Large Quantity of Booze Taken From Ship in Galveston Harbor

Texas Legislature Resolves Faith In Mexican Government

National Guardsmen at Galveston Raid Ship and Take Off Liquor

Associated Press.
GALVESTON, Texas, June 17.—A company of National Guardsmen last night raided the steamship *Elsinore*, from Porto Rico, and confiscated 119 quarts of intoxicants.
Two of the ship's officers were turned over to the federal authorities and a military guard was stationed on the ship today.
Brigadier General Wolters, in an interview with the Associated Press today relative to the matter, said that strict orders to prevent any violations of the liquor laws had been given, because under present conditions at Galveston one drunken man might cause great disturbance.

TEXAS COMPANY TOMLINSON NO. 1 INCREASES FLOW

NOW MAKING 1200 BARRELS; DOWN 3180 FEET IN BLACK LIME.

BEST NATURAL WELL

Will Deepen In Hopes of Increasing Output to 1600 Barrels.

Special to The News.

LEERAY, Tex., June 17.—The Texas Company's Tomlinson No. 1, which came in without a shot on last Sunday, at 3176 feet, in section 453, was drilled four feet into the black lime yesterday and has increased its flow 1200 barrels.
The well will be drilled still farther into the lime, it is rumored when a flow of 1600 barrels a day is expected.
This is the best natural well so far that has been brought in in the Leeray field.
The Tomlinson No. 1 is within a mile and a half of town, and is now down 3180 feet.

Robert Elia, Noted Bomb Plotter, Ordered Deported By Secretary of Labor

Associated Press.
WASHINGTON, June 17.—Robert Elia, one of the aliens held in connection with the noted bomb plots of June 2, 1919, was ordered deported today by Assistant Secretary of Labor Post, after representations had been made to the department of justice that deportation "was not the proper remedy" for the case.
Post said that to deport Elia would be to frustrate operation of criminal law, but that his department had no authority other than to deport the man under the existing circumstances.
"I cannot lawfully hold any alien in prison indefinitely," said Post, in explanation of his action following his futile representation to the department of justice.

Mexican President Returns National Railroad to Its Owners, London Corp.

Associated Press.
MEXICO CITY, June 17.—Representatives of 20 foreign oil companies conferred with General Trevino, secretary of industry, commerce and labor, yesterday, regarding the difficulties arising from the executive decree issued under article 27 of the Mexican constitution, which nationalizes petroleum territory, according to an article appearing today in the newspaper *Excelsior*.
Trevino assured the oil men, the paper says, that the Mexican government was not acting through prejudice and would treat all alike.
Orders that the Mexican railroad be turned over to its foreign owners, a London corporation, were issued today by Trevino.

BIG POLITICAL POW-WOW COMES OFF TONIGHT

The big meeting at the City Hall tonight will, no doubt, have several interesting features. It is to be a "free for all" for the candidates of the county.
Those in position to know say, however, that there will be no mud-slinging nor anything that looks or sounds like it.
It is a notable fact that in all the rounds of the candidates, so far, the utmost good will has prevailed, and the audience tonight may expect a good deal of "squeal and pep" without any vinegar.
This is to be Cisco's installment of the elaborate itinerary of the candidates now seeking election at the hands of the voters of the county.
It is said that other places have given these "knights of the ballot" large audiences and appreciated hearings.
No doubt the meeting tonight will prove no exception to the rule.

CLAIMS MINERS ARE SUFFERING FROM HUNGER

Associated Press.
COLUMBUS, Ohio, June 17.—Although miners are receiving the highest wages ever paid and the demands for coal is greatly exceeding the supply, many Ohio miners are actually suffering from hunger, according to George W. Savage, secretary of the Ohio Miners' Union.
Savage declares that he has been receiving hundreds of appeals daily from miners who say that they have been receiving only one day's work a week, owing to the shortage of coal cars.
According to Savage, the mines are furnishing the railroads with an amount of fuel with which they should be able to operate full time.
He criticized the Interstate Commerce Commission severely for its alleged discrimination.

A. F. L. WANTS GOVERNMENT TO OWN RAILROADS

Associated Press.
MONTREAL, June 17.—Government ownership of railroads with a democratic operation, was endorsed today by the American Federation of Labor in convention here. The endorsement followed a bitter fight.
When Frank Morrison, secretary of the federation, took the floor and made the announcement that he would support the government ownership of railroads, a monster demonstration on the part of rail workers and their supporters ensued.
Morrison said that he was only supporting the reconstruction program of the American Federation of Labor and was standing in accordance with the report of the executive council to the last convention.
Disorder interrupted the roll call, several times when delegates of the various crafts represented divided on votes.
Charges that a steam roller was being used were hurled at the chair when the presiding officer denied the right of roll call to delegations which split on questions.
The building trades delegation presented an almost solid front in opposition to government ownership of railroads, supporting Gompers and the administration forces.
The railroad workers are supported by the great voting power of the United Mine Workers, Machinists' Unions, Textile Workers, Garment Workers, and Metal Trade Crafts.

U. S. OFFICERS DISCLOSE PLOT TO SINK LINER

SEA COCKS OF SAN MARCOS WERE SECRETLY OPENED; CAUSES EXTENSIVE DAMAGE

Associated Press.
PORT ARTHUR, Texas, June 17.—That an attempt was made to sink or damage the Mallory steamship *San Marcos* four weeks ago was revealed today when an insurance adjuster offered for sale 75 tons of news print paper, hundreds of bags of coffee and a large quantity of school books which had been damaged by water entering through the sea cocks of the *San Marcos* and which had been secretly opened while the vessel was enroute from Galveston to Port Arthur on its first trip after the Mallory company had diverted its ships following the strike of the longshoremen at Galveston.
The sea cocks of the *San Marcos* were later closed so secretly as they were opened.
Federal investigation officers who are here working on the case, are unable to fix the responsibility.
The print paper was consigned to Dallas and Houston newspapers, who have refused to take it because it has been made practically useless by water damage.

