"'T IS NEITHER BIRTH, NOR WEALTH, NOR STATE, BUT THE GET-UP-AND-GO THAT MAKES MEN GREAT."

VOL. 14 BAIRD, CALLAHAN COUNTY, TEXAS, FRIDAY, AUG. 9, 1901. NO. 36.

PUTNAM POINTERS.

Aug. 7.—The spirit of prophecy which has so abundantly rested upon our weather prognosticators has fled and left them a close second for the championship belt; heretofore held by Antialis. No rain has fallen here for more than two months, and the water hauler is abroad in the land seeking when he may devour.

Cotton is beginning to open and will not make over a half crop in this immediate vicinity.

One would infer from the above that property had long since winged its way to a more congenial climate, but such is not the case, for there is not a vacant house of any description in the city of Putnam, and only last week the Gazette was forced to temporarily suspend publication on account of no place to lay the least under more favorable conditions. Strangers could not find room to camp at the public tank.

Joe M. Clifford and family left Monday for Crowley, Ford county, where they will make their home in the future.

Joe Coitler and Coko Caution have gone West with their cattle, seeking grass and water.

Dr. Alon Atkins, of Nolan Co. is visiting relatives here.

Geo. Clifford, of Fairs Worth, came in Saturday for a week's visit with the Jones folks et al.

Jim Reed and Milton Houston, of Atwell, were in the city Sunday.

Jim Hammons has sold his farm east of town to M. H. Surles at a price to us unknown.

B. F. Williams came in last night from his Dallas county farm and will spend a few days at his ranch near here.

A. L. Bligertstaff went to Cisco Monday on a grass marketing expedition.

Mr. Cullin, of the Cisco Round-Up, was in the city Tuesday, in the interest of his paper.

Ed Hine has bought the M. O. Drane property in South Putnam, and has moved his family to town. Ed has a job with the T. & P.

Mr. and Mrs. J. M. Tucker visited friends on Deep Creek Sunday.

R. D. Williams shipped two cars of cattle to St. Louis Saturday. They were chaperoned by Otis Williams, who will buy a full line of cattle while in the market.

Jean Cook, of Serranion, came in Sunday morning to see his wife who has been visiting relatives in Baird.

J. K. P. Harris and wife, of Grand-bary, are visiting relatives in town. Mr. Harris is one of the best soldiers we ever heard keep a bow, and now carries a handsome watch on at the old soldiers contest at Fort Worth last April.

Joe Shackelford has been quite sick the past week, but is reported to be improving.

Putnam and Serranion played a game of ball here Tuesday, resulting in a victory for Putnam. Score 12 to 3.

We learn from a private letter that Pole Flores of this place, who working at Milford, Texas, got his arm broken by falling from a scaffold on which he was working.

The Putnam ball team can't stand prosperity and accordingly have come to Baird to meet Waterloo or to add another wreath to their laurels.

J. H. Walker and family came down this morning on a visit to Jim's father J. C. Walker.

Bill Jackson, of Baird, is here today.

Bill Melton, of Cottonwood is in town today.

J. W. Gaitner returned last night from a business trip to Oklahoma.

It has been said that the course of true love never runs smoothly. This is doubtless true when there is a bump over two feet high in the road, but be the road ever so rough we don't believe a young man should be so unceremonious in alighting from a buggy as to break the whip, carry the dash board with him and leave the young lady sitting in the buggy by herself.

HAVE JACK.

The Baird and Putnam teams crossed bats on the Baird diamond Wednesday evening and the result was another victory for Baird. The game was a good one, in fact as good as has been played on the Baird diamond this year. The Putnam boys played a nice, clean ball, but were just a little out matched. The following is the score by innings:

Baird	1	2	3	4	5	6	8	9
Putnam	1	0	2	0	0	2	0	1-6

Mr. and Mrs. J. H. Walker visited Putnam Wednesday.

Corbett Gust living South of Belle Plaine was in town Wednesday. He reports a good rain in his neighborhood Wednesday of last week, but says little sign of it can be seen now.

Mrs. S. C. Pack received a telegram Wednesday morning that her brother-in-law, Uncle Charles Bartbold, had died at Weatherford, Tuesday night. Owing to the illness of Mr. Pack neither could attend the funeral.

