STANDARD OIL TAKES HOLD IN MITCHELL CO.

OKLAHOMA CITY, July 25.—The California company, subsidiary of the Standard Oil of California, has acquired the producing properties in Mitchell county, Tex., of the Anderson-Richards Oil company of Oklahoma City and the Hickox Production company of Texas. The California company will increase the capacity of the Colorado City (Texas) refinery to 5,000 barrels daily.

DR COOK WIRES REPORT OF HIS ILLNESS UNTRUE

FORT WORTH, July 25.—"There is no basis for the reports of my illness," Dr. Frederick A. Cook wired friends here from the federal prison at Leavenworth. "I am eating three meals a day and sleeping with the ease of a wild man." A purported interview with Warden Biddle of the federal penitentiary, said Dr. Cook was seriously ill.

DAUGHTER OF VANDERBILTS WEDS A STAR

NEWPORT, R. I., July 25.—Simply gowned in white crepe with veil of tulle, Miss Maribel Vanderbilt, smart set's perfect girl and one of the wealthiest young women in America, was married late yesterday to Frederic Cameron Church, ex-Harvard football star. The ceremony was followed by a wedding reception. Representatives of wealth, beauty and power were invited to the dazzling fete given the young couple by Count and Countess Lasselo Szecheny, following the reception.

100,000 TEXTILE GIRL STRIKERS STAGE WALKOUT

LONDON, July 25.—While England's coal strike is allowed to simmer unmolesated over the week end, North England had a strike to contend with in the walkout of one hundred thousand workers in textile mills. Militant girl strikers attacked factories in some sections, smashing windows with stones. Newspapers criticized Premier Baldwin for postponing action on the coal strike till Monday.

SHENANDOAH RETURNS FROM TRAINING TRIP

LAKEHURST, N. J., July 25.—The dirigible Shenandoah, returned to its base today after two days war training spent with the scouting fleet at Norfolk. She enjoyed perfect sailing weather from Virginia and made a smooth landing.

Mr. and Mrs. J. A. Cochrane and daughter, Novaline, Mr. and Mrs. Nick Barrows, all of San Angelo, arrived Sunday for several days' visit at the home of Mrs. T. P. Cochrane.

A. L. Mayhew and son, Charley, and Judge J. D. Barker are leaving today on a business trip to Dallas.

DENY POPE WAS ILL

Reports that Pope Pius XI. was ill were denied by Vatican officials. The Pope is giving many audiences to Holy Year Pilgrims.

ATTACKS OATH TAKEN BY ALL U. S. EMPLOYEES

WASHINGTON, July 25.—A fight, challenging the salaries of the federal government's big army of employees over the country, including the president and cabinet members of congress, threatened today by Loren H. Wither, treasury clerk and author of the national capitol's evolution. The legal battle would center on the constitutionality of the United States employees' must, which includes "so help me God." Wither has stricken these words from his oath, and it is declared he is not legally employed. He is a true atheist, he declared, and to take this oath he must profess a religion, to wit: Christianity, which violates the first amendment to the constitution.

CISCO STORES HAD VERY GOOD TRADE SATURDAY

Cisco merchants report a very nice business Saturday and Sunday night. The crowd during the day was not unduly large, but was made up of local and out-of-town people who spent their money freely. For several hours Saturday night there was a steady stream of automobiles on both sides of Main street. At 10 o'clock Saturday night there was not a vacant room in either of the three principal hotels.

DALLAS, July 25.—Dr. J. M. McLean, 87 years of age, retired minister and former president of Southwestern university at Georgetown, died here this afternoon. Dr. McLean was well known and loved throughout Texas, having held various pastorates in the state during his long and active life.

WIRE MESSAGE TO CISCO MAY BE SUIT BASIS

FORT WORTH, July 25.—Claiming that through the alleged neglect of the Western Union Telegraph company in failing to deliver a money order on time damaged him to the extent of \$1,100, M. L. Mooney filed suit Friday in district court here. The plaintiff sets out in his petition that his minor daughter was seriously ill at Cisco, and that he telegraphed her \$20, but that the telegraph company failed to deliver the money for forty-eight hours. Unable to obtain medical attention, due to the lack of money, the plaintiff alleges, his daughter suffered to a great extent, for which damages are requested.

