## IS THIS THE PERFECT CRIME?

### Army Plane Will Be Shipped to Kelly Field This Afternoon; Two Planes To Arrive Today To Take Officers Back

### JAIL BIRDS GET AWAY, ROB AND SLAY, AT LARGE

SACRAMENTO, April 22.—Under orders to shoot to kill, seventy-five police today are searching for Joe Tanko and Floyd Hall, murderers, who escaped San Quentin prison yesterday, and shot and perhaps fatally wounded a policeman, and are still at large after robbing persons of several thousand dollars since their escape.

### TO RESCUE THE BODIES OF THE SUNKEN STEAMER

HALIFAX, April 22.—The owners of the Japanese freighter, Kaitoku Maru, which was sunk with all on board yesterday, today chartered a steamship here to travel in circles near the scene of the wreck and take aboard any bodies found to be sent to Japan. The ship sank with all on board, while helpless liners and tugs stood by and watched.

### RANGER ICE CO. TO SINK WELL TO GET WATER

RANGER, April 22.—Gus Coleman, manager of the Southern Ice & Utilities company, Ranger, announced today that work would be started within a few days on a water well that will be located near the ice plant. "We intend to have our own water and to be independent of any city supply," said Mr. Coleman.

Once before an effort was made to obtain a water well, but after going down about 300 feet only a slight flow was obtained and the well was abandoned. But Mr. Coleman has obtained the services of a "water witch" who is known to have been very successful in his water well locations, and has had two points staked out where water may be found at a depth of 50 to 100 feet in probable large quantity. If the first well proves a success he will likely drill a second, he said.

### DAYLIGHT SAVING TIME STARTS SUNDAY

CHICAGO, April 22.—Effective next Sunday, daylight saving time will supplant central standard time in Chicago until Sept. 27.

### Aids Mellon

LINCOLN C. ANDREWS

President Coolidge has appointed Brigadier-General Lincoln C. Andrews, U. S. A., (retired), of Elmhurst, Long Island, N. Y., to be Assistant Secretary of the Treasury, succeeding Elliot Wadsworth, resigned. General Andrews, after retiring, was Chief Executive of the New York State Transit Commission.

Following the accident which disabled their plane when, pilotless, it crashed against the residence of R. S. Glenn yesterday, Lieut. L. C. Craigie has been the guest of Lieut. Barlow Winston, who is enjoying a furlough with his mother, Mrs. J. J. Winston, in Cisco. This morning Lieut. Craigie stated that he had communicated with the authorities at Kelly Field, San Antonio, and a couple of army planes were expected to reach here this afternoon, and convey himself and Sergt. Ben Dorey back to Kelly field. He stated they would depart soon after the arrival of the army planes here.

The disabled plane will be shipped by rail back to Kelly Field where it will be repaired, according to Lieut. Craigie. The damage to the plane is estimated at about \$2,000. The original cost of the plane was around \$12,000. Lieut. Craigie stated that the accident was occasioned by the plane being slow to take the air when they left the landing field here Tuesday afternoon, and sailing low the plane encountered a mesquite tree, whose branches became entangled in the propeller, putting it out of commission. He and Sergt. Dorey jumped from the plane before the crash when they were unable to steer it, and the wreck came when it crashed against the Glenn home. No one was in the plane when it was wrecked.

After learning of the wreck, Lieutenant Winston looked up Lieutenant Craigie, and offered any assistance needed in his predicament.

### REPORTS MADE OF BROWNWOOD MEET BY LIONS

The program at Lions luncheon was largely given over today to the report of the Brownwood convention by those who attended. Chairman Phil Keelan made the suggestion that reports be made by those attending in order that those who could not attend be informed as to the doings of that body. Very interesting and instructive talks were made by Lions A. D. Anderson, Chas. Yates, C. A. Whitfield, Guy Dabney, W. K. Johnston, W. R. Cabanac, Dr. Chas. Hale, J. T. Elliott and Robt. Holloway.

President B. W. Patterson read the list of committees appointed by the chair for the remainder of the year. It was suggested that those who were absent at today's luncheon find out from the secretary just where and how they are to function on these committees.

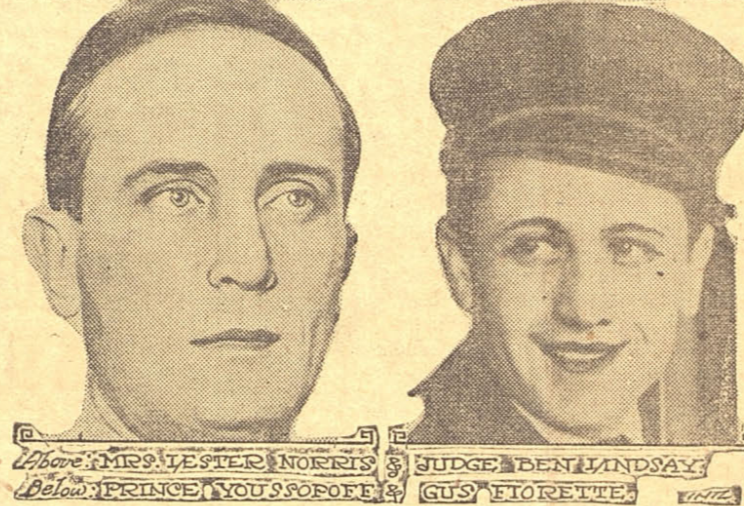

### M. E. WOMEN ASK GOVERNOR HALT PARDONS

MEMPHIS, Texas, April 22.—The fifteenth annual session of the Women's Home Missionary society, Northwest Texas Methodist Conference, closed here Tuesday. Lubbock was selected for the 1926 conference and the following officers elected: Mrs. Nat G. Rollins, president, Abilene; Mrs. S. W. Haynie, vice-president, Abilene; Mrs. G. B. Senter, corresponding secretary; Mrs. J. Frank Potts, recording secretary; Mrs. S. P. Crossley, treasurer.

The following telegram was dispatched by the conference to Governor Ferguson:

"Whereas, our governor is pardoning the criminals of the state at the rate of four a day, and whereas, we women of the social service committee feel that these law-breakers constitute a menace to our citizenship, thereby making the effects of our laws null and void, we, the women of Northwest Texas Conference, protest against this abuse of the pardoning power, and as law-abiding citizens request that guilty persons suffer the penalty meted out to them by a judge and jury."