GREAT FLOUR MILLS BURNED ON THE MARNE

MILLIONS OF DOLLARS WORTH PROPERTY THAT SURVIVED BATTLE IS DESTROYED

Associated Press.
MEAX, June 17.—Great flour mills on the Marne, filled with wheat flour worth several millions of francs, were burned to the ground here today.
They were the celebrated water mills built more than a century ago on strong pile work in the center of the river.
They survived the Battle of the Marne.

Federal Employees, Seventy Years of Age, Can Not Draw Pension

WASHINGTON, June 17.—Federal employees who have reached the retirement age of 70, although they have not given a minimum of 15 years service required under the retirement law, must be dropped from the rolls and can not draw pensions.
This was the ruling made today by Attorney General Palmer.

Bock Awarded \$195 Judgment Against Lotif; Trunk Causes Trouble

G. A. Bock, local contracting painter, was awarded a judgment of \$195 Thursday afternoon in the Justice Court against A. Lotif, Cisco merchant, for alleged failure on Lotif's part to live up to an agreement between the two.
Oscar Montgomery, attorney for Lotif, filed notice that the case would be appealed.
Bock, through his attorney, Jesse L. Stevenson, has also filed a complaint against Constable C. S. Looney in connection with the same case, alleging false imprisonment.
Possession of an empty trunk is the contention of the litigation.

Sent To Marshall.
F. F. Quinn, warehouse foreman of the Cisco Texas & Pacific freight office, was taken ill recently, and to avoid any serious trouble from his physical disability, he has been sent to the company hospital at Marshall, Texas.

THOMAS BLANTON TO BE IN CISCO SATURDAY NIGHT

Congressman Thomas L. Blanton of the 17th district will speak in the City Hall auditorium Saturday night, June 19, at 8 o'clock.
Blanton is on a six week's speaking tour and spoke to a large crowd in Abilene Tuesday evening.

Job Printing Manager Leaves Daily News to Take Indiana Position

William Parker, manager of the job department of The Cisco Daily News, has resigned his position here and is now on his way to Indiana to take a similar position. He will first go to Oklahoma, however, where he will spend his vacation visiting friends and old business acquaintances in numerous cities and towns of that state.
Parker has been working diligently in this field for six months. The great amount of job printing he has been able to attract to this shop is sufficient testimony to his ability as a master printer. Parker is succeeded by D. V. Caruth of Dallas, an able man who knows his business thoroughly.

STARTING FIRE WITH OIL CAUSES DAUGHTER'S DEATH

International News Service.
JEFFERSON CITY, Iowa, June 17.—The use of kerosene to start a kitchen fire resulted in the serious injury of Mrs. Richard Tiley of this place and the death of her six-year-old daughter here last night.
The mother ran from the house and quenched the flames which enveloped her by leaping into a tank of water. Meanwhile the clothing of the child, who had stepped into the kitchen, became ignited and she was burned to death.

Eleven Persons Killed In Railroad Crossing Accident in One Month

Special to The News.
AUSTIN, Tex., June 17.—Death came to 11 persons in Texas as the result of railroad crossing accidents during the month of March, according to statistics compiled by the Texas Railroad Commission, and just made public.
Fifteen other persons were injured, and there were only two crossing accidents during the month without injury or death resulting.
Automobiles figured in seven of the 16 accidents for the month, wagons in two, a street car in one, a motorcycle in one; in three accidents persons involved were pedestrians, while one was a railroad employee.
The worst accident reported was at the crossing of the San Antonio-Seguin road and the Missouri, Kansas & Texas Railroad, a mile north of Comal, where seven members of a family from San Antonio were killed when a train struck the automobile in which they were riding on Sunday, March 28.

R. R. Officials Here.

O. I. Shannon, general freight agent of the Texas & Pacific Railroad, and A. J. Smirl, assistant general freight agent of the Texas & Pacific, were in Cisco Thursday morning.
The Texas & Pacific officials, together with R. Q. Lee, president of the Cisco & Northeastern Railroad, made a trip over the new road to look over freight possibilities between Cisco and Breckenridge.

Returns From Tulla.

Mrs. E. Hart and children, who have been visiting Mrs. Hart's sister in Tulla, Texas, for the past week, returned to Cisco Thursday.
Mrs. Hart reports that Tulla and surrounding country have recently received good rains, and abundant crops in wheat, corn, and other farm products are looked for.

Soft Drink Stand Proprietor Is Arrested; Punch Board Is Cause

The proprietor of a cigar and soft drink stand was arrested this afternoon for having a punch board on his counter, according to the police.
He was charged with operating a gambling device.
No action has been taken in the case as yet.

TEXAS CLUB WOMEN GO TO THEIR CONVENTION

Special to The News.
DALLAS, Texas, June 17.—A Texas delegation, about 50 strong, gathered from a number of cities of the state, left Dallas Monday for the "Golden Prairie Biennial" of the Federation of Women's Clubs, which opened in Des Moines, Iowa, yesterday.
The delegation was headed by Mrs. Florence C. Floore, president of the Texas Federation of Women's Clubs.
She said that 5000 delegates as representatives of two and a half million club women of the United States are expected to attend the convention, which will be held from June 16 to June 23.

Will C. Jones Dead.

Associated Press.
PORT WORTH, Tex., June 17.—Will C. Jones, born in 1848, and one of the last survivors of the Quantrell Guerrillas, died here today.

Associated Press.
AUSTIN, Texas, June 17.—A resolution commending the Mexican provisional government "for its efforts to establish a stable government" and "its manifested desire to protect the lives and property of foreigners within its border" was adopted by the Texas senate today.
The resolution reads:
"We have further noted with much gratitude the expression of friendship for the United States by President De La Huerta, General Obregon, and other prominent leaders of the new Mexican government.
"We indulge in the hope that banditry along the border will be henceforth suppressed, and that the lives and property of foreigners will be safeguarded, and that the citizens of both countries along the border will feel toward each other as citizens should."

OTHER LEGISLATURE DOINGS.

Associated Press.
AUSTIN, Texas, June 17.—The house today finally passed the senate \$900,000 appropriation to cover the estimated deficiencies of state departments and eleemosynary institutions.
This bill carries \$100,000 for the enforcement of the pink boll worm law, in event the governor vetoes the new measure.

