

THE CROSS PLAINS REVIEW

VOL. VII

CROSS PLAINS, TEXAS, FRIDAY, NOVEMBER 24, 1916.

NO. 38

CROSS PLAINS A "HAMMER"

That Cross Plains is a trading point of not inconsiderable importance will be admitted by any who were here Monday. It was a big day, and yet we have had as large crowds on Trades Days before.

We will not hazard a guess at the number of people present,—our little experience in estimating crowds might make us blunder—but about all the folks were here that could be accommodated. All available room for horses and vehicles was taken; the jockey yard was extended to the depot and was filled to its capacity; the sidewalks were crowded with men, women, and children, and our numerous, commodious, and well-stocked stores, with lots of extra help for this day, were taxed to the utmost to care for the eager buyers of merchandise.

Very little cotton was brought here, the crop is about marketed. Peanuts, however, showed no sign of being anything like nearly harvested, the streets being full of wagons laden with this now precious nut, which were sold to the tune of \$1.20, on an average, per bushel. Mr. Payne, the weigher, was fairly swamped with wagons, there were so many of them. Even oats and wheat were sold, such is the diversity of our crops and the greatness of their yields.

All merchants report good business. Just about as big a day's business as could be taken care of is reported by all. The banks report big collections; The Review its biggest subscription day, and everything is good and "the goose hangs high." Never let an opportunity slip to visit Cross Plains.

TEACHERS' EXAMINATIONS

The County Board of Examiners will conduct an examination for teachers' certificates at the public school building on Thursday, Nov. 30, permanent certificate subjects; on Friday and Saturday, Dec. 1, and 2, second and first grade certificate subjects. Bulletin No. 50, which explains fully, can be gotten from the State or County Superintendents on request.

Respectfully,
S. Ernest Settle, Co. Supt

C. P. BOYS "COMING BACK"

Our school boys are "coming back" as basket ball players. Thursday of last week they defeated the Clyde High School team by a score of 29 to 14. On Friday they triumphed over the Sipe Springs school bunch to the tune of 7 to 14. Our boys are very proud of their victories. They will play return games with these teams.

MARRIED

On Friday, Nov. 17, Edwin Erwin, son of Mr. and Mrs. J. S. Erwin, and Miss Mamie Minix, daughter of Mr. and Mrs. T. N. Minix, all of Sabanno, were married, Rev. W. E. Green officiating. The young couple are of the best families in the Sabanno country, and have the best wishes of everybody for a long and happy life. They will live on the Grandpa Erwin farm.

GOOD PECANS

J. A. Ayers of Cottonwood was here Monday investigating the pecan market. He stated that he had one double tree in his field that yielded this year 270 lbs. of good nuts. His trees on the creek practically failed.

WASTE NOT, WANT NOT

and this is more true of money than anything else. It's awfully easy to waste money, just merely by paying more for goods than they are worth. When you trade here you never waste a penny—everything is at rock bottom prices here all the time.

HONOR ROLL

The Honor Roll is growing, we are glad to say. It must, however, maintain a pretty good size to offset the ever-rising price of news print. The Review is still but a dollar a year, and yet a good many, thru clubbing offers, pay but seventy-five and fifty cents for The Review.

J. M. Rouse of Atwell was here Monday. While here he paid for his Review, and said "let her continue to come."

T. F. Mercer of Atwell, who is a regular Trades Day visitor, paid for his Review and Dallas News on Monday. He trades in cattle a good deal. He must be doing nicely, as he stated that the dollar he paid us was the last one he owed. Too few can say as much.

J. Haley of Atwell Monday paid but fifty cents for the Review, taking Farm Mews and the Evening Journal in connection therewith. He says he has found out that he must keep The Review coming to his address.

Walter Causey, who is teaching in the Clyde schools and who attended the institute here last week, paid for The Review to visit him for six months.

G. H. Keller of south of Burkett, commissioner of his precinct, paid for two years of this sheet last week. He says he didn't want his paper to stop. George has been buying more land this year, getting fifty dollar stuff this time. High-priced cotton is helping him.

A. E. Holden of Sabanno sold tur-

is a very liberal estimate as to the cost of silage. THINK of the Difference in food value in a ton of silage and a ton of hay! Then THINK of the difference in cost between a ton of silage and a ton of hay.

The farmer who sticks to hay, without silage, is at a ruinous disadvantage. He may think he can compete by the use of sheer physical force; this is the day when mind is controlling all the physical forces. He who would succeed must, thru enlightenment and scientific methods, utilize all forces with which he is in contact.

GOOD RAINFALL

Tuesday and night a 1 I-4 inch rain fell in Cross Plains, a better fall being reported toward Cisco. The rain was pretty general, according to reports. Plenty of stock water is now available. Better season for fall sowing of grain is had also.

ENTERTAINED

Last Tuesday evening Mrs. J. H. Causey entertained the faculty of the Clyde High School and County Supt. Settle with a six o'clock dinner.

Those present were Misses Jewell Shelton, Nellie Kirpatrick Septima Smith and Mrs. Eva Stone and Messrs S. E. Settle, J. E. Temple Peters, C. E. Adams and Walter Causey.

