NUMBER 88

## FFA Encampment Here Will Close Saturday

### Through the Editor's Spectacles

By GEORGE

We do not claim to be the best paper in the country. Modesty forbids us. But we will admit that we are one of the two best papers in Cisco.

Henry Stubblefield has unbuckled the belt of his sergeant's authority and gone vacationing. Now E. O. Hendricks is sitting at the desk, with the prospect of a month or more of daylight duty as a relief from his night job, while he rotates around filling in for Henry, then for Gustafson and then for Chief Purdue. Henry, looking as if he couldn't believe it, was wandering around the streets this morning getting ready to take off on a visit to his daughter at Electra and to his son at Dallas.

The Cisco State bank which recently liquidated and paid off its depositors through the First National bank performed a great service to its community in the year of its existence. For one thing it thawed out a mass of frozen credit that went a long way toward relieving the depression here. For another thing, it inspired a community confidence that was of even more value to Cisco than the money that was released. Cisco is indebted to the bank and its organizers, Mr. Reynolds, Mr. Dabney and others, for a tangible service in straightening out a financial situation that usually plagues a community where it occurs for years; and also for a profound demonstration of public confidence that was a real community inspiration.

Cisco may not have need for two banks, as Mr. Reynolds contended, and we will all admit that the First National is amply able to take care of the situation, but it certainly benefitted from the organization of the Cisco State bank and its operation for a year, and the community is today much better off as a whole as a result. A mass of frozen credit in a town is a depressing thing, and although the Cisco State bank had no connection with the Cisco Banking company, its organization made it possible to straighten out the affairs of the old institution and put them on a liquid basis.

The stork took a long lead over the old man with the scythe during July in Cisco, according to the vital statistics report of City Health Officer, Dr. W. P. Lee.

There were 16 births recorded within the city limits during that month and only four deaths. Cisco's gain in population over the past year, as reflected by comparison of the 1934 and 1935 directories, may have a substantial reason behind it.

### Temperature Climbs To Over 100 Here

Another period of burning heat enveloped Cisco this week when temperatures rose at mid-afternoon consecutively to 104 and 106 degrees, according to the recording thermometer of the Cisco Gas corporation. At 2:30 this afternoon the instrument showed 104 degrees temperature.

### A. G. Girls to Play Putnam Team Tonight

The A. G. Motor company girls soft ball team will play a Putnam girls team a five-inning game at the Humble park this evening, following a game between teams of business men.

Saturday the girls will go to Breckenridge for a game and Wednesday of next week they will play Comyn at Humble park. Later in the week the team is planning to go to Wichita Falls for a three day tournament.

### Weather

West and East Texas—Generally fair tonight and Saturday.

### STRIKE AREAS IN FRANCE TO BE CLEANED UP

#### Premier Laval Calls Conference of Prefects of Paris Police

PARIS, Aug. 9 (AP)—The French government today ordered the police to clean up the agitation centers. Premier Laval issued orders to the prefects of police of France's eighty-six departments to confer with him immediately. This is the first time such conference was ever held in the history of the French republic.

A somewhat easier attitude prevailed as the government arsenal laborers at Toulon, Brest, and the French steamship line employees at Le Havre voted to end the strike, enabling the steamship Champlain to sail today, two days late.

Police threw a network over the scene of the riots at Toulon last night. A house to house search today brought forty arrests and the discovery of many wounded.

### Murder Charge Indictment Of Zenge Returned

CHICAGO, Aug. 9 (AP)—A true bill of indictment, charging Manville W. Zenge, Missouri carpenter, with murdering Dr. Walter J. Bauer by penknife mutilation, was reported returned today by the grand jury. The reported action came after Prosecutor Charles Dougherty had presented witnesses to substantiate the circumstantial evidence the state claims Zenge, who through five days of questioning, has maintained his innocence.

### Leeray Road Closed In Oiling Operation

Closed for oiling the newly completed base, the Leeray road, giving Cisco a more direct north outlet to a connection with Highway 67, will not be opened to traffic for two or three days, Sec'y J. E. Spencer of the chamber of commerce said he was informed. Efforts will be made for immediate paving of the nine-mile strip to preserve the excellent caliche base that has been put down, he said.

### Band to Play at Lake Cisco Tonight

The Lobo band will play a concert for the Future Farmers encampment at Lake Cisco this evening at 8 o'clock. It will be seated on the sand, directly in front of the grandstand.

All members of the organization were asked to be present at 7:45 o'clock.

### Comm'n Suspension Order Held Invalid

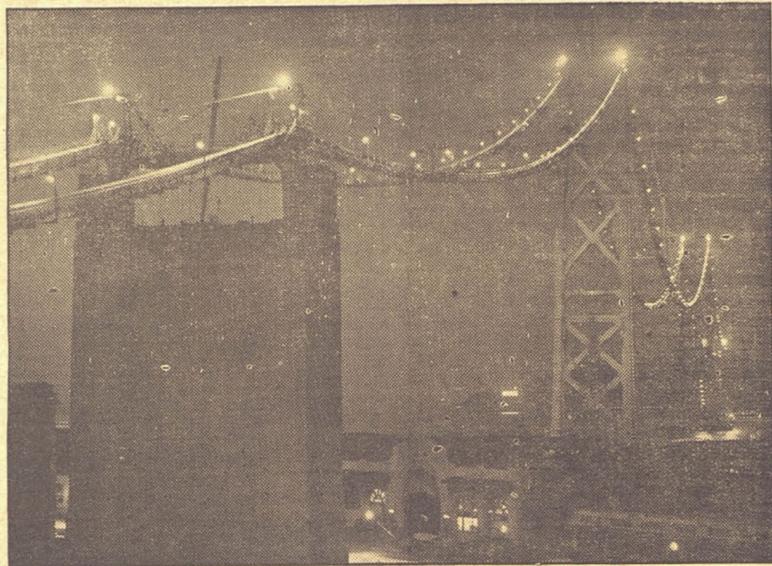

AUSTIN, Aug. 9 (AP)—The attorney general's department today ruled as invalid a railroad commission order suspending the exceptions to the general oil well spacing rules. The commission announced recently applications for permits to drill under exceptions to the rules would be held in abeyance until the supreme court passed on a motion for a rehearing in a case involving the validity of the rule.

