

FORCE GERMANS ACCEPT ALLIES' TERMS

CARRANZA OIL DECREES TO BE ABROGATED BY A PRESIDENTIAL EDICT TO BE ISSUED SHORTLY

MEXICO TO THEORETICALLY OWN ITS OIL; WON'T AFFECT PRODUCERS

5 GENERALS REVOLT

Huerta Says They Do Not Constitute Military Menace, and Following Small.

Associated Press. MEXICO CITY, July 9.—The article of the Mexican constitution which nationalizes oil will be theoretically sustained but all decrees issued by the former president, Carranza, prejudicing prior rights of petroleum owners, will be abrogated by a presidential decree which will be issued soon, according to a statement made today by Provisional President Huerta.

Five generals have taken up arms against the government to date, Huerta told newspaper correspondents last night, but do not constitute a military menace, he said, because they have only a few followers.

He estimated that there were approximately only 500 in all outbreaks reported.

Huerta said that "while the nation will tell oil men that it owns the petroleum in its sub-soil, what difference will it make when the government cedes to operators the right to extract this oil and to dispose of it at their own pleasure?"

The projected decree will protect the prior owners by forbidding outsiders to preempt the former's property.

He declared he would present legislation to this effect to congress when it meets in September.

To Continue Effort for Irish Plank in 3rd Party Platform

Associated Press. CHICAGO, July 9.—Efforts to secure the endorsement of the committee of 48 of a plank favoring American aid to ward Irish independence will be continued despite an adverse result of the final vote, it was learned today.

There was a majority of 30,000 votes on the recent referendum, which included the Irish plank, registering opposition to the planks submitted on foreign relations, particularly on the Irish, Russian and Mexican questions.

Rejection by the delegates of the single tax plank of Senator La Follette may result in the announcement of two presidential tickets during the third party conference here.

Senator La Follette led in the poll taken by the committee but the single tax plank expresses their appreciation.

10,000 Ice Cream Cones Burn

Associated Press. CHICAGO, July 9.—Ten thousand ice cream cones and a quantity of sugar and flour were destroyed by fire here today.

El Paso Woman Will Be Sponsor of South in Confederate Meet

Associated Press. MEMPHIS, Tenn., July 9.—Miss Sarah Ruth Albridges of El Paso, was today appointed sponsor for the south at a Confederate reunion to be held here on October 16, according to advice received today from K. M. Vansandt, commander-in-chief of the United Confederate Veterans.

POLES APPEAL FOR AMERICAN AVIATORS; REDS BREAK LINES

BOLSHEVIKI CRASHES THROUGH SOUTH OF DVINA RIVER; DESPERATE FIGHTING.

Associated Press. WARSAW, July 9.—The Russian bolsheviks have broken through the Polish line south of the Dvina river in its drive designed to overrun and form contact with East Prussia, according to an official statement made today.

The soviet is using saivary, artillery, airplanes and tanks.

The Poles, fighting desperately, have issued an appeal for more American aviators to volunteer for work with the Americans already fighting with them.

PAYS EXPENSES OF DELEGATES

DECLARE GOLTRA FURNISHED CHECKS FOR MISSOURI STATE POLITICAL CONVENTION.

Associated Press. ST. LOUIS, July 9.—Delegates to the Missouri Democratic convention, which helped out Senator Reed from a seat in the national convention, were supplied expense money by two antagonistic forces, one favorable to Palmer and the other favoring Cox, according to testimony of witnesses before the senate committee investigating campaign expenditures.

Several witnesses testified they got \$50 checks from Goltra, who was for Palmer, but said Goltra told them "no strings were attached" to the money.

Nine men testified that they received these checks. Several are said to have also received money from Tony Tuoever, who favored Cox.

Associated Press. ST. LOUIS, July 9.—Checks signed by Edward F. Goltra, national committeeman from Missouri, were given to delegates to pay their expenses to the state convention at Joplin, according to members of the St. Louis Democratic committee testifying before the senate committee investigating presidential campaign expenditures.

Henry Streuter, city committeeman, declared that "Goltra was against Reed but most of the delegates who traveled on his money were for Reed."

Texas Highways to Cost \$22,000,000.00 Under Construction

Associated Press. AUSTIN, July 9.—Highways estimated to cost twenty-two million dollars are now under construction and supervision by the state highway department, Chairman R. M. Hubbard said today.

The total mileage under construction, with state and federal aid, is a thousand six hundred and forty-two miles.

Federal and state aid has been approved for two hundred and twelve active precincts, totaling two thousand and eighty-three miles, costing three million dollars, he said.

Deputy Constable of Cisco Resigns, Giving No Reason

D. M. "Doc" Elliott, deputy constable of this precinct under Constable C. S. Looney, today resigned from that office. No reason was given for his resignation. Elliott had served in the capacity of deputy constable for six months.

A successor will not be appointed, according to Constable Looney.

Illegal Strikers Expelled

Associated Press. OKLAHOMA CITY, July 9.—Forty-seven switchmen have been expelled from membership in Oklahoma City Local No. 735, Brotherhood of Railroad Trainmen, through action of other members. The men were expelled for "activity in supporting an illegal strike," according to an official of the brotherhood. It was said they had walked out here in sympathy with the nationwide switchmen's strike three months ago which was outlawed by the national brotherhood.

Immense Fountains of Molten Lava in Play at Hawaii Now

Associated Press. HILO, Island of Hawaii, T. H., July 9.—Immense fountains of molten lava have been firing recently in the glowing lake of fire of Kilauea volcano here.

The liquid area of the lake has shrunk a little of late owing to the formation of "spatter ramparts" and new floors, but it still occupies a considerable portion of the pit which is about 1,200 by 1,400 feet in its two diameters.

The lava flows on the Kau desert, about seven miles from the main crater, which broke out in December, 1919, are still active.

To Hold First Meet for Democrat Plans With Cox, July 20th

Associated Press. DAYTON, July 9.—The first important conference to arrange Democratic campaign plans is to be held here July 29, according to a telegram received by Governor Cox, presidential candidate, from Homer S. Cummings, chairman of the national committee, who said he had called a meeting of the entire national committee for a conference with Cox.

