

## American Defender, Resolute, at End of First Six Miles, Was Leading Contender, Shamrock While Both Vessels Were Batling Hard Rain

Associated Press.  
SANDY HOOK, N. J., July 15.—The American yacht, Resolute, led the English challenger, Shamrock, by half a mile in the first heat of the America's cup race in seventeen years, at eleven-thirty, Texas time, when the sloops had covered six miles of the thirty mile course in a blinding rain.

By JACK VELOCK,  
International News Sporting Editor.  
SANDY HOOK, N. J., July 15.—Seventeen long years ago, some of them the reddest and most turbulent in the world's history, have passed into the dim vistas of memory since the stage was last set for the holding of the classic international yacht races for the America's Cup.

Today, with the weary old world struggling to resume her normal equilibrium, Sir Thomas Lipton, that grand old sportsman, has come back to us with a new challenger for the world's most romantic sporting trophy, and the hour is at hand for the staging of the classic series between the Resolute, the defender, and Shamrock IV, over the historic Sandy Hook course.

Every detail is in readiness for the starting of the thirteenth series for the classic cup today. The defender and the challenger have been finally gone over by officers and crews, and the red-blooded yachtsmen who will sail the swift sloops are eagerly waiting for the signal that will send them across the starting line in the first race. The rival yachts lay at anchor in the Horseshoe this morning with watches on board, waiting for their sails to be bent into place, and if the elements do not conspire to defeat the programme, the initial race will be a thing of history by sundown.

The lure of the sea, the lustre of marine tradition, the brilliance of past American victories and the red-blooded sportsmanship that has caused Sir Thomas Lipton and his rivals to spend fortunes in racing for a silver cup that originally cost but one hundred guineas all combine to attract world-wide interest and attention to the classic races. Since man first dared the dangers of the mighty ocean the matter of relative speed has been a vital issue and many brave memories are connected with the history of the trophy for which Resolute and Shamrock IV will compete.

The colorful traditions of past races for the America's Cup recall pictures of the waters off Sandy Hook, generously dotted with craft of all descriptions, crowded from stern to stern with thousands of enthusiastic spectators. The armadas that furnished such picturesque settings for the races of other years were made up of yachts, tugs, motor boats, excursion steamers and craft of divers descriptions, so numerous that on several occasions the free movement of the racing yachts has known interference.

Today the scene was to be much the same, though probably on a reduced scale, for since the last race was held in 1903 government restrictions have been placed on the number of passengers a vessel may carry and promoters have hesitated to venture the handling of greatly reduced numbers at greatly increased transportation. Certain it is, however, that the foregathering of craft in these waters today and throughout the series of races, will be such as Sandy Hook has not witnessed since the last races were held, and for the first time in the history of the event swift seaplanes will hover about the white-winged speedsters of the wave and huge navy "blimps" will dot the sky.

The series will be for the best three in five races. Each day the sloops will sail out to a mark laid between the stern of the steam yacht Corsair, which will carry the race committee, and the Ambrose lightship. The first race, as has always been the case, is to be a beat into the wind of fifteen miles and a run before the wind of fifteen miles back to the starting point. The course will be announced by the race committee by means of a system of signals on the Corsair. Fifteen minutes before the time set for the start the Cor-

### WHEAT PRICE LOWER THAN WAS EXPECTED WHEN MARKET OPENS

Associated Press.  
CHICAGO, July 15.—Prices started lower than expected today for future deliveries of wheat, the first of such prices quoted for nearly three years. December deliveries opened at \$2.72 to \$2.75. Estimates my traders were that the initial figures would be about \$2.80.

Eager watching by the grain trade throughout the world attended the resumption today of prewar methods in wheat on the Chicago board of trade for the first time since August 25, 1917, when the government assumed control.

### GERMANS ACCEDE TO DEMANDS OF ALLIES ON COAL QUESTIONS

Commission Be Sent to Essen to Inquire Into Food and Housing Conditions - Germany Asks Allies to Import Food for All of German Population.