It is reported there was a fight at or near Cross Plaine last week between two young men Seaford and Benfro, in which the latter received several knife wounds. We did not learn the particulars.

More Jones of Cross Plains was in town again this week. Looks like Moon is throwing off on the boys in farm work, but come to think of it we old folks are justified occasionally in finding a soft job like going to town ect., eh Mose?

I have a bargain counter containing about 200 pair of shoes, splendid goods but somewhat. These goods will be sacrificed to those who come first. You will get a great bargain if call and examine this line. Prices less than 50 cents on the dollar, and in some cases we will sell them for 20 cents on the dollar. This lot must go. Some of these shoes are worth \$1.50, or price now is \$1.00. Good goods, but a little out of date. E. G. Powell.

All the ladies who attended the picnic will find a variety of face creams at Powell & Powell's Drug Store. 21

FRESH BREAD.—Mrs. E. K. Kane has fresh bread every day, made from the best flour. 13

"There are others" but none so good as Perfection ready mixed paints.—Powell and Powell. 30

CLEARANCE SALE.

Great reduction from now on all Summer goods that must be closed out. Come early and get choice while the assortment is still complete.

I call your attention to our window shades. 31 down just received. A grand line and all colors.

Give us a chance to prove how cheap we are disposing of our goods. H. SCRAWFORD. 23-4

See the new line of handsome box paper at Powell & Powell's. 30.

Our line of Summer shirts is the only line in West Texas. You will say so when you come and see.—T. B. POWELL.

BIRTHS.

Born August 1st to Mr. and Mrs. George Scott, a boy.

Born to Mr. and Mrs. Wylie Lambert August 1st, a girl.

Born to Mr. and Mrs. G. W. Jones a girl.

Born to Mr. and Mrs. F. B. Hinds a girl.

You can get an eight day clock, walnut or oak finish cheap at Powell & Powell's. 30.

Geo. Scott fell and skinned one of his shins a few days ago, and what was considered a trifling wound became rather serious. George was laid up for several days and is scarcely able to work now.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heartfailure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Price Almanac R. Phillips. 33-4f

Phillips, the young "corn king" of Chicago, has gone the way all young Nippoons of finance go: he has played up the sport, basted and played out.

Every rumor to the effect that there will be trouble about the "open door" in China is followed by an increase in the price of miles. —(California Daily News.)

And for the advance price of a few news items is no doubt willing. It is simply the case of the "star" against the human life with the News. Speed is clear in the case of all times—Georgetown Commercial.

The mere statement of a fact by a contemporary is no proof of its truth, especially in the part of such contemporary, it is *Rev. R. B. R. R.*

The Houston Post says no matter what the board of inquiry in the Schley case may do they cannot convince the Spaniards but what the board is in the hands of the fight. The American people seem to have made up their minds that Schley is justly entitled to the credit of commanding the fleet in the battle of Santiago, and the condemnation of Schley by the board will not be tolerated.

Jim Hogg, Rodger Q. Mills and a dozen anti-trust men have been struck down since going into the oil and gas business. Consistency thou art at a Midland Gazette.

The silver question laid Rodger Q. Mills out, and Jim Hogg voluntarily quit public life several years ago, but he is known neither the other side of the mountain have never changed their opinion about the trust evil. We do not think there is enough oil in Texas to last either of these men. As for the other dozen named by the Gazette we cannot say.

Governor Dooley of Missouri has been made the but for a considerable amount of ridicule because he issued a proclamation requesting the people to pray for rain. Of course those who do not believe in the Bible, the Christian religion, or any other kind of religion, are to some extent justified in thinking that the Governor and his professed Christians should be a little careful in condemning the issuance of the proclamation. To deny the importance of prayer in its broadest sense is to deny the reality of religion itself. To say God will answer some prayers and will answer others is to say that God makes God too inconsistent or at least partial.

Some of Admiral Sigsbee's friends believe he has played into the hands of his enemies by demanding a court of inquiry. Possible so, but the misstatement of Sigsbee by the War Department has almost exhausted the patience of the American people. Now after this late day should be conceded by a naval court of inquiry that a storm, accompanied with which the battle of Santiago was nothing but a gentle squall. Sampson was not in the fleet, but will still be held by Sigsbee is condemned, he as well as Long and McKinley too, if he is known as the commanding officer provided of course it is attempted, which he does not anticipate, because we believe from all accounts the board is composed of high-toned, honorable men. They have nothing to gain but a great deal to lose by playing into the hands of Sigsbee's enemies.

