Take A Gander Inside

By DON TABOR
Publisher

If you take a gander inside the paper this week, you'll find something new. And I think (hope) you're going to like it.

A few weeks ago, Art Lawler and I were "brain" storming about what the paper could do to get more involvement by the readers.

Art's motive was two-fold. Since he no longer draws an Abilene Reporter-News paycheck and has gone into the column-writing business for himself, he's always looking for a new way to pick up some cash.

Anyway, he said he was thinking about doing a listener call-in program on an Abilene radio station. I thought: "Aha, why not do the same thing in the newspaper?"

We thrashed it through a bit, and he agreed to write on a different topic each week and invite the readers to write to the paper expressing their opinions about it.

We also agreed that the topics should be controversial. After all, you can't expect much reader response when your topics are things like motherhood, apple pie and the American way; in other words, things that everybody is for.

For example, this week's topic is pornography. You're right, most everybody thinks pornography is bad, but there is a wide range of opinion over what degree we should go to stop it, freedom of speech and all that. There should be some interesting reader responses next week.

I hope you will understand, we've got to have a few guidelines on this. While we don't care whether you sign your responses or not (possibly not requiring signing will encourage more of them), we're going to have to limit each one to 150 words maximum. Sometimes people get carried away when they start writing on a subject close to their heart and, after all, we still have to put some news in the paper.

Also, (and this is me, the publisher, speaking) I'm going to reserve the right to edit responses for good taste, libel, things like that. Like I said before, sometimes people get carried away.

But don't let these groundrules discourage you. I'm going to bend over backwards to publish every response we get.

Now's your chance so, "You Tellum!"

Bufs May Be Over Illness For Bears

By VANDA KING
Editor

The Cross Plains Buffaloes will travel to Baird Saturday to play the Baird Bears for their homecoming game. The Bears have not been defeated by the Bufs in 19 years. It is time for the Buffaloes to make a change in the stats.

The Bufs fell to the Rising Star Wildcats last Saturday night 28-0. The Wildcats were wired for action to impress their homecoming crowd. The Bufs were at a disadvantage having several team members sick with strep throat while they played.

David Taylor, Sophomore No. 50, was injured during the game and the EMS carried him to Humana Hospital at Abilene. It was determined that he had a pinched nerve in his neck. He was able to attend school Monday.

The band, twirlers and flag corp were dressed in their uniforms and looked very sharp. The cheerleaders demonstrated their usual vitality. A large crowd of fans followed the team to Star.

Coach Mike Permenter encourages everyone to come to Baird and support the Bufs.

County Agent Says Be Prepared for Accidents

Though serious accidents are infrequent for most of us, they can be devastating when they happen.

Therefore, can you afford not to be "protected from the unexpected" just in case? "Be Protected from the Unexpected" is the theme of this year's National Farm Safety Week, September 21-27, points out Greg Gerngross, county agent with the Texas Agricultural Extension Service, The Texas A&M University System.

According to Gerngross, you can do much ahead of time to protect yourself from safety and health hazards you could meet during your day:

-When driving or riding in a car, always wear your safety belt.

-Equip your tractors (that can be fitted) with certified roll-over protection (ROPS)—cab or frame. Buckle your safety belt to keep yourself

within the zone of protection in case of a tipover.

-Keep all machinery guards in place.

-When the hazards of the job or job site dictate it, use the appropriate personal protective equipment (hard hat, safety eyewear, respirator, safety shoes) to help prevent injury or illness.

-Take good care of your equipment and motor vehicles to reduce chance of failure or breakdown, and perhaps an accident.

-Be alert and prepared to act appropriately to unforeseen or sudden changes in the situation or conditions on the job or the roadway.

-Help protect against fire. Install smoke detectors and fire extinguishers. Have home fire escape plan.

