OFFICERS MOWED DOWN BY FUGITIVE

Comm'n Rescinds Action Setting Next Term Salaries

TEN-DOLLAR MEETING FEE IS REPEALED

In a regular recessed meeting of the city commission summoned Saturday afternoon at 2 o'clock by Mayor J. T. Berry to consider instructions to City Attorney F. D. Wright relative to the suit of the Order of Railway Conductors against the city, the commission by unanimous vote rescinded its regular actions in raising salaries of commissioners, not on full time pay, and the mayor, effective next April. The motion to rescind the action was made by Commissioner Donovan who, with Commissioner Fee had opposed the commissioner salary increase.

Three to Two
The commission, voting three to two last week, had raised the pay of a commissioner not on full time, from a flat salary of \$20 per month to \$10 for each regular and called session. The mayor's salary had also been raised from \$1,800 to \$2,100 in a separate motion. The salary of a commissioner on full time was established at the figure of \$150 per month as now applies.

These salary increases were made in accordance with the provisions of the charter for establishing the pay of the next succeeding commission and were not to apply to the present commission. Pay as at present would continue until after the election and a new commission installed. Three commissioners are to be elected at that time.

Time Inopportune
Opinion was expressed in considering the rescinding motion Saturday that the time and conditions are inopportune for taking action with respect to salary fixing.

The commission endorsed Attorney Wright's plan of procedure relative to the suit of the Order of Railway Conductors of America in which judgment for \$13,500 alleged past due interest on Cisco bonds is sought. The suit comes up in 88th district court at Eastland Monday. The commission, however, went on record as opposing any action, looking toward a receivership for the city.

POWER FIRM IS PLACED IN RECEIVERSHIP

FORT WORTH, Jan. 2.—Federal Judge James C. Wilson today appointed A. P. Barrett, Fort Worth, and Wiley F. Corl, Philadelphia, receivers for the Texas-Louisiana Power company and its eleven Texas subsidiaries.

He gave the receivers power to borrow \$100,000 to add to the \$290,000 cash on hand to meet \$378,000 in interest due bond holders now. The receivership was asked in a suit filed in federal district court yesterday by the Stafford Lowdon company, engravers, who said the power firm owed it \$7,725.33 in goods and merchandise. The engraving firm said the company has physical property amounting to \$30,000,000 with unsecured debts amounting to \$2,700,000.

Services to Be Held at 7 o'Clock

During the months of January and February the First Methodist church services for Sunday evenings will be held at 7 o'clock instead of 7:30.

The pastor, Rev. H. D. Tucker will preach at both services today. The communion service will be given at both morning and evening services and during the afternoon the pastor assisted by Rev. J. D. Hendrickson will go from house to house and give the communion to sick people and shut-ins. Mr. Tucker requests that anyone wishing this service brought to their home to phone him.

HOUSE WATCHED
NEW YORK, Jan. 2.—Government agents, seeking the instigators of the nation-wide bombing plot, believed today they had traced the origin of the bombs to a house near Summit, N. J.

It was reliably learned that the place has been watched by the authorities the last three days in the hope of making an arrest.

BEWARE, BACHELORS --- 'TIS LEAP YEAR! Women Can Now Assert Marriage Rights, But Men Who Reject Them Need Not Pay as They Did Under Old Law That Originated Custom

BEWARE, men—1932 is the open season on bachelors!

For Leap Year is with us again, and no longer need maiden ladies sit in silent anxiety while bashful males stutter, fidget, fume and then decide to delay popping the matrimonial question.

But the bachelors of 1932 are far better off than were those unlucky young men who lived in Scotland in the 13th century, when Leap Year was originated by law.

The Scottish parliament decreed that the man sufficiently ungallant to refuse a maiden's proposal of wedlock must pay her 100 pounds, unless he could prove that he was betrothed to another.

From that time on women have been given special matrimonial privileges every four years until today Leap Year is recognized in many countries.

At that, women never seem to have taken very seriously their romantic rights, a survey of Leap Year marriage statistics in the United States reveals.