### Berlin Papers Play Up Dallas Outbreak

BERLIN, Aug. 9 (AP)—Nearly all of the newspapers of Berlin today displayed prominently accounts of the strike disorders of Dallas, Texas, under such headlines as: "Women Turned into Hyenas," "Cultural Disgrace to Texas." Comments also appeared on "Credulous Incidents in New York Police Court."

Mr. and Mrs. Jack Anderson have returned from Dallas.

### Jeweled Strands Span San Francisco Bay

The gleaming, lighted catwalks of the \$7,500,000 bridge being built between San Francisco and Oakland nightly provide a beautiful water-

front scene. The graceful loops are lighted for night shifts of the 24-hour-day cable-spinning jobs. The picture was taken on the San

Francisco side and shows the catwalks stretching toward Yerba Buena Island, midway point of the bridge, in the background. (Associated Press Photo)

### President Asks Approval Of States' Oil Compacts

#### State Winner In Second Round Of Gas Waste Suit

AUSTIN, Aug. 9.—The state won the second round Thursday in litigation to restrain enforcement of anti-gas waste orders in the Panhandle field unless provisions of the gas conservation act protecting correlative rights were effective.

Chief Justice M. B. Blair, of the third court of civil appeals stayed injunction granted yesterday in district court to the Cargary corporation, Hagy, Harrington and Marsh and the American Natural Gasoline company authorizing use of natural gas for other than light and fuel purposes as prescribed by the statute.

The concerns use gas for extraction of gasoline.

Hearing Wednesday Justice Blair also temporarily restrained the concerns from violating terms of the railroad commission gas proration order or the act by stripping gas and blowing the residue into the air.

Hearing on the state's application for a temporary injunction during pendency of the litigation was set for Wednesday.

Appealing the trial court action, the attorney general asserted Special District Judge Harry Dolan "acted without warrant of law," contending the concerns did not attack constitutionality of the act or validity of the order.

#### Basis

Failure of certain gas pipe line companies to share outlets and purchase sweet gas ratably was made the basis of the application for district court injunction. They contended for permission to use sweet gas for other than light or fuel purposes, as prescribed by statute, until afforded a share of the market.

The Texas Panhandle Gas company, a pipe line, recently obtained a temporary injunction in federal court authorizing production in excess of the proration order sufficient to supply its market needs. Twelve wells in Wheeler county supply the pipe line with gas.

The gas conservation act, effective as to sweet gas August 1, contained provisions intended to prevent waste of gas and also to protect correlative rights of owners. As a result of the appellate court action, the commission was empowered to continue enforcement of provisions prohibiting popping into the air of residue of gas stripped of its gasoline content.

Mr. and Mrs. Ira Guffey spent Friday in Mineral Wells.

WASHINGTON, D. C., Aug. 9. (AP)—President Roosevelt, in a brief special message to congress, today, requested congressional sanction of the states' oil conservation compacts. The president confined his recommendation for oil legislation at this session to the approval of the understandings reached among the oil producing states. He transmitted to congress certified copies of approval of agreements reached at Dallas February 16 for the control of producers.

### Body of Boy, 15, Killed In Fall, Is Recovered

MONARCH LAKE, Col., Aug. 9. (AP)—The broken body of William Brode, 15 years of age, son of a distinguished southern family, started on its homeward journey today from Lindberg Peak, where he fell to his death. Searchers bore the body over slippery trails to Monarch Lake where his parents, Mr. and Mrs. Julien Brode, of Memphis, Tenn., waited. "The boy died instantly from the effects of the fall," said Baker Armstrong, a mountain climber from Houston, Texas, who last night located the body. Armstrong said he found the boy's shoes, apparently torn off by the 100-foot fall.

### Mother of Mrs. L. C. Moore Buried Today

Mrs. D. W. Bittle, 72, mother of Mrs. L. C. Moore of this city, was buried at Rotan this afternoon. She died yesterday, after a long illness.

Mr. and Mrs. Moore, Mrs. H. Moore and Mrs. Dewey Moore and children attended the funeral from here. The Moore Drug Co. store was closed during the hour of the services.

### Return From Four Day Fishing Trip

Jake Courtney, Mr. and Mrs. Fay Dawson, Mrs. Huddleston and Mr. Courtney's daughter, Opal, have returned from a four-days fishing and outing trip to the Llano river. Mr. Courtney said that fishing was fair. The territory adjacent to the Llano, he also said, was considerably damaged by floods.

Mr. and Mrs. Chapman Williamson of Lubbock visited relatives here yesterday en route to Dallas. Mr. Williamson is a son of former Mayor J. M. Williamson, Cisco.

### Urges Ciscoans To Visit Camp

Sec'y Spencer of the chamber of commerce today urged Cisco people to visit the FFA tri-district encampment now in progress at Lake Cisco. This encampment, an annual affair here for six or seven years, draws large numbers of Future Farmer chapter members and their instructors to Cisco for a three-day stay.

Over 300 were registered at the lake this morning.

Said Spencer: "These are high class, splendid boys and men whom it is an honor for Cisco to entertain. Our citizens would show proper respect and appreciation of their choice of 'Cisco by visiting them at the Lake and making them feel welcome."

He urged that as large a crowd as possible attend the Lobo band concert at the lake this evening at 8. Director R. L. Maddox will be in charge of the concert.

### Two Small Children Drowned in Canal

BROWNSVILLE, Tex., Aug. 9 (AP)—Cecil, nine years old, and Marlyn, six years of age, children of Mr. and Mrs. C. C. Schubert, were drowned late Thursday in a small canal two miles from here. Cecil, in attempting to carry his sister across the canal, stepped into deep water.

