EARTH TREMORS FORETOLD JAPS SAY BY TIDES

TOKYO, Nov. 5.—Experts are congratulating themselves on the accurate prediction of a recent earthquake here.

For some time it had been thought there was some effect caused by earthquakes on the tides.

On Tuesday night tremors were felt in Tokyo and neighboring districts.

Wednesday morning, after the tremors had ceased, the tide subsided, and the water was running four feet lower than before.

Mr. Maeda, chief of the bureau, said the danger from the Boso Promontory, forming the extreme southern end of Chiba Prefecture, is that it is located only about fifty miles from the spot in the Pacific which is considered by experts as the earthquake zone.

The last disaster originating from it was about seventy years ago, when tidal waves destroyed Tokyo and neighboring districts.

Dr. Okada, minister of education, said that the scientific world had real reason to congratulate itself upon the discovery.

While a throng of Cisco folk were congregated at the office of the Daily News Tuesday night receiving the returns from the election, the fire alarm was turned in, and when it became known that the First Baptist church building was burning, for the time being Mrs. Ferguson and Dr. Butte were forgotten, and the throng dispersed for the scene of the conflagration.

A high wind was blowing from the southwest while the fire blazed, and blew the sparks directly across the business section of the town, and many went over the tourist camp to the disposal plant, nearly a mile away.

Fearing the fire would ignite other buildings the department at Eastland was notified after the fire had gained considerable headway, and Chief Michael made the run here with a pumper from Eastland in just 16 minutes.

The origin of the fire is undetermined, but it is presumed defective wiring may have caused the blaze. The church building was an old structure of rather large dimensions, but well built, and had been moved off the church lot onto the corner of Broadway and E avenue, while the new building was being erected.

While the two buildings were burning the Paramount hotel, the Broadway theatre and Spencer buildings were menaced. The awnings on the latter ignited, but the splendid work of the department saved these buildings and a large portion of the business section.

Just when fire was thought to be under control it was learned that flying sparks from the burning building had ignited the roof of the Commercial State bank, but this was soon extinguished. Other sparks had evidently blown into an open window in the Alexander building, occupied by the Palace market and grocery, with S. W. Pratt's law office upstairs, and gained considerable headway, but was soon extinguished.

The loss sustained by the Baptist church is estimated at approximately \$8,000, with \$6,000 insurance on the buildings, and \$1,000 on the furnishings. Other than the Baptist property the largest loss was on the Alexander building, which will approximate \$1,000.

Deflections of Democrats Not Significant In The Cisco Vote As Nominees Loyal Supported

For the first time in many years—really since the governmental affairs of Texas were retrieved from the Republicans when E. J. Davis was ousted from the governor's office—the Democratic party was opposed by a formidable opponent in the elections just closed in Texas Tuesday.

The election here Tuesday was the first time the women voters ever participated generally and to such an extent in the general elections, and it was this element that upset the dope bucket of the most experienced politicians.

Westside Vote Total vote cast, 807. Of these Mrs. Ferguson received 468 and Dr. Butte 324. Majority for Mrs. Ferguson, 144.

Eastside Vote Total vote cast, 339. Mrs. Ferguson, 219; Dr. Butte, 109. Majority for Mrs. Ferguson, 110.

Butte Still Hopeful AUSTIN, Nov. 5.—Declaring illegal discarding of ballots cast in his favor had robbed him of an early indication of victory, Dr. Butte today declined to follow the advice of his managers and concede his defeat.

Romney Democratic Box 20, Romney, went Democratic Tuesday by a large majority. John W. Davis received 40 votes, Coolidge 4 and La Follette 6.

COOLIDGE AND THE JAPANESE

Brisbane should be more careful with his statements of fact—or his statements of alleged fact, to be more exact.

"Californians report a change of sentiment there, due largely to President Coolidge's emphatic confirmation of the policy of Asiatic exclusion."

This was interesting news to most Californians. Who made any such report? Just when did President Coolidge emphatically confirm the policy of Asiatic exclusion?

"In signing this bill I regret the impossibility of severing from it the exclusion provisions which affect especially the Japanese."