Since 1900, the number of marriages have averaged approximately 1,000,000 annually, both in and out

DEMOS PLAN RECIPROCAL TARIFF BILL

WASHINGTON, Jan. 2.—House democratic leaders plan to bring a bill providing for reciprocal tariff agreements with foreign nations and changing tariff commission procedure with the house next week with the aim of pushing it through before the end of the week, it was revealed.

Speaker Garner said this proposition would be laid before the joint senate and house democratic policy committee Monday. He and Chairman Culler of the ways and means committee arranged at a conference today to begin consideration of the tariff treaty by the committee next Tuesday.

11-Year-Old Boy to Be Tried for Murder

FORT WORTH, Jan. 2.—Eleven-year-old Bennie Hurst, fourth grade school boy, will be tried January 15 in 96th civil district court for the killing of Mack Sanchez, 70, officials announced today after filing juvenile delinquency charges.

In a statement today to the district attorney the boy admitted firing at Sanchez, farm worker, but said he didn't "know the gun was loaded." Sanchez was killed almost instantly yesterday afternoon by the discharge of a shot gun fired at close range in the home of Mr. and Mrs. R. L. Hanna, near Birdville.

DATES SET FOR COUNTY STOCK SHOW

February 26 and 27 are the dates which were set for the annual Eastland County Livestock show here at a meeting held in the chamber of commerce offices Friday evening. The meeting, called by E. H. Varnell, agricultural secretary, was attended by those interested in the show.

R. L. Poe is general chairman of the show and E. H. Varnell is secretary. Chairman appointed Friday evening are:

Dr. F. E. Clark, chairman of the beef cattle division; A. Z. Myrick and Jack Denison, chairman of the dairy cattle division; F. E. Harrell, chairman of the sheep and goats division, and Dr. C. C. Jones, chairman of the hogs division.

A place for holding the show has not been secured but efforts to obtain a building in the business section.

It was decided that entertainment features would be provided along with the regular show program and a committee to take charge of these features will be appointed.

EASTLAND GETS INJUNCTION IN GAS RATE TILT

EASTLAND, Jan. 2.—Honorable Elzo Ben, judge of the 88th district court, granted a temporary injunction late Thursday afternoon against the Community Natural Gas company, re-training that company from putting its newly advertised gas rate into effect.

A hearing was set for Wednesday January 6 at 9 a. m., at which time the gas company may be represented and arguments from both the plaintiffs and the defendant will be heard and the court will decide whether to dissolve the injunction or make it permanent.

The plaintiffs in the case are George Parrock, George Bryant, J. H. Chaetham and C. F. Sheppard. George Bryant is county tax assessor; Parrock is one of the courthouse custodians; Sheppard is elevator operator of the courthouse, and Chaetham is former city manager of Eastland.

The petition alleges that the gas company did not follow proper procedure as prescribed by law and by the terms of its franchise in putting the new rate into effect whereby the graduated scale starts at \$1.50 per thousand and drops to 45 cents per thousand in the larger brackets of consumption.

It is alleged that the city commission lawfully passed an ordinance setting the gas rate at 50 cents per thousand cubic feet and that the gas company ignored this order and established a different rate which it is alleged is in accordance with the lawful procedure in such matters and that the plaintiffs are without adequate remedy at law and are therefore entitled to an injunction preventing the enforcement of the new rate.

Milton E. Lawrence is attorney for the plaintiffs. The suit is not an action by the city commission, that body having been prevented from interfering with the gas company's rate by a court order from federal court in Abilene. It is understood that the injunction only affects the plaintiffs whose names appear on the petition and a test case will be made of it to establish if other consumers will be successful in following a like procedure.

At a mass meeting Thursday evening 26 additional names were signed to the petition.

Pedestrian Fatally Hurt Near Cleburne

BURLESON, Tex., Jan. 2.—Price Lay, 85, of Burleson, died in a Cleburne sanitarium Saturday morning from injuries sustained when he was struck by an automobile on the highway about ten miles south of Burleson.

He was walking down the highway and stepped from behind a southbound bus into the pathway of a northbound roadster.

