CISCO, TEXAS, WEDNESDAY, JULY 15, 1925

NUMBER 102

CONTRACT LET FOR

Newspaper Correspondent Got a Scoop From Tennessee Judge Without Latter Knowing It --- Dayton Is Quiet Today

HAY STACK AT EOLIAN GIVES UP MAN WANTED

EOLIAN, July 15.—Stephens county officials yesterday arrested Frank Howard, known in the oil fields as "French," as he emerged from a hay stack near where he had spent the night. The climax came as the wind-up of an all-night hunt on the part of the two deputies, who had been "tipped off" Monday night that Howard was in the vicinity. Howard is charged by complaint filed in the district court with theft in connection with stealing of tools in 1924. Warrant for his arrest was issued in June, 1924. It is thought by the arresting officers that he is also wanted in Fort Worth.

ROMNEY CAMP MEETING WILL START FRIDAY

Beginning Friday the Baptists will commence a three weeks camp meeting at Romney, ten miles south of Cisco. Rev. A. C. Miller, pastor of the First Baptist church of Cisco, will do the preaching at the morning hours, and Rev. W. R. Underwood, pastor of the Albany church, will do the preaching at the evening hours. Jackson brothers of Fort Worth, will conduct the song service. This camp meeting is proposed to take on the elements of the spirituality found at the old fashioned Baptist camp meetings, where all are welcome, and invited to come and camp, and spend as much of the three weeks as possible on the grounds.

I. C. C. ORDERS NEW RATES ON HAY AND GRAIN

WASHINGTON, July 15.—The Interstate Commerce Commission today held that freight rates on hay, straw and related articles from Oklahoma to Texas were unreasonable. The commission also held that the rates applying on such products between points in Texas unfair to Oklahoma shippers. At the same time the commission ruled that rates on similar articles from the Texas panhandle to eastern New Mexico, Oklahoma City and Kansas City, were unreasonable. The commission prescribed reasonable rates and ordered the railroads to put them into effect October 12.

SUPERINTENDENT OF KATY DINING CAR SERVICE DEAD

SAN ANTONIO, July 15.—C. O. Johnson of Parsons, Kansas, superintendent of the dining car service of the M. K. & T. railroad, was found dead in a room at the Robert E. Lee hotel here this morning. Death resulted from natural causes.

HICKS CHILDREN PLACED IN WACO METHODIST HOME

The children of the late W. T. Howell, deceased son of Mrs. A. M. Hicks, who died at the home of his mother here May 15, have been admitted to the Methodist home at Waco, and are now in school. They write their grand mother that they are delighted with their surroundings. Their ages are ten, nine, seven, six and four.

DAYTON, Tenn., July 15.—In a court room breathless and tense, Judge Raulston this morning confirmed the International News service report carried late yesterday that the anti-evolution law had been held constitutional. William K. Hutchinson, International News service correspondent, who faced a citation for contempt of court should it be found by an investigating committee of other newspaper men that he resorted to trickery to gain information by which he scored a "scoop" of 18 hours over the entire field, was supported by all of the newspaper men except one. The court dropped the matter, but asked where Hutchinson secured his information. "It came from your honor," the chairman of the committee said. "How was that?" asked Judge Raulston. The chairman then repeated a conversation between Hutchinson and the judge when they met on the street yesterday. "Will there be court tomorrow?" the correspondent asked. "Yes," the judge replied. Hutchinson, of course, deducted that if the law was held unconstitutional the case would end and there would be no further sessions. The session opened peacefully this morning when a noted evolutionist said the prayer.

WADE JOHNSTON WAS ROCKED AT BURBANK, CAL.

Wade Johnston and family have returned from an overland trip to California. They were joined by Mrs. Johnston's parents at El Paso, the two families making the trip together. They were at Burbank, Cal. about 100 miles away, when the recent earthquake shock caused such great damage to Santa Barbara. Burbank experienced several tremors, but no damage was done at that point. Leaving out the earthquake menace, Mr. Johnston says he would still prefer life in the Cisco Country, because of better average climate and better business conditions.

