CISCO, TEXAS, FRIDAY, JULY 17, 1925

NUMBER 109

DALLAS MEN FLOG NEGRO

Conferring With Authorities to Establish Municipal Playground H. H. Schueler Is In Cisco Today

EVACUATION OF RUHR COMPLETE BEFORE JULY 31

PARIS, July 17.—The military evacuation of the Ruhr district would be complete before the end of July, the foreign office announced today. It was first planned to begin evacuation about August 15, but due to Germany's demands, movements will begin earlier.

3 CISCO HOMES CHANGE OWNERS JUST ANNOUNCED

Three Cisco homes have changed owners in the past few days, it was announced this morning, when the papers were finally passed by Adrian M. Johnston to E. E. Ray of the Ray Music store, who has just purchased the Johnston home at 2101 D avenue. This is one of the neatest homes in that part of Cisco, being six rooms and a bath, with built-in features. Mr. Ray purchased the residence as a home. Consideration is private. The home of Marvin Turner at 704 West Seventh street was sold today to Adolph Dove, an oil man operating in the Putnam field, who acquires this splendid residence as a home. Mr. and Mrs. Dove have been in Cisco for the past few months, but have been living in the Charles Fleming house on West Sixth street. Consideration not given. E. P. Crawford negotiated the deal. This morning it was announced that W. W. Donohue had purchased the residence of Mrs. Emma Neel at 404 West Sixth street, for a consideration of \$1,800. This residence is most conveniently located, and is a valuable piece of property. At present it is occupied by Mr. and Mrs. Sherman Watson.

MISSISSIPPI COMMITTEE IS CALLED MONDAY

A call has been issued for Monday afternoon at 3 o'clock for the committee on arrangements of the ex-Mississippians society to meet at the chamber of commerce for perfecting arrangements for the basket picnic proposed for July 29 at Lake Cisco. Every member of the committee is urged to attend. The committee is composed of J. E. Spencer, chairman; Rev. I. Lamb, R. Q. Lee, F. E. Harrell, D. J. Moss and Dr. Joseph Gregory.

Tries Scopes

JUDGE RAULSTON

Although engrossed in the trial of Prof. John T. Scopes, charged with having violated the anti-evolution law, Judge John T. Raulston (above), before whom the case is being tried, finds time to smile for photographers.

H. H. Schueler, representing the Playground and Recreation association of America, with headquarters in New York City, is in Cisco this week in the endeavor to interest the authorities here in an association maintained and directed playground. At the Thursday luncheon of the Rotary club Mr. Schueler was a guest of the club, and gave an outline of the plans upon which his association operates.

Speaking of the plans and operations of his association Mr. Schueler stated that his organization has helped to organize and establish playgrounds in 711 cities since entering the work in 1906. The first playground was established in Boston forty years ago, and there are now 400 cities with populations of 8,000 and over where they are endeavoring to establish playgrounds. The extension department is trying to reach these cities and give them the benefit of its experience in laying out and organizing a municipal system of playgrounds. Mr. Schueler stated, which are supported by a specific tax fund. The extension department gives the municipalities the benefit of experience by furnishing the plans and making a survey of existing grounds, such as parks already in use, school grounds and other parks. Cisco has six splendid possibilities which will be ample for the present. I am here now conferring with the city administration, chamber of commerce and heads of Cisco's civic organization, and hope to reach a definite understanding by the first of next week.

Continuing Mr. Schueler said: "The recreation of the youth of this country is dissipation, or else it is the passive recreation of watching the others play, riding in autos or attending picture shows, but not participating in the healthy and normal playground sports and athletics. The youths of the land have three thousand leisure hours and loaf sixteen hundred. As a result of these conditions 90 percent of the crime is committed by boys and girls under twenty-one years of age; 75 percent of the inmates of penal institutions are under twenty-one. Statistics show after nineteen years experience on the playgrounds in 1,100 cities, by means of supervised grounds, juvenile delinquency has been reduced 33 to 85 percent. One judge of a juvenile court has closed his tribunal, claiming that the boys of his city are 'too busy stealing bases to steal anything else,' and his court has never been reconvened."