Associated Press.  
SPA, July 14.—The Germans agreed to the allied demands for the delivery of two million tons of coal monthly, with three new conditions, it is announced.

The conditions were: German government to have distribution of Silesian coal, or be allotted one million five hundred thousand tons a month for Northern Germany, instead of the present allotment of one million two hundred thousand tons.

A second mixed commission will be sent to Essen to examine food and housing conditions.

Third, the allies are asked to advance money or provide credit, for the importation of additional food for the entire German population.

Foreign Minister Simmons said he acceded to the demands to prevent sending an ultimatum to Germany.

### MALLORY LINE WILL RESUME SERVICE TO NEW YORK NEXT WEEK

Associated Press.  
AUSTIN, July 15.—Resumption of the New York-Galveston service by the Mallory steamship line will commence next week, according to advices to Governor Hobby, from officials of the company.

The officials said the service will be continued as long as there is sufficient traffic. The message was in answer to the governor's protest against suspension of the traffic.

rie of brave impressions in the memory of the yachting devotee. But if the breeze is light the poetic aspect of a limpid old ocean and a pair of lazily flapping gulls is the impression that may come to him.

If history repeats, the great, green Shamrock IV, will go back across the bounding Atlantic with sails drooping in defeat. Yet Dame Fortune, ever fickle, may smile upon the gallant Sir Thomas and his fourth challenger.

Who can tell? Many expert yachtsmen concede the Shamrock IV, better than an even chance because of her great sail area, and this despite the time handicap granted to the Resolute. But, after all, the yachtmanship of the rival crews and the whims of the weather man will have as much to do with deciding the victory as anything else.

Charles Francis Adams, II.  
Associated Press.  
NEW YORK, July 15.—Charles Francis Adams, II., the man at the wheel who will try to steer the Resolute to victory in her first race in defense of the America's cup off Sandy Hook today, is characterized by experts as the premier American yachtsman.

He has owned more than a score of yachts and has sailed nearly 100, small and large, and some of these have been the best boats of their class in America and the world.

### Radical Elements in Labor Party Get Off by Themselves

Make a New Platform and Nominate Candidates—LaFollette Refused to Accept the Radical Platform and Withdrew His Name—Forty-Eighters at Sea.

Associated Press.  
CHICAGO, July 15.—The Farmer-Labor party, born of the fusion of the numerous political groups, today adopted a platform and placed a new candidate in the field for the coming election.

The convention adjourned when the work was completed at 4 o'clock this morning.

Park Chestenen, of Salt Lake City, an attorney, and Max Hayes, Cleveland labor leader, are the presidential and vice-presidential nominees.

The strength of the new movement remains to be seen. The first test came today when a group of dissatisfied delegates, formerly allied with the committee of forty-eight, met to consider putting out a forty-eight ticket.

Not all was harmony in the fusion convention during the hours the platform and candidates were under discussion. The forty-eight delegates carried on an unsuccessful committee fight against the social doctrines of radical labor to the floor of the convention, attempting to force their wishes by threats that Senator La Follette would not accept the labor platform.

When the final platform was adopted, it was announced that La Follette would not accept the nomination under it and his name, which had been presented was withdrawn.

### STOPS REVOLUTION IN MEXICO BEFORE IT IS REALLY STARTED

Four Hundred Men Attack City of Monterey and Are Repulsed—General Pablo Gonzalez Alleged Leader Ordered Sent to Mexico City for Trial.

Associated Press.  
MEXICO CITY, July 15.—Monterey, capital of the state of Nuevo Leon, was attacked today by General Villareal, according to reports received by the war office.

Pablo Gonzalez, former candidate for the Mexican presidency, is said to have been responsible for the attack on the city.