Editor Thomas of the Comanche Chief, recently visited Colorado and the Western States and is now at Buffalo. He writes interesting letters to his paper, which we unfortunately at times thought were those of a personal visit to these interesting places. We were greatly interested in some of the writings, especially his article on the mountains, in which he shows the timber line, on a hot July day. What puzzles us is to know where he got the pine knots to make the tree, but will still be held by Sigsbee is condemned, he as well as Long and McKinley too, if he is known as the commanding officer provided of course it is attempted, which he does not anticipate, because we believe from all accounts the board is composed of high-toned, honorable men. They have nothing to gain but a great deal to lose by playing into the hands of Sigsbee's enemies.

Our satiric Fallures are the talk of the town, 50 per cent cheaper than our competitors. Call for our bargains. —T. E. FORD.

PUBLIC OWNERSHIP IS A DREAM.

Hobson started out some months ago to depict Admiral Sampson, whom he claimed was very much persecuted man. Since Sampson's late eruption, however, Hobson has been directly and indirectly in the hands of the military. Possibly Hobson has concluded that it is a hopeless task to attempt to depict a man who cannot talk without putting his foot in his mouth.

The Johnson County Review says the Houston Post's Washington correspondent is the rankest kind of a republican. The Review wants to know if there are no democratic correspondents about Washington that the Post can employ.

The late readers of THE STAR remember that we opposed the adoption of the railroad commission amendment on the ground that we believed it would be a costly and impracticable and unprofitable experiment. The paper was roundly denounced by many as an enemy of the people. The Alliance in the heyday of its power, threatened to boycott the paper, many democrats threatened to read the editor out of the state, and the commission did not for what the commission did.

The commission amendment carried by an overwhelming majority and for the sake of the people, the commission has what has benefited the people as a whole? Texas Farmer one of the most rabid supporters of the railroad commission amendment four years ago.

Texas Farmer has for a long time been telling the people that the commission is the best thing that has happened since the war. The principles involved in controlling the railroads are the same as those involved in controlling the water works, as the commission is an anti-trust law, but the Texas Commission does not control the railroads, the railroads control the commission and its principles.

When the people have voted the commission we really hoped it would prove beneficial to them, but we never believed it would, and conscientiously and openly in the face of hostile and overwhelming opposition. It is some satisfaction, however, to know that our position was correct ten years ago. Texas Farmer, one of the ablest exponents of commission ideas come out plan and say the commission is a failure just as Texas Farmer predicted. Texas Farmer lays the blame on the commission in general and Judge Reagan in particular.

THE STAR does not agree with Texas Farmer on either proposition. The commission is a rank failure and would be so with any set of men in power. Reagan is not to blame; the theory is wrong. The commission has stifled competition; anti-trust law is a failure. Judge Reagan is a failure just as Texas Farmer predicted. Texas Farmer lays the blame on the commission in general and Judge Reagan in particular.

Hogg and the commission swept the field in spite of all opposition, not only the regular democratic ticket, but even some of their most ardent supporters cannot say enough mean things about the commission that they fondly believe before it was adopted, would prove a penance for all their lies.

The railroad commission is about as impracticable as the Alliance support of the commission, if anything more so, but the Alliance failed to induce the democrats to adopt the latter, though the party availed of the "corruption" vote before it was adopted. Ten years here is Bill Shaw making way faces over the dish as if he had lost his savor.

There is some comfort occasionally to see a physician take a dose of his own pills and from all accounts Doctor Shaw is not an exception. His pills might disagree. Take your medicine Bill, you told us realists ten years ago that it was the finest medicine in the world.

Mr. Bryan is trying to stop his foot in Ohio, who is threatening to do so in the Western States and is now at Buffalo. He writes interesting letters to his paper, which we unfortunately at times thought were those of a personal visit to these interesting places. We were greatly interested in some of the writings, especially his article on the mountains, in which he shows the timber line, on a hot July day. What puzzles us is to know where he got the pine knots to make the tree, but will still be held by Sigsbee is condemned, he as well as Long and McKinley too, if he is known as the commanding officer provided of course it is attempted, which he does not anticipate, because we believe from all accounts the board is composed of high-toned, honorable men. They have nothing to gain but a great deal to lose by playing into the hands of Sigsbee's enemies.