### Chief Figures in News of the Day

Mrs. Lester Norris, Judge Ben Lindsey, Prince Youssouff, Gus Florette

A son, probably potentially one of the richest men in the world, has been born in St. Charles, Ill., to Mrs. Dellora Angell Norris, wife of Lester Norris, a commercial artist. Mrs. Norris inherited the \$38,000,000 fortune of her late uncle, "Bat a Million" John W. Gates. Judge Ben B. Lindsey, of Denver's Juvenile Court, had a lead of twenty-six in the completed report in connection with ouster proceedings brought by Royal R. Graham, who previously had been declared defeated by the Election Commission. Prince Youssouff, Russian nobleman and one of the slayers of the mystic monk, Rasputin, suing Joseph E. Widener in New York courts for the return of famous Rembrandt paintings, was charged by Widener's lawyers with attempting to regain the pictures to sell them at a higher figure. When a baby was born in his family, Gus Florette, former dancing teacher in New Haven, Conn., but then employed as elevator boy in the New York Stock Exchange, couldn't pay all his bills and his wage was attached. The story reached the ears of Henry Rogers Winthrop, millionaire broker, who sent him to Rosina Galli, ballet mistress of the Metropolitan Opera Company, who declared he would be a solo star dancer within a year.

### Terry York, Victim of Auto Smash Last Night Near Tolar, Nephew of Mrs. A. S. Nabors; Litchford Killed

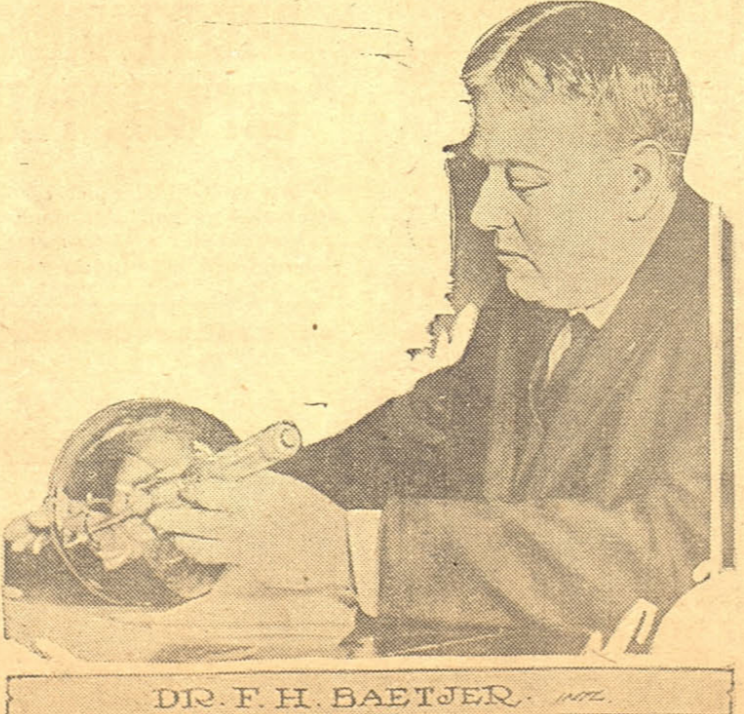

One of the victims of a fatal accident reported from De Leon is a nephew of Mrs. A. S. Nabors, Terry York, who with W. L. Litchford was killed when their car went over the dump near Tolar, while the party were en route to Glenside from De Leon Tuesday night. News of the fatal tragedy was phoned to Mrs. Nabors here today. Johnnie Stone and a man named Short were also injured, the former seriously, and the latter slightly, according to the information reaching the Daily News.

Litchford and Terry York were killed outright when the accident occurred. Litchford was manager of the Independent Torpedo Co., with headquarters at De Leon. Terry York is a son of a cafe proprietor in that city. The party were going to Glenside in one of the trucks of the Independent Torpedo Co. when it turned over near the town of Tolar, in Hood county.

### WHO'LL HAVE THE NERVE TO START THIS IN CISCO?

HOLLYWOOD, April 22.—Curled hair for men is the latest mode in Hollywood. Scores of motion picture actors and their admirers among men are having their locks curled, reports from hair dressing parlors and barber shops show today. Several barber shops have installed special electric curlers designed for use on men's heads.

### X-Ray Wizard Loses Eighth Finger

DR. F. H. BAETJER

Dr. Frederick Baetjer, roentologist at Johns Hopkins Hospital and Medical School, at Baltimore, Md., and one of the world's chief authorities on the X-Ray, has undergone his seventy-first operation and lost his eighth finger as his sacrifice to the cause of science. The ray-cured finger was amputated by Drs. Follis and Davis. Left with but the thumb and first finger of one hand, and only one eye as a result of accidents met with during his experiments, Dr. Baetjer, undaunted by his sufferings, is continuing his work.

### DRY AGENTS AND POLICE ARE CAUGHT

CINCINNATI, April 22.—The final scene in the Federal investigations of official graft in Cincinnati is expected to be enacted here today. Fifty-nine policemen and dry agents having pleaded guilty on charges of bootlegging and bribery are to appear in court to receive their sentences. This will be the largest group of law enforcement officials ever to appear in an American court at one time for similar purpose. Federal Judge Hickenloper has promised leniency to those who placed their fate in his hands by pleading guilty and relatively light sentences are anticipated. The three who were convicted drew fines of from \$1,000 to \$2,000 and terms in Atlanta federal prison of from one year to eighteen months.

### More Charges Loom

DENVER, Colo., April 22.—Additional charges against Denver's "police graft ring" will be filed within the next few days. City Attorney Henry E. May declared after a conference with Mayor Benjamin F. Stapleton. New evidence has been found, May said, which will be made public in the form of additional charges against fourteen policemen now under suspension. This evidence, he indicated, would be used in ordering Chief of Police William J. Candlish to suspend six or eight more patrolmen. May refused to discuss the nature of the evidence pending further examination of several witnesses in custody as the result of Mayor Stapleton's personally conducted vice squads. Information already filed against the fourteen patrolmen charging them with accepting bribes in return for non-interference in the activities of Denver's underworld. Affidavits in his possession will show that \$5,000 weekly was paid these men, May said.

### LOBOES DEFEAT HAMLIN BY 6-3 SCORE TUESDAY

The Cisco Loboes advanced another step in their march toward the West Texas baseball title by defeating Hamlin 6-3 at Hamlin yesterday. Rufus Petty pitched the entire nine innings and turned in an excellent game. The team fielding an excellent game and played air

### Finding of Dismembered Torso Of Girl Believed to be Another Plot of the Slayers of Bobbie Franks

CHICAGO, April 22.—The possibility that the finding of a headless and limbless torso of a young woman on the golf links here today may have revealed the "perfect crime" of Nathan Leopold and Richard Loeb loomed as the police sought to identify the torso. The state's attorney's office pointed out that the slayers of Bobbie Franks were still at liberty when this woman was killed, and that the body was concealed in a manner similar to that in which Franks' body was hidden. Also during the trial Leopold confessed he and Dickie Loeb had at first planned to kidnap a woman. Phases of Leopold's confession dealing with the "perfect crime" were reviewed with this case.

CHICAGO, April 22.—A pair of champagne colored hose is the only clue to the mystery of a girl's torso with arms, legs and head hacked off, which was found in a pool of water on Budlong golf course here. The body had been in the water nine months and all the vital organs had been removed. Police declared there is little hope of tracing the murderers unless the missing members are found.

