CISCO, TEXAS, TUESDAY, JANUARY 5, 1965

NUMBER 29

A HOME TOWN boy who went away to medical school, got his degree and started to work as an intern practicing medicine in Cisco this week. He is Dr. R. N. (Bobby) Cluck.

Dr. Bobby is running Dr. Charles H. Ballew's office for the week while Dr. CHB is out of town. And business was booming when we called to check on the matter.

LT. COL. MORRIS D. White, deputy commander of supply services at Dyess Air Force Base, became Rancher Morris White the other day—officially, that is. He retired Dec. 31st, hung up his uniforms, and got out his boots. The Whites, you know, live at their farm home seven miles northwest of town.

The Whites bought the property during the past year and have been remodeling and making ready for retirement. They're members of the Cisco Country Club, have three children in the local schools, and are all set for civilian life.

MR. LEWIS Starr of 900 West 9th Street retired a year or so ago and he finds time on his hand occasionally. So he plans to open a shop at his home to repair things, restore paintings, make picture frames, and do minor furniture repairs. He's a master at this sort of thing.

Mrs. Jay Warren of our town left out by jet airplane from Big D last Sunday for Sacramento, Calif., to visit her son, Major Bill Collins, and family for a few weeks. Nice weather for January, huh? We received a half inch of welcome rain last weekend.

MR. JOHN PENN of the Penney store was in Big D last Friday for the Cotton Bowl football game, and he reports that you never saw so much red in all your life. The school colors of both teams—Arkansas and Nebraska—were included red. Most of the fans wore some red in their game costumes, John reports.

John can't remember seeing a better game. The J. V. Heysers were also there that Cisco along with others that we can't hear about.

COACH BILLY Bates of the Loboes was still jittery when we talked to him Monday. His basketball team went into the finals of the weekend Ranger Junior College tournament by winning in an overtime period, and they won the final game with a field goal in the last ten seconds by Ed Stuart of Scranton.

And Coach Bates had sweated out the Texas victory over Alabama in the Orange Bowl.

THERE WAS A story in The Press the other day about Charles H. Coldwell of Sun Oil Company in Dallas being promoted to a top position in the offices there.

The story should have added that he is the son of Mrs. W. P. Coldwell of Cisco. His late father worked for the Cisco Post Office for many years. Many old friends of the family were delighted with the news of the fine promotion for the Dallas man.

EDITOR NORMAN Fisher of The Baird Star writes a good column for his newspapers at Baird and Clyde. McCall's Magazine lifted an item he wrote recently and quoted it (giving him credit) as follows:

"Usually, parents who are lucky in the kind of children they have, have children who are lucky in the kind of parents they have."

Pretty neat, huh?

ATTEND FUNERAL
Mr. and Mrs. O. M. Wilkinson attended funeral services in Eastland Sunday for Mrs. Lillie Sneed, sister-in-law of Mrs. Wilkinson.

WHETHER IT'S Breakfast, lunch or dinner, the staff at Victor Hotel Coffee Shop stands ready to serve you the usual fine foods. Planning a dinner party? Phone the Victor and talk to Earl Floyd.

NEW COFC PREXY — Bob Elliott of The Man's Store, pictured at left above, succeeded Dr. E. E. Addy as president of the Cisco Chamber of Commerce at the noon meeting today. Other new officers are Paul Blaine, Bill Boothe and Kenneth Cooper, vice presidents. A complete story about the meeting will appear in Thursday's Press.

Mince Resigns Position As Local College Dean

E. W. Mince, dean at Cisco Junior College for the past eight and a half years, has submitted his resignation from the college faculty effective August 31, 1965, according to an announcement today.

Mr. Mince told The Press that his plans for the future were not ready to be revealed at this time.

Busy Schedule Set For Midgets

Cisco Junior High School Midgets will play Ranger in basketball action Thursday, Jan. 7, at Ranger, according to Manning Davis, coach. The girls' game will begin at 6 p. m., with the boys' game to follow at 7 p. m.

Friday, Jan. 8, at 2:45 p. m., the Cisco Junior High girls will play the Albany Junior High girls in action at the Anson Junior High Tournament, according to Coach Davis. The Cisco boys are scheduled to meet the Albany boys in the tournament at 3:50 p. m. Friday.

Coach Davis stated that the teams would return to Anson sometime Saturday for games.

Paul Wende spent the past week in Abilene with his son, Ben and family.

