Woodson Producing Co. Buys Teague Building on Main St.

In a deal completed here last week, the Woodson Producing Co., of this city, purchased the building belonging to S. C. (Johnny) Teague, located on South Main street here.

The firm will use the building to house its offices and also a repair shop for its oil field drilling equipment, and expects to start moving into the new quarters next week.

Present plans call for some remodeling of the building and according to Neal Dillard, field superremain in the building. T. R. Montgomery, owner of the Montgomery Garage, now located in the rear of the building, stated that he would move this week and hoped to have new quarters arranged for before the

For the past several months the Woodson Producing Co. has transacted its business here in the offices of the Big D Drilling Co.

Lakewood Country Club Now Ready For Local Dubbers

Officers of the Lakewood Country Club, situated about mid-way benounced this week that the course be open. has been completely reworked recently and is now in good shape for

once one of the most popular ninehole golf courses in West Texas, has not been in use by the membership for nearly two years, due to the fact that the lake, its only source of water, dried up and left the course to burn up under the blistering skies of the past two seasons. However, rains which fell over the watershed during the latter part of May and June, filled the lake and officers immediately began readying

the course for play again. According to the report issued here this week, the greens have been watered and mowed, the fairways have all been mowed and the tee boxes are now being repaired and the course is said to be in pretty fair shape.

Club President A. A. (Banty) White, of Rising Star, stated this of an excellent golf layout.

Lake to Be Restocked Commission has agreed to re-stock kept a healthy place to live. the lake with game species of the finney tribe and it shouldn't be too Hillbilly Program at City long until the club members will again have excellent fishing.

Castor Bean Hulling Plant To Be Opened of the Krell Insurance Agency will Here Sept. 1 According To Announcement

Announcement was made here Monday of this week, stating that the Pacific Vegetable Oil Corporation of San Francisco, California, will open a castor bean hulling plant

here September 1. O. D. Strahan of this city, who worked in the local plant for the Commodity Credit Corporation last year, will be in charge of the plant here and also one to be located in Carbon, it was said.

Location for the plant has not been definitely decided, as yet, and manager Strahan stated that he would make an announcement regarding this in the near future. He stated that the local plant will be in operation three days a week and the plant in Carbon will operate the other three days and growers will be notified through this paper as tween here and Rising Star, and to which days the local plant will

Strahan stated that growers will be paid at the plant for their beans. He said that a total of 85 tons of The former Philpeco Country Club, castor beans were hulled at the local plant last year and that the crop appears to be larger this season. However, the number of beans to be harvested depends a great deal on weather conditions during the balance of this month. If additional moisture is received. Strahan stated that a large second crop of beans would be harvested.

Growers are guaranteed a price of 9 cents per pound for their beans and Strahan stated that his company would pay highest market prices at all times. Hulling charges have been set at 50 cents per hundred, according to the announcement.

City Council Sets New Permanent Water Rate

Mayor S. F. Bond stated this week that the City Council, meeting in regular session at the city hall last week, took up the matter of setting a new water

According to Mayor Bond, the emergency rate of \$1.00 per 1,000 gallons imposed by the council to discourage excessive use of existing supplies during the critical shortage period the latter part of June, has been discarded and a new permanent rate structure of 60 cents per 1,000 has been levied. The minimum of \$1.25 for the first 1,000 gallons was left as it has been

The new rate is necessary, according to Mayor Bond, to allow the city to make a profit. He stated that the old rate of 35 cents per 1,000 gallons just barely covered the cost of operation of the city waterworks. Profit from the sale of water will be used, he said, to explore for additional supplies to insure city consumers of an adequate suply at all times.

Mrs. Eloise Bond **Buried Here Saturday**

Mrs. Eloise Bond was laid to rest in the Cross Plains cemetery Saturday afternoon following services at the Higginbotham Bros. Funeral Chapel at 3 o'clock. Rev. C. Y. Butler, pastor of the Cross Plains Methodist Church officiated.

Mrs. Bond, who lived alone, was found dead in bed Friday at noon when a neighbor called by to leave her land. Attending physician believed her to have died sometime during Thursday night or Friday morning early.

Survivors include a niece, who resides in Georgia.