General Trevino Gomez and Porfirio Gonzalez, governor of Nuevo Leon, are taking the "necessary steps" against Gen. Pablo Gonzalez, according to the war office statement.

General Calles announced he had ordered the arrest of Gen. Pablo Gonzalez and directed that he be brought to Mexico City for trial on a charge of rebellion.

### CALL TO THE COLORS TEN THOUSAND FROM CHILEAN RESERVES

Associated Press.  
SANTIAGO, July 15.—Chile has called to the colors the military classes of 1915 to 1919, in the four northern provinces of the country.

Information received here indicates the call involves about ten thousand men, including the air forces.

Guarantees for the safety of the deposed president and his cabinet have been furnished by the provisional government upon the request of the United States minister to this country, according to advices to the foreign office.

The Chile representative said the provisional president informed him that the advent of republicanism did not signify any manner of hostility toward Chile, the new regime's aim being peace and friendship with all countries, particularly with its neighbors, and the friendly settlement of all pending questions.

Four Wounded in Attack.  
Associated Press.  
SAN ANTONIO, July 15.—The garrison at Nuevo Laredo defeated a rebel attack early today, according to information reaching here, which said there were four hundred men in the attacking force under command of Ricardo O. Martin. Three hundred Obregonistas defended the town.

Attack Nuevo Laredo.  
Associated Press.  
LAREDO, July 15.—News was received at Nuevo Laredo that from Monterey to the border numerous small parties have risen and destroyed the railroads. They will probably be united under Ricardo Gopzalez, who attacked Nuevo Laredo today.

Well Is Abandoned When Oil Worth Only Twenty Five Cents.  
BALMORHEA, July 15.—"An oil structure made to order."

That's what leading geologists assert about the Saragosa region, near Balmorhea, where two deep well tests are now to be put down. Dr. McKenzie, recognized world petroleum geologist and traveler has pronounced the section about Saragosa as capital to 4PH. The El Paso-Saragosa Oil Company has started drilling on Section 221 four miles east in block 13, H. & G. N. Survey.

Evidence that oil in paying quantities lies beneath the Balmorhea region is furnished by a story going the rounds. Some years ago Stump Robinson, in drilling for artesian water for irrigation purposes, struck a flow of oil and gas at 1400 feet. The much sought water was not encountered. As oil at the time was worth only 25 cents a barrel the well was abandoned.

Interest Revived in Oil Prospecting in Haskell County.  
HASKELL, July 15.—Superficial exploration on the oil possibilities of the "bend country" of the Salt and double mountain forks of the Brazos, embracing a territory including portions of the Stonewall, Haskell and Jones counties, has warranted a number of prominent petroleum geologists who recently completed the survey to pronounce unequivocally that they believe the next great oil field in the world will be developed in that region, according to a statement made here today by a prominent business man.

Lending color to the statement of these geologists is the fact that most of the large oil companies in the production and have already secured large acreage in that territory, remarked the authority.

"Haskell has never glatted the press with hypothetical news of its oil possibilities," declared B. M. Whittaker, secretary of the local chamber of commerce "because it did not know that oil in paying quantities would be found. However, I am confident that the old Colbert well, drilled on a random guess between Haskell and Stamford was a good producer before it was ruined by salt water from inexperienced drilling or some other cause, for I was one of the many who a few years ago had the privilege of seeing a fine jet of good oil come up with the water and run over the surrounding terrain. Haskell is now pinning her faith on both the Kouri and the Venture oil company wells, both of which are good prospects."

The report of the geologists as to their results of the "river bend" prospect is bolstering up the formerly flagging spirit, so that it is probable in a short time another gigantic drilling campaign may be inaugurated.

### BUSINESS MEN FROM MINERAL WELLS ARE IN CITY SHORT TIME

Nearly One Hundred on "Booster" Trip Met by Citizens and Shown About City—Visitors Leave for Breckenridge Escorted by a Committee from Cisco.

