OIL AND GAS PROBE VOTED BY HOUSE

R. F. C. Reports First Six Months Activities to House

OVER BILLION IN LOANS ARE MADE PUBLIC

WASHINGTON, Jan. 26.—Secrecy, which for nearly a year has hidden early activities of the Reconstruction Finance corporation, ended today with a report to the house detailing loans totalling \$1,171,983,307.

The great lending agency, set up to save a nation's financial structure, disclosed that during the first six months of its existence it made more than 5,000 advances to great corporations, banks and railroads.

The disclosure was forced by a house resolution sponsored by Rep. Edgar Howard, Dem., of Nebraska.

For months the corporation has fought publicity, holding it would be dangerous to its borrowers. Today, over strenuous protests, it submitted a report on its activities from its beginning on February 2 to July 21, 1932. Loans since July 21 have been published monthly.

The report shows advances made to small country banks, to great railroads faced with refinancing operations of tremendous magnitude, to banking institutions in the financial nerve centers of the nation.

Of these total loans the balance outstanding January 6 was \$838,651,875. Repayment of principal up to that time had totalled \$267,532,363.

LOBOES TAKE MEASURE OF GORMAN, 33-17

The Cisco Lobos advanced another step in the Eastland county basketball championship race last night by taking the count of the Gorman team, 33 to 17.

Captain Ray was high point man for the game with a total of 12 points, all scored in the first half. Hamrick led the Gorman five with 9 points, being followed closely by Buck Cearley of Cisco with 8.

In the second half the Loboes changed their style of play, working the ball to the center of the court and then passing to Rutledge or Cearley under the basket for crisp shots. The first half had been featured by the long distance shooting of Ray.

The going became rough in the last quarter and Coach Elkins sent in his shock troops, who held the Gorman leads until the end of the game.

The next game for the Loboes will be tomorrow night, the Cisco team journeying over to Elinsville. This will be the second time the two teams have met this season, the first being the curtain raiser of the cage season in Cisco.

Following are the starting lineups: Gorman: Johnson and Hamrick, forwards; Montgomery, center; Gray and Rider, guards.

Cisco: Harrison and Cearley, forwards; Norvell, center; Ray and Latch, guards.

Negroes to Sponsor Community Center

Local negro citizens, under the direction of Joseph Wilson, Jr., executive secretary of the B. M. & E. Convention of Texas, in a meeting held Monday night, decided to sponsor a community center that will embrace a library reading room, and playgrounds for negro youth.

Committees appointed to take immediate charge of this new program are headed by Sid McIntyre, Rachel Haynes, E. L. Hopkins and William Lacey.

In connection with the community center, a Bible training school for West Texas is to be established, according to a statement from the director.

Garage Partially Damaged by Fire

The garage at the home of Sam Draganes, 505 West Tenth street was damaged by a fire believed to have started from blown particles of burning trash yesterday afternoon. The fire department extinguished the blaze quickly.

Stillman Faces New Love Charge

James A. Stillman, retired banker, has been summoned to appear in court of a complaint brought in Brooklyn by Luc Rochefort of Montreal that the elderly banker alienated the affections of Mrs. Rochefort. A justice is determining now whether there is basis for the suit, which would seek \$200,000 damages. Stillman, shown above with his former wife with whom he had several sensational legal battles prior to her divorce and marriage to Fowler McCormick, through his attorneys claims the suit is merely a plot to obtain money from him. Rochefort, twice unsuccessful candidate for mayor of Montreal, is pictured at the right.

RURAL SCHOOLS GRANTED \$15,442 OF STATE AID

Inspection of rural schools in Eastland county applying for state aid has been completed by State Supervisor John T. Conn, it was announced by County Supt. B. E. McGlamery, who said that aid has been granted to the following schools in the amount set opposite each.

District No. 1 Yellow Mound	\$ 234.00
District No. 3 Flatwoods	846.00
District No. 4 Morton Valley	1,154.00
District No. 9 Kokomo	140.00
District No. 10, Alameda	1,196.00
District No. 16, Curtis	126.00
District No. 25, Elm	202.00
District No. 27 Grandview	457.00
District No. 30, Okra	637.00
District No. 33, Now Hope	436.00
District No. 34, Dothan	217.00
District No. 42, Romney	745.00
District No. 43, Pleasant Hill	410.00
District No. 47 Cook	298.00
District No. 49, Center Point	378.00
District No. 53, Mangum	298.00
Scranton	1,825.00
Carbon	1,267.00
Desdemona	854.00
Pioneer	882.00
Gorman	1,070.00
Rising Star	1,770.00
TOTAL	\$15,442.00

"Of this amount," said Mr. McGlamery, "\$12,661 is for aid in paying teachers' salaries, \$2,676 is for aid in providing transportation, and \$105 is industrial aid granted for the maintenance of departments of home economics and agriculture. The aid granted is such as will help to maintain the schools for a period of six months in the rural districts. Gorman and Rising Star were granted the aid on a basis of \$10 for each resident high school student within the districts."