National Convention Notes

Teuton Delegates Sign the Agreement of Disarmament

SHIP CONTROL IS DENIED THE S. P.

GOVERNMENT RULES THAT TAKING OVER LINES WOULD PREVENT ALL COMPETITION.

Associated Press. WASHINGTON, July 9.—Application of the Southern Pacific company for permission to operate the Atlantic steamship lines in either a regular or an irregular service between the Atlantic seaboard and Gulf coast ports was denied today by the interstate commerce commission, which held that such service was not in the interest of the public and that it would prevent competition.

Friday Hoodoo Day for Negro Hanged for Woman Assault

Associated Press. DALLAS, July 9. — Green Hunter, alias James Brown, negro, was hanged here today for criminally assaulting an elderly white woman at Hale station Friday, May 28.

Last Friday he was placed on trial and sentenced and this Friday he was hanged.

Hunter remarked that he was born on Friday and "Friday always was my hoodoo."

A heavy guard was thrown about him prior to and attending his hanging today because of threats in an anonymous letter that effort would be made to prevent the hanging, but no trouble occurred.

Mrs. de la Huerta Joins Her Husband in City of Mexico

Associated Press. LAREDO, July 9.—Traveling as an ordinary passenger, Mrs. Adolfo de la Huerta, wife of the provisional president of Mexico, crossed the border here on her way to Mexico City, where she is to preside over the Chapultepec castle.

Few knew of her coming, although Mexican newspapers recently had heralded her impending arrival as the coming "of the most beautiful woman who ever presided over the historic Mexican mansion."

Mrs. de la Huerta came from her home in Hermosillo, Sonora, via Nogales, Arizona, and San Antonio, Texas, accompanied only by her two sons, Adolfo, aged 11, and Arturo, 9, and a few women friends.

She met American newspapermen, but appeared a little frightened and shrank from discussing affairs of her country. Her interests, she said, were in her husband and children, and not in state affairs. She begged the correspondents not to think her discourteous in refusing to discuss politics.

Mrs. de la Huerta was born in Guaymas, Sonora. She is an accomplished pianist and was educated in Europe. Except for the time spent in European schools she said she had lived in Sonora all her life.

500 OIL DERRICKS AT WICHITA FALLS BLOWN DOWN BY STORM

HIGHEST WIND IN HISTORY OF THE FIELDS; SECOND GREAT CLOBBER BURST.

Associated Press. WICHITA FALLS, July 9.—Five hundred derricks in the oil fields of this region have been blown down by high winds during the week, it was estimated by oil men today.

This is the greatest storm damage in the history of the field. It is the second great storm that has swept this section since the discovery of oil.

The third severe windstorm of the week swept this vicinity today.

OCCUPATION BY ALLIED FORCES IMPLIED IN EVENT OF HUN REFUSAL OF THE TERMS.

Associated Press. SPA, BELGIUM, July 9.—Germany's delegates today signed the agreement accepting the terms of the allied note. The note is relative to disarmament within a given period and was presented flatly to the Teutons yesterday.

The document was signed under the violent protest of the German delegates.

The allied note virtually demanded that the Germans accept its terms by noon today. Refusal to do so, it was implied, would be met with occupation of parts of Germany by the allied forces.

The action of the German delegates in signing the terms was approved over the long distance telephone today by leaders of the Reichstag.

BOOSTERS FROM MINERAL WELLS DUE HERE 15TH

The "Get Acquainted" tour of Mineral Wells business men, which was originally set for June 24 and 25, and which was delayed by the heavy rains which prevailed at that time, has been set for July 14 and 15. This tour is being conducted under the auspices of the Chamber of Commerce of that city, and is designed to set forth the advantages of Mineral Wells as a health resort and summering place and to induce their neighbors in this section of the state to spend their vacations there rather than in more distant spots.

In a letter to the Young Men's Business League, Mr. Miller, its manager, of the Chamber of Commerce, states that the tour has been strengthened by the delay, as they have had more time in which to secure suitable souvenirs as advertising matter. Mr. Miller states that the Mineral Wells boosters are looking forward to this opportunity of meeting the citizens of Cisco.

The tour will be made in automobiles, starting at Mineral Wells Wednesday morning, July 14. They will spend the night in Eastland, and reach Cisco Thursday morning, July 15, at 8 o'clock. After spending about half an hour here they will leave for Leary, Gunsight and thence through the Stephens county fields to Palo Pinto and Mineral Wells.

Government Asks Bids On N. Y.-San Francisco Airplane Mail Route

Associated Press. WASHINGTON, July 9.—Bids were asked by the postoffice department today covering the operation of additional routes for the air mail service between towns on the New York-San Francisco line.

The contract calls for at least 305 round trips over each route per annum, 1500 pounds of mail being a trip load.

Operation of the new routes is expected to begin in November.

CUBAN SALES COMMITTEE HOLDING SUGAR FOR 24c

Associated Press. HAVANA, July 9.—The Cuban sugar sales committee declared today that it had refused an offer of 18 3/4 cents for sugar being held for 24 cents.

Montenegrins Naked and Have No Shoes; Too Weak to Work

PARIS, July 9.—The ministry of foreign affairs of Montenegro maintained in Paris by Nicholas, formerly King of that country, has issued an official communique, quoting the newspaper Republique of Belgrade concerning the Serbian occupation of Montenegro. The article says:

"The people of Montenegro are naked and have no shoes. They are too weak to work and earn a living because a majority of the population has had little to eat for the last eight months or more. Many infants are dying and the children in many cases have been unable to go to school because of weakness. This economic misery which is indescribable is aggravated by the regime of the authorities of occupation, maintained by force and corruption. The oppressors, sent by the government of Belgrade, excite the people to anger, then kill them. Those who are not killed are thrown into prison."

Temple Man Fights Rat to Death With Corncob as Weapon

Special to The News. TEMPLE, July 9. — Beating a full-grown rat over the head with a corncob to make it turn loose of a half-frying sized chicken may not be the most efficient method, but it proved effective in a lively melodrama at J. P. Brightwell's home yesterday morning. The cob was the only weapon available. A broom handle was set beside the door, however, and on the next run the rat was not only foiled but ruthlessly murdered.

