**Time For C.P.H.S. Football Season**

The Cross Plains High School Buffaloes have had three-a-days for the week prior to the beginning of school. This means they have worked out three times a day, rather than the usual two time periods in an effort to prepare for the upcoming 1992-93 football season.

The Athletic Director, Doug Dallas, notes that they are very strong after working in the weight room last year and during the summer vacation. "This is the best team I have ever coached in my life," Dallas commented. "They really are working hard! Offense in practice is looking great and we are looking forward to the year."

The Varsity Cheerleaders have been busy painting signs on the local businesses and Buffalo Spirit is already being motivated. Carol At-

**'Fertilizer Blender New Addition To Pioneer Farmers Cooperative'**

By VANDA KING Editor

The Pioneer Farmers Cooperative, located on East Highway 36 in the Pioneer Community, purchased a fertilizer blending program from the Tennessee Valley Authority and became functional on May 1, 1992.

The T.V.A. set up the high tech program and trained local employees for the newest service for their customers. Many area farmers have already used the program, which may accommodate any size blend up to eight tons in one batch. Over 200 batches have already been blended.

Farmers need only to request soil tests, which are sent to Servi-Tech at Dodge City, Kansas for analysis. Samples are taken from four inches beneath the surface, in approximately five different locations on a 40-acre field, and are blended together to arrive at a general sample.

Professionals examine the sample and send back the recommendation of fertilizer needed based on an average. The three main properties consist of what is commonly referred to as NPK. N represents the nitrogen amount, P the phosphorus, and K the potash.

A P.H. analysis to determine the alkaline or acid condition of the soil is also performed. It takes 10 days to receive the results and the suggested needs of the individual's soil. The detailed data examples used to exhibit the procedure were on the Eddie Me-

to the blender to be weighed, blended, and loaded into the awaiting spreader.

There are eight bins constructed on the northeast side of the Co-Op facility, including fertilizer storage compartments with cement floors and a runway for the convenience of the skid loader. The bins contain Urea, Potash, DAP (fundamental base of all fertilizers), Ammonium Sulphate, Filler (ground limestone), Phosphate (straight), and K Mag (Potash, Magnesium).

The cost of the fertilizer depends entirely on the blend, ranging from \$130 per ton to \$220 to \$230 per ton. Nitrogen is the most expensive element.

The Co-Op will spread the fertilizer at a cost of \$2.50 per acre for application, or spreaders are available to customers to apply themselves without charge.

Bailey explained that trace elements, zinc and boron, are sold in bags and usually used in very small amounts, 1/2 to 1 percent, but are

most important to the production of peanuts, which is the main crop in this area.

The success of the newly acquired program will be evident in the 1992 crop yields. There is already evidence of increased dry fertilizer sales since the service started.

The Pioneer Farmers Cooperative also provides liquid fertilizer and big wheel spreaders, which is mostly used on Coastal grass for hay.

The Co-Op has been in existence for the past 25 years serving local farmers. Reggy Stover (President), Larry Gerhardt (Vice-President), Danny Hutton (Secretary), Lester King, and Kenneth Montfort served as board members for the operation.

Anyone who is interested in seeing the unique process is cordially invited to come by, observe the plant and obtain any information they may need. Bailey remarked, "The choice of elements through the soil analysis and computer will always be the least expensive blend, which is working for the farmer. The folks at the Pioneer Farmers Cooperative are here to serve you."

LT. AND MRS. RUSSELL WHEELER

## The Bride Wore Combat Boots

Lt. Russell C. Wheeler is a longtime Army National Guardsman. April Foller had just finished her tour of duty with the U.S. Army. They "discovered" each other at the 1991 Cross Plains Homecoming, and were smitten.

They planned an outdoor wedding in her parent's back yard for July 25, 1992, at ten in the morning. Since July is peak grass bur season, April kept telling Russell she was going to wear her combat boots under her wedding gown so as not to get stickers in her feet. He humored her until he decided she just might be serious. Ultimately she did promise to wear white shoes.

