'A Little Time Off'

By VANDA KING
Editor

Last week Kye had to return to Dallas for a monthly check-up following surgery, and believe it or not, I have successfully driven us there twice in a row.

My cousin, Sheila Brooks, wrote a cute note after our first experience driving in the big cities and stated she would like for us to visit her in California, BUT PLEASE DON'T DRIVE! I just wanted her to know I think I have finally accomplished driving in the fast lane.

Dr. Kenneth Salyer, a world renown facial and cranial surgeon, reported to us that Kye was progressing excellently. He even gave him permission to play football in the fall. Then he looked at me and said, "How does Mom feel about this?" I was a little surprised, but glad Kye could finally try out.

Relatives who live in White Settlement treated us to a delicious meal at the Spaghetti Warehouse in the Fort Worth Stockyards. The building is the former Swift and Company site which has been refurbished with gorgeous antique furniture and accessories with an actual antique street stop light and train car (used as a dining booth). The atmosphere was authentic and the Italian foods superb.

Cousins, Ginger Sheppard and Ginalou Jenner, gave us a tour downtown Fort Worth and their work places. Ginalou is employed by the Fort Worth Star Telegram and it was a treat to see where she worked and meet some of the people employed there. They actually knew where Cross Plains was due to Robert E. Howard's fame.

Ginger is employed as personnel and payroll manager in the Fort Worth Club. We felt like we had already been on a roller coaster after driving in the multi-story parking garage.

DeeAnn Jenner, Ginalou's daughter, and Patti Ruth Sheppard, my late grandmother's sister and the only living child of Mr. and Mrs. Burse Irving, also accompanied us on various excursions.

Friday, we enjoyed Six Flags Over Texas at Arlington from 11 a.m. until 10 p.m. The overcast day provided cooler temperatures and the rides were exhilarating. The most thrilling ride was the Avalanche Bobsled which reaches a speed of 40 miles per hour in duplication of the Olympic bobsled event.

The Conquistador, Roaring Rapids, Air Racer, Runaway Mine Train, and the Shock Wave were thrilling. The Texas Tornado was the most relaxing when your feet are exhausted from lengthy lines. You do have to acquire patience on a busy day.

We were most impressed by the Crazy Horse Saloon and Southern Palace performances. The talent and vitality of the youthful singers and dancers was outstanding. The Batman Stunt Show was unique also. You could literally feel the heat from the huge explosions.

The beauty of the flowering plants and shops is eye-catching and Six Flags at night on the Runaway Mine Train is wonderful.

The following day, we shopped at Hulen Mall and Michael's and had a great time. In the evening, we attended the North Side Rodeo in the Fort Worth Stockyard where the cowboys and cowgirls provided more excitement. The Sheriff's Posse performed some intricate drills which demonstrated their practiced skills horseback.

Leah, Kye and I had a terrific time and the best of hostesses. It helps to get away for a little while and do something different.

LORI DILLARD

Lori Dillard Honored As All-Star Cheerleader

Local high school cheerleader, Lori Dillard, daughter of Mr. and Mrs. Donnie Dillard, has recently been honored by the Universal Cheerleaders Association (UCA). She has been selected as a 1992-93 All-Star Cheerleader. All-Star Cheerleaders are from cheerleaders attending UCA camps across the United States. They must compete for the honor in the categories of dance, cheers, best jumps, and overall cheerleading ability and spirit.

With this honor comes the opportunity for Lori to represent Cross Plains High School in the Lord Mayor of Westminster's New Year's Day Parade in London, England. UCA All-Star Cheerleaders across the U.S. will march in the parade and perform before the Westminster Abbey.

This is an honor and a rare opportunity for a Cross Plains student to represent our school. Look for fund raisers in the next few weeks to support Lori in her trip to London.

Lawsuit Against County Seeks Over \$51,000

Three Deputies Sue County For Overtime

Weatherford, Texas labor lawyer Frank Parker has been retained by Callahan County to defend a civil lawsuit filed by three Callahan County Sheriff's Department deputies seeking overtime pay.

