Loboes Defeat Stephenville By a Score of 43 to 12 at Ranger and Win Title of All District Champs

Playing for the most part in a ragged manner except for occasional flashes of their regular form, the Loboes downed the class B Stephenville team 43-12 at Ranger Tuesday.

The Loboes outweighed and outclassed the Yellow Jackets, and except for a few minutes in the early part of the game, there was no comparison in the strength of the two teams.

Stephenville had a well coached, nifty team, but they lacked the power necessary to cope with Cisco. However, the Yellow Jackets proved conclusively that the Loboes are not a super team, and that the Lobo line can be pierced when the Loboes let down and expect their reputations to carry them through.

The game was a good game to watch and was closer than the score indicates. Stephenville won the toss and elected to defend the west goal. Cisco received and failed to gain on there plays.

Chapman removed Wilson, Speights, Morse and Lee, and sent in Carothers, Daniel, McCrea and Strickland. The Loboes started off in the second half like they were going to continue their work.

scooping up the fumble. An Ablene spectator was heard to groan when this act took place, perhaps from unpleasant memories.

Grist was playing in his usual form. Alsabrook also was having his day. Fields looked better returning punts than he has ever looked and McCord was generally credited in the press box as putting up the best game of any of the Lobo line men.

Grist was off form in passing the ball, making several bad passes that hurt the team. However he was good on defense, especially in the first half.

Alsabrook turned the tide when he got away with the fumble for the first touchdown, and he was also powerful on offense. He snared a pass which resulted in the second touchdown and later carried the ball to within striking distance of the goal line.

Wilson, although playing a good game, was off his usual form. At Comanche he kicked every try for goal, but at Ranger he did not make a single one. Against the Yellow Jackets he gained consistently, but his work lacked the snap he displayed against Ranger and Comanche.

Couch suffered a badly sprained ankle which handicapped him. He played through the game and did not ask to be taken out. However he lacked his usual speed.

Assistant Coach Parker of Cleburne scouted the game, sitting in the press box with a pair of field glasses. Coach Baggett of Vernon with his entire squad was present, and it is understood that Oak Cliff and Waco also had observers present. The Vernon coach and players left Ranger expressing absolute confidence in their ability to beat the Loboes, and several Vernon rooters are reported to have made wagers at even money, betting on Vernon to win if the Loboes meet the Lions, although it is unlikely that Cisco and Vernon will meet next, as it is generally thought that the next encounter will be between Cisco and Cleburne.

The gate receipts totaled something over \$1,700, which leaves between \$500 and \$600 for each of the teams, after all expenses are paid.

LOBO QUEENS TO PLAY BAIRD AT HI GYM TONIGHT

At 7 o'clock tonight the Lobo Queens will play the Baird high school basketball team at the high school gymnasium, which will be their third game of the season. The match tonight promises to be a hard game, for the Baird cagers are a good, fast team, and the Queens will have to move fast and be on the job every minute if they hold their present prestige. The hope is that the visitors are in the best of condition, while the Queens are hardly up to their fighting form, due to the fact that some have colds and other complaints, besides some of the best players will be out of the playing, who will have to be substituted.

Cisco fans should turnout en masse tonight, and boost the Queens. Miss Ina Wolfenlinder, the girls coach of Breckenridge, will referee the game.

THE XMAS RUSH STARTED EARLY AT POSTOFFICE

"The usual rush of Christmas mail matter has already commenced at the Cisco postoffice," states Postmaster Triplett. "It is the purpose of the local postal force to give the best possible service, but to do this we must have the cooperation of the public. The postoffice department has supplied each office with a set of rules, telling how and when to mail out parcels. We will be glad to furnish anyone with a copy of these rules. You will find them of material assistance, if you expect to mail out parcels to friends for Christmas."

"The matter of preparing parcels for transmission through the mails properly seems to be one thing that the average person is slow to learn. They think just so it gets mailed, it is all right. Right there he is mistaken," Triplett stated. Improperly packed and wrapped parcels are liable never to get to their destination. And many are received in a damaged condition.

