**REMEMBER TO VOTE SATURDAY, MAY 4!!!**

**STATE QUALIFIER** — Malysa Sowell will be competing at the State Track Meet in Austin in the discus throw. She is the daughter of Mr. and Mrs. Stuart Sowell.

## Sowell Advances To State

By COACH BILL BOYD

The Cross Plains Lady Buffs and Buffaloes competed in the Region II-A Track and Field Meet at Abilene Christian University this past weekend. Cross Plains' highest finisher was junior Malysa Sowell who finished second in the discus.

Sowell shattered her own school record with a throw of 126 feet 10 inches. To my knowledge, that is the second best throw in the state. Malysa will compete Friday, May 10, at high noon in Austin. Malysa also garnered points in the shot with her 6th place finish.

Freshman Laura Ricci equalled her school record by jumping 5'2" and placing third. This makes Ricci an alternate for the state meet. Laura barely missed 5'4" on her first attempt which would have given her a ticket to Austin.

Senior Whitney Kirkham finished her Cross Plains athletic career in style with a school record setting 400 meter run. Whitney finished 5th overall and the new school record in the 400 is 63.79. The old record was held by Tamara Flippin who now runs for Angelo State.

Junior Justin Richey was the lone Buffalo trackster to qualify for the regional meet and did so with an impressive 7th place finish. This is the second time in three years that Justin has finished in the top eight at regional.

The Lady Buffs finished 11th with 17 points. With over 90 teams in the region, our girls should be very proud. If you see one of these tracksters please congratulate them on their accomplishments and the positive way they have represented our school and town.

## Clips, Quips & Comments

By KAY DENNIS MOSLEY

The Cross Plains Garden Club at their last monthly meeting, presented the Cross Plains Library a book. The book titled "Texas Gardening" by Neil Serry was accepted by Billie Ruth Loving, on behalf of the Library. Ms. Loving is our gracious, local librarian. Stop by the library and check some books out. You will be warmly welcomed by Billie Ruth and the staff.

Rolan Jones invited Marvin and myself last week to come out and view his gardens at his country spread on Tuesday afternoon. We drove out and arrived around 3 p.m. Talk about a beautiful garden and such a variety of plants. Just about every edible you can think of. He has herbs, different varieties of parsley, rosemary, thyme, basil, horseradish, even some herbs I don't know the correct spelling of. He also has about 8 different varieties of mint including chocolate mint and orange mint. Also included are several varieties of garlic and onions. Vegetable wise there's cabbage, several varieties of broccoli, some broccoflower, asparagus, and was preparing to plant black-eyed peas. Lots more vegetables are growing there including Jerusalem artichokes.

Growing from various specially prepared logs, he is raising Shitake

mushrooms. He has lots more, too numerous to list in the gardens. Also fruit trees.

We toured some of the grounds. Beautiful, lots of trees, some "very" tall bamboo, honeysuckle (red), flowers, shrubs, also one interesting plant is his Confederate rose bush.

He also raises several varieties of fowls, guineas, emus and rheas, ie.

We walked down to the creek to view a father rhea sitting on a nest of eggs. Seems in the rhea world, the father does the actual hatching and raising of the young.

In their lovely home, we were able to view some fresh grown mushrooms he'd raised (for soup), and a "ve-err-r-ry" large pastel yellow rhea egg. The egg probably weighed at least one pound.

We really enjoyed the tour, the visit and some valuable information was absorbed for gardening.

As we left for home, we carried with us some horseradish to transplant, cilantro and cilantro seed, all presented by Rolan.

....And last but certainly "not" least the rhea egg. We prepared the egg for brunch Saturday morning and had enough left that we enjoyed it for supper (or dinner) as well.

Until next time, "C" "U".

## PIONEER NEWS

By PIONEER QUILTING CLUB

The country around here gets prettier every day. It's so nice to look across the fields and hills and see green everywhere. Despite the drought we still have some wild-flowers. Some of the bluebonnets are already going to seed.

There were enough ladies at "quilting" to work on two quilts. We had a delicious dinner and are always glad to have some of the husbands join us then. We just haven't convinced them to try their hand at quilting.

This week's "game nite" was attended by fourteen people. There were three tables of nice friendly folk. No one can win every time, but win or lose there's always a lot of happy faces as they leave for home.

Oliver and Frankie Smith, Jean Fore, and Vi Harlow went to Ranger

and visited Frankie's aunt, Ruby Ainsworth, also Frankie's sister, Dorthy Rogers, did shopping in Eastland. Friday the four went to the Coleman musical. Saturday night they attended the musical at Cisco. This week we have been enjoying our spring revival. We have had some great preaching, music and fellowship.

Visiting in our home was our friends, Bonnie and Bill Heddrick, also Marie Pancake and Mrs. Ruby Daniel.

Riley Bristow of Gustine, Ethel Freeman of Brownwood visited with Jean Fore Friday afternoon in route to the musical at Cottonwood.

Mildred and Delbert Naylor from Abilene visited with Earlene Burge Sunday afternoon. They had an enjoyable visit.

## COTTONWOOD NEWS

By  
**BEVERLY BROWN**

The annual Cottonwood Historical Association meeting will be Sunday, May 5, at 12 noon in the Cottonwood Community Center. A covered dish dinner will follow the meeting. On the agenda will be nominations and election of board members for the coming year. Everyone is urged to attend the meeting. All newcomers and residents of the community are invited. A social gathering will follow the dinner. Historical records of Cottonwood and photos will be on display to review.

