Coming of Phillips Petroleum Company Stimulates Activity In All Lines of Business Endeavor

LOBO QUEENS VICTORS 25-9 OVER PUTNAM

Keeping up their splendid record made when the Lobo Queens defeated Parks by the long end of a nice score of 13 to 17, the Queens, Friday evening at the high school gym, took the major portion of a score of 25 to 9 when they played the crack basketball team of girls that came over from Putnam. The game was witnessed by one of the largest number of basketball fans ever assembled in the gymnasium, and many had to be turned away. Some idea of the immense throng may be estimated when it is stated that the gate receipts amounted to \$75, with the admission price at 15 cents and 25 cents.

The visitors hotly contested every inch of ground, and forced the Queens to tiptoe some to hold them on the short end of the score. The first and second centre of the Putnam team were clearly the stars for the visitors, but the visitors played good team ball throughout the game, and the stars were ably supported by their team mates. Lula Price, forward, starred for the locals in her superb shooting, while Bessie Swindle, guard, featured brilliantly for the Queens. Witnessing the game were seventeen from Breckenridge and many from Moran. The Queens will play the Parks team here next Wednesday—the day before Thanksgiving—in the Cisco high school gym.

BAPTISTS BAR FIRST CHURCH OF FT. WORTH

DALLAS, Nov. 22.—When the special credentials committee, through its chairman, Dr. F. M. McConnell of Bonham, refused to seat the eight messengers of the Fort Worth Baptist church, the Texas general convention of Baptists late Friday afternoon unanimously endorsed the action of the committee, this making two successive years that the Fort Worth church has failed to receive recognition.

Dr. McConnell's committee presented to the convention charges against the Fort Worth church, of which Dr. J. Frank Norris is pastor, the main points of the "challenge" being:

"1. That the constitution of the convention in article 1, section 2, says that the objects of the association shall be missionary, educational and benevolent, requiring the promotion of harmony and cooperation. The attitude of the Fort Worth church for years in its own city toward Baptist causes shows that its messengers are not entitled to seats.

"2. The Fort Worth church for years has encouraged and financed propaganda which has cruelly and unjustly criticized and unmercifully misrepresented and opposed the program work, institutions, causes and trusted leaders of the Southern Baptist convention. This church supports a movement that discounts and brings to shame the great testimony of Baptist people throughout the world. Hence they ought not to have a place in those councils shaping Baptist work.

"3. The messengers come from a church that supports a movement and leadership that continuously sows the seed of discord and division. We can not for the sake of denominational fellowship, unity and the very life of the Baptist cause favor such a destructive movement and, we respectfully challenge their right to sit in the convention."

The average woman never worries about a clear conscience if she can have a clear complexion.

BRECKENRIDGE, Nov. 22.—In business as well as in oil circles nothing has occurred recently that has so thoroughly aroused people as the sale of the Landreth Company Shackleford county properties to the Phillips Petroleum company, and the announcement by E. A. Landreth that he would immediately begin the development of his 3,796 acre block of holdings six miles south of Breckenridge on the Cisco highway. In fact it has started the business pot to boiling, and the effect of these announcements is felt in all lines of enterprise.

Especially is much comment heard on every hand concerning Landreth's determination to develop the Landreth pool in this county, where he has already started operations on the lease six miles out on the Cisco highway, it being considered by all that this will add much money to that already in circulation as his forces are moved from Ibeta to this county and a new pool opened up.

The fact that Phillips Petroleum company, the biggest producer of gasoline in the United States, is buying more and bigger properties also adds to the faith others have in this section. It will be remembered that only about six months ago the Phillips company bought the three National Gasoline company's plants in this section and now adds another \$4,000,000 worth of holdings to their string in Texas. This company now has about 1800 tank cars with which they transport their products and are owners of the largest gasoline manufacturing plant in all the world. The president of this company is known also for having paid the highest price ever paid for single lease when a few months ago he paid two million dollars for 160 acres in the Osage lease of the Burbank district. He is a man of big ventures and big success in the oil and gas world, and the bringing of such as he into this field to work side by side with many other local men of his type, for the development of the resources of this section, gives added enthusiasm in oil circles.

Landreth is confident that he will develop one of the biggest pools yet known in Stephens county when he gets well started in the 3700-acre block six miles south of Breckenridge. This block includes lands of Ross Sloan, C. E. and R. M. Akin, C. W. Hart, R. J. Dwigins, M. I. Gilmore and K. Gratz. Near the heart of this tract is the Ohio-Ranger well in the northwest quarter of section 3397, which is now producing oil and has produced for four years from the depth of 3200 feet. Landreth is also vitally interested now in the shallow district of Callahan county. He has just recently started work in the district seven miles northeast of Moran, where he reports bringing in three wells the past few days at a depth of 260 feet. He also has large acreage east of Cisco where he is drilling.

LONDON NEW FASHION MAKES HAIR COLORLESS

LONDON, Nov. 22.—All freak hair fashions of the past few years are surpassed by the latest hair fashion—that of removing every vestige of color from the hair.

Many prominent London society women have adopted the new fashion, which is achieved by undergoing a treatment which thoroughly bleaches the hair.

Hairdressers assert that once the hair is so treated it will never recover its former color again.

STAPLE IN HER LUNG 15 YEARS—IT'S REMOVED

PHILADELPHIA, Nov. 22.—Miss Gene Terrill, of Burden, Kan., was en route home, apparently in good health, after an operation for the removal of a staple which had lodged in her left lung fifteen years ago.

The foreign object was removed at the Jefferson hospital with a bronchoscope. The staple had been causing her trouble for three years.

TEXAS-PACIFIC NEW TIME CARD NOW IN EFFECT

Effective today the Texas & Pacific railroad announces a change in schedules of the passenger trains in and out of Cisco. Nos. 11 and 12, which formerly made up here, are replaced by Nos. 15 and 16, now starts and stops at Big Spring, while formerly Cisco was the terminus for Nos. 11 and 12 and the train leaving here at 6:20 a. m., which is discontinued. This change will not affect the schedule on the C. & N. E., it was announced from the offices of that company. Trains Nos. 5 and 6 will pass at Cisco. No. 15 will drop the Breckenridge sleeper in Cisco to go out on the C. & N. E. present early morning train, while No. 16 will pick up the sleeper at 1:35 a. m. for Fort Worth, Dallas and points east.

Following is the new schedule as announced by the local agent, A. J. Tunnell of the T. & P. Saturday, of the arrivals of the trains in Cisco:

West Bound—No. 15, 2:09 a. m.; No. 5, 3:12 a. m.; No. 3, 2:55 p. m.; No. 1 (Sunshine), 6:20 p. m. East Bound—No. 2 (Sunshine), 11:55 a. m.; No. 4, 2:05 p. m.; No. 6, 3:12 a. m.; No. 16, 1:35 a. m.

MR. DENT IMPROVING

A postcard from Mrs. C. H. Dent, who is with Mr. Dent at a Waco hospital, says Mr. Dent is getting along fairly well and that they hope to return to Cisco soon. Mr. Dent has been ill for the past thirty days and his many warm Cisco friends trust he will soon round into his usual good health.

WOULD EXTEND \$50,000 CREDIT BUILD SEWERS

FORT WORTH, Nov. 22.—Mayor Willard Burton, the city's "philanthropic guardian," today bested all former expressions of generosity when he announced he would extend personal credit of \$50,000 for the construction of sewers for the water systems in the suburbs. The city funds have been exhausted.

ON 1,800-MILE VOYAGE IN 30-FOOT KETCH

HALIFAX, N. S., Nov. 22.—Somewhere on the broad Atlantic today, in a tiny ketch, are two professional men, bound from this port to St. Lucia, British West Indies. The navigators are Charles Perrochet, an artist, now of Neuchatel, Switzerland, but formerly of New York, and Louis Kraus, a writer, whose home is in New York. The two men embarked in their thirty-foot craft on a 1,800-mile voyage with scarcely more provisions than they expected to use on the trip. Only sails propel the small vessel, and, because of the inclement weather generally prevailing at this time of year, the voyage has attracted the attention of many experienced mariners.

BLANTON'S EXPENSES

WASHINGTON, Nov. 22.—Representative Blanton, Democrat, Texas, has filed with the clerk of the house a report showing a total campaign expenditure of \$2,906.61, of which amount \$2,855 was received in contributions.