The day of the wedding was a perfect one for the beginning of a new life together. The bride wore a traditional long white gown, designed by herself and sewn by her mother. The groom wore his finest military dress uniform.

The bride was given in marriage by her father, Kenneth Foller. Shawnta Jones was the maid of honor, and Tommie Conlee was the best man. The flower girl was Cindy Martin, and Janet Hartman registered guests. The mother of the groom, Sandra Wheeler, played the organ and sang a solo. The double-ring ceremony was performed inside a ribbon and flower adorned gazebo by Joe Coppinger. He ended, presenting "Mr. and Mrs. Russell Wheeler" to the large gathering of family and friends.

Everyone gathered around to watch the bouquet thrown, and the garter.

April raised her dress so Russell could remove the garter. To his utter astonishment, April was wearing her combat boots! They were lavishly trimmed with white lace, pearls, and rhinestones...and colored the promised "white." Russell was momentarily stricken speechless, but he quickly regained a proper military bearing befitting his rank, and carried on.

The couple cut the cake, on the top tier of which, nestled under an arch of lace and flowers in a bed of flowers, were two combat boots with their laces tied together. One was black, the other white and lacy. They toasted each other with champagne from Germany. Guests were served cake and punch by Amy Foller, Sherry Williams, Judy Shugart, and Lisa Price.

When the couple went to leave, they found their beautiful Mustang convertible full of wadded newspapers, birdseed, and confetti; topped off with toilet paper trim. They fitted in somehow and left in a hail of best wishes, smart remarks, and more birdseed and confetti, dragging the traditional tail of cans and junk. As they drove off, April's cousin, Brenda, said it all when she shouted after them, "Welcome to the family, Russell!"

After the wedding, the groom's family hosted lunch at the Cottonwood Community Center. Everyone had a great time visiting and watching the couple open gifts.

Welcome to the world, Mr. and Mrs. Russell Wheeler! May you always be so happy!!!

VITAMIN E

Healthy-appearing persons with balanced diets were tested for levels of body cell damage at U. of Toronto Medical School. When vitamin E was added to their diets, a significant decrease in cell damage occurred. Cell damage can lead to such diseases as cancer, heart problems, and premature aging. The tests indicate that a supplement of natural vitamin E, beyond the amount in a good balanced diet, can have beneficial effects for normal, healthy individuals.

Your better health is our concern.

**AGAINST** the proposal: Randy Foster  
**PRESENT** and not voting: None  
**ABSENT:** None

The statement above shows the percentage increase the proposed rate represents over the effective tax rate that the unit published on August 19, 1992. The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	Last Year	This Year
Average home value	\$42,500	\$42,500
General exemptions available (amount available on the average home, not including senior citizens's or disabled person's exemptions)	\$13,500	\$13,500
Average taxable value	\$29,000	\$29,000
Tax rate	\$.825/\$100	\$.9398/\$100
Tax	\$239.25	\$272.54

**Under this proposal taxes on the average home would increase by \$33.29 or 13.91 percent compared with last year's taxes. Comparing tax rates without adjusting for changes in property value, the tax rate would increase by \$.1148 per \$100 of taxable value or 13.91 percent compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.**

### 1991 Property Tax Rates In Callahan County

This notice concerns 1991 property tax rates for Callahan County. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's *effective* tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's *rollback* tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

**CROSS PLAINS  
VOLUNTEER FIRE  
DEPARTMENT REPORT**

By RON BELL  
P.I.O.

The month of August has proven to be a busy month for the Cross Plains Volunteer Fire Department. In the first ten days the department has answered six calls of service. These calls are as listed:

**August 1** — 6:10 p.m., grass fire, Bruce Clark property.  
**August 3** — 3:15 p.m., grass fire, Highway 36, east of Rose Butane.  
**August 5** — 3:15 p.m., accident, gas spill, FM 2027 and 587, Eastland County.  
**August 8** — 5:45 p.m., dumpster and grass fire, city property; 2nd call — 6:35 p.m., dumpster reignited.  
**August 10** — 3:40 p.m., grass fire, Illa Gilliam, property.  
**August 10** — 10:40 p.m., building fire, Rising Star.