Douglas Fry Files For Office of Cisco Mayor

Douglas Fry of 1007 West 13th Street, well known rancher, filed application today for place on the ballot as Mayor of Cisco, according to records at the city hall.

A mayor and two city commissioners will be elected in the annual city election April 6. The terms of Commission-

Thrilling Finish Gives Loboes Trophy In Ranger Cage Tourney

The Loboes of Cisco High School took a one-point lead in the final 10 seconds to defeat Abilene Christian High School, 65-to-64, and win the Ranger Junior College Invitation Basketball tournament last Saturday night.

It was Ed Stuart, senior forward from Scranton, whose basket shot found its mark to provide the Loboes with their margin of victory. The win over ACHS was a mild upset as the team had whipped Cisco in a game at Abilene earlier in the week.

It was the second thrilling victory of the day for the Loboes who gained a berth in the finals by downing Ranger High, 44-to-43, in a game that required an over-time period. The tournament victories gave Cisco a 15-13 record for the season. The Loboes won

Mr. and Mrs. Tom Ball had all of their children and grandchildren home during the Christmas holidays. They were Mr. and Mrs. Odis Ball, David, Ricky and Kelley, Mr. and Mrs. Jerry Ball, Jerry Wayne, Denese and Jeanie, and Mr. and Mrs. C. L. Ball and DeAnn, all of Houston; Mr. and Mrs. Roy Patterson, Melvin and Wayne of Trinidad; Mr. and Mrs. R. B. Wallace, Sandy, Dusty and Tinsie of Abilene. Also visiting were Mrs. Ball's parents, Mr. and Mrs. B. C. Plummer of Big Spring; and Mr. and Mrs. Bill Pressley, Simon and Regina Jo of Milburn, Okla.

EASTLAND HERE FRIDAY

Cisco and Eastland girls and boys basketball teams will meet at Community Gym in Cisco in a three-game program Friday night. The first contest will begin at 5:30 p. m. with the main event starting at about 7:30 p. m.

Weekend guests in the home of Mr. and Mrs. Kelly Coats and family were Mr. and Mrs. Malcolm Lanier and family of Chickasha, Oklahoma.

Roy Tuckers Are Feted On Their 50th Anniversary

Mr. and Mrs. Roy Tucker were honored on their 50th wedding anniversary Sunday, Dec. 27, with open house at their home in the Pleasant Hill Community.

Members of the receiving line were Mr. and Mrs. Tucker, and their daughters, Mrs. Lowell Burkes and Mrs. Don Reynolds. Mrs. Reynolds also registered guests. Gifts were displayed by Mrs. Joe Tucker.

The refreshment table was laid with a white linen cloth with cutwork embroidery. The white tiered cake was topped with golden wedding bells centered with the number 50, and centerpiece was a gold floral arrangement of poinsettias centered with a bride and groom.

Assisting with the serving of gold punch, cake, coffee, nuts and mints were their two granddaughters, Miss Sandy Reynolds and Miss Rita Burkes, and Mrs. June Hicks and Mrs. Gerald Tucker.

Among those present for the occasion were two of their sons, Claude and Gerald; all of their grandchildren; and four great grandchildren.

Approximately 200 guests called during the afternoon.

Cisco FHA Boys To Show Animals At Fort Worth

FORT WORTH — The Cisco FFA Chapter has entered two sheep and four barrows in the Junior livestock department of the Southwestern Exposition and Fat Stock Show, January 29 thru February 7, 1965.

Entries in the 1965 Stock Show for cattle, horses, sheep and swine are still being counted. Stock Show President-Manager W. R. Watt is optimistic over the prospect of topping last year's record number of entries in these four departments. Poultry, pigeon and rabbit exhibitors have until January 15, 1965 to submit entries.

Watt is enthusiastic, and not cautiously either, over the signing of the Judy Lynn Show as guest stars of the 1965 Stock Show Rodeo. Watt said, "The Judy Lynn troupe will provide our rodeo audiences with real first class entertainment." The Stock Show Boss signed the Judy Lynn Show for the rodeo after a special trip to Las Vegas to hear them. He said, "I was impressed with the group the minute I heard them, they have a wide repertoire which includes all types of music."

Boss Official Is Given Promotion

KEWANEE, Illinois — John E. Frisoli was elected Vice President of Materials of Boss Manufacturing Company, effective January 1, 1965.