Sixty-five real business "boosters" from Mineral Wells arrived here yesterday morning at 8 o'clock and remained 45 minutes. The members of the reception committee appointed by the Chamber of Commerce and Production, went out in cars and met them on the road from Eastland, and escorted them into the city.

The cars stopped in front of the city hall, where the visitors were met by a number of the citizens and a band. There was a general exchange of greetings and introductions when Judge E. W. Patterson, in an excellent talk, welcomed the visitors to Cisco.

W. H. Mercer, postmaster, and one of the five wires of Mineral Wells, responded. He spoke of the friendship existing between the two cities and their work in the common cause of building up this section of the state. He expressed the pleasure they all felt in being able to visit the live town of Cisco and regretted they could not extend the time of their stay here. They did break into their schedule, however, and remained 15 minutes over time.

Following these addresses, the visitors, in charge of members of the Chamber of Commerce and Production and the business men generally, started out and made calls at the business houses, renewing old acquaintances and making new ones.

The party left Mineral Wells yesterday morning at 6 o'clock and during the day visited Brazos, Santo, Gordon, Mingus, Thurber, Strawn and Ranger, reaching Eastland late in the evening, and where they spent the night. They were much pleased with the manner in which the people of Eastland received and entertained them.

Leaving here at 8:45 they were accompanied to Breckenridge by a committee from the Chamber of Commerce and Production, composed of C. Paschal, G. Bedford, O. W. Rankin, Tulane S. Smith, Damon Hotel, J. C. Hanson, Jesse R. Smith, Rogers Motor Co., A. A. Garrett, C. H. Bennett, M. Carrigan, S. B. Taylor, J. H. Taylor, Luther Johnson, Max Cohen, S. E. Miller, manager of the Chamber of Commerce, Lawrence Garrett, Woodman Family Band (ten pieces), McQuigley Motor Co., J. A. Stromam, Poston Dry Goods Co., West Bros, Realty Co., Gabe Thomas, E. T. Thompson, Garrett Land Co., Piedmont Hotel, Wakefield & Hamilton, Mineral Wells Ice Cream Co., First National Bank, Drake Watson, Dr. R. E. L. Miller, Mays & Co., Col. John Brooks, Bennett & Woods, C. C. Bennett, First State Bank and Trust Co., Owl Book Co., W. C. West, Everett Wagley, Olen Williams.

The following are the firms and companies represented and the men composing the party: Perry Dry Goods Co., Curtis-Taylor Drug Co., Security State Bank, Johnson Bros. Grocery, Johnson & Johnson Drug Co., Crazy Well Water Co., Wagley Annex, W. H. Mercer, Hold Hardware Co., J. M. Belcher, J. Williams, Bruce E. Wallace, Peak & Peit, C. W. Wilson, Louis Pitchford, Turner & Wagley, "Dutch" Whiteley, Seamon Auto Co., J. W. Birdwell, J. McMenon, O. W. Rankin, Tulane S. Smith, Damon Hotel, J. C. Hanson, Jesse R. Smith, Rogers Motor Co., A. A. Garrett, C. H. Bennett, M. Carrigan, S. B. Taylor, J. H. Taylor, Luther Johnson, Max Cohen, S. E. Miller, manager of the Chamber of Commerce, Lawrence Garrett, Woodman Family Band (ten pieces), McQuigley Motor Co., J. A. Stromam, Poston Dry Goods Co., West Bros, Realty Co., Gabe Thomas, E. T. Thompson, Garrett Land Co., Piedmont Hotel, Wakefield & Hamilton, Mineral Wells Ice Cream Co., First National Bank, Drake Watson, Dr. R. E. L. Miller, Mays & Co., Col. John Brooks, Bennett & Woods, C. C. Bennett, First State Bank and Trust Co., Owl Book Co., W. C. West, Everett Wagley, Olen Williams.