Twins Born in Different States

These twins—boy and girl—will have a story to tell all their lives, for the boy (left) was born in Nebraska and his twin sister (right) in Iowa. The boy was born to Mrs. F. H. Simpson of South Sioux City, Neb.,

and the mother rushed by ambulance to a hospital at Sioux City, Iowa—just across the Missouri river—where the girl was born 30 minutes later. Mother and children are doing nicely, thank you!

GREAT AMOUNT OF WORK DONE BY CCWA DURING FIRST MONTH

Reports of the treasurer and secretary of the Cisco Charity and Welfare association for the first month of the organization's operations which will be presented to the executive board Monday morning, will reveal that the association has performed a great amount of relief work during the first three weeks of its existence. The report of the work accomplished covers the period from December 11, when the association opened its office, until December 31, inclusive.

The regular meeting of the executive board will be held at the chamber of commerce offices Monday morning at 9 o'clock, it was announced by Chairman J. T. Elliott. Some policies of the organization not as yet definitely defined will be brought up for action at this time. Mr. Elliott said, and it is imperative that every group or organization represented in the association have a representative present.

Work Done
Report of the work done by the association during its first month shows the following:

Forty-nine white families were given assistance. These families will average about five members each, ranging in size from three to eleven persons; 6 Mexican families given assistance; 21 transients helped to leave Cisco; 500 garments given away; \$110.06 spent for groceries for destitute persons; 3 complete lavettes furnished; 14 quilts, 2 blankets, 2 mattresses, 1 bed spread and 1 pillow given away; \$88.30 spent for

drugs; \$9.00 for stoves; 75 pairs of shoes, five of them new pairs, given away; 11 families assisted with groceries donated to the association; \$7.79 spent for clothing; \$3 spent for wood and \$5.85 spent for gas.

The response of the public to the appeals for old garments or garments that cannot be utilized otherwise, has been magnificent. Mrs. P. Pettit, declared. The shelving in the headquarters of the association in the former Ward building, is well-filled, indeed, in places crowded with merchandise that has been contributed. Garments of all character, including shoes, have been stored for ready access while show cases contain toilet articles, soap and various accessories that are needed daily. A large quantity of canned goods and other groceries has also been collected.

Officer Kills Self In Sight of Three

WASHINGTON, Jan. 2.—Major W. W. Lemmond, attached to the office of the judge advocate-general of the army here, shot himself to death today while three men vainly tried to prevent him. The three men saw Lemmond walk up a steep incline on Summit Place near their home, and place a 45-calibre army revolver to his head. They shouted and started running toward him. Lemmond ran some 40 feet up the incline and then fired as the three men approached.

LOBOS OPEN BASKET BALL SEASON WITH ELIASVILLE

The Cisco Lobos open the 1932 basket ball season Tuesday evening, meeting the strong Eliasville quintet on the local court at 7:45 o'clock. The Lobos began their practice sessions Monday. Coach Leonard Hill will not be able to send his full strength against the Eliasville boys, Cleo Ray, regular forward, being kept in reserve since an operation for the removal of his tonsils a few days ago. While he has almost recovered from the effects of the operation he will be used sparingly, if at all, so as not to invite complications that would remove him from the more important season play.

Eliasville was defeated by Abilene 47 to 42 in the first game of the season for those teams at Eliasville Friday evening.

Next Friday the Lobos take on the Eagle basketballers here.

Coach Hill announced as his starting lineup Tuesday night the following: Hightower and Little, forwards; Van Horn, center; Preston and Purvis, guards. Preston, who is

FIVE KILLED DURING RAID ON FARMHOUSE

SPRINGFIELD, Mo., Jan. 2.—A murderous fugitive from justice late today mowed down a squad of officers with gun fire from windows of a farm house in which he was trapped six miles west of here.

Five officers were killed and four were wounded, one critically. Harry Young, the fugitive murder suspect, escaped from the farm house under cover of darkness as 20 national guardsmen prepared to storm it. Two brothers, Paul and Jennings, who were reported to have been in the farm house with him also escaped.