### ALL ENDORSE RURAL SCHOOL C. OF C. MEETS

Tomorrow night the high school, American legion and business men of Cisco will drive to Wayland, where the next legion-high school program will be staged at the Wayland school. In speaking of these entertainments which are jointly fostered by the local post of the American legion, the high school and the chamber of commerce, Phil Keelan said that the merchants of Cisco were not supporting these meetings in a manner in which they deserve. "As it appears to me," Keelan said, "I know of nothing that will be so good a boost to Cisco business as these rural school meetings. They bring the Cisco merchant in direct contact with the rural folk, and these are the people we wish to attract to Cisco." Dr. Scott said: "While it is rare that I can get away to attend these meetings at the rural schools of the county on account of professional engagements, there is nothing that will prove such a great asset to Cisco as these meetings if representative people will go out with the legion men and the high school students. You get acquainted with people you want to know, and they become your patrons." Secretary Richardson of the chamber of commerce approves of the plan by saying: "I hope many of the directors of the chamber of commerce will go to Wayland tomorrow night. Mr. E. H. Whitehead, of the extension department, can always be depended upon to be there, but the directors would get a better slant on the importance of these meetings if more of them would attend. At least four or five of the representative merchants should attend each of these meetings and I hope there will be a nice delegation to get out tomorrow night."

All endorse the proposition but if the business men do not attend their little good will come of the meetings. An interesting program has been arranged for the Wayland meeting.

WASHINGTON, April 22.—The United States navy dirigible, Los Angeles, arrived over Bermuda at 2:10 this morning, after a flight of eleven hours and thirty-two minutes. The big air ship encountered the stiff headwinds of the Atlantic ocean which held down its flying time considerably. The airship waited till daylight before mooring to its tender, the Patoka.

### MENACE TO PAINLEVE MINISTRY FORECASTED

PARIS, April 22.—Opposition to the ministry of Paul Painleve was manifested today in the French chamber of deputies when a block of members refused to participate in the vote of the election of former Premier Edouard Herriot as president of the chamber. A second ballot was made necessary. Discord in the law making body is feared as a result.

### DEDUCT MOTOR FUEL

WASHINGTON, April 22.—Users of motor vehicle fuel upon which state taxes are levied may deduct these taxes in their federal income returns provided the vehicle is employed for business purposes.

### MRS. FERGUSON WILL AID GOOD ROAD BUILDING

HOUSTON, April 22.—Strong endorsement personally and officially to construction of good roads was given by Gov. Miriam A. Ferguson of Texas before the joint convention of the United States Good Roads association and the Bankhead Highway association. Her remarks were made in welcoming the delegates to the Lone Star state.

In part she said: "As governor of the largest state in the union and in the name of the people of Texas, I extend to you a most cordial greeting upon this occasion. It is indeed a great honor which you have bestowed upon all Texas in bringing your annual convention to the historic city of Houston."

"The building of roads is perhaps the most important function of government, second only to the cause of popular education. With this noble purpose in mind, we Texans are deeply grateful that you have selected our state as a suitable place to consecrate your services to the high purpose of increased road construction."

"The name of Macadam, founder of hard surface roads, will live with the name of Washington. What one did for his country in war the other did in peace. Washington laid the foundation for a great American civilization. Macadam, who conceived the idea of a hard-surfaced road, did that which is necessary to develop a civilization of education and learning."

"The people of Texas welcome the co-operation of her sister states to the achievement of some plan that will bring us closer together by means of pleasant and convenient transportation. To the policy of connected highways we pledge our faith and co-operation."

### LOS ANGELES ARRIVES OVER BERMUDA 2:10

WASHINGTON, April 22.—The United States navy dirigible, Los Angeles, arrived over Bermuda at 2:10 this morning, after a flight of eleven hours and thirty-two minutes. The big air ship encountered the stiff headwinds of the Atlantic ocean which held down its flying time considerably. The airship waited till daylight before mooring to its tender, the Patoka.

### Stops Plane

M. FOKKER

M. Fokker, famous Dutch wireless inventor, has perfected an airplane, which he has exhibited in England, which will not go into a nose dive when the engine stalls, but which gradually and slowly settles to earth without the controls being touched by the pilot.

### R. M. A. BANQUET AT EASTLAND

B. B. Longacre, secretary of the Cisco Retail Merchants association, and Joe Owens, salesman for the Blease Motor company, were in attendance at the retail merchants association banquet held at Eastland Tuesday night. Longacre stated that there were a goodly number present, the eats were par excellence, and the feast of reason that flowed from the lips of the speakers was an inspiration to all. The principal speaker was C. C. Lewis of Waco. Delegates from the oil belt to attend the state convention which convenes in Austin May 25 to 27 will be named. The banquet was held in the Elks club.

THE RIGHT TO IMMIGRATE

Is this an inherent human right which governments some day will have to recognize? Or have nations the right to say who shall not come within their territories and be given citizenship?

This seems to be a question which is destined to receive world-wide attention before long. Old World countries which greatly need an outlet for their surplus population are becoming more and more interested in restricted immigration.

On the other hand, this country holds that it has the right to regulate immigration as it sees fit. A proposed American international code recently made public by the Pan-American Union, compiled by an international commission of jurists, carries this suggestion: "Every republic may determine, taking into consideration its local conditions, what persons or class of persons it shall permit to enter its territory and to whom it may eventually and at its discretion concede nationality."

Canada, which already regulates its immigration with apparently greater success than the United States, believes that this suggestion should be endorsed emphatically by all the American countries. Nearly all Americans except the newest arrivals take the same view.

A bill has been introduced in the British parliament to restore to travelers the right to buy drinks during prohibition hours. Has the time come when the British government has to encourage Englishmen to travel?

LOOKING TO THE FUTURE

The new charter of the Nickel Plate, providing for the latest big railroad consolidation, is certainly a broad and inclusive modern document.

It provides for a railroad operated by "steam, electricity, gas, gasoline or other motive power," for the use of steamships and other water craft, of "wagons, automobiles, tractors, trucks and other vehicles, airplanes, hydroplanes and other aircraft," and for the acquisition of "aviation fields and landing places, both on land and water," to say nothing of "office buildings," restaurants and hotels.

No other railroad company ever thought of lining up legal rights to any such assortment of transportation methods and accessories. If there is any mechanical means of transporting goods and passengers not included by the Van Sweringen Brothers in their plan for the new merger, except possibly submarines, it is not easily discoverable.

The aerial provisions may arouse the most interest. Motor busses on land are now being adopted as auxiliaries and feeders to railroads. How long will it be until every up-to-date railroad will have its air feeders?

GLASS WORKERS' BANK

Another labor union goes into the banking business. This time it is the American Flint Glass Workers' Union. It is going to open its own bank immediately in Toledo, Ohio, where its national headquarters are situated.

The organization is well equipped for this step, at least as far as funds are concerned. On April 1 it had \$694,000 in its treasury, mostly deposited in Toledo banks, and it is said to be the richest union per capita in the world.