Trey Meiron in Play Cast

Trey Meiron, son of Mr. and Mrs. Vincent Meiron, Jr., of the Pioneer Community, will be performing with the Stephenville Area Little Theatre. "The Dining Room," written by A. R. Gurney, Jr., will be presented September 18 through 20 at the Clyde Wells Auditorium at Tarleton State University beginning at 7:30 p.m.

The play is very unique in that six

actors will portray 50 different characters during the performance.

The cast has been invited to perform the second act of the play for the Regional Community Theatre in Dallas sometime in November.

Stephenville Area Little Theatre invites everyone to attend and enjoy an evening of refreshing entertainment.

2-Woman Scramble Set

Saturday, September 20, there will be a Two Woman Golf Scramble at the Lakewood Recreation Center midway between Cross Plains and Rising Star on Highway 36. There will be a coffee at 8:30 a.m., and tee time will be 9:00 a.m.

Cash prizes will be \$60.00 per team. The scramble is limited to the first 27 teams entering. A limited number of golf carts are available.

Private carts are welcome.

A luncheon will be served following the tournament.

For further information, please contact Lakewood Recreation Center (817) 643-7792, Judy Porter (817) 725-6665, Lou Grider (817) 725-7673 or Fran Taylor (817) 725-6739.

Lakewood Recreation Center's mailing address is Rt. 1 Box 45, Rising Star, Texas 76471.

Funds Grow For 2nd League House Room

Cross Plains presently has one entire room at the Hendrick League House donated by a couple from Cross Plains. They have \$1,300 donated towards a second room, leaving balance of \$1,200 still needed to complete the purchase.

Donations from any individual or organization from Cross Plains are needed because members of this community will benefit from the rooms provided. For any \$2,500

donation a city or town can purchase the furnishings of a room and the room will be named for that town. A \$10,000 gift will finance the construction of each room and a plaque inside will honor the donor.

The Hendrick League Home was established to provide a place for family members who have someone critically ill, injured or a patient hospitalized many miles from their home. There is no charge for the

room. The Junior League enthusiastically pledged a three-year financial and volunteer time commitment. Dick Rathgeber, an Austin businessman, was instrumental in establishing the League House at Seton and pledged a generous gift at Abilene.

If anyone would like to contribute to this cause you may do so by contacting Donna J. Merrick or Wimpy McCoy at the Citizens State Bank (817) 725-6141.

7-Year-Old Has Bantam Champion

Jason Carey, 7 year old son of Mr. and Mrs. Ricky Carey of Cross Plains, took Grand Champion Bantam in the Junior Poultry Show with a Birchen Cock at the West Texas Stock Show in Abilene Saturday.

He was first place in the Modern Division with the Birchen Cock and first in the Rosecomb Clean Leg Division with a Silver Sebright Hen.

Trustees' Meet Set

The Board of Trustees of the Cross Plains Independent School District will have a regular meeting of the governing body on Thursday, September 18, at 8:00 p.m., in the faculty room of the high school.

The agenda for the meeting will include prayer and minutes, consideration of tax rate, tax collection, amend 1986-87 school calendar, update on stadium/track project, Superintendent's report, financial report, pay bills, personnel, executive session and adjourn.

Notice of the upcoming meeting was issued from M. Lee Thompson's office.

Cottonwood Coffee Set

All newcomers to the Cottonwood Community are invited to a "Get Acquainted" Ladies Coffee and the first general meeting of the Cottonwood Regional Community Association on Tuesday, September 30, at 10:00 a.m., in the Community Center. A Sesquicentennial theme will be followed.

Fund raising projects for the association will be a top priority subject on the agenda.

Homes To Be Shown

The Hendrick Medical Center Auxiliary is sponsoring a Pilgrimage of Homes Saturday, September 20, from 10:00 a.m., until 5:00 p.m.

Tickets are \$4 and may be purchased from Donna Merrick at Citizens State Bank. Maps of the four featured homes are available from Ms. Merrick at the time you purchase your ticket. All proceeds go to benefit the Hendrick League House. No children under 12 will be admitted.

