Cross Plains School Bus Driver Holds Best Safety Record For 16 Year Driving Period

Local school officials believe E. (Pop) Lusk, bus driver at Cross Plains high school, has established one of the best records in his kind in the Southwest. Thirty five years of continuous driving is somewhat of an accomplishment within itself, they feel, but Pop, as students call him, has much more to offer. He has driven a local school bus for the past 16 years, over more than 300,000 miles and without a single accident to a passenger.

"The children are informed as to the rules of conduct in riding the bus and procedure for getting off and on and they comply with them."

Asked if he had any particular recipe for safe driving as he hauled his precious cargo, the veteran schoolmaster replied negatively. "The children are informed as to the rules of conduct in riding the bus and procedure for getting off and on and they comply with them."

"LADY LUCK" COMEDY AT THEATRE SUNDAY

A merry romance with the laughs parlayed and the situation crackling with hilarity is RKO Radio's "Lady Luck", which stars Robert Young, Barbara Hale and Frank Morgan, at the Grand Theatre Sunday and Monday, March 30 and 31. Spiced with sparkling dialogue, the comedy is a tale of a professional gambler who marries a never-take-a-chance girl. Unaware that his lovely bride is descended from a long line of betting gentlemen, the hero is outraged when he discovers her genius for the little galloping cubes. Further, what the lady can do with a poker hand breaks the financial backbone of the hero's gambling syndicate, and leads to extraordinary complications.

Young and talented Miss Hale are the romantic leads and Morgan as the latter's hopeful, poker-playing grandfather. James Gleason, Don Rice and Harry Davenport are featured in the production by Warren Duff which was directed by Edwin L. Martin.

MARVIN SMITH UNDERGOES EYE OPERATION AT DALLAS

W. M. (Marvin) Smith is in a Dallas hospital recovering from an eye operation last week. BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY

Question—Why does 2 Kings 19:35 speak of "dead Corpses"—why use the word "dead"?

Answer—Because in 1611 when the Authorized Version of the Bible was translated, the word "corpses" referred to a body, either living or dead.

Q.—What will God do with our sins—just forget them? A.—Acts 3:19; "Repent ye therefore, and be converted, that your sins may be blotted out, when the times of refreshing shall come from the presence of the Lord."

Q.—Where in the New Testament does it say that "cleanliness is next to godliness"? A.—This popular proverb is not found in the New Testament or in the Old Testament. However, the Bible says a good deal about cleanliness, as in Isaiah 1:16; "Wash you, make you clean; put away the evil of your doings from before Mine eyes; cease to do evil."

Q.—What do you think of giving one tenth of your profit to the church like the men who planted the Biblical wheat at Adrian, Michigan? A.—The Bible says: "Bring ye all the tithes into the storehouse, that there may be meat in Mine house, and prove Me now herewith, saith the Lord of hosts, if I will not open you the windows of heaven, and pour you out a blessing, that there shall not be room enough to receive it." Malachi 3:10.

Q.—Don't you think that if I do my best to keep the Ten Commandments, pay my tithes, and attend church, the Lord will save me for that? A.—Salvation is not based on our works, but on Christ's atoning sacrifice upon the cross, which we accept by faith. Ephesians 2:8, 9; "For by grace are ye saved through faith; and that not of yourselves; it is the gift of God; not of works, lest any man should boast." Romans 5:1; "Therefore being justified by faith, we have peace with God through our Lord Jesus Christ. When the Father said, 'What must I do to be saved?' Paul replied, 'Believe on the Lord Jesus Christ, and thou shalt be saved, and thy house.' Acts 16:31. We are to obey God's commandments, not in order to be saved, but because we are saved. (Romans 8:3, 4.)

Atwell News

By Mrs. Ben Riffe

Too late for publication last week

Rev. Temple Lewis of Abilene filled his regular appointment at the Baptist church both Sunday morning and evening. The March meeting began Monday night. Rev. Baren Higdon of Trent is doing the preaching and will be assisted by the pastor. The revival is to last for a week with services at night.

Mr. and Mrs. J. D. Goble visited relatives at Abilene Tuesday and Wednesday of last week.

Mr. and Mrs. J. C. Nance and children of Carbon spent Sunday with Mr. and Mrs. E. P. Foster and other relatives.