It is a natural development for a union that has lots of money on deposit in a bank operated by "capitalists," to go ahead and open a bank of its own to hold the money. And then, having given its own patronage to its own bank, it is natural to reach out and invite deposits from other sources.

THE WORST GAS YET

Rumor says the Russian Soviet government has a gas invisible and odorless, penetrating the pores of the skin, destroying the cells and paralyzing the nervous system and the heart. This pleasant gas can be scattered by bombs from airplanes; it remains active for a long time and may be spread by the wind a long distance.

It seems as if the last word in poison gasses had been perfected long since, but now it appears likely that the cheery custom of keeping government scientists at work in this realm of research will continue in all lands. The announcement of the discovery of such a horror in one country inspires other countries to do just a little better—or worse—and the idiotic rivalry goes on.

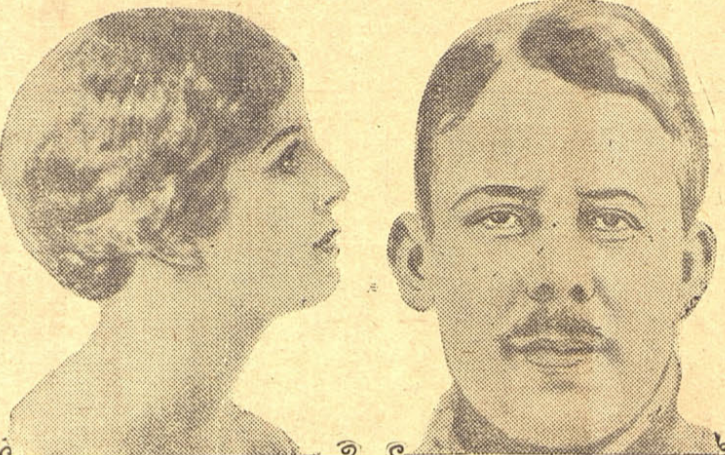

Among notable financial triumphs of this generation is that of the New York man who borrowed \$100 and then, by pyramiding, ran his indebtedness up to \$2,000,000.

Men and Women in News Spotlight

Miss Lucille Atcherson, of Columbus, O., the first woman to qualify as a member of the Foreign Service of the State Department, has been appointed Third Secretary of the Legation at Bern, Switzerland.

J. S. Sargent, world-famous American painter, died in his sleep at his home in London. Miss Ellen Mackay, daughter of Clarence H. Mackay, multi-millionaire New Yorker, died, on her return from a tour of Europe, that she was to marry Irving Berlin, song writer.

Ellen Mackay and Fritz Haarmann.

Fritz Haarmann, Hanover, Germany, butcher, who murdered at least 26 men and boys and sold their flesh, has been beheaded for his crimes.

DINNER STORIES

Last summer a suburban church asked a church bureau to send a supply for a certain Sunday. The following Monday the clerk of session called to tell how much the congregation enjoyed the preacher of the day.

"That was a fine man you sent," said he: "The people all sat up and took notice. His gestures were great; he swung his arms and certainly sent it home. Can't you get him again for next Sunday?"

The minister was called on the phone and told that the congregation were so well pleased with him that they would like to have him return the following Sunday.

"Well, I'd like to," said he, "but I think I'll have to refuse. I liked the people and enjoyed the service, but there was one thing that did not appeal to me: There were too many mosquitoes."

A man looking cockney entered a canine emporium in London and approached the dealer.

"Hi wants a dog about so 'igh an' so long," he began.

"What kind?" queried the dog dealer.

"Hit's a kind of grey'ound," responded the cockney.

"Quite so."

"An' yet it ain't a grey'ound," continued the customer, "becos' its style is shorter nor any o' these 'ere grey'ounds."

"I see, continue."

"An 'is nose is shorter."

"Well?" queried the dealer.

"An 'e ain't so slim about the body."

The dealer by this time had turned away.

"But still, 'e's a kind of grey'ound," continued the cockney. "Do you keep sick dogs?"

"No, we don't" came back the short reply, "we drowns em."

FOUR-YEAR-OLD BULL SELLS FOR \$110,000

LOS ANGELES, Calif., April 22.—Prince Aogge of Beryl Wood, a 4-year-old pedigreed Holstein-Friesian bull, whose seven nearest dams are reputed to hold a world's record for butter fat production, has changed hands for a price of \$110,000, a new record for such a transaction.

HUGE BOOK IS BUILT FOR SOUTHERN FAIR

BALTIMORE, April 22.—A book claimed to be the largest in the world, is being built for exhibition purposes for the Southern Exposition to be held in New York May 11 to 23. The book, entitled "The Story of the South in the Building of the Republic," was written by Matthew Page Andrews, historian. It will weigh more than 500 pounds and leaves will be turned by electricity.

INFANT MORTALITY IS HIGHER IN TURKEY

CONSTANTINOPLE, April 22.—The shortage of medical practitioners in Turkey was mentioned in the assembly, when the credit of \$225,000 for the health department was complained of as inadequate. It was stated that there were still no doctors in ninety-seven cazas. Four diseases were ravaging the national health—trachoma, tuberculosis, syphilis and malaria. Infant mortality was at the rate of 70 per cent. The house, while agreeing that the fight against these diseases was essential for the conservation of the race, found it impossible to augment the credits owing to increased calls on the budget, including ten million Turkish pounds for dealing with the Kurdish revolt.

INDIANS' FUNDS PUT INTO LIBERTY BONDS

WASHINGTON, April 22.—Funds of individual Indians of the five civilized tribes of Oklahoma under guardianship of the government, amounting to \$1,000,000, were invested today in Liberty bonds by Secretary of the Interior Work. The bonds will be held in trust by the government for the individual Indians. Secretary Work also bought \$14,000 of third liberty loan bonds for Jack Barnett, wealthy Creek Indian, now under government guardianship.

Kodak Head

W. G. Stuber, of the Eastman Kodak Company, of Rochester, N. Y., has succeeded George Eastman, millionaire head of the concern, as president and general manager. Eastman is seventy-one years old and is gradually retiring from active management. He will be company chairman of the board of directors of the company.

TRUCK SHIPMENTS FOR TEXAS LIGHT

AUSTIN, April 22.—In anticipation of the holiday, vegetable shipments yesterday were light, consisting of but 42 cars onions for 1 from New York state, 6 of 468 potatoes, and 14 of 27 string beans; 2 of 101 mixed vegetables. The trend of shipping point markets appeared easier. Usual terms Texas Bliss Triumph potatoes brought \$2.75 to \$3 cwt., car loads at Brownsville, and string beans mostly \$1.25. Onions firm, light movement. Cash cars \$1 yellows.

COOLIDGE WILL LAY HEBREW HOME STONE

WASHINGTON, April 22.—President Coolidge today accepted an invitation to deliver an address at the ceremonies here May 3 in connection with the laying of a corner stone for the new Jewish community center building.

Frank B. Streeter

Texas Field Secretary for the American Legion Endowment Fund for disabled men and the orphans of veterans.

