507 AVENUE D., CISCO, TEXAS

A CISCO - OWNED NEWSPAPER
SUBSCRIPTION RATES: ONE YEAR, \$1.00

Entered as second class matter July 24, 1930, at the postoffice at Cisco, Texas, under the act of March 2, 1873.

BIBLE THOUGHT FOR TODAY

Let the heavens rejoice, and let the earth be glad. . . . For he cometh, for he cometh to judge the earth: he shall judge the world with righteousness, and the people with his truth.—Ps.96: 11, 13.

*Frightened of dreams!
The world stirs in its pain,
Its anguished sense of sickness, loss,
and fear,
And, stirring, turns to find God's love
again;
Love is divine, omnipotently near.
Earth's dreams are breaking—hear
God's loving voice:
Awake! Love's arms encircle thee.
Rejoice.*

The American people are making a noble fight to regain that which was lost during the depression days. Not only are they trying to get back the material things that were cast aside and lost; they are trying to get those things of greater value, the church and their religion.—Ocean County Sun.

WHO'S WHO IN CWA?

Things appear slightly mixed in county CWA circles. It seems that the county administrator is administrator more in name than in reality. Former Administrator Gilbert is alleged to have stated that the gentleman, Bushick, sent here out of the Austin office, superseded him in authority, putting in office equipment over his protest, and doing other things he objected to. Whether this be true or not, it is known that Bushick did quite a bit of broadcasting. In fact heralded abroad that Gilbert would be ousted from office before his resignation was written. Gilbert, however, was highly endorsed before his resignation was placed before the committee by Chairman Earl Conner.

After the acceptance of Gilbert's resignation E. A. Ringold, of Ranger, was elected administrator, but is he? Perhaps the "general" will seize this opportunity to promulgate another racket in the string daily. Most anybody would contribute a dollar to have a chance in winning a prize by naming the real CWA administrator in Eastland county. Perhaps it is known by those initiated in county CWA affairs who is the real administrator, but those on the outside may be pardoned for the lack of information by the seeming tangle. Since Ringold has assumed the duties of administrator everything was running smoothly—and may be still—but the Eastland Telegram carried a little story Monday as follows:

"K. S. Wendler of Austin is now in charge of the county CWA office at Eastland with the title of acting administrator. He is immediately under C. B. Braup, superintendent of field forces for CWA. His duties, he states, are of an instructional nature."

It doesn't say that Mr. Wendler is sent here in an advisory capacity to the county administrator, but his "duties are of an instructional nature." Also the story said he "is now in charge of the county CWA office in Eastland." If so he must have superseded Ringold, for we were under the impression that the county administrator was in charge of the office at Eastland. Probably we will know all about these things when the "general" comes out with his next racket.

WESTBROOK QUILTS

The resignation of Lawrence Westbrook was handed in to Gov. Ferguson last Monday. A dispatch from Washington, that appeared in the Citizen last week, stated that his resignation was practically sure. Westbrook goes to Washington to become assistant to Harry L. Hopkins, and will be in charge of national rehabilitation work. A. W. von Struve, who has been associated with Westbrook as public relations director for the Texas CWA will go to Washington with Westbrook.

As Civil Works administrator Westbrook has made the grade as a capable and impartial administrator. That he has proven himself capable as an administrator of the civil works program in Texas, is attested by the fact that he has been called to fill a position in a larger field. Some of the state administration opponents have sought in vain to discredit his administration, not on account of any short comings in his administration, but because he was a friend to the Ferguson regime.

Westbrook was appointed federal CWA director by Hopkins, and named CWA administrator by the Texas relief commission, a meeting of which was called for last Wednesday to name his successor immediately after he submitted his resignation.

To Westbrook has been assigned the administration of one of the president's most ambitious, and probably one of his most worth while projects—that of rehabilitation of human driftwood. If this plan proves feasible probably the most important project that has yet been attempted will crown Roosevelt's experiments with success, for there is no project that could be devised more laudable than to put human beings on their feet and make self-supporting citizens of those who have lost all hope of coming back after being objects of charity during the depressed times the country has staggered through. And that is the work mapped out for Westbrook by Harry L. Hopkins, president of the Federal Surplus Relief Corporation and administrator of emergency relief and civil works. Plans are now being worked out for moving unemployed into communities where lie new opportunities, and includes as an initiatory measure the purchase of sub-marginal lands for which the Public Works administration has allotted \$25,000,000. The plan calls for moving many on these sub-marginal lands, near national forests, where they will be given work inside the national forests part of the time, until other avenues of employment are opened, the details of which will soon be announced, according to a statement by Mr. Hopkins.

This project is slightly akin to that which was advanced for the ex-service men before the conclusion of peace negotiations at the close of the world war. It was then proposed, instead of giving the service men an adjusted compensation, to give them tracts of land and help to finance them on these farms until they were self-supporting.

Probably had this been carried out it would have proven more economical to the nation, and certainly more beneficial than the adjusted compensation program which was finally adopted.