RICHARDSON TO LEAVE TONIGHT FOR THE VALLEY

G. C. Richardson will leave tonight, via Fort Worth, for Brownsville, where he will take up his duties of secretary of the Brownsville chamber of commerce, which position he accepted a few weeks ago. Mrs. Richardson and the girls will remain in Cisco until the school term begins, when they will join Mr. Richardson in the metropolis of the valley. In leaving Cisco Mr. Richardson will leave a host of friends whose best wishes go with him where ever he may be. Brownsville is to be congratulated on securing him as the executive secretary of that city's commercial organization. That he will annex many warm friends in his new home is the prediction of all here, for there is no more congenial gentleman anywhere. With that hearty cooperation he will receive from the live ones at Brownsville, his success as the directing head of that chamber of commerce is assured. With Richardson directing affairs of that organization deep water at Point Isabel, the seaport of Brownsville will only be a matter of time.

BABE RUTH SUFFERS INJURY IN SOX GAME

CHICAGO, July 15.—Babe Ruth wrenched his side in racing after a hot outfield fly in the first inning of the Yankee-White Sox game Thursday and was taken out of the game. He was not seriously hurt. Smithville—Main street to be paved at early date. Port Arthur—Plans under way for improvements at Central hotel to cost \$40,000.

Sweethearts 63 Years—Though Wed

COL. and MRS. EDWIN S. ORMSBY INTD. "We were sweethearts before we were married, and we've succeeded in staying that way," declared Colonel and Mrs. Edwin S. Ormsby, of Los Angeles, in celebrating their 63 years of married life.

GERMANS ASK U. S. TO JOIN IN POLE TRIP

BERLIN, July 15.—The United States was today asked to join Germany in an expedition by dirigible to the North Pole, each country operating a giant airship, the two keeping in constant touch during the trip. The invitation was extended by M. Eckener, the pilot during the trans-Atlantic delivery of the big naval dirigible, Los Angeles.

JAPAN PUTS HER O K ON U. S. A. ATTITUDE CHINA

TOYIO, July 15.—Japan approves the attitude expressed by Secretary Kellogg of America with regard to a powers policy in China it was announced today. Menimusho, speaking for the foreign minister, said Japan believed President Coolidge's expressed opinion at the Washington arms conference was the best method for handling China.

JUDGE SMITH OF AUSTIN, GUEST OF CISCO LIONS

The members of the Lion's club enjoyed quite an interesting program at the luncheon at LaCacia Inn today. Jack Daniels rendered several piano solos which were enjoyed by all. Lion W. K. Johnston told of the thrills of being in the vicinity of the recent California earthquake, and also spoke of the scenery to be enjoyed on the route. Judge Smith, of the game, fish and oyster department, at Austin, who is inspecting Lake Cisco with a view of establishing a fish hatchery and game preserve, was introduced by G. C. Richardson and delivered a very interesting address along the lines of what his department is endeavoring to do toward preserving the fish and game of the state. He spoke highly of Cisco and her improvements, especially commenting upon the foresight and cooperation of the mayor and citizens in building such a structure as Williamson dam. Dr. Charles C. Jones, as a member of the school board, spoke of the repairs contemplated on the west ward school and old high school buildings.

140,000,000 FT. GASSER RUNNING WILD

FORT WORTH, July 15.—A terrific battle is raging between scores of oil field workers and a huge gasser that is running wild in Hutchinson county, in the panhandle district, according to reports received here this morning. Torpedo companies here are rushing loads of nitro glycerine to the scene in an effort to stop the flow of gas that is estimated at one hundred and forty million cubic feet per day. The well is believed to be the largest gasser ever completed in the entire southwest.

COMMISSION GRANTS \$618,500 FOR TEXAS ROADS

AUSTIN, July 15.—State aid grants aggregating \$618,500 are announced by the state highway commission. None of the funds will be available until after January 1, 1926. Galveston, Houston and Ellis counties were awarded aid with the understanding that the counties were to go forward with the project on county funds and that the commission would divide total costs on a 50-50 basis. Galveston county with a grant of \$471,000 to build a concrete highway from Galveston to the Harris county line, tops the list. Houston county was granted \$37,000 for grading and drainage of highway No. 19. Ellis county was awarded \$100,000 to be expended on the Midlothian to Ennis highway and \$10,000 for graveling the Alvarado-Venus road.

RICHARDSON HOME TAKEN BY MR. AND MRS. J. W. LEWIS

Mr. and Mrs. J. Whitney Lewis have leased the G. C. Richardson home near Humbletown, and are now occupying this delightful place. They are from Tulsa to Cisco, and Mr. Lewis is an oil man who has been in this field for some time, but they have been occupying apartments at a hotel until taking this home. Until their household goods arrive they are using the house furnished.