"To insure parcels they must be securely wrapped, otherwise they are not insured. I will be glad if all would come around and get a copy of the rules, for I am sure it will save much time and insure the safe delivery of your Christmas parcels. These rules tell you when to mail matter for any given distance so it will reach its destination in time, besides other valuable information."

"Then, there are people who think it all right to send a letter in a parcel. Many offices have men who open parcels to see if there is first class mail in it. To place a letter in a parcel requires first class postage on the entire package. We had an instance of this kind here recently, and the receiver had to pay the full postage on a package that contained a letter."

"Mail your Christmas packages early and insure their delivery in time for Santa Claus."

NEWSPAPER MAN MORTALLY HURT WHILE IN JAIL

JUAREZ, Nov. 26.—American and Mexican officials today joined in the probe of the fight in the Juarez jail last night which resulted in the possible fatal injuries to Harry Rogers, Washington newspaper correspondent, and three other Americans. It is believed that John Doble, a narcotic addict, went on a rampage with an iron bar, who was confined in a cell with Rogers and other newspaper men, who were held for intoxication, crushing Rogers' skull with the bar.

HUNDREDS ARE GATHERED IN HUGE VICE RAID CHICAGO, Nov. 26.—The city's most gigantic vice drive in its history that got under way last night, was continuing today with hundreds of the underworld suspects victims of the huge net that included two thousand extra police officers. WAGE SLASHING TO BE RESISTED BY UNION LABOR

EL PASO, Nov. 26.—Plans for smashing the forces of organized labor for a nation-wide fight against any attempts to slash the wages of workers were formulated today by the executive council, which is remaining in session. "We do not want warfare, we want peace, but if wages are cut we won't work," President Gompers said in instructing all unions to vigorously resist any attempts at wage slashing with their full force. "Prosperity is returning, rather than diminishing, and wages should go up, not down." The convention closed harmoniously, the only fight was that of the engineers and miners, which is being averted by a temporary agreement in attempting a wage settlement.

A STORY WITH A MORAL, DON'T TRY TO HOLD OUT Married men should profit by this incident, the moral being: Don't try to hold out on your wife, but give her all your pay check every Saturday night. A certain man here, having orders to turn his pay check over every Saturday night, finally saved up a few holdouts until he had the magnificent sum of \$5. He decided to put on a show, so he called up a girl who liked to step some, and was fond of reckless spenders. Hiring a driverless Ford they went for a drive on the Rising Star highway. He parked the car in a most romantic spot, while the man in the moon smiled indulgently. The stars were beautiful and the air was balmy, and all that, but the meanest hijacker on the road came along and relieved that man of his \$5 while the night was yet young.

Carnegie Library Foundation Be Sent Strong Endorsements of the XXth Century Club Library Plans

Cisco is on the eve of annexing a Carnegie library, it is believed by those having the matter of building a library for Cisco in hand. It has been definitely determined to make a strong effort to interest the Carnegie Library Foundation in the matter. With the showing the XXth Century club can bring to bear, showing the progress already made, and with the assurance from the city commission that the library will be maintained, it is thought all obstacles that have heretofore existed will be removed, and Cisco will be considered.

To make application to the Carnegie Library Foundation was determined when the XXth Century library committee formulated their plans this week, which include the endorsement of the chamber of commerce, the city commission, the Daily News and others. Secretary Richardson, for the chamber of commerce, has written a strong letter of endorsement of the proposition, setting forth the resources, population, location and improvements of Cisco, and emphasizing the progress that has been made by the XXth Century club in supporting the library up to this time.

Mayor Williamson stated that on behalf of the city commission he was ready to endorse the plan, and give every assurance that the city would take the library over once it is built, and guarantee its perpetuity by municipal maintenance. With these endorsements it is believed prospects were never brighter for the realization of the dream of a public library for Cisco. The XXth Century club already has approximately \$2,000 and about three thousand volumes as a nucleus for the library, and now, for the first time, the entire city is backing the club in its efforts to build a modern library home.