Four Air Planes to Fly from New York to Far Away Alaska

Associated Press.  
MINEOLA, N. Y., July 15.—Four military airplanes lined up today waiting for the signal to start them on a 5,000-mile flight to Nome, Alaska, and return.

The expedition was organized to establish an aerial route to Alaska for possible military use and to conduct an aerial survey of the territory traversed. It will take approximately 45 days.

Each plane carries an army pilot, mechanic and observer.

Sixteen stops have been provided, the distances between stations ranging from 200 to 350 miles.

The first stop is in Pennsylvania, thence along the border of the United States to Saskatoon, Canada, thence northwest to Alaska.

### ANSON CHAMBER OF COMMERCE HAS BEEN BROUGHT UP TO DATE

Special to The News.  
ANSON, July 15.—Revamping of the Anson Chamber of Commerce, now a powerful and progressive town factor, was perfected at a chicken banquet Tuesday night. Among the out-of-town speakers were Porter A. Whaley, Manager; J. C. Wells, Exhibit Manager; and Hamilton Wright, Publicity Manager; respectively, of the West Texas Chamber of Commerce; and B. W. Whitaker, secretary of the Haskell Chamber of Commerce and well known West Texas highway enthusiast. The financial obligations of the reorganized chamber of commerce have been met.

Reminiscences of early days in Anson, when thousands of long-horn steers in endless numbers passed through the village en route to market, were graphically narrated by pioneer citizens, showing the remarkable transformation undergone in the last thirty years in Jones county.

Russia Accepts Conditions.  
Associated Press.  
PARIS, July 15.—All the condition as laid down in the note sent to Moscow by Premier Lloyd George relative to an armistice with Poland, have been accepted by the Russian bolshevik government, according to a dispatch to Martin.

Hawaii Has 255,912.  
Associated Press.  
WASHINGTON, July 15.—The population of Hawaii is two hundred and fifty-five thousand, nine hundred and twelve; Honolulu, eighty-three thousand, three hundred and twenty-seven.

Miss Thelma Etuard, who has been a house guest of her aunt and uncle, Mr. and Mrs. Wilkie Carter, at 812 West Ninth street, has gone to Desdemona for a few days' visit with her father, Mr. Woodie Stuard.

getting deep out here."  
"I don't care if it comes up to your neck; you stay there till I tell you to come out," replied Captain Charles. But the Pilgrim was defeated.

There may be a happy omen in the fact that Charles F. Adams years ago blocked the aspirations of one little Scotch cutter, the Minerva, which came to America and defeated a number of American boats in 1890. Her victories were regarded as ominous and suggested to yachtsmen the possibility that a larger boat of her type would be sent to carry away the America's cup. The Minerva was sailed by Charlie Barr, the famous skipper, who defended the cup as skipper of the Columbia in 1901 and the Reliance in 1903. But Captain Adams with his little Gossoon stopped the victorious career by winning two out of three races.

Captain Christianson, the professional skipper of the Resolute has sailed with Mr. Adams before. He was quartermaster of the Pilgrim in the race of 1893, and won Mr. Adams' approval by going out on to the gaff, a dangerous position, to fasten a sail that became loose while the race was on.

### TUG BOAT CAPTAINS DECLARE OPEN SHOP START THEIR BOATS

Associated Press.  
PORT ARTHUR, July 15.—Four firms operating Port Arthur tug boats declared for the open shop today and began resuming service after a 24-hour strike by firemen, deck hands and cooks.

Three tugs began operation with non-union crews. Five others are assembling crews. The licensed mates, masters and engineers disappeared on the strike and offered to work with any crews the owners furnished.

PERSONAL MENTION

The C. E. I. Club is making extensive arrangements for a dance at the Elks' rooms tomorrow night.

Among the local fans who attended the ball game at Eastland today were Messrs. Jeff Session, Tom Elias, Guy Ward and B. S. Huey.

R. W. Scoville, who has charge of the club room organization of the Order of Elks, is very enthusiastic over the prospects of the lodge now being organized in Cisco.

