldom the case now. Most parents want to see their sons get into something that will pay them more money."

"Salaries have been going up in the ministry for the past few years, but, I believe, not in the proportion they have in other callings and especially in the business world. A young man by choosing a business career will be earning a salary much sooner and probably will make more at the end of seven or eight years than the minister will in his life."

"The movement from the country to the cities tends to reduce the number of candidates for the ministry. The city boy has many opportunities to make money. The country boy, as a rule, has more time for meditation, meets fewer temptations and seems to take more naturally to the ministry than he did youth."

"A minister soon becomes too old to suit most congregations and he is discarded at a period of life when men in

many callings are at the height of their careers. Only in the last few years have the churches begun to provide pensions for their supernannated ministers."

"the girls have been buying bargain with short sleeves. They get fashion-able models left over from the season's goods at greatly reduced prices. "It does not occur to them that they are not suitable for the street unless they can wear long gloves."

### Fashion Hints

LONDON, Aug. 21.—The girl with the bare arms and the short gloves is one of the straggle and common sights in London just now.

Here are some examples of costumes seen to-day:

Blue and white jumper, sleeves well above the elbow, short white cotton gloves.

White dress, short sleeves, short "elbow" gloves showing about four inches or red arm above and below the elbow.

Black velvet dress, short sleeves, short white cotton gloves.

"The truth is," said a dress-maker,

## Says Kentucky Bluegrass Came from Artic Iceberg

International News Service.

WINNIPEG, Man., August 21.—The Artic region, according to a unique theory tentatively advanced by Vilhjalmur Stefansson, noted explorer, is the original home of the bluegrass that has made Kentucky famous and the region of the southern negro-wealth may have evolved from seed first cropped from an iceberg drifting down from the North in the glacial epoch.

Mr. Stefansson, while on a visit to his mother in Winnipeg, declared the general ignorance regarding the Far North and said school geographies and text books which gave children false ideas of the region should be rewritten.

"There are 640 species of flowering plants in Artic Canada," said Mr. Stefansson, "and three times as many non-

flowering species. The land that is popularly supposed to be a frozen desert is in summer one great flower garden, gorgeous with goldenrod, poppies, blue-bells, dandelions, watercress, timothy and bluegrass as deep lush as that in the thoroughbred pastures of Kentucky. If one were inclined to speculate one might conjecture that Kentucky received its bluegrass from these Artic meadows millions of years ago in the age of ice."

Mr. Stefansson recently returned from England, where he raised funds to finance an immense reindeer farm which he proposes to establish on the shores of Hudson Bay. He said the wild lands of the far north can support 50,000,000 reindeer and 25,000 muskox, which would form one of the world's great sources of meat supply.

## Would Convert Kaiser's Palace Into Tenement

International News Service.

BERLIN, Aug. 21.—Four thousand discontented Berlin tenants demanded with loud cheers in a mass meeting before Kaiser Wilhelm's Unter den Linden palace that the eight hundred rooms in the immense palace formerly occupied by Wilhelm's family and domestics be used for housing homeless Berlin families.

The mass meeting was called by persons embittered by their failure to secure quarters through the official housing commissions. Speakers quickly swelled the crowd until it completely filled the space called "Schlossplatz," between the palace and the Kaiser's stables. Spieherstrasse, the green-clad security police use for riot duty, remained quietly at the edge of the

crowd when they learned that it was only an overflow meeting of a "meteral" or "renters' council."

Speakers found rostrums on pillars and the pedestals of statuary. "We demand that the 800 rooms of Schloss Friedrich be put at the disposal of the housing commission," shouted one of the renter orators, holding his speech in one hand and holding on to a piece of statuary with the other.

"We demand that the empty barracks which formerly housed more than twenty-four regiments in Berlin be converted into dwellings until the housing privation has passed." The crowd adopted the resolutions with lusty cheers and then quietly dispersed. Those who had waited in the hope of seeing the ambitious tenants take possession of their palace left badly disappointed.

### ANNOUNCEMENT

We have opened a General Builders and Brokers Business Under the name of the Glenn Brokerage Company, with office third floor Julia Building, Cisco, Texas.

We have choice homes and vacant properties at reasonable prices and on good terms. We also can build you a home in any location in the city at a low cost and on good terms.

