Ft. Worth Delegation Makes Stop In Cisco

A special train carrying the Fort Worth representatives enroute to attend the West Texas Chamber of Commerce at Lubbock, passed through Cisco on Thursday about noon, and stopped here for twenty minutes to say "Hello, Cisco." the visitors were met at the station by the Lobo band, the Rotary Club, and others of our business men who gave them a welcome. With their band leading they made a brief parade through the business section. J. J. Collins, president of the Cisco Chamber of Commerce, together with F. D. Wright, officially welcomed the party. Mr. Wright making a short welcoming address as the parade paused at Eighth street and Avenue D. President Delaine of the Fort Worth chamber of commerce responded.

As the special train was entering the city, there appeared on the streets a bus representing the Burrus Milling Co., and using their loud speaker announced to the people concerning the train which was just pulling in.

County Quilt Show Now in Progress

The County Quilt Show, which is being put on by the Delphian Club of this city, joined by other clubs of the federation, opened Thursday morning, and is a very interesting and successful event. The scene of the occasion is in the Carrol Auto Supply Building at Eighth and Avenue D.

There were more than 250 entries of many and varied designs, many being of rather ancient origin. Some of these are more than 200 years old. There are also some very intricate and beautiful bed spreads and counter-panes on display, many handwoven, and carrying a history of pioneer days in this country.

There is also a very interesting curio department, many of these items being protected by glass cases. Some of these articles date back several generations. There are candlesticks from Mr. and Mrs. Goldberg which are more than 150 years old; a clock made in Germany in 1763; Mr. and Mrs. J. W. Fryer have a jewelry box which was brought from Jerusalem over 100 years ago; embroidery owned by Miss Johnson which is 111 years old. And many other such items.

There is a bed spread on display which was made by the grandmother of Mrs. Homer Slicker which is nearly 100 years old; and there is another which was made by the grandmother of Mrs. Geo. Weaver which is 125 years old. These are only a few of the many items on display at this show. Judging of the quilts is being done some time today, and the prizes will be awarded tomorrow.

The attendance of the show has been good, and many more are expected during the remaining time of the show, which will close tomorrow evening. If you have not yet seen this display it will be worth many times the small admission fee of ten cents charged. The proceeds go toward the club house debt.

Joe Elder is moving his coffee shop this week to Waco, where he will locate. Mr. Elder has operated his place here on Broadway for several years.

Cisco People Urged To War On Weeds

Health and Sanitation Commissioner J. T. Elliott, joined by the Board of Health of this city, makes the following appeal to the citizens of Cisco to make war on weeds and high grass an abundance of which will be observed in various parts of the town. These places furnish a most excellent breeding place for mosquitoes and flies, and some good work in their eradication is of much importance just at this time.

"Rank vegetation is one of the most serious menaces to the community health," said Mr. Elliott. "The health department is concerned seriously over conditions that have allowed to develop in many places, particularly in vacant lots and in alleys and the department appeals to the public to take steps to remove this hazard in the interest of lives and health. Mosquitoes and flies breed rapidly in rank grass and decaying vegetation.

"It will be a small task if we all cooperate and the investment of time in such a direction will pay big dividends in better living conditions. We appeal to the public to cooperate in this program now.

Next week has been set aside as weed campaign week, and we hope that the citizens will get busy with rake and hoe and lend all cooperation possible in this effort to keep our city free of mosquitoes, flies and other such insects which spread contagious diseases."

CITY FEDERATION HOLDS YEAR'S FINAL MEETING

The last meeting of the year of the City Federation was held Monday afternoon at the club house with a large attendance present.

The program had been arranged by the XXth Century Club, and the subject, "Citizenship," was quite fitting for the occasion. Emphasizing the patriotic theme of the subject, the rooms had been decorated with flags and bowls of bluebonnets, featuring national and state patriotism. Mrs. G. B. Kelly presided at club.

