Stock Exchanges Order Curtailment of Trading Session

PERIOD TO BE SHORTENED TO 3 HOURS DAILY

NEW YORK, July 22.—The New York stock exchange will curtail its trading session from five to three hours daily beginning Monday, it was announced today.

CHICAGO EXCHANGE FOLLOWS SUIT

CHICAGO, July 22.—The Chicago stock exchange today ordered a reduction in hours of trading from five to three hours in line with action by New York stock exchange governors.

SMART RECOVERY FOLLOWS FAST SELLING

NEW YORK, July 22.—Highly erratic price movements prevailed on the stock exchange in the short session today in volume that ran at times at a 4,000,000 share rate.

32 in Eastland Co. Short Course Party

Among those who are due to leave this morning for College Station and the annual A. & M. college short course are R. A. Latham and John Schrader, of near Cisco. John Gerhardt and J. B. Eberhart, of south of Cisco, will also accompany the party which leaves from the court house at Eastland at 7 a. m. today.

Red Sox Take First Go From Universal

Cisco's Red Sox took the first of a three-game series from the Universal Mills team of Fort Worth at Chesley park here yesterday afternoon by a 3 to 2 score.

THREE GUESSES

ANSWERS ON PAGE FIVE

Circling Globe in Finn-ish Flight

More than half way round the world on a globe-circling air-and-sea trip, is Capt. Vaino Bremer, Finnish flier, shown in the cockpit of his small plane on arriving in Washington, D. C. From Finland he flew to Tokyo, and then crossed by boat to San Francisco.

FEDERAL FUND TO TEXAS WILL EMPLOY 23,000

HOUSTON, July 22.—On the basis outlined for the federal public works program, 23,000 Texans can be employed for one year by the \$24,500,000 highway building allotment to this state, the Texas Good Roads association pointed out in a statement today.

Repealists Leading In Oregon Voting

FORTLAND, Ore., July 22.—Repealists maintained a consistent lead over prohibition forces early today as returns from yesterday's election of delegates to the state convention that will consider ratification of the 21st amendment, were slowly tabulated.

AGREEMENT ON SILVER SIGNED BY 9 NATIONS

LONDON, July 22.—Nine nations, producers of silver or holders of silver bullion, signed a four-year silver control agreement at a secret meeting late today in the suite of Senator Pittman, Dem.-Nev., American silver expert at the world economic conference.

Cannery Open Hours Restricted

The Cisco community cannery heretofore will be open only during afternoons each Tuesday and Friday, E. H. Varnell announced Saturday. Dry weather and the smaller volume of vegetables for canning makes this change advisable, said Mr. Varnell. The plant will open about 1 o'clock on those afternoons.

STATE SENATE PROBERS WILL MEET MONDAY

AUSTIN, July 22.—A senate committee of seven members, empowered to investigate fee graft, tax delinquencies, and the expenditure of public funds by any state department, will convene in Austin next Monday.

Post Takes Off On Final Leg of Flight

EDMONTON, Alberta, July 22.—Wily Post shot his monoplane, Winnie Mae, eastward from Edmonton today on one long and final flight for New York—and a new record in his journey around the world.

Judge Proves Egg Would Fry on Walk

EL PASO, July 22.—Judge W. D. Howe, 34th district court, turned scientist here on the hottest day of the season to prove that an egg can be fried on the sidewalk.

EXEMPTION TO MEAN \$38,500 TO EASTLAND CO.

AUSTIN, July 23.—Homeowners of Eastland county will be saved \$38,500 in state taxes during 1934, by operation of the homestead exemption amendment to the state constitution.

'Flying Sweethearts' Hop for America

JENDINE SANDS, Wales, July 22.—James and Amy Mollison, the flying sweethearts, took off at 11:59 a. m. today (4:59 a. m. CST) in their airplane for New York.

REJUVENATED STATUE MONTPELLIER, Vt.

One of Ethan Allen's hands has been amputated and replaced. This was the first step taken by Alando Bardi, sculptor, in rejuvenating the weather-beaten statue of the famed patriot, which was erected here in 1861.

After Ocean Liner Crashed with Tanker

Bound for Germany with 60 passengers on board, the City of Baltimore, flagship of the Baltimore Mail Line, got only as far as Chesapeake Bay when she collided in broad daylight with the tanker Beacon. The passengers removed safely, the liner is pictured after the crash with a jagged hole, 60 feet long, ripped in her starboard bow.

PASTOR BEGINS FOURTH YEAR WITH LOCAL CHURCH TODAY

The church has raised and disbursed \$29,000 during the last three years, which, considering the depression, has given the pastor reason to feel proud of the generosity of his membership.

COX, CAMPBELL TEST NEAR R. S. LOOKING GOOD

RIISING STAR, July 22.—Prospects look good for Rising Star to have another back door oil pool as result of bringing Cox & Campbell No. 1 in the hands of a committee headed by Rigidon Edwards, local service station manager of the company.

Young Roosevelt and Miss Googins Marry

BURLINGTON, Ia., July 22.—In the romantic setting of a flower garden over-looking the Mississippi, Elliott Roosevelt, second son of the president, and Miss Ruth Googins, Fort Worth society girl, were married here at 6 p. m. today.

Gulf Coast Warned Of Tropical Storm

WASHINGTON, July 22.—The weather bureau today warned of a gulf disturbance of slight to moderate intensity centering about 150 miles south of Galveston and moving northeastward at about 11 miles per hour.

Opinion Holds Beer Act Valid

AUSTIN, July 22.—Validity of Texas' beer enabling act taxing and regulating beer sales enacted by a legislature anticipating legalization of the brew August 26, today was upheld in an opinion prepared by First Assistant Att.-Gen. Elbert Hooper.