It is generally conceded by those who have given the matter any real study, that President Coolidge's unfortunate course in regard to this matter did more than any other one thing to embolden Japan in her demands and strengthened her in her contention.

New York politicians have long been recognized as being highly astute when it came to playing the great American game of politics, but their skill was doubly emphasized yesterday when they carried the state for a Democratic governor and a Republican president at one and the same time.

HE'S AHEAD EVEN THOUGH HE LOST

Michael Crowley of Boston, loses a suit for \$10,000, which sum he claims was promised him on condition that he remain sober for ten years.

The judge who ordered a verdict for the defendant may have thought it odd that a brewer should undertake to subsidize sobriety, though stranger things have happened.

At any rate, the plaintiff should console himself with the reflection that merely being sober is worth more, to any man, than \$1,000 a year.

Mrs. Miriam Ferguson, the first American woman to be honored with the management of a great state, has a wonderful opportunity to go down in history as an outstanding executive.

DE VALERA AGAIN ARRESTED

Eamon De Valera, the Irish Republican leader, has broken into jail again. He did it deliberately this time.

Here, as usual, De Valera challenges admiration for his independence and courage, but not particularly for his judgment. He held out for an Irish republic, against the Irish Free State, long after his opposition had ceased to serve any useful purpose.

La Follette is probably thoroughly convinced now that America is past all redemption. This great agitator's showing at the polls was pitiful, considering the lung power expended.

Now that the election is a matter of yesterday, Cisco can devote full time to preparations for Armistice Day and the football game with Ranger.

DINNER STORIES

At one time A. Hamilton Gibbs, the author, was stationed at a training camp situated at a sea shore. Some of the recruits who hailed from the hinterland had never seen the sea before.

"Mary," she said to the maid of all work, "what is there in the store-room?" "Every blessed thing is given out but the tea an' coffe," Mary informed her.

The offer was accepted. The next morning the recruits, induly refreshed, went down to the water front to pay their sixpences.

LOBOES HAVE ROUGH RUGGED ROAD TO GOAL

Of more than passing interest to local football fans is the game scheduled for Friday between Stephenville and Merkel, to be played in Abilene. This game is to select the district champion of the class B schools.

The winner of the three cornered fight between Ranger, Cisco and Comanche will have to meet the winner of the Class B bi-district game.

It is a long road to the state finals. Hard teams are to be met in every game. Great rewards come to the winner of a state title, but the rewards are deserved because they are hard to secure.

SLUMMING THE NIGHT COURTS POPULAR IN K. C.

KANSAS CITY, Nov. 5.—"Slumming parties" to the Friday night session of Judge Harry Roberts' police court here are becoming so popular with society folks, that Judge Roberts announced today that he would ask the city commission for permission to use the city hall auditorium for his night court session.

According to sociologists, the night court here is one of the four in the country. It was inaugurated a decade ago to enable workers to have their trials, without losing half a day's work as had been necessary before in attending the morning police court sessions.

### C. E. SPRULL IS ANOTHER MAN WHO LIKES CISCO

C. E. Sprull of the Bedford community is another farmer that has found it pays to trade in Cisco. He has not always been doing his trading here, but owing to the fact that there are better roads to Cisco, he commenced to trade with Cisco merchants, and found such fair dealings and the prices ranging quite a bit lower than other towns, he has decided to buy his supplies here altogether. Mr. and Mrs. Sprull were trading here Monday, and both had some very nice things to say of Cisco, and Cisco business men.

"We have been doing our trading at another town," Mr. Sprull stated, "but the roads being better to Cisco we commenced trading here, and have found that the prices are more reasonable for the merchandise we buy, and the market for what we have to sell is better in Cisco, we have decided to do all our trading in the future in Cisco."

"Then Cisco people make you feel at home just as soon as you get to town. I feel like I want to stay here, for I never met a bigger and broader people than the Cisco people. You people all seem working to make a better town, and seem to be united. Whenever I see a bunch of folks working for a common purpose I know that town is going to go ahead."