The senate passed the recprocating teachers' certificate bill, permitting teachers of other states to teach in Texas without examination.
The bill reimbursing the University of Texas for Camp Mabry expenditures was also passed by the senate.

The house passed the senate bill authorizing the prison commission to expend \$50,000 to place the state railroad in operation, appropriating \$70,000 to pay the debts of same.

This is the last day that bills can be passed at the special session of the 35th legislature, which adjourns sine die Saturday, without unanimous consent.
A number of unpassed bills are on the calendars of both branches of the legislature.

Conference committees were appointed today to adjust the house and senate emergency higher educational institution appropriation bills.
The senate passed the house bill increasing the county school superintendents' salaries.
The conference committee has agreed on the pink boll worm bill, which provides that cotton may be destroyed to prevent the spread of the pest, after a hearing before a board of five, and must be compensated for.

1,362,872 IS THE NUMBER FRENCH SOLDIERS SLAIN

361,854 STILL UNACCOUNTED FOR. OFFICIAL STATE OF WAR MINISTRY TODAY STATES.

Associated Press.
PARIS, June 17.—The final official statement of the ministry of war, made public today, placed the total number of French soldiers killed during the war at 1,362,872.
Of this number there are no definite details of the fate of 361,854 soldiers that are listed and remain unknown, according to an article appearing today in the *Daily Matin*.

Cisco's New Post Office Building Is About Completed

The new postoffice building on Main street, opposite the Huey Motor company, is rapidly nearing completion and will be ready for occupancy in the next 10 or 15 days, according to proprietors of the building.
Fixtures for the federal office have been ordered and nothing is being overlooked in the expedient manner of finishing up work and other matters so that the post office may be moved to its new home as soon as possible.

Berean Club Officers Meet.

The officers of the Berean Club of the Baptist church met Monday evening with the class teacher, A. I. Skiles. Plans were discussed, looking toward the enlargement of the class by recruiting members and also methods of Bible study.

Associated Press.
CHICAGO, June 17.—The committee of 48 announced today that it will present two names on the American party ticket for a people's party from which to select a party name when it meets here on July 10 to nominate a presidential candidate.

LEERAY C. OF C. ELECTS FRASER ITS SECRETARY

NORMA LEERAY GUNTER OIL TOWN'S FIRST NATIVE-BORN CHILD.

200 CARS OF FREIGHT

C. & N. E. Passenger and Freight Service Is a Boon to Leeray.

Special to The News.

LEERAY, Tex., June 17.—At the last regular meeting of Leeray Chamber of Commerce, Malcolm Fraser of El Paso was elected to take charge of the publicity work of the new organization.
The meeting discussed publicity plans fully, determining to issue maps showing the considerable and daily increasing development in this field.
Fraser was recently state immigration commissioner of Arizona, and is a newspaper man of ten years active experience. He was successively secretary of the chamber of commerce at Prescott and Tucson, Arizona, and El Paso, Texas, having left that field in 1916 to act as private secretary for Governor Tom Campbell of Arizona.

Rigs are being erected daily in sight of Leeray, there having been an increase of 15 in the past week.
There are nearly 100 drilling operations within six miles of the town.
Building activity is also on the upward trend.
Three drug stores have been established in two weeks. A new fireproof garage was built in a week on Main street, which is now rivaling Commerce street for honors as the hub of business in Leeray.

May's freight record at Leeray station show over 200 straight car loads distributed from this center, and, with the service inaugurated Monday, providing a train both ways daily on the Cisco & Northeastern, these figures promise to be exceeded in June.

Norma Leeray Gunter, daughter of Mr. and Mrs. C. Gunter, is the first child to be born here. She began life at 4:30 Sunday, weighing 10 pounds; and, as her name implies, is called after the town. The mother only arrived last Friday.

Interstate Commerce Commission to Hear Express Co. Rates

WASHINGTON, June 17.—An application of the American Railway Express company for permission to file a schedule providing for reduced rates on refrigerator car charges on berries, fruits, melons and vegetables, in car load lots from southwestern points to points in Connecticut, Illinois and Massachusetts, was approved by the Interstate Commerce Commission today.

Johnson Wins Tennis Title.

Associated Press.
LONDON, June 17.—William M. Johnson, San Francisco American singles tennis champion, defeated J. G. Ritchie, in the fifth round of the London Lawn Tennis championship tournament today, in straight sets.

Committee of 48.

Associated Press.
CHICAGO, June 17.—The committee of 48 announced today that it will present two names on the American party ticket for a people's party from which to select a party name when it meets here on July 10 to nominate a presidential candidate.

MAKING CISCO AN OASIS.

The alterations and improvements on the Union Station should be great enough incentive for this city to make parks out of the littered-up odds and ends of property adjacent to it. We growled at the railroads about the appearance and lack of proper accommodation in our depot. They have fixed it up. Now they have just as much right to growl at us for our lack of civic pride in not keeping the grounds within the immediate vicinity at least clear of junk and rubbish.

It does seem that the people here do not care very much what a stranger, passing through on a train, thinks of this city as it looks out a car window. There is no doubt but that many passengers, if they take any notice of this place at all, remember Cisco as a little group of tents and boarded-up shacks. They mistake "Little Mexico" (on the other side of the tracks) for Cisco.

And on our side of the tracks what have we to counter-balance or change this first impression of a city we are trying to make something of? Up to this time we have had only a dirt street, leading to the belief that no part of the town was paved. Cement is now being laid on the upper half of Fourth street and will probably be started down toward the station soon. Good! The sooner we can show a paved street, where people can see it from the train, the better.

The next thing is to get some flowers and trees around the neighborhood of the depot while there is yet room for them. Tourists who have ridden for hundreds of miles through the arid places of this state will not soon forget a city where they are greeted with flowers, trees and well-kept surroundings. It is an oasis in the desert.

The sidewalks are looking pretty clean these mornings. Nobody seems to be sweeping any refuse out of his store onto the sidewalk, or from the sidewalk into the street. It was probably not so much the threat of arrest that has accomplished this as the thought: "Well, if they're going to make that man next door clean up once in a while, maybe it's worth while for me to start in cleaning up my walks again."