Mr. and Mrs. C. M. Matthews and Jimmy of Harpersville spent from Wednesday until Sunday in the R. N. Brashear home.

Mr. and Mrs. Clyde Lovelady

spent the week end in Fort Worth with their daughter, Mrs. Lyn Mills. They also attended the Stock Show.

A. H. Howell of Cisco attended church here Sunday night and visited in the D. L. Sessions home.

Rev. Temple Lewis, accompanied by Messrs. Alton Tatom and Clint Brashear, attended the Ordination Service at Cottonwood Sunday afternoon.

Mr. and Mrs. Ebb Rouse and family and Mr. and Mrs. J. D. Goble and son spent Sunday in Baird with Mr. and Mrs. J. M. McWilliams. While there they attended the birthday party of Billy Dan Havens.

Mr. and Mrs. R. N. Brashear and two children, accompanied by Mr. and Mrs. C. M. Matthews, spent the week end with Mr. and Mrs. J. M. Purvis Jr. in Dimmit.

Mrs. Sam Jones attended the funeral of Mrs. Harvey Boykin at Seranton Friday afternoon. Mrs. Boykin was a former resident of

this place and was the former Ethel Edgeworth, the daughter of Mr. and Mrs. Jim Edgeworth.

Alton Tatom visited his parents, Mr. and Mrs. W. M. Tatom, in Putnam Friday.

Mr. and Mrs. Woodrow Jones of San Angelo spent from Friday until Monday with his parents, Mr. and Mrs. Sam Jones.

Mr. and Mrs. Ben Riffe and J. B. spent Sunday with Mrs. Keelon Riffe and daughters.

Mr. and Mrs. Clint Brashear and Reba Jo visited with Mr. and Mrs. Orville Reece at Seranton last Sunday.

Mr. and Mrs. Steve Foster and Travis of Cross Plains visited in the Nathan Foster home Sunday.

Mr. and Mrs. Arden Strahan of Mississippi are spending a few days this week with her mother, Mrs. Truett Foster and family.

A favorite story about Henry Ford is the one told on the occasion of the Ford's fiftieth wedding anniversary, when a reporter asked: "Mr. Ford, to what do you attribute your successful marriage?"

The kindly automobile man answered: "The formula is the same as the one used to make a successful car—stick to the same model."

New England's third largest Elm tree, planted by Lieutenant Whitney who lived between 1704 and 1770, has recently died.

The aged tree was in the town of Townsend, Mass. and had served as the helmy for the oldest church many years. Its wide-spreading limbs have afforded shade for many thirsty people, young and old, who came to drink of the pure life-giving water from the old well, dug many years ago, beneath its towering height.

Six hundred dollar lightning rod had been attached to the elm about 25 years ago for its protection and many patches of cement here and there had been applied in an effort to prolong its life.

Most likely many sighs and words of sorrow and other expressions of grief over the passing of the grand old elm have been manifested by the people of the town and for many miles around, extending throughout New England.

Doctor (as he examined the patient's shins) — "Do you play hockey?"

Patient—"No, bridge."

Robert Smith was in Brownwood one day last week.

Not long ago, I attended the annual dinner of the Chamber of Commerce in Taylor, where I went to school, away back in the fifth grade. Your columnist was billed for the "principal address" but the real spotlight of the occasion was the presentation of a plaque to Taylor's most worthy citizen for the year.

The honor was bestowed on a woman—Mrs. H. R. Floeckinger. She had had charge of preparing and serving the excellent dinner and M. B. Conoley, himself an outstanding citizen, had gone into the kitchen and insisted that she come out for the program, which she did, without suspecting the reason for his insistence.

In eloquent words, Mr. Conoley told of Mrs. Floeckinger's work as superintendent of the hospital and nurses' training school for many years, her church and club activities, her work as head of the Christmas Welfare fund and in providing clothes for the needy, also as president of the American Legion Auxiliary and as head of the Red Cross hospital service during the war.

Embarrassed but happy too, Mrs. Floeckinger could only say a few words at the conclusion.

It is an inspiration to contemplate such a life of service and Taylor honored itself in honoring so noble a woman.