Immense Fountains of Molten Lava in Play at Hawaii Now

Associated Press. HILO, Island of Hawaii, T. H., July 9.—Immense fountains of molten lava have been firing recently in the glowing lake of fire of Kilauea volcano here.

The liquid area of the lake has shrunk a little of late owing to the formation of "spatter ramparts" and new floors, but it still occupies a considerable portion of the pit which is about 1,200 by 1,400 feet in its two diameters.

The lava flows on the Kau desert, about seven miles from the main crater, which broke out in December, 1919, are still active.

POPULATION TYLER GIVEN BY CENSUS BUREAU IS 12,085

Associated Press. WASHINGTON, July 9. — The population of Tyler was today announced by the Census Bureau to be 12,085.

This is an increase over 1910 of 1,685, or 16.2 per cent.

1500 Acres to Be Put in Irrigation for Pecan Culture

Special to The News. SAN ANGELO, July 9.—Fifteen hundred acres of irrigated lands in Concholand in paper-shell pecans is the goal set by the Concho Valley Co-operative Paper Shell Pecan Association, with a capital stock of \$750,000. John R. Box, treasurer of the company, is very optimistic over the outlook. The company claims that it has 22,000 native pecan trees that are now bearing and that will be topworked and rebudded on the land that the company is now using.

Mr. Box in a statement to a staff representative of the West Texas Chamber of Commerce declared that the company was absolutely going to plant this mammoth pecan orchard as outlined and make it the biggest thing of its kind in the southwest. The Knickerbocker section of Concholand has been a prolific producer of native pecans, shipments of which have been made throughout the country. The new improved pecan—the paper shell variety—has cut quite a swath in the nut market of recent years. The immense pecan crop of West Texas last year is estimated to have brought several million dollars of profit to owners of pecan orchards along the various streams of the section, without the owners having to do any extraordinary labor.

While the pecan crop this fall is at present not as flattering as was thought it is believed that the interest created in 1919 by the big crop of that year will result in numerous new acres being impressed into the pecan service, so that in time West Texas will be famous not only for its high grade staple of cotton and its great sorghum grain crops, but for its unmatchable pecan yields. Mr. Box proposes pecan culture on a scale hitherto only dreamed of by men who were less willing to put their wealth into it.

POLAND TO MOVE ITS SEAT OF GOVERNMENT

Associated Press. LONDON, July 9.—Poland intends to move its seat of government from Warsaw on account of the bolshevik advance, according to a wireless from Berlin today.

New Mexican Heads Seem Besirous of Friendly Relations

Associated Press. LAREDO, July 9.—All the protection that the laws of Mexico provide are being given to all American residents of Mexico and this protection will be continued, according to Fernando Iglesias Calderon, high commissioner of the provisional Mexican government to the United States.

Senator Calderon, who crossed the border here recently on his way to Washington, met American correspondents in his private car. The interview was carried on through an interpreter.

"I am going to Washington," he said, "to do what I can to bring about closer and more intimate relations between the Mexican people and the people of the United States, as well as between the new provisional Mexican government and the government of the United States."

"As the government of the United States has not yet recognized the provisional Mexican government, I am sent as a high commissioner, rather than as an ambassador. My duties, however, will be very much like those of an ambassador, as will my powers."

The high commissioner highly praised the "ideals of the American government," and expressed appreciation of the courtesies shown him by American authorities on the border here.

Asked if Mexico was now in a peaceful state, Senator Calderon said: "I left Mexico City June 22 and traveled to Nuevo Laredo without any military escort or police protection whatsoever."

KANSAS STOCKMEN ASK GOVERNMENT FOR MAMMOTH LOAN

Associated Press. TOPEKA, Kan., July 9. — Kansas stockmen want loans of from ten to fifteen million dollars from the federal reserve bank, tenth district, to be made through local banks, according to resolutions adopted at a meeting of the executive board of the Kansas Live Stock Association. The resolutions declared the "live stock situation now is critical," and drew a gloomy outlook from the fact that the cattle population of the state has fallen off seriously. They said:

"Pastures are empty which ought to be stocked to produce beef, calves and she stock are ordered shipped to market, reducing breeding herds; farm land is uncultivated and a great shortage in production in this district is predicted unless relief is had at once."

Firemen and Oilers On Galveston Tows Threaten to Strike

Associated Press. GALVESTON, July 9.—Firemen and Oilers on tow boats at Galveston and Port Arthur threaten to strike tomorrow if demands are not met, boat owners reported today, saying that they will not meet the demands for 140 men per month with a six-day week.

The men are now getting \$105 per month with board and lodging.

Clue to Elwell Murder

ELLY HOPE ANDERSON

JOSEPH B. ELWELL

NEW YORK, July 8.—Investigators delving into the mystery which surrounds the murder of Joseph B. Elwell, turfman, whist expert and New York clubman, believe Miss Elly Hope Anderson, "The Girl in Black," of Minneapolis, may be able to throw light on the case.

Miss Anderson and Victor von Schlegel, wealthy New York friend of Elwell, were companions at dinner at the Fitz-Carleton the night preceding the murder. A discrepancy in the stories told by Miss Anderson and von Schlegel developed, and she was summoned here to testify before District Attorney Quinn.

Miss Anderson said von Schlegel left her that night at 10 o'clock. Von Schlegel told detectives that he left the room at midnight. They had break-

fast in von Schlegel's apartment the morning of the murder.

In Minneapolis Miss Anderson said: "Mr. Von Schlegel did have something on his mind. He was worrying about his automobile, because it would not go. That would not have bothered him if he knew that Elwell had been killed. Outside of his evident anxiety about the automobile he acted as he always acted when we were together."

"How do you account for Mr. von Schlegel's statement that it was midnight?"

Miss Anderson tossed her head and laughed. "Oh, he is just mistaken, that is all," she replied.

"Were you in the habit of driving his car whenever you felt like it?"

"Yes, he told me that when I wanted to go out to the golf links or to take a ride that I was welcome to use his automobile and I availed myself of the privilege."

"You were pretty good friends?"

"Well, we were friends, but not very intimate friends."

Grand Opera Singer Delights Audiences at Local Playhouse

"In the Garden of My Heart" was the selection rendered by Mrs. Petticlerc at the Airdome last night to a delighted audience.