Persons indebted to the firm of S. M. Hill & Co. are requested to settle up. The undersigned has the books and notes of said firm who are anxious to close up the business.
S. M. HILL & CO. are at
As at Baird's Shoe Shop.

William Jennings Bryan believes in multiple ownership of water works and street car lines. This is in direct line with the Gazette theory. We believe that if the Central City of the Plains were to incorporate it would be a good thing for the city. A charter ought to be had in which a law should be framed that would give us the power of ownership. If Millard was lighted up by electric lights and possessed a good water system it would benefit the sanitary condition of our town and insure a cheaper insurance. We would all feel more safe and better all around. Let us get together and see if something cannot be done.—Midland Gazette.

Multiple ownership of water works street car lines, electric lights and public utilities generally is an unsolved problem, and no town should attempt to solve it without mature deliberation. An investigation will reveal about as much against public ownership as for it, no matter what William Jennings Bryan or any one says about it. We have one city in Texas practically ruined by doing the very thing that we are trying to get town to do. We refer to the city of Austin. The city is hopelessly bankrupt. Had some private company blown its money in the city would it have been hurt; but the citizens of Austin save millions in it as Colonel Sellers would say, and in they went and built a great dam which swept away in a night, but the debt hangs around the neck of the taxpayer like a night mare.

We have a right lesson in public ownership right here at home. Baird one of our water works, but many tax payers in town are ready to get together and try to get town to do. We refer to the city of Austin. The city is hopelessly bankrupt. Had some private company blown its money in the city would it have been hurt; but the citizens of Austin save millions in it as Colonel Sellers would say, and in they went and built a great dam which swept away in a night, but the debt hangs around the neck of the taxpayer like a night mare.

Public ownership of public utilities is the most beautiful of theories, but the least practical. People that have it want to get rid of it, and those that have not got it want it. This is the rule with a few exceptions of course.

People that have it want to get rid of it, and those that have not got it want it. This is the rule with a few exceptions of course.

People that have it want to get rid of it, and those that have not got it want it. This is the rule with a few exceptions of course.

SHOULD CHRISTIANS PRAY FOR RAIN.

The question that is attracting some attention these days shall the people pray for rain or not. The answer is prayers. From what we hear a majority of the church members do not believe in such prayers. This strikes us as rather strange to say the least of it. THE STAR makes no attempt to pose as an authority on theology, but according to the Bible we believe that a Christian is as much justified in praying for rain as he is in praying for any other blessing he may desire.

Prayer for rain is a biblical principle. In Palestine for three years and six months, and then rain came after weeks of prayer that the rain fall in Palestine upon the famished land. If God has answered prayer for rain in the past why not again? It has been said so often that God has certain fixed and immutable laws that govern the universe, and that he cannot violate his own laws. Such a theory robs God of all his power. It is a creature greater than his creator. The Bible is full of incidents where God answered prayer for rain, and if he does not do so now possibly it is because the people have not kept faith. Like the Jews of old they have gone after strange gods and idols, and if God will not answer their prayers for rain or anything else.

There is such a thing as a Christian praying for something he conceives to be a blessing which in fact would prove a curse if he secured it, but this is not the case with the question of Will God answer prayer for rain? THE STAR believes he will, but persons asking such favors must be true worshippers of God. The Bible says that where people are praying the prayer of a hypocrite.

PICKETT'S NOBLE REPLY.

One of the most dramatic scenes of the civil war was Pickett's charge on the third day at Gettysburg. We remember the scene as it was. The moment's of anticipation were awful in their intensity. They were thus recorded in a recent volume. Pickett and his men.

Pickett had received a note from headquarters he gave it to Longstreet. "Gen. Longstreet shook it forward as he read."

Longstreet looked at him with an expression that seldom comes to a man's face. He held out his hand and bowed his head in assent. Not a word did he speak. "Then I shall lead my division forward sir," said Pickett and he galloped away.