Callahan County Commissioners, in a regular court meeting Monday, July 13 voted unanimously to retain Parker to represent Callahan County in the suit. Commissioners went into executive session at 11:00 a.m. Monday to discuss the particulars with Parker and reconvened back into open session at 1:30 p.m. and promptly made a motion to hire Parker.

The civil lawsuit, filed in a Northern District Federal Court in Abilene, was served to Callahan County Judge Bill Johnson on Tuesday, June 30.

In the papers filed against the county, Rod Waggoner, Clay Woods and Wayne Knowles are seeking specific overtime pay plus attorney fees. Waggoner, the Clyde deputy, and Knowles, the county's chief deputy, are still with the sheriff's deputy. Woods, the Eula deputy, is no longer with the sheriff's department.

In the suit, Knowles is seeking \$17,002.77 in overtime pay, Waggoner is asking for \$9,503.30 and Woods seeks \$10,304.04. The suit is also asking for the county to pay \$15,000 in attorney fees. Abilene attorney Frank Scarborough is representing the plaintiffs.

The three deputies have asked for a trial by jury instead of a federal judge deciding the case. Johnson stated he doesn't know when the lawsuit will go to trial.

Judge Johnson said the county commissioners decided to hire an independent attorney after the state attorney general advised county officials not have the county's attorney represent the county. Johnson said by using the county attorney to defend the case, on behalf of the county, would "put the county attorney in an awkward position." Legally, the county attorney represents county residents, not county governments, Johnson said.

Judge Johnson said he received a letter from Scarborough a couple of months ago stating the three deputies would settle for one-half of the overtime sala-

ries sought, however the county rejected the settlement.

"The county doesn't feel we owe anything," Judge Johnson said adding that county officials have "advised them (sheriff's department deputies) over and over again to take comp time" instead of overtime. That point is what the county is basing its case upon, Johnson added. The county judge noted that other counties in the area give deputies compensation time instead of overtime.

Johnson said he's not sure, but he believes the county deputies are still accumulating overtime hours and not exchanging them for comp time.

Johnson said the county hasn't agreed on a fee with Parker for defending the suit, but believed the cost will be under \$10,000. In answering the lawsuit, Johnson said the county would ask the plaintiffs pay all attorney costs.

The judge calls Parker a skilled lawyer in labor law cases, noting he's been in the business for 25 to 30 years.

Other agenda items brought before commissioner's court Monday included:

—Commissioners voted to table taking action on approving an insurance carrier to handle the county's health insurance coverage. Judge Johnson said a called meeting will probably be slated to approve an insurance proposal.

—Commissioners discussed picking up the federal government food commodities for distribution Wednesday, July 15.

—Commissioners received a report from Tom Ivey, Veterans Service Office for Callahan County, giving the court an update on the number of people aided by the office. The Vet office served 17 last month, including six from Baird, four from Clyde, five from Cross Plains and two others from elsewhere in the county. The number served by the Veterans Service Office in May was 26, while 29 received help in April 1992.

Commissioners Reject Yahweh Plat Request

Callahan County Commissioners took little time in rejecting a proposal to subdivide 22.77 acres of land into a subdivision for the Yahweh Settlement.

Commissioners, in a regular court meeting Monday, July 13, voted unanimously to decline accepting the plat presented by county resident Andrew Glick.

Glick was represented by Abilene attorney Gary Brown at the Monday morning meeting. The plat of land is located southwest of Clyde, north of County Road 277 and east of Farm to Market Road 603. Glick filed the subdivision request with the county clerk's office April 30, but any action was delayed until Monday so residents near the subdivision could attend the commissioners' meeting.

Before a standing-room-only crowd of

approximately 100 in the county courtroom, Brown was informed the plat was rejected as presented because a private roadway within the subdivision contained a 50 foot right-of-way.

The county can request the same requirements be applied to private as well as county roads. Callahan County requires a 60 foot right-of-way for county roads.

