**Clack Reunion
At Maverick**

August 3 - 4

The annual reunion of the Clack family was held on August 3 and 4 this year at the home of Mr. and Mrs. J. R. Cole at Maverick, near Bronte. It was decided to hold the yearly affair on August 15th hereafter, as requested by the elder Clack before his death, that date being his birthday.

Those attending were Mr. and Mrs. Bud Clack and Jackie of Carbon, Mr. and Mrs. Len Storm and Ollie of Ft. Worth, Mr. and Mrs. Roy Clack and Helen of Hallinger, Roy Clack and Martha Ann of Buffalo Gap, Mr. and Mrs. Earl Howden, Ollie Dean and Shirley Jean of Maverick, Mr. and Mrs. Scull Talley, Norma June, Francis and Sannie Cole, Mr. and Mrs. H. A. Herring, Mrs. Laura Hearne and Sybil all of Brownwood.

Mrs. Alma Taylor and Floyd; Mr. and Mrs. B. R. Taylor, and Staniel, Willard Taylor and two sons of Winters, Mr. and Mrs. A. J. Newton, A. J. Jr. and Helen of Trifery, and Monroe Koenig of Hallinger.

A wonderful time was reported by the entire group.

**Care For Summer
Baked Foods By
3C's Says HD Agt.**

Along with pleasant distinctions, August is known as the month in the year for the worst spoilage of baked goods. Good kitchen care can cut this loss considerably, says Loreta Allen, County Home Demonstration Agent. And since a major cause of the midsummer waste is undoubtedly moldy bread, the home economists offer the following reminders for keeping bread: Store bread by the 3-C's rule—clean, cool, covered.

Best place to keep bread is in a refrigerator. Many housewives find it worth while to make room for bread in the refrigerator all the year around, since this storage retards staleness, as well as mold. Bread can be wrapped in moisture-proof paper or put in a covered dish.

Next best to refrigerator storage

is to keep bread in a clean, well ventilated box, in a cool place. If the box lacks ventilation, the lid can be propped open a little in hot weather.

If a tin container is used, wash it frequently in hot soapuds, rinse with boiling water, and dry thoroughly—preferably in the sun or an oven. Mold spores find lodging place in the seams.

Dispose of any spoiled bread at once, and clean the surroundings thoroughly to prevent remaining mold spores or other spoilage organisms from getting a fresh start. Although mold on bread is unpleasant to eat, it is not dangerous. So if mold affects part of a loaf only, cut the moldy part off and make good use of the rest.

Let fresh home-made bread cool on a rack in the air, before storing. Protect it from dust and insects, but do not cover during the cooling. Wrapping the hot bread in a cloth not only provides a favorable chance for mold spores to get a start, but tends to affect the crisp crust.

"Growing Old" by Robert C. Merdiss:

"They say that I am growing old; I've heard them tell it times untold in language plain and bold. But I'm not growing old; This frail shell in which I dwell is growing old, I know quite well. But I am not in the shell. What if my hair is turning gray? 'Gray hairs are honorable,' they say."

What if my eyesight is growing dim? I still can see to follow him Who sacrificed His life for me Upon the Cross of Calvary. Why should I care if Time's old plow Has left its furrows on my brow? Then how can I be growing old When safe within my Saviour's fold?

Ere long this soul shall fly away And leave this tenement of clay: "This robe of flesh I'll drop and rise. To seize the everlasting prize; I'll meet you on the streets of gold. And prove that I'm not growing old."

**Navy Orders
Retention Of
Hospital Help**

The Navy will retain all male Hospital Corpsmen who have completed less than 18 months of active duty, regardless of eligibility for discharge, Eighth Naval District Headquarters announced today.

"The Navy regrets that because of the large number of war casualties remaining in naval hospitals it is necessary to retain these men," the announcement said. The action will result in an additional one to six months of duty for some Hospital Corps reservists to provide service urgently needed for Navy sick and wounded.