The fact that it is now possible to get to Eastland by another railroad route is good news. The new route is on the Katy to Mangum and thence to Eastland via the Ringling, Eastland & Gulf railroad. While this is rather a roundabout way and takes longer, it is good to have two or more ways to get into or out of anywhere just on general principles. And it means competing freight, also.

Your city is all right; how about yourself?

OPEN OPINIONS

WE HAVE STRUCK BED ROCK

Business in all communities is "quiet" now. There is relatively very little "barring over" of city property, or any other kind of property, at this time.

Consequently prices have been greatly reduced in recent days, and "bed rock" has been reached.

Many persons do not understand this situation. They think it means that business is dead, and that prices will just keep on falling.

And some think their own community is alone in being affected by this state of affairs, and that the bottom is going to drop out of business.

A little observation will convince any one that these conditions are general all over the country. Business is very quiet everywhere.

It is, however, in most places than in Cisco and I greatly believe that the turning point has been reached.

In his opinion, the man who buys a home in Cisco now will pay a less price for it than the one who buys after the first of August.

For many years I have been observing the progress of affairs in Texas. I can remember when the land now occupied by the buildings of the State Fair at Dallas could have been bought for \$10 an acre. Even then, some people expected to see the price drop to \$2.

A farmer was offered, for a \$40 pony, about three acres of land, in what now lies the heart of the city of Dallas. He turned down the offer, and lived to see the same batch of land worth many thousands of dollars. Now it is worth up into the hundreds of thousands of dollars.

He would have been glad to own the property when it was offered to him for his pony, but he expected to see the price "go lower."

In much more recent times lots in Cisco sold at from \$10 to \$20 a piece. The same lots today are worth many thousands, and some, thousands of dollars.

But in those days there were persons who wanted to buy, but expected to see prices "go lower."

Others had faith in Cisco, bought property, and have grown rich.

On the other hand, some persons get hold of a piece of property, and just hold it—hold it! It may rise in value to \$50 or 1000 per cent. And still they hold on, expecting to see the prices "go higher."

And prospective buyers go elsewhere, buy and settle down in other towns.

It is good for Cisco that this latter class of persons represent a very small minority.

The great majority of our property owners are anxious to do their part toward building up the town, and they are ready to sell property at reasonable prices.

Really, we have just about struck bed rock, and now is a good time to invest in Cisco property.

Cisco is not apt to have a population of 50,000 in the near future, but she is going to enjoy a steady growth for many years to come, and will always be a good town in which to own a home and build up and maintain a good business.

It is by far the best located town in the middle west.

A little better teamwork is needed and all will go well.—A. E. Baten.

OPEN OPINION OUR FIRE DEPARTMENT

While Cisco has shown marked improvements in all of its departments during the period of its existence, it is very probable that no public utility has improved in the same proportion as has the fire department.

The first department was organized over 25 years ago at a meeting of citizens held in a building which then stood on the present site of the post office. At that time it had no equipment whatever and for a long time its only asset was a group of willing workers.

The first equipment purchased by the organization was a set of red fire buckets. These were reinforced at the top and bottom with iron rims, and were very unwieldy.

Later a hose reel was purchased, and when the boys added to this a "modern" hook and ladder truck, they were well justified in claiming one of the best equipped departments in West Texas.

While the apparatus employed by these early-day fire fighters may seem crude today, yet no group of men work-

MODEL THIRTY-ONE NEVER GETS "RILED"

International News Service. TOPPER, Same, June 17.—That the Cop Ed Still is naturally good natured, but he always has a wit-

ness handy when the necessity arises.

The other afternoon Still stopped and a woman motor car driver when she tried to pass a wagon on a street intersection.

"Why didn't you take the wagon from in front of my car?" the irate driver demanded.

"The next time you come along this way don't your horn. Then if there's a wagon in your way I'll have it throw off the street."

Still countered with a grin. "The car moved on, but the 'cop' was the recipient of a 'red-hot' look as it sped away."

of more faithfully. They were always loyally assisted by the women of the town, who joined in carrying water from nearby streams, and usually had coffee and sandwiches ready to refresh the firemen at the end of a hard night.

An amusing incident is related in connection with a fire which destroyed a building near the present site of the Kingdom of Pythian hall. Water was being carried in buckets, as usual, and one enterprising fire fighter appeared on the scene with a small hand pump which when inserted in a barrel of water, shot a stream of water about eight feet.

Some was in the crowd suggested that they spit tobacco juice on the fire. He was repaid for his good advice with a bucket of water down the back of his neck.

About 15 years ago the Cisco fire department first began to send representatives to the district and state races. These meets are to the firemen of Texas what the track and field meets are to college athletes. At their first meet at Reno the Cisco runners secured third place, but at other meets in succeeding years they continued to improve until they finally secured the state championship and a couple of legs of the state cup. Their best mark in the reel race stood for some years as a world record.

Since its organization, the Cisco department has lost but one man in line of duty. In the fire which destroyed the Mayhew opera house, Bert Strickland was killed under falling walls. In his memory, a suitable inscription appears on one side of the firemen's monument on the state capitol grounds at Austin.

The present equipment of the department would be a credit to a much larger city than Cisco. It is ample to cope with any fire which may arise. By reason of this equipment, property owners in Cisco are not only relieved of great risks from fire, but are saved many thousands of dollars in insurance, on account of the big reductions made in the key rate after this equipment was secured.

The department plans for the future to increase its present equipment; to add more paid employees, and to secure increased housing facilities either in the remodeled municipal building or in a new home of its own on other property owned by the city.—Gomer Williams.

Cisco Gets Another Citizen

A big baby boy arrived at the home of Mr. and Mrs. L. L. Elzey of this city last week. Both mother and babe are doing well.

Elzey is in the land department of the Texas Company.

At a mass meeting in the City Hall, Thursday, June 17, at 8:30, the candidates of Eastland county will have opportunity to make their announcements to the voters. 14-41

For your banquets and special dinners see the Liberty Cafe. 14-45

All-Woman Government Now Rules Famous Wyoming Bad Men's Town

Women's government of Jackson, Wyoming. Left to right: Mrs. Mae Deloney, councilman; Mrs. Rose Crabtree, councilman; Mrs. Grace G. Miller, mayor; Mrs. Faustina Haight, councilman; and Mrs. Genevieve Van Vleck, councilman.