500 HERE FOR MAGNOLIA CO. ANNUAL PICNIC

More than 500 officials and employees of the Magnolia Petroleum company were here yesterday for the second annual picnic for the Fort Worth district of the retail sales department at Lake Cisco.

President's Son And Second Bride

In a ceremony at Burlington, Iowa, Saturday Miss Ruth Googins, above, Fort Worth heiress, became the bride of Elliott Roosevelt, below, second son of the president. The first wife of young Roosevelt, the former Elizabeth Browning Donner, recently obtained a decree of divorce.

EXPECT TO PUT SIX MILLIONS BACK TO WORK

WASHINGTON, July 22.—President Roosevelt's re-employment drive surged forward today on a wave of enthusiastic support from all parts of the country.

TO DRAFT PRONOUNCEMENT DURING WEEK-END CRUISE

WASHINGTON, July 22.—President Roosevelt today planned a week-end cruise down the Potomac river during which time he was expected to draft the text of what his advisers said would be one of the most important public pronouncements he had made since entering the white house.

Romney Delegates to Attend Short Course

Romney will be represented at the A. and M. short course this week by Miss Jewel Maples, delegate from the women's club; Miss Nellie Irene Sloan, delegate from the girls 4-H club; and Miss Elizabeth McCracken, sponsor for the 4-H club.

AFFIDAVITS ON OIL SHIPMENTS TO BE CHANGED

AUSTIN, July 22.—Professor J. H. Marshall and Dr. Norman Meyers, east Texas agents for Sec'y of Interior Ickes, returned to the east Texas oil field today after raising the specter of jail bars as a warning to perjuring oil producers and transporters.

WEATHER

West Texas—Partly cloudy Sunday. Probably thundershowers in extreme west portion of state and East Texas—Cloudy with rain in south and central portions Sunday.

SPECULATION OR COOPERATION?

gyrations of the stock market over the past few days have thrown a damper on public enthusiasm, generally speaking. Some, of course, are prone to take a pessimistic view, especially if their financial interests are involved, but there are others who assert that this pessimism has been healthfully injected at this stage of the game. A stock market in the grip of a speculative influence can work havoc with the recovery program and any process or development that tends to force it into a proper relationship with actual values tends to make firmer the whole process of recovery. The administration is wise in leaving stock speculators to their own troubles while concentrating efforts on preserving a fair price level for producers of farm products. The thing that will make or ruin the recovery program is the success or failure of the administration to restore purchasing power by enabling farmers to sell their products at fair prices and by putting more men to work at higher wage volume. To the extent that market operations affect farm commodity prices a firm hand will be exercised from Washington, but to the extent that it involves speculators in difficulties the president intends to let matters take their course. At least so is interpreted the attitude of the administration as reflected in press accounts. Once a solid foundation is laid the stock market will take care of itself. It will be remembered that the market explosion of 1929 was preceded by several seasons of low farm commodity prices and extensive agricultural difficulties throughout the nation. Cotton and wheat were bringing prices abnormally low in relation to other price schedules and the deteriorating influence of such conditions was eventually bound to find climax in a market that had whirled upward far beyond expectations of real profit.

Comments of New York financial writers on the week's slump are illuminating:

The New York Tribune observes four significant factors: Tightening of lines on speculative credit, which gave a push to the pyramid price structure; a vulnerable position of the market, honeycombed with weak speculative accounts; sudden increase in dollar value as compared with British sterling, and a warning by General Hugh Johnson that unless wages are boosted to bring purchasing power up to the level of rising prices a domestic crisis impends.

The New York American comments that "The plain fact is that the public had engaged in a wild gambling spree which weeks ago had exceeded reasonableness." It adds that the situation had become as dangerous in commodities as in stocks "for the public was engaging in a mad gambling orgy which was bound sooner or later to bring violent repercussions."

The New York Times suggests that the reaction was long-over-due. To its mind the slump was no more than what normally follows a period of speculative over-extension, and it adds that traders are now inclined to look for a more normal trading.

The public will do well to pay less attention to what happens on the stock market and more attention to sensible cooperation with the Roosevelt program for putting men to work and stabilizing profitable prices for what the farmer has to sell. It is just another version of the question that we should already be prepared to answer—Are we going to speculate our way to prosperity or work our way to that end? Too many of us are seeking to profit at somebody else's expense.

A HERO OR A FOOL.

The popular conception of a "stunt" flier, as well as others of spirit equally daring in fields of human exploit that are still open to pioneering adventure, makes him a hero if he does and a fool if he doesn't. However, general press opinion of James Mattern's ill-fated venture finds plenty of occasion to shower praise upon the intrepid young Texan whose remark, as he started upon his attempt to be the first to fly solo around the world, that "there's no chance of coming out of this world alive anyway" rather aptly describes his character. By some commentators Mattern and his kind are described as modern prototypes of Columbus and Magellan whose own eras regarded them in much the same light that the present century looks upon the daring of these winged precursors of a new day. His indomitable courage and his resourcefulness in extremity are roundly praised as indicating the spirit that pushes ahead of the conservative and ordinary to find new paths for human advance and achievement. Criticism of such as he as fool-hardy represents a short-sighted view, says one paper. It is just such "fool-hardy" adventures that objectify human initiative.

It takes genuine courage to endure the reproach of failure in a great undertaking, a great deal more courage than the prospect of physical disaster in that undertaking. Mattern has twice failed in his object, but the fact that he was willing to attempt the same thing after the first failure testifies to the sort of spirit that Texas can well be proud of. Such as he look upon obstacles as something to be overcome and not to deter, and it is just that sort of positive outlook that is essential to any notable achievement in any line of human endeavor. More power to his kind.