J. E. McCord is spending the day in Rainger.

Miss La Sims, who makes her home with her aunt, Mrs. C. A. Mayhew, has returned from a visit to her parents at Killeen.

Mr. and Mrs. John F. Patterson are visiting their daughter, Mrs. Clyde Kart. in Midland for a week.

Mrs. Clarence Tume left Wednesday morning for Fort Worth and other places.

Dr. C. S. Vance, who has been spending the summer in Cisco, left Wednesday morning to visit his aunt in Dallas.

Mr. and Mrs. Charles Reinhardt left Saturday night to spend the remainder of the summer in Palacios in their summer home.

L. W. Ellsberg and family left on Wednesday for Denver, Colo., to spend the remainder of the summer. Mr. and Mrs. Homer Bibe will occupy their home while they are away, on West 10th street.

The Christian Endeavor Society entertained with a lawn party Tuesday evening at the home of Mrs. J. J. Winston. Everything was made very charming in the beautiful home.

games were enjoyed, each one intent on their side being the winning one. At a late hour an ice course was served to the following: Misses Stamps, Weddington, Holmes, Davesia, Myrick, G. Myrick, Hooks, Roper, Block, Ford, Mrs. Keon and Mrs. Winston; Messrs. Kelley, Shotts, Newsals, Myrick, Becker, Coppers, Frazier, Nevals, Denman, Toolman, Rev. Mr. Holmes, Mr. Winston and others.

Mrs. Jessie Smith and son, Charles, who have been spending the past month in their old home state, Alabama, returned home Wednesday afternoon.

Fleet Shepard returned from a month's stay in McAllen Friday morning. With his family, they are stationed at the home of his father, J. W. Shepard on Avenue E.

Mrs. William Gunther of Fort Worth, who had been visiting her mother, Mrs. W. A. Gude, on West Sixth street, for a week, returned home Tuesday.

Mrs. O. C. Sibby and mother, Mrs. Leveridge, who have been spending the past month with Marcus Leveridge, in Oklahoma, returned home Wednesday afternoon.

Mrs. M. G. Shipp of Anniston, Ala., arrived in the city Wednesday night to visit her sister, Mrs. G. C. Davis, at her home on West Sixth street. Mrs. Davis accompanied her sister from Oklahoma, where she has been spending the past two weeks visiting her parents.

All Elks are requested to be present at the meeting tomorrow night. The lodge will open promptly at 8 o'clock. N. F. Payne, exalted ruler.

A number of pleasurable affairs have been given in honor of Miss Lucile Stewart, who is the guest of Mrs. C. F. Lehman. Steve Farish entertained Monday at breakfast and also in the evening with a swimming party and picnic lunch. Covers were laid for six at luncheon in Eastland, Val Horn being the host.

The South Circle of the Methodist Missionary Society met Tuesday afternoon at the parsonage. A short business meeting was held, presided over by Mrs. Ricks, the president. The Bible lesson was conducted by Mrs. Stuckey, after which a social hour was enjoyed and light refreshments served.

The Knights of Eusebia lodge of the Methodist church entertained their young lady friends Tuesday evening with a "swinging party." About twenty couples assembled at the parsonage, the boys equipped with ropes and lanterns, and the young ladies with lunches. About four miles south of the city, in a beautiful pecan grove, the

Elizabeth Cady Stanton

swings were swung, the lanterns hung and all made merry. The lunch was later enjoyed and when the gay party returned to the city all voted the affair one of the most pleasant.

Among the Mineral Wells visitors here today was C. W. Wilson, editor of the Mineral Wells Index. Mr. Wilson founded the Index twenty years ago and it has been a success. He is a member of the house of representatives in the Texas legislature, is serving his second term and it looks like the people of his district will send him back again.