### Toll of Ohio Flood Continues to Mount

ZANESVILLE, Ohio, Aug. 9. (AP)—The toll of destruction of Ohio's worst flood in twenty-two years mounted today as the crest waters moved toward the Ohio river, with the property damage unofficially estimated at upwards of three million dollars.

### Cisco Golfers Play Ranger Here Sunday

The Ranger golfers and Cisco golfers will play here Sunday evening in the final match of the Oil Belt schedule. T. C. Williams, Cisco team captain, requested a full attendance of Cisco players. Matches will begin at 12 p. m., he announced.

#### THEY WORK FOR LOVE

LONDON, Aug. 9.—Britain's average business woman takes up employment to fill in the time until she can find a husband. This was revealed by psychologists who studied 231 women secretarial workers on behalf of the National Institute of Industrial Psychology,

### STRIKE MOVE AGAINST WPA IS LAUNCHED

#### Walkout Called in Protest Against Gov't Security Wage

NEW YORK, Aug. 9. (AP)—Launching a strike movement, which threatens to encompass other large cities, representatives of labor unions today made flying visits to call ten to fifteen thousand skilled workers from the Works Progress Administration jobs. The strike call is in protest of the government's security wage.

Progressive Works Administration offices gave out the information that there were about seven hundred workers away from their jobs today. Union officials made no statement. "Just sitting tight policy," was proclaimed by Hugh Johnson, the New York WPA administrator.

### Roosevelt Okehs Verdict; Officer To Be Dismissed

WASHINGTON, D. C., Aug. 9. (AP)—President Roosevelt today approved the court martial verdict of guilty returned against Brigadier General Alexander E. Williams, former assistant quartermaster general, and ordered him dismissed from the service, setting the time of his dismissal at August 12.

General Williams was found guilty on May 23 of having solicited and obtained a loan of \$2,500 from Frank Speicher, automobile tube salesman.

### Schreiner Sees Ranch Recovery Ahead for Fall

KERRVILLE, Aug. 9.—Louis Schriener, Kerrville banker and wool and mohair commission house head, looks to the fall with confidence for a great recovery among the livestock raisers of this section.

Mr. Schriener said he has never witnessed any quicker recovery in both livestock range and livestock markets than has taken place during the last few months. He thinks Edwards county, which is the center of large goat production, has made perhaps the outstanding record in this respect.

He sees good prices for mohair this fall and says that while nannies have been selling in the Kerrville country for some time at \$2.50 a head, the first sale of a bunch of 800 mutton goats at \$2.50 was made this week in Kerrville. He said there were exceptional goats and he does not think that \$2.50 is the going price.

Oats are selling in Kerrville at 42 and 44 cents a bushel and what few farmers raised have proven a most profitable crop in that section.

He says there are no cattle in that part of the country and does not know where the cattle are which the government reports on its statistics. He finds some good calf crops in South Texas, but feels that the calf crop is short and that unless unforeseen events change things there is every reason to believe in a sustained high cattle market.

#### \$50 FOR HAIR

BELFAST, Aug. 9.—A young Irishman will collect \$50 from a beauty shop operator for negligence in the permanent waving of his hair. Samuel McGarry of Templepatrick, County Antrim, won his case when he went to court, but only a fraction of damages he asked for. When he went to a hair-dresser his scalp was damaged by the machine. As a result of injuries to the head he has suffered a reduction in wages and was unable to play football, he said.

### REGISTRATION REACHES OVER 300 AT NOON

#### Boxing, Diving, Swimming, Playground Baseball main Sports

Over 300 boys and their instructors were registered at Lake Cisco at noon today for the annual tri-district FFA encampment which opened Thursday noon and will close Saturday afternoon.

A group of 11 boys arrived from a consolidated district near Gorman early in the day, and two or three other groups were scheduled to reach the encampment grounds during the afternoon.

The program this afternoon includes boxing matches at 4 on the country club lawn where a boxing and wrestling ring is available. Some fast and exciting matches have marked this part of the program of contests. Semi-finals were to be fought today.

**Pool Contests**  
In the swimming pool there will be finals in diving and swimming contests. Semi-finals in playground baseball were also to be played this afternoon.

At one o'clock the boys were the guests at a picture show at the Palace theater, and at 8 o'clock this evening the Lobo band will play a concert for the group at the lake. R. L. Maddox, director of the band, will conduct.

**Big Crowd**  
Thousands of visitors swelled the crowd at the lake area last night to near 1,000. The pool was crowded during the night, while all afternoon long the facilities of the Lake Cisco Amusement company were taxed.

The general assembly, presided over by A. J. Spangler of John Tarleton college and addressed by Dean J. Thomas Davis of that school, took place in the city park last night, with the band stand as the rostrum. Davis discussed the work of the Future Farmers and emphasized the importance of striving for perfection.

**Preliminaries**  
Preliminaries to the more important contests were held during the afternoon. Some of the athletic events were decided.

In the pole fight the Millsaps team won first place; Tolar second; Abilene third, and Breckenridge and Richland Springs placing in order.

The boys sleep and eat in quarters provided between the butresses of the big dam. Heavy timbers are used to floor these spaces which make excellent quarters for the purpose.

J. M. Bird is in charge of arrangements.

Following are names of the boys and their instructors who had registered to midnight Thursday:

BANGS—(8)—J. Johnson, J. Browder, R. Moren, P. Brooks, I. Matthews, A. McNelly, J. Pierce, V. P. Riley, adviser.

OWELL—(12)—Howard Smith, Odell Wilbanks, Buddy Levens, Herman Charles, Gray Denton, Venoy Brown, W. C. Arens, W. T. Eaton, V. G. Conner, adviser; Harold Arens, Clint Helms, Ray Helms.