LYNN SUBMITS HOT REPORT.

State Auditor Moore Lynn has submitted a very aggressive report to Gov. Miriam A. Ferguson "on occupation taxes, oil production and natural gas." His report covers a lot of territory. It states that a great amount of taxes is lost to the state because of failure to require correct valuations of natural gas for taxation purposes. Furthermore, that in two important counties there were wide variations in valuation of natural gas and casing-head gas reported for taxation. For instance, "in one county the highest price reported for natural gas was one and one-half times greater than the lowest price reported and the highest price for casing-head gas was 14 times greater than the lowest price." He stressed losses in taxes that had not been collected on imports of natural gas from other states. He reminded the chief magistrate as well as the people of Texas, that additional gross receipt taxes from this source alone should amount to over \$100,000.

It Might Be a Little Confusing at First

cape from the horror descending upon them.

The tunnel was too narrow for three or four wolves to pass the car, so they leaped high to clear the projectile hurling itself at them. The passengers, unaware of what was happening, were to be taken as hurdles, though, and were literally mowed down and scattered along the track, while the wolves rushed to safety in the open and the car coasted on to the bottom of the mine.

"We were almost as scared as the wolves were," Cooper finished, "and got out as soon as we could get to our feet. And that was the last time I was run over by wolves."

Texas Topics
By RAYMOND BROOKS

AUSTIN, July 22 — Texas seems now to be up to the point of substantial economic relief in the form of created employment on at least three fronts.

These are the public works program sponsored by the federal and state authorities, now apparently ready to start; the highway construction program with federal emergency money that will get under way early in August; and the cotton-picking program wherein money will flow for the first time for destructive labor.

Besides this improvement form of relief, the state is assured a comprehensive plan of relief from foreclosures on homes, and the return of homes to those who would own them.

The government, in its liberal

home loan and home owners loan corporation policies, apparently has put a finger on one of the most vital spots of national welfare—the will to own homes.

State and national, the courts have assumed from the beginning the inherent authority, nowhere conferred by the constitution, to review the acts of a legislature and to sustain or nullify the acts of a legislature.

Nationally, economists long have pointed out this vitiated public policy expressed in the will of a people and embodied in the laws of the nation.

Lack of the constitutional authority has not deterred courts from striking down laws; but an affirmative bar in the constitution would do so.

Under the present state of affairs, there is but one final sovereignty, and in Texas that rests in three men. The governor is a policeman, the legislature a class in cross-word puzzles so far as final authority goes.

In this the Texas court is, firmly planted on uniform judicial policy of the state and nation.

Texas probably has as fine and able and non-political a supreme court as exists in any state but Texas is not stopped from amending its constitution to say that the legislature wrung by the needs of a people and created by the majority will of an enlightened people small stand so far as state tribunals are concerned.

"Humaneness — was there ever a time in the history of our country when a general exercise of this most desirable quality was more necessary? The need for it touches and permeates almost every human contact. In these troublous times when the whole order of things seems so out-of-joint and readjustment, more or less excruciating, is the order of the day.

"The high degree of courage shown by our president has pointed the way to recovery and a better understanding, and it is heartening to note now in many directions indications that we are on the upward path at last; that business and industry are at least struggling with incipient action instead of being supine and inert grumbling inaction but seeing no way out, and it behooves each and every one of us to make a conscientious and sustained effort to accentuate this movement in every way possible, whether it be by participation financially or industrially or just by keeping our chins up and fighting through."

Did You Ever Stop to Think?
By EDSON R. WAITE
Shawnee, Oklahoma.

General Frank T. Hines, U. S. administrator of veterans affairs, says:

Although the old adage "misery loves company" is often suggested as a form of consolation, the contemplation of the misery of others can never serve as a panacea for our own.

Old Mines Leave Tales of Burning Shaft and Wolf Stampede

EDITOR'S NOTE: This is the first of a series of stories on the old mines about Cisco. Others will follow.

By FRANK LANGSTON

Dean E. B. Isaacs of Randolph college stirred up a little excitement and a great deal of speculation last winter by stumbling into the smoking remains of a long abandoned coal mine north of Cisco. He was walking across the old dump one day, not knowing that a smoldering furnace lay beneath his feet, when the crust gave way and he dropped knee deep into hot ashes.

Curiosity burned more strongly than the ashes, however, and old settlers in this part of the country immediately underwent a quizzing as to the history of the mine. During the questioning it developed that many of them knew of the burning mine and had often seen the smoke from it during the last 30 or 40 years.

A mile from town, the mine lies between Randolph college and the Twin Lakes and during its period of operation was known as the McDonald mine. The old tunnels extended perhaps a half a mile back into the hill, where the college is now located.

Set Stick Afire

After the dean's story got out to the public, people began to visit the mine to see if it actually did smoke, or if it were only a burning trash heap on the mine site. Thrill hunters and curiosity seekers invariably stepped on what appeared to be solid shale, and just as often found that the dean had been right, although some burned only their feet and ankles. Picnickers who wanted something different to add to their outings planned to have them near the mine site. Small boys poked at the heap, too, and one man proudly announced that his son, digging into the hot mass, had set a stick afire. When the college had its annual homecoming day many of the graduates and townpeople walked on over the hill to take a look at the mine.

There was little to see, however, except the smoke and the old dump, for the entrance and the shafts are covered up. According to one tale, the last man who knew the location of the tunnel entrances is dead. An old settler insisted that this is not true. "I know where that entrance is," he said. The earth has caved about it, though, until its whereabouts can only be approximated.