Mr. Frisoli has held the title of General Manager-Materials Division for this Kewanee, Illinois-based glove manufacturer for one year. Prior to that he was associated with American Home Products in their Whitehall Division.

The Material Division was initially established by Mr. Frisoli on joining Boss and presently includes the production control, purchasing and physical distribution functions. During the year Boss has expanded inventories to six distribution centers for speeded-up customer service.

Boss stock is traded over the counter and the company in its half-year report, September 30, reported sharply improved earnings for the preceding year.

AUSTIN — Texas Legislators will be back in Austin on January 12 to grapple with an array of problems which could keep them here throughout the summer.

Congressional and legislative redistricting, taxes and appropriations top the agenda of controversial subjects for the 59th session.

Many lawmakers feel they will come to grips with the redistricting issue before expiration of the regular session in May. Special sessions very likely will be necessary to settle this explosive matter in line with the one-man-one-vote theory laid down by court decisions.

Proposed expenditures for higher education and teacher pay raises look like top topics for debate in the spending area.

Other legislation sure to stir strong interest and hot tempers, includes horse race betting, oil and gas lease pooling, water planning and development, mixed drink sales and judicial pay raises.

No significant change in the power structure of either house of the Legislature is likely. House Speaker Byron Tunnell is assured of another term and Lt. Gov. Preston Smith will begin his second term as presiding officer of the Senate.

There are only two new

members in the Senate and 42 in the House.

Texas' crime rate jumped nearly 12 per cent in 1964, says the Department of Public Safety.

Rate increased from 2,261 offenses per 100,000 population in 1962 to 2,675 this year. This fact led a committee of Texas mayors to call on Gov. John Connally for advice as to action needed. Connally promised to cooperate and urged the 10 mayors to have their city attorneys review proposed revisions in the state code of criminal procedure.

There is guarded talk in the halls of the State Capitol, by lawmakers who would rather remain anonymous for now, that the two-per-cent sales tax will be extended to cover grocery purchases when the 1965 Legislature meets.

State sales tax law passed three years ago brought in \$204,736,161 during the fiscal year which ended August 31. This tax accounted for 12 cents of every State revenue dollar.

But expected demands on State resources — to meet teachers' pay raises, improvement of higher education facilities, and upgrading of other State services — is expected to be the trigger for making the sales tax applicable to groceries, heretofore exempt.

A person cannot be paid as a Texas legislator and as a school teacher at the same time, says Atty. Gen. Waggoner Carr.

Opinion, requested by Speaker Tunnell for Rep. Elect Joe J. Bernal of San Antonio, said that school teachers elected to the Legislature must forego a state-paid teaching salary during their entire legislative terms. Texas legislators now get annual salaries of \$4,800.

Southwest Texas State College band of San Marcos and the University of Texas Longhorn band will represent the State of Texas in the Inaugural Parade following Pres. Lyndon B. Johnson's swearing-in in Washington, D. C., January 20.

State Democratic Chairman Marvin Watson of Daingerfield, speaking for the official Inaugural Committee, announced the committee's selection.

Bands must raise their own funds to pay transportation costs.

First U. S. Postal Card was issued on May 1, 1872.

1965 March of Dimes Is Launched To Score Birth Defects Knockout

A "one-two" punch will be aimed at the problem of birth defects this January during the annual March of Dimes campaign across the nation.

"The objective of the drive is twofold," explained Dr. Daniel Bergsma, director of the medical department of The National Foundation-March of Dimes. "More than 250,000 seriously defective children are born each year in this country—one every other minute. Given the facts, the American public will recognize the problem of birth defects for what it is—a national emergency that requires immediate action. We invite the public to help us meet this emergency.

"The second goal is money. With public contributions to the January March of Dimes, we expect to establish the additional March of Dimes-supported birth defects centers desperately needed for the faster diagnosis, evaluation and improved treatment of these defects which cripple or disfigure a child before it's born. Funds are also needed to enable scientists to continue their search for the causes and possible ways to prevent birth defects."

To support medical and scientific workers in the front lines of the battle against birth defects, The National Foundation-March of Dimes has a behind-the-lines army two million strong. These are volunteers from the more than 3,000 March of Dimes county chapters throughout the 50 states—men, women and teenagers, too, who dedicate their efforts to the success of the January campaign and the year-round programs of The National Foundation.