A report of the Navy's Bureau of Medicine and Surgery revealed that on July 31 there were 33,000 naval personnel in Navy hospitals.

Demobilization of WAVES enlisted Hospital Corps personnel was not affected by the order, but a plea was made for voluntary postponement of demobilization for any period between Sept. 1, 1946 and July 1947.

Turning this a "critical period in postwar demobilization," the announcement requested commanding officers of Navy activities in the eight-state Eighth Naval District to encourage female enlisted Hospital Corps personnel to remain on duty.

Geo. Neels Attend Comanche Reunion Of Family Aug. 1-2

Ten children of the late L. A. Neel, father of George Neel of this place, of Comanche county held a reunion at the family home of their mother, "Aunt Jane" Neel in Guthrie on Thursday and Friday, August 1 and 2. Main event of the occasion was the celebration of Mother Neel's 90th birthday, which occurs in September, but was observed during the reunion. The family had not been together since 1924 when they had a reunion at Big Spring. A three tier birthday cake holding 90 candles centered the luncheon table at which some 80 people were gathered.

Children and families present were listed according to age as follows: Mrs. Bell Allison, Woodson; J. C. Neel, Los Angeles; Mrs. Gertrude McDonald, Gustine; Joe B. and H. M. Neel, Big Spring; George Neel, Cross Plains; Mrs. Fannie Barrett, Big Spring; Mrs. Bertha Johnson, Midland and Mrs. Ruth Jones, Fort Worth.

Beside her ten children, Mother Neel has 43 grandchildren, 59 great grandchildren and three great great grandchildren. Father Neel passed away in October 1944 at the age of 95 years, lacking 16 days. He and his wife both came to Comanche county about the time the county was organized, before their marriage.

"GET CLOTHES READY FOR SCHOOL" STATES JIM SETTLE, TAILOR

That satisfactory service pays in the long run is attested by J. L. Settle, local tailor. When visited by a representative of the Review this week and questioned as to where he gets so much business, Mr. Settle said: "All I know is we're doing our utmost to please and it appears that our customers realize and appreciate this, and keep sending us more and more work."

Mr. Settle called attention to the fact that students who are soon to begin another school term should check their wardrobes and get clothes in readiness. Many college towns are reported running weeks behind in cleaning, pressing and altering, and Mr. Settle says the Cross Plains plant will make a special effort to see that local boys and girls are taken care of before leaving home.

SCANNING THE HORIZON

"The stingiest man I ever knew," said the oldest inhabitant, "was old Jake Prescott, who used to run a hotel in this town. Jake kept everything in the place under lock and key, the result of which was that no hanger-on could get his hands on a newspaper, a bit of stationery, a free wash, or in fact, anything free at all. There were hardly enough chairs in the lobby to seat even the paying customers."

The old gentleman passed, evidently saving the best for the last. "Well, sir," he fully added, "to cap the climax, old Prescott came in one day and over the only clock in the place posted a sign reading:—"This clock for the use of hotel guests only."

It is said a \$100,000,000 loan to the new Philippine Republic has been proposed by Rep. Jasper Bell of Missouri. A resolution to authorize the loan said it is needed to assist the young republic during the early years of its life.

The resolution stipulated that the loan, or its equivalent in credit, be made available before July 1, 1947.

Russia is still planning to establish an air route along the Arctic areas from that country to the American continent and expects to have it in operation by 1950 according to recent reports.

During the past week a series of earthquakes occurred in several widely separated areas with more or less intensity.

The West Indies reported that the island of Santa Domingo suffered a disasterous shake-up with the loss of many lives and much property destroyed throughout the island.

In Chili the ministry of the interior reported a severe quake in which many were injured and two persons known to have lost their lives. The property damage was great and many buildings destroyed.

Earth tremors were also felt here in South Dakota. Several communities reported the tremors strong enough to shake buildings and awaken sleepers but no severe damage was reported.