Brown stated to commissioners the owner of the property would have to redesign the plat of land that calls for a 60 foot right-of-way for the private road.

Also, state health department regulations require a septic tank system and water well inside each one acre tract must be more than 150 feet apart. Therefore, the plat of land would also need to be redrawn into less than 22 separate tracts of land which was pre-

sented.

Within 10 minutes of opening the meeting, County Judge Bill Johnson asked for a motion to decline acceptance of the plat as presented. Commissioner Lowell Johnson made the motion with Commissioner Tommy Holland providing the second. All four commissioners voted in favor of rejecting the subdivision request.

About half of the crowd attending the meeting applauded after the motion was voted on.

The meeting was moved from the commissioner's courtroom to the county courtroom to make room for all those attending. The county courtroom was still inadequate with another 30 to 40 people standing in the hall outside the courtroom.

Cross Cut Homecoming For 1992

The Cross Cut Homecoming was held July 19, 1992 at the Cross Plains Community Center. Seventy-eight persons attended on this partly cloudy but delightful day.

Roy Stambaugh gave the invocation which preceded the luscious noon buffet. The food was so good!

President "Luke" Hawkins Eaton welcomed everyone, then asked for individuals who were attending for the first time or who had not attended in many years to be identified. The following were recognized: Rachel Hawkins, Graham; Lorine Bryson, Cross Plains; Helen Amis, Cross Cut; Myrtle Evans Cox, Mesquite; and Mary Cox Moore, Brownwood.

Oberlee Calk and Alene Crutcher were the two graduates of the Class of 1942. Neither attended to celebrate the fifty year reunion.

The following individuals and couples were recognized and given an AWARD OF MERIT Certificate.

1. Raymon Martin traveled the greatest distance — 340 miles from Baytown, Texas.
2. The Leroy Byrd family had the most family members present (9).
3. Bransford Eubank was the oldest man at 94 (to be 95 in August). Roe Martin was next at 93. Each man received a certificate.
4. The oldest woman at 92 was Lydia Eubank, sister of Bransford. She brought her birth certificate and read it to the delight of the audience. Elsie Edington Byrd and Alice Edington were both 91. Each of the three women received a certificate.
5. Two young girls were recognized as the youngest in attendance: Karen Ross (5), daughter of Beverly Tatom Ross; and Samantha Tabor (6), granddaughter of Coleata Martin Riley. Each young lady received a certificate.
6. All couples married over fifty (50) years were given a certificate. They included: Ruby Ragland and Clyde Chambers (51); Estelle Martin and Hubert Guthrie (50); Oneta Byrd and Arcie Hubbard (52); Charlie Mae Newton and Charles Kizer (51); Willie Mae Gaines and Woodrow Wilson (55).
7. Most recent newly wed couple just happened to be our oldest man, Bransford Eubank and his wife, Eloise. They were married in 1984.
8. Marie Stambaugh was the only former teacher.
9. Roe Martin and O.B. Byrd were again the only former trustees in attendance.

President Eaton asked for a silent prayer in memory of the following: Nona Prater Biehl, Opal Chambers Byrd, Madie Belle Byrd Chambers, J.W. Hounshell, Joyce Moore Fowler, Betty Prater, James Shults, Johnnie Griffin Cansler, Veda Moore Cox, Riley McKinney, Cora McKinney Johnson, Vera Sheppard Duncan, Billy Joe Pevehouse, Casey Pittman, Kenneth Pittman, Courtney Byrd, Mrs. Cletus Byrd, and Jeff Newton, grandson of J.W. Newton, son of Dr. Jimmy Newton.

Roy Stambaugh, President of the Cross Cut Cemetery Association, called for the election of three directors. O.B. Byrd, Blanche Byrd, and Oneta Hubbard were re-elected for a three-

year term.

Charles Kizer expressed appreciation to the people who have served so faithfully each year in order to have a successful Homecoming.