A Guest.

nips here last Saturday and while here remembered The Review with a dollar on subscription and a mess of said turnips, both of which were duly appreciated. He states that he has had good luck with his turnip crop.

Ausey Woodridge of Cross Cut very agreeably suprised T. R. man Saturday by hailing him and giving him a dollar for the Review. You see he was not taking the paper and we didn't have to work him for his subscription.

Likewise, H. L. Walker of Sabanno subscribed for the paper unsolicited. He has been seeing The Review occasionally.

E. D. Rone of Sabanno Saturday paid for a year's Review. He has been out threshing peanuts, and is not yet thru.

Otis Odum of Burnt Branch has paid for T. R. and Dallas News. He finds The Review worth continuing.

Mrs. Bluford Webb has renewed T. R. for father Ben Acker of Elida, N. Mexico. Mr. Acker is an old timer here, and is glad to get a home paper.

CROSS PLAINS, TEXAS.

We club The Review with all papers and magazines.

At least the problem of stock water is solved temporarily. The rain was "fine and dandy," and was much appreciated by most of us.

People generally appreciate The Review—a glance at the Honor Roll indicates as much—for which the management is grateful.

Don't be a pessimist and a knacker. Life is short and only ennobling and uplifting thoughts should find lodgment in your brains.

The number of people here Monday is some indication of the town's popularity in this section. Folks were here from far beyond the dividing line with surrounding towns. One man from Baird stated that there was no comparison in the crowds this and his town has on their big days. Another party from Brownwood asserted that our Trades Days attract bigger crowds than do the trades days in his town. And nothing of a disparaging nature meant to be said of these other towns—not that they are not good but that this is a very good town. Come to Cross Plains every chance you get.

WHO NEEDS IT WORSE?

Who needs a thorough course of Farm Bookkeeping and Business Training worse than the farmer? No one. That is just why the Tyler Commercial College gives, in connection with its course of Bookkeeping and Bookkeeping and Business Training, without extra charge, a series of lectures on systematic Farming and a set of books especially adapted to farm accounting. The farmer who at the close of each day's work makes a complete record of everything done during the day, its cost etc., is learning to study the details of the business, to watch and observe the little things, and he is compiling valuable information for reference, and at the end of the year, he knows just what each crop has cost him; where his gain and losses come from, and by his close study and application, he will the next year lessen the losses and increase the gain. The farm needs the trained mind as well as the store or the railroad office. The farmer needs to be able

to write a good hand, to spell correctly, to figure rapidly and accurately, to know how to write deeds, or to know when they are properly written, to write mortgages, notes, contracts, etc. We would advise our young men who are farming or who expect to farm to give this matter careful consideration. We also give a thorough course in the Classing and Marking of Cotton, a subject of vital importance to our young men. The Tyler Commercial College has had many a young man to take the business course with the sole aim of going back to the farm and making the best farmer in the community, and a leader in all progressive movements.

Write for catalogue, to the only commercial school in this country that is devoting any attention whatever to this subject, mentioning you are interested in Farm Accounting or Cotton Classing. The Tyler Commercial College of Tyler, Texas.

WANT TO SELL YOUR LAND?

Realizing that the town and this territory need the services of a firm that will handle real estate, we have decided to engage in that line of work. Our experience in similar work and our present employment should help us in this work. Your co-operation we want and must have. We will do our best to protect every interest confided to our care. No big things promised.

If you have land, town property or other property to sell, give us the job of finding you a buyer; if you want to rent a house in town see us. We will serve you if you will give us a chance.

What is the definition of CHEAP Paint?

A paint that is inferior in quality and does not prevent decay as does a lead and zinc paint; takes more gallons and costs more to apply.

DEVOE'S LEAD & ZINC PAINT

We have handled it for 10 years and unhesitatingly guarantee and recommend Devoe's lead and zinc paint to be the most economical and satisfactory to buy and use.

PRESENT

Prices can live only a little longer

It's only a matter of days now until present prices on all goods will have to be advanced to a much higher level.

Lots of goods are now being closed out and as new goods come in to take their place, prices will have to be advanced in accordance with the new prevailing market prices. It will pay you to borrow money at 10 per cent interest and buy goods now to supply you for all next year.

We can only keep prices down as long as our present stock lasts. When it is gone, and its going fast, we will be forced to get the present prevailing market prices, and they are, in almost every case, higher wholesale than we are now selling retail.

Better take this tip and buy your winter clothing, shoes and dry goods now!

Shoes Shoes Shoes

We certainly invite a comparison of qualities and prices on shoes. Our lines of shoes are all of specialty make and we bought them early last spring before the heavy fall advances came. Consequently we are giving our customers the advantage of our early purchase at the last year's price.

Be sure to get our shoe prices before buying.

Men's and Boys' Clothing

We still have a fairly big stock of clothing yet, though the last few days selling has reduced it wonderfully. We want you to compare the quality of our suits at the prices we quote with prices of others. If we don't give you better quality at the same prices we don't ask you to buy from us. Come look at them. We can save you money. Our customers had rather have them than tailor made suits, because ours fit better and give better service.