C. A. CULBERSON LEFT AN ESTATE VALUED AT \$83,960

AUSTIN, July 25.—After spending all of his adult life in the service of his people, Charles A. Culbertson left an estate of but \$82,960, according to the report made to the comptroller by James Harrison, brother of the widow. The report is the basis for the inheritance tax to the state. County officer, attorney general, governor of his state and finally long service as United States senator, Mr. Culbertson had unusual opportunity to amass a large fortune, but the comparatively small saving of his life is regarded here as attesting his honest and high character in the public service.

The property will go to Mrs. Culbertson, the widow, and a grown daughter, being the only immediate survivors. Mr. Culbertson made a will leaving the entire estate to Mrs. Culbertson. Mr. Culbertson had retired from the United States senate only a short time when he died in Washington a few weeks ago and was buried in Texas at Fort Worth. In commenting upon his passing Comptroller Sam Houston Terrell said the state and nation had lost a loved and loyal son and that it was sad to know that he left no direct descendant to perpetuate the name of Culbertson.

FIRE FOLLOWS EXPLOSION OF 18 GASOLINE CARS

MUSKOGEE, Okla., July 25.—The worst fire in the history of the Midland Valley railroad is raging following the explosion of eighteen tank cars after the wreck of a freight train of gasoline cars one mile east of Haskell. The damage is expected to reach \$250,000. The road will be impassable for 24 hours.

HOUSE FAMINE IN CISCO SEEN IN FEW WEEKS

"A serious house shortage in Cisco is only a matter of a few weeks," said Mayor Williamson in discussing the influx of new people here. "More houses will have to be built if we take care of those who want to live in Cisco. According to the records there are more people living in Cisco now than ever before, and at the rate new people are coming in there will have to resort to the congested condition that prevailed in 1919 and 1920. In 1920 there were built in Cisco over 200 new residences, and 100 were built in 1921. Besides this number there have been many other residences erected, which have been far in excess of the number consumed by fire. Since 1921 no real building campaign has been carried on, but the time is not far distant when something must be done to solve the housing problem.

"A splendid class of people are coming here and want to make Cisco their home, and these would be a creditable addition to any city. Many of those people who have recently moved here have purchased homes, and are most desirable citizens. Besides those who have been attracted here by the oil interests, we will have the usual influx in a few weeks to place their children in school, and it appears to me some action must be taken at once."

FT. WORTH FRIDAY FIRES CAUSED \$54,000 DAMAGE FORT WORTH, July 25.—Two fires caused \$54,000 damage Friday night, as estimated by Fire Chief Ferguson today. The fire downtown started in a photographic laboratory and damaged a clothing store, Chinese restaurant and dental paste factory. The residence fire destroyed the home of J. D. Crowley with \$5,000 loss.

POISON MOTHER FOUND GUILTY CHILD MURDER

GARY, Ind., July 25.—Mrs. Anna Cunningham, Gary's "poison mother" was found guilty by a jury at Crown Point late this afternoon of the murder of her ten-year-old son, altar. The jury had been out since noon yesterday. The jury recommended her punishment be fixed at life imprisonment, but the sentence is withheld at the request of the defense attorneys, who obtained thirty days in which to file motions for a new trial.

NEW PLEASURE DEVICES TO BE AT LAKE CISCO

The Lake Cisco Amusement company will have additional features of amusement at Lake Cisco for the entertainment of the visitors. Reaching here Monday the San Antonio Amusement company will install a Ferris wheel, the whip, a merry-go-round, and perhaps another device. It was stated that these pleasure devices would be fully installed and in operation Wednesday on the occasion of the basket picnic to be given by the Mississippi society.