The program was opened with Mrs. Pettit's reading of "Club Collect," by Mary Stewart. Pledge to the flag was led by Mrs. Edward Lee, who also gave a very interesting talk on flag etiquette. "Importance of Junior Clubs," was discussed by Mrs. R. Q. Lee, and Mrs. Wm. Reagan talked on "Club Work." Mrs. J. C. McAfee gave a report of the sixth district meeting in Big Spring. Mrs. Kelly, who is Citizenship chairman in sixth district had offered a prize of \$5.00 to the best essay on "Woman's Service as a Citizen." This prize was won by Mrs. Frank Friend of San Angelo. Her paper was read to the club by Mrs. P. P. Shepard.

J. W. Bettis, who is here on a furlough from the navy, gave a wonderful description of "Battleships of Different Nations," and very beautifully read Rudyard Kipling's poem, "Earth's Last Picture."

The program which was so thoroughly enjoyed was closed by the singing of "America."

Mrs. T. T. Roberts, Rev. E. L. Miley, W. F. Bruce, E. B. Isaacks, J. W. Gates and H. R. Garrett are attending a state convention of Christian churches being held at Wichita Falls this week. The convention began Wednesday.

Encourage Your Commissioners

Although only a few changes have been made in our city administration as yet by the new commission, let us all keep faith in our commissioners, for THE GREATEST TEST OF ALL IS YET BEFORE THEM.

By combining jobs, one or two have been eliminated and thus money has been saved on the pay roll of the city. That is good. Among the changes which were made, we have a new city secretary, water superintendent, janitor for the city hall and for some reason, the city attorney was changed from the senior to the junior member of the firm of Butts & Wright.

The question of acknowledging the validity of all the bonds which were not voted on by the people of Cisco, is being gradually brought to the attention of the city commissioners, we understand. great pressure will, no doubt, be brought to bear upon the commission to get them to agree to this step, and strong efforts will be made to convince them that it will be for the best interest of the town to acknowledge this indebtedness which was brought upon us without our knowledge or consent when we should at least have been given the opportunity, as the law provides, to determine by our votes whether or not we wished to saddle ourselves and our property in this manner. If the city commission should agree to give the attorneys authority to confess judgment on these bonds for which we have never been shown value received, the judgment of the Court will then validate every one of them, and we will be paying on them the rest of our natural lives, and our children after us. This will legalize every proceed-

ing against our interests which might have been made by the former administration.

We believe in our city commission. Personally, we are not in favor of their employment of themselves and relations to do the actual work of the city and receive remuneration for the same, for we believe Articles 988 of the Revised Statutes of the State of Texas, and 432-434 of the Penal Code of our state prohibit themselves and their relatives from holding these jobs. Be that as it may, however, we believe our city commissioners have sufficient backbone, regardless of their jobs, or the jobs of their relatives in the employ of the city, to stand up for the best interests of their town and vote AGAINST VALIDATING ALL BONDS WHICH WERE NOT VOTED ON BY THE PEOPLE.

We are not trying to get anyone into trouble who might have been connected with the issuance of those bonds, but we are FOR CISCO AND HER RIGHTS, and we would not hesitate to choose the interests of the majority of our property tax paying voters against the few, if the matter were brought to an issue.

LET'S STAND BY OUR COMMISSIONERS WHILE THEY PROTECT OUR INTERESTS. COMMISSIONERS, BE FIRM AND STRONG FOR YOUR TOWN BY REFUSING TO ACKNOWLEDGE ANY OR ALL INDEBTEDNESS WHICH WAS NOT LEGALLY ISSUED AGAINST OUR PROPERTY. Let us keep faith with each other and our town.

Respectfully,
A TAX-PAYER.

Varnell Again Wins Honors

E. H. Varnell carried away second place honors among the vocational teachers of Texas, at a meeting of the West Texas Vocational Teachers' Association which met at Abilene Saturday evening. In this there are participants from all this section of the state, and they are graded on their work program and its successful carrying out. This is quite a compliment to Mr. Varnell and his work, and is the second year in which he has carried off such honors.

Home Burns

A five-room residence at 201 Ave. H was destroyed Sunday night by fire which broke out at about 10:30 o'clock. The place was owned and occupied by Mr. and Mrs. Eldon Anderson, who were not at home at the time the fire started. The cause of the fire is not known, but it is thought probable to have started from the water heater. Loss is estimated at \$5,000, including house and furnishings, part of which was covered by insurance.