Since the Homecoming officers serve a two year term, there was not a need to elect new officers this year.

Bransford Eubank and Roe Martin were recognized as being World War I veterans.

Roe Martin was applauded for serving in both World War I and World War II.

Alice Edington was recognized as having been a widow for sixty (60) years.

Those attending the Homecoming included: Norma Jean (Byrd) and Harold Wilson, Oneta (Byrd) and Arcie Hubbard, Clois and Ruth Clark, Georgia and Cisero Clark, Blanche and O.B. **Child
Welfare
Report**

As you may have guessed already, the June meeting of the Callahan County Child Welfare Board was cancelled due to summer vacations. But "We're Back In The Saddle Again."

Our July meeting the 16th had a good show of members, a guest and new prospective member - Mr. Garlon Sampson. Glad to have you, Garlon! We're looking forward to working together with you.

Mark Stockdale, our CPS (Child Protective Service) case worker had some good news in this month's report. We need all Callahan County residents to pull together and show us your support financially or otherwise.

School will be starting soon. Some parents will sigh with relief to get their kids out and back into the school routine. Others will face the pressures of getting new students off for the first time. PARENTS !!! - take time out - take a deep breath - count to ten or whatever it takes to ease the tension to prevent you from exploding all over your children. A TEMPORARY problem could have a LIFETIME effect, if the WRONG action is taken.

Children are children, not short adults, therefore they think like children and act like children. They learn what they live, so give them a chance.

Next meeting is August 20th. Board members be thinking of projects for the Octoberfest. We need your input. The public is invited to attend. All meetings are the third Thursday of each month at 7:00 p.m. at the Human Services Building in Baird. Board Members circle your calendars so you won't miss out.

**Webworms
Are Here**

Homeowners in Callahan County are being plagued with webworms or tent caterpillars in mulberry and pecan trees, according to Greg Gerngross, County Extension Agent.

The worms are defoliating the trees where they are present in large numbers. It's real important that the worms be controlled because continued defoliation can weaken the trees and could cause death of the trees.

Several chemicals including Malathion, Orthene and Diazinon are recommended for control of these pests. Webs should be broken up as much as possible prior to spraying because the chemical must make contact with the insect before it can be effective.

Be sure and follow label directions prior to spraying any chemical. For more information on this subject, contact the County Extension office.

Regional Truck Sales Continue Recovery For Cross Plains

DALLAS — For the second straight month, trucks are pacing an automotive sales recovery for dealerships in Ford Division's two-state Southwest region, which includes Cross Plains-area dealerships. Ford dealers in the Southwest region delivered 14,415 trucks last month, a 16 percent increase on a daily rate basis compared to the same period a year ago.

"Leading regional sales for the second straight month were Ford's versatile Econoline series and restyled F-Series pickup," said Les Brown, the division's regional manager. "This reflects a national trend for Ford Motor Company which gained more than 10 percent in vehicle sales during the first six months of this year."

"As a result, our dealers in the region continue to remain optimistic about the automotive recovery," he added.

Mr. Brown noted that the Econoline series led sales gains during June with a 31 percent increase compared to the year-ago period. Regional sales of Ford's F-Series pickup jumped by 23 percent.

Other gainers during June included Ford's stylish Explorer, up 14 percent and the compact Ranger pickup, up 8 percent.

The Southwest region includes 390 dealers in Texas and portions of Oklahoma.

Woody Reunion And Retreat Well Attended

Over the weekends of July 11-12 and 17-19, the Woody family enjoyed the company of some relatives not seen for at least a year. There was a gathering in the home of Glenn and Ethel Champion on Saturday, July 11. Woody family members visiting the Champions were Scotty, Peggy and Jennifer Brame and Paul Sowell of Cross Plains; Tim Riley of Rising Star; James (Shorty) Casey of Flower Mound; Phillip, Deb, Seth, and Jared Lemmons of Iraan; and Tate and Deena Mitchell of Kingwood. Guests from Denver City were Bob and Murl Deen Champion and David and Vi Tumbough; and from Seagraves were James Semmes and Gary Summers. Doyle and Clara Mae Cowan and Wayne and Marie Brown traveled from Abilene to participate; and from out of state were Charlie Woody of Phoenix, Arizona, and Mary, Mike, Matt, Meredith and Mason Sanders of Clarksdale, Mississippi.