Men's Banquet at Eastland Tonight

A men's banquet for Methodist laymen over this section will be held at the First Methodist church at Eastland this evening, beginning at 7 o'clock. Rev. O. O. Odum, pastor of the First Methodist church here, announced.

There will be no charge, nor any collection taken, the pastor said, urging men of the local church to attend, if possible.

EXECUTION OF BYBEE IS SET FOR JAN. 30TH

HUNTSVILLE, Jan. 26.—Execution of Hilton Bybee, known here as the "smiling prisoner from Stephens county," has been set for Monday, January 30, Warden W. W. Wald of the state penitentiary, announced today.

The youth was sentenced to die for shooting Ernest Slape during a robbery at Paducah last February. A life sentence for slaying Ollie Parks Stephens county deputy constable, was given him by a jury at Breckenridge.

Bybee's execution scheduled for January 20, was postponed on an order of Gov. Miriam A. Ferguson.

YOUNG WOMAN'S BODY FOUND IN LONELY RAVINE

CORRIGAN, Polk Co., Tex., Jan. 26.—A young woman's mutilated body found huddled under a pile of debris in a lonely ravine nine miles west of here, today presented a first class murder mystery.

Bearing stab wounds and bruises from head to foot the body was found yesterday by Frank Fann, a farmer hunting strayed stock.

The body was badly decomposed. Death had occurred about ten days ago, in the opinion of authorities.

Officers theorized the woman might be the daughter of a Houston county farmer, missing from her home since Christmas.

The woman appeared to have been about 25 years old. She wore an expensive fur trimmed coat, which had been slit by the knife which killed her. The body was sprawled in a narrow ravine and had been partially covered with small logs, freshly cut saplings and bits of brushwood.

The woman's throat had been slashed and there were cuts all over her body.

Negro Married to Beat Depression

MEMPHIS, Jan. 26.—Getting married was a new way to beat the depression according to the way one old negro, who appeared before Squire Douglass, had it figured out.

When the negro appeared with a woman, he asked what the cost of marrying was. Squire Douglass told him the marriage license cost \$5 and the fee to the squire would be \$2.

"What I want to know, Squire, is, will you all marry us so as I can pay you the \$7 at a dollar a week," the negro asked.

"You haven't any business getting married if you don't even have the price of the marriage license," the Squire replied.

"But Squire, I'd be a heap more able to pay you after the ceremony," answered the grinning negro. "You see, Squire, the folks down at that welfare office says they would give me a job if I had someone to support, like a wife or children."

Oil Proration Cases Grouped for Hearing

HOUSTON, Jan. 26.—Final disposition of all cases arising from oil proration in the east Texas field will be undertaken here tomorrow at a hearing before three federal judges.

Nearly 70 suits, mostly asking injunctions against railroad commission interference with oil production will be consolidated into a single suit for the hearing.

State railroad commissioners will attend. Attorneys for the plaintiff companies will contend the commission has shown discrimination in enforcing proration.

1835 GOLD COIN
FLACERVILLE, Cal., Jan. 26.—Newton O'Neil is awaiting the report of coin experts on the value of a \$2.50 gold piece dated 1835. He found the coin in an excavation eight feet deep and believes it to be quite valuable. He has refused an offer of \$25 for it.

Foes in Banking Fight

SALEM, Ore., Jan. 26.—There are firemen's balls, boiler-makers' busts, unemployed ullulations and even collegiate canters, but the latest wrinkle in that line here will be a policemen's radio dance. No, they won't dance to radio music, but are planning a benefit "shindig" to raise money for a police radio broadcasting station to help combat crime.

High School Boys Entertain Rotarians

Pierce Thomason and Victor Lawson, high school youths, entertained the Cisco Rotary club today noon. Pierce presented two vocal solos and Victor solos on a French harp. G. W. Collum accompanied for the boys.

The program was in charge of E. P. Crawford, and the young entertainers were presented by E. N. Cluck, superintendent of the Cisco schools.

Randolph to Play A. C. C. Team Friday

The Randolph college Badgers will take on the A. C. C. Varsity B team tomorrow night in the Randolph gym, according to an announcement from Coach H. R. Garrett of the Badgers today. The game had been set for tonight but has been postponed until Friday.

This will be the first major game for the Badgers this season, although the Badgers have already played a couple of practice games and won both by comfortable margins.

The probable starting lineup for the Badgers will be Kemp and Karkalis, forwards; Norred, center; Powell and Swink, guards.

ZOO ENLARGED

ATLANTA, Ga., Jan. 26.—The zoo of Asa G. Candler, Jr., son of the soft drink magnate, has been increased by arrival of seven seals. Candler has one of the most complete private collections of animals in America, including the world's largest elephant—for one of them—Rosie.