Ed and Kay Cockerell, Clyde and Lynn Grant, Cuin and Judy Grigsby and Derward and Virginia Nollner are the couples whose homes will be on display.

Cheerleaders to Enter Contest in Brownwood

The Cross Plains High School Varsity Cheerleaders will be participating in a Cheerleading Contest at Heartland Mall in Brownwood at 10:00 a.m., Saturday, September 20.

The contest is for squads with 4 to 6 members and will include the Brownwood area schools.

They will be performing three routines which will be judged on

appearance, projection, creativity and crowd participation.

The Varsity Cheerleaders would like to appeal to the Community to attend the contest and help them out on crowd participation. They hope that a large crowd will be able to attend. Students and adults are encouraged to come out and cheer!

Clyde Has Top Sales Jump

Clyde shows the largest increase in city sales tax in Callahan County for the period ending August 29, 1986 payments to date were \$66,725.31 compared to \$61,668.09 in 1985 resulting in a 8.20 per cent increase.

Baird indicated a 2.21 per cent increase. The 1986 taxes to date were \$23,871.01 compared to \$23,354.55

one year ago.

Cross Plains sales tax payment to date was \$41,611.50 compared to \$47,570.72 in 1985. A decrease of 12.53 per cent is indicated.

Putnam paid \$8,535.87 to date compared to \$10,086.70 in 1986 resulting in a 15.37 per cent decrease.

Newspaper Photo Policy Given

There is some confusion concerning the type of photograph necessary to print in the Review. In the past, only a black and white picture would suffice. Now colored or black and white prints are satisfactory, as long as they are not extremely dark. Your lightest print will produce the best result in the newspaper.

The size of your picture is not a problem, because they can be reduced or enlarged accordingly.

Photographs are welcome to accompany articles. Usually only one photo will be chosen per article.

Remember the deadline for articles and pictures is noon Monday.

Health Care Contract Decided

Callahan County Commissioners, in their regular monthly meeting, Monday, September 8, finalized the 1986-87 fiscal year budget and set a date of Thursday, September 18 from 6-8 p.m. for a public hearing on the budget and tax rate.

Other agenda items discussed by county commissioners included:

—Tabled action assisting with the Eula Fire Department's new fire station building.

—Voted 3-0 to contract with Presbyterian Medical Care Mission at 400 Orange Street in Abilene for indigent health care service in Callahan

County.

—Met with Mrs. Fern Lee concerning the Meals-On-Wheels Program.

—Agreed by a vote of 3-0 to let Billie Ann Earp work parttime instead of fulltime for the county extension agent's office.

—Met with Mrs. Archie Nichols in reference to closing the County Library in the mornings. No action was taken.

Present at the meeting included: Commissioners Jiggs Shackelford, Eugene Kitchens, Lowell Johnson and County Judge Mack Kniffen.

County Okays Hours Cut

Callahan County Commissioners, in a called meeting Monday, August 25, approved a reduction of hours in two county services offices.

Commissioners approved by a 4-0 vote, to close the Callahan County Library, located in the basement of the courthouse in Baird, in the mornings and cut the librarian's salary in half effective October 1, 1986.

The Veteran's Administration office located at the courthouse will also see a reduction in opening hours. Commissioners approved by a vote of 4-0 to open the VA office two days a week instead of three and cut the salary according to the hours worked. Also in the same motion was to let the Veteran's Administration officer take over the civil defense job also effective October 1, 1986.

In other action, county commissioners voted to:

—Give \$3,000 as the county's portion to the Meals-On-Wheels Program and also give \$3,000 to the Callahan

County Nutrition Program. The Nutrition Program had received \$4,500 from the county last year. The motion passed 4-0.

—Named Charles Walker as absentee judge by a 4-0 vote.