After church on Sunday, the 12th, more Woody clan gathered at the Cottonwood School House for lunch and conversation. Family members and Cross Plains residents participating were Jessie Casey, Glenn and Ethel Champion, Monty, Kim and Jeffery Champion, Pauline Champion, Alice Clark, David and Cindy Clark, Erwin, Donna, Melissa, and Jimmy Clark, Dick and Menville Dillard, James, Rita and Amanda Rose, Paul Matthew Sowell, and Chuck and Elva May Woody.

From Cisco came Marvin Wilcoxon and Sam and Alice Woody, Leona Bowers from Coleman, and from Flower Mound came Rodney Casey, Bob and Cindy Wild, and James (Shorty) and Bonnie Casey.

Additional family members joining in the Sunday reunion activities were Jim and Merle Willis of Graham, Philip, Debbie, Seth and Jared Lemmons of Iraan, and Roland and Ida Woody of Olney. Also taking part were David, Shirley, Gary and James Summer of Seagraves and Claud and Jo Champion of Tuscola.

Woody family members attending the Sunday reunion from out of state were Charlie and Rosie Woody of Glendale, Arizona, Floyd Woody of St. David, Arizona, Carol and Marcie Gonzales of Chula Vista, California, and Mike, Mary, Matt, Meredith and Mason Sanders of Clarksdale, Mississippi.

For the first time this year the families also met the next weekend, July 17-19, out at Brownwood Lake for a retreat. There was boating, skiing, fishing, swimming, eating, overnight camping, and games for the young and old alike. Family members attending this retreat from Abilene were Johnny, Kathy, Cody and Courtney Gonzales; Jim, Thaila, Matt, David (Fritz) and Carrie (Fritz) Robertson, and Eugene and Nelda Wilcoxon. From Burleson came Donald and Sheri Woody and children, Rodney Woody, Darrell Woody and Rodney Wayne, Tracy, Jason and Jordan Woody.

Also attending were Greg and Theresa Davison and their two girls, Junior and Cherry Bowers of Art, Rhonda Fritz of Austin, Marvin Wilcoxon of Cisco, and Emma and Dorothy Woody of Clyde. Other Woody clan participating at Brownwood Lake were Bruce and Minnie Woody of Fort Worth, Joey, Shelley and Brittany Clark of Graham, Jim and Merle Willis of Graham, Larry and Sheila Keeney of Taft and their two boys, Robbie Fillingham of Troy and Floyd Woody of St. David, Arizona.

In the three weeks preceding the reunion, the Woody families had six family deaths: Willie Woody, father to Sam and Roland Woody; Elton Jenkins, brother of Minnie Woody and grandfather to Floyd Woody's children; the father of Elaine Woody; Sallie Pearl Woody's sister, Amy; Kermit Fritz, husband of Rhonda Fritz and son-in-law to Eugene and Nelda Wilcoxon; and David Fritz I, father of David Fritz II, who is the son of Thaila Robertson and grandson to

Mosquitoes And Ticks Problem In Callahan County

Due to recent rains and warm weather the mosquito and tick problems are continuing to cause various diseases and illnesses throughout the Callahan County area. An infestation of ticks can cause great discomfort to a dog, contribute to generalized skin problems, create anemia leading to the death of the dog and pose a serious threat by transmitting diseases from infected to non-infected dogs. Also, a severe mosquito problem greatly increases the chance a dog will become infected with heartworms.

Tick-borne diseases have been diagnosed with increasing frequency in the last few years. With the spread of these diseases into new areas, including the infection of humans, the frequency of their diagnosis is expected to continue to increase. Suspicious dogs should be tested so that infected dogs can be treated to eliminate the reservoir of the disease and prevent its spread to other dogs.