Through the Editor's Spectacles
By GEORGE

'Texas' famous "gin marriage law," intended to prevent weddings of haste for leisurely repenting, will join the dodo September 1 of the instant year. Why the summary edict should be called the "gin marriage" law, I do not know, except that it is due, perhaps, to a perverse habit of human nature to brand a thing with that which occasions its presence. More in keeping with its purpose it should have been dubbed the "anti-gin marriage law" because its purpose was to elevate the general level of marriage morality by keeping gin out of the romance. Of course we've got prohibition, but some folk don't appear to have heard anything about that.

The law worked all right in Texas but the trouble was that Oklahoma, Kansas, Arkansas and Louisiana clerks didn't seem to recognize Tex-cas' authority over its own citizens. As long as a couple had to travel a couple of hundred miles to get to a county clerk and a justice of the peace who weren't so particular about whom they married, there was a chance they'd have time to sober up sufficiently to realize their incompatibilities, but when the ride was just over the border the Texas clerks and marrying officialdom lost money and the divorce courts went on doing business just the same. There was another reason the law wouldn't work and that is the fact that when a couple of opposite sexes take a sudden notion they want to be married they don't want any red tape about it. They want to get married.

Of course, if Bill Murray over in Oklahoma, had passed such a law he could handle the situation, all right. He'd simply call on his corporate guard and give the neighbors a sound licking for being so morally inconsistent. If he couldn't do that the alalfa-thatched gubernator would probably plow up the approaches to all the bridges so that the mooning prospects for matrimony would be bounced out of romance into realism and decide to keep their money where they made it.

of the two mines where the dam of one of the lakes now is. No trace of it can now be seen.

For a long time after the mines were abandoned they were left open. They presented the appearance of caves and animals used to den up in them.

"That biggest One mine?" began Floyd Cooper, an old timer who is always ready with a good yarn. "Sure, I know all about it. I killed a wolf there once. A big one. He was standing in the entrance and didn't see me till I was ready to shoot."

Waxing more reminiscent, he went on: "When they left the mines they didn't take away the rails or the old mule cars—I've still got one of the nails that came from the track."

Ride in Dark

One Sunday afternoon years ago a crowd of young people looking for a new kind of thrill, went to the larger of the mines and decided to take a ride in it. Placing a car on the track, they climbed aboard and started down the slight incline into the darkness. "We had some candles," Cooper said, "but of course they blew out when we had gone a few feet."

The wolves living in the mine heard the noise at the entrance and became panic stricken. As the rumbling increased and came nearer they made a break for the open. The only way out was through the tunnel where the car was coming, but, thoroughly frightened, the wolves gave no heed to anything but es-

cape from the horror descending upon them.

The tunnel was too narrow for three or four wolves to pass the car, so they leaped high to clear the projectile hurling itself at them. The passengers, unaware of what was happening, were to be taken as hurdles, though, and were literally mowed down and scattered along the track, while the wolves rushed to safety in the open and the car coasted on to the bottom of the mine.

"We were almost as scared as the wolves were," Cooper finished, "and got out as soon as we could get to our feet. And that was the last time I was run over by wolves."

BEGIN HERE TODAY

ELINOR STAFFORD, 20, falls in love with BARRETT COLVIN, 35, but her jealous, scheming mother, LIDA STAFFORD, breaks up the romance by convincing Barrett that Elinor is a fortune teller. When Elinor's aunt, wealthy Mrs. ELLA SEXTON, dies, she leaves her fortune to Barrett. Then drunken VANCE CARTER shoots BENTWELL STAFFORD, Elinor's father. Barrett tells Elinor that if she will marry him and live in his home as a guest for a year he will give her the entire Stafford fortune to divide among her relatives. Knowing the money may save her father's life, Elinor agrees.

The marriage takes place. Barrett, in spite of the lies Lida has told him, finds himself more in love with Elinor than ever. He has a ward, nine-year-old GERARD MOORE, who is the son of his half-sister, MARIA RADNOR. Barrett has promised Maria never to reveal the boy's true story.

The doctor orders a change of climate for Elinor's father and she goes with Barrett to Aiken. Lida asks Barrett for \$30,000. When he refuses she puts detective on his trail. Barrett visits his wife, Lida concludes the boy is Barrett's son.

Barrett pays an unannounced visit to Aiken. He finds BOB FLEHARE there and suspects Elinor of carrying on a flirtation with Bob.

NOW GO ON WITH THE STORY CHAPTER XXXVI

"WHAT attractive cups," Barrett commented, glancing at the tray.

Elinor nodded. "Everything here is attractive. I understand the owners haven't much money but they certainly have excellent taste. It's a darling house. I love it!"

"It's for sale, Elinor. Just as it is—furnished. May I buy it for you?" Barrett asked earnestly. She looked startled, raising her face to his.

"I'd like to leave something with you that will make you remember me," he said wistfully. "I should think you could let me do that—if you leave me. Let me get it any way and you can decide later about keeping it. Will you, dear?"

He had said, "If you leave me—" She thought churning in Elinor's heart and set her pulsing. Then he had thought she might not leave him!

"You're very kind—" she whispered.

"Not a bit of it!" He drew his hand away, moistened his lips and sat back away from her. He was going soft again, he warned himself.

"How about the house?" he questioned after a silence as she set her cup on the tray.

"I'm tempted," she admitted. "They even have the books I like on the shelves. Could you buy the books too?" she finished sagely.

"I should think so. I understand the house is offered just as it is."