FIREMAN ESCAPED PARALYSIS

WATERVILLE, Me., Jan. 26.—When fireman John Campbell fell downstairs, he remained on duty. Several days later, on consulting a doctor, he found that he had suffered a fracture of the neck, but that the bone had reset itself, saving him from paralysis.

COMMITTEE IS GIVEN POWER FOR INQUIRY

AUSTIN, Jan. 26.—The Texas house of representatives today adopted 76 to 56 a resolution for an oil and gas committee investigation to be held here on oil matters in Texas.

The resolution gives the legislative oil and gas committee the power to summon witnesses and put them under oath. No appropriation for the hearing was made.

The senate today heard protests to the three nominations for the state board of education submitted by former Gov. Ross Sterling.

Senator George Purl, Dallas, appealed for opinions of educators on the matter.

"I think many of the senators would like to know how the spokesmen and leaders of education in Texas feel about their stewardship in office, and I know that I, for one, would like to know their views. The silence is deafening," Purl said.

WOULD REESTABLISH PURCHASING AGENT

AUSTIN, Jan. 26.—Rep. W. E. Poy of Corpus Christi today prepared bills to abolish the state board of control and the state game, fish and oyster commission.

In place of maintaining a board of control he proposes to reestablish the office of state purchasing agent.

BANK BANDITS BELIEVED TO HAVE ESCAPED

DALLAS, Jan. 26.—Peace officers here were advised today that two men, believed to be those who robbed the bank of Covington, held up a farmer near Klondike today and took his small roadster to continue their escape.

Klondike is near Cooper. The farmer's automobile was painted blue.

The bandits appeared to have made good their escape after officers pursued them through the Brazos river bottoms, west of Cleburne last night. They abandoned the robbery automobile near Blum, but took about \$3,000 with them, a final check of the loot disclosed.

Ass'n to Organize West Texas Division

DALLAS, Jan. 26.—A West Texas division of the Texas Good Roads association will be formed at Lubbock tomorrow in a meeting of representatives of 30 south plains and west Texas towns and cities.

Marshall R. Diggs, of Dallas, financial secretary of the association, made the announcement. He said he expected formation of the new division to aid the association's campaign to prevent diversion of the gasoline tax and to complete projected highway construction.

Would Increase Governor's Salary

AUSTIN, Jan. 26.—A joint resolution to increase the salary of the governor of the state of Texas from \$4,000 to \$12,000 a year was introduced in the legislature today.

Other resolutions would raise the salaries of the state comptroller, treasurer, and land commissioner from \$2,500 each to \$6,000 each, and that of the attorney general from \$4,000 to \$10,000.

CHINESE PILOT

WICHITA, Kan., Jan. 26.—The personal pilot for the young Chinese war lord, Marshal Chang Hsieh-liang, is a Wichita man, Perry Hutton. Mrs. Hutton, ignoring the dangers of warfare in the Orient, left here to join her husband. She expects to be in China by Jan. 27.

Brother of Ciscoan Killed in Explosion

W. C. McNeely, about 44, was killed yesterday in a boiler explosion at the Morriss-Alice No. 1 wildcat well near Edom in east Texas. He was a brother of W. H. McNeely of Cisco.

McNeely, employed as a fireman at the well, was hurled about 100 feet by the explosion. He was taken to a hospital but died soon afterward.

Plans for the funeral were not learned at noon today.

The blast also injured J. H. Caithron.

CITIZENS ARE URGED TO PAY SCHOOL TAX

January 31 is the last day on which school taxes may be paid without interest penalty. W. F. Walker, secretary of the school board here said today. He urged everyone to pay the tax before it becomes delinquent and said that the taxes are not coming in as promptly as had been expected.

Speaking of the bill before the state legislature to turn the apportionment of all state school moneys to the county superintendents Walker said that under the proposed independent school districts, of which Cisco is one, would get the state apportionments about a month later than they do under the present system.

At present the common school districts receive their apportionments from the county superintendent, but the independent districts get theirs directly from Austin.

This bill, he said would also bring the independent districts under the supervision of the county superintendent, whereas they are at present controlled by their individual school boards. This plan would have the county superintendent approve all teachers' contracts in the independent districts, whereas the independent district boards, who actually work with the teachers and know the situation of the school, now have charge of contracts, together with apportionments.

MOVING VAN AND CONTENTS ARE DESTROYED

The moving van and contents were destroyed by fire at the home of Mrs. J. H. Caithron, near Edom, east of Cisco, today.

Randolph to Have Charge of Service

Observing the Methodist custom of dedicating the fifth Sunday in each month to the interests of education, the First Methodist church services Sunday evening will be in charge of Randolph college, the pastor, Rev. O. O. Odum, announced today.

The regular order of worship will be followed at the Sunday morning hour, with the pastor preaching.