Last Friday some tools belonging to Mit Johnson were stolen from a tool chest at the Harding lumber company. The police were called to investigate the case and found the tracks of a man near the tool chest. BUSINESS MEN SHOULD VISIT POULTRY SHOW

Preparations are going forward by the Rising Star poultry raisers and the boys' pig clubs to hold one of the best Pig and Poultry shows ever held in Eastland county. Owing to the ban on livestock this exhibit was omitted in the Cisco Poultry show this year. This feature was one of the attractions at the Eastland County Fair held in Cisco last year, and was missed when the poultry show was staged.

Rising Star will not be confronted with this livestock embargo, and pigs as well as poultry will feature in their show which they will stage in that city Friday and Saturday, November 28-29. From information received it is expected at a large number of Cisco folk will attend, especially the poultry people. These are getting their exhibits in shape, and expect to add to the attractions by having some prize winning birds on exhibition. But Cisco should not leave this representation to the poultry people. Every line of business should be represented. One of the benefits a people gets from county fairs is a coming together, meeting and getting acquainted with your neighbors. It promotes a better feeling and helps the business of all concerned. Cisco business men should be at Rising Star Friday, meet and mingle with those who are looking at the fat hogs and fine poultry, and establish a larger business acquaintance.

Cleona Gonzales, who was an employe of the railroad company, died from injuries received when a switch engine passed over his body while he was working on the track in the Ranger yards. Both of his legs were severed from the body and badly mangled and one arm was nearly torn off. He died shortly after being carried to the hospital.

**THE SECRET OF ACHIEVEMENT**

The poet Campbell said that a man accustomed to work was equal to any achievement he resolved on, and that for himself, necessity, not inspiration, was the prompter of his muse.

It has been repeated over and over that concentration is the secret of strength in politics, in war, in trade, in love, in short in all management of human affairs.

When Newton was asked how he had been able to achieve his discoveries, he answered, "By always intending my mind."

"I hope," a man once said to Rothschild, the great European banker, "your children are not too fond of money and business; I am sure you would not wish that," and elicited this reply:

"I am sure I should wish that; I wish them to give mind, soul, heart and body to business—that is the way to be happy.

"It requires a great deal of caution to make a great fortune, and when you have got it, it requires ten times as much wit to keep it. If I were to listen to all the proposals made to me, I should ruin myself very soon."

"Enlarge not thy destiny," said the oracle; "endeavor not to do more than is given thee in charge."

It seemed to Emerson that the one prudence in life is concentration; the one evil is dissipation; and it makes no difference whether our dissipations are coarse or fine: property and its cares, friends and a social habit, or politics, or music, or feasting.

"Everything is good," he opined, "which takes away one plaything and delusion more and drives us home to add one stroke of faithful work.

"Friends, books, pictures, lower duties, talents, flatteries, hopes—all are distractions which cause oscillations in our giddy balloon, and make a good poise and a straight course impossible."

"You must elect your work," he said; "you shall take what your brain can, and drop all the rest."

Only so can that amount of vital force accumulate which can make the step from knowing to doing. No matter how much faculty of idle seeing a man has, the step from knowledge to doing is rarely taken.

"Ah," said a painter, thinking of these things, "if a man has failed, you will find he has dreamed instead of working. There is no way to success in our art (or any other, it can be said), but to take off your coat, grind paint, and work like a digger on the railroad, all day and every night."

Of course, we'd prefer to have the Vernon or Cleburne game played in Cisco, because of convenience to the army of faithful Cisco fans—who feel like they have been traveling all over the United States since the football season started—but after all, it makes very little difference, Mr. Henderson. Just say when and where.

**AT HOME AND ABROAD**

Many Americans probably felt a thrill of patriotic satisfaction the other day in reading this brief cable from Teheran:

"In compliance with the demands of the government of the United States, two of the murderers of Major Imbrie, whose execution had been delayed, were put to death this morning."