Hooks a Nice One

To Dr. N. A. Brown must be credited the "best fish story" going the rounds—and what makes his story more interesting is his substantial evidence to show for it. A 22-pound catfish was on display at Turner's Grocery Thursday which Dr. Brown hooked in the clear fork of the Brazos Wednesday night. All right, anglers, next!

W. H. Kittrell Oldest Alumnus

The Ft Worth Press carried a mention Wednesday relative to W. H. Kittrell Sr. of this place as being the oldest alumnus of Austin College at Huntsville, before its removal to its present site at Sherman. The death of Colonel A. T. McKinney of Huntsville, last surviving member of the constitutional convention of Texas in 1875, leaves Mr. Kittrell the oldest alumnus the article states.

George Robison, well-known journalist of Waco is the next oldest. Kittrell was born in Huntsville in 1851 during the lifetime of Sam Houston and Henderson Yoakum, first historian of Texas, who lived at that place. He attended school with their children. His father, Dr. P. W. Kittrell, was family physician to Houston and Yoakum. Austin College was established in 1840. And is second oldest educational institution in Texas, Baylor University being first.

Eastland After Highway Commission

As a result of the discussion at Austin considering the removal of the state highway commission from that city, Victor B. Gilbert, state representative of this district, plans to offer an amendment for bringing that department to Eastland. In discussing the matter there Mr. Gilbert said: "Eastland is centrally located, and I have already obtained the offer of an excellent site. Many of the members have offered their support, and I believe we stand a good chance," Mr. Gilbert added.

City Commission Has Important Meeting

The City Commission, with all members present, met in regular session Monday at 1:30 p. m., and the following business was transacted:

Minutes of the last two called meetings were read and approved.

Com. Donovan nominated Mr. Miller as chief of police, and upon a vote Donovan, Fee and Elliott voted for, while Clements and Burnett voted against. Miller was declared elected.

Geo. D. Fee, water commissioner, nominated J. G. Reagan as water superintendent, and upon a vote all commissioners voted for, except Burnett, who voted against.

Some tax matters came up for adjustment, while Judge J. D. Barker was present and explained the tax situation in respect to 25 cases that he had handled for the city.

J. R. Burnett announced that he was not opposed to Mr. Penn as pumper at the lake, but owing to the fact that Commissioner Donovan is a brother-in-law to Mr. Penn, that on account of the "Nepotism" law in effect in Texas that Mr. Penn could not hold the job or any place with the City so long as Donovan was on the Commission. He also announced that any one who would read Articles 432, 433, 435 and 437 of the Penal Code of the State of Texas, would understand his position. He also announced that he could not violate the law by countersigning checks for such ineligible officer, and he asked that he be released from signing all checks as Finance Commissioner, on account of such violation as he saw it. J. T. Elliott then made a motion that the Finance Commissioner be released from countersigning checks. Donovan seconded and upon vote all voted to release the Finance Commissioner from countersigning checks.

Some time was taken up in regard to the Chamber of Commerce and its budget for 1932. It was announced that the budget for 1931 had been made and approved by the old City Commission in March 1930, in the amount of \$15,000. The budget as submitted for 1932 by the Chamber of Commerce was in the amount of \$12,500, but same was passed for future consideration. No member of the present commission has had an opportunity to pass on the 1930 budget.

A representative from Bell & Collier of Dallas, appeared before the commission in the interest of his firm to audit the city's books, but no action was taken.

Big Kodak Contest

The Eastman Kodak Company is putting on a big contest for amateurs in which a total of \$25,000 in 1000 prizes is being awarded for kodak pictures. The grand award is \$14,000 for a single snapshot. Everyone is eligible to enter, and any kodak, Brownie, Hawkeye, or other camera may be used. The contest started May 1st, and closes August 31st. Any entrant may submit as many pictures as he pleases. All pictures will be judged solely on general appeal—the interest they arouse. Other particulars may be learned from the Walton Studio here, who will be glad to give complete information.

REDUCED RATES—On very nice 3-room apartment, well furnished. Pleasant. \$15. Apply 1010 West 7th St. C. M. Nichols.

Entered as second class matter July 24, 1930, at the Post Office at Cisco, Texas, under the act of March 3, 1879.