Having dined in a restaurant with her husband, a woman jolted her gloves when she got way out. Muttering something to her husband, she hurried back to the table to look for them.

Not seeing them upon the table, she lifted the cloth and began to scrub about the floor.

PARAMOUNT'S 'O.S.S.' GUIDED BY O.S.S. MEN

Probably no other film ever received as much official sanction and cooperation as Paramount's "O.S.S." obtained from the office of Strategic Services in Washington. Not only was the intelligence service's name given the studio for use as the title, but the organization's declassified files were opened for Paramount's inspection and a number of its men were loaned to the production in a technical advisory capacity.

"O.S.S.", which co-stars Alan Ladd and Geraldine Fitzgerald and comes to the Plains Theatre Sunday and Monday, August 18 and 19, was written and produced by Lt. Col. Richard Malburn, and had the technical assistance of Commander John Shaheen of the O. S. S. Shaheen employed eighteen specialists, most of them former O.S.S. men, some of whom played small parts in the film.

TO THE PEOPLE OF THE 17TH CONGRESSIONAL DISTRICT:

In my "PLATFORM" I dealt only with the two greatest problems before our nation: how to preserve peace in the face of great danger; and how to preserve our political freedom by curbing bureaucracy and regulating unions.

I made it clear how I stand on the many concrete issues involved in these two great problems, and any one who votes for me knows what he is voting for so far as they are concerned.

I recognize, however, that there will be many other things of importance before the next Congress, and I am equally anxious that no one have any doubt as to what I will do about them.

In general, I am for any sound progressive measure, which will actually benefit the American people and will neither bankrupt nor enslave them.

FARM PROGRAM I am for the soil conservation program. I believe it should be controlled from the bottom by the farmers and ranchers, as it was originally intended to be, and not from a swivel chair in Washington.

I am for promoting maximum cooperation between federal and state farm agencies, to serve the farmers on a common sense basis and not dictate to him.

I am for building as many farm to market roads as possible as soon as possible. They will pay for themselves many times over.

More Straight Talk From Bill Blanton

TO THE PEOPLE OF THE 17TH CONGRESSIONAL DISTRICT:

In my "PLATFORM" I dealt only with the two greatest problems before our nation; how to preserve peace in the face of great danger; and how to preserve our political freedom by curbing bureaucracy and regulating unions. I made it clear how I stand on the many concrete issues involved in these two great problems, and anyone who votes for me knows what he is voting for so far as they are concerned.

I recognize, however, that there will be many other things of importance before the next Congress, and I am equally anxious that no one have any doubt as to what I will do about them.

In general, I am for any sound progressive measure, which will actually benefit the American people and will neither bankrupt nor enslave them.

FARM PROGRAM I am for the soil conservation program. I believe it should be controlled from the bottom by the farmers and ranchers, as it was originally intended to be, and not from a swivel chair in Washington.

I am for promoting maximum cooperation between federal and state farm agencies, to serve the farmers on a common sense basis and not to dictate to him.

I am for building as many farm to market roads as possible as soon as possible. They will pay for themselves many times over.

I am for extending rural electrification lines as soon as possible to bring electricity into as many farm homes as possible.

I am for extensive research and experimentation by the Department of Agriculture to find new crops and improve farming methods and

farm life. I am not only for these things, but what really counts is that I will fight for them.

In Washington the powerful lobby of the industrialists and the still more powerful lobby of the industrial labor unions always join forces to fight the farmer. Witness their joint fight against raising parity to compensate for increased farm wages. Witness their joint pressure which prevented surplus trucks, jeeps, weapons carriers, pick ups and other military property from being brought home and sold on the domestic market to ease the shortage. They preferred to let the goods, wantonly destroyed, rather than hurt their postwar industrial market.

With both the NAM and the CIO against him, the farmer needs a fighter to represent him in Congress.