DRY SHERIFF KIDNAPPED

ALTON, Ill., Nov. 22.—Sheriff Lin Larrison, recently active in liquor raids in this section, was mysteriously kidnapped tonight by four men in a large touring car. Posses are unable to find a trace, and fear that Larrison may have been slain and his body concealed.

FOOTBALL RESULTS

Oak Cliff 21, Sherman 10; Notre Dame 13, Northwestern 6; Yale 19, Harvard 6.

STEALS HER COOK STOVE

CHICAGO, Nov. 22.—The kitchen stove in Mrs. Katherine Stone's home was stolen in her absence.

ONE KILLED, TWO MORTALLY HURT IN GUN BATTLE

MOORE, Tex., Nov. 22.—Ira Briscoe and wife were near death today from wounds received in a gun battle with Dr. A. J. Bailey of San Antonio, who was killed on the Briscoe ranch late Friday. Mrs. Briscoe was wounded when she hurled herself between the dueling men. The fight was the outgrowth of a cattle deal. Briscoe's body was riddled with buckshot, while his wife was shot through the abdomen.

MINISTER DECLINES OFFER

Rev. Frank H. Stedman, rector of the local Episcopal church, has been offered the rectory of St. Paul's church, at Lubbock, but has declined and will remain in celestial Cisco. The offer came through Bishop Howden of New Mexico, who is temporarily in charge of north Texas.

TOURNAMENT BY LIONS-ROTARY THANKSGIVING

At a meeting of the house committee of the Cisco Country club Saturday night it was decided to stage a golf tournament on Thanksgiving day between the members of the Cisco Lions and Rotary clubs. The tournament will probably commence in the morning, the details of which are yet to be worked out. The game will continue all day, with different members of the two clubs on the links perhaps at all hours. All members of the Lions and Rotary clubs and their ladies, are invited. There will be entertainment for the ladies, consisting of bridge, 42, and other games, commencing at 8 o'clock in the evening. All members of the Country club are urged to be present and witness the tournament.

WOULD MANDAMUS INTO THE CONFEDERATE HOME

AUSTIN, Nov. 22.—A petition for mandamus to gain readmission into the Confederate home was filed today by C. C. Richard, who was suspended from the institution following the death of J. Chassel, with whom he had quarrelled, and of whose murder he was acquitted.

STAR IN GAME WHILE PENDING MURDER CHARGE

HOUSTON, Nov. 22.—Jim Shown, 19, high school grid star, went into the game against San Antonio this afternoon with a charge of murder hanging over his head, following his killing of Ernest Shogquist, 17, a would-be hijacker, last night. Shogquist, with companions, attempted to hold up Shown, who was with a grid friend in an auto.

COMPLETION OF INTERCOASTAL CANAL IS URGED

EVANSVILLE, Ind., Nov. 22.—After adopting a resolution urging the passage by congress of the rivers and harbors bill, including the Texas-Louisiana intercoastal project, the Mississippi Valley association adjourned today. The bill, if passed, would mean the completion of all the projects within five years, and provides for the appropriation of \$204,000,000.

Cotulla—Plans formulating for construction of dam in Nueces river for creation of big irrigation district.

LOYALTY OF W. TEX. UTILITIES EMPLOYEES FIRM

P. W. Campbell, manager of the West Texas Utilities Co., returned Saturday from Galveston, where he attended the Iocemen's convention. "Since my return home I am informed that it is reported that one of the employees of the West Texas Utilities Co. had signed the Lobo protest. This is evidently an error, as I have made diligent inquiry and have failed to learn of any of our employes being implicated. In the first place I know of none of the West Texas Utilities company employes who would take a stand publicly against Cisco, and in the second place the company would not tolerate it, as we have interests in all the towns in this section, and it is our purpose to bring about the best fellowship among the people of all the several communities which we serve.

"The name of Miller has figured in this report. There is only one Miller in any way connected with the West Texas Utilities Co. and he is Tom L. Miller, sales manager for the General Electric Co. with headquarters at Abilene. He indignantly denies any connection with the alleged protest against the Lobo, and so phoned Secretary Richardson of the chamber of commerce.

"I want to publicly disavow any connection of any employe of the West Texas Utility Co., either in Cisco or Abilene, in the matter, and hope that those circulating such a report will take this disavowal as a conclusive assurance that such a report is without foundation," Mr. Campbell concluded.

GUARDING KLAN HEADQUARTERS PREVENT FIRE

SAN ANTONIO, Nov. 22.—Heavily-armed guards are now being kept on duty at Beethoven hall, headquarters of the San Antonio Ku Klux Klan, as the result of three unsuccessful attempts to destroy the building by fire. Several shots were fired at two men who were surprised in the last attempt to set fire to the place. Neither of the fleeing figures were struck by bullets, but clothing found on a nail in the fence which surrounds the hall, showed where the firebugs had made their escape. W. Perry, watchman at the hall, fired the shots. He found two men setting fire to a bundle of cotton and paper placed under the stage from the outside of the building.

When he ran toward them, he said they fled. They had just started their work and he was able to extinguish the flaming waste, after firing at the men. It was made public Friday that two previous attempts to fire the building were foiled when parts of the building were found saturated with coal oil. In each case, it was said, preparations to start the fire were made in the daytime, the firebugs evidently watching until the day man had made his rounds. Special guards posted when, at different times, the south gallery and the rear wall of the building were found oil-soaked, evidently kept those who were to apply the torch away.

PATIENT FROM SCRANTON

Miss Erma Heilscher of Scranton went to the operating table at a local sanitarium Saturday morning for appendicitis. The operation was successfully performed and the patient is resting nicely.

HOOF AND MOUTH DISEASE COMPLETELY ERADICATED

AUSTIN, Nov. 22.—J. E. Boog Scott, chairman of the livestock sanitary commission, today notified Governor Neff that the hoof and mouth disease outbreak had been thoroughly quelled, and that all infected premises cleaned. Governor Neff intimated he would start immediate measures seeking to lift the ban now existing through embargoes of other states.

Engineers Must Sign Wage Agreement If Compromise Resolution Passes or Be Boycotted By All Organized Labor

EL PASO, Nov. 22.—The showdown fight between the United Mine Workers and the Brotherhood of Locomotive Engineers delegates over the latter's employment of non-union miners in West Virginia, was averted today by the postponement of the introduction of the miners' resolution. A new resolution of compromise proportions was brought to the floor of the convention by the boycott committee, with assurance of its passage. This new resolution which rather than condemning Stone, head of the brotherhood, would force the Engineers to sign the union wage agreement. If the Engineers refuse to do this they would be officially boycotted by the union and all organized labor.

GIN RECEIPTS MORE THAN 1400 BALES TO DATE

With the Moss Gin Co. receipts already past 1400, the estimated receipts of 1500 bales is more than assured. Besides the gin receipts there has been marketed in Cisco approximately 100 bales that have been ginned in other places, and sold here on account of the better prices prevailing in Cisco. With this estimate being correct the receipts of Cisco have already passed the 1500 mark set at the beginning of the season, as the number of bales ginned by the Moss Gin Co. is now 1426 bales, but Manager Moss stated that the crop was practically ginned, and the covered number of 2,000 bales will hardly be realized.

The figures for the county are not available, but it is a safe estimate to place the number at above 10,000 bales. Three years ago very little cotton was grown in the county, and 10,000 bales demonstrates Eastland county is again coming back as a cotton producing county.

ACUTE INDIGESTION

Jack Shepard of the police department, was stricken Saturday morning with rather a severe attack of indigestion. Fortunately he received attention at once, and was conveyed to his room at the home of his parents, Mr. and Mrs. J. W. Shepard, where he was resting easy when last heard from.

BAPTISTS ISSUE PROTEST AGAINST INAUGURAL BALL

DALLAS, Nov. 22.—A vigorous protest against the proposed inaugural ball for Mrs. Ferguson was contained in the report on "civic righteousness" committee of the Baptist convention late this afternoon, and that was adopted in the form of a resolution. An all night dance will be a feature of the ball, the resolution pointed out, as its opposing measure. The committee also reported that a movement is now under way to nullify the prohibition laws at the next session of the legislature, by the enactment of laws that would permit the sale of wine and beer.