Visit 15 Million Homes—To acquaint families with the aims of The National Foundation-March of Dimes, these volunteers will join the Mothers' March at the end of the month during which some 15 million homes are visited. Other volunteers will address about 30 million informative mailers. March of Dimes volunteers also organize fund-raising events to support the work of local chap-

ters and the national organization.

These volunteers devote a great deal of energy to the important task of informing parents of defective children about the March of Dimes birth defects centers and in encouraging families to seek medical help for the afflicted child, whether from the centers or from private physicians.

About one in 10 American families experiences the heart-break caused by the birth of a seriously defective child. By no means are all of these children receiving medical attention which might make such a difference in their lives.

Some Give Up Hope

"Too often families are overwhelmed by helplessness and despair," Dr. Bergsma said. "They frequently give up hope without exploring all possibilities for their child. But with the continued progress of medicine in this field, conditions which were once beyond treatment can often be helped by newly-developed methods. Also, the individual's condition may change and make help a possibility."

Her parents' persistence paid off for 4-year-old Mickey Heinicke, the 1965 National March of Dimes child. Mickey was born with a spinal deformity that paralyzed her from the waist down. At one time it seemed unlikely that she could ever walk.

Yet today the spunky youngster goes darting around with pint-sized crutches and braces. Not perfect—but certainly an improvement over crawling.

The increased mobility means an expanded world to little Mickey and her family.

In research within the past few years, scientists supported by March of Dimes funds produced new or improved tests to detect inborn errors of metabolism, so that prompt treatment can prevent permanent

Eastland County MOD Campaign Will Aid Little Hayden Lee Johnson

Eastland County's 1965 March of Dimes drive will be launched in a few days, according to Mrs. J. A. Bates, chairman of the county chapter of the National Foundation.

Coin receptacles will be placed in business firms and public places in cities and communities over the county area and direct contributions by mail also will be sought. The January drive will be climaxed with the "Mothers' Marches" later in the month.

Mrs. Bates said that the county's 1965 fund-raising effort will be aimed primarily at lending financial assistance to Hayden Lee Johnson, 3-month-old son of the keeper of Lake Leon, Mr. and Mrs. James Johnson.

County MOD funds, she explained, will be used to help defray hospital expenses and to finance other extensive care needed by the child.

Born Sept. 29, little Hayden Lee's problems began with a birth defect, discovered and diagnosed following the infant's six weeks checkup. He underwent surgery at Hendrick Memorial Hospital in Abilene on Nov. 13 and was brought home on Nov. 15.

The operation included insertion of a tube from his brain to his heart to drain off excess spinal fluid. A number of major treatments will likely be needed by the infant in the future. As he grows, larger tubes will be needed and in two or three years extensive tests will be made of the infant's various glands.

Mrs. Bates said appointment of various March of Dimes drive chairmen for the communities of the county will be announced in newspapers of the area.

Ventura, California
December 30th, 1964

EDITR:
If our clocks are as they should be the Lions should be getting together to roar, eat, tend to some business and then go their separate ways—glad they could see the other fellows.

There is little to report on the trip out since we had travelled this route many times before. Most towns show improvement and growth since 1962. New freeways and highways help to speed us along our way. One is able to get through El Paso at a much faster pace. New Mexico has completed many miles of new roads, and much is under construction. Phoenix has done very little on freeways, and I can assure you Christmas traffic was heavy there.

A new freeway now crosses the mountain between Blythe and Indio, California. Many more miles to the east are under construction. Two, three and four lane freeways are nearly complete from Indio to Los Angeles. Interconnecting freeways speed us through Los Angeles and on to Ventura.

Since the last trip out here many new subdivisions and shopping centers have been completed in many towns and cities. It is quite difficult for a Texan to understand the economy of this area. To sustain such an economy it is apparent that many billions of dollars are necessary every month. Beaches we knew several years ago are now covered with homes and service businesses.

Knowing a bit about tidal waves I could never live comfortably right against the ocean. Boating business is

big here since completion of a new boat harbor. Housed in this boat basin are hundreds of ocean-going craft. One that caught my eye belonged to a fellow called "Bing" who keeps a captain and crew ready for his call, must be a great life, eh!

California weather isn't always sunny. This can be proven by this Texan. The damp cold does impress one that it's colder than it really is. Tuesday morning dropped as low as thirty degrees in the Ventura area.