LITTLE BUSINESS If I go to Congress I will do all I can to prevent Big Business and Big Bureaucracy from crowding little business to the wall.

If all business is concentrated in a few hands it will be easier for a socialist government to take it over and run it, and people will be more willing to vote a socialist government to take it over. Therefore socialists and communists who have infiltrated into key positions in labor unions and certain government bureaus are working hand in hand with big business combines to force the little man out of the picture. It's a case of both ends against the middle.

There have been several examples of such teamwork in the past few years, but none more outstanding than in the oil and grocery businesses.

The independent groceryman, narrowly missed extinction when a scheme to limit profits, under which only the chain store could possibly survive, barely failed to be put into effect.

The small, independent producer of crude oil upon whose activities the welfare of much of this district depends, has been severely hurt by the freezing of prices under conditions which greatly favored the major companies, with their pipe lines and refineries, and their vast resources.

Unless men are sent to Congress who know the score and who will fight against monopolies at every hand, all business will ultimately be under one great government monopoly, with the resultant loss of political as well as economic freedom, and the graft, waste, inefficiency, and low standard of living inherent in the socialist system.

The highest standard of living the world has known was developed by the free activities of countless plain Americans, each minding his own business according to his own best judgment.

VETERANS I am first and foremost for making adequate provision for those disabled in the war and the dependents of those killed. Those killed must not be forgotten just because they aren't here to speak for themselves and vote.

Beyond that, the ex-GI can depend on me to be his best and most active friend in Congress. I don't have to say that I understand the ex-GI, because I am one.

Ex-service men need ex-GIs in Congress to cut red tape for them and to get them the benefits to which they are entitled instead of the old go-around most of them have been getting. I learned how to cut the Washington brand of red tape from a past-master. Ask any ex-doughboy who had occasion to call on his congressman after the first world war.

OLD AGE PENSIONS I am for an increase in old age pensions, which have become grossly inadequate due to inflation.

INFLATION All pensioners, wage earners, and salaried employees are severely hampered by further inflation, to be brought on by a new series of strikes threatened by communists with the deliberate purpose of destroying our economy and creating chaos. In my "PLATFORM" I have set out 12 specific legislative measures which will forestall these new strikes if they are taken in time, and will put the unions back into the hands of the working men. I will push and fight for those measures.

I note in last week's daily papers that the railroad union heads have come out in favor of my opposition in this run-off. But that was to be expected, and doesn't worry me, because I do not believe that the people of this district will allow the railroad union bosses to dictate to them, any more than President Truman allowed them to. They are the boys who threatened to spend forty-seven million dollars to defeat him because he stopped the railroad strikes, and to spend two and a half million dollars to defeat congressmen who opposed them.

I believe you want a representative who is not under obligation to any such pressure group.

WILLIAM W. BLANTON.

DANIEL BAKER AND S'WESTERN MERGED

Daniel Baker College in Brownwood has merged with Southwestern University with provisions for continued operation of Daniel Baker in Brownwood under the sponsorship of Southwestern, according to an announcement last Saturday by the Board of Trustees of Daniel Baker, who stated that the merger culminates long efforts and meets with the hearty approval of board members.

J. N. R. Store, president of Southwestern of Georgetown, states that while it is too early yet to announce complete plans for the operation of Daniel Baker, it will be the purpose of Southwestern to continue the college at full capacity and in such a manner as to do full credit to the long and honorable traditions of Daniel Baker.

He stated that indications are the women's dormitory will be filled for the opening of the fall semester, and that already negotiations are underway and applications have been filed for surplus government houses to be used on the campus as class rooms, living quarters and other facilities.

Daniel Baker is the fifth college now a part of Southwestern. In addition to the College of Arts and Sciences and the Schools of Fine Arts at Georgetown, junior colleges are operated at Weatherford (Weatherford Junior College) and Tascamona (Westminster College).