Large Crowd Of Pioneer Residents To Meet For Annual Reunion At City Park Friday

War-Kirk Field **Draws New Projects**

Cannon Driling Co., Abilene staked a new location eight miles west of m. Cross Plains in the War-Kirk Field. contracted for 1,850 feet with rotary. Drillsite is 2,546 feet from the west of the largest crowds in the history and 1,229 feet from the south lines of J. H. Pickens Survey 221.

Two more new projects have been staked on the east side of the War-Kirk Field in Callahan County six miles northwest of Cross Plains. Both will be drilled by Big D Drilling Co. of Cross Plains.

No. 1 S. T. Swafford is to be 950 feet west and 150 feet north of the northwest corner of Victoria County School Lands Survey 217, but in John H. Pickens Survey.

Proposed depth is 1,900 feet. Also slated for that depth is the No. 1 L. L. Montgomery, 150 feet from the west and 3,350 feet from the north lines of Victoria County School Lands Survey 217.

Johnson & Warren No. 5-A Fred Heyser, R. Green Survey 220, War-Kirk Cross Plains Sand Field project eight miles northwest of Cross Plains, daily gauge was 240 barrels of 44 gravity oil through a 1-4-inch choke with 280 pounds casing and 60 pounds tubing pressures. Having a gas - oil ratio of 350-1, the well is producing from an open hole at 1,787 - 90 feet.

Buy Seed For Fall Cover Crops Now

Now is the time to secure seed for the planting of fall cover crops. Weather conditions make all rules vary. Most of the time early seeding allows enough growth to be made to give good protection to the soil and also some grazing for livestock during the fall. Plantings made between the middle of September and the last of October are considered Cross Plains Fire Dept. 25.00 early plantings. These early plants L. W. Nixion 5.00 are large enough to withstand the cold weather much better and in of the cemetery, come around and E. O. Adams over the week end. turn are more vigorous so as to be- donate to the fund, V. C. Walker, gin their main grawth earlier in chairman, states. the spring.

Land that is now seeded to peanuts, cotton or late planted feed probably cannot be seeded early made through December in this section. Buying of seed and fertilizer early helps in being ready to plant when crops are harvesetd.

Small grains such as wheat, oats, barley and rye are very satisfactory in preventing the blowing of sandy soils. The addition of a legume such as vetch or winter peas has proven to be desirable for soil improvement in this area. Vetch or winter peas alone or in a mixture with small grain may be seeded in regular width rows on our heavier soils.

Legume seed should be inoculated before planting. An application of super-phosphate should also be made when these winter legumes are seeded.

ATTEND FAMILY REUNION Mr. and Mrs. George Neel were

in Gustine Thursday of last week to attend a reunion of Mr. Neel's family, descendents of the late Mr. and Mrs. I. A. Neel. Mr. and Mrs Neel reported a most enjoyable day with nine of the ten Neel children

Fred Stacy Bruised In Fall From Horse

Fred Stacy, popular farmer, residing a few miles southwest of town, was hobbling around town here Monday of this week, using a cane to aid himself in walking.

The story he tells concerning the accident, goes like this: he was astride his favorite steed and was attempting to pen a cow which was suffering with pink eye and evidently came upon the animal on her blind side as he reports that the cow ran into his horse in making a break for freedom, knocking him off the steed on his head. The horse stepped on his hip and back before it could stop.

A medical examination failed to show any serious injuries but Fred says he is "sore all over." While we have only his word

on the matter. Fred is known to be an honest man in these parts and we join his many friends here in wishing for him a speedy recovery.

but successful plantings have been BAYOU PHILOSOPHER HAS NEW IDEA FOR MEETING WASHINGTON OBLIGATIONS WITHOUT NEW TAXES

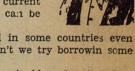

Editor's note: The Bayou Philosopher on his Johnson Grass farm on the Bayou has had some impossible ideas in his time, but this one must top the list.