With the start of organization for the American legion endowment fund in Texas, Frank B. Streeter has been named the field secretary for the campaign and will visit as many of the larger communities in the state as possible to aid the committees of public spirited citizens and legion workers in systematizing the detailed work of the endowment raising.

The endowment raising effort is in the hands of a state committee composed jointly of prominent citizens and legion leaders, and corresponding city committees are being organized in each community. The field secretary will handle the details of the state committee work and advise with and assist the local workers with a view to so co-ordinating the many committees that the whole state may go "over the top" as a unit with its quota of the national fund for the care of disabled men and orphans of those who fell in the world war.

QUOTA OF LOCAL POST AMERICAN LEGION IS \$1,400

John William Butts post, American legion, has been allotted \$1,400 as its quota to be raised in the big \$5,000,000 drive for the endowment of the world war orphans home. It is reported that Brownwood's and Breckenridge's quotas were \$200 less, while Brownwood and Breckenridge posts are much larger posts than that of Cisco. The local post has not been sailing on placid seas since it was organized, and just why its quota should be larger than some others that are stronger is not apparent. But there is nothing impossible with the legion men. The local post is being rejuvenated, and if they undertake to raise this quota, it will be put over.

WINTERS LOSES FIGHT AGAINST JITNEY BUSES

WINTERS, April 22.—A temporary injunction granted several months ago by District Judge J. O. Woodward in which the city of Winters was restrained from enforcing an ordinance against the operation of service car lines through the city was made permanent at Ballinger Monday by Judge Woodward.

The ordinance passed by the city of Winters, according to attorneys for the service car lines, required that the city council should pass on the public expediency and necessity of operating service cars through Winters. Service cars were declared a public nuisance and under the ordinance were not allowed to stop and take on or discharge passengers when passing through Winters. The Winters counsel gave notice of appeal to the court of civil appeals.

lected president of the West Texas Golf association at the annual meeting here, held after the first day's rounds of the first annual tournament of the association. Other officers are: Vice president, F. H. Weaver, Eastland; secretary-treasurer, C. H. Fulwiler, Breckenridge; executive committee, Theodore Ferguson, Eastland; Allan Guinn, Mineral Wells; Dwight L. Hunter, San Angelo, and Roy Morgan, Abilene.

A fifth flight was added when match play began today. There were 107 entries Monday representing fifteen of the twenty clubs in the association. Seventy-five players were visitors. Eighty remained in the tournament. Those failing to qualify the first day entered the consolation matches.

San Angelo won the team match and Lubbock, represented by E. T. Daniels and Herbert Stubb, won the club pairs.

PROF. NORMAN ELECTED COLORADO SCHOOL HEAD

COLORADO, April 22.—R. B. Norman, superintendent of the Pecos schools during the past four years, has been elected superintendent of the Colorado schools and will move his family to Colorado during the coming summer. Norman is to succeed E. Frank King, superintendent during the past eight years.

GUY SCHULTZ, BULLDOGGING

Guy Schultz is one of the Rodeo Riders who will appear in the big Rodeo here during the Firemen's Convention.

Cisco is to see a rodeo second to none when the mammoth rodeo is staged here May 12-14 during the state firemen's convention. Elmer Jones and Claude Cowden, noted rodeo men, who are to stage the big show were here yesterday and today making final arrangements, and while here outlined a program that elated all lovers of the rodeo art. The most famous riders, ropers and bulldoggers of the world, including world champions in every event, will be here to compete for the three thousand dollars in prize money offered. Mike Hastings, perhaps the most famous cowpuncher the world has ever known, will be here with his famous horse, "Stranger," and with him will come his wife, known as Fox Hastings, the only woman steer bulldogger in the world. Red Sublette, the famous rodeo clown, who made thousands laugh during the Fort Worth rodeo, will be here, and he has a number of new stunts guaranteed to bring laughter from a wooden Indian. Bryan Roach, famous arena master, who was arena master at Fort Worth and who was also arena master at the great Wimberly rodeo, will be in charge of the arena and will direct all contests. The fact that Roach is to be in charge is a guarantee that the contest will be on the square with both horse, steer and rider having a fair chance. Paddy Ryan, who won the world championship at Brooklyn, N. Y., the southwestern championship for two years at Fort Worth, and has been a star performer at all the great national attractions, including the Cheyenne, Iowa Park and Tulsa rodeos, will be here and will demonstrate his skill and compete for the prizes. "Curley" Seale and her sister, "Bill," famous cow girls of Baird, concerning whom the Dallas News carried a full page illustrated story last Sunday, will be here and will ride wild steers in the contest for lady riders. Other lady riders from several states will be in attendance to compete for the honors and cash prizes. In recognition of the fact that Cisco is surrounded by great ranches on which are many able riders who have never entered the big rodeo contests for the big money, the promoters have arranged a contest for amateur riders and invite local talent to enter. Jones and Cowden are the men who are staging the big rodeo at Mineral Wells to be held in connection with the big convention of the West Texas Chamber of Commerce. They are big men in the rodeo game. They are in touch with

the leading rodeo performers of the world. The high school football park will be used to stage the rodeo. Every precaution will be taken for the protection and comfort of the crowds. The park will be lighted and night performances will be held. This attraction will prove one of the biggest features of the entire year.

MEDICAL MEN OF MID-WEST TEX. CONVENE

ABILENE, April 22.—With a large attendance for the Mid-West Texas district medical association convention opened here at 9 o'clock Monday morning and scientific session was begun by Dr. Charles H. Harris of Fort Worth, who substituted for Dr. Frank S. Schoonover, who was unable to be present. The doctors who are in Abilene for the district meet represent all parts of West Texas, and although only fifty-one had registered Tuesday morning, it was thought many more would be here for the session. Headquarters for the medical meet were at the Carnegie library Tuesday, but the meeting is being held in the First Baptist church today. After the scientific session Tuesday morning at the library, the medical men were the guests of the West Texas Baptist sanitarium at noon, when they were served lunch and inspected the new sanitarium. The Ladies Auxiliary of the Taylor County medical association had their executive meeting at 3 o'clock at the Y. W. C. A. building.

EASTLAND CO. MEDICS MEET IN EASTLAND

The Eastland County Medical society convened in the American league athletic club in Eastland Tuesday with about fifty physicians of the county in attendance, and a most profitable session was had. Dr. M. L. Stubbfield of Gorman presided, and Dr. E. L. Graham of Cisco, officiated for the first time since his election as secretary. The next meeting of

Chief Figures in News of the Day

Joseph Callaux, former Premier of France, who was charged with treason at the end of the world war and banished from Paris for five years, created a storm when he told friends he would enter the new Painleve Cabinet as Minister of Finance. His wife, Mme. Callaux, was acquitted in 1914 of murder after shooting to death Gaston Calmette, editor of the Paris Figaro. Mayor Theodore F. Odell of Nyack, N. Y., is pictured here in the garb he wore as a woman in a charity play given there. He was arrested for impersonating a woman when he appeared on the streets of the city in the wedding gown. Earl Sande, the world's greatest jockey, recovered from an almost fatal accident sustained last year at Saratoga Springs, N. Y., has signed to ride for J. P. Widener, president of the Westchester, N. Y. Racing Association, having been released by Harry F. Sinclair, millionaire oil man, who had him under contract.