H. E. Minix Funeral Rites At Sabanno Tues.

Funeral services for Henry E. Minix, 49, who passed away in Amarillo on July 12, of a heart ailment, were held from the Sabanno community church at 5:00 Tuesday afternoon, August 13, with Rev. D. L. Barnes, local Methodist pastor, officiating; assisted by Rev. and Mrs. J. L. Glenn of this city, who had charge of the song service. Burial was in the Sabanno cemetery.

Born at Sipe Springs in Comanche county on November 2, 1896, he was a member of one of the most prominent families of Comanche and Callahan counties in earlier years before the family moved west.

He married the former Miss Ray Erwin of Sabanno on July 28, 1918 and to the union three children were born, only one son, Fred Milton Minix serving in the Navy at Camp Wallace, of whom survives. He was converted in early life and united with the Methodist church, remaining a consistent worker throughout his lifetime.

Beside his wife and son he is survived by his parents, Mr. and Mrs. T. N. Minix, Sr. of Sweetwater; eight sisters, Mrs. Edwin Erwin of Sabanno, Mrs. C. H. Moore of Hobbs, New Mex., Miss Nellon Minix of Sweetwater, Mrs. O. G. South of Roscoe, Mrs. T. L. McBeth of Sweetwater, Mrs. Gene Cantrell of Snyder, Mrs. M. B. Gardner of Houston and Sgt. Helen A. Minix of Beaumont Hospital at El Paso.

Two brothers, G. K. Minix of Abilene and Rev. T. N. Minix, Jr. of Ballinger.

Full bearers were Ralph Erwin, Ted McBeth, Bobby Erwin, Billy Hill, Glenn Erwin and Nathan Foster, Frances Ellen Little, Doris Little, Peggy Hill, Rebecca Ann Minix and Vesta Jean Erwin, all nieces.

Peanut Farmers To Realize More For 1946 Crops

Peanut farmers, according to James E. Wood, president of the National Peanut Council, will realize more for their 1946 crop than ever before in peanut history. "With the United States Department of Agriculture setting parity on July 15, 1946 at 9.55 cents per pound for peanuts of the 1946 crop and the Commodity Credit Corp. offering both a loan and purchase support program guaranteeing 90 percent of this price to farmers", John son says, "Southern growers will realize more from the present crop than ever before."

"Although farmers received near-

ly 100 percent of the July 1945 parity of 8.52 cents per pound on the 1945 crop and are guaranteed only 90 per cent of the July 1946 parity, the average net return to farmers will be greater than in 1945", Wood states.

The Department of Agriculture purchase and loan support prices run as follows; base grade per ton for peanuts containing less than three percent damage and less than six percent foreign material will bring \$174 for Spanish and Valencia east of the Mississippi; \$172 for Spanish and Valencia west of the Mississippi; \$157 for runners, and \$171 for Virginias.

FACTS ON THE GOVERNOR'S RACE

Homer P. Rainey wants to abolish the Poll Tax, which is a license, that every person 21 to 60 years of age, has to pay in order to have a voice in selecting every office holder in Texas. Homer Rainey wants the right and privilege of voting extended to every young man and woman of 18, 19, and 20, instead of 21, as the law now stands. If old enough to "Fight they are old enough to Vote." These fine young men and women who entered the Armed Services of their country are now denied this privilege. Is it right? These fine young soldiers now have their hands tied, waiting for their 21st birthday. Homer Rainey will help you get this all changed.

Do you believe that the Natural Gas, Oil and Sulphur piped and shipped out of Texas, should contribute to the farm to market roads, schools, hospitals and higher pensions? Rainey believes the great underground storage of Texas minerals should be shared with all the people.