We received the home-town papers. They brought the first words from Texas. Our sailing date is Jan. 16th, 4:00 p.m., aboard the Lurline. The last time we saw her in camouflage brown and tan, etc., she didn't look the part of a Pacific queen. We know she did a wonderful job in WW II, last time we saw her in camouflage brown and tan, etc., she didn't look the part of a Pacific queen. We know she did a wonderful job in WW II. Will try to drop a line from time to time.

Best wishes for the New Year.

Now she knows what her electric service charge will be each month. West Texas Utilities Co. estimated her electric bill for one year and divided it into 12 equal even-dollar payments. This cuts down on her bank-stub arithmetic and helps her maintain her budget. She could even have the bank draft plan working with EPP. At the end of the planned time, one year from the month she signed up, her estimated payments will be balanced against actual metered usage. In case of significant changes in usage... due to abnormal weather or a new major appliance or other reasons... adjustments can be made during the year to re-equalize her payments. Be carefree! created by where we have been?

The administration headed by President Johnson emphasizes the forward look. In fact, since the days of President Roosevelt's "New Deal," all Administrations have stigmatized their programs for the future in inspiring terms — New Deal, Fair Deal, The Team for Peace and Prosperity, The New Frontier, and now The Great Society.

However, not all the past is like water over the dam. All problems created by where we have been do not dissolve and flow away, never to be recognized again.

Not the least of problems deserving the backward look is the National Debt, the interest on which approximates \$11 billion.

FORMER CISCOAN WRITES OF CHRISTMAS TIME IN ALASKA

(A former Ciscoan, Mary Carey, sends this greeting of her first Christmas in Alaska. It was written before Christmas. — Editor's note.)
Since coming to Alaska there has been a vague fear in my heart that the Christmas would come when I would be completely away from family and friends of long standing. This is it. For the past two years I have flown to Texas to spend the holiday season; but this Christmas I will be alone in Alaska . . . or will I?

CHILDREN! I'll have children, orphaned children. Eskimo children who will fill an empty heart with star eyes as Santa on his sled makes a dash from the ski-equipped C-111, landing near Nome, to St. Mary's Mission. I saw these children in October, during Arctic Airlift week while flying Polar deployment with the Alaskan Air Command for the press. How proud they were of a little book! Now I will see them again. These children will be made happy through the generosity of more fortunate Alaskans and by the National Guard which makes an annual flight to the mission for this occasion.

I am grateful for an invitation to go on this trip. Perhaps my personal motives are selfish, but I do hope to share this happiness in some small way. A picture, a word, a story! Already my arms ache and my heart yearns for fulfillment. Christmas for me will be made happier because of the joy in their eyes. No doubt this joy will be shared not only by the National Guard, but by every person who gave a toy or helped in some way to make this mission a reality.

Perhaps the Sisters at the mission will have the children sing. I hope so. Maybe there will be a story about the Baby Jesus and a prayer. Needless to say, I will relive Christmases past with my own family and friends. No tears! Rather let me thank God for such gratifying experiences throughout the years. But now I am alone. Alone? These children are more alone than I, yet they are not afraid . . . They have friends, friends and God.

FRIENDS! When I return from the pre-Christmas flight to Nome, I am going to make a shorter one. This flight will be made to see homesteading friends, Jay and Vicki Cornell.

They, too, will be alone on Christmas except that they have each other. They are young pioneers, alone in the wilderness. There's no way in or out except by plane, and this becomes expensive. Their mail is flown over once a month. They are living in a tent while building their cabin but it is a warm tent. Christmas in a tent! Near the foothills of Mt. McKinley? With the temperature likely to drop 50 below?

Somehow I am looking forward to this visit with greater anticipation than dining in a fabulously lighted hall decked with holly. I'll trade my dinner gown for the eider down of a sleeping bag; my golden slippers for muk-luks; and roast goose for moose. Perhaps, God will deck the sky with northern lights.

My gifts will not be the conventional type. My jewels will consist of such things as ruby-red tomatoes and emerald green vegetables. Christmas! Of course, it will be Christmas! And where I am going, fresh fruit and vegetables will be more graciously received than packages wrapped with glitter and gold.

I am not a good Christian; but sometime during the day I want to slip off by myself and snow-shoe up a little knoll where I hope to have a homesteading cabin of my own when the road goes through, and gaze at God's handiwork. Frozen rivers slowly flow between towering granite spires. Above them a massive, white monument wrapped in pink ermine stands as resplendent today as when Christ was born. I am nothing!