ABILENE—(19)—Mack Warner, W. G. Tutt, Cecil Haddox, W. D. McDeman, Marshall Tutt, Chas. Horn, Chas. Williams, Joseph Montgomery, Lyster Blanks, James Leverett, Welton Prust, Elvis Montgomery, Phil Ford, Chas. Ford, Joe Montgomery, C. J. Hardwick, J. J. Moore, adviser; Mason Holbrook, Jack Robinson.

RISING STAR—(7)—Russell Reden, J. R. Morrow, Billy Morris, Genepp, Glenn Bishop, Oral Gee Bell, M. O. Hord, adviser.

ROTAN—(13)—R. Ferrell, J. R. Counts, W. Smith, A. Smith, F. Curry, W. Curry, J. Aaron E. Odum, D. Ferrell, H. Swann, S. Underhill, J. M. Starr, adviser.

COLORADO—(14)—Bill Galey, O. Hammerick, R. C. Smedley, V. Hays, Wm. Taylor, Duff Cherney, R. Rogers, Lewis Hughes, Voy Jones, John Evans, J. M. Boroman, Voyd Berglits, D. Welborn, Doyle Williams, adviser.

COLEMAN—(10)—Chas. Morris, Warren Gafford, A. J. Caugh, Fester Miller, Roy Sewell, Ed

BIBLE THOUGHT FOR TODAY

I am the Lord your God: walk in my statutes, and keep my judgments, and do them; And hallow my sabbaths; and they shall be a sign between me and you, that ye may know that I am the Lord your God.—Ezekiel 20:19, 20.

While those around me need thy message sweet, Grant that I pass not by with swift, unswerving feet,

Hastening about the earthly problems that seem mine And heeding not the call to do the thing divine;

May I still hold thy hand when evening shadows fall, And know that I have proved that God is all.

M. A. Thomas.

Think good thoughts now, was the theme song of a lecture delivered recently. This admonition, if adopted, will banish thoughts of fear, disease, lack, lust, and selfishness—that Pandora's box of evils which beset human consciousness—and substitute thereof thoughts of love, happiness, humility, and kindness, which constitutes the attributes of God, good.—Visalia, Calif., Times-Delta.

Relief Stoppage

COMPLETE stoppage of direct government relief within the next few weeks is predicted. The harvest season in the middle west has already caused local and state officials to take forthright action to purge the relief rolls of those who refuse employment, while in some cases it has been stopped altogether.

WE MAY hope to see an end very shortly, if these conditions hold true, of the direct relief issue. The sooner the better. While it was necessary in the emergency of the depression, its effect has been bad. It gave too many people, otherwise sensible and respectable, the idea that the government owed them a living and was just now admitting it.

Indestructible Life

POSSIBILITY that a man in the future may have himself frozen, with an injection of sodium nitrate in his veins to prevent his blood clotting, and then have himself thawed out fifty, a hundred or even a thousand years afterward and go on living is held out by scientists as the result of experiments with monkeys and dogs, which are said to have been successfully frozen and revived.

HE WOULD be a brave spirit indeed who would attempt such an adventure, braver than the brave men who swallowed the first oyster. But the world, being full of strange spirits, might produce a creature of such attraction to the occult or the scientific that he would desert the adjustments, associa-

tions and sympathies of his own time and world to dare the incredible customs of the future society into which he would find himself awakened. What value his scientific discoveries could be either to the generation out of which he would be frozen or that into which he would be thawed is subject to honest doubt.

THE value of the fact that it is possible to freeze a living creature and several days, weeks or months later revive it into its normal functions, however, lies in the fact that it tends to prove this thing called life has more tenacity than apparent. From somewhere life came, and to inhabit the earth it must have resisted in some form the extremes of both cold and heat.

THE earth, if geology is true, was projected into this extreme cold as a molten mass. When the conditions for supporting life in the forms in which we now experience it arrived, the element of life was present to inspire them.

A Natural Center

SOME surprise has been occasioned by the revelation that the 1935 directory of the city of Cisco, recently published, revealed that Cisco, over the past year, had gained approximately 1,500 in population, with a total of about 7,200 persons now making their homes in this city.

THE increase in population as reflected after adjustment is made for this fact, may be attributable to some extent to the influence of the governments relief program. Practically all of the cities in the country reported considerable increases in the numbers of residents because of a trend toward the cities to receive the benefits of the public dole.

BUT, granting these explanations, there are certain other facts that we have overlooked in a general pessimism over the depression. The most important is that Cisco is logically a center. It was such before the oil boom and after the dearrangement of this economic phenomenon it is gradually reassuming the place to which location and natural equipment entitle it.

EVIDENCE of a considerable population increase ought to be encouraging. It should stimulate an optimistic community spirit and a determination to capitalize on these advantages.

Helping the Road Along

ENGINEERS are already at work making preliminary survey of the new route to be taken by Highway No. One through Cisco. This right-of-way, which will follow Eighth street, must be definitely located, field notes prepared and other engineering data accumulated before plans and specifications can be drawn for the construction of the road.

CISCO ought to take every action possible to hasten construction of the road. At least, nothing to block the project should be allowed to interfere with its consummation. We need Highway One. We don't want to set off from it, served by an unattractive tap-road, so to speak, and forced to lose the advantages that the constant stream of its traffic through the city will create.

Authorities can't agree on whether to call it Ethiopia or Abyssinia. Mussolini wants to call it Italy.

What's What at a Glance

WASHINGTON WORLD

Central Press Washington Bureau 1900 S street By CHARLES P. STEWART Central Press Staff Writer

WASHINGTON, D. C.—Senator Thomas P. Gore's acceptance of the challenge that he is no Democrat, because he has opposed so many New Deal policies, may prove to be an example that a considerable number of Democratically-labeled lawmakers will follow.

The blind senator from Oklahoma comes up for renomination and election next year. Oklahoma's governor, E. W. Marland, raises the point that he has ceased to be a member of the party and consequently is unentitled to renomination on its ticket.

SIMILAR TO OTHERS

Now, Senator Gore's position is not unlike that of a dozen or 15 other senators, who assert that they are real Democrats—and who at least imply that President Roosevelt isn't a real one.