Bodies of three of the dead and another officer who was critically wounded were recovered by men who risked their lives to approach the farmhouse under the fire pouring from the windows. The bodies and the wounded were taken to Springfield. The bodies of the other two slain officers were not recovered until later. The officer critically wounded was at first thought dead.

Slain Men
The dead are: Sheriff Martell Hendrix, City Detective Sidney Meadows, City Detective Tony Oliver, City Detective Ollie Crosswhite and City Detective Charles Houser.

Deputy Sheriff Wiley Mashburn was the officer critically wounded. Frank Tike and Virgil Johnson, city detectives, were the other officers who were wounded as they approached the farm house. They were able to leave and make a telephone call for aid.

Immediately every available officer to the number of 50 was pressed into duty and rushed to the farm house. The officers who were not said they approached the house watching carefully for the suspect. Suddenly gunfire was poured on them from the windows. They started to run for cover but all but two fell under the fire.

Information that Young had returned to his father's house and was in hiding there came from his two sisters when they were arrested on an automobile theft charge and questioned regarding the murder suspect.

Militia Sent
The fatal raid on the Young farm house followed.

Authorities communicated with Gov. Henry S. Cautfield, at Jefferson City, who directed the adjutant-general, A. V. Adams, to handle the situation.

Gen. Adams directed Lieut. Gates, of the Springfield company to mobilize 75 men at his command with machine guns and field equipment. When the guardsmen entered the house they found it vacant. The slayers left a machine gun behind in their flight.

Shortly after 8 p. m. a report reached Springfield that the outlaws were surrounded in a barn on a farm near that on which they lived. Threats of a lynching if the men are found were heard. Young had been hunted throughout the southwest for two years since the murder of a city marshal at the town of Republic, 12 miles from Springfield.

\$25 Fine Assessed For Drunkenness

A fine of \$25 and costs was assessed by Mayor J. T. Berry in corporation court Friday morning against a man arrested New Years eve night on a charge of drunkenness by Policeman Craddock.

Bank Directors Are No-Billed by Jury

SAN ANTONIO, Jan. 2.—State Banking Commissioner James Shaw and nine directors of the closed City Central Bank and Trust company were no-billed today by the Bexar county grand jury. Charges of allowing the acceptance of funds when they knew the bank was insolvent were filed against the group in a suburban justice court December 17 by County Attorney D. F. Davis.

DAILY BIBLE THOUGHT

GIVING GETS.—There is that scattereth, and yet increaseth; and there is that withholdeth more than is meet, but it tendeth to poverty.—Proverbs 11: 24.

UNCLE SAM WILL NOT SUFFER.

There seems to be an unfortunate impression gaining ground in this country to the effect that the United States is going to Geneva like a sheep to be shorn, that the wicked European diplomats intend to relieve your Uncle Samuel of his watch and sundry valuables, leaving him friendless and forlorn. If any large percentage of Americans suffer from this delusion, let them look at the personnel of the delegation which will speak America's mind in the international capital and set their minds at rest.

In the first place, General Charles G. Dawes has never had the reputation of being anything but an American first, last, and all the time. His every act since he first accompanied Pershing to France has been accompanied by a brusque and businesslike straightforwardness which impressed Paris and London in the days of the world war, which have not failed to register in diplomatic circles since he returned across the Atlantic to serve the United States at the court of St. James. No, General Dawes will not willingly stand by and see Uncle Sam suffer from the subtle machinations of those Europeans.

Nor can any average American believe that the suave and scholarly Hugh Gibson, "the traveling ambassador," will permit his native land to be mercilessly flimflammed by the master minds of Paris and London and Rome. He has been around the world several times, this brilliant diplomat who has been "trouble shooter" for the American diplomatic service on innumerable occasions, and he has seen things done many ways in many countries. Hugh Gibson is not the type to display awe or amusement at the views and opinions of Europe. He knows Europe too well for that.

It is safe to say that the United States will be better represented at the Geneva disarmament conference next year than any other nation. Dawes and Gibson know every diplomat in Europe, have been approached by statesmen of eminence who have learned to rely upon them for counsel and advice in these troubled times. They are of sound capacity, both of them, not at all inclined to be intoxicated by the sound of their own voices nor flattered into complaisance by honeyed words.