"Yes, I have sold quite a bit of gravel from the pit on my farm," Mr. Sprull stated, "in fact Breckenridge has used about \$1,000 worth of this gravel in their paving campaigns. This gravel was loaded on the C. & N. E. cars at Ricks' switch and freighted over that road to Breckenridge. The paving contractor stated that it was the only gravel he could secure in this section that was suited for paving."

Burckett, Karem Temple, Waco; have also accepted Moslah Temples' invitation to attend the ceremonial. It is expected there will be several other members of the imperial council who will be present and several other Potentates from other Texas and adjoining states temples in attendance who have not yet been heard from.

Entertainment for Nobles and Novices will be provided both Friday and Saturday, November 21 and 22 respectively, on which dates novices will be registered that they may attend all the entertainment being planned. Arrangements are being made to take care of 5,000 or more Shriners who are expected to attend the ceremonial.

### INDIANS' DIET MORE HEALTHFUL THAN OURS

COLUMBUS, O., Nov. 5.—In support of his belief that civilization, in some ways, seems to move backward," Dr. J. F. Lyman, professor of agricultural chemistry, Ohio State University, declares that "Ohio people nowadays are not as wisely fed as the Indians who roamed the forests of America before the white man came."

From a surgeon, who lived twelve years with a primitive Indian tribe, Dr. Lyman obtained the following information:

"The diet of members of the tribe consists of unbolted flour, vegetables, fruits and dairy products. Chronic gastro-intestinal disease, appendicitis, dyspepsia and constipation are quite unknown."

"In Ohio all of these disorders are common. The larger use of those foods rich in vitamins, of coarser texture, and higher in the essential mineral salts, will go far to correct, if it does not entirely eliminate these ailments."

### AFTER 35 YEARS MARRIED ARE NOW SEEKING DIVORCE

KANSAS CITY, Kans., Nov. 5.—After 35 years of married life, during which time they raised five children, one of whom died on the battle fields of France in the world war, Mr. and Mrs. William Joyce, living near here, have come to the parting of the ways. Mrs. Agnes Joyce has filed suit in the Wyandotte county district court charging that she "no longer can endure her husband's disagreeable temper." Non-support is also alleged.

### OKLAHOMAN URGED FOR WALLACE'S POSITION

OKLAHOMA CITY, Nov. 5.—Letters and telegrams from scores of agricultural and commercial organizations of Oklahoma, urging President Coolidge to appoint John Fields of this city, as successor in the cabinet to Secretary of Agriculture Wallace, decreased.

Oklahoma never has had a cabinet member in the 17 years of its statehood, it has been pointed out to the president.

### BLIND MAN ERECTS DOUBLE BUNGALOW

DENVER, Nov. 5.—Aided only by a young boy, A. R. Brandt, blind for fifteen years, has completed construction of a "double bungalow" house here.

Brandt, who lost his eyesight in a dynamite explosion, for a time made brooms in the State home for the blind. With savings he purchased land, excavated a cellar, operated a motor-driven concrete mixer, laid the foundation and completed the house, which will give him a comfortable income.

### CANADA TO REWIVE SALMON INDUSTRY

VANCOUVER, B. C., Nov. 5.—Restoration of the salmon canning industry of the Fraser river, which used to net \$30,000,000 annually to Vancouver and New Westminster, will be attempted through the establishment of a chain of hatcheries along the river, breeding sockeyes, according to an announcement here by Hon. Ernest La Pointe, Dominion minister of marine and fisheries.

## THE FATHER OF BRECKENRIDGE WOMAN IS DEAD

SAN ANTONIO, Nov. 5.—John R. Nasworthy, 76 years old, retired wealthy ranchman, resident of Tom Green county fifty-two years and dean of early day west Texas race horse breeders and operators, is dead at his home here of dropsy. Three sons, Mark Nasworthy, of Mertzon, Tom and Dick Nasworthy of San Angelo, and one daughter, Mrs. R. S. Johnson of Breckenridge, also survive.

Coming to west Texas in 1872 from Georgia, where, as a youth of 16, he served the last six months of the civil war in the Confederate army, Colonel Nasworthy became a sergeant of Texas rangers, and later an extensive land holder.