Those in charge of the arrangements for the picnic state that considerable progress is being made to make the Mississippi picnic one of the most enjoyable occasions of the year. Acting Secretary Whitehead of the chamber of commerce, says that the chamber of commerce is lending the arrangements committee every cooperation. Mr. Whitehead would like for those who have cars to assist former Mississippians out to the grounds who have no conveyance of their own. If you are a former Mississippian, and have no conveyance phone Mr. Whitehead, giving your name and number and he will endeavor to get you to the grounds.

All former Mississippians living in Eastland county and adjoining communities are cordially requested to be on hand and have a general good time next Wednesday.

PIPE LINE IS EXTENDED FROM LEE TO LUSE

Continuing the pipe line from Lee well, one and a half miles from Cisco, the Prairie Pipe Line company has run a line to the Luse well at the foot of D avenue in South Cisco. This well has been making twelve barrels every day since it came in about two years ago, but the crude has been kept in storage and shipped out.

CONDITION OF MAYOR'S SON IS IN DOUBT

A telephone message late Saturday from Mrs. J. M. Williamson at Dallas stated that the x-ray had so far failed to show the exact trouble from which her son, Hearson Williamson, is suffering. The young man, who was stricken some ten days ago with an ailment thought to be caused by a small stone in the kidney, was taken to Dallas Friday night for examination by a specialist. Mayor and Mrs. Williamson and Dr. F. E. Clark are with the young man and Misses Ruth and Helen and Chapman Williamson will go to Dallas this morning.

TAKING HER VACATION Miss Effie Moore, money order clerk at the Cisco postoffice, is taking her vacation at this time, but she is spending it at home. Miss Effie and sister are having their home on West Third street, remodeled, and she is bossing the job.

DIGGING INTO WORDS

If you just sit and look at one printed word for a little while it will seem to jump at you and the real peculiarity of its pronunciation, its meaning and its fitness will be impressed on your mind as never before.

Of course, when we were children, we used to be told that the word zebra was invented just so the letter z could be included in our alphabet.

Thoughtful parents are those who try very hard to live up to their children.

DO YOU REMEMBER?

Roundup, September, 1912.

At the home of Mr. and Mrs. J. W. Mancill last Sunday afternoon at three o'clock Mrs. B. M. James and E. E. Jones of Rising Star were united in marriage by Rev. E. Stubblefield.

ENDURANCE TESTS

A strong-muscled and strong-nerved young man, formerly a cowboy, recently offered to drive an automobile for five continuous days and nights, chained to the steering wheel, without stopping the car or taking a wink of sleep.

He did it, a newspaper writer says, "without suffering any ill effects." The doughty cowboy-driver himself may think so.

Sleep is the most imperative of human needs—more important than food or drink or bodily rest. Forced deprivation of sleep is the most cruel and devastating of all punishments.

This is perhaps the worst of such endurance tests as athletic young men with more vigor than sense have subjected themselves to lately.

This includes all athletic contests calling for extreme exertion. It is no accident that champion athletes are short-lived.

ANTI-HISTORY

The anti-evolution movement has arrived in Washington. The last congress voted money as usual, with an extra \$4,200 for the bureau of American ethnology, operating along with the Smithsonian institute to investigate the history of man on this continent.

NEW WORD FOR PROHIBITION

Dallas Lore Sharp, American author, wants a new word to take the place of "prohibition," which he calls a "double-damned word" that people do not like and never will like.

"You must find something constructive," he says, that will appeal to the love of adventure, that will emphasize the constructive, good results of putting down the liquor habit.

EAGER VICTIMS

The fraudulent stock salesman reaps his greatest harvest from persons of only average income, the very ones who can least afford to lose money outright.

Daily Lessons in English.

Words often misused: "Likely" and "liable." Don't say "he is liable to come any minute." When expressing a very probable event say "likely."

Often misspelled: Visualize. Note the "s" in first syllable, though pronounced as "z."

Synonyms: Submission, yielding, non-resistance, obedience, subjection, surrender, resignation.

Word Study: "Use a word three times and it is yours. Today's word: Flamboyant; characterized by extravagance; showy."