FISHER COUNTY HAS LOST MUCH IN CROPS FROM JACK RABBITS

Special to The News. LONGWORTH, July 15.—Multiplication of jack rabbits in Fisher county since the drouth has become so pronounced that the very farms and prairies team with them. During the dry period in 1917-18 the rabbit "crop" of this section was cut very short, and it was hoped that the long-ear menace was passed. Today rabbits in greater numbers than ever before make their marauding forages, destroying vast quantities of grain and other farm products.

On a recent auto trip of a few miles north one autoist reported counting 105 rabbits inside the wire fence enclosure of the highway. The strong glare of the electric lights of the car showed them up visibly. Farmers and others have been too busy lately to organize "drives," but unless something is done shortly this country may be overrun with the long-eared hares.

The molly cotton-tail is also found in profusion. The baby population of this species this spring and summer has been unusually prevalent. The tender meat of the "babies" provide a palatable dish for farmers and townspeople retish the racy wild meat.

Cultivation of a taste for rabbit meat, though wild, would result in a profitable business for the owners of large pastures and farms in this section. A "drive" of a usually small pasture late in the afternoon when hares come out to gambol, would net net less than 500 to 1000, all of which may be readily executed wholesale by No. 10 shot. Many highways near here are strewn with the decaying carcasses of "bunnies" lured by the hypnotic influences of auto lights and run down before they could veer to safety beside the road.

ONE HUNDRED YEARS AGO TODAY DR. JAMES CLIMBED PIKES PEAK

COLORADO SPRINGS, Colo., July 15.—One hundred years ago today Dr. Frank James astonished the world by climbing to the top of Pikes Peak, 14,109 feet above the sea. Since that time 2,000,000 persons have made the trip and today Colorado Springs is celebrating the anniversary with ceremonies all along the 18-mile serpentine automobile highway to the summit.

Lieutenant Zebulon M. Pike is credited with the discovery of the mountain in 1806. As hardy a pioneer as was the discoverer, he declared the peak was inaccessible and none dared to doubt it until July 14, 1820, when Doctor James, a member of the Major Long expedition, succeeded in the attempt.

Major Long christened the mountain James Peak but the pioneers and plainmen persisted in giving it the name of its discoverer and Pikes Peak it has remained.

The history of tourist travel to this most famous spot of the Rockies has been that of the development of highway transportation. First came a bridge path, in 1878; two years later a wagon road was built and in 1891 a cog wheel railroad was constructed.

With the development of the automobile industry came the demand for a motor road and in 1916 the present motor highway, winding around the mountain in devious curves, with precipitous rock walls flush against the road on the one hand and deep ravines on the other, was completed at a cost of \$360,000. It has an average grade of 7 per cent and a maximum of 19 1/4 per cent. It was 26 feet wide except at the curves which were extended to 50 feet for the greater safety of the motorist.

Pikes Peak is eight miles in an air line from Colorado Springs, and the greater part of the mountain is controlled by Colorado Springs to safeguard the city's water supply.

In April, 1919, a government war tank attempted to climb the peak, but was blocked by snow drifts. A month later a caterpillar tractor made the ascent.

Walking races, burro races, motorcycle and automobile races have been held on Pikes Peak. The first airplane to cross the peak was flown over the mountain on August 3, 1915, piloted by Alexander Lendrum, of Colorado Springs.

The record for motor over the 12 miles from Crystal Creek to the summit is held by Ralph Mulford, who made it in 18 minutes and 24 seconds.

Next September the automobile hill-climbing contest, discontinued during the war, will be resumed. An airplane race from Denver around Pike Peak and return will feature the event.

Oil and Gas Law

Associated Press. AUSTIN, July 15.—Deputy supervisors of the oil and gas division of the Texas Railroad Commission have been called into a general conference here July 21-23 by Major George C. Buite, chief of this division. Discussion of the general condition of the oil fields and exchange of idea for the proper enforcement of the oil and gas conservation law are the purpose of the conference.