Dr. J. H. Caton of Eastland, delivered the invocation, and interesting papers were read by Dr. Jackson of Ranger, Dr. Burns of Moran, Dr. Simmons of Eastland, Dr. Gregory of Cisco, and Dr. Patterson of Rising Star. The honor guest of this occasion was Dr. T. H. Thompson of Fort Worth, whose paper had to do with "Some Observations on Tetanus." The medics were tendered the usual banquet, followed by smokes and interesting impromptu talks.

NEW SHACKELFORD TEST WILL BE STARTED SOON

ALBANY, April 22.—G. W. Triplehorn of Breckenridge is moving on tools for a test on the Ladd & Hannon acreage west of Albany in Shackelford county. The location is in the center of the north half of section 13, T. & P. R. R. survey, block 12, four miles west of Albany. The test is on the big block which Ladd & Hannon purchased when they and the Carter Oil company first came to Texas seven years ago. The well is drilling for the shallow sand found in the Tannehill pool about one and one-quarter miles northeast. Test is on 240 acres, which includes the west half of the northeast quarter, the east half of the northwest quarter and the east half of the southwest quarter, all in section 13.

USAGE OF GASOLINE RISES 28 PER CENT

Gasoline consumption in twenty-nine states, as indicated by reports under tax laws, in two months ended February, total 462,401,713 gallons, against 360,125,255 gallons for 1924 period, increase of 102,276,458 gallons or 28.4 percent. February gasoline consumption in the twenty-nine states totaled 225,537,148 gallons, against 164,263,422 gallons in February, 1924, increase of 61,273,726 gallons, or 37.3 percent.

VALLEY COMING TO TEXAS STATE FIREMEN'S MEET

Valley firemen are coming to the Texas State Volunteer Firemen's convention in Cisco in May in force, writes Secretary Toolan of the Harlingen chamber of commerce to Secretary Richardson. Harlingen, San Benito, Brownsville, Mercedes, Weslaco, Donna, Alamo, Pharr, McAllen, Mission and Edinburg will be represented in the Valley delegation, and they are coming to capture the 1926 convention, writes Secretary Toolan.

HIGH LINE LUBBOCK TO LITTLEFIELD TO BE BUILT

LITTLEFIELD, Texas, April 22.—The Texas Utility Co. is unloading material for the high line to run from Lubbock to Muleshoe, via Littlefield. They are making a booster plant here; have already installed a 75-horsepower engine and are having a 100-horsepower engine shipped, and are doubling the size of their plant in Littlefield.

Good Advice for Women

San Antonio, Texas.—While taking Dr. Pierce's Favorite Prescription for feminine weakness I was also relieved of stomach trouble. The Favorite Prescription was exactly the tonic I needed in every respect. I got well shortly after I started taking it. My belief is that what it did for me it will do for others. Therefore I advise all women who are in poor health to take a course of this treatment.—Mrs. J. T. Stauffer, 1522 W. Houston Street. All dealers. Tablets or liquid. Send Dr. Pierce, President Invalids' Hotel, in Buffalo, N. Y., 10c for trial package tablets.

Statement of Ownership, Management and Circulation Required by the Act of Congress of August 24, 1912, of the Cisco Daily News, published daily except Thursday and Saturday, at Cisco, Texas. Before me, a notary public in and for the state of Texas and county of Eastland, personally appeared A. B. O'Flaherty, who deposes and says he is the editor and manager of the Cisco Daily News and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management and average circulation of the aforesaid publication: Editor and manager, A. B. O'Flaherty, Cisco, Texas. Owners holding 1 per cent or more of stock: Mrs. E. D. Brown, Lettie O'Flaherty, Mrs. Elbert Blease, John H. Garner, E. R. McDaniel, J. T. Berry, W. P. Pulley, George Winston, F. M. Osham, B. S. Huey, F. J. Huey, A. B. O'Flaherty, Cisco, Texas; Harvey Mayes, Brownwood, Texas. Bondholders, mortgagees and other security holders holding 1 per cent or more of the capital stock: Cisco Banking Co., Mrs. Ida Kennon, Mrs. Adelle Huey, Cisco; W. B. Kelly, Clifton, Ariz. That the average number of copies of each issue sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is 1,850. (Signed) A. B. O'Flaherty, editor and manager. Sworn to and subscribed before me this 22nd day of April, 1925. T. L. Shepard, Notary Public for Eastland county, Texas. My commission expires in June, 1925.

AUGUST LEHMANN.

August Lehmann, a window washer employed by the Pennsylvania Railroad, is being held in Buffalo, N. Y. as the alleged perpetrator of a \$120,000 mail robbery. Lehmann is said to have forged an order authorizing him to board a train and examine mail pouches containing valuables.

ENGLAND IMPORTS NEAR BREAK PEAK

Petroleum imports into Great Britain in the last four weeks were

Corns

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

the largest, with one exception, in the history of the industry, according to cable advices to the Department of Commerce. Imports consisted largely of crude petroleum, gasoline and lubricating oils, with normal proportion supplied by the United States. Increases in retail prices of refined products are now less likely.

CALIFORNIA FIG SYRUP - CHILD'S BEST LAXATIVE

HURRY MOTHER! Even a bilious, constipated, feverish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

CASH For Old Gold, Platinum, Silver, Diamonds, magneto points, false teeth, jewelry, any valuables. Mail today. Cash by return mail.

Hoke S. & R. Co., Otsego, Mich.

Don't Experiment With "Pimple Cures"

Do you think so little of your delicate skin and face as to allow yourself to become the subject for experiments. By all means use only the thing which has stood the test of time and public opinion to get rid of your pimples, blotches, bumps, "breaking out," eczema, etc. Black and White Ointment, and Soap, have not only stood this test, but you are sure of it—when you know that they are selling at the tremendous rate of more than two million packages a year.

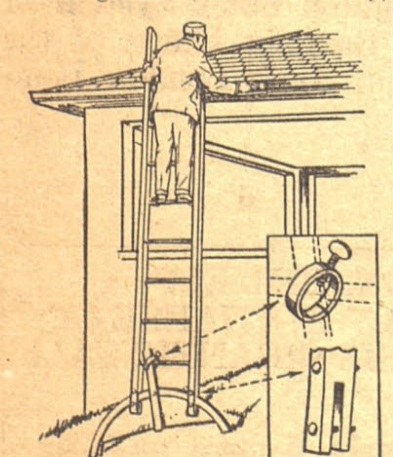

The way they are economically priced, in liberal packages, has helped to make them so popular along with their dependability. The 50c size Ointment contains three times as much as the 25c size. All dealers have both Black and White Ointment and Black and White Soap, as they are called.