It was offered as the result of another domestic tragedy, he knew, but he didn't want Elinor to know that. It might change her feeling for the place a bit. Later she played for him softly, so that the piano could not be heard in the wing where Bentwell Stafford slept. Finally, resolving to "get it over," Barrett suggested that they go to the terrace. He laid a light wrap about her shoulders, remonstrated that it wouldn't keep her warm. She answered, as women always do, that it was very warm and they stepped across the window-sill into the night.

RAIN was coming and big, billowing clouds raced across the moon. Now the terrace was bathed in silver; now black. The lights of the village pricked the ebon curtain to the north. The soft stir was in the air that comes before a tempestuous, southern downpour. Leaves trembled, and somewhere a shutter swung. From the nearest house a half acre away, came the hushed strains of the latest, sentimentally appealing waltz. Some blossoms proclaimed themselves and the fact that the moon had been hot by losing a heavy, sweet odor.

Barrett wanted to be beyond reach of the house, beyond a point where a keenly listening ear could catch even so much as a chance phrase. Drawing her arm through his, he led her to a balustrade that guarded a terrace on a dramatically beautiful drop.

"This is a charming place," he murmured a trifle thickly as she withdrew her arm.

"Yes—"

He leaned against the balustrade against which she too, was leaning. He found it difficult to begin.

"Cigarette?" he asked.

"No, thank you."

"No, thank you," she said as he held a lighter with a wind guard to his cigarette. Something had made him rather nervous, she saw. Long lines were pulled at the sides of his lips, which were stiff, yet uneasy.

"How long can you stay?" she asked.

"As long as you want me to," he answered. He snapped the lighter shut; slipped it into a pocket. She felt that his eyebrows were drawn close although just then the moon was kept from shedding light by a dense bank of clouds.

Was he already regretting his gentleness, she wondered. A keen-bladed knife seemed plunged into her heart and drawn slowly out again as she considered the question.

"I want you to stay as long as you want to," she said with a coolness of which she was proud. "I want from you only what you can give—without regret."

"I shall regret giving you nothing," he said quickly, "if you will remember our bargain."

"What bargain, Barrett?"

"We agreed, you remember, that either was to indulge in a flirtation during this year."

"But, Barrett, I never have." She answered, "I couldn't—I never did—before our marriage."

He heard her moving in the adjoining room as she sank back in a low chair. He did not sleep and knew she did not. He saw the light in her room go on at three, printing a slit of yellow beneath the door. The light remained there for two hours.

Elinor lay perfectly quiet. If Barrett had loved her how she would have welcomed that moment! But he had said only that he understood her and her affairs. She would have trusted him anywhere! He could believe as he liked. He had had the chance to know her. Never would she say a word to defend herself. What would be the use? She had denied her guilt and he had laughed at her denial.

The night was endless. She looked at a small clock that ticked merrily beside her bed. The hands pointed at half past four.

TESTS SUPPORT REGULAR HOPS ACROSS OCEAN

BERLIN, July 22—Regular air-service from Europe to South America is feasible, the authorities of the German Luftflotte are convinced. They are determined to inaugurate such a service as soon as possible. Their conviction is based on the tests conducted during June, with the former North German Lloyd steamer "Westfalen" as a floating aerodrome in mid-Atlantic.

The trial flights, including the landing on and the taking off from the "Westfalen," proved successful, and no further tests are necessary, to establish the feasibility of a regular air-service across the South Atlantic. When this service actually will begin, the company, however, is unwilling to reveal. Nevertheless, it will be late in the autumn at the earliest.

At present, the "Westfalen" is on her way home in order to refuel and provision the ship for a prolonged stay in the South Atlantic. While in her home port, the "Westfalen" also will undergo some minor repairs and changes of equipment, which it was found were advisable.

During the tests one complete crossing, with intermediary landing on the "Westfalen," was made from Natal to Bathurst. The time for this flight (including the time spent aboard the "Westfalen") was 33 hours.

Sunday Services at The Churches

HOLY ROSARY CHURCH

Mass today will be at 7 a. m. by Rev. F. Ruano. This is the seventh Sunday after Pentecost and the gospel reading today is taken from St. Matthew VIII, 15-21. In this gospel read today is taken from St. prophecies and and false teachers for the tree is known by the fruit. We cannot get to heaven unless we do the will of God.

CHURCH OF GOD

Sunday school 9:45. General services 11 a. m. Rev. Moad's subject will be "The Identical Church." Young Folks' meeting 7 p. m. At 10 o'clock service the young people will present a two act drama entitled "Janey," a story of a young mountaineer girl. Everyone cordially invited to attend each service. — C. S. MOAD, Pastor.

FIRST METHODIST CHURCH

Sunday school at 9:30 S. H. Nance Supt. Preaching by the pastor at 10:30 a. m. subject: "On the Verge of the Precipice." Sunday will be "Dollar Day" at the church and all members are asked to bring a dollar. There will be special music at the morning hour with Misses Faye Clark and Vivian Kilpatrick singing a duet. The young people will have charge of the evening service, Calhoun Anderson leading. A special number will be a clarinet trio with Misses Betty Eida Clark, Louelyn Clark and Evelyn Collum playing, accompanied by G. W. Collum. The evening service will begin at 8:15—O. O. ODOM, Pastor.

FIRST BAPTIST CHURCH

Today marks the beginning of the pastor's fourth year here. The Sunday school for the day is 457 and the B. T. S. goal 125. The pastor will preach on "Possessing the Land" at the morning service and "Abie, Willing and Ready" in the evening. There will be a mixed quartet composed of Mrs. Bob Key, Mrs. P. L. Ulm, S. E. Hittson, and Frank Walker at the morning hour and a solo by Madeline Ely at evening service. — E. S. JAMES, Pastor.