General Dawes will not be easily moved from a position of "America first." Nor will Hugh Gibson, nor Senator Claude Swanson nor the other member of the senate who is selected to bear him company, nor Mary Emma Woolley. The Americans who go there will know pretty definitely what their country will offer and accept in the way of disarmament plans. The senators especially will know just what their brethren at Washington can be induced to ratify. If anything, the American delegation will lean over backwards in its effort to escape the impression that it is at all willing to co-operate. America's representatives can be trusted to take care of America's interests at Geneva.

NEW PUBLIC LANDS GOING INTO HOMESTEADS.

A farm exchange makes the announcement that 20,000 tenants will be turned off this winter by North Carolina landlords who haven't money enough to carry them. Indeed the North Carolina extension service news makes the announcement. North Carolina is one of the foremost diversification states. "Too much of almost everything raised on the farm," editorializes a North Carolina newspaper; "thousands of tenants being set adrift, but more than 5,000,000 acres of new lands are going into homesteads this year to raise more farm products to build new surpluses." Exhibit A: The United States general land offices report 5,200,000 acres of public land assigned for the fiscal year, an increase from 3,600,000 acres in 1927.

"The craving for homes," says the federal land commissioner, "apparently has no relation to economic condition." Why shouldn't there be a craving for homes? A home owner, or rather a man who works his own farm, is not a tenant. He is able to work his way out. That is, if he supplies his dependents with their needs and grows food staples to keep the wolf from the door. In Texas in 1931 more than 50,000-000 containers were utilized in canning or preserving the products of the farm, orchard and garden. It was an amazing record, in country and town. They were taught a lesson in 1929 and 1930. They canned everything that was cannable. They preserved everything that was preservable.

Adversity is a stern teacher. Women were largely responsible for these tremendous strides in the canning industry away down on the farm. Robert Quillen said it all in a few words: "Women can rule if they will." There is no power in America to equal that of good women with their dander up. Women dare to say what they think without regard to the consequences and they can rule when they will. They ruled away down on the Texas farm in the year that has passed out.

THE SON OF GOD BECOMES MAN

SUNDAY SCHOOL LESSON

Text: John 1:1-18
The International Uniform Sunday School Lesson for Jan. 3. The Son of God Becomes Man. John 1:1-18.

By W. M. E. GILROY, D. D.
Editor of The Congregationalist

The studies for the first quarter of this year are in the Gospel of John. Immediately when we begin reading that Gospel we are in a somewhat different atmosphere from the preceding books of the New Testament. There is no clash between the Fourth Gospel and the Gospels that precede it. But the fourth Gospel begins with a prologue that is in the nature of a philosophical thesis, or of a poem, before coming to deal with the narrative of the earthly life of Jesus.

The main teachings and conceptions of this prologue ought to be well within the reach of every reader. The writer begins with the beginning. It is, of course, beyond power of our thought to conceive of any condition before there was a beginning, or of a world of nothingness that would not be a world. Evident in his conception of the creative Word the writer is thinking of the beginning in terms of the formation of our world out of chaos and the giving of life, which are, of course, as much facts for science as for religion.

What did the writer mean by the Word that was in the beginning? We cannot be sure of all that that Word implied, for an English word has been used to translate the Greek word "logos," and it may have been that the writer of this Gospel used the term in any case with much deeper significance than its current use at the time that he wrote. Yet we may find a very simple and very clear thought in his statement, "The Word was with God, and the Word was God."

The next stage in his thought is the definite identification of this Word with the revelation in the

earthly life of Jesus of Nazareth. Jesus revealed what God is. The life that was lived in Palestine in the space of a little more than 30

from the beginning. The writer is sure that that life in Palestine was an earthly human life. He does not destroy the conception of the reality of the life that Jesus lived as man; but in the beauty of that life the writer sees God himself made manifest in the flesh. "In him was life; and the life was the light of men."

From this beginning he comes very quickly to the definite place of that life in our lives through the earthly mission of Jesus. He introduces us at once to John, who was to be the preparer or forerunner, and in his contrast of the Christ who was to come with John the Baptist who prepared the way, he brings out all the more clearly the divine character of the Son of Man and his mission.