Mrs. Petticlerc is a singer of rare ability, possessing a voice highly cultured, one of unusual sweetness and of great volume. Singing in the open air last night, her enunciation was such and the clarity of her voice so perfect, that those on the rear seats of the Airdome fully enjoyed every word and note.

While the educated musician would perhaps fix the standard of her singing by her rendition of classical selections, which was at all times perfect, it was when responding to an encore, with one of the old songs, that she reached the hearts of all the people. Last night she gave "When You and I Were Young, Maggie," singing it in a manner to reach the heartstrings of her hearers.

Mrs. Petticlerc's home is in San Antonio, where she has done much for the people of that city. For a long time she was the soprano soloist with the municipal band, her singing being the feature of that great musical organization. She has been ever ready to aid in all worthy undertakings, has sung for the churches, schools, civic organizations, and there is seldom an occasion arising in which she has not been asked to sing, her appearance always being the signal for an outpouring of the people who have once heard her.

She has appeared in grand opera and has been heard in many states of the union. About two weeks ago she went to Mineral Wells, where she sang for the Baptist and Presbyterian churches and the Rotarians, receiving letters of highest commendation from the pastors of the churches and from the Rotarians. So often has she sung for the Rotarians at San Antonio that they class her as a member of the organization.

Mrs. Petticlerc will sing at the Airdome tonight and tomorrow night and an effort is being made to induce her to remain in Cisco another week.

Hon. A. S. Walker Makes Fine Record Revenue Collector

AUSTIN, July 9.—In point of efficiency the office of A. S. Walker, collector of internal revenue of the Texas federal district, ranked fourth among the sixty-four internal revenue offices of the country, according to a report received by the Texas collector from the internal revenue bureau.

The three offices having a better rating than the Austin office the report showed to be much smaller. During the past year, said Collector Walker, the Austin office has collected more than one hundred million dollars in taxes. When it is understood, he added, that the greater portion of this was collected in small amounts, and handled by a large number of employes, it is possible to realize the responsibility resting upon the collector of internal revenue.

The creation of the new internal revenue district for North Texas, which has headquarters at Dallas, has greatly relieved the heavy burden resulting from additional work arising through the new revenue legislation passed by congress, he declared. Records at Austin reflecting the new North Texas district have been shipped to Dallas.

Old Story; New Trimmings.
Associated Press.
EL PASO, July 9.—It's just the old story with new trimmings that disgruntled persons are now telling the police of Nogales, Arizona. The trade has dubbed "bootleg" tequila, a fiery Mexican intoxicant which drifts across the border despite efforts of custom officials, "Sonora water." As a consequence, many complaints are being lodged with the police by people who say that they were swindled when they asked a bootlegger for "Sonora water" and got sure-enough Sonora water from the Santa Cruz river in bottles bearing tequila labels and costing \$6 for the quart size.

Well Known Candidate Here.
Sam H. Dixon, of Houston, candidate for commissioner of agriculture, is in the city today in the interest of his candidacy. Mr. Dixon is a highly capable business man and is well known throughout Texas, especially among the farmers. In fact, several thousand of the latter petitioned him to enter the race for commissioner of agriculture, because of his known fitness and their confidence in his executive ability and fairness. During the war Mr. Dixon served under Administrator Peden, in the food department.

VERBOSITY TAKES PLACE SIMPLICITY WITH STATESMEN

IN THE EARLY DAYS DEMOCRATS AND REPUBLICANS TALKED LESS.

FULL OF WORDS NOW

Resolution Endorsing Andrew Jackson for Second Term Was Very Brief, But Thorough.

Associated Press.

CHICAGO, July 9.—The nomination oratory which marked the two great political conventions this year is in sharp contrast to the nominating speeches of the early days of the parties. This has been brought out afresh by inquiry at the Chicago Historical Society and the Newberry Library here.

In the first great republican convention Abraham Lincoln was nominated for the first time, by Mr. Judd of Illinois, in these words:

"I desire on behalf of the delegation from Illinois to put in nomination as a candidate for president of the United States Abraham Lincoln of Illinois."

The first national nominating convention of the democratic party was held 28 years earlier, in Baltimore, May 21-23, 1832. It was at this gathering that Andrew Jackson was endorsed for his second term. Jackson had been nominated previously in a number of states by the methods which were then passing away and according to the Newberry Library it is doubtful if there was any speech at all placing him in nomination at the first democratic national convention. The business of this convention was principally to nominate for the vice-presidency.

The convention adopted a resolution concurring in Jackson's "repeated nominations." The resolution was drawn in 60 words.

Previous to that time (from 1800) to 1861 nominations for the presidency and vice-presidency, the well-known reference library says, were by congressional nominating caucus, consisting of party member of both houses of congress.

The last congressional caucus was held in 1824, Jackson opposing the "King Caucus" as it was termed, as undemocratic. In 1828 he was nominated by state legislative caucuses and conventions held in various states. Following this, popular state conventions grew up and out of them came the national conventions.

Charges to Be Filed Against Violators of the Anti-Spider Law

Charges to Be Filed Against Violators of the Anti-Spider Law

Associated Press.

AUSTIN, July 9.—Charges, preparatory to the filing of penalty suits against a number of Texas compresses for alleged violations of the anti-spider law, are being prepared by the state department of labor, according to A. L. Garrett, chief deputy commissioner, who has charge of this work.

The anti-spider law was framed to prevent the baling of cotton with projecting "spiders" or metal bands which injured workmen who were handling the cotton.

Deputy Commissioner Garrett reported that his investigation disclosed that many compresses of the state are not following the law and that he found a total of 8,287 defectively baled parcels of cotton which had projecting "spiders." The number of "spiders" found in certain other states during the same period covered by the Texas inspection, he said, were: Oklahoma, 1,877; California, 562; Louisiana, 2,014; Georgia, 661; Mississippi, 11; Arkansas, 391.

LOVING CUP IS RECEIVED BY A. & M. COLLEGE RIFLE TEAM

Associated Press.

COLLEGE STATION, July 9.—The loving cup won by the Texas A. & M. College rifle team in competition with teams from other military institutions of the southern department has been received by the department of military science and tactics of the college here.