Sen. Buster Brown, of Temple, favors a public, instead of a secret, vote on governor's appointments to state positions. The Senator, according to an editorial in the Fort Worth Press, is embittered because his fellow Senators turned down some men that his committee had approved. Whatever his motive for advocating the change to a public vote, the Senator is correct, though just a little slow in advocating the change.

Uncle Zeh says, "Why don't other folks stay at home so I can get a hotel room when I travel?"

Sen. Grady Hazelwood of Amarillo proposes a constitutional amendment making House members' terms four years. But the best way to keep officials responsive to the people is to require 'em to go back to the people pretty often.

The Senator's amendment pro-

J. B. Freeman of Marshall, a victim of cerebral palsy, knows the value of an Easter Seal contribution. Through the annual sale of Easter Seals, the Texas Society for Crippled Children was enabled to train J. B. in a trade which allows him to be self-sustaining. In his weaving shop in Marshall, on a loom given him by the Texas Society, the young businessman arranges a display urging the purchase and use of Easter Seals, March 17 through April 6.

hibits legislators from receiving anything of value for voting for or against any legislation. That's against the law now, isn't it—or is it?

His amendment would give each legislator a salary of \$4,000 a year and would prohibit a lawmaker from practicing influence before a state department—but apparently a legislator could still take what is sometimes called a "fee" from somebody whose business is affected by proposed legislation.

Getting around over the State: You remember the time about the music goes in here and comes out there? Saw a stove in a filling station in Luling that reminds me of the time. Three sections of old-fashioned stove pipe are laid one on top of the other and connected by elbows and that beat goes in at one end, wanders all around and comes out at the other. Looks like a Rubik Goldberg invention—but it works.

Near Jacksonville is the rather oddly named Simpson's Dining Car Orchard—11,000 peach trees.

In LaGrange, two grand old oaks stood in the street, so they just ran the paving around them. Incidentally, the winding highway as one enters LaGrange from the south is most picturesque and gives a beautiful view of the town below.

Best eating in a good while: Backbone and dumplings, with cornbread at Palestine in the O'Neill Coffee Shop. That was really East Texas cooking at its best!

A. C. Dobson and George Cunningham have been placed on the ticket as candidates for city councilmen, only one vacancy on the council, that of Ice Little whose term expires April 1, is to be filled.

Both Dobson and Cunningham are prominent business men and thoroughly conversant with affairs of the city.

Saturday, April 2, is the date set for election of three school trustees. The terms of Jeff Clark, Martin Neel and S. R. Jackson will expire, however, it is understood they will stand for re-election, having been endorsed by the Parent Teachers Association, it is said.

Announcement has not been made of any other candidate filing. Names must be filed 10 days before election.

The present school board has launched a building program and there will be a heavy responsibility placed on that body this year, and able men will find it a real task.

Veterans of World War here, through the American Legion, are entering a contest, the winner of which will be awarded a free trip to Paris, France to attend the American Legion Convention there.

Votes are cast through purchases of merchandise at local stores with each 25 cent purchase entitling the holder to vote for a veteran.

Following is a list of entrants as handed to the Review: John Austin, Charlie Austin, C. D. Anderson, F. E. Anderson, Cecil Alken, Homer Austin, Howard Baum, Jim Bachus, T. W. Brabham, Walter Breeding.

CHILDHOOD DISEASES TREATED TOO LIGHTLY SAYS DR. GEO. W. COX

With the incident of chickenpox more than 50 per cent higher than records indicate for a seven year median, Dr. Geo. W. Cox, State Health Officer, issued a statement Thursday night. "It is a great mistake to treat even light cases of childhood diseases as though they did not amount to much. That sort of treatment makes it possible for these diseases to spread and cause serious outbreaks among children and their resulting impaired resistance makes them easy victims to other forms of infection.

"Some of the most serious outbreaks of chickenpox which we have had, have been traced to mild cases—that is, to cases too light for the doctor to be called. In some instances the children have continued to go to school and to associate and play with other children. In others, after they have been kept at home for a few days, they have returned to school and have scattered these germs around among their playmates. Eventually a group of cases—sometimes very serious ones—has developed from the carelessly-handled mild case. The result was another epidemic that could have been prevented."

The State Health Officer said that the family doctor is the best judge of the seriousness of such childhood diseases, and suffering and anxiety will be avoided if the child is put to bed, and a doctor's advice sought and followed.