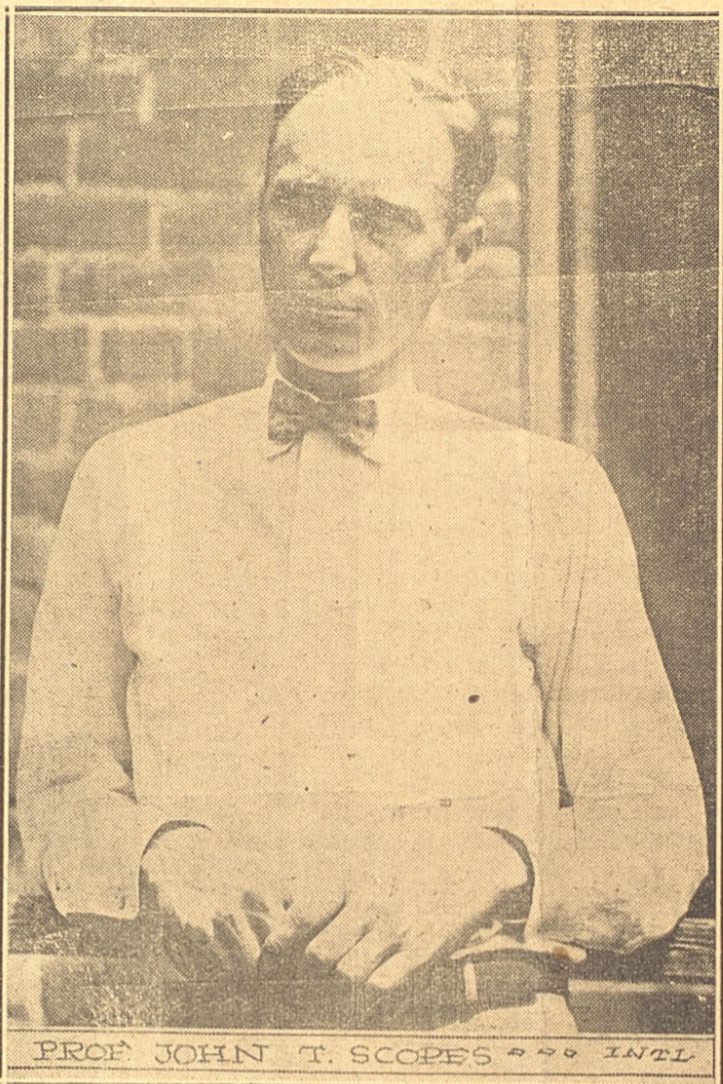

Mr. Schueler is making a tour of Texas on this trip, and at this time nine cities are offering to accept this service and put in municipal playgrounds. These are: Paris, Sherman, Waco, Corsicana, Austin, Wichita Falls, Amarillo, Brownwood and Lubbock, which places he will visit after leaving Cisco.

TRIAL CLIMAX REACHED WHEN COURT RULES

DAYTON, Tenn., July 17.—Following the ruling of the court excluding testimony of scientists, it was announced that court would recess until Monday. This sensational development was the last move of the evolutionists before submitting to the inevitable conviction of a jury of fundamentalist peers. With defeat staring it in the face the defense won its first victory which permits testimony of experts not needed by the court or jury, to be entered on the records. The climax of the trial came and went with swiftness when the judge refused to allow the scientists to testify.

AUSTIN, July 17.—Governor Miriam Ferguson has appointed A. B. Foster of Houston, to attend the convention of governors of southern states which convenes at Atlanta next Monday, as her personal representative. The meeting of governors is called to discuss the distribution of the Confederate memorial coins.

Scopes Awaits Verdict

PROF. JOHN T. SCOPES

Latest photo of Professor John T. Scopes, on trial charged with violating the anti-evolution law, taken between sessions as he came out of the small Dayton, Tenn., courtroom for a breath of air.

E. W. Moutray Told Rotarians That Future Development of the Cisco Oil Fields Would Far Exceed the Present

E. W. Moutray, of Cisco, and H. H. Schueler, of Chicago, were the principal speakers at the Rotary luncheon at Ladaico Inn Thursday. A humorous reading by Mrs. Paul M. Woods was also thoroughly enjoyed. Mr. Moutray, head of the Moutray Oil company, in a short but interesting talk, predicted great things for the Cisco country along oil lines. He said future local development would far exceed that of the present and that those who operated in the fields adjacent would make this city their headquarters whenever possible, because of unexcelled residence advantages. Mr. Schueler, who represents the American Playground association, stressed the advantages to be obtained from furnishing the children with properly supervised playgrounds. His remarks were practical and pleasing. Other visitors present were: Rolfarlan Tom Caton, of Clarksville; J. A. Caton, Eastland, and H. M. Walker, Dallas. It was announced that general plans for the big inter-city Rotary meeting, to be held next Thursday night and participated in by East-

Mother Love That Knows No Cowardice Will be Appealed to For Preventing the Honoring of Extradition of Mrs. Canady

POLICE PICKED UP THINLY CLAD VAG LAST NIGHT

The night police patrol last night picked up Joe Stevens, who claimed Titus county as his home and lodged a charge of vagrancy against him. He was given the usual fine in the city court and joined Turner's gang this morning in cleaning weeds from the city streets. Stevens, the police say, was rather thinly clad at the time he was picked up, his entire raiment consisting of a suit of unionalls and a straw hat, minus shoes. His physical appearance was sufficient to convict him of vagrancy.

AUSTIN, July 17.—Will mother love, the kind that knows no cowardice, awaken a response in the heart of Governor Miriam Ferguson, Texas' woman executive? That is the question friends of Mrs. Virginia Canady are asking today, as officers sped to Texas carrying warrants for her arrest on a charge of kidnapping her five-year-old son, Roscoe, from the home of her estranged husband in New York. Numerous telegrams have been received by the governor, urging that she protect Mrs. Canady from the New York officers.

Mr. and Mrs. Ernest Gude came in from their ranch near San Angelo, and will remain here for the remainder of the week. They are occupying their apartments at the Gude hotel.

GREAT BRITAIN REFUSES AGREE TO CONFERENCE

LONDON, July 17.—Great Britain flatly informed the United States, also France and Japan, that she is opposed at this time to a conference of the powers to consider abolishing extra territoriality in China, which Secretary Kellogg has been trying to bring about.

PEN AGENT GETS ONE IN PASSING THROUGH CISCO

In passing through Cisco this afternoon Cisco police delivered to Bud Russel, penitentiary agent, Edwards Crafts, who was brought here by Sheriff Biggs of Shackelford county this morning. Crafts stated he had drawn two years in the penitentiary in the district court of Shackelford county for appropriating the furniture of an abandoned building at Lueders to his own use and benefit, claiming he did not know who owned the property. He stated, however, that he was a material witness against others complicated, and the entire court and jury had signed an application for his pardon that he might testify in the cases pending.

REV. BRADSHAW WILL SPEAK IN CISCO SUNDAY

Rev. H. M. Bradshaw will occupy the pulpit of the Presbyterian church Sunday morning. Mr. Bradshaw, who is a son of W. E. Bradshaw of Scranton, is an excellent speaker and a graduate of Princeton college and also the Presbyterian seminary at Louisville, Ky.