JACKSON, WYO., June 17.—This isolated little Wyoming community, which on May 15th suddenly attained national celebrity by electing women to all its municipal offices, is preparing with equanimity to become a matron.

It is confidently expected that the "petticoat government" to which it has committed itself will for two years set the best government in the state.

Time was when Jackson was as well as the "mothers" still insist on painting the west. Several five miles from a railroad, it is one of the most isolated points in the United States. It lies south of the Yellowstone National Park, close to territory which would be taken into the park under the terms of a bill now before congress and is surrounded by big mountains. Throughout winter it is virtually impossible either to come or go from Jackson. Its present population is about 350.

In the old days Jackson and Jackson's Hole were the rendezvous for a goodly portion of the bad men of the entire west. Whenever a serious crime was committed between the Mississippi river and the Pacific coast it was pretty safe to guess that the man responsible for it was either headed for Jackson's Hole or already had reached it. There he joined others for mutual protection, and respectable citizens knew better than to risk their lives in such company. The outlaw element lived and stole and killed about as it pleased.

Made Famous By Owen Wister. It was concerning those days that Owen Wister wrote when he made Jackson's Hole famous by his descriptions in "The Virginian," whatever he and all other writers of the west that was wrote about it was no exaggeration.

But times have changed. Today the "Hole" is one of America's most charming and peaceful valleys, ringed by craggy peaks suggestive of Switzerland, watered by numerous tumbling, sparkling streams and dotted with beautiful lakes. Several thousand tourists visit it annually, lured by the romance of its

past and the fame of its scenic attraction and unparalleled big game hunting. Essentially a "man's country," it is the more remarkable that the little metropolis of the region should have elected to turn its governmental management entirely over to women.

Mrs. Grace G. Miller, mayor-elect, formerly was Grace Green of Ottawa, Illinois. She has been a resident of Jackson's Hole for 27 years, her husband, Robert E. Miller, now president of the Jackson State Bank, having engaged in the cattle business in the valley in 1853.

Mrs. Mae Deloney, councilman-elect (the ladies of the new Jackson council may be courteously be called councilwomen) but by law they are councilmen.) formerly was Mae Moore of Ogden, Utah. Her husband, W. C. Deloney, is in the mercantile business. She has resided in the valley 19 years.

Mrs. Crabtree Defeats Husband. Mrs. Rose Crabtree, councilman-elect, formerly was Rose Myers of Weeping Water, Nebraska, and has resided here for six years. She defeated her husband, Henry Crabtree, a building contractor, in the aldermanic election.

Mrs. Faustina Haight, councilman-elect, was Faustina Forrester of Hastings, Nebraska. Since she came to Jackson's Hole 18 years ago she has taken a prominent part in educational affairs of the valley. Two years ago she was married to Dan J. Haight, a rancher.

Mrs. Genevieve Van Vleck, formerly Genevieve Lawton of Lawton, Michigan, has been a resident of Jackson for nine years. Her husband, C. R. Van Vleck, conducts a hardware and sporting goods business.

While proud of its distinction due to its selection of women for all municipal offices, Jackson is proud of its claim that a greater percentage of Jackson Hole's male population enlisted for service in the world war than of any other locality in the United States, and that in nearly all Liberty Loan drives it more than doubled its quota, and in one drive, the second, was the first Wyoming community "over the top."

ENTIRE TOWN SPRAYED BY GREASY OIL SHOWER

International News Service. OIL CITY, Kans., June 11.—Dry cleaners are doing a record-breaking business and housewives are wearing a "peevish" look as the result of an "oil shower" which struck this place when a full head of gas blew off Wednesday.

The "eruption," which lasted more than a half hour, sprayed the entire town with a greasy, oily liquid which created havoc among rugs, curtains, furniture and clothing.

Courtesy, coolness and sanitary conditions is what they have at the Liberty Cafe. 14-41

SCOUTS PLUCK FEATHERS OF EAGLES 4 TO 1

JOHNSON TIES GAME ON EARNSHAW'S TIMELY SINGLE IN 12TH.

BILLINGS HOLDS 'EM

Game Full of Thrilling Plays That Keep Fan Crowd Guessing.

Special to The News.

ABILENE, Texas, June 17.—In one of the most thrilling games ever seen in an Abilene diamond, the Cisco Scouts beat the Eagles Wednesday, 4 to 1, in a 12-inning nip-and-tuck encounter.

It seemed to be anybody's game up until the sixth inning, when the Eagles managed to squeeze a tally across for what looked like the winning run, as both pitchers were going so good, and were getting excellent backing.

Round after round passed by without either side marking up anything but base hits. The ninth, and ordinarily the final frame, came and the Scouts were fighting to the last man, as usual.

Ross Johnson initiated the beginning of the end when he singled to center, stole second and came romping home with the tying run on a single to right center by Earnshaw.

Both teams struggled desperately in the innings that followed, and while Monk Harrell, the Abilene speed demon, was relieved by Crosson in the tenth, the old dependable Josh Billings kept right on the hill for Cisco, and time after time turned the ring-leaders back groveling in the dust.

Upon the opening of the 12th, all the war clubs of the Scouts had been assembled together, with John King's wagon tongue. Chapman waited for four wild ones, and was neatly sacrificed to second by Billings. Neely took a hand in the operations at this stage, and scored Chapman on a two-base crash to left.

The feat that had taken 12 long stanzas to bring about was accomplished, but John King wanted to clear away all doubt from the minds of the well pleased fans. So, with a terrific smash, he drove the ball high over the right field fence, scoring Neely and himself.

The curtain had been drawn on a perfect day, and all that was left was the formality of going through the Eagles' half of the inning, which was terminated in a hurry by Billings, who seemed to be getting staidier as the game advanced. The box score:

Table with columns: Club, Pld, Won, Lost, Pct. Rows for Abilene, King, Flagg, Johnson, Faye, Earnshaw, York, Chapman, Billings, Totals.