The Cisco Citizen is an independent Democratic newspaper, supporting what it believes to be right, and opposing what it believes to be wrong. Regardless of party politics, publishing the news fairly and impartially at all times.

THOSE WATER RATES

There has been more or less discussion about the water rates of Cisco as compared with other places. The argument has been advanced that our present rates are cheaper than many places of like size and conditions. Which may be true in some particular instances.

But this week there just happened to come to our desk a copy of the Douglas Daily Dispatch of Douglas, Arizona, which contains publication of an amendment to a city ordinance in which the water rates are set at a minimum rate of \$1.50 per month, with a

privilege of the use of 5000 gallons, each month except May, June, July and August, in which months the consumer is charged a minimum rate of \$2.00, and is entitled to 8000 gallons on this minimum rate. Any excess used above either of these minimums, the amendment reads, shall be charged for at the rate of 15c per thousand gallons; "provided, that any purchaser using water in excess of 130,000 gallons per month shall pay for such excess at the rate of 10c per thousand gallons."

And this from the dry, desert regions of Arizona! Where the water supply comes from wells! Douglas is a city of less than 10,000 people.

They have no big lake to draw their water supply from. They have no dependable rainfall to accumulate a water supply of any consequence. A region of arid, desert stretches! And the minimum \$1.50 per month on a 5,000 gallon allowance, except at that period of the year when more water is most needed, and during those four months the residents of Douglas get their water on a \$2.00 minimum for 8000 gallons.

We believe that our city "dads" might possibly find something in

this item to meditate upon. If so, there's no charge for bringing the point up. No, buddie, nobody called on us to recite on this. And no one sent us that paper with that in view. We just happened to receive it, and our "meditator" started working.

The Difference

Judge Brady is now in the Huntsville penitentiary. He is there for three years unless some tender-hearted governor turns him loose. All he did was to stab a foolish stenographer who accepted the attentions of a man who was a husband and father. She went riding with another man one night and when she came home this husband and father - Judge Brady - thrust a knife in her heart. His defense was that he was drunk. He had no other plea. He had leading attorneys from all over the state to defend him. The jury was lenient and gave him three years.

He went down to Huntsville unattended by any officer - oh, it wouldn't do to have an officer along. After he was kind enough to deliver himself to the warden he said: "I do not ask for any special favors." Why should he?

The same day he entered, a man - an ignorant man, one who had never had the advantages of an education, was brought there handcuffed and under sentence for four years. His crime was that he had stolen 100 pounds of seed cotton. There can be no question about the cotton thief receiving no favors. He will expect none, and will receive none.

There certainly ought to be a world somewhere that will set this one right. Cold blooded murder, three years; four dollar's worth of cotton, four years. But the purloiner of the cotton forgot to plead that he was drunk when he crawled into that cotton bin. And he didn't have half a dozen lawyers to help defeat the law. - Marshall News.

Garden Insects

Looks like this is to be a banner year for insect pests of all kinds. It never pays to turn a crop over to the insects. After the expense of planting the crop the slight additional expense of poisoning the insects is always justified. A new garden bulletin has been issued by the A. & M. College Extension Service, entitled, "Gardening," and called "B-70" which may be had by writing the Extension Service, College Station, Texas. This bulletin, which gives up to the minute information on growing vegetables of all kinds. It also tells how to control garden pests and anyone attempting to grow a garden should not be without one. It is free.

Campaign Waged To Prevent Epidemics

The following appeal has been made by the Eastland county health committee who is at present waging a campaign to prevent epidemics here. The committee is directing its efforts through the public schools, the rural schools in particular, and a report blank is attached to copies of this appeal which go into the schools.

To Parents of Eastland County Children:

Diseases and general poor health among rural children are known to follow such conditions as now exist in the drought area. In order to prevent disease outbreaks and to build up the general public health the U. S. government has made appropriations to be administered through the State Health Department cooperating with the U. S. public health service. This money is to be used in sending state nurses into the school districts to work with local committees in whatever health activity the county seems most in need of.