JOHN MAY HEIRS FOUND THROUGH COUNTY PAPERS

Through stories carried in the Cisco Daily News and Ranger and Eastland papers, heirs of John May have been located. Claim to the \$25,000 inheritance awaiting in Wadesboro, N. C., a certain John May, or his descendants, who moved to this section of Texas in the 70's, has been made by Mrs. R. M. May, of Mangum, who states that she is the daughter-in-law of a John May who moved from North Carolina in the 70's and who located in this section of the state. Mrs. May's husband, a son of John May, is dead, as is her father-in-law. She stated that John May had six children, three of whom are now living, a son and two daughters. The son lives in Oklahoma and Mrs. May states that she was writing him for more particulars in regard to the history of his father.

The John May who was Mrs. R. M. May's father-in-law, came to Texas from North Carolina in the 70's. He settled in Eastland county and lived here until 27 years ago when he died. Though Mrs. May can remember nothing definite concerning this early history, this is in general the correct status of the matter, she stated.

The attorneys at Wadesboro, N. C., are being written for further details in connection with the estate before the family here will formally lay claim to it. Mrs. May has two daughters, both married, living in Eastland. They are Mrs. Hare and Mrs. H. L. Jackson.

GRADING L AVENUE SOUTH Street Commissioner Paschall is having L avenue graded from Seventh street south preparatory to graveling, which will be placed on that street just as soon as the grading is completed. Crews are at work cutting weeds from the streets in West Cisco, also.

Victim Was Charged With a Serious Crime --- District Attorney Ordered Release Because No Law to Fit Case

DALLAS, July 17.—No move has been made today by city or county officials to investigate the flogging last night of Clarence Brown, negro, who was seized as he left the county jail where he had been detained on the complaint of a white woman that he was the father of her mulatto child.

Brown was taken to the river bottoms and severely lashed. The negro's release from jail was on the order of District Attorney Shelby Cox, after it had been found that there was no law under which he could be prosecuted. The men who did the flogging were seen waiting in the street when Brown was released.

LUCKY STRIKE REPRESENTATIVE VISITS CISCO

J. L. Brown, representing Lucky Strike cigarettes, who makes his headquarters in Abilene, was in Cisco today taking orders for his product. According to Mr. Brown, the Lucky Strike is growing in favor so fast that it is difficult to keep the retailer supplied. However, the American Tobacco company, manufacturers, are always generous users of newspaper space in keeping their goods before the public, as is evidenced by the neat half page ad carried on another page in this issue of the Daily News.

AMAZED AT DAM AND PROGRESS MADE IN CISCO

Mr. and Mrs. H. B. Young of Holdenville, Okla., are guests of Mr. and Mrs. J. J. Collins. Mr. Young was formerly a citizen of Cisco where he operated a monument works. In company with his host and hostess these former Cisco people were driven all over the city, out to Lake Cisco where they were conducted through the corridors of the big hollow concrete dam. In commenting upon the progress Cisco has made since his departure Mr. Young said it was almost like a dream, and he could hardly realize these changes had taken place since he left here. "You have a wonderful asset in Lake Cisco," Mr. Young stated, "and I don't think I ever saw a cleaner looking town than Cisco is today. There are more paved streets than any town I know of no larger than Cisco, and all kept so clean and nice that it is a pleasure to drive over the city."

JUDGE AND MRS. BUTTS ENJOYING FRUIT CULTURE

Judge and Mrs. J. J. Butts, 711 West Sixth street, have one of the most comfortable homes in Cisco and probably come as near enjoying every minute spent therein as would be possible. One of their recreations is the raising of fruit, which affords both healthy exercise and diversion as well as gastronomic delight. A visit to this home yesterday by a representative of the Cisco Daily News gave the writer another example of what any Ciscoan may do in the way of fruit culture if he or she is willing to devote a little time and thought to the matter. They have peaches, strawberries, figs and grapes of excellent quality. The peach trees, all of them seedlings, are loaded to the earth with juicy fruit, while a small patch of strawberries rebar again and again as fast as the fruit is picked from the vine.

HERO OF VERDUN MAY COMMAND IN MOROCCO SECTOR

LONDON, July 17.—The French suffered severe reverses in Morocco, according to dispatches printed in French newspapers today. Marshall Petain, the hero of Verdun, is to be rushed to Rabat, Morocco, in an airplane, presumably to take charge of the troops there.

I.C.C. HOLDS THAT GALVESTON RATE UNREASONABLE

WASHINGTON, July 17.—The allegations of commercial and shipping interests at Galveston, Texas, that rates on export and import coastwise traffic between all points in the western classification and Illinois, on the one hand, and Galveston on the other, are unreasonable, was upheld by the Interstate Commerce Commission today. The commission held that rates from this territory to Galveston on the one hand, and to Texas City, Houston, Orange, Beaumont, Port Arthur and Corpus Christi, on the other was prejudicial to Galveston and unduly preferential to other ports named.

NICK MILLER AND D. LAUDERDALE BUY MAN'S STORE

Nick Miller will return to Cisco to make this his home, where he will be manager of the Man's Store, which he and Dick Lauderdale have acquired by purchase of Hoxan & Patton. C. R. Patton, it is understood, will leave Cisco to make his home in Lubbock. The transfer of the business will take place some time in August, according to street rumors, and Mr. Miller will be in active charge, while Mr. Lauderdale will remain with the Cisco Banking Co. in his present capacity. Mr. Patton could not be seen this morning, as he has gone to Lubbock, and his plans for the future could not be learned.