But God and the mountains, children and friends are forever! I will lift up mine eyes unto the hills and the agony and joys of Holy Birth and the promise of a greater world tomorrow will swell from peak to peak until my heart sings. Alone? I am one of the multitude. I am the present. I am a composite of the ages past. I shape the future.

Majestic McKinley lies before me like a great bell, tilted to ring. Will she echo the chorus ringing from hearts throughout the world . . . of peace on earth, goodwill to men? So long as God is in the heart of man, hope springs eternally. — MARY CAREY, Talkeetna, Alaska.

AIRPLANE PRESENTED TO TEXAS RANGERS

A twin-engine aircraft has been presented to the Texas Department of Public Safety for the use of the Texas Rangers by Col. D. Harold Byrd of Dallas.
The Lockheed Lodestar, which seats ten passengers, was accepted on behalf of the Texas Department of Public Safety by Col. Homer Garrison, Jr., Director. "We are grateful for Colonel Byrd's generosity in presenting this airplane to the State of Texas to be used to enhance the State's law enforcement effort and emergency services," Col. Garrison said.
"This aircraft will be utilized to great advantage on occasions when speed is of the essence in transporting law enforcement and other personnel and equipment from one part of the State to another," Col. Garrison said.
This is the second aircraft that Col. Byrd has presented to the Texas Department of Public Safety. The other was a Twin Beech which he gave to the Department in 1958.
Col. Byrd, who has been active on behalf of aviation in Texas and the nation for many years, is an honorary captain in the Texas Rangers.

Cancer Society Makes Year End Report On County's Activities

"Every year we seem to be making more progress in our efforts to control cancer," said Sam Kimmell, president of the Eastland County Unit of the American Cancer Society, "but every year we seem to realize more and more that we have a long way to go."

In a year end report of the activities of the local Cancer Group, Mr. Kimmell pointed out the fact that at the close of 1964 thirty-eight per cent of the people who develop cancer were being saved.

while in 1935 only twenty per cent were being cured. "If we can enlarge our educational program of Cancer's Seven Danger Signals, we can save fifty per cent with the knowledge and treatment that science has developed so far; therefore, we hope to reach at last half the population of Eastland County with our educational films and materials in the coming year," continued Mr. Kimmell.

"The Dallas County Unit received a special National Cancer Society Award for an

outstanding educational program on cancer of the colon and rectum. They reached 63,000 people with their open showing of 'Life Story', our Cancer Society film dealing with the second most deadly type of cancer. If we can get people to recognize the importance of the proctoscopic examination, we can save twice as many people.

"And we must expand our attack on smoking. The mounting evidence shows that three-fourths of all lung cancer, the most deadly cancer, could be prevented if people would recognize the facts and stop smoking. We'll be showing our films on smoking more and more," said Mr. Kimmell.

Summarizing the Cancer research program, Mr. Kimmell pointed out that the American Cancer Society, through its voluntary contributions, is spending almost twelve million dollars on research with over \$700,000 being spent in Texas Research Institutions. Two very promising areas of research at this time are in chemotherapy, or drugs, and against leukemia. There are now some twenty four drugs which are effective in cancer treatment, and scientists are expecting a major breakthrough against leukemia in the next five to ten years.

"We hope to reach more and more people with our Unit Service Program in the coming year, too," said Mr. Kimmell. "This past year we served a large number of people with dressings, beds, wheel chairs, and other equipment, but we are always afraid we are missing someone."

"We want everyone to make a New Year's resolution that they will have a complete physical examination early this year. And we want them to learn Cancer's Seven Danger Signals: unusual bleeding or discharge, a lump or thickening in the breast or elsewhere, a sore that does not heal, change in bowel or bladder habits, hoarseness or cough, indigestion or difficulty in swallowing and a change in a wart or a mole. If any of these symptoms last longer than two weeks, the individual should consult his physician immediately."

"We'll be hammering this message in 1965 and every year until cancer is controlled," concluded Mr. Kimmell.

SALES TAX TABLE PREPARED FOR USE OF TEXAS CITIZENS

Texas taxpayers may use a state sales tax table as a guideline when filing their 1964 federal income tax returns. Ellis Campbell, Jr., District Director of Internal Revenue said the table is now available.

The table shows the average amount of state sales tax paid by Texas residents and may be used by taxpayers who itemize their federal income tax deductions. Similar tables have been prepared for 36 other states and the District of Columbia.