That made three Persians in all, executed for the brutal killing of the American consul in the Persian capital a few weeks ago. All had been condemned to death, and one had been shot by a firing squad. The remaining two, however, had their sentences commuted to life imprisonment. Thereupon the American government protested, declaring that "from past experience it knew that life sentences are not effective in Persia," and expressing the fear that "unless those found guilty and sentenced to death by the court are executed, they will ultimately escape."

This action, as seen, was effective. But doesn't the whole business seem like mockery, in view of what goes on in our own country right along? The hand of American justice, which can reach out half way around the world to punish foreign slayers of an American citizen, is usually powerless to inflict effective punishment at home, when the killers are Americans.

Charlie Fee fought the football "bug" manfully for a long time, but it got him at last. His complete surrender at Ranger yesterday was uproarious.

No printing establishment in West Texas is better equipped to execute printing of the better class than the Cisco Daily News. This being true, why patronize the printers of Abilene and other cities and ignore the home workmen? The trade at home slogan should apply to the printer as well as to those commonly referred to as merchants.

The Daily News' line of Christmas cards is artistic and covers a large variety of styles. Be loyal and have yours printed at home this year.

Junior college conference. Their teams are both in the very best of condition, neither has been defeated in its class this year, both have run up heavy scores against their opponents, and both fight their best when pitted against each other. This game will decide the district title in junior college football, and the winners will then meet Wesley College for the championship of the state. All things considered, a hotly contested fight may be confidently expected, especially since the dope registers the teams with even chances.

 SOFIA, Nov. 26.—Thirty thousand Bulgarian bachelors are cursing the shade of Stambolisky. The government has revived a Stambolisky government measure taxing bachelors, declaring that the law is legal and that it will go into effect on January 1, 1925. There are 100,000 fewer females than males in Bulgaria, so the bachelors are complaining that they have no way of escaping the tax by turning beneficiaries. The government's answer is that there are surplus women in neighboring states, and there is no objection to importation of wives.

**CHICAGO HUSBANDS SAVE MORE THAN DO BACHELORS**  
 CHICAGO, Nov. 26.—Matrimony has its financial advantages. This has been revealed in an analysis of 700,000 tax returns by the Cook county treasurer. The first few years, however, are the hardest. According to the survey, the average husband at 24 has 5 per cent less property, money in the bank and other taxable goods than the average bachelor of the same age. But—when both have reached 28 years the husband will be 3 per cent ahead, and at 38 he will have far outstripped his lonesome bachelor opponent and piled up a 17 per cent lead. After that it's easy, the report says, for at 48 the husband will be 20 per cent ahead.

### FARMER CENSUS TO BE TAKEN BY R. R. CARRIERS

Through the local postoffice the government is now sending out blanks for taking the poultry and livestock census of this section. Postmaster Triplett stated Wednesday that the rural carriers are required by the government to take this census, which is very comprehensive and easy to handle. The blank cards are mailed out to the many patrons on the rural routes, who fill out the cards and return them to the carrier, or leave them in their mail boxes. When all are in this livestock census will show just how many chickens, cows, swine and other livestock there is in any given community. The information is of value to the government, and will prove profitable to the individual farmers. Triplett stated that the carriers could help the carriers by having the cards filled out promptly, and left in their boxes. The cards will go out December 1.

In many homes the flivver is fuller than the dinner pail.

#### NIMROD

NIMROD, Nov. 25.—We had a fine rain Thursday night, which was very welcome. Farming operations, which had been discontinued owing to the dry weather, can be resumed. Quite a number of farmers contemplate sowing oats this week.

Mr. Joe Davidson, who has been in ill health the past three months, died at the Graham sanitarium in Cisco Saturday night. The remains were conveyed to his father's home here Sunday morning, and at 3:30 Sunday afternoon he was laid to rest in the cemetery at Scranton. Rev. Allie Hardin conducting the funeral services. We join the many former friends of this good man, in extending sympathy to the bereaved family. Misses Mildred Cox, and Cloy

Martin, spent the week end with relatives in Eastland.

Dr. D. S. Rumph of Cisco, was a business visitor here Monday.