OF A PERSONAL NATURE

Miss Alma Jones is visiting her brother, Dr. T. B. Jones, in Amarillo. W. L. Holmsley of Gorman is in town today on business. Mrs. Fred Moellendick and son, Fred, Jr., and Miss Evelyn Moellendick, accompanied by H. H. Adams, left this morning for Sanitorium, Texas. H. E. Brown of Bowie, Texas, is visiting his daughter, Mrs. Clyde K. Hammers. Mr. and Mrs. W. F. McCool have returned from a vacation in Lindale, Texas. Mr. and Mrs. Sam Baugh and children of Abilene are the guests of Cisco relatives. Rev. I. Lamb is attending the big Baptist camp meeting at Lueders. Mrs. J. J. Collins has as her guest this week Mrs. Ida Rylice of Granbury. Mrs. J. J. Hulse of Henryetta, Okla., is visiting Mr. and Mrs. William V. Hoyt. Mrs. G. W. Carmichael is visiting friends in Carbon. R. L. Foree, C. B. Sewell and Chas. Caudill of Oklahoma City, are stopping at the Gude hotel while prospecting here. Mr. and Mrs. W. B. Statham returned last night from several weeks visit at Ti-homingo and Stillwater, Okla. Miss Dorothy Adams, niece of Mrs. Statham, accompanied them on their return for an extended visit.

Broadway Star Shot by Wife

MR. & MRS. ALLEN DAVIS

"Oh, why did I do it?" sobbed pretty Mrs. Edith Davis after she fired two bullets into the body of Allen Davis, Broadway star. Davis, who was expected to recover, refused to permit his wife to see him in the hospital. Mrs. Davis is also of the stage, considered the most beautiful girl in "Vanities of 1924." Neither would explain the shooting.

varied from 73 cents in 1922 to \$1.10 in 1924.

These figures are for ear corn and in some parts of the country unusually low yields and soft corn in 1924 prevented many farmers from having any corn for husking after filling their silos. The crop was also so poor in quality on some farms that it was fed from the shock without husking. Under such conditions, the department points out, the figures are likely to be influenced to a greater extent by reports from farmers who less affected by low yields and were severely damaged.

The acre cost of producing wheat on all farms reporting, varied from \$19.68 in 1922 to \$21.88 in 1924. The bushel cost was practically the same for all three years due to variations in yield, being \$1.23 in 1922, \$1.24 in 1923, and \$1.22 in 1924. The value of the wheat on these farms was \$1.11 per bushel in 1922, it was 99 cents in 1923, and \$1.43 in 1924. The 1924 wheat crop was the first for three years when the reported value per acre was greater than the average cost per acre.

The average cost of producing an acre of oats varied from \$17.40 in 1922 to \$18.93 in 1924. The average cost per bushel was 52 cents in 1922, it was 52 cents in 1923, and 50 cents in 1924. The value reported was 48 cents per bushel in 1922, it was 49 cents in 1923, and 57 cents in 1924.

There were no great differences in the 1923 and 1924 acre and bushel costs of producing potatoes in most of the districts classified. In the northeastern division the 1924 average value reported for potatoes was 21 cents, less per bushel than the 1923 value.

FALLS FARMERS FIND IRRIGATED ALFALFA PAYS

MARLIN, July 17.—Charley and Frank Oltorf are irrigating their alfalfa meadow on the Lenoir farm in the lower bottom from the Braos river and are doing it successfully at a minimum expense. They are lifting water at the rate of 1,250,000 gallons daily at a total height of around 50 feet, and distributing it over their alfalfa lands. Every effort which has been made to irrigate from the Braos has demonstrated the feasibility and it is expected to become more common, especially in dry years on all farms favorably situated as to location.

Among the eight best five percent honor students of the Texas University, appears the name of Carl Olson of Cisco.

34 BIRTHS AND 14 DEATHS FOR JUNE IN COUNTY

The vital statistics of Eastland county so far as reported to the county clerk, shows that there have been 34 births and 14 deaths reported. Of the births the sexes are running 50-50, as his report shows 17 girls and 17 boys have come to bless the homes of Eastland county folk. Following is the vital statistics report for June: Births—Born to Robt. Beard and wife of Desdemona, boy; Nat Adcock and wife, Gorman, girl; O. L. Baker and wife, Ranger, girl; M. H. Brock and wife, Ranger, girl; P. Thomas Conway and wife, Ranger, boy; R. Casey and wife, Ranger, boy; Irving Cole and wife, Ranger, boy; John T. Hamrick and wife, Gorman, girl; T. J. Murray and wife, Ranger, boy; Herbert Sherwood Miller and wife, Ranger, girl; William H. McDonald and wife, Eastland, boy; Walter Smith and wife, Ranger, girl; Roy Milton Townsend and wife, Tiffin, boy; C. B. Huit and wife, Eastland county, boy; John Richard Pierce and wife, Pleasant Grove, boy; W. Roy Talbot and wife, Eastland, girl; Wen T. Duckworth and wife, Carbon, boy; W. C. McCullough and wife, Carbon, boy; John James Pettus and wife, Eastland, girl; Will Mays and wife, Carbon, boy; C. H. Burkett and wife, Eastland, boy; George Alford Moore and wife, Nimrod, girl; I. J. Pence and wife, near Cisco, girl; W. P. Thomas and wife, Raylee, boy; A. Bryant and wife, Cisco, girl; Sam Blackman and wife, Ranger, boy; B. H. Cook and wife, Cisco, boy; William Edgar Crawford and wife, Cisco, girl; C. H. Covington and wife, Ranger, girl; W. I. Day and wife, Cisco, boy; Henry W. Gorman and wife, Carbon, boy; James F. Griffin and wife, Ranger, girl; Oran L. Hagar and wife, Cisco, girl; T. R. Herring, and wife, Ranger, girl; Aaron Perry Howell and wife, Ranger, girl; Carl William Hoffman and wife, Eastland, boy.