He had gone only a few yards when he came back and took a letter from his pocket. On it he wrote in pencil: "Old Peter's good horses find me in good-by and God Bless my little ones."

He gave the letter to Longstreet and rode back. That letter and its faintly pencilled words reached its final destination down in Virginia. Pickett gave orders to his brigade commanders and rode along the line his men springing to their feet with a word of delight as he told them what was expected of them.

He was sitting in his horse when Wilcox rode up. Taking a flask from his pocket Wilcox said: "Pickett, take a drink with me. In an hour you'll be in BEAUFORT in GLORY!"

Pickett declined to drink saying: "I promised the little girl who is waiting and praying for me down in Virginia that I would keep fresh upon my lips until we were again the breath of violence she gave me when she was free of charge. Wilcox, I shall do my duty like a man and I hope by that little girl's prayers I shall reach other glory or God—Clipped."

KILLED HIMSELF.

A morning message here this morning (Thursday) says that Mr. A. Baker killed himself yesterday. The tragedy took place somewhere in the western portion of Stephens county. Mr. Baker and a friend of his were on their way to Oklahoma when he took a gun and shot himself in the head, resulting in instant death. Mr. Baker was a brother of J. H. Baker who lived in this part of the county for a number of years, but now lives in Callahan county, near Baird.

Mr. Baker was a very kind and friendly man who sympathized with him in his sudden and tragical death of his brother. Domestic troubles supposed to have been the trouble.—LIVING STAR X-Ray.

DR. HANKIN'S KIDNEY TABLETS

Why Dr. Hankin's Kidney Tablets are the best and most popular kidney remedy of the present time. In the first place they are prepared in tablet form, thus rendering them convenient to carry about in the pocket and not necessitating a return home to take a dose, besides in this form the medicine is far more concentrated, one tablet containing the virtue of many specimens of fluid mixtures. Again, Dr. Hankin's Kidney Tablets will never spoil with age and are always effective, enabling the manufacturer to guarantee absolutely, every box. Dr. Hankin was for many years, the leading specialist of the world on kidney diseases. A graduate of both Heidelberg and Paris, and the discoverer of the famous cure for Bright's disease now known to all as Dr. Hankin's Kidney Tablets. They cure without fail the following: Bright's Disease, Diabetes, Incontinence of Urine, Catarrh of Bladder. The tablets are a sure remedy for backache, lumbago, rheumatism, torpid liver, urinary troubles. They are a splendid blood purifier and system cleanser.

ADVERTISING RATES.

Table with 2 columns: Ad type and Rate. Includes rates for 1 inch, 1 month, 1 week, 1 day, and other advertising formats.

We make a specialty of handsome display ads, and press work on the best is submitted early by experts to be equal to the very best anywhere in France.

Save the bird, huntman. The town cow downed her enemies in Oak Cliff. Score one for the cow.

Probably the majority of the supreme court judges thought the American flag was going to place where there is no business, commercial or political situation had no business following it.

The legislature met at Austin Tuesday in called session. The principal business before the body will be the reconstituting the state into congressional, senatorial and legislative districts and passing the appropriation bills.

The City Council of Weatherford has knocked out the proposed sale of the Abilene Republic. The council should take fresh courage and again seize the bit—no one means the cow by the horns and pluck her out of town.

Abilene should avoid the Cerule and run her bad boys in at night. Abilene tried the Cerule once, but the boys ran the law out, in place of the law running the boys in. Abilene might have better luck, as according to the Reporter they were the most active bad boys out of five hundred.

The Abilene Reporter is authority for the statement that Abilene has the meanest cows and some of the scariest boys of any town in Texas. Possibly no town in the South American cities, but the boys run the law out, in place of the law running the boys in.

Chile, Peru and Bolivia, are about to go to war with each other. These South American cities, and the so-called republics, are a regular baroque on civilized nations. The trouble with the South American cities is that they see an account of a South American war among these opera buff republics.