NEFF WILL ADDRESS THE RURAL SCHOOL TEACHERS

Hon. Pat M. Neff, president of Baylor university at Waco, will deliver an address to the rural teachers of Eastland county at their meeting to be held in Eastland on Saturday morning, February 3. The meeting is called for 9 o'clock at the First Methodist church, and County Supt. B. E. McGlamery has arranged a two hour program. Mr. Neff will speak at 10 o'clock, and the public is cordially invited to be present. Miss Sue L. Mann, deputy superintendent in district No. 9, will also speak to the teachers. Special musical features have been arranged for this meeting.

County Superintendent McGlamery is telling his teachers that arrangements have been made with the depository bank to pay another month's salary out of the state available funds for this year. This is being done only for schools that do not have sufficient funds on hand to pay teachers salaries. It will be necessary for the teachers to present their warrants either in person or on written order before the depository bank will pay them.

Miss Mann and Mr. McGlamery will finish the inspection of state aid schools for the county next week. Miss Mann will work in Stephens county after Tuesday of this week, and will come back to Eastland for the meeting on Saturday.

CHAIRMAN RINGOLD CALLS MEETING ON CWA PROJECTS

Chairman Ringold, Civil Works Administrator, called a meeting of city and county commissioners, and others interested, to meet at Eastland last Monday night, in a get-together meeting, to consider CWA matters and work out a program. It was ascertained that approximately \$2,000 had been made available for teams to work on county projects. Hereafter, those working on city projects will be allowed 24 hours per week, and those on rural projects 15 hours. Those attending from Cisco were L. A. White, N. C. Fowler, J. E. Stuart, Cecil Prickett, Bob Winston, Joe Clements, H. A. Bible and H. C. Henderson.

Real Nice Letter From Member Citizen Family

F. E. Sage, a well known citizen of the Cisco country, and valued member of the Citizen family, in renewing his subscription to the home paper says: "With pleasure I am mailing you a dollar bill for which please continue the Citizen for 1934. In our family circle the Citizen is more to be appreciated for its facts and fancies than a letter from home."

Mr. Sage formerly lived out on the Blankhead highway, west of Cisco, but is now making his home on Route No. 1, out of Lubbock.

He has been a reader of the Citizen ever since the present manager took over the paper.

Offers Land For Truck Farm To Some Needy One

F. E. Sage, who owns a farm just west of Cisco, writes the Citizen that he has seven and one-half acres of creek bottom land that he will be glad to give free of rent to some deserving person who would like to put in a small truck farm or garden.

He states there is a tank partially constructed just above this land, which if completed, would impound enough water to irrigate several acres by gravity flow. The Citizen believes this is a rare opportunity to start a truck farm. He offers to donate the land to the people of Cisco for a period of years if they will complete the dam. It is worth investigating.

Mr. Sage's address is route 1, Lubbock, Texas.

How's your butter? We can use a batch in payment for your subscription to the Citizen.

CHRISTIAN SCIENCE CHURCH SERVICES

First Church of Christ, Scientist, of Eastland, authorized branch of The Mother Church, The First Church of Christ, Scientist, of Boston, Mass., holds services every Sabbath morning at 11 and each Wednesday night at 8. Testimonies on Christian Science healing may be given at the Wednesday evening meeting. Sunday school convenes at 9:45 a. m. All of these services are held in the Church edifice at the corner of Lamar and Plumer street.

"Love" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 4.

The Golden Text is: "Keep yourselves in the love of God, looking for the mercy of our Lord Jesus Christ unto eternal life" (Jude 1:21).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And we have known and believed the love that God hath to us. God is love; and he that dwelleth in love dwelleth in God, and God in him" (1 John 4:16).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Not materially but spiritually we know Him as divine Mind, as Life, Truth, and Love. . . . The Christian Science God is universal, eternal, divine Love, which changeth not and causeth no evil, disease, nor death" (page 140).

W. P. Pulley has been spending the week in Cisco, looking after his interests here. He has recently returned from Siloam Springs, Ark., where he has property interests. Mr. Pulley says the people in that section of Arkansas are living at home and not complaining materially of the depressed condition of the country.

Country produce is legal tender for your subscription to the Citizen

S. G. Beard, one of the substantial farmers of the Scranton community, and one of the older members of the Citizen family, was another caller at the office of the home paper Wednesday.

**Cooperative League
People Give Details
Of The Keel Episode**

The following story of the alleged disturbance in Eastland when Dr. Keel, organizer for the Cooperative League, was placed under arrest at Eastland Jan 25, while a committee was in conference with County Administrator Ringold, of the CWA:

At Eastland Thursday, the 25th, members of the Cooperative League and the Common Labor Union of Eastland county, gathered at Eastland where they elected a committee to deliver a petition of demands to the Eastland county CWA officials. The members were waiting across the street for a reply from the CWA men. There was no disorder, none whatever. We were waiting in a peaceful assembly when Steel Hill approached the assembly and demanded of Dr. Keel what the trouble was. He replied: "We are waiting for a report from the committee, who are in conference with CWA officials, Keel replied. Mr. Hill rushed across the street to the office and returned immediately and again approached Keel, saying: "Your petition has been turned down completely." And asked Keel to move on. Keel said "We would like to hear what our committee has to say first. Hill was very angry at this reply and said "If you don't get out of here I'll take you and throw you in jail." Keel insisted on a report from the committee which had not yet left the CWA office. It was at this time that Steel and another law took hold of Keel and locked him up.