Deaths—Oscar Clem, male, Forman; J. M. Carpenter, female, Gorman; J. C. Dickens, Jr., male, Cross Cut; N. E. Graves, female, Gorman; Verner E. Mitchell, male, Ranger; William Alfred McGuire,

BUSH SAYS BOLL WEEVIL IS DOING A SMALL HURT

EASTLAND, July 17.—Since his return from his vacation, R. H. Bush, county agent, has been extensively over the county, and reports very few crops to have suffered damage of any consequence from boll weevils and grass hoppers this year, as the effective use of poison last and this season has caused the damage from hoppers to be negligible so far.

Crop conditions in Eastland county, with the exception of being late, are the most promising in the past four years, he stated. Cotton, with a 25 per cent acreage increase over last year, promises a yield of 20,000 bales, whereas the county produced only about 13,000 bales last year. Though late cotton is developing rapidly and is now blooming and setting bolls.

Feed crops, including maize, feterita and other sorghum crops, are generally good and very promising although they are late. The peanut crop is also fine but the acreage is considerably less than last year.

Garden truck and melons are pretty plentiful, especially melons, and they are of fine quality. Considerable trouble was experienced during the growing period of truck crops on account of green aphid or honey dew, which did more or less damage. The farmers, however, have learned how to overcome this insect and prevent the damage it causes by spraying their crops with tobacco extracts.

Farmers over the county are pretty well up with their work and most of them have their crops clean and in good condition.

Generally speaking Eastland county farmers are in good financial condition. Their homes and other farm buildings are in a good

male, Ranger; Pat Elton McGonigal, male, Ranger; Hattie Ievina Payton, female, Ranger; Orpal Loraine Smith, female, Ranger; Mary J. Todd, female, Ranger; J. M. Westmore, male, Gorman; Emma Caroline Wagner, female, Ranger; Oris Judd Wheeler, male, Ranger; J. R. Lyons, male, Rising Star.

state of repair and but few of them have gone in debt to make their year's crop. Most of them have been able to sell enough produce from the farm, including eggs and poultry, to provide the necessary funds with which to support themselves an d pay the operating expenses of the farm. In many cases, where considerable flocks of chickens were kept, the farm owners have been able to bank money.

FAKE SEARCH WARRANTS HIT BY U. S. JUDGE

SAN FRANCISCO, July 17.—Dismissal of several hundred defendants charged with violations of the prohibition amendment appeared imminent as a result of the action of United States District Judge John S. Partridge's holding illegal search warrants obtained by "under cover" agents in affidavits signed by other than the true names of the persons swearing out the warrants. Assistant District Attorney Thomas J. Riordan said the decision affects virtually all of the liquor cases accumulated in this district over a period of many months and totalling close to 1,500. Riordan said he did not intend to carry the case to the United States court of appeals.

The decision is believed by federal court attaches to set a precedent which is likely to have far reaching effect in the prosecution of liquor cases in this and other states. Prohibition operatives here have for a long period followed the practice of signing fictitious names to affidavits in obtaining search warrants, the records show.

The point was raised when counsel for a bootlegger suspect moved to suppress all evidence gained by prohibition agents under a search warrant obtained on an affidavit signed by Victor Williams when the man's true name was found to be Victor Williams Tomera. The motion was granted by Judge Partridge.

In announcing his ruling, Judge Partridge scored the practice of thus using fictitious names as "unethical and unconstitutional" and declared that he would grant all similar motions to suppress evidence gained in that manner. "The constitution gives to every man the right to know by whom he is accused," said Judge Partridge. "It is not incumbent upon any accused

person to establish the identity of the person or persons accusing him of wrongdoing. No sworn affidavit that deliberately misstates facts will be recognized by this court."

BRITISH SHIPS STAY "WET" UNDER RULING NEW YORK, July 17.—British Trans-Atlantic liners coming into the port of New York will remain "wet." Federal Judge Mack has refused to grant a permanent injunction against the Cunard Line. It was said today the action was to test the validity of the treaty with Great Britain. This was the second time the Neptune Association of Masters and Mates of Ocean and Coastwise vessels tried to have British ships made "dry," both times without success.

DOHENY COMPANIES APPEAL OIL DECISION LOS ANGELES, July 17.—Attorneys for the Pan-American Petroleum Company and the Pan-American Petroleum and Transportation company, E. L. Doheny concerns, appeared today before Federal Judge Paul McCormick and took an appeal to the U. S. appellate court, San Francisco, from his decision against the companies in the Elk Hills naval reserve oil lease cases.

TARLETON'S COACH WILL STUDY AT CHICAGO SCHOOL STEPHENVILLE, July 17.—Coach W. J. Wiscom of John Tarleton Agricultural college finishes his work for the summer this week and will leave immediately for instruction in a school maintained by the Playground and Recreation association of America. The attendance in this school is limited to 40 men from the south, and admission is only by appointment.

SULPHUR CLEARS A PIMPLY SKIN

Apply Sulphur as Told When Your Skin Breaks Out

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Mentho-Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist. Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles Mentho-Sulphur and use it like cold cream.

With MacMillan in the Arctic

Donald MacMillan, who has just sailed for the Arctic, again ordered Swift & Company products for the members of his expedition.

Fighting for existence and discovery in the frozen North calls for well-nourished bodies, and only the best food is good enough.

Returning from his previous voyage of fifteen months, he said: "No Arctic explorer ever went north with such fine food products as were put aboard the Bowdoin by Swift & Company. All the boys came back in perfect physical condition and all singing the praise of Swift's products."