Burrus, Well Known Grain Dealer, Dies

DALLAS, Jan. 26.—J. Perry Burrus, 61, grain dealer and former director of the United States chamber of commerce, died here today.

He was one of the most widely known grain elevator operators in the southwest.

His grain interests stretched over the entire state, the company operating elevators in the panhandle as well as in the shipping centers here and in Fort Worth.

WEATHER

West Texas—Fair. Colder tonight. Friday fair, warmer extreme west portion.

East Texas—Partly cloudy. Colder tonight. Friday generally fair. Somewhat colder east and south portions.

F. D. AND HIS FOREIGN POLICY.

Pres. Hoover and Pres-elect Roosevelt held a round table talk. This is the joint result of their short conference: "The British government has asked for a discussion of war debts. The incoming administration will be glad to receive their representatives early in March for this purpose. It is, of course, necessary to discuss at the same time the world economic problems in which the United States and Great Britain are mutually interested and therefore that representatives should also be sent to discuss ways and means for improving the world situation."

And that's that. Hoover will go out in March. Roosevelt will step in. As Woodrow Wilson said in the long ago, "This is a period of watchful waiting." It is on the part of the American people who are seeking foreign markets for their surplus crops and manufactured goods and who are unwilling to cancel billions of war loans merely to regain the so-called friendship of foreign peoples of European nations.

TWO BILLIONS LOANED BY R. F. C.

According to a statement made by its officials, more than two billions have been loaned to date by the Reconstruction Finance corporation. These loans cover all the fields of endeavor. There have been loans made to rail corporations, to banks loaded down with frozen assets which will thaw out some day, loans to states and counties and cities for relief purposes, for to aid the unemployed and loans to individuals the nation over.

Gov. Herbert F. Lehman of New York has made application for a loan of \$45,000,000 to the empire commonwealth of the East. This money is to be used for the relief of the unemployed until the coming of early summer time. In this greatest of American commonwealths, speaking of population and wealth, it is said there is an army of two million idle workers. In addition to all this, millions of dollars have been donated by generous corporations and individuals in the last 12 months to carry on until "happy days return once more."

Newton D. Baker is one of the outstanding leaders on the stage of American thought and action. In an address he warned legislatures now in session or to be convened at an early date that "they must assume a larger responsibility for unemployment relief this year." The former secretary of war is chairman of the national citizens committee of the welfare and relief mobilization and has addressed letters to governors and the 48 legislatures calling for "immediate action to relieve distress of our fellow citizens."

Economic conditions today should at least compel people to think. A vast majority of the American people did not devote a vast deal of time to "sound thinking" during the war period or the wild gambling era that followed in the wake of the war. Now it is up to them to think and to think intelligently.

OWSLEY OF TEXAS FOR ARMED DEFENSE.

Col. Alvin C. Owsley of Dallas is former national commander of the American Legion. He traveled from Dallas to Texarkana where he addressed a large audience of legionnaires. He very bluntly asserted that the United States is the only nation not preparing for war "while the rest of the world is bristling with armaments." He tossed this nugget of advice into the ranks of his former buddies: "The nation that has power to defend its rights will seldom be called on to defend itself."

Incidentally, he advised that the United States be kept out of the league of nations for the reason that the league had settled not one argument over boundaries and that since the Washington conference under the Harding administration.

The Farm Allotment Plan in a Peanut Shell

tion, "the United States has lost power while the rest of the world has increased its forces."

"Well, the World war cost the American people a greater sum of money than all the cost of American government since the Washington period to that of Franklin D. Roosevelt call to the presidency by the American electorate. This is not all. There is a war debt of billions of dollars, and cancellation or no cancellation Americans of today and tomorrow and throughout the years to come must pay for America's glorious attempt "to make the world safe for democracy"—under the skies of Europe. Another World war and the Caucasian race would be bled white and then some.

PASSING THE LOAD TO F. D.

Secy. Ogden L. Mills is a very wise financier as well as the one big ace of the lame duck administration. And why? Conversion of the outstanding \$8,201,000,000 of liberty bonds and the \$5,350,000,000 of short term public debts into long term bonds at a saving in interest is to be left entirely to incoming democratic administration. Secy. Mills has let it be known that the February financing "asked for just enough money to pay maturity certificates and interest on the public debt and to furnish funds for the Reconstruction Finance corporation." Incidentally, the next interest date is March 15, and the Roosevelt administration will be in office. All of which is a reminder that the First Liberties are callable now while a Fourth are callable on and after Oct. 15. "War is hell." A distinguished federal general said so. If the fighting is hell, then the cost of the fighting in the years that follow after the coming of peace must be a legion of hell.

Through the Editor's Spectacles

By GEORGE

Dependence upon memory in reporting the happenings at the meeting of the city commission Tuesday evening resulted in a very important omission in yesterday's afternoon's account.