I was out here yesterday afternoon sittin in the shade worryin about the national debt, I find it's a whole lot more restful to worry about the national debt than the private debt, impersonal thinkin is a lot more effective and trouble-free than personal thinkin, I know lots of men who can come closer to settlin Washington's financial difficulties than they can their own, and along about sundown I noticed a cow sniffin at something in the weeds and when I got up to go home I walked over there and discovered it was a newspaper and I picked it up and put it in my pocket and after supper I read where some emissary from Washington was just back from South America and he reported what that country needs is some cash from this country. "If South America could manage a little financing from the United

States, it'd be a big help in fightin Communism and building a stronger

country," the representative said. I've been thinkin. Now South America ain't the only country which could use a little cash. As ! understand it, the United States could, too. I notice that President Eisenhower is strugglin with the problem

of balancin the budget and has already found out we've promised to spend more money in the next few months than we got comin in and a special session of Congress may be necessary to raise the debt limit so we can borrow a little just to meet our current obligations, until some new sources of revenue can be found or the expenses can be cut. I know this may sound revolutionary and in some countries even

inhuman, but what I'd like to know is why don't we try borrowin some money from a foriegn country ourself? We've had every kind of representative imaginable goin abroad to

see which country needs to borrow from us, and now that we're a little hard up for some ready cash ourselves, why don't we send out a borrowin mission of our own?

Or, to save a little money, why couldn't we just wire the fellows we already got abroad to stop lendin and start borrowin?

I know it would spread consternation abroad quicker than the news we'd discovered how to mass produce atom bombs at two-bits apiece and were gonna make practice drops clear around the world just to see what happens, or it might be like you announcin your paper was Montgomery, Alabama, spent the gonne publish a list of all the past-due accounts owed all the stores in Cross Plains next week, but in desperate times desperate actions sometimes are called for.

If you think this borrowin mission has any merit, let me know, and if Washington can't find anybody trained in borrowin to send Mr. and Mrs. Ray Curry and abroad, I'll go. I've had considerable more experience borrowin than

SEE THE NEW McCORMICK FARMALL SUPER C With FAST HITCH

Fastest, Easiest Way . . . To Hitch Implements You Have Ever Seen!

Here's the most important development in power farming since row-crop farming was mechanized by the Farmall tractor! It's the Farmall Super C with Fast-Hitch, Fast-Hitch is more than a quick method of attaching implements. It's a complete system of implement hitching and control which puts hydraulic power to work for you in more ways than ever before. Now, for the first time, implement operation becomes completely hydraulic.

MEASURE EASE AND SPEED

Compare the time it takes and how easy it is to hitch implements and go. See how Farmall Fast-Hitch eliminates the time-taking manual adjustments required with most other hitching systems.

MEASURE JOB RANGE

Compare the number of jobs you can do with McCormick Fast-Hitch implements and the Farmall Super C. See how much more productive working time you have in an hour or a day and how much easier jobs become with this new and years-ahead system of hitching and controlling implements.

MEASURE FIELD PERFORMANCE

Compare the quality of work you can do with McCormick Fast-Hitch implements. See how they retain the time-tested, field-proved features of McCormick equipment. Field performance has not been sacrificed for speed of hitching.

MEASURE ECONOMY

Compare the low cost of McCormick Fast-Hitch hydraulic-controlled implements. See how Fast-Hitch design reduces your initial implement investment; and how the unmatched field performance of these implements cuts operating costs to rock-bottom.

MEASURE DURABILITY

Compare the on-the-job-endurance of Fast-Hitch equipment. See how much longer both tractor and implements last when you use hydraulic power to make instant, precise adjustments to meet changing field conditions. The Farmall Super C and McCormick Fast-Hitch implements make an unbeatable team from the standpoint of quality construction, and dependable service.

See This New TRACTOR With FAST-HITCH in a FIELD DEMONSTRATION

Washington

"As It Looks OMAR BURLESON Congressman 17th District

Washington - The closing days rushed. The closing of this Congress was no different. If we would think of this situation back in the earlier part of the year, probably we would not talk away so many valuable

However, it is our system and remains the best in the world. As everyone knows, the House and Senate do not always pass bills in the same form. The result is that these bills must go to a Conference Comboth the House and Senate. In the wrong. Conference Committee, the differences of opinion are reconciled.

After this is done, the representatives of each of the legislative bodies report back on their compromise and less of party or any other influence. the Bill must then be approved or I never contend that I do not make

action on much legislation is neces sary in the last week or ten days of the Session. The Congress was in session from early morning until late at night during the last days before adjournment. Such pressure takes its toll in patience, tempers,

and sometimes even life itself.