San Angelo—Sheep sales active; 11,527 head shipped from here during one week.

CHINESE WANT POISON

LONDON, July 15.—Chinese militarists have employed German experts to make poison gas for them, and Russian experts to train troops it was learned today from an announcement made in the house of commons.

MUCH ACTIVITY IS REPORTED IN CISCO REALTY

There has been quite a bit of activity in real estate in Cisco during the past few days and several pieces of residence property are reported to have changed hands. Among the new citizens who have bought homes here J. H. Reynolds of Corsicana, has just closed a deal whereby he becomes the owner of the W. H. Morse home at Fourteenth street and M avenue. Mr. Reynolds is an oil man and is operating in the fields around Cisco. This purchase will be used as a home for himself and family. G. E. Limrick, rural mail carrier, is the new owner of the W. W. Johnston home at 2001 D avenue, the deal having been closed this week, it is reported. Other deals are pending, it is stated, and several new homes are being contemplated, among these it is rumored that A. A. Hutton is soon to build a new home. At the present rate of increase in Cisco's population many new houses will have to be built to take care of those who want to make their homes in Cisco, unless the old practice of housing two and three families in one building is again resorted to, as was the custom from 1918 to 1920.

GARNER'S SALE PARTICIPATED IN BY CROWDS

The big sale now going on at the Jno. H. Garner's department store is attracting huge crowds of buyers who are participating in the bargains being offered the public while this sale is on. Monday and Tuesday was said to have been the banner days of the sale, and on each day the sales force was taxed to look after the crowds that were eager for the bargains offered.

WILL ATTEND BAPTIST MEETING AT LUEDERS

Rev. A. C. Miller, pastor of the First Baptist church, and Asa Skiles are attending the Baptist camp meeting now in progress at Lueders. Others who will go over so far as learned, are Mr. and Mrs. R. Lee Poe and Mr. and Mrs. E. J. Poe and children. S. C. Walker will also be one of the Cisco folk who will attend the meeting.

NEW RESIDENTS

George A. Voorhies and family, formerly of Okmulgee, Okla., are now residents of Cisco and have taken rooms in the R. A. St. John home for the present. Mr. Voorhies is an experienced oil man and thinks the oil future of the Cisco Country exceedingly bright.

AS RIVERS RAGE

LONDON, July 15.—Three thousand are dead and 100 injured as a result of floods in a vast area in Korea, according to a Japanese newspaper printed in Tokio. Relief trains and ships are speeding with supplies for the relief of thousands made homeless by high water. The heaviest rain in many years sent the rivers on rampages.

H. C. BOLLINGER CAME TO CISCO FEB. 26, 1883

Henry Bollinger, a resident of Cisco since February 26, 1883, called at the Daily News office this morning and renewed his subscription to the paper. Mr. Bollinger came to Texas in 1874, from his birthplace near Charleston, Ark. During his long residence in Cisco Mr. Bollinger has been an active, earnest citizen. He was city marshal of Cisco for fifteen years, constable four years and served as deputy sheriff under Jim Smlick, Sam Finley, Joe Whitesides and John Nobles. Although past 67 years of age, Mr. Bollinger is as hearty and hale as one could wish and works daily at his trade of carpenter. He is a good carpenter, too, and a good citizen and the Daily News is proud of the fact that he is a regular reader of this paper.

A DEFICIENCY WARRANT ASKED FOR BY MARRS

AUSTIN, July 15.—State Superintendent S. M. N. Marrs today asked Governor Ferguson for a deficiency warrant for one thousand dollars to pay per diem and expenses of the text book commission. Funds supplied by the 38th legislature were exhausted by the expense of the extra meeting. The cash appropriated by the 39th legislature will not be available until September 1.

PUTNAM MAN DECLARES WILL BE U. S. CITIZEN

ABILENE, July 15.—Abdalla Kojack, 31, Putnam salesman, has filed a declaration of his intention to become a naturalized citizen of the United States with the deputy United States clerk here. He gives his birthplace as Barouth, Syria, his last foreign residence Tripoli, Syria, and states that he landed in the United States on August 1, 1905.

DR. J. H. SURLIES RETURNS FROM EXTENDED ABSENCE

Dr. J. H. Surlies has returned to Cisco after an absence of several months spent in different parts of the state. He stated that he visited many places, but found conditions around Cisco the best he had seen, and was glad to be at home again.