Father of Twenty-One Children Hears of New Protection Plan For 60,000 Railroad Workers

JOHN MARRILLIA JAMES N. DEWITT.

For more than forty-six years James N. DeWitt has devoted his time to making good at his job and to being the proud father of one of the largest families south of the Mason-Dixon line.

There have been twenty-one little DeWitts and eighteen of them are still living. The oldest a son of 46 and the youngest a toddler of just two. DeWitt is a carpenter employed in the Louisville, Ky., coach yards of the Louisville and Nashville Railroad, and his general foreman, John Marrillia, who is shown in the above photograph with him, will tell you that no more competent artisan is carried on the roster. But the elderly worker is, above all, a family man, and in this with no little pride that he discusses his large flock. Despite the fact that many of them have grown up and married and live in cities far distant from Louisville, he still finds time to communicate with them and to share

EASTLAND SONS OF VETERANS GO AFTER MEMBERS

EASTLAND, July 25.—A meeting of the Eastland camp of the Sons of Confederate Veterans was held Friday evening at 8 o'clock in the office of the adjutant, Dr. R. C. Ferguson, in the Exchange National bank building, with the following members present: Judge E. A. Hill, commander; T. L. Overby, C. A. Cathey, W. H. Madden, June Kimble, and Dr. R. C. Ferguson. Three new members, R. N. Grisham, R. E. Sikes and C. D. Knight were taken into the organization. The meeting was presided over by the commander, Judge Hill. The purpose of the meeting was the acceptance of a charter and the issuance of membership cards. A membership committee was appointed to make an intensive drive among the sons and grandsons of Confederate veterans who now reside in this territory, during the next two weeks with the intention of including as many as possible in the membership.

CLAIM SPANISH WAR VETERANS DISCRIMINATED

FORT WORTH, July 25.—Veterans of the Spanish-American war in Fort Worth for the convention today declared their disabled members are being discriminated against by congress, which has failed to increase their pensions. One of the principal subjects to be discussed during the meeting will be the removal of this discrimination, Captain William S. Longford of Wichita Falls, department commander, declared.

SMALL GIRL LANDS BIG GAME SALMON

BANGOR, Me., Jul y25.— With sportsmen from all over the country armed with the best to be had in equipment looking on breathlessly, Roselle Sullivan, 13, of Bangor fought for half an hour with a 27-pound salmon, the biggest catch ever taken out of the Penobscot river. The diminutive youngster, exhausted with her battle, finally landed her catch.

The Knitted Coat's The Thing!

AFTER looking over the smartest things for Fall, one cannot help but realize that the knitted coat, by merit of its chic and practicality, has certainly come into its own.

Of course the knitted coat has never lacked in fascinating appeal, but we have been more or less prone to classify it as a fad rather than a garment of everyday utility. But now it has won a definite place among the stylish and practical wraps.

Smart for wear over light summer dresses, are the cool white haltrigrens with downy brushed wool collars. Vying with these are the coats knitted of fine alpaca in the pastel tints.

Sketched above is a coat which I saw on the Avenue, and which attracted no little comment. Knitted of silk and wool in a delicate shade of rose, its collar, cuffs and pockets in a soft, mist gray, this coat could be worn gracefully with sports or dressy frocks.

A lovely thing—the Knitted Coat!

BABY GIRL BORN WITH TWO FRONT TEETH NEW ROCHELLE, July 25.—When Grace Agnes Hecker first saw the light of day at the home of her parents, Mr. and Mrs. Anton Hecker, at No. 17 Bayard street, she was much better equipped to battle with the world in general than most children of her age, in that she has two

teeth. The teeth are in the center of her mouth and in the lower jaw. Otherwise she is a normal child, weighing eight pounds and crying just like other 1-day-old youngsters.

WHAT Do Women Demand in Hose ?