A republican paper says the effort to disfranchise the negro in the south is a violation of the spirit of the 14th amendment. A Southern paper says that the spirit of the 14th amendment was born of the devil, or words to that effect. That is God's truth. The spirit of the 14th and 15th amendments was conceived in hatred of the South and of animosity towards the former slave holders. The enfranchisement of the negro and the 14th and 15th amendments of the fanatics to elevate him above the Southern white man is one of the darkest spots in our history. The intellect and far-sighted people of the North regardless of party affiliations are beginning to see this. The South has two parts of law—representatives in congress and the electoral college by disfranchising the negro, but this would be better than to longer submit to negro rule. The negro as such is a failure, and after thirty-five years of citizenship he has made no improvement. In fact the young race as a rule are a hundred times worse than the old time slave. In proof of this look at the worthless young negro men and boys in every large town you may visit in the South.

The negro is not the equal of the Caucasian and a thousand years ago he would be a part of the human race. The negro is a failure, and after thirty-five years of citizenship he has made no improvement. In fact the young race as a rule are a hundred times worse than the old time slave. In proof of this look at the worthless young negro men and boys in every large town you may visit in the South.

LEADERS DEPORTED.

Citizens of Tampa Take the Situation in Their Own Hands.

Tampa, Fla., Aug. 7.—The strike situation here is one of awe and bewilderment on the part of the strikers and unmovable determination by the citizens. No work has been done from the Resistencia leaders who "were deported" Monday night. The vigilance are sworn to secrecy, but admit that they will return to Tampa. The exact number of the men deported is not known, but very prominent leader of the strike is said to be a man who kept that other less prominent leaders are marked and that deportation may take place at any moment.

The deported leaders were first driven to the county jail where they remained on the outside under guard for a few minutes. Then they disappeared and have not been seen since. Various rumors as to their whereabouts have been circulated, it being most generally reported that they were taken down to the Gulf on an unknown and mysterious vessel. All of the deported strike leaders were Spaniards and Cubans.

Offers of a compromise have been made by some of the contestants and Mr. Pierson will discuss these terms with Mrs. Maria and her daughter. The contest of the will, which has been before the courts at Dallas for more than five years, is one of the most celebrated cases of the state. The estate originally was valued at \$1,000,000, and is now believed to be worth about \$500,000. Mrs. Maria is now living in England. Mrs. Pierson, N. J., where they have resided for several years. General Maria held a high rank in the Mexican army, was a close friend of President Grant for a long time one of his chief advisers, and for many years was president of the Mexican National Lottery.

Justice in Harry. Atlanta, Ga., 7.—Guarded by three companies of state militia for his protection at the residence of a prominent citizen and his family. The trial continued Aug. 27.

Provo, Utah, 7.—James Wilson, a farmer here, who was badly burned being killed by a train. The boy was again three himself into the furnace, and died within a short time.

Fire at Shreveport. Shreveport, La., 7.—Fire here destroyed the Kohan Dry Goods company, furniture store of Eastern Louisiana. The loss is estimated at \$100,000.

The Chillist August. New York, Aug. 7.—The official report of the weather for the month of August, 1896, was the chilliest August in 25 years. The average temperature for the month was 78 degrees for the same date last year.

Typhoid Among German Troops. The 7th, Aug. 7.—There is great mortality from malignant typhoid fever among the German troops here.

NEWS IN BRIEF. The jury in the John Ripper case, charged with murder of a policeman, taken to Dallas from El Paso, Tex., for trial.

THE RANSOM CASE.

Offers of compromise being made by Ramsey Heirs.

HARD FOUGHT SUIT. Texas Lawyer at New York Contesting the Claimants There in the Contention of the Estate.

New York, Aug. 7.—George H. Pierson, a lawyer of Dallas, Tex., is in the city for the purpose of consulting his clients, Mrs. Mary Gray Maria, widow of the architect of General Maria, who died in the City of Mexico in 1890. His estate consists of more than 50,000 acres of land in Texas, as well as bonds and other property.

Offers of a compromise have been made by some of the contestants and Mr. Pierson will discuss these terms with Mrs. Maria and her daughter. The contest of the will, which has been before the courts at Dallas for more than five years, is one of the most celebrated cases of the state.

AUSTIN BANK CLOSED.

The First National in the Hands of a Bank Examiner.

STATE DEPOSITORY. The State Treasurer and Secretary of State Keep Deposits in That Institution—Another Banking House Pulled Down.

Austin, Aug. 5.—The following typewritten notice was posted on the door of the First National bank here at 4 p. m. Sunday:

"This bank is closed and is in my hands as agents pending the arrival of William Lykes, special examiner, who has been appointed temporary receiver by the comptroller of currency.