The products supplied for the hardy band included:

- Swift's Premium Hams—(Sealtite wrappers)
Swift's Premium Bacon—(Sealtite wrappers)
Swift's Brisket Corned Beef
Swift's Premium Beef Tongues
Swift's Barclay Pork
Brookfield Butter
"Silverleaf" Brand Pure Lard
Swift's Pride Washing Powder
Sunbrite Cleanser
Wool Soap

Swift & Company U. S. A.

Co-operation is Making Bankhead Marketing Association a Going Institution; Membership Now 100

"New members are being added to the Bankhead Marketing Association every week," said W. S. Jarrett, sales manager, after getting in Wednesday from his daily trip. "These new members keep up the normal supply of the eggs, for which there is good demand at all times. The hens have hardly begun their fall laying yet, and there is some falling off with older members, but with the new members being enrolled keeps the supply near the demand, though we never have had enough eggs to expand the trade territory. I believe I could easily have sold double the amount of eggs I have had they been available, but with the present supply have just been able to supply the trade in the Eastland county towns. Wednesday we sold thirty cases, and the prices still are holding around \$10.50 per case. This money goes direct to the producers, and is spent with Eastland county merchants.

"At present there are about one hundred members of the Bankhead Marketing Association, and at the rate new members are being enrolled I predict the membership will be more than two hundred next season. The poultry people are fast coming to the realization that co-operation is the only sane method of marketing their poultry products, and are wanting in on such a profitable institution as the marketing association. The problem with the poultry business has always been marketing. The Bankhead Marketing Association solves that problem by supplying the market at attractive prices. This time last season poultry people sold their eggs around 15 cents, and today they are getting 35 cents per dozen. Naturally there is a reason for this difference in prices now and one year ago. Principally this reason is co-operation. Putting only infertile eggs on the market has much to do with the present demand and good prices, but this is the result of co-operation. Without co-operation it would have been impossible to produce infertile eggs. Then the association members stamp and guarantee every egg that is sold. The bad ones are replaced, and parties buying association eggs have no loss.

"But we should have at least twice as many poultry ranches in the county as there are now. I have inquiries every week for land on which to build chicken ranches, but I cannot tell them where they can get it. I fully endorse the statements made by R. Lee Poe that the chambers of commerce of Eastland county should get options on lands on each of the highways out of Eastland county towns, and when these inquiries come in we should know just where to direct these chicken people to get what they want."

BIG LANDRETH GASSER MAKING NOW 15,000,000 FT.

Reports have reached Cisco that the big gasser brought in last Friday by the Landreth Production company on the Ross Elliott lands, eleven miles north of Cisco, is now making fifteen million cubic feet of wet gas. This well was reported making ten or twelve million feet of gas when it blew itself in. The company is now drilling the well deeper after mudding off the gas, which caused the drillers considerable trouble on account of the heavy rock pressure. It is expected oil in paying quantities will be struck between the 3600 and 3900 foot levels, and operators over the entire field are watching this deep test with much interest. This well is two miles north of the Charley McClelland well, which has been reported making ten million feet when capped. When the well was drilled large quantities of oil was struck before the gas sand was reached. Also in that vicinity is the Donovan and League wells, where considerable oil has been struck. The gas is flowing from the 2200 foot level in the Landreth well.

What geologists pronounce as being one of the most favorable locations is the Landreth well on the C. A. Wilkinson tract, about three miles northeast of Cisco, where Landreth is now drilling below 2200 feet. Something rather better than the ordinary is expected in this well.

CLYDE C. OF C. OFFERS PRIZE FOR A SLOGAN CLYDE, July 17.—The Clyde chamber of commerce is contemplating offering a cash prize to the person who suggests a suitable name for the excellent fruit produced in this area. Such a name, it is said, will distinguish fruit grown in Clyde, "the fruitbasket of Texas." Apples grown here have no peer in the United States.

statements made by R. Lee Poe that the chambers of commerce of Eastland county should get options on lands on each of the highways out of Eastland county towns, and when these inquiries come in we should know just where to direct these chicken people to get what they want."

R. Q. LEE WELL IS GASSING STRONG AS BIT HITS SAND AT DESDEMONA THURBER PLAYS FAST STAR TEAM

The Root, Rhodes & Syles No. 1 Lee well, one and one-half miles east of Cisco, was reported this morning to be gassing strong when the bit touched the sand. The gas is estimated at 3,000,000 cubic feet, and of enormous pressure. The drilling is shut down to move the boiler back for safety while drilling the hole deeper. This well is located near the northeast corner of section 44, block 3, H. & T. C. lands. The gas was struck just as the bit entered the sand, below the Caddo lime. Every indication points to this well making a good producer—a heavy gasser if not an oil well.

E. M. Wakefield et al, drilling on the old gin lot in the town of Cross Plains, phoned to Cisco this morning that he had struck the pay at the Cross Cut depth—around the 1,300-foot level. He stated the well looks good to make one of the best producers in that section, and opens an entirely new pool, as there is no production at that depth nearer than Cross Cut. The location is strictly wildcat. The Terry Jacobs well three miles this side of Rising Star, was reported Wednesday evening to be making half million feet of gas from a depth of 2,964 feet, with the bit thirty-one feet in the time. Boiler trouble necessitated a shut down with the tools in the hole, which is holding up the drilling until this trouble can be overcome.