They do not all come up for re-election next year, to be sure. Senators Josiah W. Bailey of North Carolina, Carter Glass of Virginia and Huey P. Long of Louisiana do.

Additional Democrats who seem to go, for one reason or another, into the same category, are Senators Alva B. Adams of Colorado, William H. Dieterich of Illinois, Walter F. George of Georgia, Ellison D. Smith of South Carolina, Millard E. Tydings of Maryland, Pat McCarran of Nevada, John H. Overton of Louisiana, Harry F. Byrd of Virginia, Vic Donahey of Ohio and William H. King of Utah.

WHO WILL BE WHO?

If Republicans alone had been denouncing the New Deal it would not especially matter; Republicans are expected to denounce it.

But with a formidable group of Democrats denouncing it (?)! And, on the opposite hand, with progressive Republicans defending it (?)!

Who will be a Democrat in 1936? Who a Republican?

Human and Other Nature

By W. F. BRUCE

If all the exasperation that was ever provoked by the pestering growth of Johnson grass were concentrated into one vehement imprecation and one violent demonstration it would mean a terrible visitation upon the head of one Colonel William Johnson who nearly a century ago triumphantly showed his Alabama neighbors what a magnificent hay producer he had found. After spending hours extracting round roots (fully as complicated as square roots used to be), that is the white rootstock that the small beginnings had thrust far down while I was on my vacation, as if every moment that it is left alone is looked upon by the plant as an opportunity for imbedding itself inextricably into the soil—after spending hours under a summer sun with pick and perspiration contending with this persistent antagonist and its equally stubborn ally, Bermuda, I have a notion to abandon the field to the allied army and let them fight out its possession among themselves.

RESOLUTION OF RESPECT Whereas it has seemed fit by our Heavenly Father to remove from us our worthy Brother C. R. Duncan.

Be it resolved that in the departure of Brother Duncan to the home that awaits us all, the lodge has lost a true and faithful member of the precepts of the order.

And be it further resolved that we miss him from our council and from the active interest he manifested, we humbly submit to the Divine will who knoweth best;

And be it further resolved that a copy of these resolutions be presented to his son and family Brother E. C. Duncan, with our heartfelt sympathy in this trying hour, and that a copy be placed on the minutes of the lodge, and also a copy given to the paper.

Respectfully submitted, Committee I. O. O. F., Adv. Cisco Lodge No. 281.

Central Press New York Bureau 235 East 45th street By LESLIE EICHEL Central Press Staff Writer

NEW YORK.—The majority of political writers seem agreed that the constitution will be the issue of the 1936 presidential campaign. It certainly is the issue now—for the Republicans have taken it up with alacrity. But astute politicians, on both sides, are of the opinion (as always) that the economic condition of the United States will play the chief part.

The price of farm products, the number of unemployed in the industrial regions, even the status of the stock market will be factors. Some men say they will be the chief factors.

The supreme court issue will not fade. It never has—since the moment the constitution was written. But it may be obscured by the economic condition of the majority of people—whatever that will be.

Such is the reasoning of some shrewd political observers, who are not particularly favorable either to New Dealers or to Republicans. They classify the present charges and counter-charges as "trial balloons"—sent up every four years prior to a presidential election.

CONTEST

Of course there is a contest. There always has been, there always will be—between those who have property, and those who have none and desire a portion. That is an age-old contest.

The real contest is not that the Roosevelt administration desires an amendment to the constitution to prevent the supreme court from having final review over laws of congress. Discussion of various amendments to the constitution have occurred under virtually every president—and more amendments have been achieved under Republican than Democratic presidents. No, it is the fear that under a new amendment some future congress (not this one, for it takes some years for the states to adopt an amendment) would expropriate property, circumventing the constitution as now construed by the courts.

And there is a fear that a president, with a majority congress in power, could carry through his program without judicial review.

But a president cannot force an amendment to the constitution. Only public opinion can govern that. For an amendment can be adopted unless three-fourths of the states ratify it.

Cotton Holdup Threat Broken by Court Ruling

HOUSTON, Aug. 9, (AP)—Legal barriers which threatened to prevent movement to market of the Texas cotton crop were cleared away in federal court here Thursday.

After a day of laborious conferences between attorneys, Judge T. M. Kennerty signed an order which, in effect, will enable ginners to obtain bale tags under the Bankhead act and to move their cotton to buyers.

Judge Kennerty held that a temporary injunction granted by Judge Randolph Bryant at Sherman on July 19, restraining government agencies from compelling cotton ginners to comply with the Bankhead Act was inoperative. He ruled that plaintiffs who obtained the injunction had failed to post bond of \$100,000 fixed by Judge Bryant.

The order was signed after Judge Kennerty named a committee of attorneys representing two factions of ginners and the government to work out an agreement.

Plan Worked Out In directing the attorneys to find a solution for the problem satisfactory to all concerned, Judge Kennerty said to former governor Dan Moody, representing ginners favoring continuation of Bankhead Act rules:

"Try and work out a plan so that the ginners can get their bale tags and stop this trouble about the cotton crop being held up. I don't think injunctions against the collectors do any good. Try to get together."

He named Moody chairman of the committee of attorneys. They conferred six hours and after they reached an agreement late in the afternoon, Judge Bryant signed the order which all the attorneys said would enable ginners to move cotton to market without delay.

SEEKS U. S. MARKET WELLINGTON, N. Z., Aug. 9.—Endeavoring to develop a United States market for their products, New Zealand orchardists have shipped 20,000 cases of fruit to the United States this year. Last year an initial shipment of 40,000 cases was sent to the American market. The shipments were about 90 per cent apples and 120 per cent pears.

Mrs. F. L. Yoder and E. B. Shelton of FortWorth, spent Thursday afternoon in Abilene.

Mrs. F. L. Yoder of San Antonio, is the guest of her mother, Mrs. W. C. Shelton, and other relatives.