**SCOUTS AND RANGER PLAY FOUR GAMES IN THE LAST TWO DAYS**

The Scouts in the past two days have played four games, two double headers with Ranger. Yesterday they broke even, Cisco taking the first game by a score of 4 to 2, while Ranger got the last one, shutting out the Scouts, 4 to 0.

**Friday's Game**

Ranger walked away with both games Friday, due to their ability to hit the ball with men on bases coupled with costly errors by the Scouts. The first game was the longest of the season, on this or any other field, two hours and forty minutes being required to decide the winner, in which the Nitros were forced to send three of their star hurlers to the firing line. Batchelor's catch of Galloway's long fly into right field, that looked good for three sacks, proved the feature of the game. In the ninth inning, with one man down and two on bases, Atkins, Ranger's prize southpaw, stepped in and only had to throw one ball to retire the side and end the game. Anderson, who was up, flew to Galloway, who stepped on the bag, forcing King, Kotzelnick, Tate and Ezell were the outstanding hitters.

Sunshine Comedy entitled  
"DANGEROUS EYES"

The Brightest Spot in Town Where Stars Play Every Day

Mrs. D. R. Shupe gave a lawn party Friday afternoon, the occasion being in honor of the sixth birthday of little Virginia Lea Shupe. Some fifteen friends of the young lady were present and participated in games and other forms of amusements. Candy and peanuts were enjoyed during the afternoon and at 5 o'clock a big white birthday cake and ice cream, with cute plate favors, gave additional pleasure and satisfaction. Those present were Elizabeth Porter, Shirley Davis, Elizabeth Dean, Fern Loveland, Meri Loveland, Margaret Noel, Mary Beth Holmes, John Gunther, Jane Shupe, Virginia Lea Shupe.

### Enjoyable Barbecue

On the Ward ranch, some three or four miles north of Cisco, George Winston and sons, Claude and Lloyd, enjoyed a great barbecue Friday, and, of course, had their families, relatives and friends. The barbecue was given in honor of Mr. and Mrs. Henry Wilson and daughter of Wichita Falls, who are in the city visiting relatives. The afternoon was spent in a very pleasant manner, eating barbecue goat and other good things, and then came a watermelon feast. The entire feast was enjoyed in real ranch life form and will long be remembered by all those who were fortunate enough to be present. Those present included Mr. and Mrs. George Winston and children, Mr. and Mrs. Lloyd Winston, Claude Winston, Mr. and Mrs. George Wilson, Mr. and Mrs. Bob Winston and children, Mr. and Mrs. Jack Winston and children, Mr. and Mrs. J. W. Keathley, Mr. and Mrs. Roy Keathley, Mr. and Mrs. E. B. Gude, Mrs. Harry Schafer and Miss Jewel Wilson.

### PERSONAL MENTION

Mr. and Mrs. G. F. Weber of Waxahatchie, arrived in Cisco this week and will make this city their home. They with their two children have temporary rooms at the Daniels hotel. Mr. Weber is an insurance man and has charge of considerable territory in this section of the state and will make Cisco his headquarters.

Rev. O. F. Sensabaugh, D. D., presiding elder of the Cisco district, Central Texas conference, living in Cisco, has just returned from Annapolis, N. C., where he attended the annual meeting of the Methodist assembly. As a boy he went to school near the assembly site and his grandfather's farm included a good part of the present assembly grounds and the old swimmin' hole is now a part of the lake. Dr. Sensabaugh reports a very delightful time.

Mr. and Mrs. J. T. Scott and daughter, Juanita, of 1200 F avenue, have returned from Austin, where they visited their son, Alfred M. Scott, who is attending the law department of the university.

Rev. C. G. Howard, pastor of the First Baptist church, went to McGregor Friday night, where he was called to preach the funeral sermon of a former member of his congregation at that place.

Rev. George W. Light, of McGregor, spent a few hours in Cisco Friday night enroute home. He is an old friend of Rev. C. G. Howard.

R. L. Ray of Fort Worth was a business visitor in Cisco Saturday.

Arthur Wilson of Battle Creek, Mich., an old friend of A. B. O'Flaherty, stopped off in Cisco Saturday and spent the day. Mr. Wilson is positive Cisco is the most promising, substantial city in this section of the oil field district, with an attractive commercial future.

Mrs. E. L. Howard and family of Stamford are guests of her parents, Mr. and Mrs. E. Moore.