Mr. and Mrs. Grady Harrelson of Romney, visited relatives here Sunday.

Earl Lasater of Pleasant Hill, visited his father T. L. Lasater, here this week.

Otto Langlitz was trading in Cisco Friday.

Mr. and Mrs. Henry Hardin, of Ballard, attended church here Sunday.

Our pastor, Rev. Allie Hardin, filled his regular appointment here Saturday night and Sunday. After service Sunday night we organized a B. Y. P. U. The following officers were elected: Miss Cox, president; Herman Harrelson, vice-president; Miss Ima Baird, secretary-treasurer; Lon Allen, chorister; Mrs. Allen, pianist; group captains; G. Notgrass and Mrs. T. L. Lasater. As this is a very important part of our church work, we trust that each and every one will do their part in making our union a success.

eral problems of wholesome inter-school competitions discussed, "but

### FIFTY FATHOMS OF WATER

HIDES \$35,000,000 TARGET NORFOLK, Nov. 26.—The battleship Washington, which was constructed at a cost of \$35,000,000 lies fifty fathoms under water today as America's payment in full of the arms conference. The hull was so wrecked by attacks from the air and torpedoes that the first volley from the battleship Texas sent her to the bottom.

### BROADWAY THEATER

Thomas Meighan in any Paramount picture is worth seeing. But Thomas Meighan in a Herbert Brenson production of James Oliver Curwood's gripping story, "The Alaskan" is

worth seeing, not only once but several times. The Alaskan appears at the Broadway Theater tomorrow and Friday.

"The Alaskan" is the first story of the great northwest that Meighan has ever appeared in. His personality suits the title role which he portrays, and although mindful of his past performances, yet we have no hesitancy in saying that he has done his best work in this picture. Here is a story of a man who fights not only for a great love, but for a great cause—the preservation of Alaska for the native Alaskans. To most people Alaska is synonymous with gold and in this picture Director Brenson has reproduced scenes from the historic gold rush of the late nineties when the eyes of the whole world turned towards the far north. Mountain peaks, forests, rivers and glaciers form the gigantic sets which appear in "The Alaskan."

### CARD OF THANKS

We wish to express our deepest thanks and appreciation to each and every one for their kindness and sympathy in the loss of our darling sister and daughter; also for the beautiful floral offerings. May God's richest blessings rest upon you.—Mr. and Mrs. J. A. Tune and Family. (Adv.)

### A SWEET REMEMBRANCE

There was a flower, yes of human form,  
A beautiful flower to the world was born;  
This precious flower in memory still,  
I may attempt to show  
Bore not the name in person, yet  
mighty like a Rose.

We thought this beautiful flower had come to us to stay,  
And with all the kindness to her,  
we named her Vada Lee;  
Yet she must have dropped from Heaven for some single purpose—  
Why knows—  
And she may have filled that mission, for she parted like the Rose.

Hence she has left our worldly vision for a Heavenly home on high,  
Her spirit will live with the Angels,  
just beyond the sky;  
While on earth she gave a word of comfort to all who chanced to pass her way,  
And the sweetness of that smile she gave, seemed to drive our cares away.

Shall we soon forget this sunshine, that she gave to all around,  
No, let us cultivate its memory 'til its rays drift far on high;  
And we all meet in Heaven in that sweet by and by.  
(Adv.) —By Clymer Williams.

### No Excuse for Pimples and Bumps on the Face

The boy or girl who is always conscious of their pimply, blotchy, inflamed or rough skin, and really drawing more attention to it when they keep making excuses for not looking good, don't get any sympathy because folks now know that it is not necessary to keep putting up with this sort of thing.

Since Black and White Ointment, and Black and White Soap, were introduced in this country, thousands of people who had been troubled with pimples, blotches, dark, rough skin, full of bumps, for years are now happy, because they find it gets rid of them so quickly.

Black and White Ointment is economically priced, in liberal packages. The 50c size contains three times as much as the liberal 25c size. All dealers have both the Ointment and the Soap.