GRACE LUTHERN CHURCH

Sunday school and Bible class at 9:30 a. m. Divine services at 10:30 a. m. will be conducted in the German language. The sermon at 8 p. m. will be based on the theme: "The Three-fold Use of the Law." All are invited. — E. H. RIESE, Pastor.

CHRISTIAN SCIENCE CHURCH

"Truth" is the subject of the lesson-sermon in all Churches of Christ. Scientist, Sunday, July 23. The golden text is from Psalms: 100: "The Lord is good; his mercy is everlasting; and his truth endureth to all generations." Passages comprising the lesson-sermon include the following from Zechariah 8: "These are the things that ye shall do; speak ye every man the truth to his neighbor; execute the judgment of truth and peace in your gates." The lesson-sermon also includes the following from the citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy; "The best sermon ever preached is Truth practiced and demonstrated by the destruction of sin, sickness, and death. "We cannot build safely on false foundations. Truth makes a new creature, in whom old things pass away and all things are become new." Passions, selfishness, false appetites, hatred, fear, all sensuality, yield to spirituality, and the

super abundance of being is on the side of God, good. "We cannot fill vessels already full. They must first be emptied . . . The way to extract error from mortal mind is to pour in truth through flood-tides of Love. Christian perfection is won on no other basis" (p. 201).

FIRST PRESBYTERIAN CHURCH

Sunday school at 9:45, E. P. Crawford, superintendent; morning worship at 11 o'clock, young people's meeting at 7 p. m.; evening services at 8. Music for the evening services during the entire summer will be furnished by the young people. — J. STUART PEARCE, Pastor.

Modernism Featured in Gulf Display

MODERNISM IS FEATURED at Chicago's "A Century of Progress." A striking example is found in the five amazing micarta murals depicting, symbolically, progressive steps in the career of gasolines and motor oils at the Gulf Refining Company's "all-action" exhibit. Micarta is made by a secret formula in which the glowing, marble-like effects are created with the help of dyed aluminum sheets.

works and highway funds; that if Texas fails to manifest an interest in the relief of its destitute, the federal government will not.

terms of the license thus imposed upon him.

Services to Be Held At City Hall at 11

The Rev. Woodie W. Hill, Fundamental Baptist minister, of Big Spring, now conducting a revival meeting here, will preach at the city hall auditorium this morning at 11 o'clock on the subject, "Preach the Word." All who do not attend services at other churches are invited. The evening service will be held on the lot at the corner of Thirteenth street and E avenue with song service beginning at 8:30 a. m. and preaching at 8.

Nimrod Baptists to Have 10-Day Revival

The Nimrod Baptist church began a ten-day revival meeting Friday evening. The Rev. Dick O'Brien, pastor of the First Baptist church of Colorado, Texas, will do the preaching. The Rev. M. L. Agnew is pastor of the Nimrod church.

CLAIMS SMALLEST BUSH

REDDEST TO GET PRIZE

DELAKE, Ore., July 22—Something new in community celebrations Redhead's Roundup—will be held here August 13. A prize will be given to the person with the reddest hair.

WATCH FOUND

VANCOUVER, B. C., July 22—A pocket watch stolen in 1911 in Edmonton was located here in a pawn shop, 22 years afterward, by the Vancouver police second-hand department.

UNDER THE DOME AT AUSTIN

By VERNON A. MCGEE
United Press Staff Correspondent
(Substituting for Gordon K. Shearer on vacation.)

AUSTIN, July 22—The "Big Stick" of the federal government has passed like a wand over Texas politics leaving converts to a \$20,000,000 state bond issue for relief in its trail.

From the federal relief faucet has trickled nearly \$1,500,000 a month into Texas for the care of 1,272,000 jobless, hungry persons.

Federal Administrator Harry Hopkins has promised to turn off the tap unless Texas moves to help itself.

Federal Relief Director Lawrence Westbrook and Former Gov. James E. Ferguson personally, heard the promise, and returned from Washington to urge the state's approval August 26 of the constitutional amendment to authorize issuance of bonds over a period of two years in an amount to exceed \$20,000,000 for the emergency.

Person who winked when the legislature placed the bond issue on the August 26 ballot, believing destitution would be over by the time voters went to the polls, now are joining hands with Westbrook and Ferguson.

The federal government's "Big Stick" was not, however, waved over Texas with a threatening gesture.

The only logical conclusion Relief Administrator Hopkins could draw from this state's refusal to pass the bond issue would be that counties and cities believed themselves capable of caring for the relief burden, and that federal funds no longer were necessary.

"We're not pessimistic, just realistic," declared vigorous Colonel Westbrook in commenting on the necessity of passing the relief bond issue. "We are conscious of an acute problem that will become more acute if we fail to pass the bond issue."

John Citizen may desire to know why the state should be saddled with a bond issue when Texas is to be given \$24,500,000 federal highway aid for unemployment relief, and \$20,000,000 for public works to provide jobs.

Relief Director Westbrook will reply the drouth has magnified the needs of struggling families, that the picture of destitution in Texas may grow darker with the approach of winter.

It is even hinted in Austin that failure to approve the bond issue will affect adversely the federal government's distribution of public

CISCO MOTOR SUPPLY

Until we learned better, we used to mix wood and steel in our car bodies and wheels.

It was the best way to make bodies—then. But the state of the art has advanced.

Of course, it is more expensive to make an all-steel body than to make a wooden frame and nail steel panels on to it. The better way involves an initial expenditure of several millions of dollars for new dies, which renders a change very costly. Cars, especially large expensive cars which are produced in small volume, cannot afford this, because the dies cost as much for one car as for a million. That alone explains why all-steel bodies are not used in all cars.