Mr. Jester

Elected your Railroad Commissioner as the farmer-rancher from Corsicana, drawing a salary of \$6,000.00 a year, wants to hold two jobs, or the right to appoint a Railroad Commissioner of his own choosing, without giving the voters an opportunity to select a man of their choice for this important office. The State Observer, published at Austin, says Mr. Jester was Attorney for the Southern Pacific Railroad, The Greyhound Bus Lines, and the Magnolia Oil Co., before taking the job of Railroad Commissioner; that Mr. Jester has worked for higher oil prices all the time. Why did gasoline go up a cent a gallon right after the primary? Who pays the bill? Will it go up another cent or two cents per gallon after August 24? The State does not profit in these price rises. Ask Mr. Jester.

YESTERYEAR
 IN THE OLD HOME TOWN

Interesting happenings of the old home town, taken from files of the Review twenty years ago under date of August 11, 1925.

Cross Plains has two of the best gins in this section of the state. The operators know how to gin cotton and have the machinery to do it with right — and they do.

Both gins are cleaning up, making new improvements and getting ready for the ginning season.

Since recent rains here the estimate on cotton production has been raised and several thousand bales will be produced here this year, it is stated.

Born to Mr. and Mrs. Jeff Clark August 5, a boy.

A letter to the Review from Barry Bros. headquarters at Comanche states that they are "going right ahead" and put in a twenty ton ice plant here, so planned and arranged to add to its capacity as the growth of the town demands. They have recently finished a brick ice and cold storage plant, and the entire town will welcome such a home ice manufacturing plant as they have decided to establish here. When Barry Bros. build, they build right and they build in good towns.

A twenty ton ice plant represents big money, and the Company would not erect such a plant here if they did not believe in the future of the town at all.

Cross Plains needs a sanitarium, a brick hotel, paved streets, sanitary system, a little more punch and that is all today, thank you.

EQUALIZATION BOARD IS NAMED BY SCHOOL

A board of equalization for Cross Plains Independent school district has been appointed and will set a late soon for the adjustment of tax valuations within the district. The board is to be composed of Virgil Fulton, Edwin Barton, Jr., Frank Spencer, Joe Lilly, W. D. Smith and C. M. Garrett.

Rev. D. L. Barnes was in Gorman last week and visited Mrs. Doyle Burchfield in the hospital there.

Mrs. George Scott, Mrs. Mike Cook, Mrs. Peyton Smith and Mrs. Kate Powell were in Fort Worth last week.

RUPTURE SHIELD EXPERT HERE

H. M. SHEVYAN, widely known expert of Chicago, will personally be at the Commette Hotel, Eastland, Saturday Only, August 24, from 9 A.M. to 1 P.M.

Mr. Shevyan says: The Zeotic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevyan will be glad to demonstrate without charge. 6509 N. Artesian Ave., Chicago 45. Large incisional hernia or rupture following surgical operation especially solicited.

Sour Cream Saves Salad Oil
 If cream turns sour, put it through a strainer and use it in saving other fats and oils now in scarce supply. Even a half pint of sour cream can make enough dressing for salad to serve six, thus saving salad oil. Loreta Allen, County Home Demonstrator Agent suggest a recipe that is especially good for a chilled fruit salad follows: Use 2 whole eggs or 4 yolks; 1 1/2 cup vinegar; 1 cup sour cream; 1/2 tablespoon sugar; 1/2 teaspoon salt; 1 1/2 teaspoon mustard; 1/2 teaspoon paprika. Beat the eggs and add the other ingredients. Mix thoroughly. Cook in double boiler and stir constantly until the mixture thickens. Chill before serving on chilled fruits.

For Preserve Making

Notes From H. D. Agent

LORETA ALLEN
Sour Cream Saves Salad Oil
If cream turns sour, put it to good use in saving other fats and oils now in scarce supply. Even a half pint of sour cream can make enough dressing for salad to serve six, thus saving salad oil. Loreta Allen, County Home Demonstration Agent suggests. A recipe that is especially good for a chilled fruit salad follows: Use 2 whole eggs or 4 yolks; 1-4 cup vinegar; 1 cup sour cream; 1-2 tablespoon sugar; 1-2 teaspoon salt; 1-4 teaspoon mustard; 1-8 teaspoon paprika. Beat the eggs and add the other ingredients. Mix thoroughly. Cook in a double boiler and stir constantly until the mixture thickens. Chill before serving on chilled fruits.