A. & M. won the match from competitors from New Mexico, Oklahoma and Arkansas in gallery competitions with a score of 1,452 out of a possible 2,090.

New Mexico Military Institute was second.

Papers \$100 Per Copy.

Associated Press.

NOGALES, Ariz., July 9.—Newsboys here think nothing of getting \$100 in Mexican currency issued by Carranza for a copy of the regular edition of the evening newspaper. They languidly settle arguments and wagers with \$1,000 bets in bank notes. Newsboys have their pockets stuffed with the crisp paper money and throw it about like overnight millionaires. The notes are a part of the billion Carranza issued in paper money and then repudiated.

Courtesy, coolness and sanitary conditions is what they have at the party units. 14-16

Wilson Sends Words of Greeting to U. S. School Children

Associated Press.

AUSTIN, July 9.—American school children, 6,000,000 in number, including 419,000 in Texas, who have enrolled in the modern health crusade, have been written a letter by President Woodrow Wilson commending the anti-tuberculosis movement, according to an announcement by the Texas Public Health Association. The president wrote:

"It is deeply gratifying to me, as it must be to every patriotic citizen, to know that the children of the country are striving so earnestly to co-operate in building up the health of the nation. It is my earnest hope that every boy and girl will continue the good work until the twenty million school children of the United States are united in the one great cause of better health for children."

TEXAS OIL COMPANIES \$150,000 SHORT IN THEIR PAYMENT

Associated Press.

WICHITA FALLS, July 9.—Texas oil companies are approximately \$150,000 short in their payment of the transportation tax under the government's interpretation of the federal statute, according to an announcement by Ira D. Shields, who is detailed upon the collection of this tax.

Mr. Shields said that only two oil companies in the state had reported taxes as large as the government holds to be due.

DR HARRISON IS APPOINTED DEPUTY STATE VETERINARIAN

Associated Press.

COLLEGE STATION, July 9.—Dr. R. H. Harrison, known in state athletic circles as "Chicken," who was a member of the first class to receive the degree of doctor of veterinary medicine at Texas A. & M. College in May, 1920, has been appointed as deputy state veterinarian of the state live stock sanitary commission. He will engage in field work and will maintain headquarters at Fort Worth.

"MEXICO IS THE ROAD TO HELL" IS HEADING IN NEWSPAPER

Associated Press.

EL PASO, July 9.—"Mexico is the Road to Hell" was the heading over a strong article published in the El Herald over the signature of Roberto V. Pesqueira, financial agent in El Paso for the Mexican defacto government, who is taking part in a campaign against vice along the border, which is being directed from Mexico City.

Senor Pesqueira took his title from posters which line roadways in Southern California which lead to the Mexican towns of Tia Juana and Mexicali. The signs were placed at frequent intervals along the roads by a religious order which is fighting immorality which they alleged prevailed in those two towns.

Associated Press.

Kansans' Bad Practice.

INDEPENDENCE, Kan., July 9.—Encountering persons who are using the railway tracks for a resting place while awaiting the arrival of the car and falling asleep meanwhile, is not an uncommon occurrence, motormen on local interurban lines report. "Apparently they take that method of assuring themselves that they will not miss the car," said a motorman. He told of recently finding a boy across the track asleep. As the car reached the boy the motorman blew the siren. "The kid jumped three feet in the air and beat it," said the motorman.

Associated Press.

Fletcher Leaves University.
AUSTIN, July 9.—Thomas Fletcher, formerly head of the extension teaching division of the University of Texas, and who became president of the Sul Ross Normal at Alpine upon creating of that institution, has resigned the latter position to accept that of superintendent of the Masonic Orphans' Home at Fort Worth. Mr. Fletcher is succeeded as president of the Sul Ross Normal by R. L. Maquis, who was connected with the state normal at Denton. A number of former students of the University of Texas are on the instructors' staff of the Sul Ross Normal.

Associated Press.

Honey Instead of Sugar.

MANHATTAN, Kan., July 9.—Honey is being substituted for sugar in an effort to solve the high cost of preserving fruit this year, according to Kansas bee inspectors. While it requires slightly more honey for preserving fruits, beekeepers can save money by using the product of bees since the cost of manufacturing it is negligible, the inspectors pointed out. They said thousands of dollars' worth of honey from the clover and alfalfa fields of Kansas goes to waste annually because comparatively few farmers keep bees.

Navy Offers Good Chances for Lads With Hi Schooling

The United States navy offers unusual opportunities and inducements to local young men, who have had two or three years in high school, or clerical experience, can now enlist and be sent direct to yeoman school where they will be given a thorough course of training in every branch of office work. At the completion of their course they will be rated according to the grade made at their final examination.

Also intelligent and ambitious young men with two or three years high school experience have an opportunity to take up the study of radio electricity.

Bright boys who have not had any high school experience can have their choice of learning any one of several other trades. In all the navy offers training in 55 different trades.

The local recruiting officer is now taking applicants at the City Hall.

Foreigners May Enlist.

Special to The News.

DALLAS, July 9.—Foreigners now may enlist in the United States army, according to Captain T. H. Nixon, commander of the Dallas army recruiting station. Under a new war department ruling, the captain said, literates and foreigners who make legal declaration of becoming citizens may be enlisted for three-year periods. He said educational centers will be organized at several training stations where foreigners enlisting in the army will be taught the English language.

Study Printing Methods.
DALLAS, July 9.—Printing presses and typesetting machines are being installed by the Dallas board of education at Bryan street high school for publication of school papers and to instruct boys and girls of journalism classes in printing and typesetting. Teachers of English language will have charge of the journalism classes while the mechanical instruction will be given by manual training instructors.

"Schlitz—Pep-ish? I'll Say It Is"

"Some scratch—bracing aplenty—and no comeback."

That's what the man who works with his hands thinks about Schlitz. He realizes by results that Schlitz is a builder—helping the body replace waste tissues. He knows that Schlitz brings appetite with it—and satisfies that appetite demand. Schlitz is good at meals and between meals.

Schlitz is both food and drink. It contains every element necessary to the human body. Schlitz is made pure—properly aged to preclude biliousness—and completely fermented before it goes into the stomach. That's why there are no unpleasant after effects with Schlitz. The Brown Bottle protects its purity.