—Accepted by a 4-0 vote, the bid of Tyler Oilfield Electric of Clyde to relocate a 10 KW generator at the county hospital building to the north side of the county jail building for \$1,100. The bid includes parts, labor, cement slab, metal roof and paint. The bid does not include any additional repair to the generator itself.

—Passed by a 4-0 vote, a motion to construct a new waterway near County Road 226 in Precinct 2 with the stipulation that the landowner will pay the cost of repairing the road should damage occur.

Present at the meeting were: Commissioners Eugene Kitchens, Lowell Johnson, E.F. Odom, Jiggs Shackelford and County Judge Mack Kniffen.

IRS Workshops Set

The Texas Agricultural Extension Service is cooperating with the Internal Revenue Service in offering many Tax Practitioner Workshops across the state, reports Greg Gerngross, County Extension Agent.

Twenty-six General Workshops will be held in all major Texas cities. The General Workshop nearest our county is in Abilene on December 4 and 5.

There will also be five ten Advanced Workshops offered in major cities. The General Tax Workshops will concentrate mostly on personal taxes—the Advanced Workshops' emphasis will be on business tax problems.

In addition to the General and Advanced Tax Workshops, there will

be three Partnership Workshops, four Estate Planning and Tax Form Preparation Workshops, four Problem Resolution Workshops, and — new this year — three workshops dealing with Income Taxation of Trusts and Estates.

The Tax Practitioner educational program has been highly successful. Last year about 4,400 people participated in this state-wide series. These practitioners reported filing more than 519,000 tax returns. For additional information, please contact the County Extension office at 854-1518 for a brochure explaining more about the program and registration information.

THERE'S NOTHING PUZZLING ABOUT IT.

A MESSAGE FROM THE TEXAS DEPARTMENT OF PUBLIC SAFETY

PIONEER NEWS

By ESTHLOY S. DICKSON

Did you read Erma Bombeck's column the other day - when she wrote about people who never seem to experience pleasure? She said they suffer from "anhodonia". I'm sure she coined that word - it isn't in my dictionary. She said there were two million Americans in that category. I've met a few, haven't you?

One day last week I had a "surprise" telephone call from Joe Houser of Abilene. I haven't seen Joe in ages. Maybe we will be seeing him often. I hear that he has bought Mrs. Cora Howland's house on Main Street. Joe called to get a report on Mrs. Howland who is in Paris, Texas with her daughter.

Another surprise last week - on Friday I was shopping for groceries. I met a friend I haven't seen for ages. I don't understand - in a small town like Cross Plains. I received a big "bear hug" from Mrs. J. B. Harris. I've known her since we both helped to open the Colonial Oaks Nursing Home (I was their first secretary-book-keeper, 1963). We use the same post office, drug store, grocery store - same Main Street - I'll bet I hadn't seen her in the last ten years.

Mrs. Ethel Brown's visitors this week were Mrs. Charles McKenzie and daughter, Tiffany, Mrs. Evelyn Monsey, Mrs. Georgia Graham and Dick and Lou Grider, all of Cross Plains, also Jean Alexander and Irma Miller of Pioneer.

Sally Roady came by my house on Monday morning. I enjoyed her visit. They've had a host of visitors the past week. Cousins James and Verna McNeely of Friona spent the weekend with Ms. Nettie Roady and Billie and H. A. Freeman in town. Joe and Beverly Roady of Brownwood visited one day - it was Joe's 29th birthday.

They all talked on the telephone with George Roady in San Francisco. He will be starting school in Dallas soon and can come home often. Betty Lockyer of California will be visiting here for awhile.

Mrs. Bessie McDaniel's daughter, Milford, and Doris Hunter of Almagordo, N. M. spent one night last week with Jean Fore. They took Mrs. McDaniel back to San Antonio. Rev. Rufus Wilson visited Jean one day. Last Saturday Jean and Mrs. Lettie Sooter, Jewel Foster, Allie Montgomery and Lucille Callaway attended the West Texas Fair in Abilene.