Everyone has his own idea as to mission. whether this First Session of the 83rd Congress has been a success or of Congress are always hectic and humanly impossible to take up the 1,800 county clerks and licensed reains of leadership and responsibility in this huge and complicated government and immediately start doing a perfect job of driving. President Eisenhower and his selected officials have had to learn a lot of things the hard way. The President and most of his top officials admit

Another thing is certain - it is easier to criticize when something goes wrong than to add constructive mittee, composed of members of efforts to see that it doesn't go

> Personally, I know that in this Session of the Congress, as in the license. past, I have voted and acted on each issue as it was presented, regard-

This practice means that final New Game Licenses To Be Issued Soon

Austin - Fishing and hunting licenses for the new fiscal year beginning September 1 will be distributed soon, according to the License Clerk for the Texas Game and Fish Com-

He said the supplies, totaling over one million separate licenses, not. One thing is certain - it is will be shipped to approximately deputies in 254 counties by August

> Both hunting and fishing licenses year which begins at midnight, Aug-

First sizeable demand for the hunting licenses will center around the north zone mourning dove season begining September 1.

The twenty-eight different kinds of licenses cover all phases of hunting and fishing, ranging in cost from fifty cents for a duplicate license to \$200 for a wholesale fish dealer's

The License Clerk said a new adis expected to prove popular in the coastal areas, calls for a \$5 five-day, non-resident license to hunt migra tory waterfowl. Heretofore, non-

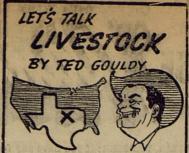

can prove whether proper judgement has been exercised.

President Eisenhower has already laid out a part of the program for the Second Session of the 83rd Congress, which convenes next January 6th. He indicates that he will ask for certain revisions in the Taft-Hartley Act. He will ask for a revamping of the tax structure; expansions of Social Security to cover another 10 million people or more; probably changes in the Farm Program; a program for the conservation and development of natural other legislation vitally affecting the lives of all of us. From all indications, the next Session of Congress will be an extremely busy one.

The only salary increase I have supported in this Session of the Congress was for the Chaplain of the House of Representatives. He devotes his full time to the members and employees. From day to day he takes the place of the local minister back home.

His salary had been forgotten and he never mentioned it. Several of us, however, happened to find he was only being paid \$2800 a year, which could only mean a bare living in Washington. We were able to raise his pay to \$4200. He was getting less than some of the lowest paid employees.

As this is published, I shall be on my way back home and will soon be visiting over my Congressional District. It is my hope that I shall see many of you for a visit.

Fort Worth - While it appears that accusations of chiseling on the drought relief program, et cetera, will occupy the headlines for some must be renewed for the new fiscal time to come - the basic problem will remain.

Government authorities are watching very closely the percentages of cows and heifers being marketed each day. Until such time as the slaughter of females reaches 50 percent of the total kill - then the cattle population is still swelling.

Many observers feel that huge eattle numbers, rather than drought, are responsible for the current low prices and the disasterous declines dition to the hunting licenses, which of the southwest not in the drought of the past year or so. Many sections areas, are heavily over-populated with cattle at this time.

Many observers in the Southwest nope that surplus cattle here can residents desiring to hunt ducks and geese had to buy a regular \$25 non-

esident hunting license. This new non-resident hunting permit is in conformity with the previously arranged five-day nonresident fishing license for \$1.65 or a season's non-resident fishing li- and feeders. cense for \$5.25. Resident fishing lienses are \$1.65.

AFTERNOON AT THE

Hardin Marry August 9th In Home Ceremony

In a double ring ceremony performed Sunday, August 10, Miss Nelda Lavern Clark became the bride of Max W. Hardin of Weatherford.

The bride is the daughter of Mr. and Mrs. W. M. Clark of this city. The groom is the son of Wheeler Hardin of Weatherford.

Rev. C. Y. Butler, pastor of the Cross Plains Methodist Church, read the double ring ceremony in the home of the bride's parents.

The bride wore a blue taffeta street length dress, her accessories were black an dher flowers were white

The couple are at home here following a short wedding trip to Weatherford and Fort Worth. Mr. Hardin is employed by an oil company in Cross Plains.