MISS DELLA BRIDEN IS BRIDE OF FELIX HARRIS

At the parsonage of the First Methodist church in Cisco Tuesday afternoon, Rev. T. E. Bowman, pastor of that church, united in marriage Miss Della Briden to Mr. Felix Harris. Mrs. Harris is a daughter of the late William Briden, and a former well known Cisco man, and the family is one of the oldest of this section, who have a score of friends in Eastland and Stephens county. Mr. Harris is with the Manhattan cafe. Their home will be in Cisco.

LORAIN TO VOTE ON \$30,000 BONDS

LORAIN, July 15.—Lorain voters will decide Aug. 11 whether they desire to issue bonds in the sum of \$30,000 for improvement and extension of their water system. Recently Lorain overwhelmingly adopted the general paving law provisions for paving the Bankhead highway through town.

men when people say they want to eliminate the middle-man and his toll of profit.

All service has to be paid for, in trade as elsewhere. Economy lies along the lines of simplifying trade, shortening the chain from producer to consumer.

DRESS EXPENSE

The census bureau finds that the American clothing bill is \$5,000,000,000 a year at the factories and \$15,000,000,000 a year when it reaches the consumer.

A large part of this expense, clothing men say, is unnecessary. They refer to the expense caused by the rapid change of fashions, especially feminine fashions, which keeps manufacturers guessing and experimenting.

But, as the president himself added, there is no visible way of bringing that about. And if there were, it would probably be at a sacrifice that most people would not care to make.

Ask almost any man whether he would like to see women "dress like men," and he will probably reply that he'd rather pay the present bills than subject the variable and colorful sex to masculine dullness and uniformity.

MEN'S EARRINGS

Jewelers in London and Paris are said to be displaying earrings for men. What is more remarkable, fashionable young men are said to be wearing these ornaments.

"And why not?" inquires a man who rather looks forward to the adoption of the style in this community. These ornaments, he remarks, have been a fascination through the ages.

It is all right, of course, if men really want to pierce their ears and wear fancy or plain gold earrings. They may even try nose rings and other simple ornaments which still are much affected by hardy savages.

THE PERMANENT PASSENGER

The White Star line has acquired an apparently permanent passenger, a stowaway without a country. It began last April when Samuel Dascheresky was discovered as a stowaway on the Adriatic.

He was taken again to England, where he was supposed to be reshipped to Russia. The British, however, found some flaw in his deportation papers and returned him to New York.

The man has been adjudged insane and is confined to the ship's brig.

It seems to be a striking example of the futility of trying to wind up red tape in solving any acute human problem. This unfortunate man probably will not spend all the rest of his life on the high seas, unless he dies soon.

In the meantime he will probably make a world's record for trans-Atlantic voyages.

Bigger and better thefts must be the burglars' current motto. News items from New Orleans and New York describe the stealing of a piano from a home and a locomotive from a round house.

COLLEGE INSURANCE POLICY

Three years ago, when a certain father of three small children took out three endowment life insurance policies, one for each child, to guarantee their college education, it was regarded as a novelty.

That will send many a boy and girl to college who otherwise might lose the opportunity. And the mere effort to sell such policies promotes education.

A survey of "Who's Who in America" shows that out of the same number of each group the following will attain distinction:

- 6 uneducated men;
24 men with common school education;
622 men with high school education;
5,768 men with college education.

"What chance will your child have?" is the obvious question. Here is good salesmanship, good educational propaganda and good thrift, all combined.

THE LIFE OF A TIRE

Automobile tire manufacturers agree to cut tire production. This is their way of meeting the situation caused by the growers' cut in rubber production.

It is a natural and proper measure, which need not bring hardship to the consuming public, and which should benefit automobile owners if they do their part.

And what is their part? Obviously to make their tires last as long as possible, and so ease up the pressure on the tire industry until rubber production catches up with necessary consumption and prices become more reasonable.

SHORT BUYING

Buying, as market observers all report, continues steady and in good volume, but with a notable difference from former practices. People buy in small quantities.

This is a convenient and safe method, facilitated as it is by improved transportation; but it is a costly one. It means much handling by many people, which all has to be paid for.

Hates Sheiks

MISS GIZELLA WATTENBERG, of New York, is "off" sheiks—real ones—for the rest of her life.

from?" asked the other, with chattering teeth. "Oh, I don't know. Papa's had it for a long time. I expect it was his first patient."