WAYLAND

Mrs. J. E. Stephens from Flaydada is visiting her brother, G. M. Lauderdale and family of Wayland. The Methodist meeting will begin here Saturday evening. Rev. G. R. Wright will do the preaching. Miss Allie Louder from Cross is visiting her sister, Mrs. J. M. Brown. Mr. and Mrs. Lesley Greenlee of Brownwood are visiting relatives at Wayland. Miss Doris Lynn Louder from Plainview is visiting relatives and friends here. The Ladies' Home Demonstration club will meet again Wednesday afternoon at the school house. There was a big rodeo at Wayland July 10 and 11. Mrs. Valson Hodges from Abilene is visiting relatives here. Sunday afternoon Mr. and Mrs. J. M. Brown, Miss Nellie Cole and Miss Allie Louder motored to Lake Cisco. Taylor—Power line to be extended between here and San Marcos.

DESDEMONA, July 17.—Local baseball enthusiasts as well as fans from surrounding towns will be given a rare treat here next Sunday, July 19th, when they will have the opportunity of seeing the Thurber ball club cross bats with the fast aggregation from Rising Star in the new ball park built here. Rising Star has developed quite a fast team and have played several excellent games already this season, while Thurber has maintained the same reputation and enviable record which it has enjoyed for the past few years. So far this season they have played eighteen games, winning eleven and losing seven. The managers of the new park are having a new grand stand built an dare getting the park in shape for the game Sunday. As this will be the first game here this season, a large attendance is expected.

NIMROD

Crops in this vicinity are looking good, and the rain which is falling as we write this, Tuesday night, is most welcome. Hope it continues throughout the night. Our Sunday school and B. Y. P. U. are progressing nicely. We would be glad if all who live near enough to attend would come, as we need you and feel that you will be benefited by coming, so come out and help us. Mrs. P. H. Langlitz of Carbon is visiting her son, L. O. Langlitz and family this week. Mr. and Mrs. Will Carmon of Cisco were in this community Monday night. L. D. Stanaford, T. L. Lasater and H. A. Wright went to Gorman Sunday afternoon. Mrs. Dewey Compton is visiting relatives near Merkel. H. H. Harden and family were week end visitors at Pleasant Hill. John Hart, our genial tax collector, and family of Eastland, were guests of Mr. and Mrs. C. W. Hock Sunday afternoon. Earl Lasater was a week end visitor at Pleasant Hill. Quite a crowd of our young people enjoyed the entertainment at the home of Mr. and Mrs. Will Leverage at Pisgah Saturday night. Mrs. H. A. Wright and Harold O'Brien visited relatives at Gorman Saturday. Herman Harrelson and L. D. Stanaford, Jr., were among the crowd in Cisco Saturday. L. O. Langlitz and family went to Carbon Saturday. Mr. and Mrs. Will Shirley and

children visited relatives in Cisco Saturday afternoon. Brooks Clifton of Cisco was the guest of Roy Lasater Sunday. Mrs. L. D. Stanaford was shopping in Cisco Saturday afternoon.

TROUP PEACH RAISERS ARE MAKING BIG MONEY

TROUP, July 17.—The commercial peach industry, in East Texas, which twenty years ago was making fortunes for growers and fruit dealers who followed it sensibly is coming back into its own. With the spread of the San Jose scale and other orchard pests less than twenty years ago the commercial peach industry languished. But the use of sprays and insecticides has convinced East Texas orchardists that insects and diseases can be eradicated, and the peach orchards made to yield a quality of fruit superior to any that ever came from the trees before the days of the pests. Agricultural representatives of railroads serving the peach belt, the county agents, and the reading, thinking orchardists are proving that the San Jose scale is a minor problem; and that most of the other fruit diseases can be removed. Many young vigorous orchards are appearing along the peach belt.

MERKEL MAN PERFECTS A WORKABLE CHOPPER MERKEL, July 17.—A co- "chopper" appliance for cultivating, is expected to revolutionize the thinning and weeding of cotton. Seven appliances have already been installed on other orchards. They are manufactured here, but Mr. Higgins believes that shortly it will be necessary to make them in lots of 10,000 to supply the demand that has followed successful experiments.

Smothered fried chicken—and Mrs. Tucker's...

That's all the recipe you need if you want perfect fried chicken that is just browned to a turn. With Mrs. Tucker's Shortening you can get marvelous results, not only in frying foods, but with pastries, pie crusts or hot breads. That is because Mrs. Tucker's is a pure, wholesome, vegetable shortening. It is made exclusively of choice cottonseed-oil. This fine shortening will give your baking and cooking all the richness of butter and none of the heavy greasiness of lard. It goes further than other shortenings too. You'll find the container for Mrs. Tucker's a decided advantage. Air-tight and sanitary, it assures you shortening that is always sweet and fresh. It is exceedingly easy to open. When empty, it is always useful as a household bucket or dinner pail. Interstate Cotton Oil Refining Company, Sherman, Texas. Mrs. Tucker's Shortening America's finest cooking fat

Mrs. Richardson Honored
 The members of the Compass Bridge club entertained with a surprise luncheon at the home of Mrs. R. W. Mancill Tuesday, honoring Mrs. G. C. Richardson, a charter member of the club, who leaves about the first of September to make her home in Brownsville. Attired in an attractive morning costume, Mrs. Richardson had accompanied one of the members on a short drive about the city, during the morning. Stopping at the Mancill home to get Mrs. Mancill to join them, they were invited into the house for a few minutes. On entering the dining room, Mrs. Richardson was greeted with cheers from the other club members, who had been hiding in various places about the room. Mrs. N. F. Payne was toastmistress for the occasion, and after several toasts to the honoree, invited each member to give Mrs. Richardson some advice to follow when she arrived at her new home. These were given in rhyme and furnished much amusement. A leather bridge case, bearing the honoree's name was presented by Mrs. Payne. Mrs. Richardson responded with thanks and told, in her jolly manner, how she would always remember each member. The serving of the four-course luncheon followed. The table was attractively decorated with bouquets of zenias and dainty place cards, showing the lucky

blue bird, marked the places for Mesdames G. C. Richardson, Guy Dabney, N. F. Payne, Charley Gray, H. S. Drumwright, B. S. Huey, F. E. Harrell and R. W. Mancill.