I talked to Nell Fleming only briefly - she was awaiting a call from Pampa where her daughter, JoVeda, was having an operation. We will check on her later. Mrs. Betty Mieron's family has gone to Illinois to be with Mr. Meiron's family - his father died of a heart attack there.

I urge all of my Baptist neighbors and friends to attend the weekend revival (Friday-Sunday) at the First Baptist Church. Rev. Michael Hale of Happy, Texas has been extended a call to be our new pastor.

Mr. David Beggs of Morton Valley visited J. T. and Betty Beggs on Sunday, Mr. and Mrs. Sam Beggs of Morton Valley on Monday. Betty's brother, Floyd Russell, of Fort Worth has come to visit them for several days.

The volt, a unit of electrical measurement, is named for Count Volta, inventor of the electric battery.

Coupon Books: Make Sure You Don't Buy A Whole Lot Of Nothing

Coupon books can be a very good way for local merchants to introduce their products to new customers. Unfortunately, coupon books also can be a way for unscrupulous operators to take your hard earned cash and leave you nothing but air.

PROBLEMS

In some cases, consumers have bought coupon books for \$25 or \$50 only to find out that the services provided by the coupons could have been obtained for free. Some coupon books have specialized in offering free goods, or goods at reduced prices, from establishments that have gone out of business. And many times, consumers have found that they cannot take advantage of the coupons. For example, a coupon book which advertised as having "over \$500 in complimentary services for your automobile" had coupons good for services on foreign cars only.

After buying coupon books, consumers frequently discover that the services are available for the first time only. Others, such as restaurant meals or theater admissions, may be limited to off-peak hours or non-weekend days, restrictions which may be very inconvenient for some consumers. And in the worst cases, consumers have found that the coupon book seller simply printed the books without contacting any of the merchants listed. Of course, those operators don't stay in town very long.

WHAT TO DO

If you are offered a coupon book, you should look carefully at the book itself before you buy. Take down the names of several of the merchants who are listed as participants and call them to make sure they are giving the services as advertised—or if they are giving them at all.

You should also pay particular attention to the expiration dates on the coupons. You may not be able to get around to every one you would like to before the offer expires. And, of course, make sure that most of the services offered are services you would want to use.

Wylie-Williams Joint Venture, Austin, will drill No. 7 Roy Higgins to 500 in the regular, 2.5 miles north of Admiral on a 160-acre lease. Spots 570 north, 1,420 east, Section 40, Deaf and Dumb Asylum Lands, No. 40, A-1782.

Light Energy, Abilene, completed No. 36 J.H.J.R. in the regular, 5 miles southwest of Cross Plains. Spots 1,093 south, 933 east, William Mason No. 163.

Daily pumping potential was 15.2 barrels of 36-gravity oil and 1.6 barrels of water from perfs at 393-97 feet. Gas-oil ratio 197:1. Total depth 456 feet; plug back 436; top of pay 393; 4 1/2-inch casing set at 445. Fraced with 2,500 gallons gelled 2 percent KCL water, 2,000 pounds sand.

Tops reported: Coleman County Regular 393-397.

pay for an additional airline ticket at a fare double the price of a lowered priced ticket. And before finding out that they had to buy the second, expensive, ticket in order to get the "free" vacation, consumers had to pay \$15 for their vacation certificates.