Eventhough we are seeing these new tick-borne problems, the most common complication in our area is severe infestation resulting in anemia and occasionally death. If dogs become infested with ticks they should be dipped, sprayed or powdered as frequently as recommended to kill the ticks. If dogs have access only to a limited area, a tick eradication program should be followed in that area to eliminate ticks that may be harboring the disease organisms. Due to EPA regulations, many of the residue producing solutions have been taken off the market so the retreatment of the animal or premise may be necessary. All label instructions on any dip, spray or powder should be strictly followed for safety and effectiveness.

Mosquitoes are key carriers of heartworm disease. When an infected dog is bitten by a mosquito, blood is carried away which may include three months for these larvae to travel through the tissues of the body to enter the heart. Dozens of these larvae (some of which can actually become up to 14 inches long) become adults within another three months. There have been 23 confirmed cases of heartworms diagnosed at the Callahan County Vet Clinic since January. Twenty three cases is an overwhelming number for a rural area like Callahan County.

Thanks to research and modern preventive medicine there is a lot you can do to avoid heartworm in the first place or see that it is successfully treated if it hasn't progressed too far:

*A blood test is the only way to detect heartworm disease in its early stages.

*Since it's possible for an infected dog to have adult heartworms without microfilariae, an X-ray examination and other lab tests may be needed to confirm heartworm infection.

*After the disease has progressed, symptoms can include frequent coughing, sluggishness, rapid tiring and finally, labored breathing.

*If caught in time, a series of injections of an organic arsenical drug can be used to kill heartworms. Then another drug can be used to get rid of the microfilariae.

*No vaccine is available for heartworm disease, but we can give you regular doses of a drug which can prevent infective larvae from developing into adult worms.

A little preventative medicine is much better than treating the problem. If the warm, wet weather continues, these parasites may be a threat for several months.

Cook Presented Justice Of The Year Award

Justice Eugene Cook of the Texas Supreme Court has received the Outstanding Justice of the Year Award from the Texas Public Policy Foundation, a San Antonio based public policy organization that deals with a variety of state issues, including education, taxation, and tort reform. James R. Leininger, Chairman of the Board of the Texas Public Policy Foundation, presented the award to Justice Cook at a function in his honor in San Antonio, May 14. In making the award, he characterized Justice Cook's — years of work on the state's highest court as exemplary of fairness, impartiality and honesty. Leininger also told the assembled guests that his own concern over judicial integrity began when he saw a CBS "60 Minutes" piece entitled, "Is Texas Justice For Sale," which revealed abuses by special interests in the Texas high court.

Justice Cook is also the 1989 recipient of the Most Outstanding Attorney in the State Award, presented by the president of the State Bar. In

1993 Wheat Program

Farmers who participate in the 1993 Wheat Program will not be required to reduce their plantings to qualify for price support loans and deficiency payments, according to Scott Odom, County Executive Director, of the Callahan County Agricultural Stabilization and Conservation Service. The 1993 program contains a zero percent acreage reduction.

"This means that there is no requirement to place eligible cropland into an Acreage Conservation Reserve," Odom said.

He said this level was chosen from the statutory range of 0 to 15 percent to ensure sufficient wheat supplies for domestic and export needs.

Wheat program benefits include target price protection at \$4.00 per bushel, the same as last year, and price support loans at \$2.45 per bushel, 21 cents more than the previous year. "To be eligible for loans, purchases, and payments on the 1993 wheat crop, producers must not plant in excess of their wheat acreage base plus plantings permitted on flexible acres," Odom said. A paid land diversion will not be implemented, he said.

Other 1993 wheat program provisions will be announced at a later date.

Eligibility for participation in all programs administered by ASCS is established by law without regard to race, color, religion, sex, age, national origin, marital status, physical or mental handicap, political affiliation, or sponsorship club.