Summary: Home run, King; two-base hits, Kizzlar, Neely; double plays, Abilene to Pemberton to Boggs, Earnshaw to York unassisted; sacrifice hits, White, Billings (2), Earnshaw; struck out, by Harrell 6, by Billings 4, bases on balls, off Harrell 1, off Billings 1; stolen bases, King, Segrist, Boggs, Johnson, Earnshaw; time of game, 2 hour and 25 minutes; umpires, Price and Easterly.

BALDRIDGE TOO MUCH PITCHER FOR EASTLAND

GORMAN, June 17.—The Buddies played an errorless ball behind Baldridge here Wednesday, and defeated Eastland 3 to 2. The affair was a pitchers' duel, with the palm going to Baldridge who allowed only two hits, both of which came in the third inning.

Eastland... Gorman... Batteries: Vance and Browning; Baldridge and Whitney.

RANGER GRABS 3-1 GAME FROM MINERAL WELLS

MINERAL WELLS, June 17.—The Ranger Nitros took the first game of the series from the Resorts here Wednesday 3 to 1. Lovelace for the Nitros knocked a home run, which was the feature of an otherwise steady, even battle.

Score by innings: R H E Ranger 000 000 000—3 5 0. Mineral Wells 000 000 100—1 4 2.

AMERICAN LEAGUE

Wednesday's Games. At Chicago... At St. Louis... At Cleveland-Washington, postponed; rain.

MOTHER SAVES TWO SONS FROM DROWNING

International News Service. WAHINGTON, N. D., June 15.—"Mother love" asserted itself here recently and prevented a double drowning.

Seeing one son about to sink for the third and last time while another made a vain effort to rescue him, was too much for Mrs. T. E. Cole, the boy's mother.

Plunging into the deep and swift waters of the Red River, she brought them both safely to shore.

Beat the high cost of living by eating at the Liberty Cafe. 14-6t

GIL'S GLEANINGS

The game at Abilene yesterday was a hummer. The Scouts showed how they can play the old game when they want to. They won because they played together, and everybody was fighting.

Big Johnny King may not be a 400 hitter, but he is a dream out there in the pastures, a scorcher on the paths, and say, when he gets those big loose jointed shoulders of his behind a ball, the stick just sorter groans, and the apple falls, and sails, and sails.

Ranger is keeping close behind us. Unless we win again today our neighbors at the Eastern part of the county will step past our Scouts again.

We figured Ole Josh Billings would come across with some rare twirling when the weather man turned out a few successive warm days. From now on, Josh will more than likely be one of the most dependable pitchers on the staff.

Billy Sunday, the famous evangelist, was at one time among the star ball players of Cap. Anson's Chicago White Stockings. He was one of the fastest men in the history of baseball, and held the record for a long time in circling the bases in the shortest time.

For 16 years out of the 15 that he has been in baseball, Ty Cobb has turned in at the end of each season a batting mark between .349 and .409. For two years he has passed the .400 mark.

Statistics show that Bill Killifer, one of the best catchers the game has known, is the hardest man in baseball to fan. In all of his seven years of big league work, Killifer has struck out only 92 times.

Three of the five leading batmen in the National League are Cincinnati Reds. They are Daubert, Groh, and Duncan, all of whom are clouting above .328.

TEXAS LEAGUE

Dallas 4, San Antonio 7. SAN ANTONIO, Texas, June 17.—After losing 13 consecutive games out of the last 20, San Antonio took advantage of the wild pitches of Landry and mixed ringing hits with other Marine misplays, winning 7 to 4.

Score by innings: R H E Dallas 000 300 000—4 9 2. San Antonio 210 210 102—7 10 1.

Batteries: Landry, Conley and Irwin; Stewart, Davenport and Gibson.

Shreveport 5, Beaumont 3. BEAUMONT, Texas, June 17.—After the Exporters knocked Floyd Kroh out of the box in the fourth, Joe Gleason held safe for the remainder of the distance, Shreveport winning the first game of the series, 5 to 3.

Score by innings: R H E Shreveport 000 211 000—3 7 1. Beaumont 010 300 000—3 7 1.

Batteries: Montague, Kroh and Vann; James and Stansbury.

Wichita Falls 0, Houston 3. HOUSTON, Texas, June 17.—Pearson outpitched Zinn in the opening of the series here Wednesday and shut out Wichita Falls, 3 to 0.

Score by innings: R H E Houston 000 000 000—3 8 0. Wichita Falls 000 000 000—4 11 0.

Batteries: Zinn and Kitchens; Pearson and Noyes.

361,435 Automobile Licenses to Date Is Texas' Record

AUSTIN, Tex., June 17.—Late figures announced by the state highway department placed the number of automobiles registered in Texas at 361,435.

Since the beginning of the year 46,679 transfers of second-hand cars and trucks have been recorded, and 15,756 chauffeurs were licensed.

Motorcycle registration totaled 3410 and dealers' licenses 2447. Total number of duplicate seals issued was 3597.

Looney Comes Back At Accusers: Says They Are Lying

The News is in receipt of the following signed statement from C. S. Looney, local constable, relative to an article appearing in Wednesday's News concerning a complaint having been filed in the County Court by G. A. Bock against Looney, and gives it space for consideration of the general public.

The article appearing in the Cisco Daily News of June 16, under the head of "Constable Is Sued by Local Contractor; Trunk Causes Action" George A. Bock, local contracting painter, has filed suit against Constable C. S. Looney, by whom Bock claims he was unduly arrested on alleged theft of a trunk a few weeks ago, and imprisoned without being allowed bond, or to see a lawyer.

This article is entirely without foundation as Bock not being allowed an opportunity to make bond. Upon his arrest, it was stated that the trunk was at the home of a citizen in Cisco; immediately Constable Looney proceeded to the home to get the trunk, it had been removed, and the occupants had no idea where. Upon investigation with Bock, he was asked where the trunk was, he answered he did not know. Looney said you will have to know, Bock still did not state where the trunk was; Looney proceeded to arrest Bock, file a suit against him, and took him to the calaboose; allowed him bond for \$100 to appear in Eastland the next morning at 10 o'clock, gave him a blank bond to fill out, and presented indictment upon his appearance, and presenting indictment to the county attorney, it was found the indictment had been drawn up wrong; he was dismissed, and the county attorney filed a new suit against him. Judge Taylor set his bond at \$200 for his appearance at Eastland June 14, which Bock gave. Up to this date, June 17, the case has not come up for trial.