One of the usual four for bridge had fallen to turn up and a friend from next door was persuaded to fill the gap.

She had slight knowledge of the game and before long played the king unnecessarily on her opponent's ace.

"But partner," exclaimed the host, "a king cannot beat an ace!" "I know that," was the reply.

A number of little girls were boasting about their respective

State Executives at John D.'s Home

GOVERNORS AT BAR HARBOUR, MAINE

During their convention at Bar Harbor, Me., a group of governors accepted an invitation to visit the estate of John D. Rockefeller. Shown above, left to right, in the front row are: Gov. Brewster of Maine, Mrs. E. Lee Trinkle, Gov. Nellie Ross of Wyoming, Mrs. Brewster, Mrs. Harriet Ogden of New York and Gov. E. Lee Trinkle of Virginia.

SEEKING HEIRS OF JOHN MAY IN THIS SECTION

EASTLAND, July 15.—John May, or his heirs, said to have moved to this section of Texas from Wadesboro, N. C., in 1870, is an heir or heirs to an estate of \$25,000 in North Carolina. It is stated in a letter from R. B. Medley, of the firm of Medley & Wall, of Wadesboro, N. C., which was addressed to the clerk of the county court here. The county clerk is requested to make an effort to locate Mr. May or his heirs in order that they may be permitted to claim their property.

CONCENTRATE EGGS AT EASTLAND C. OF C. ROOMS

EASTLAND, July 15.—For the present, it is announced, the chamber of commerce here will take care of the concentration of Bankhead Poultry Producers association eggs, it is announced. The place of concentration has been the Eastland hatchery, but due to the fact that it is closed until the fall hatching season opens, there is no one on the ground to receive the eggs and insure their delivery to the association truck. All producers are directed to bring their produce to the chamber of commerce until the hatchery opens again and further announcement is made.

ARRESTED IN RANGER FOR CAMPBELL & FAGG BURGLARY

RANGER, July 15.—Raymond Price, 24, was arrested in Ranger last night by Chief of Police Daventon, and placed under arraignment on charges of theft and receiving and concealing stolen goods. In Price's room in the boarding house where he was staying, was found a number of shirts which had been stolen from the firm of Campbell & Fagg, of Eastland, in addition to a number of automobile tires. The shirts were identified by T. L. Fagg.

Lost Wife

EDGAR JORDAN

Edgar Jordan of Somerville, Mass., saved his life by dropping under a table when the Pickwick Club building collapsed at Boston, July 4th, but his wife was pinned under wreckage for nine hours and died soon after being rescued.

HEAVY DOCKET AWAITS COURT'S RECONVENING

EASTLAND, July 15.—Thirty-three cases have been set for submission to the 11th court of civil appeals here during the month of October. The following are the cases which have been set for that time: October 2—Scraper independent school district vs. state of Texas, ex rel W. T. Leveridge et al.; O. L. Moon et al vs. O. H. J. vs. Frank Havron Sr.; Crazy Well Water Co. vs. John Campbell et ux; Reabold Lumber Co. vs. E. A. Scripture et al.

LOWER TAX IS EXPECTED OF STATE BOARD

AUSTIN, July 15.—Prediction that the state automatic tax board in its meeting of July 20 would be able to lower the rate from 75 cents on the \$100 valuation to below 70 cents was made Tuesday by Edward Edwards, state tax commissioner. Edwards said he would not be surprised if the rate should be fixed as low as 67 cents. "If it were not for a drought in certain sections of the state, I believe the board would be able to fix the rate at just above 60 cents, but because of the drought, the members will figure that a good portion of taxes assessed will not be paid at the time due," said the tax commissioner. "Drastic trimming of legislative appropriations by the governor is the big reason why the rate will be lowered." The tax commissioner said the big problem of taxation in Texas was getting on the tax rolls property now escaping taxation. "If all the property now escaping assessment should be placed on the tax rolls, it would be possible to lower the rate to 30 cents," he said.

SKIN GAMES "Isn't there some fable about the ass disguising himself with a lion skin?" "Yes, but now the colleges do the trick with a sheepskin."—Washington Dirge.