What the World Is Doing

As Seen by Popular Mechanics Magazine

Adjustable Footing for Ladder

Painters, carpenters, tinsmiths and others whose trade necessitates the frequent use of a ladder, are often inconvenienced by the ladder slipping toward one side due to a slight slope in the ground. The usual remedy,

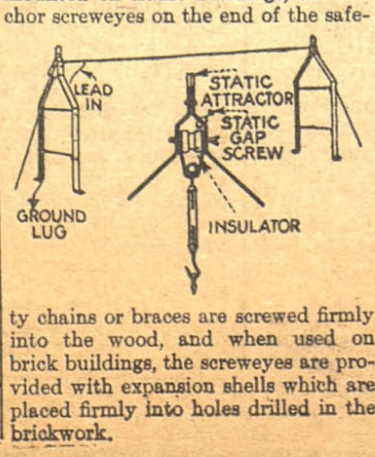

which anyone naturally thinks of first, is to block up the ladder, but blocks are not always handy. A detachable footing of the kind shown in the drawing is much more reliable, and as it is a small article it can readily be transported with the other equipment. It consists of a section of buggy-wheel rim, or any stout length of similarly curved wood. A slot is cut in each leg of the ladder to straddle the rim, and a short length of hardwood is fastened to it by means of a bolt and two strap-iron braces, as shown. The upper end of this stick is passed through a heavy iron ring, which is permanently kept on the lowest rung of the ladder. This ring is attached by splitting it and then spreading it, after which it is placed around the rung and bent back to its original shape. A thumbscrew threaded through the side of the ring, is turned down to clamp the stick to the rung at any position. Bolts are put through the bottom of the ladder as shown in the detail, to prevent splitting and to retain the foot in position.

Label Your Battery Leads

It takes but a few minutes to make a set of little square or round cardboard labels for the A and B-battery leads, holes being punched in the labels and the wires threaded through them, and the fan who has burned out a few tubes by accidentally connecting the B-battery to the filament circuit will appreciate the tip. For those who want something a little more pleasing to the eye than the cardboard labels the latter can be made of brass. The labels should bear the name of the battery, the voltage and the polarity.

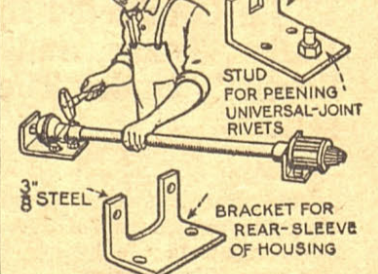

Metal Aerial Supports Improve Reception and Aid Grounding

A practical support for antenna wires is now available, which may be used for supporting a single strand, or an aerial consisting of several wires. The support, which is strongly made of metal, offers a place to mount the lightning arrester where it is most effective. It is claimed to assist in the elimination of static by providing a direct uninterrupted path to the ground for this disturbing element, to aid in clearer reception, and permit greater distances to be covered. It eliminates the use of wood and nails, and does not detract from the appearance of the building. When mounted on frame buildings, the anchor screws are on the end of the safe-

Handling Ford Driveshafts

Ford driveshafts can be conveniently handled on the workbench by providing two brackets of the kind

shown in the illustration. These are made of 3/4-in. flat steel cut and bent to the shape indicated and bolted to the bench top. One bracket has a square hole to receive the universal-joint end of the shaft and the other is cut to hold the rear sleeve of the housing.

Paving the World's Streets

The lake of asphalt in Trinidad has fallen only fifteen feet since its discovery by early explorers, despite the fact that approximately 4,000,000 tons of road-making material have been removed. It is estimated that 10,000,000 tons of the mixture have been churned into asphalt by gases during the ages in Pitch Lake, which is known as Devil's Caldron among the natives. To transport the material, rails mounted on ties have been extended over the surface, and cars are run out to the diggers who never move the scene of operations, as each morning finds the holes left by the previous day's activity filled up. About every three days, the pitch covers the roadway, which slowly sinks into the soft material and must be raised and re-laid. By means of this track, 100,000 tons of asphalt are withdrawn from the lake each year. The entire deposit covers an area of about 110 acres, but its depth has never been measured.

## Bok Pledges \$50,000 To Carry Page School Budget For First Year

EDWARD W. BOK, PHILADELPHIA, HAS MADE WHAT IS CONSIDERED A DISTINCT CONTRIBUTION TOWARD THE ADVANCEMENT OF INTERNATIONAL TRADE, THE TECHNIQUE OF INTERNATIONAL INTERCOURSE AND DIPLOMATIC CUSTOMS, INTERNATIONAL LAW AND ECONOMIC RELATIONS.

Edward W. Bok, of Philadelphia, has made what is considered a distinct contribution toward the advancement of international trade, the technique of international intercourse and diplomatic customs, international law and economic relations. In addition to developing a science of international relations, it will produce a continually augmented body of men and women trained in that science and fitted for service in the fields of education, government and business.

Mr. Bok's offer makes it definitely certain that the school can be established at the Baltimore institution in time for the opening of the school year next fall. The offer is unconditional and is made at this time in order to give the trustees of the fund a secure and certain income of \$1,000,000, the income of which is deemed necessary to carry on operations at the start. As this income is approximately \$50,000, Mr. Bok's offer is in effect a gift equivalent to this amount.

Mr. Bok is one of the trustees for the establishment of the school's endowment fund, a national appeal for which is now being carried on. It is hoped to raise the required \$1,000,000 by May 1.

Contributions may be addressed to the Walter Hines Page School of International Relations and forwarded to national headquarters, 111 Broadway, New York.

## OF A PERSONAL NATURE

**SOCIAL CALENDAR**

Friday—The Humble Bridge club will meet at 2:30 p. m. with Mrs. Reggie Henderson instead of with Mrs. Guy Griggs, as was previously announced.

The XXth Century club will meet at the city hall at 4 p. m.

Saturday—The Cisco Music Study club will meet at 3 p. m. with Mrs. W. J. Armstrong, 1016 West Tenth street. The following program will be given: Responses "Operas by Verdi"; "The Story of Ill Trovatore"; Mrs. F. H. Stedman; vocal solo, "Leonora"; Miss Bernice Chesley; and a piano solo, Miss Eileen Wilson. All members are urged to attend.

J. A. Clements and son, Byron, left Monday with a party from Putnam for a fishing trip to the Clear Fork.

Mrs. J. W. Coleman of Miles, is the guest of her niece, Mrs. W. J. Foxworth.

Rev. and Mrs. Frank H. Stedman and family have returned from a visit with Mr. and Mrs. Graham Stewart at Graham. While there Rev. Stedman filled his monthly preaching appointment, Sunday.

Mrs. George Leopold and guest, Mrs. Ben H. Dorcy of Kelly Field, are spending a few days in Abilene with friends.

Mrs. W. E. Gillespie is spending today in Abilene with her son, Dr. G. M. Gillespie.