Referring to the article saying that a case had been filed against me, I know nothing of only what was seen in the Cisco Daily News of June 16, as no notice has been given me. Believing this to be a campaign lie, trying to hurt me while I have been laid up at home from rheumatism, not able to be on the street and hear the lies that are being told on me and my administration, I challenge any one to bring a case where I have not performed every duty that the office of constable is held responsible. I have labored for the people and to the best interest of the people—C. S. Looney.

More than 20 window panes have been broken in the school buildings of Cisco since the close of school the 28th of last month. This has been done by small boys with "nigger shooters." It is no uncommon occurrence for persons to pry open windows, force open doors, or otherwise gain admittance to the public school buildings at night and other times, and then to deface the walls and blackboards, throw crayons and erasers over the floors, steal books and other articles, and in many other ways, damage school properties. Every effort has been made to put a stop to these depredations, but to no avail. Such a situation is a disgrace to any civilized and cultured community and must be stopped. In view of these facts, the School Board has voted to offer a reward of twenty-five dollars for the arrest and conviction of any person who dares to trespass on school grounds or enter school buildings unlawfully, or who steals, breaks, defaces or otherwise damages school property belonging to the Cisco Independent School District. This is official notice of this action on the part of the School Board. Signed: E. P. Crawford, Secretary, J. J. Godbey, Superintendent.

Lake Morat in the Swiss Alps, turns red every ten years, owing to the presence of a tiny plant which is visible only through a microscope.

Too Late to Classify

WANTED—NOW! IF there is a real, honest-to-goodness stenographer and office girl in Cisco looking for a position we need her. The one we want must know how to spell correctly, answer ordinary business letters in an intelligent manner; talk to visitors intelligently and devote at least one-half of an eight-hour day to our interest. Above all, she must be a human being. We have no place for touch-me-not wall flowers or walking paint stores. Age is no barrier. If this ad catches the eye of such a one call at our District Office, Mayhew Bldg., West Broadway, Pay? Every penny you are worth, and unless you are worth good money we can not use you.

ENGLISH VIEW COTTON CROP IS PESSIMISTIC

SHORT CROPS AND HIGH LABOR COST CAUSE OF PRESENT TROUBLE.

NEED A SUBSTITUTE

Indications Are World's Small Output Will Not Be Re- lieved Soon.

Associated Press.

MANCHESTER, England, June 17.—Professor J. A. Todd, secretary of the empire cotton growing committee of the board of trade, has just delivered to the Textile Institution a warning of the prospective world scarcity of cotton in the near future and emphasized the need for developing new sources of supply as well as experimenting with cotton substitutes.

After dealing exhaustively with the labor position in the United States cotton growing areas, bad weather, and ravages by boll weevil as well as the storage position, the professor said, "It is obvious that we were not going to get 5,000,000 bales of cotton this year."

At home it seemed to him that the consumers had not yet felt the full weight of the high cost of the raw material.

Even in America he did not see much sign of the consumer's intention of doing without cotton fabrics.

The statistics for America's domestic consumption for the first three months of this year were on a basis unaccountably near to 7,000,000 bales a year. British consumption before the war was nearly 4,000,000 bales and the total American crop last year was only 21,000,000.

What was going to happen when the rest of the world—and particularly the continental countries—woke up and began to demand more cotton?

By next year, he said, the continental mills probably would be more active than now and the demand increased and the Oriental demand would also be much higher.

So long as the workers and producers of the world were making so much more money than they ever did before, he did not see how the demand for cotton goods was even going to be substantially reduced.

The world was not producing sufficient cotton to meet this demand and was not likely to do so unless some way was devised of making use of even the lowest grades.

It was a question of time, he asserted, when the world would face a scarcity of cotton and it was high time, therefore, that something was done to develop a new source of supply, for even when they were found they would not be able to afford substantial relief for five or ten years.

He was not sure that the time had not come for them to look around for an efficient cotton substitute, for the world was full of textile fibres which had never been exploited.

MADE SURE HIS SUICIDE
WOULD BE SUCCESSFUL.
EUREKA SPRINGS, Ark., June 17.—Charles Buchanan, 36, a department of justice agent, took no chances on failure in his attempt to shuffle off the mortal coil here the other day.

After placing a noose around his neck he shot himself twice beneath the jaw and then leaped away a barrel, upon which he stood.

Life was extinct when his body was discovered and cut down.

BLOOD TESTS PROVE GIRL AS A NEGRO

International News Service.
OMAHA, Neb., June 17.—The hopes of Thora McCree, 14, were dashed recently when she was classed as a negro as a result of blood tests.

She appealed to the authorities in the belief that she was purely of white blood, and asked to be taken from negroes, who said they were her parents.

Her request was granted, but she will be placed in an eastern home for negroes.

CONDITIONS AT GALVESTON ARE TOLD TO PUBLIC

Association of Commerce Makes Statement in Strike and Martial Law Matter.

Special to The News.
GALVESTON, Tex., June 17.—Conditions in connection with the strike of longshoremen here which led Governor W. P. Hobby to place Galveston under martial law on June 7, have been made public by the Galveston Association of Commerce.

These conditions, according to the association were:

Charterwise longshoremen went on strike on March 19, demanding an increase in wages from 60 to 85 cents an hour for regular time, and an increase of 90 cents to \$1.20 an hour for overtime and Sunday work.

Approximately 1500 dock workers, employed by the Mallory and Morgan steamship lines walked out.

During the next several weeks the coastwise companies did not attempt to land or discharge cargoes here.

Then they began a policy of utilizing non-union workmen under police protection. This action, according to the association's statement, quickly led to a small disorder, and fire fights in the vicinity of the wharves became a nightly occurrence.

Ill-feeling between strikers and the open ship workers culminated in the statement said, in an attack on an inter-union car loaded with non-union workers.

The car was riddled by bullets and an automobile racing alongside the car fired upon by police guards.