BUREAU GIVES ESTIMATE OF COTTON USED

WASHINGTON, July 15.—The census bureau has issued the following report showing the number of bales of cotton consumed, held in storage, etc., during June, 1925, and 1924, respectively: Cotton, exclusive of linters—Consumed during June, total 493,765 and 350,021. In cotton growing states 337,651 and 247,240. Held in consuming establishments, June 30, 1,123,813 and 949,647. Held in public storage and at compresses 759,945 and 882,197. Imported, 19,957 and 13,641. Exported, including linters, 217,766 and 230,979. Linters—Consumed during June 60,677 and 40,016. Held in consuming establishments 146,673 and 110,816. Held in public storage and at compresses 35,173 and 69,145. Spindles—Number active during June 32,309,896 and 29,219,484.

YOUTHS HELD AFTER AUTO KILLS WOMAN

TEMPLE, July 15.—Injuries suffered Saturday night when she was struck down by an automobile in front of her home proved fatal to Mrs. Pat Mallory, 83 years old, one of Belton's oldest and best known residents. Ballard Quest, 17 years old, and Carl Aiken, 15 years old, of Salado, were released in bonds of \$1,000 each to answer to charges of failure to stop and render aid. The imprint of a tire on the woman's dress led to the arrest. Both boys are said to claim that they did not know they had run over anyone.

AN AID TO ROMANCE

Maude—"Was it a case of love at first sight?" Claude—"No, second sight. When he saw her first he didn't know that she owned a couple of apartment houses."—New York Sun.

HULTON STUD SALE PRICES TO RULE HIGH

CHICAGO, July 15.—As a result of the recent death of Sir Edward Hulton, one of England's most select studs of race horses is to be dispersed at Newmarket on July 13 and 14. Despite the industrial depression, which has swelled Britain's army of unemployed to something like 1,300,000, racing and race horse breeding are at the flood tide of prosperity, and followers of "the sport of kings" expect to see the fabulous prices of the Belmont sale matched if not eclipsed when Somerville Tattersall calls for bids on the Hulton thoroughbreds.

One American breeder and turfman, on seeing proofs of the sale catalogue, picked out six mares that he would like to own, and is now wondering whether \$300,000 will be enough to buy them. Like Lord Derby and Lord Astor, Sir Edward Hulton, who was fourth on the list of winning owners in English racing last year, bred most of the runners he raced and, like them and many other breeders, he owed his greatest success to the possession of one or two outstanding brood mares. In his case the goose that laid the golden eggs was Silver Fowl, by Wildfowler, out of D'Argent, by Jacobite, out of Aura, by Umpire. Nothing exceptional in point of breeding, she proved to be remarkable in two respects. First, she gave him fifteen consecutive foals, which is almost a record for fertility among thoroughbreds. Again, nearly every one of her numerous foals was a winner of notable races. Her daughters are already proving notable winners.

COTTON COOTIES REMIND LEGIONAIRES OF MIDLAND

MIDLAND, July 15.—Members of the Argonne, Belleau Wood, the Meuse, have entered the war as he plows his cotton Midland lately. It's all been the cooties on the bottom. Reminiscences are dying out ever, as recent showers are denuding the cotton of the which have been infesting this summer.

INFERTILE EGGS STILL MAINTAIN HIGH

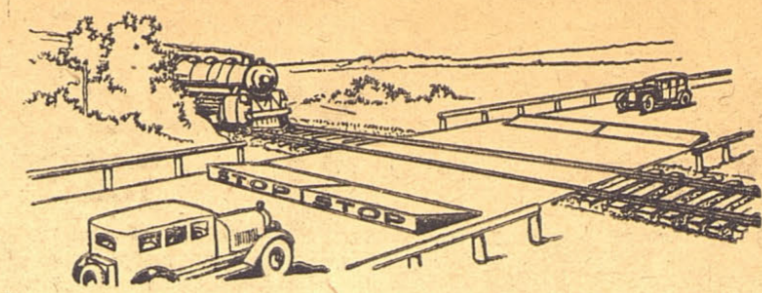

AUSTIN, July 15.—Standing a break in the egg market as a result of storage report yesterday showed 9,475,000 cases compared with 8,685,000 ago, the Texas situation firm with No. 1 candled \$9 and infertiles \$9.60 of thirty dozen, cases Poultry was slightly weak but little changed in prices. Hens quoted at 13c and 14c live weight; geese 75c each 50c and 60c each; guinea each. Butter firm, packing country 23c; creamery creamery B 41c.

FORD DENIES PLANT WILL CLOSE

DETROIT, July 15.—Variations of shutdowns and changes of models by the Motor company were spiced when the Ford company official Dearborn announced that no notion of production is contemplated and that the only model planned are in the lines of Reports that the company is preparing to make a six-cylinder shift model, were characterized entirely without foundation.