Schlitz is a healthful cereal drink.

"Uncle Josh" Again Chalks Up Another Victory

RESORTERS LOSE FIRST GAME TO THE CARSONITES

LONG HITS BY BILLINGS AND JOHNSON WITH MEN ON WINS.

INFIELD GOING GOOD

Cisco Fans, Baseball Hungry From Scouts Long Absence, Given Treat.

By JOHN KELLY. Carson's Scouts opened up with the first home game in the second half of the split series by trimming Mineral Wells to the tune of 6 to 5.

Mineral Wells, playing from behind nearly the entire game, gave us no cause to worry except for a short while in the seventh, when a hit by Toner, an error by Thrash and a single by Rose filled the bags.

First Inning.

Stadilla struck out; Rose safe at first on infield hit, but forced out at second when Noakes hit to Beard; Schliz out, Earnshaw to Faye. No runs, one hit, no errors.

Beard struck out; Flagg hit a scorcher to second and was safe at first when Doran muffed the throw. King hit for two sacks through short, advancing Flagg to third. Johnson laid one down on Noakes for an attempted sacrifice.

Second Inning.

Byers led off with three base hit to left field, scoring when King singled through second. Doran swung wide at the third one and Knight was thrown out at second, which he attempted to steal on the play. Mead walked. Toner followed with a hit. Mead resting on third. Stadilla drove a pretty one to right field, but Mead was thrown out at the plate by Johnson's perfect peg.

Third Inning.

Rose flew out to Thrash. Noakes walked. Schliz flew out to King. Noakes safe stealing second on bad peg by Chapman. Byers out, Earnshaw to Faye. No runs, no hits, no errors.

Fourth Inning.

Knight out, Flagg to Faye. Doran out same route. Mead flew out to Johnson. No runs, no hits, no errors.

Fifth Inning.

Toner struck out. Stadilla flew out to Thrash. Rose safe at first when Johnson dropped what should have been an easy out. No damage was done, however, as the side was retired when Noakes flew out to Thrash.

Sixth Inning.

Schliz led off with two-bagger. Byers flew out to Earnshaw. Knight out, Earnshaw to Faye, Schliz going to third on the play. Doran flew out to King. No runs, one hit, no errors.

Seventh Inning.

Mead out second to first. Toner followed with clean hit to left. Stadilla flew to Thrash, who let it get through his hands. Rose singled to left filling the bases. Toner scored on a sacrifice fly by Noakes to King.

Eighth Inning.

Doublers out, Flagg to Faye. Knight doubled to center and would have made it good for three but for Johnson's wonderful throw. Doran doubled to left. Knight crossing the pan. Mead struck out. Toner fouled out to Chapman.

ded out to Mead. Faye stole second, but died there when Earnshaw was out. Knight to Doran. Three runs, four hits, no errors.

Fourth Inning. Knight out, Flagg to Faye. Doran out same route. Mead flew out to Johnson. No runs, no hits, no errors.

Chapman out, Toner to Doran. Billings out, Noakes to Doran. Beard singled through second. Flagg popped out to Noakes. No runs, one hit, no errors.

Fifth Inning. Toner struck out. Stadilla flew out to Thrash. Rose safe at first when Johnson dropped what should have been an easy out.

No damage was done, however, as the side was retired when Noakes flew out to Thrash. No runs, no hits, one error.

Sixth Inning. King flew out to Schliz. Johnson hit one to third too hot to handle and was safe at first. Faye popped out to Doran.

Thrash out, third to first. No runs, one hit, no errors.

Seventh Inning. Mead out second to first. Toner followed with clean hit to left. Stadilla flew to Thrash, who let it get through his hands.

Rose singled to left filling the bases. Toner scored on a sacrifice fly by Noakes to King.

Stadilla went to third when a combination of a bad throw by Billings and the same kind of a catch by Flagg let the ball go into left field.

Billings attempting to catch Stadilla off second. Schliz then lined one to Flagg and was safe at first when Flagg threw wild. Stadilla and Rose scoring on the play.

Schliz out attempting to steal second. Three runs, two hits, one error.

Eighth Inning. Byers doubled to center and would have made it good for three but for Johnson's wonderful throw.

Doran doubled to left. Knight crossing the pan. Mead struck out. Toner fouled out to Chapman.

The catch made by Chapman was a beauty. One run, two hits, no errors.

Ninth Inning. Stadilla flew out to King. Rose struck out. Noakes flew out to Thrash. No runs, no hits, no errors.

100 Cars of Wheat and Oats Tied Up Account of Cars

SPECIAL TO THE NEWS. WINTERS, July 9.—More than 100 cars of wheat and oats are awaiting cars for shipment at this point.

H. C. WIPPERN LICENSED EMBALMER AND FUNERAL DIRECTOR

Phone 167 102 Ave. H

KELLY'S KOMMENT

The boys look good after their long absence and the marked improvement in their playing is easily noticeable, and gratifying.

When the Cisco fans gave the infield the "double O" yesterday, some of them started to get up and leave, thinking they were in the wrong place.

Our old friend, Price, refereed the game between Abilene and Ranger yesterday. We are all glad to learn he has withdrawn his resignation and is back on the job.

Uncle Josh is excused by all for attempting to stretch that drive into three bases yesterday. It did look like he could make it, and besides, he had done enough by sending two of the boys across the rubber for taller while he was trying it.

Everybody step out today and watch us take the second!

"HILL AND HILL" ENJOYED BY FANS IN ABILENE GAME

ABILENE, July 9.—Ranger dropped one to the Eagles here yesterday when Galloway's Nitros were unable to cope with the mysteries of Gomez Hill's fast ones.

Score by Innings: R H E Ranger 000 001 000-1 3 2

Batteries: R. Hill and Penn; G. Hill and Shaffer. Umpire, Price.

Old Paper Proves There Is Little New Under the Sun

Associated Press. TEXARKANA, July 9.—An issue of the Graham Daily Mail printed at Philadelphia on April 21, 1856, has been produced here in support of the adage to the effect that there is nothing new.

An article in this paper upon the "European war" mentioned "the allies' entrenchments," discussed the prospects of peace, and intimated that Great Britain was a little too ambitious to rule the waves.