AUSTIN, Nov. 22.—The protest

at the Baptist convention of the inaugural ball will have to be left to the legislature, government executives pointed out tonight. The fact that when in session the legislature has full supervision over the house and senate chamber, and will be in session at the time of the inauguration.

VERNON 39, PAMPA 0

In a loosely played game at Vernon Saturday, Vernon high school defeated Pampa high school to the tune of 39 to 0.

FARMERS WILL ORDER A CAR OF SEED POTATOES

Fifteen farmers of the Cisco country responded to the call to meet in Cisco Saturday morning for the purpose of discussing the pooling of orders for seed Irish potatoes. Those present placed sufficient orders for a quarter of a car, but to get the desired price and freight rates a full car must be ordered. W. B. Starr, who was largely responsible for the calling of the meeting to get the farmers to pool their orders, stated that another meeting will be held December 13, at which time R. H. Bush, county agent, will be present to secure orders to fill out the car. Mr. Starr stated that the car would be raised with little trouble, only some of the farmers seem backward in coming forward at the first call. County Agent Bush will hold meetings during the next three weeks at Scranton, Carbon, Romney and Rising Star, and at each place will ascertain the amount of seed desired by the farmers of those respective communities.

There was a general discussion regarding the using of fertilizers, and a majority of those present talked favorably of fertilizing, and it is probable that more farmers will use fertilizer next year than ever in the history of this county. Those present who failed to get any benefit from fertilizer this year admitted that it was put in too shallow.

SEVENTEEN HAVE LEFT THE STATE HONOR FARM

AUSTIN, Nov. 22.—The escape of seventeen prisoners since the organization of the two honor camps has not shaken the faith in Governor Neff in the success of the plan, it is said today. Nine of the escaped white men and one negro have been returned to the camps, one white prisoner returning voluntarily. "A great majority of these men can be trusted on their honor," Governor Neff said. "A great improvement has been shown and there is no reason why the system should be discontinued at this early stage," he said.

G. W. ELLIOTT AND WIFE HAVE A MODERN HOME

Mr. and Mrs. G. W. Elliott of Moran, were shopping in Cisco Saturday. They have a beautiful new home a few miles southeast of Moran on the Cisco-Moran highway, where they are getting ready to enjoy old age when it comes. They report land being made ready for another crop. Much grain and cotton will be planted next year. Oil business is steady and the revenue therefrom is holding greatly to make that section one of prosperity. These good farmers have traded in Cisco for many years and just can't get over the habit.

HERO OF ZR-3 MAY BE NAMED AMBASSADOR

BERLIN, Nov. 22.—A boom has been started in official circles. It was learned today, for the appointment of Dr. Hugo Eckner as the next ambassador to the United States. He is the hero of the transatlantic ZR-3 voyage. He will return here for a visit Sunday, at which time he will be approached on the subject.

COMING AMERICAN SUPERHIGHWAY

Compared with Detroit's plan for a "superhighway," the best of our present highways, local, state or national, seem amateurish and trifling. Detroit has a big vision of the transportation future, and is starting to prepare for it. The city is acquiring right-of-way for 217 miles of highway, all 204 feet wide, which will include all the necessary kinds of suburban traffic and give full scope to the motor car.

In the middle there will be a space of 84 feet for rapid transit trolley lines, screened by trees and shrubs. On each side of this space there will be a 20-foot roadway for express motor traffic, bordered by more shrubbery and a safety zone strip. Then there will be, outside of these, 20-foot spaces for motor parking and 20-foot roadways for local motor traffic. The extreme outside will be 15-foot sidewalks for pedestrians.

No stream of traffic, whether trolley, express motor, slow motor or pedestrian, will be allowed to cross any other. Streams of traffic will flow ahead smoothly, and run easily into other streams. Crossings are provided for at intervals, overhead and underground.

Back of this pioneer highway engineering is a big idea. Detroit, creator of the motor age which changes the face of the land, has decided that the traffic problem is not merely to "decentralize traffic" but to "decentralize cities." It sees the future city as not one vast mass of population but a "metropolis," a "mother of cities," the central business place surrounded by many pleasant cities and towns, with the people living virtually in the country and coming and going quickly and easily in their automobiles. It is a glorious vision, which may prove true eventually for scores of American cities.

It is understood that the high school athletic association hopes to wind up the football and athletic season with sufficient money on hand to build a substantial, commodious grandstand for next year and the years to come. This is certainly good news. With a winning football team next year, and practically all of the games to be played in Cisco, this city will undoubtedly be called on to entertain many large crowds of people from the surrounding towns. It might be a good idea for high school football officials and officials of the Eastland County Fair association to endeavor to work out construction plans mutually advantageous.

TROTSKY'S "AMERICAN MILITARISM"

A Bolshevik is, generally speaking, chiefly remarkable in knowing so many things that are not so. Here is our gentle friend Trotsky running true to form, in a nightmarish vision of American militarism.

"The United States," he says, "is assuming a place in the arena of militarism far beyond the dreams of Balkanized Europe. American industrial and gold power is being transformed into the steam of American militarism. American capitalism has reached the limit of its power in home markets and is compelled to seek expansion abroad. This being impossible by economic means, the United States will be compelled to overthrow European countries by military power. American militarism is raising its head high above the whole world as an advancing, destructive force."

We fought in the World war, declares Trotsky, to gain supremacy over England, which country in turn fought for supremacy over France. Now we are going to beat up the world in general to make it buy goods from us. He sees Bolshevism as "the only real obstacle in our path."

All of this is news to Americans. Of more importance, perhaps, than the statements quoted above, is the fact that Trotsky made them to the Red army created by him as the good right arm of the Soviet government.

The rest of the world is probably more interested in Herr Trotsky's brand of militarism than ours.

Mid-winter weather is so summerlike in the Cisco country that Thanksgiving and Christmas slip on a fellow before he knows it. Those who have lived in the ice and snow-bound sections of the United States can thoroughly appreciate the glorious days we are now enjoying in Cisco. Like the fine nights of mid-summer, the winter days here are just right.

CHANGING TAX PUBLICITY LAW

There is no doubt that congress will be asked to modify or repeal the publicity provision of the income tax law. There will be general agreement that it should do

Sunday Dinner at the GABLES HOUSE

208 West 7th St.

- Turkey Oyster Dressing
Fresh Beans Mashed Potatoes
Yams
Cranberry Sauce, Celery, Olives
Pumpkin Pie
Tea Milk Coffee

Price 50c

one or the other. For the application of the law recently has been extraordinarily confused and confusing.

The lack of clearness in the law itself is evident. Lawyers are unable to say exactly what it means. The attorney general is doubtful, and passes the matter to the courts. Newspapers and public are left in the dark as to what congress really intended, or whether congress itself knew what it meant when it enacted the provision.

Congress may have intended merely to allow inspection of income tax payments by such of the public as were sufficiently interested to take the trouble of going to internal revenue offices and consulting the records. Or it may have intended to authorize the spreading of income tax payments before the public by the newspapers, as recognized instruments of publicity. The courts will decide that point. But whatever they may decide, congress would do well, during the winter, to clarify the language of the law.

The Treasury department is said to feel sure that the country is opposed to newspaper publication of the income tax payments. Unquestionably business men as a class are opposed to it. But the general public has seemed to relish such publication as there has been. It might be a good thing if there could be a dependable referendum on the subject, for the guidance of congress.

One good thing about playing the Cisco-Stephenville game at Ranger is the fact that the 2,000 Cisco people who expect to attend will be able to eat dinner at home. It will be advisable to leave shortly after the noon meal, however, as indications point to the largest crowd of the season and good seats will be hard to find long before the game is called at 3 o'clock.

If the deposed and exiled emperor of China can't make a living any other way—and he probably can't—some American movie producer will give him a job.

DO YOU REMEMBER ?

Roundup, November, 1913.

Our academy students and the young people of the community picked cotton Monday. The funds will go to Buckner Orphan' home.—Scranton Letter.

Arthur Rutherford, an employe of the Cisco oil mill, sustained painful injuries Sunday morning by falling on a sharp-pointed tool used in unloading seed and hulls. Two prongs of the instrument penetrated his left thigh.

At the home of the bride's parents in Albany, Mr. Joe Ward of Cisco and Miss Amille Webb were united in marriage. They left at once for Bartlesville, Okla., their future home.

Jack Winston came in Friday to spend a few days at home. Mrs. Alex. Spears of Fort Worth

is visiting her parents, Mr. and Mrs. C. H. Fee.