For Preserve Making
The possibility of the tomato in commercial preserve manufacture have never been realized, say plant scientists of the U. S. Department of Agriculture, even though tomato preserves and conserves have long been made in the home. Yet the tomato has many qualities that make it a good base for fruit spreads. In some ways is, in fact, a better base than apple which is used commercially in large quantities for this purpose. Tomatoes are the cheapest of all fruits to grow, have bright color, pleasant acidity, and mild flavor that blends well with other fruits and is "covered" easily by more delectable fruit flavors.

Although tomatoes lack the pectin content of apples, they may be jelled by adding pectin after they have been heated. Heating is necessary, the scientists explain, to prevent the action of certain enzymes in raw tomatoes which destroy the jelling powers of pectin. One reason that tomatoes have never been taken up by preserve manufacturers may be that home recipes have specified "small yellow" tomatoes—the small fruited cherry, pear, egg, and plum types, canning and slicing varieties of large tomatoes, which are most widely grown and therefore most plentiful and lowest in cost, have been considered only as vegetables and thus unsuitable for sweet fruit spreads.

This idea was disproved by recent tests of tomato preserves at the U. S. Department of Agriculture. The scientists used about 30 different varieties, ranging from the big Beefsteak and Pan American tomatoes to the very small cherry types. Judges tasted and scored preserves on flavor, color, texture and general desirability. Some of the small, sweet, red Italian varieties, used largely for tomato paste, ranked first along with the small yellow pear types. But running a very close second were several of the big, red, thin-walled tomatoes. The latter broke up more in boiling and made a thinner product than the smaller tomatoes, but this was not a serious disadvantage.

Whether the trade ever adopts the tomato for preserve manufacture, the housewife at least need no longer feel obligated to grow special tomatoes for preserves. She can use the same tomatoes which she now uses for salads and canning.

Senator Allan Shivers, in thanking the voters of Texas for the heavy lead they gave him in the July primary to make him the favorite candidate for lieutenant governor, also warned citizens that attempts will be made by "scheming minority pressure groups" to defeat him in the August 24 runoff.

The Jefferson County legislator, lawyer and farmer, pointed with pride to the overwhelming support which he received in his present home county and in the country where he was reared to manhood. Shivers, a World War II combat war veteran (the only veteran in this race), polled approximately 75 per cent of the votes in Jefferson County, his present home, and was a 25 to 1 favorite over his runoff opponent in Tyler County, where he spent his youth. Senator Shivers led his runoff opponent by approximately 100,000 votes in Texas.

"I am deeply grateful for the confidence the people of Texas have shown in me and the progressive program for Texas which I advocate," Shivers said. "I shall strive even harder to work for the welfare of Texas."

"Because I represent the masses of the people, there will be those in the runoff campaign who will conspire to defeat me," Shivers predicted. "I will not be swayed by these radical, minority groups—the C. I. O. noisemakers in particular. My opponent is welcome to the support which they are giving him. I will continue to fight for the right and welfare and progress of our people who make up the backbone of Texas."

Memoirs Of A Pastor

By Flaure Jackson
I am glad to present to our many readers of the Review the memoirs of another pastor, Dr. J. L. Glenn. Dr. Glenn is a native of Texas, reared in the Panhandle. He has an A.B.A. Degree from Trinity University and did post graduate work in several schools, including Cincinnati University.

In 1926 he became pastor of the Presbyterian church at Everglades, Florida, which church is in the heart of the Seminole Indian country.

Because of his interest in the Seminole he was appointed their special commissioner under the Bureau of Indian Affairs. This was in 1931.

