County Unemployment Rate Jumps During November

Callahan County's unemployment rate rose sixth-tenths of a percentage point between October and November 1992, according to unemployment figures released Tuesday, December 22 by the Texas Employment Commission.

The county's unemployment rate now stands at 4.7 percent, up from the 4.1 percent jobless rate recorded in October of 1992.

Of the 5,722 civilian labor force in Callahan County, 5,452 had jobs during November 1992, and 270 didn't, giving the county a jobless rate of 4.7 percent.

According to Mary Scott Nabers, commissioner of the TEC in Austin, Callahan County's unemployment rate was 4.1 percent in October 1992. Of the 5,724 civilian labor force in the county last month, 5,490 had jobs while 234 or 4.1 percent did not.

Previous monthly jobless rates in Callahan County include: 4.7 percent in September, 4.0 in August, 5.1 percent in July, 5.3 percent in June, 4.4 percent in May, 4.7 percent in April, 5.3 percent in March, 5.7 percent in February, 6.1 percent in January 1992, 4.8 percent in December 1991, and 4.6 percent in November 1991, according to Ms. Nabers figures.

The statewide unemployment rate was placed at 7.7 percent in November 1992.

"The supply of jobs in Texas cannot keep up with demand, and that imbalance has pushed the state's unemployment rate even higher at a time when we had hoped unemployment would go down," Commissioner Nabers said as the state's jobless statistics were released by the Texas Employment Commission. November's unemployment rate was 7.7 percent, up 0.9 percent from last month's 6.8 percent rate as well as from November 1991's rate of 6.8 percent.

Texas has 167,600 more people trying to find work this year compared to November 1991. "It appears that based on reports of an economic recovery, more Texans and others who have migrated to the state have entered the job market. That has driven the rate up again," Nabers said. "The problem is that as more new workers entered the work force in November, Texas employers were not yet ready to hire. Employers approached the holiday season with very cautious optimism, and that may have contributed to an unexpected increase in unemployment."

"Employers were obviously waiting to see what the mood of the buying public was going to be before increasing their work forces," she said. "Employers have had some disappointment in the last few years, and this year they may have wanted to watch sales more closely before committing to extra payroll expenses."

The number of jobless Texans increased by 77,600 in November. "Having that many unemployed people in our labor force in November brought the state's total unemployment up to 670,700. That is a 13 percent increase from the previous month, which is not good," Nabers said. "This is not the scenario we wanted for this time of year, but I predict that favorable December numbers will more than make up for this decrease."

"Wholesale and retail trade experienced a 0.9 percent increase, which was actually better than last year at this time. But, we saw only moderate growth in other sectors," Nabers said. Construction was the only industry that lost jobs from October to November with a slight decrease of 700 jobs.

Each of the 27 Metropolitan Statistical Areas followed the statewide trend with October and November increases ranging from the highest increase of 1.7 percent in Beaumont-Port Arthur, to the lowest increase of 0.6 in Abilene, Bryan-College Station, Lubbock and San Antonio.

Texas Unemployment Tax Rates Will Not Increase Significantly, Says TEC Commissioner

"Texas employers can breathe a sigh of relief because their tax rates are not going to escalate significantly," TEC Commissioner Mary Scott Nabers said today as the Texas Employment Commission released tax rates for 1993.

"This has been a trying year. The state's economic woes have caused thousands of businesses to downsize and the result has been massive layoffs throughout Texas. Employment prospects have been so bleak that unemployment benefits have been extended on an emergency basis numerous times. These factors have greatly concerned Texas employers about their 1993 TEC tax rates," Nabers said.

The maximum rate that could apply to any Texas employer in 1993 will be 6.35 percent according to Nabers. That is up only slightly from last year's maximum rate of 6.30 percent. The lowest rate any business will experience in 1993 will be .35 percent, up from .30 percent in 1992. The new rates become effective Jan. 1, 1993.

Employers should begin receiving their individual tax rate notices the second week of February. Payment will be due for the first quarter of 1993 in April.

"Employers in Texas pay taxes for every employee's first \$9,000 in wages. Depending on an employer's tax rate, that amount could vary from a low of \$31.50 per person to a high of \$571.50 per person," Nabers said. There are more than 333,000 tax-paying employers in Texas.

The Texas Employment Commission administers the Texas Unemployment Compensation Act and provides services to both employers and employees statewide.