Several telegrams were sent to unions outside the county. Many men and women members of the Workers Cooperative League responded saying: "We are with you. Have bond made and we will get him out." The first telegram came from Dallas. The workers there immediately had Earl Miller, an attorney, to go to work on the case. They further stated that they were 10,000 strong, and would fight the case to the last.

The members of the League are grateful for their prompt cooperation. The Ranger, Cisco Eastland and Salem members all stayed in town until Keel was released.

Keel was asked: How do you like Eastland county jail?" And his reply was: "The work must go on. We must unionize America."

Dr. Keel is district organizer of the Workers Cooperative League and has succeeded in organizing several unions in Eastland county.

We are all for Dr. Keel till the day is done.

The law said they would release Keel if the men would leave town. But they refused to go. So shortly they stated that they would let him out in 10 minutes if the men would leave town. And again they refused to leave.

The men did not leave until Keel was released, and furthermore they followed him home in trucks.

Chairman Ringold's attitude toward the committee was very courteous and he told the committee that he would be glad to take up any complaints and try to rectify everything under his jurisdiction, and cordially invited the committee back.

C. I. McAULEY, Cisco.
W. O. COFFEY, Eastland
CHARLIE LUTON, Chairman of Committee.

**DESDEMONA SUED BY W.
O. W. ON BOND INTEREST**

Desdemona independent school district has been named defendant in a suit filed in United States district court at Abilene seeking payment of interest on bonds of \$75,000 allegedly issued by the school district in 1921.

The suit was filed by Sovereign Camp, Woodmen of the World, of Omaha, Neb., which claims \$4,020 is due it in accrued interest on the bonds. All bonds of the issue of \$75,000 which mature 40 years after date of issuance, are held by the fraternal organization, the petition states.

Listed as members of the Desdemona school board of trustees are J. E. Hester, Charles Linsley, O. A. Kountz, F. E. Kenton, W. E. Barrow, D. B. Parks and W. S. Creager.

**Attended Funeral Of
Late W. A. Myrick At
Lubbock January 20**

Mr. and Mrs. A. F. Hunt were among the many friends who attended the last rites held for W. A. Myrick, well known here as one of those who never lost faith in Cisco, but always held an optimistic opinion that the city would some day come into its own, and occupy that place among progressive cities which its natural resources justified.

Mr. Myrick led an active life, was known as a builder, not only in Texas, but in Arkansas and Kansas, in which states he lived before coming to Texas and finally to Lubbock. He was interested in several enterprises in Cisco, including the Cisco Country club, which he was instrumental in financing during its construction, the Laguna hotel, in which he owned the controlling interest until the time that hoistery became involved in financial difficulties, and at the time of his death was trustee for the bondholders of the Lake Cisco Amusement company. His reorganization of the operating company of this resort evidenced the faith he always maintained in Cisco, and its possibility of a come back.

Mrs. Hunt stated that the Myrick funeral was one of the largest ever held in his home city, as practically the entire citizenship attended the funeral rites and paid tribute to one of Lubbock's foremost citizens.

**HOG PROCESSING TAX IS
\$1 PER HUNDRED WEIGHT**

J. M. Bird, Cisco vocational agriculturist, is advised by W. A. Thomas, federal revenue collector, at Dallas, that the processing tax for hogs slaughtered for market, is now \$1 per hundred, live weight, instead of \$1.50 as first prescribed. This will be the price during January.

W. B. Starr was among the visitors to Cisco Wednesday. Speaking of the government's hog reduction campaign he stated that he had taken advantage of the government's offer to reduce his hog production, and expected to realize about \$250 from this source. Another farmer living south of Cisco, Lee Leisecke, will receive around \$500 from the government on the pork reduction program, Mr. Starr said.

**Maury Hughes Advises
Will Announce Feb. 6**

Maury Hughes, of Dallas, national Democratic committeeman from Texas, advised the News by long distance telephone that he will make his formal announcement as a candidate for the office of Governor of Texas, February 6. Mr. Hughes has been besieged by hosts of friends to run for governor and indicates his definite consideration of the matter. He is one of the state's strongest lawyers. Those who have observed him at work before the bar say that if he campaigns with the same fervor and exactness he will go far, far down the track—and possibly nose in ahead.—San Angelo News.

S. G. Beard, one of the substantial farmers of the Scranton community, and one of the older members of the Citizen family, was another caller at the office of the home paper Wednesday.