AUTOS FOR ARMY BERLIN, Aug. 9.—A continually growing sale of private cars in Germany's motor industry has been recorded since the beginning of April. Most of the cars have been on the installment plan. The industry has not been able to satisfy a great demand for heavy motor trucks for private use, preference being given to orders from the army is the reason.

## FERA Projects to Be Transferred to WPA

AUSTIN, Aug. 9.—What will happen to Federal Emergency Relief administration projects as the FERA employables are transferred to the Works Progress ad-

ministration rolls has been explained by J. B. Keely, chief engineer for the Texas Relief commission.  
The projects are to be re-estimated and, if acceptable, transmitted to the WPA, which is expected to complete them, Keely said. In some cases, the workers on a FERA project will be trans-

ferred with the project, and activity will not be halted.  
Also, Keely pointed out, proposed projects which local communities have sponsored but which have not yet been accepted by the FERA, should be submitted to the WPA through the proper district office. Only enough work projects will be handled by the FERA to take care of employable relief clients until they are transferred to the WPA.

## "Bread or Booze" to Be Lecture Subject

"Bread or Booze" will be the subject of a lecture to be delivered at the Nazarene tabernacle Sunday, 3 p. m. The Rev. Mr. Herschel Murphy has been living in Louisiana the last six months and has observed conditions there since Louisiana repealed its prohibition laws.

Mr. Murphy is well known in Cisco, as he made his headquarters here for some time while in the evangelistic work. Many Cisco people have also heard him preach and sing over the radio. He sang for some time for the Radio Revival over KRLD. For several months last year he conducted a series of services over KFPL, where he was announced as the "High-toned Irishman" and "The Man with a Woman's Voice". All those interested in the liquor question are urged to attend.

Mr. Murphy is in Cisco as choir director and soloist in the revival which Rev. G. R. Doster is holding at the Nazarene tabernacle at A avenue and 8th street. Services will be held at 10 a. m. and 8 p. m. through August 18.

## Former Driller of Cisco Dead in Okla.

O. G. Lawson and N. D. Gallagher, Cisco drilling contractors, were informed Wednesday of the sudden death of Jack K. Wilson, a former Cisco driller, who died suddenly in Oklahoma City Tuesday. Mr. Lawson said he was not informed whether his death was due to heart trouble, or being overcome by the heat, but it was wholly unexpected, and a shock and surprise to his friends and acquaintances in Cisco. He was about 65 years of age, and is survived by his widow and several children.

Mr. Lawson stated that Wilson was an old-time cable driller, a native of Pennsylvania, and had worked in all the fields of that state, W. Virginia, Kansas, Oklahoma and Texas.

Recently he was employed by Gallagher & Lawson in drilling gas wells in the vicinity of Cisco, including those of the Kleiner farm.

He left Cisco about three months ago. S. H. Montgomery, well known Cisco driller, who brought in the Groves well, one of the largest

ever drilled in this section, producing 62 million feet of gas, was a life-long friend of deceased.

No arrangements have been completed for the funeral, as the body is being held pending the location and arrival of a son.

Mrs. J. W. Mancill, Mrs. J. B. Cate, Mrs. P. P. Shepard and Miss Mollie Nelson of San Antonio, spent Thursday in Eastland.

Mrs. Hunter Miller has returned to Austin.

## Held in Slaying

A row over a tintype, according to the story Mrs. Mary Dodd Smith, above, told to a coroner's jury, preceded the death of her husband, Wade L. Smith, who was fatally wounded at their honeymoon bungalow. Mrs. Smith was held for trial on a second degree murder charge at Laurel, Md.

## Joint Meeting of Medical Societies At Phil-Pe-Co.

RISING STAR, Aug. 8.—Dr. F. C. Payne has completed the mailing out of invitations for the annual joint meeting of the Medical societies of Brown, Mills, Eastland and Callahan counties, which is to be held at Philpeco Country club Tuesday evening, August 13, beginning at 7:30.

A fish fry supper for all in attendance will be the curtain raiser and principal feature of the evening, according to the invitation, which also states that physicians may come early if they desire and enjoy the privileges of the club for golf, swimming or fishing. Physicians are asked to bring their wives and special entertainment will be furnished for them.

Following the fish fry a scientific program will hold the attention of the physicians for an hour. Papers to be presented are as follows:

"The Method of Choice in Handling Different Types of Goiter"—Dr. G. D. Mahon, Dallas.  
"The Decompensating Gastro-Intestinal Tract."—Dr. M. O. Rouse, Dallas.

The invitation is signed by Dr. M. L. Stubblefield, secretary of the Eastland County society.

## Rev. James to Hold Revival at Moran

The Rev. E. S. James, pastor of the First Baptist church here, will begin a revival series at the Moran Baptist church Sunday morning, it was announced this week. The Rev. Roy Shahan is pastor of the Moran church.

The series will continue through August 25 with services at 10 a. m. and 8:15 p. m. each day.

Mr. and Mrs. W. R. Miller are spending their vacation in California.

## Moran School to Open September 9

MORAN, Aug. 9.—The 1935-36 term of school will open Monday, was set Monday night at the regular monthly meeting of the board of trustees of the Moran Independent School district. By beginning this early school will turn out about the third week in May next year. School started on September 10 last year.

During the summer the board of trustees, with the aid of Supt. Etheridge and C. Harper, has had some needed work done on the school building. Nearly 250 pounds of putty have been put on the windows, broken panes have been replaced, doors repaired, and a new door has been ordered for the west door in the grammar school building. The building will be in good condition for the beginning of school, which is just a little more than four weeks off.

All teachers have been selected, and have accepted, for next term, ready for the opening. Many of Supt. Eldridge is on the job getting the teachers attended summer school, and Coach Gingrich attended a coaching school at Dallas the past week. It is believed football practice will begin the first week in September.

Attendance will be increased this year, according to all the information received. Eight students are being transferred from the Union district, and with other transfers together with a large number of first graders, will swell the attendance.