The rapid settlement of Florida during the following years exhausted the Indian's way of making a living, so Dr. Glenn, with the help of others, established a new reservation on the North West shores of Lake Cheechotee and stocked it with 1,300 cattle. This stock ranch sold \$30,000 worth of surplus cattle last year.

Dr. Glenn does a very large field of labor. He is now interested in the silk worm industry.

Fifty-four years of age, with Scotch blue eyes and brown hair, the 5 ft. 6 inch member of one of the country's "best" families has evolved to the present status of pastor of the Cross Plains Presbyterian church, through a wide variety of experiences. He believes that the world badly needs adjustment and requires pastors who will go at the thing without fear of grease or bruises.

KERMIT PIERCE FEETED AT NIMROD HOME SUNDAY

When Actor Naish Plays A Butler - He Really Butties

For one day only, Tuesday August 20, J. Carrol Naish, the nimble fingered butler in Edward Small's madcap comedy, "Getting Gertie's Garter", starring Dennis O'Keefe and Marie Mc Donald, coming to the Plains Theatre through United Artists, has been a man of many theatrical moods. He has played all kinds of roles, Meanies, crooks and lovable fathers. But it was something new for him to don a butler's uniform.

Naish, and actor to his shoelaces, enthusiastically took up the challenge. It takes more than a white tie, tails and a serviette to make a butler, however, and he was determined to find out what that "more" is. So he brought his own butler, Tom Bronson, to rehearsals to give him the "technical low-down on how a butler butties."

In "Getting Gertie's Garter," Naish butties for Binnie Barnes and Jerome Cowan, scandalous Marie Mc Donald and Barry Sullivan are staying with them the night before their wedding. Also guests in the house are Dennis O'Keefe, who is to be the best man and his lovely young wife, Sheila Ryan.

An amorously-inscribed garter, given to Marie by Dennis when they were both free and single, nearly breaks up the party.

Dennis wants Marie to return the garter, which has popped up in a larceny case, so he can destroy it before it destroys both his marriage and career. And Naish, the butler, has a little scheme whereby, if he can get the garter, he can earn a little hush-money. The ensuing scramble adds up to a hilarious entertainment.

For the first time in his theatrical career, turns in a performance that out butties even the Adorable Orlin.

If you like a fast moving comedy, don't miss this one, comments the local manager.

BIRTHDAY DINNER HONORS ED BUSH

Ed Bush, who lives five miles north of town, was honored on his forty-fourth birthday last Sunday, August 11, with a surprise dinner at his home.

While the meal was being prepared Mr. Bush was called away from the house by his son, Clarence. The lovely cake covered with 64 candles, that centered the table was baked by Mrs. Clarence Bush. Other members of the children brought covered dishes and surprised both Mr. and Mrs. Bush.

Those attending were Will Bush, brother of Ed Bush; Mr. and Mrs. Weldon Biggs; Mr. and Mrs. R. Lester Bush and sons, Mr. and Mrs. Clarence Bush, all children of Mr. and Mrs. Bush and Mr. and Mrs. Elbert Pierce of Cisco, Mr. and Mrs. Herman Heine and Mr. and Mrs. Horace Wood of Cottonwood.

The honoree received a number of nice gifts. In the afternoon the youngsters played games and older ones talked over old times.

C. D. LANE ATTENDS LAMPASAS REUNION

C. D. Lane attended the Alfred Lane family reunion at Red Bluff in Lampasas county on Antelope Creek Monday, August 12. Earl Pyle and Mr. Edwards accompanied him. Alfred Lane was the grandfather of C. D. Lane, who had the distinction of being the only descendant present carrying the Lane name, and came to Lampasas county in 1826 from Alabama. Eighty-nine grand children and great grand children were present from Dallas, Brownwood, San Saba county, Goldthwaite, Houston and Cross Plains.