Another article said that the match had been applied to the Irish powder pile; while other subjects touched upon were the Mexican situation, prohibition, and the need of more enlistments in the United States army and navy.

The market page of this ancient publication also ran true to war form. Wheat was quoted at \$2.50 to \$2.75 a bushel, and sugar prices almost equalled those of today.

O. D. Bibby, proprietor of Everybody's Store, has been compelled to make additional purchases of goods in the open market, in order to renew his stock which, in some lines, was almost entirely sold out during the recent sale.—Adv.

HEALTH SERVICE TELLS HOW RATS BE ELIMINATED

INDIVIDUAL EFFORT WILL DO MUCH, BUT IS NOT SUFFICIENT.

RAT-PROOF BUILDINGS

Success in Trapping Proportional to Attention and Effort of Trapper.

Associated Press. WASHINGTON, July 8.—Methods of destroying and proofing against rats are outlined in literature prepared by the United States Public Health Service for use by state and municipal health officers over the country in the campaign which they have been asked by Surgeon General Cummings to inaugurate in order to protect the nation against bubonic plague.

"Rat destruction," says the Health Service Bulletin, "can be accomplished by individual effort to a limited degree, but to be successful in a large city there must be rat-proofing of buildings. No spasmodic or individual efforts will result in the desired end."

"Rats can be destroyed by trapping, by poisoning, and by using natural enemies, such as certain breeds of cats and dogs. To insure the success of these measures it is necessary to curtail the rat food supply by properly disposing of garbage and table refuse, and by preventing rats from gaining access to such foods as is contained in pantries, groceries, markets, stables and the like."

"Success in trapping is proportional to the attention and industry the trapper devotes to his traps and protection of other food supplies. Two kinds of traps are generally used—the wire cage trap and the snap trap or dead-fall trap. The trap should be placed wherever rats have been accustomed to come for feeding purposes and should be more or less concealed. The snap trap by scattering dust, corn meal or flour on or about them and the cage trap by pieces of sack, straw or rubbish, leaving only the opening free."

"Highly favored articles, such as cheese, and roasted bacon, will more quickly attract rats than will food with out odor; but the idea that a rat can be enticed into a trap by the employment of bait more appetizing to him than the surrounding food supply is fallacious. To the rat, food supply is a question of availability and preference is a secondary consideration."

"The destruction of rats by poison has always been more or less in favor. A preparation of arsenious acid or phosphorus, ten percent and sulphuric acid, as cheese, meat or glucose, are the most popular poisons. Poisons undoubtedly have a certain efficiency in ridding a place of rats, but whether by causing their migration or their actual destruction is somewhat difficult of determination."

"Rat-proofing excludes rats from the food supply and deprives them of harborage. Without this procedure it is almost impossible to reduce the rodent population."

"In rat-proofing any building, the following parts have to be considered: Ground area, walls, ceilings, gutter, roof, bed spaces in general, ventilators, abandoned sewers, doors, windows, outside piping, water and sewerage pipes, down spouts, wiring and air or light shafts. By the omission of some detail an otherwise rat-proof structure may become badly rat-infested."

"The rat-proofing of floors of buildings is secured either by elevation of the structure with the under-pinning opening free or by marginal walls of concrete, stone or brick laid in cement mortar sunk two feet in the ground, putting flush with the floor above. The wall must fit tightly to the flooring."

"Food depots are the greater importance in rat-proofing because they furnish both sustenance and shelter for rats. In this class of buildings are stables, meat markets, retail and wholesale groceries, bakeries, warehouses, docks and wharves. These places are best rat-proofed as to the ground areas by the construction of concrete floors and foundation walls. Untenanted as they are at night time rats might well enter doorways or windows carelessly left open or be introduced concealed in the merchandise and knawing through plank flooring obtain well protected hiding and breeding places."

"Double ceiling should be avoided, as between should be avoided or if used should be rat-proofed at top and bottom with heavy wooden timbers, four by four joist or by a concrete fill. At

PENSION VETERANS SHOW BIG DECREASE OVER YEAR OF 1919

Associated Press. AUSTIN, July 9.—A decrease of \$14 pensioners from the list of Confederate veterans drawing quarterly allotments from the Texas pension fund was shown for June, 1920, as compared with the same month a year ago in the monthly statement of M. L. Wiginton, state comptroller. There are now 15,385 pensioners on the rolls, each of whom receives \$23 per quarter. The allotment for the present quarter will be \$24, the statement said.

The comptroller says the balance on hand in the state treasury to the credit of the Confederate pension fund at the beginning of the fiscal year ending August 31, 1919, was \$305,071. Receipts during the current year were \$1,365,799 and disbursements \$1,484,918. At the close of the last quarter, on May 31, 1920, there was a balance of \$753,043 with warrants outstanding to the amount of \$362,864.

The increase in the current quarter's allotment of one dollar was granted "so that those who enjoy this meager benefit may receive every dollar available," the statement said.

Continuing, the comptroller says the pension fund is equally distributed between all beneficiaries and can be drawn upon only for payment of quarterly pension warrants and mortuary warrants issued after the death of a pensioner. Not a dollar of the fund, he declares, is expended for clerical hire, postage or other expense.

Lubbock Has 225 Cars of Paving Brick in Transit

Special to The News. LUBBOCK, July 9.—Approximately 225 cars of paving brick for the city's new paving program and badly needed here at present have not moved from Thurber, so that now the West Texas Chamber of Commerce has been asked to secure movement of at least three cars a day.

It is reported that the Texas & Pacific railroad is moving a great number of empty cars through Thurber for the Panhandle section, most of the cars having been dispatched for wheat loading. The West Texas Chamber of Commerce contends that three of these cars can be loaded daily at Thurber and sent to Lubbock for a return shipment of wheat, thereby giving the roads a double-way haul instead of the present empty movement to the plains.

CRYSTAL FALLS BOOMING ALONG

By W. HAMILTON WRIGHT. CRYSTAL FALLS, July 9.—Every body and everything in this section is on the qui vive for the new railroads which are projected into this section. According to semi-reliable information, the Jake Hamon railroad, now building from Newcastle to Breckenridge, will run about one-fourth of a mile east of Crystal Falls, on the south banks of Hubbard creek, crossing the Clear Fork near the city. Two surveys have been made through this immediate section. If the road comes over either of these surveys it will be through the town and the celebrated Black field, where a large number of producers have already come in and established Crystal Falls' claim to being an oil field center.