Mr. and Mrs. John Ward, Mr. and Mrs. Alex. Ward, Mr. and Mrs. Gus Ward and Mr. and Mrs. J. H. Rush went to Albany Wednesday to attend the Webb-Ward wedding.

The Thursday club met with Mrs. L. E. Cook. Those present were Mesdames T. J. Dean, C. H. Fee, W. H. Tebbs, H. L. Winchell, R. E. L. Henry, C. Owen, Roscoe St. John, Henry Benham, Connie Davis, G. W. Winter, Lee Owen, R. Q. Lee.

A protracted meeting will begin next week at the First Baptist church. Rev. J. C. Burkett, of Abilene, will assist Pastor E. Stubblefield.

Mrs. John F. Patterson, of Eastland, and daughter, Mrs. Warren, were in Cisco Monday.

M. S. Stamps returned from Fort Worth Monday, where he has been having his eyes treated.

George Winston is selling the W. B. Starr pumpkin yam potatoes, the finest in the country.

Mrs. J. D. Alexander circulated a petition Wednesday asking the attorney general to withdraw the suit now pending against the Katy railroad. There were 77 signatures.

At the home of her mother in east Cisco last Wednesday, Miss Lizzie Short and Louis Mollenkopf were joined in marriage by Rev. E. Stubblefield.

R. F. Weddington is home from a business trip to Fort Worth.

Mrs. Hiram McCandies and children of Stamford are guests of their parents, Mr. and Mrs. J. M. Howard. The Ladies Aid society of the Baptist church met Tuesday afternoon with Mrs. J. W. Mancill.

Mrs. M. J. Yates has returned to Trenton, Tenn., after a visit with Mrs. Ernest Fairless.

Mr. and Mrs. T. R. Bacon and children of Moran spent Sunday here with relatives.

The youngest son of Mr. and Mrs. M. D. Paschall, M. D., Jr., has been sick. Harry Gray, who is attending

Scranton academy, spent Sunday with his parents.

B. S. Huey spent Sunday in Abilene.

Miss Ethel St. John has returned from Breckenridge.

Willis Powell, who recently came home from Dallas, sick, is improving.

Miss Alma Jones is clerking at the Shelton racket store.

Miss Theresa Lee, who is teaching school near Moran, spent Thursday and Sunday with her parents, Dr. and Mrs. W. P. Lee.

W. T. Hittson attended the fifth Sunday meeting at Moran Sunday. Mrs. W. E. Ricks is home from a visit with relatives at Comanche.

Dallas—Contract let for construction of \$475,000 McFarlin building at Southern Methodist university.

Drilling Into Deeper Production of Smaller Producer and Gasser Proves Week's Sensation in Cross Cut Field

THIRD WEEK IN DECEMBER WILL DECIDE CHAMPS

FORT WORTH, Nov. 22.—With approximately a week's delay in straightening out the many district winners, the interscholastic league has placed the many teams, according to their ability, so that from now on, until the final game is played in December, each game will have some part in the race for honors, unless there is a tie, in which case the game must be played over. Thanksgiving day will mark the resumption of hostilities, with the exception of the Sherman-Oak Cliff game on Saturday, made necessary by their 26-26 tie last week.

Waco, champion in 1922, runner-up in 1923, will battle Marlin, a Class B team, and from the dope available, Waco will be the underdog in this game, but although their wins have not been by a large score, they won, which was more important than running up big scores, and the dope bucket is liable to receive another upset. Humble and Jasper play this week-end to determine the district champion in Class B, while Belton and Caldwell are also scheduled to clear up the Class B district title in Central Texas. These games are for this week-end, but turkey day will see eight big games reeled off, mostly between Class A and Class B champions.

Under the new system used by the interscholastic league, real Class B teams will have an opportunity at the state title, without having to play any Class A teams until the semi-finals are reached. Also Class A teams have been forced to stick to their class, preventing any easy pickings until the finals in each district, thus giving both classes a fair crack at the championship race. Class B clubs must not only win a district championship but they must also defeat district champ before they are eligible to tackle a Class A contender.

Turkey day games scheduled are: Vernon will take on Pampa for the A and B championship of the far northwest districts; winner of the Sherman-Oak Cliff game will battle Highland Park at Dallas, winner in the middle western district.

Over in East Texas, Marshall will take on the winner of the Jasper-Humble game, Beaumont tackles Robstown, winner of the Waco-Marlin battle plays winner of Belton-Caldwell game, while Temple tackles Sabinal. All eight of these games are between Class A and Class B teams, so the smaller schools will at least get a chance at the title.

The week following Thanksgiving will see Cisco and Vernon tangle, provided they survive the Class B games, while Cleburne will take on either Oak Cliff or Sherman; Waco will get the East Texas contender, while Temple faces the dubious task of surviving the Beaumont terrors. These games will produce the semi-finals, and the title games will be played the third week in December.

MARRIED THREE TIMES, FATHER TWENTY-THREE

STEPHENVILLE, Nov. 22.—Married three times and father of 23 children, all of whom are living except two, and resident of one county for 65 years is the unusual record of George W. Lidia, who died here recently at the age of 87. Mr. Lidia was blessed with 13 children by his first wife, four by his second and six by the third marriage. He was known throughout the county as "Uncle George," and his judgment in domestic and business matters was sought by all those who were in his favor.

CROSS PLAINS, Nov. 22.—The result of the deepening of the Mahlsted-Mook Oil Co., J. W. Newton No. 1, and the drilling in of a splendid producer in the former gas well of C. O. Moore and E. R. Wilson et al, on the Teston farm, furnished the two principal sensations of the most sensational week enjoyed by the Cross Cut section of the local fields, since early last spring. In both instances the wells had been considered completed and the Mahlsted-Mook company well has been producing 70 to 80 barrels daily since early last summer and ranked as one of the average producers of the east extension district. The steady trend of its production had eventually led its owners to believe that the pay might be increased by further drilling, and early in the present week the tools were again hung up and five additional feet of drilling brought a flow of 263 barrels actual gauge for the first 24 hours. This well is now said to be 1228 feet deep and continues gauging 250 barrels, placing it easily in the lead of anything so far completed in the entire field.

The Teston well of C. O. Moore and E. R. Wilson et al, that furnished the second sensation is located to the northeast of the east extension and when completed as a gasser some three months ago, it was generally accepted as being across the "dead line" of oil production, but its depth being less than 1200 feet, led its owners to believe that this gas bearing strata might not be the regular sand. Deeper drilling this week has proven this to be true and the top of the regular oil sand was picked up at 1239 feet with an immediate response of production that is gauging 77 barrels daily from 5 feet in the pay. This well adds an extension of a full quarter mile to the field, and carries production across the line that has been considered to mark the confines of the field which proves up a nice scope of acreage that has been classed as partially gas territory and partially dry.

These are not the first instances of benefit from deeper drilling in that section, the experiment having been first tried by J. L. McMurray on the Newton lease some three months ago. In that instance a 60 barrel pumper was transformed to a 100 barrel natural flow by four feet of deepening, but the fear of water that might exist in the lower strata has created a tendency with most operators to take the usual 50 to 75 barrels from the top of the pay without risk of exploring deeper. The sensation created by the success of the last two ventures is now doing much to erase this fear and it is being freely predicted that the production of the field as a whole can and will be greatly increased and possibly doubled by merely deepening the present line of completed producers.

There is a noticeable effect on lease values throughout the entire district through this prospect of deeper drilling and larger wells. The continued addition of new extensions is bringing the play in many instances to the territory that is still outside of the four mile scope over which present production is scattered. To the southeast of the south extension, interest continues to center around the wildcat test of C. O. Moore and E. R. Wilson on the Williams tract, where casing is being set on top of the sand at 1225 feet. No actual showing of oil has been reported on this test, but the formations are said to be running so perfectly uniform with the producing district that the owners decided to set casing before the actual pay was encountered. This well is close to a mile outside of all previous operations but in territory that boasts the advantages of much favorable geology.

To the west of the south extension the deep test of T. B. Slick is underreaming at 1700 feet, having missed the 1200 foot pay.

New locations continue to be announced, and almost two miles to the south of the south extension, Williams et al, are completing a rig on the H. A. Newton farm for a test in that direction, and closer in and almost in line between the south and east extensions, F. W. Stone & Co.

are spudding on their Gunn No. 2, a short distance from the new producer recently completed on this lease.