When answering the call to service on August 10 at 10:40 p.m., CPVFD aided the Rising Star Fire Department, along with units from Cisco Fire Department and Sipe Springs Fire Department.

These fire units fought this fire with extreme professionalism, but was unable to save the building. The fire was prevented from spreading to any other structures. Three fire fighters sustained minor injuries battling this blaze.

The Cross Plains Fire Department, along with the city police, sheriff's office, and Department of Public Safety Troopers stationed here in Cross Plains, would like to remind everyone that school has started again. We ask everyone to be extremely careful where children are being loaded and unloaded, be it at the school or at bus stop out on a county road or highway. Children sometime run without looking, so please look out and be ready for them.

Also, the fire department would like to remind everyone that the grass and weeds are starting to dry out, so please be careful with your cigarettes and matches. Only humans can prevent fires.

**Pharmacist's  
discovery may  
end obesity**

WASHINGTON -- After solving the problem of his own obesity, a pharmacist, now director of National Dietary Research, may have discovered the solution for others with the same problem.

Dr. William Morris, pharmacist, inventor and author has discovered a natural food tablet, aptly named Food Source One, that replaces some of the calories normally obtained from food. Food Source One replaces high calorie fats with other natural food ingredients with little or no caloric value so you can lose weight without giving up all your favorite foods, as explained in NDR's Lifestyle Maintenance publication, available where Food Source One is sold. "The secret to meaningful weight loss is not in decreasing the amount of food you eat, but in controlling the fat," says Dr. Morris.

According to Dr. Morris, weight loss results while using Food Source One will depend on how many pounds a person needs to lose. However some overweight people are experiencing extra-ordinary results with Food Source One. A Metairie, Louisiana nurse lost 71 pounds. She stated "I never had to sacrifice the foods I really crave!" "Food Source One is very easy and anyone could do it," says a Niagara Falls, New York woman who lost 26 pounds and 15 inches. "The results are great!" she added.

Food Source One is available at pharmacies without a prescription. © 1991 Omnicron International. All rights reserved.

**Letters  
TO THE EDITOR**

Dear Editor:

I was visiting in Cross Plains a few weeks ago and in doing some driving around looking at places my parents had lived long ago, I drove out north of town on a small country backroad. There had been a thunderstorm during the night before and even though this was late in the afternoon, there were still a few mud puddles on some of the small dirt roads.

We came upon the road which passed my grandmother's house of some 35 years ago and decided to drive through what appeared to be a mud puddle in the middle of the road. But as I drove the rental car through this puddle, the car suddenly dropped into what apparently was a ditch which had washed in the road! I realized immediately that we would need a tow truck to pull the car out and when I opened the door to go for help, the water was level with the floor of the car! I wadded out, ran to the nearest phone for help and found that there is no 911 service in Cross Plains, no tow service listed and apparently the police don't answer the phone after 5:00 in the evening! A very kind AT&T operator then tried the second number listed for an emergency, but when the "EMS" answered they would only reply that we needed to call the police! The AT&T operator tried to explain that there was an emergency (I had left my 86-year-old mother, a 7-week-old infant, and a 6-year-old child in the car with my grown daughter), but the "EMS" had no sympathy at all, just "call the police." Luckily, I have relatives living in Cross Plains and when I summoned them, they were there in minutes with a tow truck. But my point is that, what would I have done if I had not known someone to call?

I repeated my story to a member of our local "EMS" here in Virginia and he was appalled that I wasn't offered some sort of assistance (not necessarily a response to the call, but at least some advice since I was in a strange town). I read almost every week about how friendly your town is and you run frequent pictures and articles about your "EMS." This made my recent experience all the more disappointing!