Mr. and Mrs. A. A. Smith of Moran, spent yesterday in Cisco. While here they were the dinner guests of Mr. and Mrs. R. F. Blackstock.

Capt. Barlow Winston has returned from a business trip to Fort Worth.

W. M. Freeman of Moran, was a business visitor in the city Tuesday.

Mrs. E. C. Hitchcock has returned from a short visit with her husband at Vernon. During Mrs. Hitchcock's

absence, her daughter, Miss Helen, was the guest of Mrs. H. N. Pardee at Breckenridge.

Rex Corrothers has returned from a short visit in Dallas.

Miss Lucile George, who underwent an operation for appendicitis at the Graham sanitarium Monday night, is now getting along nicely.

Mrs. William Hastings has returned to her home at Texas City, after a visit in Cisco with Mrs. Edward Keough.

Allen Sapp left last night for Abilene on a business visit in the city.

Vernon Bostick of Abilene spent Monday in Cisco on business.

Mrs. Tom Quinn and Miss Irene Quinn returned from a two weeks' visit with Mr. Quinn at Holdenville, Okla.

Mrs. Alex Spears and daughter, Miss Betty Fee, have returned from a short visit in Fort Worth. While away, Mrs. Spears attended a Ward-Belmont reunion at Dallas.

D. L. Harris of Dublin was a business visitor in Cisco Tuesday.

C. B. Poe of Carbon is ill and is confined to the home of his daughter, Mrs. J. E. Spencer.

Mrs. Ben Reid of Gorman, and mother, Mrs. H. K. Kuteman of Weatherford, spent Tuesday in Cisco with friends.

Mrs. Charley Trammell returned yesterday from a motor trip to San Angelo. Her sister, Miss Lucile Lawhon, accompanied her home.

Mr. and Mrs. Walter L. Holmesly and children spent the past week-end with Mrs. Holmesly's mother in Haskell.

Miss Gladys McMillan visited in Moran Tuesday.

Mrs. Hays, who recently underwent a major surgical operation at a Gorman sanitarium, is today at Vernon. During Mrs. Hitchcock's

## Lake O'Hara, Liquid Jewel of the Canadian Rockies, Is to Be "At Home" to Many Beauty Lovers This Year

Lake O'Hara, one of the most beautiful lakes in the Canadian Rockies, is attracting so many admirers that it bids fair to rival in popularity its world famous neighbor, Lake Louise. The loveliness of Lake O'Hara is well indescribable, although such talented artists as John Singer Sargent, K. A. Carl Rungius and Richard M. Kimbel have devoted many days to painting it, and poets and prose writers have attempted to portray its fascinations from every point of view. At least three prominent organizations of lovers of the mountains will camp there during the summer, the Mountain-seeing Club of British Columbia, the Alpine Club of Canada July 21 to August 8, and the Trail Riders of the Canadian Rockies, August 9. The special expedition which will attempt the ascent of Mt. Logan under the leadership of Capt. A. I. MacCarthy will return in time to make its report to the Alpine Club at Lake O'Hara, also.

The Alpine Club camped at Lake O'Hara in 1922 in a meadow covered with red and white heather at an altitude of 6,664 ft. Since then a very attractive bungalow camp has been built and there are now very comfortable accommodations for both veteran alpinists and novices. This year the club will climb Mt. Goodsii, which has three jagged crests and towers 11,676 ft.

the charges of the government indictment against him. He denied he ever practiced before the interior department.

**TEXAS WEATHER**  
East and West Texas—Fair to night, probably warmer tomorrow.

**RAIN REPORTED OVER NORTH TEXAS SECTION**  
FORT WORTH, April 22. — Rain, accompanied by hail which at some places damaged buildings and crops, fell in north Texas and southern Oklahoma Monday afternoon and night.

Chillicothe and Henrietta had heavy downpours of rain sufficient to materially aid crops. The Chillicothe rain came at 5 o'clock in the afternoon, and lasted more than an hour. Hail accompanied it. The Henrietta rain began at 7 o'clock and lasted nearly two hours.

## Jack London Sales System of Dallas and Memphis Buys P. A. Boaz Stock at Sheriff Sale. Resells to West

This big bankrupt stock was sold under the hammer to JACK LONDON, the famous bargain king of the South. He in turn resold to the West Dry Goods Co., who employed the Jack London Sales System to put over the sale of this big bankrupt stock to the buying public of Cisco territory. New goods to the amount of \$15,000 have been added, and a rare opportunity is thus offered to shoppers to buy their needs for the coming season as well as for the present.

## West Dry Goods Co. to place entire \$20,000 Stock on sale Thursday, April 23, promptly at 9 o'clock

To Be Conducted By The Famous Jack London Sales System of Dallas, Texas, and Memphis, Tenn., "The Bargain Kings of the South." Under The Personal Supervision of Jack London Himself.

Jack London, Himself Personally in Charge of This Gigantic Sale

He Is Familiarly Known as "The Bargain King of the South"

WHO JACK LONDON IS

Mr. London is head of a company that has successfully conducted and supervised special sales for the past eleven years. His success is the cause of him being employed to manage this sale. In placing our stock in his hands during this sale, we did so knowing that the Jack London Sales System has the reputation of insisting on every article in stock being reduced in price, but they have another reputation, that of selling goods quickly. They also insist on country-wide publicity, honestly presented. We have agreed to all their requests and turned our stock over to them during this sale, and a visit to our store will convince you that Jack London has used a sharp-edged knife when he cut the prices of our goods; these prices can be had only from us.

(Signed)  
WEST DRY GOODS CO.

## CALF RECEIPTS AT 65 CENTERS SHOW INCREASE

FORT WORTH, April 22.—Calf shipments to 65 markets of the United States for the month of March, as reported by the bureau of agricultural economics of the agricultural department show increases in all the comparative groups, both as to last year and for the five-year average. Shipments to market for all purposes were 587,524, an increase of 115,440, or 24.5 per cent. Taken for local slaughter, 450,376, a gain of 92,293, or 25.8 per cent. Shipped as stockholders and feeders, 24,457, an enlargement of 16,536, or 208.9 per cent.

Compared with the five-year average, total shipments show an increase of 124,554, or 26.9 per cent. Slaughtering shows a gain of 94,735, or 26.6 per cent. Stockers and feeders made a gain of 13,294 over the five-year average, or 119.1 per cent.

It thus appears that young and immature animals were more largely consumed during the month than for the same period last year and more numerously than for the average for the past five years; and that more calves are being fitted

## REGULATION OF UTILITIES ARE CITIES' RIGHT

AUSTIN, April 22.—Dallas today won the right to increase the rates of public utilities without submitting the rates to a vote of the people, in the supreme court's decision that held the franchise granted a traction company is not a contract, but that it is subject to changes by the legislative branch of the municipal government.

## DENIES ALL AND SINGULAR THE STATE CHARGES

GREAT FALLS, Mont., April 22.—Senator Burton K. Wheeler took the stand today before the court and denied all and singular "phases of

It is better to have it and not need it than to need it and not have it—