Check wrapper before buying

Concern about product tampering has millions of Americans paying close attention to the over-the-counter drugs they buy. According to RJR Archer, Inc., a major manufacturer of tamper-resistant packaging, consumers should pay special attention to the way the item is packaged. The plastic wrapper on the box or container should be wrapped tightly and sealed, with no loose spots, the company says. All protective plastic seals around

bottle caps should be smooth and in one piece, not glued back together. The foil lidding inside a bottle or on a "blister" pack of pills should be checked for tears, punctures, crumpled edges or any other sign that the seal has been broken. A spokesman for RJR Archer said consumers should return any product about which there is some question to the store where it was purchased.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS
OF PROPOSED
CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION
NOVEMBER 4, 1986

PROPOSITION NO. 1
ON THE BALLOT
 Senate Joint Resolution 15 proposes a constitutional amendment that would permit the legislature to provide by general law for the apportionment of the value of railroad rolling stock among the counties in which the property of the railroad is located for purposes of property taxation, and would delete the requirement that the Comptroller participate in making the allocation. To comply with both statutory and constitutional law, the apportionment currently is being made by the State Property Tax Board in conjunction with the Comptroller.
 The proposed amendment will appear on the ballot as follows:
 "The constitutional amendment to allow the legislature to provide by general law for the apportionment of the value of railroad rolling stock among counties for purposes of property taxation."

PROPOSITION NO. 2
ON THE BALLOT
 Senate Joint Resolution 33 proposes a constitutional amendment that would replace the constitutional requirement that the subject of a bill be expressed in its title with a mandate that each house of the legislature adopt rules of procedure that would require the subject of each bill to be expressed in its title in a manner that gives the legislature and the public reasonable notice of that subject. Determining compliance with the rule would be the responsibility of the legislature. Currently, a law is invalidated if a court finds its caption is defective. The amendment would provide that past and future enactments may not be held void on the basis of an insufficient title.
 The amendment also would eliminate the suggestion that the state's laws be revised every ten years, and instead would provide for continuing revision of state laws.
 The proposed amendment will appear on the ballot as follows:
 "The constitutional amendment requiring each house to include in its rules of procedure a rule that each bill contain a title expressing the bill's subject, and providing for the continuing revision of state laws."

PROPOSITION NO. 3
ON THE BALLOT
 House Joint Resolution 73 proposes a constitutional amendment that would permit the Legislature to authorize any county, city, town, or other political subdivision to use public funds or credit to pay insurance premiums on nonassessable life, health, or accident policies. Due to the prohibition in the constitution against the lending of credit and granting of public money, political subdivisions currently are prohibited from becoming shareholders in associations such as mutual-insurance companies, in which policyholders are shareholders. A nonassessable mutual insurance policy does not allow a company to raise capital by assessing the policyholder an extra amount on a pre-

STATE CAPITAL

HIGHLIGHTS
 By Lyndell Williams
 TEXAS PRESS ASSOCIATION

AUSTIN—Texas Gov. Mark White, fighting for his political life, took the offensive last week against the Texas House, threatening to veto the new betting bill unless House Speaker Lewis' team solves the state's fiscal crisis in a second 30-day session.

What White means is raise taxes, and he's backed by Lt. Gov. Bill Hobby on that issue.

But the House again demonstrated its opposition to a tax hike when some 85 state representatives rallied to support House Speaker Gib Lewis. Opposed for re-election back home, Lewis is also fighting for his career.

Tempers were hot and House members complained of being pushed around by the governor and senators who want a sales tax increase.

The House and Senate are now farther apart than before. Endgame politics and re-election rhetoric may have derailed what appeared to be a new basis of cooperation.

Cut First, Tax Later

Last week, Lewis softened his stance, saying he was not entirely opposed to a tax hike. In fact, for days, Capitol scuttlebutt had it that Lewis would allow a minimal tax bill in the second session because he had saved his re-election face.

Hobby, for his part, signaled

he would accept the so-called Band-Aid approach that senators had vowed to kill.

But after White's threat, House members rallied at Lewis' office. Lewis repeated his first position: cut the budget first and then we'll think about raising taxes.

Lewis still holds the majority of votes in a divided House. One frustrated pro-tax representative even accused Lewis of aiding White's Republican opponent, former Gov. Bill Clements. He implied no tax bill would wound Mark White.