I subscribe to your newspaper and look forward to it every week, so I am just using you as a sounding board for a situation that perhaps should be looked into. Thanks for listening!

Rains varied Friday and Saturday for this area. Vernie Bell Mauldin had a reading of one and one half inches at their place. The Gibbs gauge only had one half inch. There was a lot of thunder. Mrs. Mauldin also reported on a fire today. An oil tank had caught fire and was burning its contents. This was a tank just west of Highway 36 and west of Highway 283. They supposed that the fire was started by lightning.

Garland and Tawny Jo Wells of Baird visited Gene and Vernie Belle Mauldin Friday.

Brad and Michal Watson spent the weekend with his parents and brothers, Robert and Dorothy Watson and Cody and Wyatt.

James and Dorothy Reynolds attended graduation exercises at Hardin Simmons University Friday where her niece, Julia Griffin, was a graduate. Her studies were Elementary Education with a Masters in reading. Julia is teaching in the Abilene school system.

Edna Dye attended a family cookout hosted by Joe and Sharron Allen of Abilene at their place at Little Bend. This was for both his and her families. Her parents, Frank and Mildred of Eastland, and Ed and Betty Sayre and Mary Sayre of Breckenridge attended.

# MINUTE MUSINGS

By ESTHLOY S. DICKSON

This is a beautiful Monday morning — sunshine and a light breeze. I've always thought of August as the hottest month in the year; but this month has been just great thus far — I hesitate to brag!

Services at First Baptist were tremendous Sunday morning — and evening! The music programs were 'special,' and the pastor's sermons were dynamic!

I had a special 'phone call on Saturday — from my sister, Opal Cox — she lives on the ranch in Stephens County. She had talked to our sister at Cisco. They both are well and happy, and I'm glad.

Betty Beggs sounded great this morning — she didn't have any special news. They were at church Sunday evening — she greeted me warmly — I seldom attend the evening services, and she was happy that I made it last evening — bless her heart!

Sally Roady was her usual friendly self this morning. They visited Ms. Nettie at the nursing home nearly every day. Cindy and Charlie called home often. Their son, George, came in from Dallas for the weekend — they enjoyed his visit.

Ms. Jewel Foster sounded 'chipper' this morning. She had some of her family there on Sunday and did not attend Sunday School and church. I'm glad that they visit her often. I wish my kids were close enough to visit me often. I'm lucky that they call me often (one in Cleburne, one in Longview).

Doris Anne McBride is visiting her mother, Lucile Callaway. They were out this Monday morning — I didn't get to talk to them.

Nell Fleming sounded great this morning. She didn't have any special news, however, I enjoyed a chat with her.

When I started this column this morning, the sun was shining. Now, at 10:30, it is all-over cloudy — not gloomy, just cloudy!

## Clyde Man Killed, 2 Others Hurt In Wreck

Taken From The  
Abilene Reporter-News

A Clyde man was killed and his wife and another woman hospitalized in a two-car collision Tuesday morning, August 11, on State Highway 36 about 15 miles southeast of Abilene.

The victim was identified as John Edwin Scott, 74, of Route 2, Clyde, who died about 10:50 a.m. at Humana Hospital-Abilene.

His wife, Sharlene Scott, 67, was listed in critical condition at Humana while the other motorist, Mary Melissa Parker, 25, of Cross Plains, was in serious condition at the hospital.

A Humana representative said Sharlene Scott was transferred to Zale Lipshy Hospital in Dallas last Wednesday evening, but the Dallas hospital would not release any information on her condition Wednesday night.

Scott received head and lung injuries as well as broken bones, the Humana representative said.

Trooper William Russell of the Department of Public Safety said the wreck occurred at Highway 36 and Farm Road 603 about 7:45 a.m. He said the Scott car was traveling north and entered the highway from a county road after coming to a halt.