In the west end of the old field, and almost two miles from the scene of the major portion of recent activity, M. E. Wakefield is moving in tools on the Elsberry tract. This test is located in the southeast corner of this lease and only a short distance from a small producer drilled by the Canyon Oil & Gas Co. some three years ago, and prior to their transfer of this property to the Wakefield interests.

Many additional new locations are being talked in various sections of the field, and a notice of the week is bringing a revival of lease trading that promises much new development in the near future.

GRIGGS

ROMNEY, Nov. 22.—The weather is rather cool following a nice rain, which was accompanied by some hail, that fell here on the night of the 19th inst.

Mrs. Joe Carlton and baby are spending a few weeks with her mother, Mrs. Daughtry, while Mr. Carlton is in the west at work.

L. H. Wagner spent Sunday with the Stephenson boys.

Luke Tidwell and family and mother, Mrs. Laura Tidwell, were Sunday guests of Mrs. Lewis.

Mrs. Johns, who has been ill for some time, is improving nicely, and we hope for her a speedy recovery. Will Wright is moving some of

his farming tools and cotton seed to the Ramsey place, where he will reside the coming year.

Mr. and Mrs. E. R. Wagner and Mrs. Lewis were in Rising Star Tuesday.

Mr. and Mrs. W. D. Grider and children were the guests of Mr. and Mrs. H. J. Stephenson Sunday afternoon.

W. I. Maples, Martin Luker and E. R. Wagner were in Rising Star Thursday.

Mrs. Lewis and children were guests in the Will Payne home Wednesday night.

School is progressing nicely with several new pupils added recently. Mrs. Wagner spent Thursday with Mrs. Lewis.

Mrs. Arthur Wright and children of Eastland, are spending a few days with her parents, Mr. and Mrs. J. B. Reed.

Jack Lewis is hauling hay from the Crocker community.

AT THE BROADWAY

In keeping with its policy of showing the very latest screen attractions the Broadway today and tomorrow will have Cecil B. DeMille's newest production for Paramount, "Feet of Clay," adapted from the popular novel, and will feature some of the best known stars on the screen stage. Rod LaRouque, Vera Reynolds, Victor Varconi, Ricardo Cortez, Julia Faye, Theodore Kosloff and Robert Eason being prominently featured. The story is an absorbing one, with beautiful settings, presenting some of the most fascinating scenes ever

shown on the screen. It deals with adventure, romance and the sordid every day happenings, presented in a manner that will delight every Broadway patron.

BACK FORM SWEETWATER

G. W. Gardenhire, who has been placing the plumbing fixtures in the new Baptist church at Sweetwater, has returned home. He stated the church was now finished, and he had completed his contract.

Austin—125,000 school bonds approved of Jacksonville independent school district.

Hefner's to Open Tent Show Mon.

Starting next Monday night, Hefner's Comedians will open a week's engagement in Cisco under their mammoth waterproof tent.

The company this year is larger and better than ever and is one of the strongest dramatic companies under canvas. During their stay here they will present plays that are absolutely new to our theatre-goers, and will be given a complete production in regard to scenic, mechanical effects.

High-class vaudeville by real vaudeville people is introduced between each and every act, making it a continuous performance, with

no dull waits. Hefner's carries its own band and orchestra, and the band will give daily concerts at 4:00 and 7:00 p. m. The orchestra of nine pieces is a feature in itself and is the largest and best orchestra carried by a tent attraction.

On Monday night Hefner's presents "A Mother's Devotion," and

while this play was written for own band and orchestra, it also has its serious side, and tells a very pretentious and with beautiful dramatic scenes and climaxes. On Monday night as is the custom with the Hefner show all ladies will be admitted to the tent absolutely free. The tent will be well heated and is waterproof. (Adv.)

A WILLARD BATTERY

Winter time is coming—a hard time for batteries. Let us look over your old battery and get it in shape for the cold weather. It may be that you should buy a new Willard and then your troubles would be ended.

If it's your Generator remember that we can give you expert service that costs no more than the work of a novice who knows nothing about the work. It costs less in the long run.

Cisco Battery Company

Electric Starter and Generator Specialists

FOR BOYS

—Athletic and wheel goods are not toys and were never intended to be toys. They are and should be the tools with which strong, healthy men and women are made.

OUR HOLIDAY GOODS

Are Now on Display

—Every time we think about Xmas we visualize a bunch of kids, and to our minds this is what Christmas means. It doesn't mean so much to us older birds only as the pleasure of the kids is reflected. Happy kids make happy families, and Xmas is the best time to make them happy for they are anticipating happiness—they expect to be happy—they are willing to be happy—and it is their right to be happy.

—Our slogan is "Get the Kids What They Want!" This was prompted by those fond recollections of early Xmas morning when we saw something in our stocking which looked to be an air rifle, but really was an umbrella, or when we opened another package that looked like a pair of skates and found a pair of shoes. We grinned through our disappointment at the sight.

—We believe that fathers, mothers, aunts, cousins and friends will enjoy Christmas more if they will get what the kids want at a Hardware and Sporting Goods store rather than at the necktie counters or at the handkerchief shop.

—The games and outdoor exercise mean as much to the boy or girl's education as do the books they study, for without an active, healthy body and mind they cannot assimilate what they get from books.

—If the kids want a Tricycle, Bicycle, Boys' Wagon, Set of Boxing Gloves, Baseball, or what not, get it at our store and get the best.

—They are only kiddies once and will only have a few years to have a real good time, so give them the things they like best and that will give them the most pleasure and health.

—Do not overlook our Dolls—they are the beautiful Effenbee, America's best.

—In preparing for Christmas we did not overlook the grownups.

—Our stock of Guns was never more complete, as well as our Silverware, and of standard makes.

—Our Cutlery is of the best make.

—Our Sporting Goods department is full of gifts for father, son or brother.

—Our Gas Heaters and Cook Stove department is running over with some beauties which will make an ideal gift for mother.

—Come in early and let us help you select your gifts for every member of the family.

MANY TO ATTEND THE SONG MEET EASTLAND TODAY

Those who can and like to sing are manifesting much interest in the meeting of the singers at the Church of Christ in Eastland this afternoon. Preparations are being made for a large number, according to information that has reached Cisco from Eastland, and many splendid voices will be heard on this occasion. Most of the communities of the county have an organized singing class, it is announced, by those who are promoting this meeting of the singers, and it is the purpose, it is said, to organize a class in every community where no such organization exists.

Among those who have been given special invitations and are expected to be present are: J. E. and Alvis O. Thomas and their noted Thomas quartet of Fort Worth; Prof. J. C. Thomas of Cisco; Rippeote brothers and the Rippeote male quartet of Dublin; Prof. N. W. Allphin of Abilene; Rev. J. D. Hall and Prof. H. H. Mansfield of Breckenridge; J. D. Brown, S. C. Hunt, R. L. Rust, Homer White, John Pope, Arthur Hearn and others of Eastland; W. E. Trimble and A. L. Butler of Carbon; T. B. Satterwhite of Cad-do; Frank Connell, Billie Williams and B. M. Smith of Ranger; E. Fincher of Wayland; G. R. Erwin of Nimrod; Ely Bryant of Rising Star; Prof. C. H. Carr and Calvin Moss of Lingleville; Prof. D. C. Williams of Desdemona; R. L. Cooner, C. E. Cooner, J. E. Hatcher, Lark Jones and W. L. Underwood of Gorman.

FIRST TEXAS NEWSPAPER WAS PUBLISHED IN 1819

AUSTIN, Nov. 22.—Texas journalism is more than a century old, the first newspaper in the state having begun publication in 1819 at Nacogdoches, under the ownership of Phillip Long and his band of filibusters, said Dr. E. C. Barker, professor of history at the University of Texas in a recent lecture on Pioneer Journalism in Texas. The paper, called the "Mexican Advocate," devoted the greater part of its space to the cause of the filibustering party. It survived two months, and few copies of its editions are in existence, Dr. Barker said.

BEAT OUT HIS OWN BRAINS

BEAUMONT, Nov. 22.—Beating his head against the steel bars of his cell until he died, was the unusual case of self-inflicted death chosen by Charles E. Bryant, 51, an inmate in the Beaumont jail. Bryant arrested for intoxication, literally beat his own brains out after an attempt to hang and stab himself simultaneously had failed.