The story failed to state that the commission had extended the period for payment of 1932 city taxes without penalty or interest to May 31, 1933. Comm'r Henderson, who made the motion, stipulated that it was being offered with the understanding that the extension would

to hunt up Mr. Mathews to find out what is going on.

The Paris Morning News will probably learn more about Lamar county's wolves during the next few weeks than the paper has discovered in the past century. The staff of the Cisco Daily News could write a size-

nounced he was not recognized for the purpose.
The future raised over no dinner being left for the incoming governor at the mansion seems to have been a bit overdue.
Though the little courtesy has marked the transition of a number of administrations, it has not been an unbroken custom. Mr. and Mrs. Dan Moody did not find a dinner waiting for them.
The "custom" seems to have prevailed only when the new and old governors were friendly in politics.

Rigid economy may prevent the portrait of former-governor Ross S. Sterling being hung in the rotunda of the state capitol alongside other governors of Texas.
It has been customary for the legislators to appropriate \$500 for an oil portrait of the governor.
Mrs. Miriam A. Ferguson was twice honored. After her first term in office her portrait so ordered was hung in the capitol rotunda. Friends donated funds for a sculptor to carve a marble bust and it was placed in the capitol lobby.

A governor's cabinet, recommended by the state reorganization committee, is not a new proposal.
It was suggested in United Press stories from Austin when Gov. Ross S. Sterling took office. That he would follow the usual business course and have conferences of the department heads as a sort of cabinet was then discussed.
The difficulty in the way of a state cabinet is that heads of many state departments are elected by popular vote, just as the governor is elected. The president's cabinet is appointive. Technically this should be no object. Practically it is a big one.

Railroad commission division heads deny appointees of former-governor Pat M. Neff were singled out in reducing commission forces recently.
Appointees of others were also relieved, when their places no longer were necessary, it was asserted.
The removal of Gen. Thomas D. Barton, World War hero, created the

stir. He was appointed by Neff and had also been adjutant general under Neff.
Commission employes point to the retention of R. B. Walthall, who was secretary to Neff, when Neff was governor. Walthall, however, was not appointed on the rail commission by Neff, who after a short time on the commission, offered a resolution to do away with individual appointments and require concurrence of all members of the commission to any appointment.
Amusing mistakes are occurring in both house and senate of the present legislature due to persons resembling each other. Misses Page and Beverly Randolph, secretaries respectively for Senators W. K.

Hopkins and Ernest Fellbaum, twins.
Rep. E. Harold Beck of Texarkana and Ed Rider, Houston newspaper correspondent, look so much alike they frequently are being confused.

BEHIND THE SCENES IN WASH

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON.—At about the time, when everyone is impatient for the inauguration and the change of administration which are known to be forthcoming, is the custom of newspaper writers to burst forth with the startling assertion that there has yet been any presidential election.

What they mean is that the electoral college votes have not yet officially been counted by Congress. Legally speaking, there is no president-elect until the second Wednesday of February when the Senate parades solemnly two by two to the House to count the 531 votes.

Some year—perhaps 1937, 1939 or 1945—it may be different. One can find authorities to predict the time when no president will have been elected even theoretically in November and when, instead of this mere ceremony of Feb. 8, the process of election will become so muddled up in Congress as to force the choice of an acting, temporary president such as this country has never seen.

The universally praised and highly valuable Lame Duck amendment, now in process of ratification, offers that interesting possibility.

NO one will be surprised to see the rise of a third party within the next few years which could throw an election into the House by obtaining a large enough electoral vote to prevent a majority. Under the amendment the Congress meets Jan. 3 and the president

may pass a special law so that no president-elect or vice president-elect shall have qualified until someone to serve as president in the interim.

Unless Congress passes such a law the possibility of a time when nobody will have any idea who is president of the United States will remain. It will be interesting to see what Congress does about it, if anything. Such a tie-up as is here envisaged means that there would be no speaker and no member of the cabinet. The best bet would seem to be the chief justice of the supreme court.

But no one need worry about it this year. Mr. Roosevelt will have a large fat majority of electoral votes.

Eastland county is now without a state wolf trapper. F. B. Mathews, who for the past two years has preyed upon the predatory population of the county with remarkable success, has been transferred to Lamar county, whose capital is the pretty little city of Paris.

Mr. Mathews has done a splendid work in this county, which is responsible no doubt, for his transfer to the Lamar field. He is not only an able trapper, but he knows the value of keeping his work before the public. The press doesn't have

60 cents* of every gas bill goes for TAXES

IN the course of a single year, MORE THAN TWO AND THREE-QUARTER MILLION gas bills are rendered to customers of the Lone Star Gas System. It requires 60c for each and every one of these bills to pay the numerous TAXES levied against the fuel service of this dependable System for the production, transportation and distribution of natural gas.

This money comes from the pockets of the gas consumers, and adds to the cost of gas service. The company acts as an agency for the collection of this tax money from its customers, and has no control over this item of expense which is a part of the rate you pay for natural gas.