His lands, mostly irrigated, include Bismark, one of the first settlements in the county, and the famous Dove Creek springs, one of one of the most noted Indian battles in the southwest. He was estimated to be worth \$250,000.

Colonel Nasworthy helped capitalize the section between San Angelo and Fort McKavett as one of the greatest breeding grounds in the world of race, polo, cavalry and ranch horses.

At one time animals in his mesquite stable were valued at \$100,000. Posting a \$10,000 prize in the early 90's to race any horse, Colonel Nasworthy at Denver won \$25,000 in purses.

He served three terms as Tom Green county commissioner, 1910, 1915, noteworthy for their economic administration and highway development, and was one of the founders and trustees of the Christoval Baptist encampment at Christoval, near here, the scene annually of the largest outdoor religious gathering in the south.

The Masonic order, of which Colonel Nasworthy was a member, will have charge of his funeral here on Wednesday afternoon, following services at the First Baptist church.

Don't Experiment With "Pimple Cures"

Do you think so little of your delicate skin and face as to allow yourself to become the subject for experiments. By all means use only the thing which has stood the test of time and public opinion to get rid of your pimples, blotches, bumps, "breaking out," eczema, etc. Black and White Ointment, and Soap, have not only stood this test, but you are sure of it—when you know that they are selling at the tremendous rate of more than two million packages a year. The way they are economically priced, in liberal packages, has helped to make them so popular along with their dependability. The 50c size Ointment contains three times as much as the 25c size. All dealers have both Black and White Ointment and Black and White Soap, as they are called.

## AN EMPLOYMENT BUREAU TO AID T. C. U. STUDENTS

DENTON, Nov. 5.—Financial difficulties need not stand in the way of an education at Texas Christian University, Fort Worth. An employment bureau, under the direction of J. W. Ballard, head of the department of business administration of the university has been recently organized for the benefit of those students of the institution who are depending upon work of some nature to put them through the university.

This is the first organization of its kind to be organized at T. C. U. Approximately 300 students have placed applications for work, most of whom have succeeded in finding a job. A number of the students attending the university are working their entire way through.

There are over forty students on the regular payroll of the university. These do library work, dining room work, sweep floors, care for the different buildings, work on the athletic fields, new buildings, and on the campus and office work. In addition to this group, there is another including about twenty students who work only occasionally by the hour. A large percentage of the ministerial students are aiding in the payment of their expenses by preaching in nearby churches.

The students have the entire afternoons off to devote to their work, using the evenings for studying.

## CHURCH FINE STYLE OF GOTHIC BUILDING

CHICAGO, Nov. 5.—One of the most beautiful examples of mediaeval Gothic architecture in America is the just completed auditorium of the First Methodist church of Chicago, according to B. G. Dahlberg, lumberman, who recently has visited many of the cathedral towns of England. The church is on the ground floor of the Chicago Temple, unique combination of church and office building, in the busiest part of the city. "A step from the elevator lobby into the church interior is a step 600 years back into the solemn religious glory of a cathedral of the fifteenth century," said Mr. Dahlberg. "Outside is the turmoil of one of the world's busiest corners. Overhead towers the spire, tallest in the world, carrying its gold cross 406 feet above the pavement and dominating downtown Chicago."

## Worst Coughs Yield Quickly to Good Old Pine Tar and Honey

One of the best cough medicines that was ever compounded, according to specialists, is good old pine tar and honey. It often stops a bad cough in 24 hours, and another advantage is that it can be given to young and old alike, as it contains no narcotics or opiates. Doctors say the pine tar quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing, also healing soreness, while the honey both soothes irritation and gives a pleasant taste. The kind that has been used in thousands of families for many years for coughs, chest colds, hoarseness, spasmodic croup, etc., is Dr. Bell's Pine-Tar Honey, which was the original compound. It has had many imitations, but still remains the best, as it is scientifically compounded of just the right proportions of pine tar, honey and other healing ingredients which the best doctors have found to aid in giving quick relief. If you want the best, get the original Dr. Bell's Pine-Tar Honey and no other. Only 50c. at any good druggist.