For the first time since 1960 when the tables were originally issued there has been a general revision of the amounts, Mr. Campbell said. The latest tables are based on summary data showing the patterns of consumer expenditures developed by the Bureau of Labor Statistics from a 1960-61 study. Previous tables were based on a 1950 study.

Previously, tables were revised only to reflect changes in sales tax rates or the commodities covered by the particular state's laws.

The recent study shows that household operations, property taxes, medical care, personal care services, education, and insurance have, for the most part, comprised a larger part of the total consumer expenditures in 1960-61 than they did in 1950. These items are not usually subjected to state sales taxes.

The new tables omit the state sales tax on automobiles purchased, thus providing a uniform treatment of this item for all states. Now taxpayers who purchase an automobile may add the sales taxes paid on the purchase to the amount shown in the table.

The result of the revisions, particularly the elimination of the allowance for autos, has reduced the amount shown on the sales tax tables. The new tables, however, are a more accurate measure of the average sales tax paid in the various states.

Internal Revenue reminds taxpayers that these tables are not required to be used. They are furnished as a guide for the convenience of taxpayers who itemize deductions on their federal income tax returns but who wish to use a "standard" amount for state sales tax which will not

This table is based on the Texas general sales tax of 2 percent. It may be used when deducting sales tax on Form 1040. If the table is not used, sales tax deductions must be itemized and substantiated. Deductible sales tax on the purchase of automobiles and gasoline tax of 5 cents a gallon are not included in the table and must be treated separately.

require detailed substantiation. Taxpayers have the choice, of course, of deducting the actual amount of state sales taxes paid.

Cigarette taxes are no longer deductible in Texas, due to the tax law change in 1964. The average state sales tax table for Texas tells taxpayers they can deduct 5 cents per gallon.

No Increase In Social Security Tax Rates Seen

"There has been no increase in the social security tax rate for employees, employers, and the self-employed for 1965," R. R. Tuley, Jr., district manager of social security in Abilene, stated today. The rate continues at 3 1/2 percent of an individual's annual earnings up to \$4800 for employer and employee alike, and 5.4 percent on net earnings up to that amount for the self-employed, he said.

Tuley explained that he was stressing this point at this time because in some sections of the country questions were being asked at social security offices about "the new tax rate for 1965," with the inquirers asserting that

COMMUNISTS FIGHTING WITH OUR WEAPONS, ROTARY TOLD

"We gave China to the Communists, and communist countries are now fighting us with weapons and supplies given to them by the United States," Col. Charles A. Andrus said as he spoke at the regular weekly meeting of the Rotary Club last Thursday.

"Our country is now facing the greatest crisis it has ever faced," Col. Andrus said, as he spoke of the situation in Viet Nam and predicted its loss within ten days and an eventual total loss of the East, which will endanger the Philippines and Australia.

The big prize for the Communists is South Africa, Col. Andrus stated, because of the strategic materials there. Africa contains 97 per cent of the world's diamonds, 84 per cent of the cobalt, 79 per cent of the palm oil, 55 per cent of the world's gold, and large percentages of other important materials, he said. "America is running out of

statesmen, and there is nothing left but politicians. We call our nation a Christian nation," Col. Andrus said, "but America worships mammon instead of God."

The retired Colonel discussed the apathy of the American people, the loss of the sense of individual responsibility, and the growing desire by the people for the government to take care of them.

A tax-supported organization in New York City, the Mobilization for Youth, was reported this week to have 50 Communist agents among the officials in charge, Col. Andrus said, as he warned Rotarians of the Communist infiltration in government and every phase of American life.

Quoting a speaker at the recent seminar he attended in Abilene, conducted by the Industrial College of Armed Forces, Col. Andrus said "You can't win a cold war with cold feet."

they had read about a change in rate in certain business publications.

"The source of many of the misconceptions has been traced to several privately produced leaflets outlining a number of proposed amendments to the social security law which were considered by

Congress in 1964 but not enacted. The leaflets were sent out in sample lots to prospective bulk purchasers while the legislation was still under consideration.

"The failure of the legislation to pass the Congress should have ended all interest in these publications, and in

most cases it did. However, at several widely-scattered locations these leaflets, which mentioned a proposed social security tax increase for 1965, were understood to mean that the proposed changes had been made. This was evidently why people began asking for more details," he said.