Attending the wedding were Patsy Clark, Iraan, Mrs. Doris Clark, Mrs. O. A. Anderson, Mrs. Mack Campbell, Miss Patsy Parrish, Gerald Holcomb and Buster Fuller of Cross Plains; Mr. and Mrs. R. B. Andrews and Linda, Coleman; Mrs. Jim Clark of Ballinger and Mrs. Jack Hardin, Rising Star.

Miss Navesta Brady of Bisbee, Arizona, is visiting in the R. F. Joy home at Cottonwood.

Lt. and Mrs. Ken Morris and children of Houston visited in the M. E. Howell home Friday.

Signs Of Life

nation.

We depend on the convenience of signs in thousands of phases of our daily lives. Signs tell us prices in stores, advertise merchandise in shop windows, speed up all our methods of conducting business.

And signs help us maintain order in countless little ways. For instance, if there were no signs it might be difficult — almost impossible — to keep people from walking on the grass, disposing of trash where they shouldn't, smoking in forbidden places, loitering in busy buildings, posting bills on telegraph poles, talking and shouting in libraries and hospitals.

Then, probably most important of all, we have traffic signs to guide and protect motorists and pedestrians on the nation's streets and highways. These signs are so important that often they are called "Signs of Life."

It's an appropriate name. Traffic signs can, and often do, save lives. Without "Signs of Life" - such as the "stop" sign at intersections, the diamond-shaped warning sign, the round and crossbuck railroad signs - it could become almost suicidal to ride in an automobile.

But "signs of Life" can do the vital job for which they are intended only if people read and heed them. For this reason "Signs of Life" are being featured in the traffic safety program being conducted this month in Texas by the Texas Safety Association and the Department of Public Safety.

It's a program that deserves the support of every citizen, for these signs, if observed, may help you save a life - perhaps your own!

The slogan for the August program is one to remember — one to live by: "Signs of Life — Know Them,

Burkett Girl Weds In New Orleans Ceremony

Miss Virgina White became the bride of Dr. Walker Byrd Sorrell Saturday, July 25. The ceremony was performed by Rev. N. H. Melbert in the First Methodist Church in New Orleans, Louisiana.

The bride is the daughter of Mr. and Mrs. Ralph M. White of Burkett. She is a graduate of Cross Plains high school and took her degree from TSCW in Denton.

The groom is a graduate of the University of Alabama and received his MD degree from the University of Tennessee. At present he is a resident in pathology at Tulane Medical School in New Orleans.

The bride chose a beige silk shantung suit for her wedding. Her accessories were brown and she carried a white Bible topped by white den community Sunday roses and stephanotis.

After a honeymoon trip to New England, the couple will make their home in New Orleans.

Mrs. J. C. Grantham and sons of with her parents, Mr. and Mrs. W. A. Payne.

Simons and family here. Simons is stationed in California.

Cross Plains

NOTICE

By action of the City Council meeting in regular session at the City Hall, Tuesday night, August 4, a new, permanent water rate was set as

To City Water Consumers

Cross Plains

First 1,000 Gallons _____ 1.25 Additional, Per 1,000 Gallons __ .60

This new rate replaces the emergency rate of \$1.00 per 1,000 gallons, imposed recently to discourage wasteful use of existing supplies.

The increase of 25 cents per 1,000 gallons over the old rate was made necessary due to increased costs of operation, and will provide finances for exploration for new water supplies.

Mrs. Dolores Holt and children have returned to their home in Springdale, Arkansas, after spending last week with their mother,

Week end visitors in the Dave, Mr. and Mrs. Truman Shelton of Margrove home were Mr. and Mrs. Borger visited here during the past Walker Hargrove and family of week with their parents, Mr. and Hamin and Miss Sheri Jean Har- Mrs. E. E. Shelton and Mrs. Pearl Morris and L. G.