AT BAPTIST CONVENTION

Mr. and Mrs. R. W. Mancill left Saturday for Dallas, where they will be in attendance at the Baptist convention. They drove through by automobile.

Dallas—135-acre tract adjoining Country club section to be developed as high class residential subdivision.

NOTICE OF STOCKHOLDERS' MEETING

A regular annual meeting of the stockholders of the Cisco & North-eastern Railway Company will be held at its office in the City of Cisco, at eight o'clock P. M. on the second day of December, 1924, for the election of officers and for the transaction of such other business as may come before the meeting. Immediately upon adjournment of the stockholders' meeting, a meeting of the directors of the company will be held at its office.

LIBRARY WILL BE TALKED IN MEETING MON.

Mrs. Wm. Reagan, chairman of the library committee of the XXth Century club, stated that there will be a meeting of the committee Monday to take some action regarding the library building. It seems to be the opinion of the association, Mrs. Reagan stated, to present the matter to the Carnegie association, as it is believed that it will be possible to get favorable action when the committee prepares its brief and shows what progress has been made to build a library.

INDEPENDENT MATTRESS CO. IN WHOLESALE

J. A. Cameron, manager of the Independent Mattress Factory, located on East Broadway, is just back from Stamford where he purchased a car load of linters for the Independent. He states that this was one of the best and cleanest cars of linters that he has seen in some time, and will prove the best material for making the famous Slumber-On Mattress. For some time the Independent has not been in the wholesale trade—making mattresses on orders and doing renovating only—but Cameron states the Independent will again embark in the wholesale trade, and only do renovating as a side line.

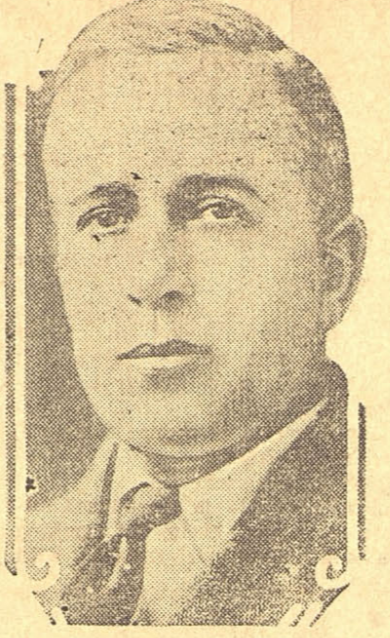

STOLEN VAULT FROM WHITT BANK LOCATED

FORT WORTH, Nov. 22.—Fort Worth was being combed Wednesday by city and county authorities for the bank robbers who Monday night boldly carried away the small safe of the Whitt State bank in Parker county, near Mineral Wells. The safe, empty of the \$2,700 in cash and negotiable securities that it had contained, was found Tuesday afternoon eight miles northeast of Fort Worth on the Denton-Keller road. Discovery of the safe was made by a farmer of the vicinity in which it was found, who reported it to the local sheriff's office. A fire, which had evidently been used in heating nitroglycerin to blow the safe, was still smoldering when deputy sheriffs arrived. A large amount of checks, two books of money order blanks and two notes for \$3,099 were left in the safe. These were turned over to the officials of the Whitt bank, who arrived here Wednesday morning.

A Good Thing - DON'T MISS IT.

Send your name and address plainly written together with 5 cents (and this 5p) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing Chamberlain's Cough Remedy for coughs, colds, croup, bronchial, "flu" and whooping coughs, and tickling throat; Chamberlain's Stomach and Liver Tablets for stomach troubles, indigestion, gassy pains that crowd the heart, biliousness and constipation; Chamberlain's Salve, needed in every family for burns, scalds, wounds, piles, and skin afflictions; these valued family medicines for sale at 25c per box.

Steck Will Contest Brookhart's Seat.

DANIEL F. STECK

Daniel F. Steck, Democratic candidate for Senator from Iowa, who was defeated by U. S. Senator Smith W. Brookhart by less than 1,000 votes, will contest the election, it is reported from Des Moines.

HOME FOR AGED AT HOUSTON

HOUSTON, Nov. 22.—There was recently completed here, the home of "Sheltering Arms," fraternal order caring for aged women in the city. Built at an approximate cost of \$8,000, the vine-covered home will accommodate sixteen people, and will be under the care of a competent housekeeper.

Fort Worth — Construction of scenic highway along Trinity river between this city and Dallas proposed; would cost \$2,000,000.

Poe Family Holds Mammoth Reunion

A family reunion of more than ordinary interest was that held Sunday, November 16, at the home of Mr. and Mrs. J. E. Spencer, in Cisco. Mrs. Spencer was formerly Miss Alice Poe, daughter of Mr. and Mrs. C. B. Poe, of Carbon, and the honorees of the occasion were Mrs. Spencer's parents and Mrs. Mary Parks and daughter, Miss Lula Parks, of Buckner, Ark. Mrs. Parks is Mrs. Spencer's aunt. The spacious living room and sun parlor were decorated with chrysanthemums and the dining room was beautiful with chrysanthemums and autumn fruits. There were three large tables in the dining room, all groaning beneath a load of turkey and the many toothsome trimmings that go therewith. Each table was attractively decorated, the first containing a silver vase holding yellow and white chrysanthemums, the second a cornucopia with a variety of fruits and the third another vase of chrysanthemums. Following the wonderful repast, Mrs. Parks was presented with a silk scarf and Miss Parks was the recipient of a handsome boudoir lamp.

ADVICE TO AUTO OWNERS DURING WINTER MONTHS

"The average car owner is seldom in a position to know just what must be done to his car in the winter to approach as nearly as possible conditions as they exist in warm weather. For this reason," says F. A. Blambeckler of the B. & H. Motor Co., local Studebaker dealer, "the following suggestions should be carefully observed:

"Before using anti-freeze solutions examine your circulation, inspect leaks, make repairs if necessary and replace those connections where needed. See that the solution does not contain calcium chloride or similar compounds, as they corrode the interior of the radiator. A better plan

would be to consult a reputable auto dealer as to the proper anti-freeze solution. During extreme cold weather the belt fan can be loosened to reduce the flow of air to prevent too rapid cooling of radiator. A radiator cover will help to prevent freezing. To get best results from low grade gasoline the air should be heated on entering the carburetor. This can be done by closing the sleeve over the carburetor air intake. Be sure the choke is pulled all the way out until the motor starts, then push it in gradually until the motor warms up.

"To lubricate always use a light, cold test motor oil in cold weather, which should be drained oftener than in warm weather, approximately every 500 miles or less, if driven on short trips. Guard against water in the crank case. To prevent this it is advisable to drain a cup of oil twice a week from the crank case while the motor is warm, after having stopped about ten minutes.

"The storage battery efficiency drops about 50 per cent at a temperature of 10 degrees F., and the car is harder to crank because of the incomplete vaporization of the fuel. The battery should be tested with a hydrometer every two weeks and if the gravity is 1200 or under have it recharged.

"A good hot spark is needed for starting in cold weather, and be sure all electrical connections are

tight and clean. In two-wheel brake cars the oil should be drained from the transmission and flushed with kerosene, and refilled with a mixture of 75 per cent light transmission oil. Heavy transmission oil should never be used on four wheel brake cars. The rear axles should also be drained, flushed and refilled similar to the transmission.

Tires should be properly inflated, and watch out for cuts, as water will work in and loosen the tire structure. The brakes and steering gear should be properly adjusted, and all parts oiled. Slippery pavements makes it essential that the brakes and steering mechanism is in proper condition."

TRAINING FOR BOY LEADERS

SAN ANTONIO, Nov. 22.—One hundred and twenty-four husky men have enrolled in classes for the training course of boy leadership, under the direction of J. T. Fitch, Boy Scout executive for the regional districts of Texas and New Mexico. According to Arthur Michael, Boy Scout Commissioner for San Antonio, most of those enrolled in the classes intend to become Boy Scout leaders.

Downs—Waco Petroleum company strikes fourth and strongest showing of oil in well being drilled near here.