1990 he won the Louis Wright Award for Outstanding Public Service in Advancing Legal Ethics and also the Distinguished Professionalism Award from the Texas Center For Legal Ethics. Cook, a Houston native, was the unanimous choice of the selection committee according to Leininger.

Private Applicator Certification School Starts August 10

A Private Applicator Certification School will be held in Baird on August 10, according to Greg Gerngross, County Extension Agent.

The 3½ hour course will begin at 8:30 a.m. in the County Courtroom and testing by the Texas Department of Agriculture representative will follow. Completion of the training and the examination will enable agricultural producers to purchase restricted use chemicals and supervise application of restricted use products.

Study materials for the exam are available from the Extension office.

Producers who plan to attend the certification training are asked to pre-register by August 5. The Extension office telephone number is (915) 854-1518.

Alarming Number Of Canine Parvovirus Infections Found In Callahan County

There has been an alarming number of canine parvovirus infections diagnosed in the area. Canine parvovirus is a viral disease of dogs which is capable of causing two different sets of clinical problems. The first to be recognized, and the most common, is the "intestinal form" which is manifested by bloody diarrhea, vomiting, loss of appetite, depression and often death. The second to be recognized is the "cardiac form", which occurs in very young pups and is manifested by an acute inflammation of the heart muscle.

Any age, breed or sex of dog can be affected by parvovirus. Several factors such as age, environment, stress, parasites and general health status of each individual dog infected could affect the severity of illness.

The disease is usually more severe in young dogs, (less than 6 months of age) or old dogs. Early, vigorous treatment of the illness is imperative, since vomiting and diarrhea can lead to dehydration and chemical imbalance in the body.

Control of parvovirus by sanitation measures alone is extremely difficult because the virus is such a resistant, hardy organism and because it is so easily spread. Parvovirus is transmitted through contact with the feces of an affected dog. The virus can be carried on the dogs hair and feet, as well as on contaminated cages, shoes or other objects. Isolation of infected dogs is one method of control, although moderately effective. Just as any other virus only vaccination of susceptible animals will control the actual source of infection.

A properly immunized dog will have circulating protection in the blood that will destroy parvovirus following exposure. It is important to begin vaccinations at an early age and repeat every 2-3 weeks until the puppy is at least 14-16 weeks old. Adult dogs should receive two doses of vaccine given 3-4 weeks apart for maximum protection. All dogs should receive an annual booster vaccination to assure an enduring immunity.

Comparing the dog population in this area to the number of parvovirus infections that have been diagnosed, we have an infection percentage comparable to any other area in the state.

Public Meeting For The 1993 Project Development Plan

ABILENE — Texas Department of Transportation's Abilene District has scheduled a public meeting for the purpose of providing information pertaining to the Department's 1993 Project Development Plan (PDP) and the Transportation Improvement Plan (TIP). The meeting is to be held at 2 p.m. at the Sweetwater City Auditorium, 400 Locust Street, Sweetwater on July 20.

The PDP and TIP establish the programming of highway projects into various stages of development. After the plans are completed, highway projects can then proceed through the development process and become eligible for letting consideration. The Sweetwater meeting will include discussions concerning various highway projects throughout the 13 county Abilene District.

Counties within the Abilene District include Taylor, Shackelford, Jones, Stonewall, Callahan, Howard, Mitchell, Borden, Haskell, Kent, Fisher, Scurry and Nolan.

The 1993 PDP is the Department of Transportation's 10 year planning

document that guides and controls highway project development.

The development process has been divided into three phases. Phase I establishes funding levels for transportation programs and was completed when the Texas Transportation Commission approved the 1993 PDP update in their June meeting. In Phase II, the Department's districts and various metropolitan planning organizations will make project selections based on priorities. In Phase III, additional projects from a list of projects still pending may be included in the plan. Any projects not selected after consideration in all three phases will go into a "hold" category. These projects must wait until higher priority projects are let to contract before being reconsidered in subsequent annual updates of the PDP.