Mrs. C. A. Gray, formerly of Cisco, but now of Dallas, who has been visiting her sons, Harry and Charles Gray, of this city, will leave tonight for Midland, Tex.

Mrs. Fan Patrick has returned home after a visit to Houston and Galveston.

Miss Mildred Forte of Cooper, Tex., is visiting Miss Maurine Manell for a few days. Miss Forte is on her way home after attending summer school at Baylor.

Miss Ada Lee has returned home from Baylor, where she graduated from Baylor academy.

E. R. McDonald and niece, Miss May Bell, have returned from a few weeks visit to Ardmore, Okla.

Mrs. W. E. Pulley had as her guest this week Mrs. W. E. Duncan, formerly Mrs. Will Lang of Cisco. Mrs. Duncan has just returned from an extended trip to California, Oregon and Colorado. She was accompanied by Mr. Duncan on the trip.

Mr. and Mrs. W. G. Terbet of Thurber are guests of Mr. and Mrs. E. J. Barnes.

## FREIGHT INCREASE ADDS BUT LITTLE TO CLOTHING AND FOOD

NEW YORK, Aug. 21.—The current issue of American Railroads has the following:

A statement by traffic officials of the Southern Railroad illustrates how little the new freight rates should affect retail prices. It says in part:

"The rate on shoes from Boston to Atlanta is now \$1.64 per 100 pounds, making the transportation charge of a pair of shoes, which with its share of the packing weighs three pounds, approximately five cents. The new rate will be \$2.18 1/2 per 100 pounds, making the transportation charge of the same pair of shoes approximately 6 2/3 cents.

"Everyone knows that the pair of shoes which formerly sold for \$7 is now selling around \$15.

"Shirts are shipped from New York to New Orleans by freight for \$1.54 per 100 pounds, making the transportation charge on a five ounce shirt about half a cent. The new rate will be 2.95 1/2 per 100 pounds, making the charge on the same five ounce shirt about two-thirds of a cent.

"The old \$1.50 shirt is selling for \$3 and up. Clothing manufactured in Chicago can now be shipped to Jacksonville for \$1.83 per 100 pounds, or less than 11 cents for a suit, with its share of packing weighs six pounds.

"The new rate will be \$2.38 1/2 per 100 pounds, or about 14 cents on the six pound ready-made suit, which formerly was offered for \$30, but now cannot be taken home for less than \$60.

"Coming to articles of food, the rate on fresh beef from Chicago to Birmingham is now 82 cents per 100 pounds, less than 1 cent per pound. The new rate will be \$1.06 1/2 per 100 pounds, or slightly more than a cent per pound. Beef that formerly sold for 20 cents per pound has been bringing 35 cents.

"Sugar can now be shipped from New Orleans to Greensboro, N. C., for 55 cents per 100 pounds, or just about half a cent per pound. The new rate will be 60 cents per 100 pounds, still less than three-fourths of a cent per pound. And sugar which formerly sold for five cents per pound has been selling above 30 cents per pound.

"These illustrations, which are of articles and commodities taken at random, may be considered as fairly representative of the addition to the transportation cost of articles used in the south which will result from the increase in rates. Similar illustrations could be made on almost every article used in the household, except coal, which being shipped and sold by the ton will show a relatively higher transportation cost in proportion to its value."

# Fall Gingham Week

This store is Gingham headquarters during the Fall Gingham Week.

This week, Aug. 23rd to 30th has been set aside all over the United States as Fall Gingham Week.

Our stock is complete with all the pretty stripes, plaids, checks and solid colors in several grades of fine dress gingham.

### TALL MAN HAS HARD TIME FINDING BED

DETROIT, Aug. 21.—Ralph E. Madsen, said to be the tallest man in America, experienced difficulty in finding a lodging place when he reached Detroit. Detroit hotels neglected to arrange sleeping quarters for men of seven feet six inches, so when Madsen applied for a bed he insisted he must have one without foot boards. About eighteen of Madsen's lower extremities necessarily must overreach the end of the bed to make sleeping comfortable, he says. "There are advantages and disadvantages in being so tall," Madsen said. "Sleeping on trains is not so comfortable, but give me a bed without foot boards and I make up for lost time." Madsen has just passed his twenty-third birthday. He weighs 250 pounds. Madsen was born on a ranch in Ranger, Tex. He was six feet tall at the age of twelve years.