But our basic policy from the beginning is to make a good car better, regardless of cost.

For example, when we discarded wood-steel body construction, it was not because we lacked wood. We still have some thousands of acres of the best hard wood in America. Economy would urge us to use up the wood first, and then adopt the better all-steel body. But we decided that quality was more important than expense.

We weighed the reasons, for and against, before we made the change.

We could see only one reason for retaining a mixed wood-and-steel body—nailing the metal on, instead of welding an all-steel body into a strong one-piece whole. That reason was, it would be cheaper—for us.

Our reasons for adopting an all-steel body were these: A wood-steel body is not much stronger structurally than its wooden frame. In all American climates, wood construction weakens with age. Every used car lot gives evidence of this. Rain seeps in between joints and the wood decays. A car may have a metal surface, and yet not be of steel construction. Under extreme shock or stress the steel body remains intact—dented perhaps, but not crushed.

Steel does not need wood for strength or protection. Wood is fine for furniture, but not for the high speed vehicles of 1933.

In the Ford body there are no joints to squeak, no seams to crack or leak.

The all-steel body is more expensive—to us, but not to you.

By all odds, then, steel bodies seem preferable.

Wheels also have become all-steel. No one argues that an electrically welded one-piece steel wheel, such as the Ford wheel, needs to be "strengthened" by adding wood to it.

The one-piece all-steel body is the strongest, safest, quietest, most durable body made. That is our only reason for making them.

Henry Ford
Dearborn, Mich.

Al Williams Will Describe Balbo Feat

With all America thrilling over the daring achievement of General Italo Balbo and his Italian air armada, Captain Al Williams and Ted Husing will collaborate in giving Sunday's radio listeners a vivid description of the arrival in New York city, over the Columbia broadcasting system. The noted American flyer is particularly competent to offer his version of the sensational event since he officially welcomed the Mussolini sky fleet in his famous Curtiss Hawk over Manhattan Island.

This program will be a sustaining fifteen minutes over a national network. Ted Husing will ask questions and Captain Al Williams will answer. In addition, Al Williams, who has held the world's air speed record for eight consecutive years, will give a brief story of his sensations at the time of the arrival.

This program will be a follow-up of the 15 minutes devoted by the Columbia broadcasting system to the arrival of the Italian trans-Atlantic air fleet of twenty-four sea-planes, last Wednesday. On this occasion, Captain Al Williams was introduced to the radio audience as the "man who welcomed and flew in with General Balbo." Mention also was made of the fact that the holder of the Distinguished Flying Cross is now manager of aviation sales for the Gulf Refining company.

WHAT IS A VACATION?

Every year there is a break in the regular routine of daily work—this we call a vacation. To most of us it is a wonderful chance to "get away"—to rest—to relax and forget about the worries of everyday life. If you want that experience, if you want this vacation to be the most enjoyable and worthwhile you ever had, come this year to the CRAZY WATER HOTEL, Mineral Wells, Texas.

Incidentally, this year the rates are the lowest in history.

Please send me free of charge full particulars concerning a health vacation at the CRAZY WATER HOTEL. It is understood that I will not be obligated by this request.

UP the Beanstalk

WHEN Jack climbed the beanstalk, he got a new conception of his needs. No longer would just a hen do, but a golden-egg hen. No longer just a harp, but one that stood by itself and played. He didn't know what he wanted till he saw something better than what he had . . . though he labored hand over hand to get hold of that point of view.

Advertisements give you a high point of view without any climbing at all. They spread world products before you --- servants to serve you, conveniences to please---prices low because so many thousands are using the same. They give you a new conception of what you'd like to own. No longer will a watch or food chopper do --- but the most highly improved watch or food chopper. No longer just a radio --- but one of purest transmission. They make you change your mind about what you started to choose, and choose something more pleasing at no higher price. They help you see the whole field of satisfying wares. They lift you to fresh joys.

PHILATHEA CLASS HAS SUNRISE BREAKFAST

The Philathea class of the First Methodist Sunday school had its regular monthly outing in the form of a sunrise breakfast on Friday morning. Members met at the church at 5 o'clock, and went from there to Lake Cisco. Many members of the party enjoyed a plunge in the Lake Cisco pool before breakfast. The meal was prepared and served in the picnic park. Mrs. O. Odom led in prayer. After breakfast, an informal business session was held, and Mrs. C. H. Parish was elected treasurer to succeed Mrs. H. V. McCorke.

Those enjoying this delightful outing were Mesdames O. W. Ford, Johnny Cox, O. Odom, C. H. Parish, C. E. Hickman, Joyner, B. E. Morehart, J. M. Witten, Tolle Bond, Bailey, Jimmie Allen, John Peters, A. M. Jordan, S. H. Nance, Garland Nance, L. E. Armstrong, Mrs. F. J. Borman, Mrs. Fielding Lee, Mrs. K. N. Greer, Mrs. L. A. Warren, Mrs. Ruby Miller, Mrs. L. C. Moore, and the hostess.

MRS. MOORE ENTERTAINS FOR ENTRE NOUS CLUB

Mrs. Rex Moore entertained to compliment members of the Entre Nous club with a party of pretty appointments in her home on H avenue Friday afternoon. Brightly colored zennias were in attractive arrangement throughout entertaining rooms. In the games, Mrs. W. J. Armstrong won the high score award, and Mrs. K. N. Greer received the cut prize. A refreshing course was served at tea time.

Present were Mrs. George Atkins, Mrs. W. J. Armstrong, Mrs. F. J. Borman, Mrs. Fielding Lee, Mrs. K. N. Greer, Mrs. L. A. Warren, Mrs. Ruby Miller, Mrs. L. C. Moore, and the hostess.