Gracie Allen was not far from right when she recently said, in her daily article to the Star Telegram, that "trouble-loving lunatics are not satisfied with such minor aces as storms, tornadoes, tidal waves, volcanic eruptions, farm and garden pests, and keeping ourselves free from billions of germs and microbes but must bet busy and invent more troubles such as the atomic bomb, politics, night clubs, and betting on horses etc. and even then Mrs. Allen did not mention the entire list of our self-inflicting and invented troubles.

Jim Settle, Oren Barr, Sam Barr and Carl Eager attended a Presbyterian convention at Albany last Thursday night.

International Harvester announces \$20,000,000 price reductions

We believe there is nothing more important to this country than to lower the prices of the goods that people buy.

The American people have insisted that the government withdraw from its attempts to control prices in peacetime. That places the responsibility where it belongs—in the hands of business and industry. Not all business can reduce prices now. Not all can reduce by the same amount.

Our company has felt a duty to act as promptly as possible. In our case, the business outlook now makes it possible to move toward the goal of lower prices. The only way out of the vicious circle of higher and higher prices is to break through.

We have taken this step not because of present competitive conditions nor because of a drop in demand from customers. We have taken it because of our belief that ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED.

These reductions, which will save the users of our products approximately \$20,000,000 a year, will become effective before April 1, and will apply to a selected list of tractor, farm machine, motor truck, and industrial power products. Since we lose money on a few of our products, and barely break even on some others, these reductions will not apply to our entire line. Reductions will be made individually on products. Some will be cut more than others. Exact details will be announced as soon as possible.

Our ability to maintain this lower level of prices will depend in part on what happens to the prices and flow of materials that we buy from others. Because we believe price reduction is vital, we are willing to assume the risks that are involved.

prices had not gone up as much or as fast as many others

Here are Average Price Increases since 1941 (U. S. Government Reports)

All Manufactured Products	63.7%
Machinery and Metal Products	41.2%
Motor Trucks	35%
Industrial Power Products	34%
Farm Machines	25%

These benefits to customers will depend, too, on uninterrupted production at reasonable wage levels. This is not a program that can be carried out if it is hampered by strikes or work stoppages.

Our employees have had substantial increases in pay, and wage questions are currently being discussed with many of the unions with which we deal. Stockholders have recently had an increase in dividend rate. Having considered the interests of these two groups, we are now making these price reductions for the benefit of the third group—our customers.

Business, to our way of thinking, has a social as well as an economic responsibility. This company has long followed the policy of operating in the interests of three groups—its customers, its employees and its stockholders. The duty of the management is to see that equal justice is done as between the three groups.

This price reduction program is another demonstration of our policy in action.

**H. D. CLUBS ATTEND
COUNTY MEET ON 15**

Callahan County Home Demon-
stration Clubs held a meeting in
the county court room at Baird
March 15 with the president, Mrs.
A. L. Barnes, presiding. Eight of
the nine organized clubs had
representatives there, showing the
interest manifested in home demon-
stration work, regardless of not
having a county agent at the pre-
sent time.

Mrs. Mollie Johnson, former
county wide sponsor of girls 4-H
clubs, presented Mary Ruth John-
son of Oplin with a gold pin as a
token of her achievements in
4-H club work, after being chosen
Gold Star Girl of Callahan County
for 1946.

The Council decided to change
the time of meeting to the second
Monday of each month at 2 p.m.
They also made plans at this meet-
ing to start a library for the Coun-
cil which will consist of books
contributed by each club to be
chosen from a reading list prepared
by the Texas Home Demonstration
Association.

Mrs. Charles Coats of the Turkey
Creek club was elected to repre-
sent Callahan county at the dis-
trict meeting to be held in Anson
April 25.

Next meeting of the Callahan
County Club Council will be held
at Baird April 14, with an invita-
tion extended to visitors and all
club members.

DDT For Fruit Insects

Experiments during 1946 by the
U. S. Department of Agriculture
have brought out recommendations
on the use of DDT for various
fruit insects, particularly the cod-
ling moth.

Research has shown DDT to be
highly effective against the cod-
ling moth. Wettable DDT powder
is the most common form in which
the insecticide is applied for this
purpose.