Paris, Tex. 3.—Wallo the Texas Minnow water train was running backward a mile or more from the bank and read it for themselves. Very little can be learned as to the condition of the bank.

Another Bank Failed. Austin, Aug. 6.—As a result of the failure of the First National bank here Sunday afternoon, the private banking firm of James H. Raymond & Co., suspended payments on yesterday.

State Treasurer Robbins states that the state department had over \$200,000 in cash and securities in the First National bank and last Saturday the bank had a deposit of \$63,000. The First National and was badly crippled on account of the suspension of the First National.

The state department has about \$200,000 on deposit and Secretary of State Toot's bank of \$23,000 is also liable to the state.

Austin, Tex., Aug. 6.—In the absence of Federal Receiver Yerkes, who is on leave from Washington, and President Robbins, the First National bank here has a route home from New York, no news is forthcoming from Temporary Receiver Logan, of the First National here in the city. He and the bank force are busy checking over the books and auditing accounts in general.

Paris, Tex. 3.—Wallo the Texas Minnow water train was running backward a mile or more from the bank and read it for themselves. Very little can be learned as to the condition of the bank.

TEXAS LEGISLATURE.
 The Extraordinary Session Called by the Governor Convened,
THE BANK FAILURE.

Considerable Surplus Expended That the State Had as Now Economy in the First National Bank Districting Bills Offered.

Austin, Aug. 7.—The Texas legislature convened in special session here yesterday for the purpose of considering the rechartering of the congressional districts of the state, so as to add three additional districts to the 13 already existing. The governor also sent in his message recommending action on these subjects and asked for a general appropriation bill for the ensuing two years, requested special appropriations for the state volunteer guard and asked for a sugar refinery in connection with the state penitentiary farm. Considerable excitement seems attendant upon the closing of the first National bank of this city by the federal examiner. It now develops that the state of Texas may have something like \$75,000,000 by this closing up of the bank and as the governor called the attention of the members to the closing of the bank resolution will be introduced by the Representative Kennedy providing for a special committee to investigate why the state had so much money in the bank on deposit when it was all supposedly in the state treasury. There were two sensational features in either house. Senator Potter has adopted a concurrent resolution commending Major R. H. Hargrove of the Twenty-fourth cavalry to the president for appointment as a brigadier general in the regular army. The vote by which the resolution was adopted was 40 yeas and 11 nays and the resolution was reported to the house. Senator Wilson introduced the first two bills, appropriating \$45,000,000 to pay mileage and per diem and the other \$10,000,000 for contingent expenses of this session. The bills were referred to the Finance committee and immediately reported favorably, called up, engrossed and passed finally under a suspension of the rules. Senator Miller voting nay on all calls.

In the house a resolution by Mr. Hatcher recommending the printing of 5000 extra copies of the first day's journal was adopted. A preliminary appointment bill were introduced by Messrs. McAnally, Ellis and Robertson of Williamson. The committee reported a bill to apportion the state into representative districts. All bills were referred to the Finance committee.

Austin, Aug. 7.—In the house this morning Mr. Murray introduced a bill making an appropriation for the maintenance of the state government for two years. A resolution was adopted allowing the Finance committee of five to investigate the reports that \$200,000 of state funds were tied up in the bank which has recently been placed in the hands of the receiver. The committee appointed is Kennedy of Limestone, Bullock, Crawford, and a resolution was unanimously adopted requesting the governor to issue a special message to the legislature asking for the rechartering of the sheriff's fee bill passed at the regular session, but the validity of which is in doubt because during the recess on the last day the speaker inadvertently failed to sign the act.

In the senate a concurrent resolution recommending the promotion of Major Luther E. Hare to a brigadier general position was passed. A resolution was unanimously adopted making appropriations for the mileage and per diem of the members and contingent expenses was introduced. A resolution was adopted requesting Ambassador Clayton to urge the pardon by President Woodrow Wilson of Mrs. Stewart, an ex-Confederate, serving a life sentence in Mexico for murder. A resolution was introduced for a general appropriation bill, carrying \$50,000,000.