MISS BUTTS, MISS MARTIN HONORED AT S. S. PARTY

Miss Virginia Butts and Miss Hazel Martin were honored with a handkerchief shower at a party for members of the Glad Girl's class of the First Baptist Sunday school, which was given on Thursday evening in the home of the teacher, Mrs. W. D. Hazel, on West Sixth street. Miss Butts is leaving soon for California, and Miss Martin will leave within the next few days for Abilene to

make her home. The hankerchief gifts were presented in an unusual-clever manner. Misses Jennie Lee Mathews and Lucille Flaherty made the presentation. They appeared disguised as tramps, one en route to California and the other with Abilene as the destination. In the course of the skit, they offered humorous advice for each of the honorees. A variety of games were enjoyed during the evening and refreshments of ice cream and cake were served.

Those present were Misses Virginia Butts, Hazel Martin, Lila Jones of Lufkin, Fern Warren, Jennie Lee Mathews, Helene Stokes, Pauline and Lucille Flaherty, and Ruby Lee Blanton.

FORMER CISCO WOMAN MARRIES

Mrs. Maud Harrell, formerly of Cisco, and J. F. Templeton, were married on June 29 in Watts, Okla., according to an announcement to the Daily News. Mr. Templeton is an official of the Kansas and Southern Pacific railroad. They are expected in Cisco within a few days to visit friends. They are en route to El Paso and San Francisco, Cal.

JUNIOR CAMP W. O. W. HAS MEETING

The Junior Camp of the W. O. W. met Saturday morning at 10 o'clock for the regular drill and business meeting. The meeting was concluded with a social period, at which refreshments of candy were served.

Those attending were Willie Fay, Orella, R. C., and Margaret Arrington, Robert, Jr., Pauline, and Annie Laura Turner, Billy Morgan Dorothy Jean and Eldon Anderson, Jr., Mack Frye, Jimmie, John, and Ira Lee Laird, Junior and Addie Ruth Roe, Troy Stewart, Helen, James Ed, and Eugene Agnew, Geraldine and Bernice Plenner, Mary Cathryn Shepard, Ada Roan Mobley, and the sponsors, Miss Eileen Wilson and Mrs. Juan Mason.

OUT-OF-TOWN AFFAIRS TO HONOR MISS CLARK

Miss Dorothy Clark, bride-elect of Dr. W. W. Worsham of Orange Grove is to be honored at several out-of-town pre-nuptial affairs during the coming week. Miss Clark left Cisco Saturday for Fort Worth, in company with Mrs. J. B. Lovejoy, whose home is in Fort Worth. Miss Helen Clark, Miss Mignon Clark, Mrs. C. E. Deaton of Wichita Falls, and Miss Jourdain Armstrong. On Wednesday Mrs. Lovejoy and Miss Helen Clark will entertain for Miss Clark, who is their sister, with a shower at the home of the former in Fort Worth. The party will go from Fort Worth to Gainesville, where on Friday, Miss Elizabeth Whiddon, who is to be a member of the bridal party will entertain in Miss Clark's honor. Miss Clark formerly lived in Gainesville. On Saturday, Mrs. C. E. Deaton and Mrs. Paul Fond will entertain to honor the bride-elect in Wichita Falls.

MISS TRAMMELL ENTERTAINS FOR CLUB

Entertaining to honor members of the —8 Bridge club, Miss Louise Trammell was hostess at a bridge party of attractive appointments on Thursday evening in her home, 1001 West Fourteenth street. Four tables were arranged for the games, in which Mrs. Ray Smith was the high score winner, and Miss Marian Mayer received the low score. Refreshments were served at the conclusion of the games.

Members and guests present were Misses Ora Bess Moore, Catherine Cunningham, Laura Lu Waring, Marian Mayer, Tilia Bell Simmons, Katherine Pettit, Wilma Thomas, Virginia Dabney, Ida Mae Collins, Agnes Bearman, Viola LaMunyon, Blanch Van Horn, Mrs. Arthur Cunningham, Mrs. Ford Hubbard, Mrs. Rex Carrothers, and Mrs. Ray Smith.

TEA HONORS MISS DOROTHY CLARK

Mrs. Lee Clark and Miss Helen Clark entertained on Thursday afternoon at tea in their home on Randolph Hill, announcing the engagement and approaching marriage of Miss Dorothy Clark to Dr. J. W. Worsham of Orange Grove. The wedding will take place on August 19 at the First Christian church. Guests were greeted at the door by Mrs. W. J. Armstrong and Mrs. Oscar Cllett and were presented to the hostesses

CALENDAR

Tuesday

The following circles of the W. M. S. of the First Baptist church will meet Tuesday afternoon at 4 o'clock:

Circle 1 with Mrs. B. Montgomery, West Fourteenth street.

Circle 2 at the church.

At this time, Mrs. Armstrong, assisted by members of the club, will entertain with a luncheon honoring Mrs. W. K. Esger, former member of the club.

Film Romance Now a Real One

A movie romance in which George O'Brien, cowboy actor, and Marguerite Churchill, screen favorite, played the part of lovers in a western drama developed into a real romance, it was disclosed the other day when they filed notice of intention to wed at Santa Barbara, Calif. Here are recent pictures of the two.

GOT REAL BIRDIE

HOLLY SPRINGS, Miss., July 22 — Harris Gholson, president of the Holly Springs Golf club, shot a birdie the other day. It was a sparrow that dropped dead when hit by Gholson's drive as it flew along about 25 feet above the golf course.