FIT—unsightly wrinkling at the ankles is most disconcerting. BEAUTY—Nothing that a woman wears must be more pleasing to her eye. COMFORT—Poise, a cherished attainment, must not be handicapped by uncomfortable hose. GAUGE—Fine, but not too fine—there is a degree of sheerness that jeopardizes satisfactory wear and repeat patronage. COLOR—A wide selection—stocks must meet satisfactorily style and seasonal requirements. WEAR—Economy natural in women's buying instinct, must be given in good measure to retain permanent patronage. All these features are to be found in our hosiery.

STUDEBAKER Special Six Coach \$633.00 down and 90 monthly payments of \$105.98 each.

Why the One-Profit* Coach Excels

—it is engineered and built complete by one organization—Studebaker. It is a perfectly co-ordinated, harmonious unit. This means better performance, greater comfort and increased mileage at an accepted coach price

AN AUTOMOBILE, like any other highly specialized machine, runs more smoothly—lasts longer—gives greater satisfaction—when its thousands of elements are carefully co-ordinated into one harmonious unit.

Obviously, a better car can be produced when all vital parts are designed, engineered and manufactured by one organization.

The Studebaker car is built on this "one-profit" principle. Not only all the engines, but also all the bodies, and all the axles, gear sets, differentials, springs, clutches, steering gears, gray iron castings and drop forgings are manufactured in Studebaker plants. This is not true of any other automobile in the fine car field.

The Studebaker, therefore, being built as a unit—functions as a unit—with all of the advantages of unit over assembled construction.

"Coach" in name—Coupe in quality

The Studebaker Special Six Coach is an outstanding example of the finer quality made possible by this "one-profit" principle of motor car manufacture.

This automobile is really a fine 5-passenger coupe, but is called a "coach" because it carries the lowest price at which an enclosed car has ever been sold on the famous Studebaker Special Six chassis.

In this Coach fine grades of upholstery are used. You'll find the same quality of workmanship and materials in all hidden places that you see out in the open.

Many of the superiorities of this Coach are invisible—and therefore all the more important. But here are some you can easily see and check against competing cars: gasoline gauge on the dash, 8-day

*By a "one-profit" car means a motor car that, in its vital parts, is manufactured by one organization—this cutting out the extra profits and overheads which arise when vital parts are bought from others. There are only two cars that can be thus classified, because —of all the makes of passenger cars built in the United States, only 2 make all their own motors, bodies, clutches, springs, axles, gear sets, differentials, steering gear, gray iron castings and drop forgings. One of these 2 is Studebaker and the other is Ford.

clock, automatic windshield cleaner, rear view mirror, door pockets, rear window curtains, ash receiver, trunk rack, ornamental pull-cord, cowl ventilator, stop light, dome light, tire carrier locked by the same key that locks door, and the splendid coincidental lock to ignition and steering wheel. Lights are operated from a switch on the steering wheel which is left free for this convenience by the elimination of the spark lever. In all Studebakers the spark is automatically controlled by the speed of the motor.

In its insistence upon comfort, this car is typically Studebaker. There is comfort in the extra heavy cushions—in the big springs—in the full balloon tires for which steering gear, fenders, etc., have been specially designed—in the ease with which passengers may enter or leave the rear of the car—in the extra large windows and windshield.

You can buy all this style, comfort and performance at the price because this is the only "one-profit" coach on the market today.

Buy now—no "yearly models"

You may buy this Coach today—or on any day of the year—with the assurance that there will be no "annual announcement" to make it artificially a "last year's model."

For Studebaker has discontinued the custom of presenting a new line of cars every year. Instead, Studebakers will be kept up to date all of the time. Therefore you can buy this Coach in safety NOW.

TEN THOUSAND MUTTONS SOLD IN WEST TEXAS

SAN ANGELO, July 25.—T. L. Benson, Sonora livestock commission dealer, within the last two weeks has purchased 10,022 muttons on orders for Kansas feeders from eleven firms and individual sheep raisers in five West Texas counties—Tom Green, Schleicher, Sutton, Crockett and Irion, he reported in San Angelo Tuesday. Many of the sheep have already been shipped and all will be aboard cars by Sunday night.