Are we watching legislators vote on the basis of whether they want to support the re-election of either Mark White or Gib Lewis? Or can the fiscal crisis stand as a valid issue by itself? Maybe both.

Veto Anyway?

White is suspected of wanting to veto the betting bill anyway. Pro-horserace members are reluctant to give White his tax bill until after the new bill becomes law. They don't trust him.

On the surface, it appears the budget is being sacrificed for parimutuel betting, but the real issue is predominate House sentiment that taxes should be raised in January, not now.

Now Into Deficit

By mid-week, Hobby warned legislators they faced the most radical loss of funds of any state in the nation's history. By not acting, they could also become the nation's laughing stock.

Hobby called the first session a flop, but said a stopgap plan of tax hikes, budget cuts and accounting maneuvers will keep state checks from bouncing, if the House okays it in September.

The House Republican response was to question the accuracy of Democratic Treasurer Ann Richard's statistics.

The curtain rang down early Thursday on the first special session, four days after the state ended the fiscal year \$231 million in the hole, the first deficit in 25 years.

Lawmakers finished business on only three major issues: legalized betting at horse and dog tracks, school discipline and interstate and branch banking.

Pressured and determined, the governor came out fighting. He gave legislators the

weekend off to face voters back home before starting the new session Monday morning, when he planned to address a joint session.

They went home fatigued, particularly the workhorses on the budget committees who had started weeks ago hammering out the budget cuts.

Don't let anyone tell you re-election politics don't figure in. They do.

Clements-White Debate

Meanwhile, the negotiations are again for a televised debate between White and Clements.

Clements, leading in the polls, officially started his fall campaign last week in Dallas. He complained the media attached the word "secret" to his plan to balance the budget. He denied ever using it, but White's statewide TV ads derided Clements for having a "secret" plan.

In fact, Clements said, he outlined his plan in letters to White back in June and July. Meanwhile, he continues on the campaign trail, staying out of the Capitol fray when possible.

Dear Clarence:
Thank you for your interest in Mox Nix the family step-cat. It will, however, be impossible for me to fulfill your request for an update column about our cat's most recent activities.

Please don't take this wrong. When you hear what I have to tell you, I think you'll understand my reluctance.

The last time I wrote a Mox Nix column a normally placid individual threatened me with bodily violence. "I can't help it," he said. "I'm a peaceful man by nature. But I'm sick of reading about a cat with no tail, a plastic spine and a Billy Martin disposition. If I ever read that name (Mox Nix) again, I'll probably lose my mind and not be responsible for my actions."

I told him I didn't want to have anything to do with his losing his mind. Besides, I told him, once lost they are almost impossible to recover, and, in fact, my wife had been searching for the one I misplaced several years ago.

Had I felt safe enough to write a column about Nix I would have told people about her most recent confrontation with a rattlesnake. As it is, it'll just have to be our secret.

What happened was this:
Mox Nix had finally tired of dragging half-eaten cottontails to our backdoor and had persuaded a rattlesnake to follow her home. It was only when the rattlesnake had slithered up to one of the windows beside our bedroom that she started clawing at him.

This provocative action resulted in the rattler coiling up in the traditional obstinate manner. The snake also made divisive rattle noises, which in time, caught the attention of my wife, who was in bed reading.

"What's that noise," she said.
"Just locusts," I said.
"Sounds like a rattlesnake to me."
"Don't be silly," I said. "A rattlesnake wouldn't be outside our window?"

"What about Mox Nix? She's not in the house."
"Don't worry," I said. "The last thing

she's going to get hooked up with is another snake."

Apparently my voice lacked reassurance because a moment later we were both standing on the deck in our underwear and looking around the corner of the house.

"It is a rattlesnake and Mox Nix is standing right in front of it," she said, as if I'd been stricken with blindness. "We've got to do something," she whispered.

"What do you want me to do, strangle it?"