Another inter-union, a regular passenger car, had been fired upon previously, it was said, but no one injured.

After these occurrences the Mallory line moved its southern terminus from Galveston to Port Arthur, Texas, and diverted its shipping to that port.

Approximately three acres of warehouses some, however, were packed to the roof with accumulated freight, both incoming and outgoing.

This congestion brought numerous protests from merchants and manufacturers in all parts of the state, who asserted their business was being seriously handicapped by delays in their shipments.

This congestion, according to the statement, led Governor Hobby to intervene with state militia at noon on June 7th.

A young woman of Montreal who broke her engagement to wed has been given an option by the court of returning to her former fiancé the fur muff and bird of paradise he gave to her as pre-marriage gifts, or reimbursing him to the extent of ninety-five dollars.

WAR CAT OUT; REAL PEACE IS VERY DISTANT

SIR HENRY WARNS BRIT- ISHERS TO PREPARE BIG- GEST OF SCRAPS.

TICKLISH TIME AHEAD

"Keep Fit and Ready for It; It Is Coming When You Must Fight Again."

By Floyd MacGriff.

International News Service.
LONDON, June 17.—The war-cat is out of the bag again.

Sir Henry Wilson, field marshal of the British army and director-general of operations at the British war office, says:

"We have been told that we went into the war to end war. We did not; we went into it to save our skins.

"We were told that after the recent war we were to have peace, but we have not got it. There are at present between 20 and 30 wars going on.

"We were told that the war was to end war, but it was not; it did not and it could not."

Addressing the officers of the various British army services at the Union Jack Club, Field Marshal Wilson said:

"I hope you men, to whatever branch of the service you belong, will do all you can to keep fit and ready for the time that is coming. Except in August, 1914 our country and our empire have never wanted you more. We are living in ticklish and dangerous times, and our

AUTO THIEVES WORTH MORE DEAD THAN ALIVE

International News Service.
OTAWA, Kan., June 17.—Automobile thieves here are worth more dead than alive.

In telegrams sent out to police headquarters of surrounding cities a reward of \$500 was offered for the body of the thief who stole a motor car from an Ottawa automobile company yesterday.

An additional \$100 was offered for the recovery of the car.

command on sea, on land and in the air is being challenged in various parts of the world.

"I hope you will carry this—warning if you like it—away with you from a very old soldier who knows what he is talking about."

Sir Henry's statement, cool and calculated, has aroused considerable debate. The Westminster Gazette hails it as a highly courageous declaration of truth which many British politicians have sought to hide.

A member of Parliament who sought further enlightenment on the question, being particularly concerned as to what power Britain would fight with—Russia or the United States—got no satisfaction.

STOLE PIE, BUT PINCHED BEFORE HE COULD EAT IT

International News Service.
HUTCHINSON, Kan., June 17.—William Taylor was paroled from the state reformatory here by Governor Allen the other day.

The parole was requested by both the judge and county attorney who declared that Taylor had done nothing more "Tevicious" than to steal a piece of pie.

They clinched their argument by showing that Taylor was arrested before he could eat it.

Taylor had been an inmate of the reformatory for six weeks.

The Home of Hart Shaffner & Marx Clothes.

Clothes as Cool as the Lake Breezes

COMFORTABLE? We'll say so. Satisfying? To be sure. Those are the expression that come from every wearer of our Summer Comfort Clothes after giving them a real test. They remain as spic and span at 100 degrees as considerably cooler—just because style, tailoring and quality are bred into them.

You didn't know Palm Beach came in dark shades? That's nothing. Lots of folks call any summer cloth "Palm Beach." Be your choice light or dark—you'll find it in solid shades and patterns that closely match fine worsteds.

Another popular summer cloth is the "Mohair"—especially for the older man. We are showing a large variety of these suits in solid shades, stripes and most everything which can be desired for summer wear.

STATE HEALTH OFFICER SAYS TO WATCH THE FLIES

Issues Appeal to People For Co-operation in Killing Typhoid- Breeding Pests.

Associated Press.

AUSTIN, Tex., June 17.—With the advent of warm weather and flies typhoid is beginning to exact its toll in Texas, according to reports reaching the state board of health, and Dr. C. W. Goddard, state health officer, issued a warning to every community to keep a careful watch upon the purity of its water supply and to properly dispose of all human excreta in a safe manner.

He issued the following statement: "Keep under surveillance every infected person or carrier, and people in rural communities should provide safe methods of night soil disposal. Typhoid

infection is spread through human filth improperly disposed of. It is sometimes carried by storm water to truck and fruit patches and yards where children play.

"It can be carried for long distances by underground seepage to water supplies. It can be scattered by the feet of persons, dogs, cats, rats and other animals. It can be carried direct to food of persons by flies.

"Contaminated water, if used for washing milk vessels or other food containers, may carry the infection to the food. Oysters or other shell fish grown in contaminated water may carry the infection."

PRESTO!

Now you see them and now you don't. That's the transformation that will take place with the spots, the grime, the shiny wear on your last season's clothes if you let us exercise our magic cleaning powers on them.

We'll surprise you with the amount of extended wear you can get out of those clothes. You'll be surprised at the fresh, crisp, bright, clean and dressy appearance that we'll bring to life in them. Buy new clothes if you like, but for economy's sake wear out the old ones especially when we can make them look like new at a trifling cost.

We clean the "odorless way"—your clothes come back minus any odor whatever—and like new.

To Keep American Ships on the Seas

For the first time since the Civil War we have a real merchant marine. It cost us \$3,000,000,000 to get it.

The farmer, manufacturer, laborer—every American is interested in holding our position on the seas.

As a first step in this direction it is necessary to modify those articles of existing commercial treaties which have operated to thwart the upbuilding of our merchant marine.

By giving the notice of termination for which the several treaties provide.

This action is directed in the constructive Shipping Bill now before Congress;

Which declares it to be the policy of the United States "to do whatever may be necessary to develop and encourage" a merchant marine.

This policy deserves the support of every American.

Lacking this support the present effort to maintain our merchant marine may suffer the fate of many ineffective attempts of the past.

Send for a copy of "For an American Merchant Marine."