HOME BREW CONTAINS MINIMUM OF FUSEL OIL

SAN ANTONIO, Nov. 22.—Reports that fusel oil predominates in the ingredients of modern hootch and home brew, appears simply to be malicious propaganda spread about by those who deal exclusively in the so-called labelled and bonded goods. Chemical tests conducted for two years by the San Antonio police chemists of thousands of samples of hootch has found fusel oil to be absolutely at a minimum, with not enough present to "hurt a flea." The small amount of fusel oil occasionally found present is due to the "aged in tin" system, rather than barrels of charcoal.

J. J. CHENEY & CO., Toledo, Ohio

Know what's underneath the paint before you buy

YOU wouldn't think of buying a house without first knowing how it is built and the quality of materials used. In selecting a piece of furniture you are sure to find out whether it is solid wood or veneer.

Yet many people who exercise care in most purchases buy automobiles without even lifting the hood or knowing about the hidden qualities of body and chassis construction that really determine one's satisfaction with a closed car.

We want you to know about the unseen qualities of the new Studebaker Standard Six Sedan.

Down underneath its superb body finish is a sturdy framework of carefully selected ash, glued together and fastened in place by screws—not nailed. Ash is scarce and expensive, but Studebaker uses it because it best combines proper weight and strength.

Upholstery is genuine mohair of high quality. Various grades of mohair look much alike—the big difference is in the quality.

Beneath this mohair covering are many nests of cushion springs, padded with heavy

burlap, upholstery cotton and curled hair. Almost any car seems comfortable on the showroom floor, but it's quality such as this that makes the Studebaker Standard Six remain comfortable after years of service.

The same standards of excellence are maintained throughout the body and chassis. In the engine, for example, the crankshaft is completely machined on all surfaces, a practice that results in the smooth, quiet, vibrationless performance that characterizes all Studebaker cars.

Judged solely on what your eye can see—in beauty of line and finish and exterior refinements—the Studebaker Standard Six Sedan will command your instant approval.

But go deeper than that. Compare its hidden, vital qualities—its design, materials and workmanship—with cars selling for hundreds of dollars more.

Studebaker never compromises—never uses a substitute for genuine quality. Studebaker has been building quality vehicles for 72 years.

Come in and let us tell you the "inside story" of the Studebaker Standard Six Sedan.

Lobo-Stephenville Game Has Been Changed From Thanksgiving Day To Tuesday, November 25, At Ranger

MOTION PICTURE COMPANY CLAIMS DALLAS AS HOME

AUSTIN, Nov. 22.—Mrs. Beas Strong of Dallas, organizer of the Blue Bonnet Motion Picture Productions, entertained at Dallas with a banquet celebrating the recent organization of the company. This is the first motion picture company to be chartered under the laws of Texas.

With no state in the union with a history comparing to that of Texas, the ultimate purpose of the company will be to present the people a "living and true" story of the history of this great state from the earliest time to the present date. The main offices of the Blue Bonnet company will be at Dallas, and plans for the erection of a studio are now underway.

NATHAN HALE'S ROOM WILL BE DUPLICATED

NEW HAVEN, Conn., Nov. 22.—Old Connecticut hall, built years before the revolution and now distinguished as having been the college home of Nathan Hale when he was an undergraduate at Yale, no longer will stand in lonely dignity on Yale Campus. An exact duplicate of that famous structure is to be erected alongside Connecticut hall as part of Yale's program to enlarge its freshman class. The university plans to complete the structure by next fall, putting therein accommodations for fifty-six men. Walter V. Chambers, of New York, graduate of Yale in the class of 1887, has drawn plans for the building, which will be built by the university's own construction crews.

RAM ATTACKS WOMAN; SHE DEMANDS \$10,000

SPRINGFIELD, Mass., Nov. 22.—The suit of Miss Minnie E. Fraser, of Hampden, for \$10,000 damages for injuries suffered by being butted by a ram was begun in superior court. Harvey Chapman, owner of a flock of sheep of which the ram was a member, is the defendant. Miss Fraser tried to drive the ram out of her strawberry bed with a broom, but the ram knocked her down repeatedly, and she was compelled to remain motionless on the ground twenty minutes until a passerby subdued the ram. She alleges her knee was fractured.

BRAKEMAN 36 YEARS AGO BECOMES VICE-PRESIDENT

CHICAGO, Nov. 22.—A. E. Clift, operating vice-president of the Illinois Central railroad, has been advanced to the position of vice-president, succeeding Charles M. Kittle, who has been elected president of Sears, Roebuck & Co. Mr. Clift is fifty-five years old and is in his thirty-sixth year of service with the Illinois Central. He was born in Urbana, Ill., and entered the company's service as a brakeman in 1885, serving successively as conductor, yardmaster, trainmaster, superintendent, general superintendent, general manager and vice-president.

DEATH INVESTIGATION HAS BEEN REOPENED

COLUMBUS, O., Nov. 22.—The death investigation of Mrs. V. C. Sheatley, wife of a Lutheran minister, which has been regarded as a suicide when she was believed to have crawled into the furnace at her home, was reopened today when the chemist examining her lungs reported that was no indication that she had been strangled before being tossed into the furnace.

MILITARY FUNERAL

SAN ANTONIO, Nov. 22.—A military funeral was held today for Davis Vasbinder, 31, and A. F. Mullen, 26, civilian aviators who plunged to instant death when their plane burst into flames and crashed to the earth near the city limits.

If interested in making big money in 1925 investigate this proposition. All replies are strictly confidential. Address X, care of Cisco Daily News.

CISCO PASTORS INVITED TO GIVE ONE DAY'S WORK

The News has lately mentioned that church building is the order of the day and that the Church of God is now building its church.

The foundation, and all the outside framing is now complete and it is announced by the pastor, Rev. T. H. McNeill, that invitations have been sent out to all the preachers of Cisco to don their overalls and present themselves for a day's work at eight o'clock, sharp, Tuesday morning, at the church site, corner West 11th street and F avenue, with reservations for a chicken dinner, to be served by the ladies. "The extension of this invitation is hereby tendered through the News to any lusty gentlemen whose heart may incline them to donate a day's work to the Lord's work, and whose stomachs may yearn for the said chicken dinner," Mr. McNeill stated.

"The dinner bell will ring at 12:30, and it is estimated that by 1 o'clock everybody will be in the best humor of their lives, and services will be held under the old tabernacle until 2 o'clock.

"All thoughts of differences of sect or creed will be banished for the day, and much will be accomplished, not only in the way of very acutely needed help by this finan-

cially weak congregation, but a closer feeling of fellowship and sympathy will be engendered amongst the whole religious body of Cisco.

"The whole story of how this zealous congregation has struggled along from nothing to the present prospects for a real neat and commodious church building, would read like a fairy tale—only its members interpret it as His will.

"Please bring your tools if possible."

IRISH ARE TAKING TO METHYLATED DRINKS

Dublin, Nov. 22.—Irish whiskey is soaring in price, with the result that Dublin is taking to methyLATED spirits as a beverage. Disastrous results are certain to follow, according to General E. R. Murphy, chief commissioner of police.

Dr. Alfred Barnes, former president of the Pharmaceutical society of Ireland, declares that efforts in England to make the methyLATED spirits nauseating have not proven successful. He advocates that such spirits should come under legislation equally stringent as the Dangerous Drugs Act.

GIANT PRISONER BREAKS THE LIQUOR EVIDENCE

POTTSVILLE, Pa., Nov. 22.—Peter Aranovagen, seven feet tall, was arrested by state police and brought to this city by Officer Rafus, charged with violation of liquor laws. Just as Rafus was about to step into his machine with his tall prisoner, the latter arose to his full height, put his arms about the officer's neck, seized the bottle

of liquor which was being held as evidence against him and threw it into the street, breaking it.

The officer then brought him before Alderman Davies here, who held Aranovagen for court and fined him \$10 for destroying the evidence against himself.

URGES AUTOBILISTS TO DIM THEIR LIGHTS

CHICAGO, Nov. 22.—Would you pass another car at a rate of thirty miles an hour while blindfolded?

That is exactly what happens when an approaching car fails to dim its lights, according to Richard E. Kropp, supreme regent of the Royal Arcanum, who addressed a safety conference here. It requires several seconds for the eye to readjust itself to the darkness during which your car travels more than 100 yards, the fraternalist pointed out.

WARRANTS FOR NEW JAIL

BALLINGER, Nov. 22.—Commissioners court this week ordered the issuance of \$50,000 worth of ten-year warrants for funds to build a new jail.