What the World Is Doing

As Seen by Popular Mechanics Magazine

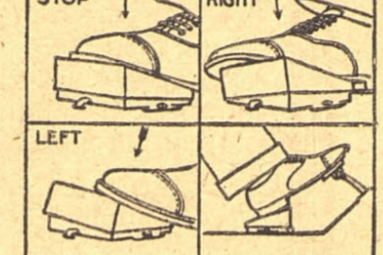

Roadway Raised as a Barrier to Guard Crossings

Barriades operated by hydraulic pressure applied by the trains, have been suggested for prevention of accidents at railway crossings. They are to be constructed as triangular platforms elevated from the road level by the weight of the engine and cars, and sink back to a horizontal position when the train has passed. Vivid "Stop" signs on the sides, illuminated at night, would give motorists ample warning at a distance.

Foot Switch for Car Signals Increases Auto Safety

Stop-signal and direction lights are flashed for the guidance of motorists by pressing a foot switch fitted on the bottom of the car so that the driver

need not remove his hands from the steering wheel when he operated the foot switch.

Hundred Bolts of Lightning Flash Every Second

According to a London weather-bureau report, there are about 1,800 thunderstorms in progress every minute throughout the world, giving 300,000 lightning flashes an hour or 100 every second. Observations made from 3,000 stations, indicate that the earth experiences 16,000,000 storms of this character each year, about 44,000 daily. At certain posts in tropical countries, during the rainy seasons, distant thunder is such a common occurrence that the observer frequently forgets to enter it in his register.

"Deadliest Ray" Is Reported

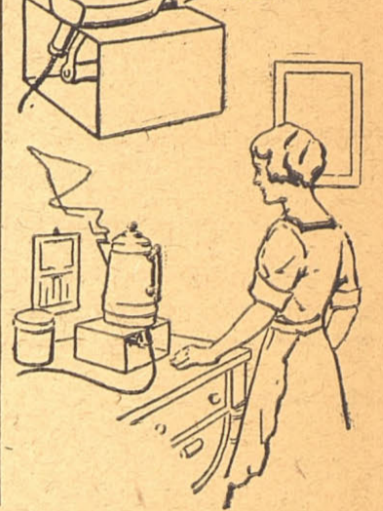

Said to be more destructive than any previous invention of its kind, a new death ray discovered by a German has an effective ground range of forty miles and operates to an altitude of more than 45,000 feet. Men and animals are rendered unconscious by the mysterious force of its waves, the paralyzing influence lasting for six hours, according to reports to the department of commerce.

Oil Extracted from Locusts Lubricates Watches

Oil extracted from locusts is being used in South Africa as a substitute for porpoise oil as a lubricant for watches and other delicate mechanisms. The insects are fed into presses which crush them and the resultant oil is refined and allowed to stand for a year. Its quality is then determined by its color, consistency and odor. The solid matter remaining after the oil is extracted, is made into cakes that are used for poultry feed and defray much of the expense of making the oil.

Improvised Electric Stove

When one housewife wanted an electric stove, she took a tin can, 6 in. square and 6 in. high, and cut a slot, 6 in. long and about 1 in. wide, in one side with a can opener. One end was also cut open. The electric flatiron was slipped into the slot with the bottom up, as shown, and the stove was ready for cooking. All kinds of liquids may be kept hot on it, and it has various other uses.

described land delinquent to Cisco Independent School District, in the County of Eastland, Texas, for taxes, to-wit: Block 1 of lots 1 and 2, block addition to city of Eastland, Texas, 7, 8, 9 and 10, 10 feet by 102 1/2 feet by 102 1/2 feet, number of subdivisions "O", lot 10, northeast corner of section 11, in subdivision 11, 10, 11, all in the city of Eastland, Texas, said by W. H. McDonald, Deputy, 921. Issued this 1st day of June, A. D., 1925.

91st district court of Eastland county, and state of Texas, said term beginning on the 3rd day of August, A. D., 1925, and show cause why judgment shall not be rendered condemning said land, or lots, and ordering sale and foreclosure thereof for said taxes and costs of suit.

Asks Tolerance

CLARENCE DARROW

The "fundamental bedrock of liberty is tolerance," said Clarence Darrow, counsel for the defense in the Scopes trial at Dayton, Tenn. He declared it is a trial for the preservation of tolerance rather than the theory of evolution. "Nothing," he stated, "exemplifies intolerance more concisely and clearly than the law under which Scopes is to be tried."

have returned from a week's visit in Sweetwater with Mrs. John Aycock.