On the faith of making a good town Crystal Falls people have organized and put in operation a new bank with a capital of \$25,000 and deposits already reaching \$35,000. Three cafes have opened. A new hotel has been built. An apartment store building has just been erected by Ranger capitalists. A lumber yard is in operation and new arrangements are going forward for a new \$25,000 stone school building. There is prosperity on every hand. The town will shortly undertake the laying of pipe for the water system, getting free water from the Clear Fork through a large reservoir on a hill, the water being pumped free to the imminence by the Magnolia Petroleum company under water right agreement.

The road to Breckenridge, 15 miles south, is being worked. Heavy trucks hauling oil-field material are pouring into this section every day, bringing not only the whirrs of the motors, but hundreds of new employees who spend freely their large wages, increasing business here greatly. Heavy rains have fallen in this section in the last few days, causing quite a congestion along the roads. The new \$3,500,000 highway will pass through here from north to south.

Interstate Commerce Commission Appealed to for Aid by Orient

SWEETWATER, July 9.—General Manager De Bernardi of the Kansas City, Mexico & Orient, with headquarters at Wichita, Kan., has at the request of the West Texas Chamber of Commerce, made a direct appeal to the

MORE PRODUCTION NATIONAL DISASTER SAYS FRED DAVIS

AUSTIN, July 9.—Unless agricultural production is encouraged and the consuming public abandons its indifference to the farmers' problems, "nothing will prevent national disaster," according to Fred W. Davis, state agriculture commissioner. In a statement the commissioner declares the farmers' financial return for the amount of labor he does is insufficient. Unless this is remedied, he added, a continued decrease in production is inevitable.

"A farmers' strike is on," Commissioner Davis said, "and will continue until the inequality between the country and the city is removed. Of course the farmers have not called a strike as the industrial workers do. It is a strike by means of the abandonment of productive effort. The farmer has decided the odds are too much against him; and feeling that he can never get adequate remuneration for his labor, he quits."

Mr. Davis declared he was astonished at the indifference shown by the general public over the diminishing margin between production and consumption.

This indifference, he said, "is still more astonishing among our so-called statesmen and leaders."

Unless this order is changed, only one other course remains if famine is to be averted, the commissioner continued. "If producers are not assisted in securing remuneration for their toil," he said, "the only means for averting a famine is the importation of farmers from the Orient, who are willing to work under conditions which would pauperize and degrade the American farmer."

Producers should be well opened and kept free of damage or other refuse for rats.

"Double ceiling should be avoided especially so in basements. Boxed in structures, such as uprights and roughly finished dwellings, plumbing, kitchen sinks and the like should be removed. Miscellaneous openings as light shafts, ventilators and windows should be screened preferably by 12-gauge wire screen with mesh not exceeding one-half inch. The grounds about the buildings are to be devoid of rat harborage and premises are to be kept clean and free of rubbish."

In sea port cities, where the rare species of the brown rat and "Alexandrian" rat prevail, health officials are asked to make surveys to determine the presence or absence of rodent plague.

How to eliminate the more common species, including the "Norway" rat, barn rat, sewer rat, gray or wharf rat, is described as follows:

By starving him, through the use of rat-proof receptacles for food, and covered metal garbage cans.

By depriving him of breeding places, through the abolition of plankled yards and passageways.

By refusing him admission to the comfort of your buildings, through rat-proof construction, and screened basement openings.

By killing him at every opportunity. By demanding city anti-rat ordinances and state anti-rat laws.

Tacky Party Given at Elks' Club Last Night Funny Affair

L. C. Eaton entertained last night with a tacky party at the Elks Club, honoring Mr. and Mrs. E. G. Cunningham. Music was furnished by Ray Judia's jazz orchestra. The costumes are reported to have been most ludicrous, and a source of huge enjoyment to all of the guests. By common consent, the tacky prize went to Miss Sarah Maud Benham, and the comedy prize to N. F. Ellenburg.

Among those present were: Mr. and Mrs. C. M. Gibson, Mr. and Mrs. Chas. Gray, Mr. and Mrs. Doug Herring, Mr. and Mrs. Smith, Mr. and Mrs. Charles Fleming, Mr. and Mrs. Blankenbeckler, Mr. and Mrs. F. A. Van Deren, Mr. and Mrs. Colquitt, Mr. and Mrs. Lehman, Mr. and Mrs. E. G. Cunningham, Mr. and Mrs. Richardson, Mr. and Mrs. Gunther, Mrs. Henry Benham, Mrs. McCree, Mrs. Downing, Mrs. Harry Gray, Misses Newcomb, Sarah Maud Benham, Stewart of Indianapolis, Jackson and Wagner of Taylor, Jay of Sipe Springs, Cox and Phebus of Eastland, Messrs. Woodson, Stuart L. Williams, Eaton, Ellenburger, Greer of Ranger, Goldman, McCree, Horstoff, Dr. Woods, Dr. Graham, Mr. Davis of Eastland and Mr. Flores of Fair.

President Pessoa Denounces Radical Element of Nation

RIO DE JANEIRO, July 9.—President Pessoa in a message to the national congress has just denounced alien radical agitators who, during the past few months, "attempted to promote industrial strikes for their own ends and to destroy the existing social order."

Police investigation showed, he said, that the principal agents of these strikes were aliens and that they counseled inhuman and barbarous means, such as the use of bombs, to gain their ends.

The president urged that congress should arm the government with laws of defense against these elements. He recommended that the project now before congress regulating the entry of aliens into national territory be promptly passed into law, also the bill relating to anarchist crimes.

Notice

There will be work in the 1st and 2nd degrees in Masonry, beginning this afternoon at 4 o'clock.

I am particularly anxious to have present all candidates for these degrees.

I would also like to call attention to the fact that the older members of the Blue Lodge are not attending our meetings. I hope all will take notice of this and be willing to lend us their presence and assistance.

Refreshments will be served.
WM. REAGAN,
W. MASTER.