The prologue ends on a mighty note of universality and privilege. The fullness of his grace is available for all. Men living in a world of law and formal relationships may find the grace and truth that come through Jesus Christ, and though no man has seen God, at any time man may know what God is like through the Christ who has declared him.

What's New in the New Chevrolet Six

When you read *what's new in the new Chevrolet Six*, you, too, will agree it's the Great American Value for 1932.

It is the only low-priced car to offer both Synchro-Mesh and Free Wheeling in combination. It has engine and chassis improvements that raise performance to new heights of power, speed and smoothness. It provides the finest Fisher

bodies Chevrolet has ever introduced. And it maintains the same factors of dependability and economy that have won the approval of millions of Chevrolet owners.

All that has proved to be sound and dependable in the past, plus all the new advancements given below—at one of the lowest prices in the market! That's why the new Chevrolet Six is the Great American Value for 1932!

Silent Synchro-Mesh Transmission

This well-known feature of high-priced cars is the finest type of transmission ever developed. In the new Chevrolet Six, it brings a new type of handling ease and car control to the low-price field. Synchro-Mesh permits you to shift gears with marvelous quickness, quietness and ease. As a safety factor, it is especially valuable. For it enables you to shift rapidly from high back into second, any time you want to use the engine as a brake.

A Smoother, Improved Six-Cylinder Engine

New experiences await you in the Chevrolet Six—new thrills in power, pick-up, smoothness and speed. For Chevrolet has introduced many new engine-features that increase power 20 per cent to 60 horsepower, and make Chevrolet's built-in six-cylinder smoothness even smoother. These features include down-draft carburetion, a new cylinder head, new manifolding, a counter-balanced crankshaft and rubber engine mountings.

Simplified Free Wheeling

Chevrolet's Free Wheeling mechanism is a new and advanced type that is extremely simple in construction. You may take advantage of its thrills whenever you want to, by simply pressing a button on the dash. Thereafter, and until you pull the button out again you are "in" Free Wheeling. You coast along on momentum every time your foot is off the accelerator. And you can shift with magical simplicity and ease.

65 to 70 Miles an Hour with Faster Acceleration

Vital new features introduced into Chevrolet's six-cylinder engine enable it to develop 65 to 70 miles an hour with astonishing ease, stability and smoothness. And stop-watch tests show an acceleration from 0 to 35 miles in 6.7 seconds.

Distinctive New Front-End Appearance

The new chromium-plated elliptical radiator, built-in radiator grille, double tie-bar, trumpet-type horn, and bullet-type headlamps form a front-end ensemble of arresting beauty, enhanced by new rectangular, adjustable hood-ports.

Stabilized Front-End Mounting

An ingenious method of mounting front fenders, lamps, double tie-bar and radiator securely to the frame—a method exclusive to Chevrolet—stabilizes the whole front-end assembly and insures steadiness when driving over rough roads.

Smart New Fisher Bodies

Chevrolet's new Fisher bodies are the smartest bodies ever to appear in the low-price field. Moreover, Fisher craftsmen have added many new elements of strength, quietness and solidity to the wood-and-steel construction. Greater vision is provided for all occupants.

Down-Draft Carburetion

The down-draft carburetor is a big factor in Chevrolet's greater power, speed and pick-up. An intake silencer combined with it assures greater quietness. A heat control device, operated from the dash, warms up the engine quickly and provides more efficient operation in cold weather.

Finger-Touch Front Seat

One of the most interesting conveniences in the new Fisher bodies is the new type of adjustable front seat. A touch of the finger on a lever at the left of the cushions, and you can move the seat to any desired position. This feature is exclusive to Chevrolet in the lowest-price field.

And the following Chevrolet features that have won the approval of millions of owners: Big, powerful Four-Wheel Brakes . . . Four Hydraulic Shock Absorbers . . . Four long Semi-Elliptic Springs . . . Full Length Frame . . . Insulated Driver's Compartment

PRICED AS LOW AS **\$475**