May For Senator.
 Washington, Aug. 7.—Since the arrival of Governor Bryan McMillin of Tennessee, he has announced that he will not be a candidate for governor next year. He is now serving his term. The announced intention of McMillin is no longer current on account of the honor he is thought to have shadow his announcement of his candidacy for the United States senate. It is reported that he is expected to succeed Senator B. who term expires on March 3, 1905.

New Investments Here Fine.
 Chicago, Aug. 7.—Thirty or more realtors here are handling different kinds of goods as preparing to organize an "anti-trust" department. Negotiations for a building within the loop are being made in the hope of securing a permanent location for the new establishment. The combination is being promoted by Charles F. Gillman, who recently here led the agitation against department stores.

A printer tourist by the name of Allyn from New Mexico, stopped over here Tuesday. He spent about a month in the Philippines as a member of the first Colorado regiment U. S. V. He says he saw the face of the first gun fired on that memorable 4th of February that started the war between the Philippines and the United States soldiers. He says that is a fine country and thinks the United States should hold the islands at least until the Philippines become civilized. He says there are seventeen different tribes of natives on the island of Luzon alone, and that they hate each other with a deadly hatred and fight evermore time they believe it will be a long time before each people could get on themselves or maintain anything like a decent government, but believes the United States should grant them independence when they become capable of self government only retaining the city and bay of Manila for a naval station. He says the Filipinos are smart, quick to learn, but treacherous. We found Mr. Allyn quiet and intelligent young man, who is lately converted to the Christian religion. He has his discharge papers showing when and where he was mustered out of the army. Mr. Allyn spent a week in Japan and he says that the Japs are the most intelligent people he met in the Orient, they will take you a thousand questions, but never answer one they know all about all about other people without giving any information about themselves.

At the last meeting the City Council voted to add the Fire Department in building a fire station and then recommended the mayor of it tonight. These seems to be considerable amount of opposition to adding the Fire Department on the ground that this is all for the business men. This, it seems to us, is a selfish view to take of the matter, even were it true, which it is not. The Fire Company has extinguished all fires in residences that is business houses which itself completely rejects the argument that the fire company is maintaining a monopoly for the benefit of the business men. We do not believe in building a costly fire station, but we do believe the fire station and there is no amount at what the City Council Monday night is fair and equitable. Twenty-five dollars per month is a small amount, and for the city to pay for two years, and if the company is not worth that they are not worth anything. The people can not reasonably expect these boys to maintain the fire department snatched by the city. They give their time and run their clothes all for the public good and there is no amount at what the city should add the fire company so far as possible. Unless this is done we will soon be without a fire company because it is unreasonable to expect men to give their time, run their clothes and risk their lives for the public, when the public does not appreciate their services to the extent of making an appropriation of \$25,000 per month to add the boys in building a fire station, which will belong to the city with all the apparatus contained therein, or practically so, as it cannot be used for anything else. The city can best afford to pay for this to do without a fire company or even to saddle the expense on the members of the company. Why should the members who are required to beg and borrow money and give entertainments to raise money to buy apparatus and build a fire station, if they got any pay for belonging to the fire company it would be different, but they do not get any thing but a hot dog and setting at each fire they are called to.

We hope the Council will deal fairly with the fire boys and we believe they will.

Don't forget our immense line of wall paper—more wall paper than at all other houses in town, put together. Powell & Powell. 21

Great Howles is back from Oklahoma where he went to try his luck in the land drawing, but drew a blank. Mrs. Howles accompanied her husband as far as Fort Worth.

The greatest line of embroidery ever seen in the west. Cost you about half what you pay at other places.—T. E. Powell. 20-41

Squire Brooks and family, formerly of Brown county, now living at Plover, passed through town Monday on their way to Brisco county to visit relatives. Mrs. Brooks is a niece of Mrs. W. C. Whitley, with whom they spent part of the day Monday.

Regular meals three times a day. Lunch counter open day and night. 33
 Arthur Yonge is making a complete up to date abstract of lands for the county. He is going to publish his land business in connection with the practice of law. It requires considerable expense and a vast amount of work to make an abstract of every tract of land in the county, but when once made is invaluable almost to a land agent. See change in Mr. Yonge's law card.

Milkweed Cream, Artesia Cream, Cold Cream, for tan and sun-burn. Powell & Powell. 36-41