GAS SYSTEM

CO-OPERATIVES ESTABLISH OWN TRUCK FARMS

By VINCENT MAHONEY
United Press Staff Correspondent
LOS ANGELES, Jan. 26.—Facing the problem of getting foodstuffs to market without the use of gasoline—which means money—several co-operative exchanges have established their own truck and citrus farms.

One exchange has a 1,000-acre truck farm 30 miles from the city, where green vegetables are gathered daily and sent to the exchange, operators of the farm receiving credits at the dollar value of the food. Another exchange has enlisted a citrus grove.

Chain of Exchanges

W. W. Cavanaugh, organizer, at present is engaged in standardizing a chain of exchanges through the region, in the hope of broadening the usefulness of the parent exchange here. Cavanaugh talks of the day when there will be an exchange in every town, with a common central newspaper, radio communication and a central "clearing house."

The work of these exchanges differ radically from that of another group, possibly the largest in the state—the California council of co-operative relief, with units in 70 towns and cities.

Quick Distribution

Self-described as a sort of proletarian "commonwealth," though it numbers unemployed professional men in its ranks—the council concerns itself primarily with the quick distribution of surplus necessities, disregarding any orthodox consideration of economic equity.

Need is the only "currency" the council recognizes, so there is no attempt to keep "credits" or "debts." The council works in close harmony with merchants and charitable organizations. It has completed its third quarterly meeting.

Where there is a definite technical flavor to such organizations as those headed by Mrs. Mays and Cavanaugh, the state council fails to come under any economic heading.

STATE BOARD WOULD LIMIT BALL GAMES

AUSTIN, Jan. 26.—Banning of high school football games on school days and limiting of basketball to Friday and Saturday nights were proposed in a report of the state board of education to the governor.

Holding football games on school days should be discontinued because of interference with school work, the report said.

"We find no argument for it," the board said.

"It is true that some high school coaches wish to be free to attend college games on Saturdays; it is true that gate receipts in some communities will be smaller on Saturday; it is true some boys have to work on Saturdays and hence could not participate in or attend Saturday games.

"None of these reasons has an appreciable weight when compared with the interference with the school program."

Actual schedules show 1,742 games, or 70.9 per cent of all games, scheduled for school days, it was pointed out. Of the 232 schools reporting, 128 sometimes dismiss school for games, 53 show attendance as "appreciable" cut down in school on days of football games, and in 72 schools the time lost is not made up, the report showed.

Eight Games.

"Eight inter-school football games a season appears sufficient to secure all the advantages claimed by inter-school football," the report said.

"Not only do the majority of Texas school men believe eight a maximum number, but school men all over the country designate eight or less as sufficient."

"The board recommended limitation of basketball games to 15, between Dec. 1 and March 1, and providing that tournaments should admit only a limited number of teams.

Regarding "scholastic favors to athletes," the board said that was due to "too great enthusiasm for winning games."

"The community has become frenzied," the board continued. "It is a symptom of athletic disease. The honesty of scholastic standards must be upheld even if the whole inter-school sport program should have to be abandoned to uphold them."

Coaches should be required by law to have a certain amount of credit in physical education, and the state board of education should be given certain regulatory powers in order to deal with "mob enthusiasm that has developed in several communities."

FEASTED ON PUTTY

TACOMA, Wash., Jan. 26.—Ernest Lloyd discovered the putty missing from his windows. He replaced it, and again found them scraped clean. Watching, Lloyd found a pet magpie was feasting.

NERVOUS WOMEN

Take Lydia E. Pinkham's Vegetable Compound

"I am so nervous it seems as though I should fly!" "My nerves are all on edge!" "I wish I were dead!" "How often have we heard these expressions from some woman who has become so tired and run-down that her nerves can no longer stand the strain."

No woman should allow herself to drift into this condition if she can help herself. She should give Lydia E. Pinkham's Vegetable Compound a trial. For nearly sixty years women have taken this wonderful tonic to give them renewed strength and vigor.

98 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your drug store today... and watch the results.

200,000 Turkeys Is Dewitt Crop

CUERO, Jan. 26.—If all the turkeys produced in Dewitt county in 1932 were one great turkey the huge bird could provide a dinner for every person living in Chicago and Los Angeles.

This would be a total of 4,608,800 persons. There would be enough left to provide hash for the combined populations of Houston, San Antonio, Dallas and Fort Worth, the largest cities in Texas.

The figures were compiled by local turkey statisticians, who said Dewitt county produced 200,000 turkeys in 1932, marketing a total slightly in excess of 177,000 birds.

Deaths From Food Poisoning Decrease

PORTLAND, Ore., Jan. 26.—Deaths from the dreaded food poisoning termed botulism are becoming fewer and fewer over the United States, Northwest Cammers in convention here were told recently by Dr. Karl H. Meyer, of the Hooper Foundation, University of California.