## DOTHAN NEWS

Friends here were very sorry to learn of the death of Mr. Smith of Cisco. He had many friends among the Dothan people. He was the father-in-law of Mrs. Wesley Smith, formerly Inez Surles, of this community.

Norman White is the guest of his sister, Mrs. Zearl Short.

Mr. and Mrs. Lawrence Simpson of Oklahoma are spending the summer with Burrell Reed and family.

Mrs. Joe Coleman was visiting Mrs. R. C. Adams Saturday.

Mrs. Arlin Birt and son, Arlin Gerald, are doing nicely. Arlin Gerald is a new arrival, and the first grandson of Mr. and Mrs. A. Birt.

Bill Phippen, son of Mr. and Mrs. C. E. Phippen, has returned to Montana. This was the first visit with relatives here in six years.

Mrs. Raleigh Murray went to Cisco on Saturday to visit her mother, Mrs. H. Sublett.

Mr. White of Cisco made a trip to the Surles dairy to see his daughter, Mrs. Zearl Short.

Luke Phippen who is staying at Brown's Sanitarium for treatment, is home with his family over the week-end. His condition is slightly improved.

**Screen Stars' Derby to Attract Attention at Cleveland Races**

Transcontinental Event for Movie Actors Added to 1935 Air Program, Aug. 30-Sept. 2; Prize Money Increased in Bendix, Thompson Trophy Races

By **WALTER L. JOHNS**  
*International Illustrated News Writer*  
**CLEVELAND**—With \$50,000 in prizes, the return of the "ladybirds" to a place on the program, a novel screen stars' derby and the innovation of a spectacular group of death-defying night riders, the 1935 National Air Races in Cleveland promise to be spectacular.

Clifford Henderson, managing director of the races, describes the air show as a spectacle, "combining the features of the Indianapolis speedway races, the Kentucky Derby and the New Orleans Mardi Gras". The races will be held at Cleveland's municipal airport four days, Aug. 30 to Sept. 2.

**Movie Derby in Spotlight**  
 While the Vincent Bendix transcontinental race and the Thompson trophy race have always been the center of attraction at the National Air Races, and they should gain more attention this year because of an increase in prize money, air-minded citizens and thrill seekers will undoubtedly be interested in the movie

stars' derby, an event sponsored by Ruth Chatterton, and carrying with it a purse of \$1,000. Tentative entries include the following movie stars: Wallace Beery, Paul Lukas, Norman Kerry, Ken Maynard and Hoot Gibson. Amelia Earhart Putnam, who is giving the Earhart trophy to the winner of the women's race, probably will fly as pathfinder for the Hollywood derbyists. This race is over the same course as the Bendix, from Los Angeles to Cleveland, and will bring the flyers into Cleveland the opening day of the races.

**Women on Program**  
 The "powder puff" entrants on the racing program, returning after "being discriminated against", as they put it, by Henderson last year, are all set to lend that added color to the event. Among the women flyers who will appear here and in the women's derby are Mrs. Phoebe Onille, Blanche Noyes, Laura Ingalls, Mae Haislip, Jean La Rene, Betty Lund, Louise Thaden, Ruth Elder, Mrs. Peter J. Brooks, Florence Barnes and Margaret Cooper. The greatest field of long-distance airplanes in the history of world aviation will be lined up on the

morning of Aug. 30 for the start of the Bendix race. The long-distance event will carry with it \$12,500 in prizes, with Col. Roscoe Turner, 1933 winner, again among the entries. Among the daring pilots entered in this race are Ben O. Howard, Keith Rider, Vance Greese, Johnnie Worthen and Lee Wallace. Last year's winner, Doug Davis, was killed in a crack-up of his ship while leading the pack in the Thompson race.

**Increase Thompson Distance**  
 For the speediest event on the program, however, the Thompson trophy race is the peer. All the fastest ships in the country will be competing in this race, with "headline" pilots at the controls. The race has been increased to 150 miles from the 100-mile former distance, and the prize money boosted from \$10,000 to \$15,000. To lend an international tint to the program, several foreign aviators will come here for the races. Among them are Maurice Rossi and Raimond Delmotte of France. Rossi is co-holder of the world's long-distance flight record, and Delmotte is present holder of the world's speed mark for land planes.

later than Thursday, August 13, if possible. Holloway's resignation does not take effect until August 31, but the new superintendent was asked to be in Ranger early in order that he might have time to familiarize himself with the school system and so he could meet with the board at the regular meeting of August 13.

The new superintendent has secured his B. A. and Master's degrees from Yale University and has done considerable work toward his Ph. D., it was stated today by members of the board. Before attending Yale he graduated from Simmons University at Abilene and was a teacher in Simmons for four years.

For the past four years he has

been superintendent at Kirkland, Childress county, where he established quite a reputation, both as an educator and as a superintendent.

The farmers of Kimberly starved while their children played with diamonds. But what a difference it made after it was advertised.

**Scout Jamboree at Washington Cancelled**

WASHINGTON, Aug. 9, (AP)—Cancellation of the National Boy Scout jamboree planned here August 21 was announced by President Roosevelt Thursday because of the prevalence of infantile paralysis in this section. The president acted after a conference late in the day with Hugh S. Cummings, surgeon general of the public health service; Commissioner George Allen of the District of Columbia, and Dr. James West, chief scout executive.

A White House statement said the number of infantile paralysis cases "was not considered to be unduly alarming" but it was decided "it would be to the best interests of the scouts and all concerned to cancel the jamboree." Mr. Roosevelt agreed to address the boy scouts and their leaders

**Mrs. Medford Buried at Moran Wednesday**

MORAN, Aug. 9.—Funeral services were held here Wednesday for Mrs. R. L. Medford, 75, who died Tuesday after an illness of two weeks. Death was attributed to heart trouble. Her husband died September 15, 1934.

The couple had been residents of Moran since 1901. Six children survive.

Ben Metcalf will leave Saturday for Toronto, Canada, where he will visit his brother.