Dr. J. R. Mahone of the state health department has been in Eastland county and has had selected a central committee, which is to plan the work for this county and arrange for the selection of local committees in the various school districts. These local committees will arrange for physical examinations (clinics) of school children and a program of disease prevention.

As a part of the health program the state health department will provide free of cost, vaccine and toxoid to make all children immune to smallpox and diphtheria and where advisable, immunity will be established against typhoid. Since

the outbreak of smallpox in the county last year, all will agree that vaccination is necessary, but the use of toxoid as a preventative of diphtheria has only recently come into general use and there are many people who do not realize how safe and simple this treatment is. Two injections of toxoid are necessary at intervals of from one to three weeks. The county health officer recommends its use.

Since taking of these immunity treatments is entirely optional with the parents and since it is necessary to request the proper quantity of this material the central committee needs to know approximately how many children this service will be accepted for. Will you kindly indicate your attitude on the slip below and return it to your teacher?

Mrs. J. C. Patterson, chairman; Dr. H. B. Tanner, secretary; Dr. F. T. Isbell, Judge C. L. Garrett, B. E. McGlamery, Mrs. C. E. Maddox, W. C. Hickey, Mrs. J. S. Turner, Mrs. W. J. Lasater, J. E. Spencer—The central committee.

Wilbur Westerfelt, who is in his finishing year in the State University in Austin, visited his parents here, Mr. and Mrs. H. O. Westerfelt, during the weekend. Wilbur has become quite a fast runner, captain of his team, and Saturday came out winner in races at Ft. Worth.

Mrs. J. A. Heyser, Mrs. Luke Cathey, Mrs. Britian, Miss Standardch and Fred Heyser of Putnam and Mrs. S. E. Hittson were dinner guests of Mr. and Mrs. J. V. Heyser Thursday. They attended the Quilt Show in the forenoon, and the Mothers' Club in the afternoon.

Mayor J. T. Berry, E. P. Crawford, T. Hunter Foley and Oscar Cliett attended the convention of Christian churches in Wichita Falls a few days this week, where they assisted in working out a plan for the continuation of Randolph College for another year's work. They returned home Wednesday evening.

Mrs. B. A. Butler is presenting twelve pupils in piano recital at the First Christian church this evening at 8:15 o'clock. They will also be assisted by pupils and former pupils of Mrs. Ben McClinton. An interesting program is promised.

The Lobo band gave a short program at the First Methodist church Sunday night prior to the sermon. Their numbers were very much appreciated and enjoyed by a large attentive audience.

Secretary J. E. Spencer of the Chamber of Commerce left Wednesday afternoon for Lubbock to attend the meeting of the West Texas Chamber of Commerce at that place. Mr. Spencer was accompanied by Mrs. Spencer and their daughter, Miss Alice Estill. They will return Sunday.

Guy Dabney spent several days the past week in San Antonio on business.

MOTHERS' CLUB MEETS WITH MRS. WALLACE

The Mothers' Club met on Thursday afternoon at the home of Mrs. W. W. Wallace. As this is the last meeting of the year, it was a social one, and each member had brought her mother or some other mother as guest. A Mothers' Day program had been arranged, and those taking part were the children of members of the club each child giving two numbers. "Tribute to Mothers," and encore was given by Betty Sue Whitten. Betty Louise Warwick played two piano solos. Betty Slicker gave two readings as also did Margeret Ann McDonald and Mary Beth Heyser. Melvin Heyser sang two solos, "Mother" and "Dawn." Billie Wallace and Martin Jo Pass

played piano. The children displayed wonderful talent, and the program was enjoyed much. Punch and angel food cake were served.

MRS. ED HUESTIES HAS HAPPY THIMBLE CLUB

A very enjoyable afternoon was spent Thursday by the Happy Thimble Club when the members were entertained by Mrs. Ed Huesties at her home on West Thirteenth.

Sandwiches, chips, pickles, fruit, jello with whipped cream were served to Mesdames Ray Haley, C. E. Hickman, Aubrey Hull, Dewey Moore, J. P. Parish, Rudolph Schaefer, H. A. Crossby, J. E. Jamison, Martin Agnew, and Mrs. Boshear of San Angelo.

The club meets next Thursday with Mrs. Aubrey Hull on West 9th street.