Mutton purchases have been: 3,250 from Linticum Brothers, San Angelo; 2,950 from Thomson Brothers, and Rex Thomson, Jr., of Austin, who have ranches near Eldorado; 1,227 from Childress Brothers, Ozona; 444 from Will A. Adams, Ozona; 105 from John Young, Ozona; 250 from J. S. Glascock, Sonora; 470 from Magruder & Evans, Merton; 200 from W. B. Burke, Merton; 350 from Tom Ault, Arden; 550 from J. B. O'Brien, San Angelo; and 226 from J. S. Cunningham, Barnhart.

Mr. Benson sold 1,100 yearling ewes for McKnight & Logan of Sonora to Edward Dismukes of Uvalde, for delivery August 1, at Sonora. The price was \$8.25 per head.

AMUSEMENTS

Broadway Today
 "Old Home Week," the new Paramount picture which opens today at the Broadway for a two-days run, offers the rare combination of an exceptionally interesting story and a brilliant star.

It was written by George Ade, famous American humorist, and serves as a starring vehicle for that personable and popular screen idol, Tommy Meighan. Tom Geraghty, one of the best known scenario writers in the business, wrote the film adaptation and Victor Herman performed the directional honors.

Meighan has a particularly sympathetic part in this picture—that of a likable young chap who falls to make a success in New York and returns to his home town. The fun begins when the local citizens get the mistaken idea that he is the president of a big oil company of New York. For a time Tom is a veritable hero, but his triumph is short-lived. Even "the only girl" turns against him when he is publicly exposed.

From that point the plot develops several dramatic complications but in the end, Tom proves his business ability, when by a bit of strategy he turns the tables on a couple of crooks, who try to swindle the townspeople through a fake oil deal.

Wholesome, humorous and human, "Old Home Week" is the type of photoplay that provides ideal entertainment. Lila Lee, Larry Wheat, Charles Dow Clark, Max Figman and Charles Selton are among the prominent players who appear in support of Mr. Meighan.

GONE TO THE VALLEY
 Moran News: Mr. and Mrs. Arthur Nunn left last week for the Rio Grande Valley, where they will make their future home. Mr. Nunn will oversee a 200-acre tract of irrigated land belonging to his father. He has been the efficient employee of the Smith & Lummus Drug Co. here for the past several years. Mrs. Nunn is the daughter of Mr. and Mrs. Chas. Mashburn.

The fame of the Bankhead Marketing association is spreading far beyond the confines of the oil belt, and eggs are in demand in many places at prices far above those prevailing nearer these markets. The guaranteed eggs sold by the marketing association are known as far north as Amarillo, where the proprietor of the leading hotel in that city has made inquiries regarding the contracting of Eastland county eggs for 35 cents, and paying express charges. This offer is made in face of the fact that eggs are sold in panhandle towns as low as 10 to 15 cents, but they are fertile eggs and not guaranteed. W. S. Jarrett, the sales manager of the marketing association, states that he has orders for eggs from Waco, Abilene, and other points but the supply has not been sufficient to fill any of these orders except when possible, he lets Abilene have what he can spare from his local trade. One day this week he shipped eighteen cases to that city. Breckenridge orders take all he can dispense with without depriving the Eastland county towns. These facts demonstrate that the present high prices paid for Bankhead association eggs are not due to local conditions, but rather to the quality of the infertile eggs handled through the association. Fertile eggs can be bought locally at lower prices than those produced and guaranteed by association members, but fertile eggs are not guaranteed. Quality is the reason Bankhead association eggs command top prices.

"But the fame of the Bankhead Marketing association is also known for the reason that it is now a going concern, and the business like manner in which the products are handled," said Mr. Jarrett. "A few days ago I received an application from Miss Annie Mann of Moody, in McLennan county, to join the association. She requested full information in regard to membership, which has been furnished her. This lady stated that she now has 1,000 laying hens, and if she could join the association she would increase her flock to 2,000. I am looking for her to send in her formal application for membership. In her letter she stated she would ship the eggs to Cisco to be sold under the usual regulations. To me this seems one of the best evidences of the fact that producers are appreciating the plans by which we are placing their products."