I didn't have a gun and the hoe was all the way around on the other side of the house and my feet were frozen to the deck.

"Don't just stand there," she said. "Mox Nix will be killed. Please do something."

That's when I began whispering to Mox Nix. "Here Mox Nix. Here Mox Nix. Come here, please. We're both in trouble if you don't."

Mox Nix, who was in a "charge," motionless state, caught my grotesque appearance with her peripheral vision. Even now, in the midst of all this danger, she had a perturbed look on her face - probably because I was her as if she were a dog.

For once, though, she followed instructions, delicately back-pedaling to safety while the rattler rattled reluctantly.

To make a long, scary but uneventful story short, we got her in the house safely and closed the door. The rattlesnake slithered quietly away into nearby vegetation.

When outraged friends scolded me the next day for not killing the snake, I told them I wasn't the kind of person who would thoughtlessly fool with the delicate balance of our ecological system.

Nor with a steamed-up rattler.

Weekly Health Tip

WALK TO REDUCE HYPERTENSION

Good old-fashioned walking can be effective in reducing high blood pressure - a leading cause of heart attack, stroke, and kidney failure. "Walking can be as beneficial as drugs in controlling hypertension," says Dr. Andrew Lewin of Cedars-Sinai Med. Ctr., L.A. "I advise a brisk 45 minute walk - no strolling - 3 or 4 times a week. Consistency is very important." After your doctor's okay, start walking slowly 5 or 10 minutes daily - gradually build to a brisk 45 minute walk.

You Tellum!

By Art Lawler

He had just read my comments about Indiana basketball coach Bobby Knight and it's fairly certain he wasn't impressed.

Time was not relevant, either. I'll admit my comments about Knight were less than flattering. The caller was wondering why I, a non-descript, low-life, private citizen and cockroach, felt I had the right to criticize a man of Knight's stature.

The man has, after all, coached national basketball champions and been arrested abroad.

I was only half awake, it being 2 in the morning, so I carried on the argument for maybe 15 minutes. My only defense of the Knight criticisms was that I was a U.S. citizen, and because of that I, by gosh, had the right to express my by gosh opinion about anybody, any by gosh place within the free boundaries of the United States of by gosh America.

As long as I was out of fist range.

Had I been more awake, I'd have sang the *Star Spangled Banner* for him. As it was, my wife eventually did the only sensible thing that was going to happen on either side of the telephone line. She disconnected us.

So much for free speech. During normal daylight hours, I thought of how frustrated free U.S. citizens must feel while reading the comments of newspaper columnists. Being U.S. citizens, they too have a right to see their by gosh opinions in print.

A few write letters to the editor, but only about 1 percent. Most just pick up the telephone, let the columnist have it, then hang up. A better balance would occur if more people took a few minutes to put the pieces of their minds on pieces of paper.

The column, which begins today in the *Clyde Journal* and the *Cross Plains Review*, is for the purpose of encouraging readers to express themselves.

We'll still bring up the issues, just so you won't forget. We may even reveal an opinion or attitude or prejudice on the subject. But the final word on this column goes to the reader.

And now to get on with this week's issue: SMUT.

The Meese Commission has linked pornography with violent behavior. You read a sex book, your mind gets scarlet fever and you go out and decapitate women who wear nylons with seams.

The Meese Commission, critics say, wrote the conclusion first, then went after the "facts." Meese supporters call it a work of art and say its critics are just looking for an excuse to continue publishing works that are destined to lead the country toward the cesspool of civilization.

Here's an example of that excuse-making from an acquaintance I try to avoid. "Why doesn't the surgeon general simply make pornographers use warning labels?"

he says, before offering an example. "The surgeon general has warned that visible consumption of this literature can lead to sexual abuse, rape, imprisonment and social diseases of the most embarrassing kind."

The guy's a cynic. He likes to read dirty books, too. Surely you can offer a more constructive argument. Should smut be burned? You tell 'em.