Mrs. O. T. Word, Mrs. Mark Nasworthy and Mrs. A. Morgan of San Angelo visited friends here Thursday.

FOURTH WIFE SUES ASBESTOS HEIR

Again the ship of matrimony has floundered for Thomas Manville, Jr., shown here with his fourth wife, the former Marcelle Edwards, Follies beauty. In a separation suit she charged the society playboy and asbestos heir used "wicked language" and had a violent temper. (Associated Press Photo)

COLORADO STILL MAKES 'MONEY'

Colorado started "splitting pennies" through the manufacture of tiny tokens for use in payment of state sales tax on small purchases. Charles W. Armstrong, state treasurer, shown here with Maizie Tracy, office employe, and some of the coins, has ordered production continued, although Secretary Morgenthau of the federal treasury declared them illegal. (Associated Press Photo)

AMELIA EARHART BEFORE SENATE COMMITTEE

Amelia Earhart Putnam, noted woman aviator, shown as she appeared before the senate interstate commerce committee to give her views on further federal regulation of aviation. At left is Senator McCarran (D-Nev); center, Senator Donahey (D-Ohio). (Associated Press Photo)

Says She Was Jilted

Miss Minnie Bahr, 29, filed a breach of promise suit against Joe Vosmik, Cleveland Indian outfielder and slugger, at Cleveland. She alleged Joe failed to keep his promise to marry her in 1928. (Associated Press Photo)

Congress Trails Him

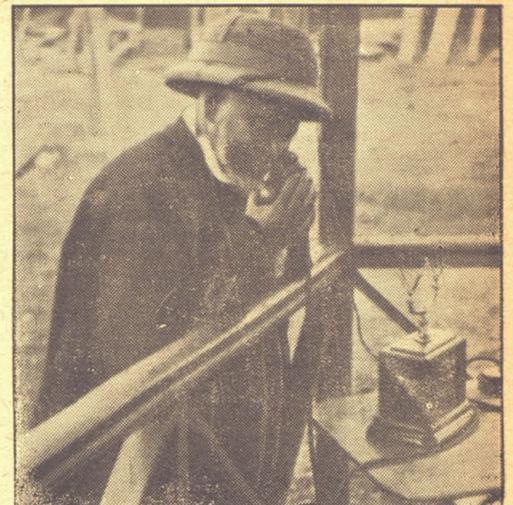

H. C. Hopson (above) was the elusive dominant figure of the Associated Gas and Electric system, for whom the house rules committee issued a subpoena. He has been sought for some time by the senate lobby committee for questioning concerning his activities against the utility bill. (Associated Press Photo)

Woman Demonstrator

When about 1,000 relief workers gathered at the courthouse in Kansas City, Kas., to protest against reductions in relief funds, the woman above cheered the demonstration. (Associated Press Photo)

HEADS ETHIOPIA'S RED CROSS

Foreign Minister Betelaten Gueta Heroy of war-clouded Ethiopia was named president of the country's new Red Cross organization by Emperor Haile Selassie. He is shown using an open-air telephone installed in the yard of his home. (Associated Press Photo)

Hanley Escapes

Joe Hanley, former Sioux City, Ia., convict (above), lived up to his desperado's reputation when he slugged a jailer and escaped. He had been captured in Texas and returned to Iowa for trial on a federal kidnaping charge. (Associated Press Photo)

Finds Wife Dead

Robert James, 38 (above), beauty shop owner, returned to his La Crescenta, Calif., home from Los Angeles to find his 27-year-old wife, Mary, dead in a shallow fishpond. (Associated Press Photo)

EX-CONVICT KILLS THREE, SELF

Following domestic troubles, Ralph James, who had served time for robbery in Kansas prison, shot and killed his parents-in-law, Mr. and Mrs. W. O. Gould, in their restaurant in Beloit, Kas., and critically wounded his wife. The bullet which pierced her body fatally wounded the son in her arms, Bobby, 2. James committed suicide. He is shown with his wife in a recent picture. Inset, the son. (Associated Press Photos)

SHERIFF BARS GOVERNOR'S TROOPS

When national guardsmen were sent to Harlan, Kentucky, where elections sometimes are more than "hot," Sheriff Theodore Middleton wasn't pleased. This picture shows one of the troopers following the first ballot box to the courtroom for a count, but a few steps farther and his progress was blocked. (Associated Press Photo)

# AMPLE CREDIT UPON COTTON CROP PLEDGED

WASHINGTON, D. C., Aug. 9. (AP) — Cotton prices tumbled Thursday after an administration prediction of an 11,798,000-bale crop. The forecast was several hundred thousand bales above Bankhead allotments and above what was generally anticipated, but Sec'y Wallace simultaneously issued a statement in which he said that there was no cause for alarm and that "ample credit facilities" would be made available to farmers. He told the trade, in a formal statement, that cotton prices would be maintained.

**Last Year's Crop**  
Thursday's estimate compares with a crop of 9,636,000 bales last year.

Wallace's statement said if world consumption was maintained at present levels, foreign and domestic mills could be expected to require considerably more than 11,000,000 bales of American cotton.

"The administration," said Wallace, "sees no cause for anxiety in the present crop estimate. There are ample resources available to carry the present stocks financed by the government for an indefinite period."

He added that if, when the new crop begins to move in volume, there appears to be a tendency for prices to be depressed, the administration will not hesitate to offer "ample loans" that would immediately absorb supplies.

**Bankhead Allotment**  
The Bankhead allotment for 1935 was 10,983,264 bales.

Condition of the crop August 1, was placed at 73.6 per cent of normal.

Yield per acre was placed at 198.3 pounds per acre, compared with 170.9 pounds last year and a 1924-33 average of 177.1 pounds.

The census bureau simultaneously reported that ginnings of 1935 cotton to August 1, were 94,241 running bales, compared with 99,536 bales to August 1, last year.

On the basis of the estimated production, it appeared the total