A death from botulism has not been traced to American commercially canned goods in several years, said Dr. Meyer, an internationally known authority on food diseases.

"Eternal vigilance is the thing that has put down this deadly ailment," said Dr. Meyer.

"Acidification and sterilization are its masters. The canning industry knows this, and is careful to see that proper methods are employed.

"Housewives who prepare foods at home have been educated through cooking schools and through intelligent reading about botulism."

The fact that the greatest number of deaths from botulism is reported in California, Washington, Colorado, New York and Oregon does not mean that housewives in those states are more careless than in others, said Dr. Meyer.

It only means that authorities in those states intelligently investigate and segregate botulism deaths from other deaths, he said.

LOOKIN' INTO THE PAST—JUS' LOOKIN' © 1933 BY NEA SERVICE, INC.

Farm Wins Laval From His Chateau

PARIS, Jan. 26.—Pierre Laval is retiring from the life of a gentleman farmer and his prize cattle are going to the butchers.

Torn between love for his beloved Auvergne and the green meadows of Normandy, the former Premier made the difficult decision by selling his chateau and estates in Normandy and keeping the chateau which he acquired near his highland birthplace several years ago.

There is a sentimental reason behind his choice, for as a boy Laval admired the castle which rose above the village of his birth. It served to stimulate his learning, for he had ambitions to own the place some day as the crowning accomplishment of his life.

Reading Greek and studying the classics as a butcher's delivery boy, Laval became a serious scholar and graduated with the highest honors. Late in life he bought the castle of his youthful dreams.

Other French Premiers of the past have not been so fortunate and M. Laval is by far the wealthiest. Edouard Herriot does not own any land and lives in hotels or rented flats. Raymond Poincare has only the income from his writings, but since he is a prolific writer, his royalties are high.

Andre Tardieu travels much when not in office, but has a certain income from his books. When Aristide Briand died, he was worth 3,000,000 francs, his life savings invested in Normandy farmland. Paul Painleve lives prudently on a small income, but Joseph Paul-Boncour has a splendid income as a lawyer.

Fellowship Meeting At Corinth Church

There will be a fellowship meeting at Corinth Baptist church, beginning Saturday, January 28, and continuing through Sunday, January 29, it was announced today.

The first service will begin at 10:30 Saturday morning concluding at noon. A second service will take place at 7 p. m. Saturday.

Dinner will be served on the ground Sunday and an open invitation is extended.

Invasion of Mayan Jungle Is Planned

HOLLYWOOD, Cal., Jan. 26.—Combining scientific research with motion picture production and unavoidable adventure, an expedition into the Mayan jungles plans to leave Hollywood this month under the sponsorship of Willard Dittmar and Arthur B. Robinson.

The expedition will include 35 people, who will sail on a yacht fitted with motion picture laboratory and radio broadcasting equipment. The group will be gone between six and eight months.

Among those scheduled to sail, according to the sponsors are Mrs. Jack London, widow of the noted writer; Patricia O'Neill, English novelist; Don Taylor, explorer and Fellow of both the Pacific and Royal Geographic societies.

The itinerary includes stops at Salinas Cruz, in the Gulf of Tehuantepec, southern Mexico; Mitla, lo-

Woman Thought U. S. Belonged to Britain

LONDON, Jan. 26.—She thought, or at least she said she thought that the United States was a part of the British Empire. She was fined £1 approximately \$5 at par) but not for saying that.

It happened at Southend which is at the mouth of the River Thames. A fruiterer, Mrs. Rose Chalk, was arraigned for having exposed apples for sale without showing the country of origin. The apples were from the United States, probably Virginia, but were labeled "Empire Fruit."

When summoned, Mrs. Chalk was stated to have said that she thought the United States was a part of the British Empire. If she did think that, she was not alone. A few people, not necessarily ignorant, still think that Britain owns the United States but almost everybody knows and thinks differently and some profess to be glad that the United States own themselves.

CRIME COSTS \$1.96.

SACRAMENTO, Cal., Jan. 26.—The per capita cost of crime in California is \$1.96, according to a recent report of the state crime problems committee.

HORSE KILLED OWNER.

VALDOSTA, Ga., Jan. 26.—Not in many years, until last week, has there been a fatality in a horse runaway in this district. E. Zant was killed when his horse got out of control.

MAKES WOMEN LOSE FAT

Miss Rea Haines of Dayton, Ohio, writes: "I weighed 180 so started to take Kruschen. I never was so surprised as when I weighed myself the first week—I lost 7 pounds. I just bought my 3rd jar and am down to 145—am still taking them and never felt better in my life." (June 17, 1932).

To take off fat—take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—one bottle that lasts 4 weeks costs but a few cents—get it at any drug store in America. If this first bottle fails to convince you this is the SAFE and harmless way to lose fat—your money gladly returned.