Attn: Editor

The Brownwood Bulletin of Thursday, December 10, 1992 was headlined by an article on the long proposed Pecan Bayou Lake at Burkett in northeast Coleman County. The only map I have seen that reflects this impoundment indicates it would cover an area from a dam near Burkett, north to Callahan County.

The financial impact of such a project on our somewhat dispirited economy would be definite and positive.

Staff members of the Brown County Water Improvement District No. 1, the City of Brownwood, and the Corps of Engineers met on December 1st to review an old proposal of the lake. There are indications that funding has been approved.

Mr. Harry Miller, general manager of the water district stated "The Brown County Water Improvement District #1 has been the primary sponsor of this project, and we should hope to remain so".

Mr. Miller goes on to say "In the current regulatory and legal environment, creating a permanent lake would complicate the project."

It is Brown County's intent to see only a flood control facility built in Coleman County. This would protect Brownwood from flooding while creating no facility to compete with Lake Brownwood.

According to the article, "it has not been determined whether the dam would hold a permanent supply of water available for use by municipalities or if it would be designed only to fill during

Letters TO THE EDITOR

heavy rains, WITHOUT A PERMANENT POOL."

I would hate to see people displaced from their ranches and homes solely for the purpose of protecting Brownwood, with no benefit to Coleman and surrounding Callahan County. A huge dry hole would take hundreds of acres out of production, off the tax rolls, and depreciate the county. A lake, on the other hand, would greatly enhance the entire area.

I should hope that no further meetings or hearings shall be conducted without including the County Rural Water Board or the Central Colorado River Authority.

Possibly there should be a group of residents and business people addressing our local interests. For example, if this had been done early in the development of Reservoir, perhaps it would still be called Stacy.

Personals

Roger and Ernestine Watson were happy to have their family home for Christmas. Max and Edith from Houston, Billy and Carol Ann from Richmond, grandchildren, Becky and Holly from Opelika, Alabama, Kelly and Alan from Houston and Richmond, great-grandchildren Laural and Andrew from Alabama. Aunt Pearl from Rising Star Nursing Center and Phelix and Sylvia Watson from Abilene on Christmas Day.

Bo & Pat Allen of May with children & grandchildren had an early day before Christmas then on Christmas day they honored their Aunt Kate Watson with a turkey dinner in Brownwood. The Kettle Cafe was the only business open. Bo in a separate car had gone on before and reserved a table, otherwise, they would have had to stand in a long line at the front door, waiting to be seated, timing was right.

MINUTE MUSINGS

By ESTHLOY S. DICKSON

This morning, the last Monday in 1992, is all-over cloudy, damp and cool. It would be difficult for me to 'smile real big' this morning - but I'll try!

The past week was a nice one for me. On Christmas Day, my good friend, Connie, sent out a whole batch of good food. I'm sincerely grateful. The next day, my friend, Lucile Callaway, came out and brought a huge batch of food. Then she sat down and visited for awhile. She is like 'family' and I so enjoyed her visit.

Services at First Baptist were beautiful on Sunday. The church was enlightened with some fifteen poinsettias, and several huge panels decorated the walls. The pastor's message was enlightening.

That Betty Boggs is such a 'cutie'. I enjoy talking to her. Mr. and Mrs. Kim Boggs and son, David, of Denver, Colorado visited the family during the holidays. Also the family of Rex Lee Boggs of Pioneer. Mr. and Mrs. Rusty Boggs and Charissa, and Doris Ann Kinney of Temple visited on Christmas Day.

I enjoyed my chat with Sally Ready. They visited nearly every day with Ms. Nettie at the Nursing Home. Betty and V.A. Gary and Nancy Hicks and Sally's family enjoyed Christmas Day at her brother's home in Abilene. Their son, George, spent the week with them. Cindy, Jim and Charlie called in from Missouri during the weekend.

Jewel Foster was in Sunday School and Church on Sunday. I had a nice chat with my son on Christmas Day. I had sent them money for Christmas, and he listed all the nice things the little girls bought. He said it was quite an experience seeing them shop with their own money. He said 'they are really sharp'.

WEEKLY
Health Tip

DRINK WATER

Pure water (minerals yes, contaminants no) is the best health drink, and diet drink (no calories). Water is needed to keep the blood fluid, saliva and digestive juices flowing. Water flushes the kidneys, bladder and urinary tract to eliminate toxins and avoid infection. Water is an 'anti-wrinkle' agent by keeping body cells fully hydrated. Six to eight glasses of water are considered necessary to replenish body fluids.

Your better health is our concern.