> Mr. and Mrs. T. V. Ellis and daughters, Martha and Ruth, of Slaton spent Tuesday night and Wednesday of last week visiting Mr. and Mrs. Chester Glover and son.

using water long after our valuable Phone 202, Cross Plains

petroleum resources have been ex-

All Texans Affected

The water problem directly and personally affects every Texan. It affects the mother with a thirsty child_and the rancher with thousand of head of thirst cattle. It affects the man who wants to wash his car on a Saturday afternoon and the chemical industry on the Gulf Coast using perhaps 100,000,-

and if we had a system of distribut-

Appraisal of Problem

One of the first things I did as

Senator was to ask the Depart-

ment of the Interior to have its

appraisal of the Texas water prob-

water resources. That is true des-

water in Texas at a rate two and

one-half times as great as our rate

Believe it or not, water used in

Texas amounts to only about 15 per

cent of the yearly discharge of streams that border or originate in

the State. The remaining 85 per cent

makes its way into the Gulf and

Texas Drainage Systems

basins. They may be divided into

three groups: (1) those belonging

to the Mississippi River system, in-

cluding the Canadian and Red Riv-

ers; (2) those rising in Texas and

flowing into the Gulf; (3) the Rio

Texas has within its boundaries

more streams of appreciable size

than any other State. Texas has wholly within its boundaries a

greater part of the streams that

touch its surface than any other

That is where our surface water

comes from. It is more than enough

For some years I have been tell-

ing everyone who would listen that

water is more important to Texas

than oil. We will be needing and

to meet all our foreseeable needs_

if we will conserve it for our use.

Grande and its tributaries.

Texas has 15 major drainage

of use in 1940.

is lost to Texas.

be used most profitably.

000 gallons of water per day. Above everything else, we must have water_plenty of water where it is most needed and when it is most needed.

Coordinated Program Needed. Up to now, there has been no coordinated Federal-State water conservation program. We need one_ badly. In fact, we must have one if we hope really to solve our water

The Bureau of Reclamation report suggests such a program. This appraisal may not hold all the answers, but it does at least give a basis for action.

It opens a path that can lead to a permanent solution of the recurring problem of water shortages in Texas. That is a path which we in Texas for the sake of our own future_must follow.

Mr. and Mrs. Howard Cox and daughter visited her parents, Mr and Mrs. L. L. Richie at Blanket

Julene Gary, daughter of Mr. and Mrs. Dale Gary, left Dallas Wednesday morning for San Francisco, California, for an extended visit with friends and relatives.

Mr. and Mrs. Russell Johnson of Port Arthur, visited his sister, Mrs. Dale Gary, over the week end.

Hubert Kelley is visiting in Napa California, with his sister, Mrs. Edd Cheatham, and family.

Mr. and Mrs. Clyde Bunnell and Mrs. Gwynn Elliott were in Temple over the week end visiting Gwynn who is receiving treatment at Mc-Closkey General Hospital.

Mr. and Mrs. B. L. Vaughn and children of Abilene were Sunday visitors here with her father, W. A

Mr. and Mrs. Ches Barr returned home last week after a vacation in Odessa, Pecos and Carlsbad, New Mexico. Vickie and Kay Clark of Pecos returned home with their grandparents for a visit.

Wilburn Barr III and Virginia Barr of Austin are spending two weeks with their grandparents, Mr. and Mrs. Ches W. Barr of this city, and Mr. and Mrs. Ben Wooten of Burkett, while their parents are vacationing in Mexico City.

Mrs. Bob Henderson of Brownwood visited her parents, Mr. and Mrs. Parker Baum and family over the week end. Mrs. Baum accompanied her daughter home Sunday afternoon for a visit, returning home Tuesday night.

A Good Place For Your Money

It's always a good policy to save — put money in the bank. But it is especially smart to put your money away right now. Dollars are cheap. Put them in a savings account now and when deflation comes, your dollars will buy a lot more. May we open an account for you?

This Bank Backs Its Farmer Customers in Sound Farming Practices

You're "sitting pretty" behind the wheel

Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around

You look out and down through a wide, curved, one-

piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

Biggest brakes for smoother, easier stops

An easy nudge on the pedal brings smooth, positive response -right now! Chevrolet's improved brakes are the largest in the low-price field.

It's heavier for better roadability

You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

You get greater getaway with the new Powerglide*

A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at any price.

on less gas

That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field - the new 115-h.p. "Blue-Flame." Gearshift models offer the advanced 108-h.p "Thrift-King" engine.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at