Dinner Party
 Mr. and Mrs. J. H. Underwood of Wichita Falls, who are visiting friends in the city, entertained with a 6 o'clock dinner Tuesday evening at Laciaco Inn. The guests present were Messrs. and Mesdames J. L. McMurray, Emmonds, Bahan, J. S. Glass of Wichita Falls, G. C. Richardson, Mrs. Tim Griesenbeck of San Antonio, and Messrs. McGee and Highnote.

Theater Party
 The members of the XXth Century club were guests of Manager Greer of the Broadway theater Monday evening for the showing of Mrs. Wallace Reid, in "Brown Laws." Those enjoying this courtesy were Mesdames James L. Shepherd, L. A. Harrison, J. H. Moyer, J. J. Winston, Barlow Winston of Panama, F. C. LeVeaux, C. R. Baugh, E. P. Crawford, J. B. Cate, J. W. Mancill, Philip Pettit, W. E. Ricks, G. B. Kelley, Karsaboom of Fort Worth, J. R. Burnett, J. J. Butts, Belle Stamps, E. E. Dean and D. Ball.

Mrs. J. W. Hartman left Tuesday for a two weeks' visit in Rockwall. She was accompanied as far as Fort

What the World Is Doing

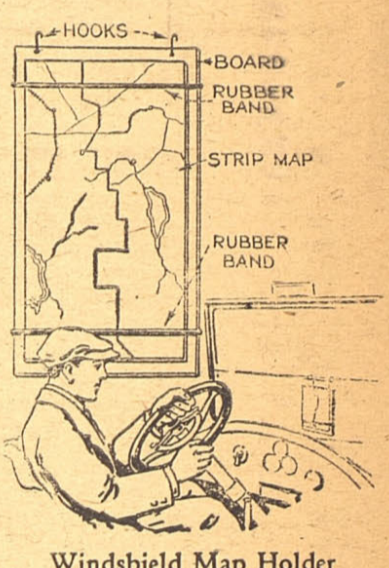

Does Your Face Reveal Your Character?
 "The intelligence of a person can be judged by his appearance, the shape of his head or the features of his face has been disproved by experiments conducted by Professors Donald A. Laird and Ierman Remmers, of Colgate University, Glen U. Cleeton, of the Carnegie Institute of Technology, and E. B. Knight of the University of Iowa," says Dr. A. J. Snow, professor of psychology, Northwestern University, Chicago, in a special article.

"In one test, pictures were submitted to 376 persons and their estimates of the intelligence and abilities of the ten subjects were compiled. The results showed that in attempting to arrange the pictures according to relative intelligence they could have done as well with their eyes closed.

"In another experiment, two groups of sorority girls, ten in each group, and one group of ten fraternity boys were selected as subjects. Friends of the thirty then gave their opinions as to the intelligence, frankness, will power, ability to

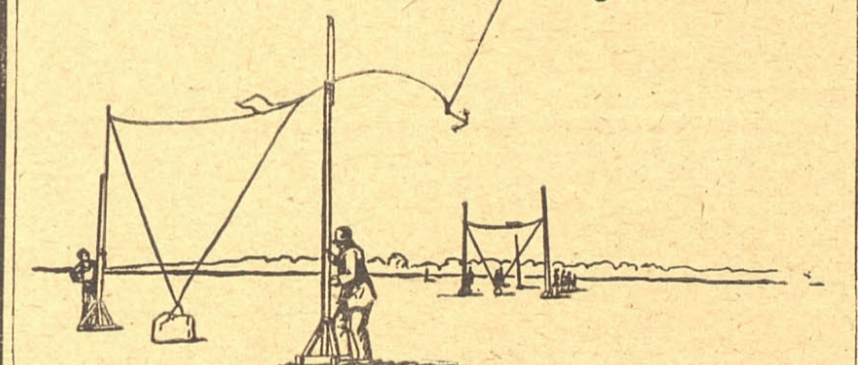

judging them from their appearance were given a look at the thirty, one at a time, and their impressions compared. Their opinions agreed very well with each other, but did not agree with the estimates of the friends who really knew the subjects.

"The only possible conclusion is that a peculiarly shaped head, an odd ear, close-set eyes, a hooked nose, wide mouth, receding chin, or any other unusual feature about your head has nothing to do with whether you are intelligent or dumb, honest or criminal, or whether you would be a success in one line of work but not in another."

Windshield Map Holder

The popularity of the strip map for auto tourists makes the holder shown in the illustration a great help. Take a piece of composition wallboard or heavy cardboard a little larger than one strip of your map. Near each corner, at one end, punch a small hole and push a length of stiff wire through it, bending each end to form a hook. Now get two rubber bands for the ends of the board to hold the map in place. Hang the hooks over the windshield so that the map is always in view of the driver and out of his way.

make friends, leadership, originality and impulsiveness of the subjects under observation. These opinions were found to agree very closely except in the cases of frankness and ability to make friends.

"Next a large number of business men, school teachers, employment managers and others used to meeting strangers and

Kill Disease by Disease

That paralysis may be cured by infecting the sufferer with malaria fever is the belief expressed at a recent medical convention. The treatment, in which one disease is made to cure another, is said to have been tried with success. Blood taken from a malaria patient is injected into the veins of the paralytic who then has attacks of high fever. After eight or ten of these attacks, the patient is given quinine to kill the malaria germs which killed the paralysis bacilli.

More than 119,000,000 animals were slaughtered for food in this country last year, according to government figures.