RURAL OFFICER FIRES ON WOMAN DRIVING STUDENT

FORT WORTH, Nov. 22.—Although most men, upon seeing a woman driving, would like to emulate this story, so far this is the only record of any one being shot at, trying to learn how to drive a car. Two Fort Worth girls, Miss Naomi Filippo, and Miss Carrie Wells, were taken out by the brother of Miss Filippo, who endeavored to teach them the rudimentary principles of "herdin' a flivver". Leaving the city they went out near one of the small towns near here, and when passing down the street, two men in a coupe tried to stop them, and upon failing to do so, opened fire. Deputies from the sheriff's office here phoned the smalltown, and were informed that the local peace officers "suspected" speeding, and shot to find out.

TEXAS EXCELS IN PECANS

CUERO, Nov. 22.—Texas may again come to the fore, this time as the producer of the finest pecans so far known to agricultural experts. County Agent Robinson of Cuero, has discovered a thin shelled, extremely meaty pecan on one of the farms near here, and has

had it sent to A. & M. for analysis, to determine whether the pecan is worthy of another or special name. It is from a matured tree, yielding several hundred pounds of pecans each year, bringing higher prices than the average nut.

MIDGET STAGES ROUGH HOUSE

SAN ANTONIO, Nov. 22.—Deciding that although he was small of stature, but big in courage, Raymond Espito with two companions, used a local cafe as the "no man's land" of their activities. Flying glasses, a motometer and a table knife played important parts in the battle, which came to an abrupt end with the arrival of police, but one of the valiant warriors escaped the clutches of the law, who are now busily looking for him.

TEXAS GROWS ORANGES

EDNA, Nov. 22.—The Lone Star state has now come to the fore in a new line of endeavor, with the raising of oranges in this vicinity. Several trees, used as yard ornaments by local residents, are bearing heavily, as a result local people can buy their oranges for about twenty cents a dozen.

BUSINESS AND BANKING

For nearly a quarter of a century this institution has been identified with the growth of Cisco and her territory and we have, therefore, an intimate knowledge of local industrial and commercial affairs.

Twentieth Century Club

The Twentieth Century club met Friday afternoon at the city hall. After a short business session, Mrs. R. Q. Lee made a report on the Federation meeting at Amarillo. Mrs. A. J. Olson made a short talk and presented to the club the loving cup, which was won at Amarillo for rural life work. Mrs. M. H. Hagaman of Ranger state legislative chairman, told the necessity of woman's clubs backing legislative measures relating to women and children. Mrs. George Langston, peace chairman, made a talk on the progress peace had made since the days of Abraham. After these interesting talks the following visitors were introduced to the twenty-six Davenport, Mrs. W. Meek of Duncan, Miss Louise Alexander, club librarian, and Miss Tommie Ford, president of the business girls' club.

Parent-Teachers' Meeting

The South Ward Parent-Teachers' association met in regular session Friday afternoon at 3:30 at the south ward school. Mrs. W. R. Tomlinson, chairman of the entertainment committee, asked each lady to answer roll call by telling her experience the first day she attended school. This proved very interesting and made each feel better acquainted. During the business session, it was decided to make the paying of dues optional. Those desiring to do so, could pay 50 cents monthly. A cake and fancy work sale was decided on for Saturday, December 13. Everyone present voted to co-operate and donate to this sale. After a short program, the meeting was brought to a close. About twenty-five members were present.

Industrial Arts Club

Mesdames W. J. Armstrong, C. L. Mount and L. A. White were hostesses to the Industrial Arts club Thursday afternoon at the home of the former. Mrs. White was the leader of the annual Thanksgiving program. Responses to roll call were Thanksgiving quotations. Mrs. G. E. Kelly of the XXth Century club was present and gave a report on the Federation meeting at Amarillo. Mrs. Wm. Reagan, president of the sixth district, gave a talk on State Prison Reforms, also displayed the loving cup won by the sixth district at the Amarillo convention for rural life work. Mrs. A. J. Olson, chairman of the rural life work, gave a talk urging that every one help toward making the cup permanent property. Miss Daisy Dees read an interesting paper on Puritans. Mrs. Ben McClinton sang a solo, which was followed by a Thanksgiving story by Mrs. J. W. Triplitt. Next came the round table discussion, the subject being, "Thanksgiving as a Truly American Institution." During the social hour the guests were served a delicious salad course.

Mr. and Mrs. Wm. Reagan are spending the week end in Fort Worth and Dallas.

Rev. and Mrs. T. E. Bowman arrived in the city yesterday, and will make their home here. Rev. Bowman

comes from Gatesville to fill the vacancy in the Methodist church left by Rev. L. A. Webb.

Mr. and Mrs. J. W. Barlow are visiting relatives in Parks.

Arthur Parker left yesterday on a hunting trip near Stamford.

Mr. and Mrs. John H. Moyer are spending the week-end in Fort Worth.

Miss Marie Judia of Dallas, is visiting her sister, Mrs. C. L. Tune.

Miss Louise Hughes left today for her home in Hillsboro after an extended visit with her sister, Mrs. J. L. McMurray.

Mrs. J. J. Butts returned last night from a short visit in Dallas.

Coach Chapman and E. H. Whitehead attended the Vernon-Pampa game in Vernon yesterday.

Dr. and Mrs. D. Ball and son and Miss Flora Mae Stockard, are spending the week end in Fort Worth.

Mrs. J. H. Rupe and daughter, Miss Agnes, and son, Donald, of the Mitchell community, were shopping in Cisco Saturday.

Mrs. W. J. Foxworth returned yesterday from a three weeks' visit in Mineral Wells.

Among those attending the county federation meeting in Rising Star yesterday were, Mesdames G. B. Kelly, Phillip Pettit, H. O. Hawkins, A. J. Olson, G. B. Langston, J. J. Winston and R. Q. Lee.

Mrs. C. G. Louder of Moran, was shopping in the city Saturday.

R. A. Doyle of Dallas, was transacting business in Cisco Saturday.

P. W. Campbell returned Friday from Galveston, where he went to attend the Ice Men's convention.

Elzo Bean and W. J. Barnes of Eastland, were business visitors in the city Saturday.

E. P. Crawford transacted business in Eastland Saturday.

Misses Alma Jones and Lettie O'Flaherty spent Friday afternoon in Eastland on business.

Rev. and Mrs. R. F. Holloway returned yesterday from a short visit

in Comanche. Rev. Holloway has as his guest, his sister, Mrs. W. Meek and daughters of Duncan, Okla.

Mrs. J. E. Spencer and little daughter, Alice Estill, spent Friday in Gorman with Mrs. Ben Reid.

Judge V. B. Gilbert of Baird, stopped over in Cisco Thursday to take the Shrine degree, on his way to Fort Worth to attend the Shriners' convention.

J. G. Stuteville and son, of route 4, were in Cisco on business yesterday.

Allie Wooten of Eastland, was in Cisco Saturday on business.

Mrs. W. A. McCall will be hostess to Circle 3 of the Presbyterian auxiliary Tuesday afternoon at 3 o'clock at her home, 204 West Twelfth street.

Eugene Ford left today for Temple to spend several days with Mrs. Ford, who has been in the Temple sanitarium for several months. Her many friends will be glad to know that she is slowly improving.

Mr. and Mrs. Joe Shackelford of Cross Plains, and Mr. and Mrs. J. A. Clements, are in Fort Worth attending the Shriners' convention.

Mr. and Mrs. J. W. Martin left yesterday for Birmingham, Ala., where they will spend the holidays with relatives.

Joe H. Owen of route 4, was a business visitor in the city Saturday.

The Altar society will meet Tuesday afternoon at 3 o'clock at the Catholic church.

Mr. and Mrs. G. B. Kelly had as their dinner guests Tuesday evening, Judge and Mrs. J. J. Butts, Mrs. Hart of Austin, and Miss Mary Jane Butts.

Miss Anna Nunn of Eastland, is spending the week end with Miss Katherine Pettit.

EXPEDITION OF COURT PROCEDURE IS SOUGHT

AUSTIN, Nov. 22.—The hundred and three district judges of Texas who will gather here to form the state district judges association December 29, will have for its goal the evolving of ways for expediting court procedure. It was announced today. They will recommend legislation for a more rapid disposal of trials and other legislation.