GINNING HAMPERED BY WATER SHORTAGE
 MEXIA, July 25.—Half of the 40 gins in Limestone county will not open for business this season on account of the lack of water, the Mungler Cotton Oil company, largest operator of gins in this district, has announced. Only gins on the railroad, where water can be hauled, will be operated. Oil engines have been installed in gins at Coolidge, Thornton, Kosse and Groesbeck and electric motors will be used if there is an emergency in the water situation in Mexia. Personville is the only section of Limestone county where there is sufficient rainfall to fill earthen reservoirs.

DAWES TAKES ROLE OF MOVIE DIRECTOR
 CHEYENNE, Wyo., July 25.—Vice President Dawes today assumed role of a motion picture director and momentarily directed the filming of "The Pony Express," a western picture at Julesburg, Wyo., a location four miles from here. Aided by an occasional word from James Cruze and Betty Compson, Mr. Dawes appeared to enjoy the experience, shouting "camera" like a veteran when the actual shooting of the scenes began.

SPUR—Ford service station being erected on Burlington avenue.

Valentino and artist Henry Clive discuss screen possibilities of Ruth Harkins, first winner in Smart Set's \$1,000 cover model contest.

Will Smart Set Cover Girl Be Valentino's Leading Lady?

WILL Ruth Harkins, 18-year-old small-town beauty who won a \$1,000 check and overnight fame as the first prize-winner in Smart Set's cover model contest, face the movie cameras as Rudolph Valentino's leading lady in the Great Lover's next screen production?

That is the question everyone is asking on Broadway and in the Hollywood studios.

The wise ones who started the rumor declare that "Rudy" was the first of the scores of managers and celebrities who rushed to congratulate smiling, black-bobbed Ruth as soon as Broadway learned that Flo Ziegfeld, Folies producer, had presented her with the \$1,000 prize on behalf of Smart Set.

The meeting took place in the beautiful studio where artist Henry Clive was busily draping Miss Harkins and posing her for the portrait in oils which will be used

as the cover of Smart Set's September issue. Valentino was so struck with the girlish charm of the contest winner that he stayed for more than an hour talking over her movie ambitions, and discussing her points of beauty with Mr. Clive. Meanwhile several other distinguished callers were cooling their heels in the artist's reception room.

Even envious ingenues who are plugging away these days at rehearsals for next season's shows admit that the lucky Connecticut girl stands more than an even chance of sharing the final fade-out with Rudolph in his next picture. There are some, however, who insist that he will offer a definite contract until he has had a glimpse of the next two winners in the Smart Set contest, which will bring into prominence other, obscure beauties who may have still greater possibilities for a screen career.

EARTH CAVE-IN TAKES DERRICK AND WELL TOOLS

SHREVEPORT, La., July 25.—A drilling accident without a parallel in the 20 years of Shreveport's oil history occurred in the Smackover field Thursday when derrick and drilling rig of the Gulf Refining company's No. 16 M. Alpin in section 11-16-15 sank suddenly into the ground. The crew was hard at work making hole when a preliminary shudder scared them off the location and they reached safety just in time to turn around and see their well sink into a suddenly developing cavity, and keep on sinking until the top of the warped derrick was about even with the surface.

There was no blowout, no explosion, no premonitory disturbance or any sort except the shaking of the ground under and immediately surrounding the derrick. It was, in brief, an earthquake confined to a spot with a radius of 50 feet or less. And now in place of a drilling well with prospects of good production in the Blossom sand, the Gulf's 16 M. Alpin in a hole in the ground resembling that left by a cratered gas well when the gas stops burning and the inevitable water has disappeared—just a great big hole in the ground empty except for what remains of a perfectly good drilling rig, rotary, draw works, pot, tools, everything. Incidentally the rig belonged to Geo. Barham.