One catch to the recommenda-
tion of DDT for the codling moth
is that the material seems to have
no ill effect on many orchard pests
other than the codling moth. This
situation, has caused entomologists
to ponder the question: what other
pests of previous small significance
will become destructive in orchards
when DDT is substituted for lead
arsenate and when DDT kills off
beneficial parasites.

DDT has a good record in the
control of several other fruit in-
sects besides the codling moth. On
grape leaf hoppers, a dust of 2 to
5 per cent DDT has proved ef-
fective. For tarnished plant bugs,
promising results have been had
with a spray consisting of 1 pound
of DDT per 100 gallons of spray.
The oriental fruit moth is control-
led by one application each month
before picking time.

Effective control for the apple
maggot is three or four applica-
tions of DDT at 10 day intervals,
and pear thrips are killed by any
one of several forms of DDT mix-
ture at the time the thrips appear
on the trees in the spring.

Garden Insect Controls

In using any insecticide on your
garden this year, you'll get better
results by applying it just as often
as possible. A lot of us are spur-
ingly use too much poison on our
plants. So try to apply a light
coating that will cover the entire
plant.

A few warnings on the use of
insecticides, neither calcium arse-
nate nor DDT should be used on our
leafy vegetables. And when you
use them on other garden crops, the
best application should be made be-
fore the edible parts begin to form,
as on beans, peas, tomatoes and
the like, don't put poison on them
after the actual vegetable begins to
form.

On DDT a 3 percent dust of this
insecticide is effective against the
Colorado potato beetle, the potato
leaf beetle, potato and bean leaf
hoppers, the cabbage hopper, the
imported cabbage worm and some
cut worms, especially those that
feed on cabbage.

A 5 percent DDT dust will kill
immature forms of the squash bug,
but DDT should not be used on
cucumbers, pumpkins, cantaloupes
and related crops. It will stunt the
growth of these crops. Since the

My Dresses

(Sent in by a subscriber)

Our dresses are too short, I know.
We're saying material, 'tis true;
For we love our boys and the dear
old flag
Of the red, the white, the blue.

Hurrah, hurrah for dear old U.S.A.
We gave those Japs
Some blamed good slaps
And whipped old Hitler, too!

No Japanese silk do we want,
Neither do we need Jap lace;
But make our sack-print dresses up
And wear them with much grace.

Now brave young men, a word to
you,
If you would win the Fair
Go to the field where honor calls
And win your lady there.

The flapper is not much, you know,
Just watch her, if you please;
Sometimes she cuts her pretty dress
One inch above the knees.

Though she does not mean a bit
of harm
Nor does she mean to "boss"
She'll make a prisoner of that
soldier boy
Before he can get 'across'.

Hurrah, hurrah for dear old U.S.A.
We gave those Japs
Some blamed good slaps
And whipped old Hitler too!

GAS OUTPUT AND OIL SPRAY IS FOUND IN OFFSET

Johnson & Ingelwright's number 10000 well, offsetting the earlier discovery well, five miles west of Cross Plains blew yesterday afternoon making more than a million cubic feet of gas spraying oil. The test was high two inch tubing with 1000 psi casing head pressure. Roar of gas could be heard for more than a mile.

1,000 gallon acid treatment has been given the well, but nothing is known regarding the possibility of the well, however, successful completion of the test is predicted by well qualified experts. Experience gained in the early well is expected to be of aid in finishing the Wallace in a manner conducive to maximum production.

Rotary equipment, with which test was drilled, has been moved to the well. It is still in the city, indicating that a third of the Ellenburger in that area is likely possible.

Pictured above is the Joan Tarleton Agricultural College Chapter of the Future Farmers, among whom are Donald Clark, Dick Vestal, and Harold Garrett of Cross Plains. Donald is president of the Chapter, and Dick Vestal is vice-president. The group is pictured at the time of their first meeting.

EGGS FOR ORPHANS DRIVE IS ON HERE

A drive to collect eggs for Buckner's Orphan Home at Dallas is being conducted by the Cross Plains Baptist church. It is requested that eggs be brought either to the W. T. Cox Grocery in Cross Plains or delivered to the church Sunday. The shipment will leave Cross Plains Monday.
