Following is an article written by Vicki Johnston of this city stating her opinion of the recent Pee Wee basketball

This will be the last article to appear in this column concerning the Pee Wee games. An article listing the teams and how they placed is printed elsewhere in today's Review. All you boys and girls did a fine job and I am looking forward to semg you in action next year.

The article written by Mrs. Johnston follows and as I stated will be the last one printed.

I was going to write a letter of appreciation in last weeks paper, but I am glad I postponed it until this time. I think that it will be more appreciative. I am not writing it to cause problems. It is only my opinion. I think I speak for most of the parents in saying that this was a successful season with a few minor problems.

Most of the children have learned the basics of basketball. Yes sometimes a foul is overlooked. Fouls look different to us in the stands or on the bench than it does to the referee out on the floor. But you know mistakes are made by referees in professional sports. At times fouls are called on the other team. Mistakes are made and they will continue to be made. After all we are only human.

Why should this year be any different from last year? There were a lot of mistakes made in calling fouls. Most of these fouls seemed to be caused by prejudice toward a certain team. It was obvious to the parents, coaches, fans and even players. 1 person should not be a referce for a game that his or her child is playing and his or her spouse is a coach. Anybody would tend to be prejudice and want their team to win, but it is difficult to be a referee in this situation. It just happened that this team came in first place last year There were no negative comments in writing made by anybody at that time. I guess it all depends on what you think is right and wrong. It also has something to do with dishing it out and taking it in return. I guess it all boils down to if you are winning or losing.

Yes referees do get a lot of hassling. And yes, they do expect some of it. But sometimes it gets a little too much and too abrasive. After all one can only take so much mental abuse. It sometimes gets to the point that they cannot concertrate on he game, but only on the crowd This is not why the referes are cut there. As far as throwing out a spectator, it depends on the persons involved in the situation. People say "I would do this or I would do that." We really do not now what we would do until we are put in that situation. The referee handled it the best he could. It is embarrassing to all persons involved in this situation. It was obvious that the referee tried to avoid the last resort. We are all giulty thratening too much and using actions too little.

As far as rules go, we all (Continued on Page 8)

Baptist Youth Plan Sale And Work Day

Youth of the First Baptist Church of Cross Plains will again sponsor a garage sale Saturday. April 14, at the home of Mr. and Mrs. W. G. McCoy on Ave. E. It was noted that there would be lots of new items that were not offered at the sale last week.

It was also noted that Saturday would be a work day for the youth. Any person needing yard, house or any other type work done, let the youth take care of this for you. If interested, please call the church at 725-7629 or Connie Kirk ham at 725-6500.

The youth are sponsoring the garage sale and work day to raise funds to go to Glorietta, N.M., and would appreciate your support.

As of August 1983 Callahan County Jail is in compliance with the Texas Jail Commission Rules and Standardds. We are Certified at this time and by spending approximately \$22,000.00 which the Commissioners' Court approved, we have saved You, The Tax Payer, approximately \$1,000,000.00 which would be the cost of a new jail. A large percent of the labor was contributed by the Callahan County Sheriff's Department employees.

I regret not having time to be on the streets and in the coffee shops to see everyone. I wish that it was possible for me to visit all of you I think it's best for me to do the job as sheriff and devote my time in administration, criminal i westigation and civil work.

Rumors are, I made the statement that I did not need support of the Cross Plains area. I tell you now that it's not true, and I think most of you realize that I need everyone's support. If you, the people, see fit to re-elect me as Sheriff I assure you that I will continue to perform my duties as Sheriff to the best of my ability.

CALLYOUR AIR CONDITION

(Get a checkup before the heat's on.)

Right now your air conditioning serviceman can easily work your call into his schedule and get your unit ready to deliver dependable cooling through the summer ahead. We know that many people wait until the heat's on to install electric-air conditioning or have their units serviced. Later on, your dealer or serviceman may have a waiting list.

PROPER INSULATION. Keeps in the Cool Air You've Paid For

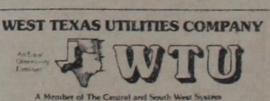

Insulation comes in rolls, loose-fill or batts. Insulation is labeled with a R value showing its ability to resist heat. The better its insulating value, the higher the number. R values up to R 30 in the ceiling and R 18 in the walls are recommended for this area.

Check Caulking and Weatherstripping!

Check all windows and doors, install weatherstripping and caulking where needed. It will save on both heating and cooling costs. An almost invisible 14" gap at the base of a standard 36" outside door is equal to a nine-square-inch hole in the side of your house. There are a number of easyto-install felt and foam rubber products on the market to draft-proof doorways.

Remember REDDY Supplies the energybut only YOU can use it wisely!