Don't accept anything but Kruschen because you must reduce safely.—Adv.

VICKS MAKES SPECIAL OFFER TO EVERY ANTISEPTIC USER

Makes Possible, At Small Cost, Test of the New Vicks Mouth-wash and Gargle—For Halitosis, Oral Hygiene and Other Antiseptic Uses.

Local Druggists Have Limited Supply of a Special Trial Size — A 25c Value for Only 10c.

Users of mouth-washes, gargles, and antiseptic lotions can now save more than half the costs of this modern daily necessity. This tremendous saving comes with the introduction of the new Vicks Voro-tone Antiseptic—by the makers of Vicks Vaporub.

is made possible by record low prices of raw materials—combined with Vicks mass production and world-wide distribution of quality products.

Mild Enough, Strong Enough Vicks Voro-tone is a balanced antiseptic. Mild enough to use daily without risk to delicate membranes. Strong enough to do everything an oral antiseptic can and should do. Vicks Chemists could produce nothing better . . . and they were aided by the chemists, pharmacologists, and bacteriologists of their 16 allied organizations, here and abroad.

Vicks Antiseptic is designed, of course, for all the customary uses of oral antiseptic. The most convincing evidence of its quality and savings is to get a trial size of Vicks Voro-tone, and use this generous quantity in the usual way. Your druggist has it. Get a bottle today for each member of your family who uses an antiseptic mouth-wash, gargle or lotion.—Adv.

COOPERATIVE GIVES WORKERS CREDIT SLIPS

Editor's Note: This is the second of a series describing the growth of co-operative exchange in California. Today's article explains in detail the system under which the silk hat-for-a-lawn-mower idea has been expanded.

By VINCENT MAHONEY United Press Staff Correspondent LOS ANGELES, Jan. 26.—The Los Angeles co-operative exchange has progressed far beyond the point where a "member" offers merchandise, or services, and waits for someone in need of what he offers. Instead, in the case of merchandise, goods are appraised (on the dollar basis), and put in stock. With the sale, the owner is credited—much as a bank issues a deposit slip—with the amount involved. He then is free to "spend" his credit in the purchase of service, or other goods. Meanwhile, if he buys services, the worker is issued a credit conforming to a fair dollar wage for his work. He then is free to "buy."

"Paid by Memoranda" "Sales" are paid for with signed memoranda much resembling bank checks. Instead of "pay to the order of," they read "credit." A five per cent charge is assessed for each transaction, which must be paid in stamps furnished by the exchange. Proceeds are used to provide the exchange with those necessities which cannot be secured except for cash—telephones, gasoline, lights, etc.

The headquarters has a large plot of floor space given over to display of merchandise—everything imaginable from tire covers to artificial flowers. The downtown store has an even larger selection. The exchange has handled \$250,000 worth of merchandise and service since its beginning. Several of its executives live in fashionable apartments whose owners are glad

to get "credit" memoranda in exchange. One apartment house owner has furnished the entire place with articles "bought" at the exchange.

Wage Release Laborers—in fact, all offering service—must first sign an agreement absolving the exchange from cash liability. This disposes of wage claims.

Surplus? "Shortage has been our trouble so far," Miss Bessie Mays, the director, said. "Particularly food. The question of bulk food inevitably raises the question of getting it to market, and we haven't yet signed an independent gasoline producer as a member. Gasoline costs money, so we're handicapped. "I honestly believe surplus to be, in a large measure, an artificial by-product of the dollar's elusiveness—a result of enforced underconsumption, rather than 'overproduction'."

The Los Angeles co-operative exchange is one of a score or more in the Los Angeles area, some of the others are operated on slightly different principles.

VIOLETS BLOOM IN WINTER LAPORTE, Ind., Jan. 26.—Violets out of season, are blooming in the yard of Mr. and Mrs. Norman Smith here.

— THIS CURIOUS WORLD —

SEA-BOTTLES, A SEA-WEED OF THE BERMUDA COAST, ARE THE LARGEST SINGLE CELLS IN ALL PLANT LIFE THEY GROW TO THE SIZE OF A HEN'S EGG.

DIGITALIS, A MEDICINE, IS MADE FROM THE FOXGLOVE, A POISONOUS PLANT!

ALTHOUGH DIGITALIS IS A HEART STIMULANT, IT SLOWS DOWN THE SPEED OF THE BEATS.

IT IS ESTIMATED THAT 70,000,000 TONS OF SOOT FALL ON AMERICAN CITIES EVERY YEAR.

THE HALICYSTIS, or sea-bottle, resembles a large grape and has such resiliency that it will bounce like a rubber ball. It is indeed a giant, when one considers that most of nature's plant cells are microscopic in size.

If a pulse beat is reduced 20 times a minute by the use of a medicine such as digitalis, the heart is saved 28,500 beats a day, and the total period of heart-rests between the beats is increased by four hours.