Little Marjorie Taggart of Eastland is the guest of Miss Mary Elizabeth Stedman.

Mrs. G. H. Wells and children are visiting Mrs. Wells' parents in Queen City, Texas.

Mrs. N. L. Nevins and daughter, Margie, from Los Angeles, Calif., are visiting Mr. and Mrs. W. S. Michael, 508 West First street.

BIG SPRING CALLS ELECTION ON BONDS

BIG SPRING, July 15.—An election is to be held here July 17 to determine whether \$90,000 in bonds shall be issued for paving and improvement of the water system. Of the amount \$60,000 will be for paving. The water improvement election is the second staged, the first having been nullified through a technical error. The election is expected to carry overwhelmingly. The main business streets will be paved with the proceeds of the sale of the \$60,000 street bonds.

PIONEERS OF NOLAN WILL HOLD REUNION

SWEETWATER, July 15.—Nolan county pioneers will hold their annual reunion near Hylton July 15 and 16. Free camping and fishing are afforded on Valley creek, four miles north of Hylton. Open air dancing at night will be one of the features. A program of speaking, rodeo, baseball games and other diversions will be arranged to entertain.

BAN TO BE REVIVED IN PINK BOLL PLAGUE

WASHINGTON, July 15.—Following the spread of the pink boll worm, the department of agriculture plans to revive quarantine regulations to prohibit the interstate shipment of cotton seed from infested territory and also lint unless it has received vacuum fumigation. The department hopes to obtain the co-operation of state authorities to enforce the restrictions on shipments within the states. Unless such precautions

are taken, the department declared, eradication work, which has cost there is danger that the insect the government \$5,000,000, would may get out of control, and the be nullified.

It's Cold

This New Summer Breakfast

The Recipe

As you prepare dinner tonight, cook your regular breakfast quantity of Quick Quaker. When done, pour into a pudding mould and let cool. Then place in the refrigerator over night.

Cut in medium thick slices and serve at breakfast with fresh or cooked fruits or berries and sugar—float with rich milk or cream.

The combination is delightful. Just for the joy of it, try it yourself.

Note the recipe. Get Quick Quaker and try it out.

You'll like it

A chef of great note prepared this NEW idea in a summer breakfast.

Now millions follow it. You will find it a great delight.

Drink Water to Help Wash Out Kidney Poison

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and do not load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which help remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they drain from it 300 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

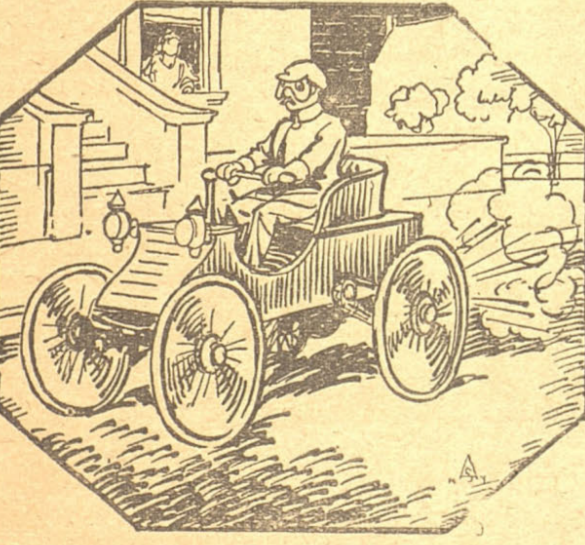

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

Circle Four

Circle 4 of the Baptist W. M. U. met Tuesday afternoon with Mrs. W. T. Andrus. On the arrival of the members the hostess served delicious punch. Following a study lesson, conducted by Mrs. R. R. Asbury, refreshments of ice cream and cake were served to the twelve members present.

Mrs. Chunk Scarborough is expected to arrive in Cisco tomorrow for a several days' visit with friends. Mrs. Scarborough is enroute to her

Small Danger Here

That was in the days of the pioneer automobile that groaned and coughed its way through the streets to the accompaniment of cheers or jeers according to the temper of the crowd.

Today, speed with its dangers is the symbol of the motor car. Accident is lurking at every turn of the road. Automobiles were the cause of more than 469,000 injuries and deaths in 1924.