Various theories and opinions have been advanced to account for the freak, but the one most generally accepted is that the rig happened to be directly over, or near a cavity in the quantities of sand being blown to the surface by a series of wild gassers, salt water holes and even successful

completions of which have made large quantities of sand.

There have been a number of such blowouts in this vicinity as well as elsewhere in Smackover during the three years that pool has been developed and it is believed that after such cavity was formed there was not sufficiently thick cap rock to hold indefinitely against the pressure from above. Also, it is argued that the several minor faults running through that country probably had something to do with the cave in, the only instance of the sort in this part of the oil country.

PARKER COUNTY FAIR SET FOR NOVEMBER
 WEATHERFORD, July 25.—At a meeting of the Parker County Fair

committee, held here, the annual position was set for the first week of November. The committee is composed of J. W. Richards, Fred Cotter, J. R. Fleming, C. M. Winstead, W. White and V. P. Craven. The Parker County Fair will have its own home this year and every effort will be made to make it the most successful fair to be held in this county.

HUNT COUNTY GETS STATE HIGHWAY AID
 GREENVILLE, July 25.—Claude Feller, Hunt county auditor, has received a check for \$93,211 from the state highway department to be used in completing the Caddo Mills and Commerce roads in Hunt county. This is a section of the Bankhead highway.

Tire Runs 35,000 Miles

Twelve years ago I bought a Hot Point Iron and we secured ten and one-half years of dependable service. But we decided to economize, and so bought an off brand iron at a small saving. Less than eighteen months unsatisfactory service sent us back to the Hot Point.

Thus, with Quality Tires. We have in our window a Michelin Tire bought September, 1921. Nearly four years constant service, running more than 35,000 miles, has convinced the owner that buying Michelin Quality Tires is the best economy.

Only 4 More Federals to Close Our Campaign

We announced the arrival of a solid car of Federal Electric Washers, about two weeks ago, and which were to be sold in this district, the greater number to be placed in Cisco

This is the largest shipment of washers ever billed for this territory, but with a machine like the Federal, with its gas heater attached, which keeps the water boiling hot, and the handy twin tubs that removes all labor of lifting water, they have sold almost everywhere demonstrated. Then the liberal terms of—

A Few Dollars Down and Easy Payments

have turned the trick. If you have not had a demonstration of how easily it cleans the clothes without any labor on your part phone us for a free demonstration tomorrow and we will show you how to wash and really enjoy the process. Sounds strange, but a trial will convince you. No more killing, back-breaking rubbing that puts you in bed the remainder of the week.

Spend-the-Day Party
Mrs. Elizabeth Brownlee of El Paso, and Mrs. Annie Carradine of Memphis, Tenn., were delightfully entertained at the home of Mrs. S. E. Hittson Friday, when a number of friends gave a spend-the-day party. Cut flowers decorated the living room, where a pleasant hour was spent in conversation, preceding the serving of the 3-course luncheon.

Covers were laid for twelve and novel hand-painted cards assisted the guests in finding their places. Bridge and 42 furnished the diversion during the afternoon and the series of games played proved unusually enjoyable. At a late hour refreshments of sherbet and cake were served. Those sharing in the pleasures were Mesdames Elizabeth Brownlee, Annie Carradine, R. Q. Lee, J. J. Butts, J. W. Maneill, S. E. Hittson, J. T. Berry, J. B. Cate, Carl Pitton, Frank Logan, Leon Maner, C. Owen.

Baptist W. M. U.
Circle 1 of the Baptist W. M. U. was hostess to the other circles Tuesday afternoon at the home of Mrs. G. M. Stephenson. The following entertaining program was given: Hymn; devotional; the report of the sick church members; "The purpose of the missionary schools," Mrs. James Hayes; "The christian training ground," Mrs. Eugene Lankford; "Heavenly things in Japan," Mrs. H. L. Kunkle; "Missionary training in South America," Mrs. L. A. White; "The making of an evangelist in Mexico," Mrs. W. H. La Roque; piano solo, Miss Mattie Lee Kunkle; reading, Miss Irene White; vocal solo, Miss Marie Glenn. Terminating