The scheduled public meeting is for the purpose of public input. All interested parties are invited and encouraged to attend in order to view their comments concerning highway transportation needs in the Abilene area.

Organization Of Texas Chapter Of Orphan Train Heritage Society Of America

Saturday, August 1, 1992, promises to be an exciting day in Granbury, Texas, as Orphan Train Riders, families, and friends gather at KEY LARGO Restaurant on Hwy. 377 for the purpose of organizing a Texas Chapter of the Orphan Train Heritage Society of America.

Over 4,000 homeless, abandoned and orphaned children were brought to Texas from the late 1800's through the 1920's from New York City streets. News of the impending arrival of these children on the train spread throughout rural Texas by word-of-mouth, preachers announcing the event from the pulpit, and, of course, from newspapers. The New York Children's Aid Society would hire agents to handle the placements in the local communities. Upon the arrival of the train, the children would be taken to a central location — or sometimes just lined up on the platform of the railroad station — for people to look them over and choose one to take home. Many of these children were selected by farm families who needed additional labor, and they were not so fortunate as others who were adopted by loving people who genuinely wanted a child.

Over 150,000 children were relocated in this massive effort — and many historians say this is a very conservative number. This practice ended in 1929 when child welfare reform laws were enacted by our government.

The Orphan Train Heritage Society of America, Inc., is actively engaged in preserving the history of the "ORPHAN TRAIN RIDERS." Gatherings, such as this one scheduled in Granbury, are often called reunions, and these events have enabled many people to gather information while listening to the surviving ORPHAN TRAIN RIDERS tell about their lives. One of the primary goals of the group is to publicize this situation as there is surprising little information about this endeavor in newspapers, railroad archives, or elsewhere. "Certainly we'd like to have the Orphan Train Facts included in school books for our young people to know about this important

part of America's history," says Ms. Johnson, executive director of the OTHSA.

All persons having an interest in the Orphan Train era are invited to attend. A registration fee of \$30 per person includes all activities during the day, a luncheon, and an evening in Glen Rose attending the outdoor drama, "THE PROMISE." To register, write to (Mrs.) Jere Nailling Lummus, P.O. Box 1281, Granbury, TX 76048, or call 1-800-858-8262, 9-5 daily, or 817-579-1686, evenings and weekends.

New Brides Should Remember To Notify Social Security Of Name Change

All new brides should notify Social Security, if they are changing their name, according to Glyn Hammons, district manager in Abilene. Failure to report a name change to Social Security is one of the most frequent causes of errors in earnings records. Generally, earnings are not posted to a worker's Social Security record when the number and name do not "match." And it's the earnings posted to those records that determine if a person can get Social Security, and how much he or she will receive in monthly benefits," Hammons said.

Notifying Social Security of a name change is equally important for women who divorce and resume their maiden name.

To change the surname on a Social Security record and to receive a Social Security card showing the new name, women should call the Social Security toll-free number: 1-800-772-1213, any business day between 7 a.m. and 7 p.m. They will need to provide proof of their name change, such as a marriage or divorce certificate. The entire process can be handled by mail.

"Or they can simply call our local office or come by with the needed documentation and we'll handle it in that one visit," Hammons said. "Our phone number is 915-698-1360."

Stealing electricity is against the law!

Stealing electricity is a felony.

Some people tamper with their electric meters to avoid paying for the energy they use. Stealing electricity is a felony offense in the state of Texas and violators will be prosecuted. West Texas Utilities' Current Diversion Department is working hard to help combat the growing problem of energy theft.

Energy theft is dangerous.

Not only is service theft a crime, but it is also very dangerous. Serious injuries can result from meter tampering.

A crime against you!

When someone steals electricity, they are not only stealing from WTU — they are also stealing from you, as a ratepayer. Just as shoplifting increases the cost of items you buy in the store, power theft increases the cost of your electric service.

WTU will prosecute.

Because we are concerned about the dangers and costs resulting from meter tampering, West Texas Utilities will prosecute energy thieves.