We were greatly saddened to learn Friday morning of the passing away of our very dear and special friend, Maggie Mae Griffin. Maggie passed away Thursday, April 26 in Corsicana. Funeral services were

held on Sunday, April 28 in the Cottonwood Baptist Church with Rev. Knox Waggoner officiating. Interment was in the Cottonwood Cemetery. We wish to express our deepest and sincere sympathy to Homer Griffin and family in the loss of their loved one.

Mr. and Mrs. Wayne Brown visited with his brother, Mr. and Mrs. James Brown and Kenny in Abilene last Wednesday and learned all the news and highlights of their trip to California visiting with the Brown clan there.

The rains have passed us by again over the weekend. Stock tanks are showing the toll of the lack of needed rain and run off. Conditions remain dry in spite of the greenery around.

## GREETINGS FROM YOUR SENIOR CITIZENS

By THELMA LONG

Former Cross Plainsite, Clyde Kelly has been visiting. Nice to see him. Also June Walker from Burkett has been here and Gladys Barnes has visited. It would be nice to have them come more often.

Helen Freeman's visitors were two sisters, Doris Jones from Henderson and Verda Yates from Palestine. The three traveled to Mineral Wells to visit another sister, Gladys Armstrong. They joined in a sing song with a group at the nursing home.

Hub Freeman is ill. He was taken to the hospital the last of the week.

O.B. Switzer had a fall. He was taken to the doctor to be checked, but was not seriously injured. He came down to eat with us. Pauline had some tests in Brownwood.

Lois Garrett spent Friday with Lydia Eubank who is making her home at Brownwood Vicksburg

Retirement Center. Lydia will be celebrating her 96th birthday at the home of her brother. Lois and Dorothy Eubank plan to be there for the celebration.

Vickie is ill at home on Friday. We always miss Vickie. She always bubbles over with energy and keeps the rest of us going.

This reporter attended funeral services for a former neighbor and friend, Maggie Griffin. Services were at Cottonwood Baptist Church with burial at Cottonwood. She was a gracious lady. Our sympathy is extended to Homer.

If you have news to report, please tell me. Without you there would be no news.

There is one garden seed catalogue that I recommend to anyone who has a vegetable or flower garden. It is PINE TREE GARDEN SEEDS, Box 300, Gloucester, ME 04260, and is free.

This company was established in 1979 and I have been ordering seed from them since 1980. Their catalogue is 151 pages and contains 750 varieties of open pollinated, organically grown seed, including your regular Texas varieties, plus French, Italian, Chinese, Japanese and Latin American vegetables.

It also includes annual and perennial flowers, herbs, cover crops, books, pamphlets, bat, bird, and butterfly equipment, organic insect control, organic fertilizers, recipes, bedding plants, and much more.

The seed is high quality and low priced. Seed packs are priced from 45¢ to 90¢ per packet, with most in the 50¢ to 60¢ price range.

Harlequin bugs will soon become a pest problem on your cabbage, broccoli, cauliflower, radishes, turnips, mustard, and other cabbage family crops.

The Harlequin bug is black, with orange markings, shield shaped, flat, and 3/8 inches long. The organic control for Harlequin bugs is to keep your garden well weeded, plant trap crops of mustard, use pyrethrum and sabadilla dust, or soap and nicotine sulfate (Blackleaf 40).

Squash bugs will be attacking your squash, watermelons, cucumbers, and cantaloupes this summer. Organic control of the squash bug is to

plant nasturtiums, marigolds, and radishes around hills of squash to repel squash bugs, dust with sabadilla dust to kill adult bugs, and to hand pick adults and eggs. Another good way to avoid squash bugs is to wait until late summer to plant squash.

The best organic control for all worm species in the vegetable garden is BACILLUS THURINGIENSIS. This is a species specific pathogen which attacks only members of the lepidoptera family of insects. (Moths and Butterflies)

Butterfly larva (worms) are not destructive to most garden vegetables, so are seldom found in the vegetable garden. Therefore, the use of BT in the garden will have a minimal effect on butterflies.

BT controls cabbage looper, cut worms, corn earworms, tomato worms, and many others found consuming your garden.

BT is sold under several brand names, one being Dipel, and is available in most garden centers.

The Farmer's Almanac says that the best planting days in May for root crops is May 11th and 12th and 15th and 16th. Above ground crops is the 17th, 20th, 21st, and the 28th through 31st. The best time to plant flowers is the 20th, 21st and 22nd, with the 30th and 31st being food days also. The best time to transplant is the 17th through the 24th.

**VOTE**  
MAY 4TH  
**RAY PURVIS**  
FOR MAYOR

TO THE PEOPLE OF CROSS PLAINS

To the people of Cross Plains, I would like to address a few words in behalf of my candidacy for mayor.

My wife and I have lived our entire lives in Cross Plains, both graduating from Cross Plains High School.

I have been a self-employed businessman for over 32 years. Having served over 17 years on the City Council, and filled the position of Mayor-Pro tem many times, I feel that I am qualified by both education and experience to render successful leadership to our little town that means so much to all of us.

If elected, I will always be found ready and anxious at all times to work with Civic groups and interested individuals on projects aimed at the betterment of Cross Plains.

I shall always be aware that our hometown has many people--retired and otherwise--who are living on limited incomes and that the municipality should ever remain responsive to their desires and requirements.

Cross Plains is among one of the most caring communities in this part of the state.

We have excellent churches represented by fine facilities and dedicated memberships. Our school system is well equipped and outstandingly staffed. We have service clubs, fraternal orders and many other organizations seldom found in a town of our size. Cross Plains Senior Citizen Center would be a credit to a town ten times our population. Our Volunteer Fire Department and our Emergency Medical Service are among the finest and speaks well of our people. Our local Library is the pride and joy of all who have observed how efficiently it serves this area. To list the other great qualities that Cross Plains possesses would be an endless undertaking. They cannot all be listed in the short space allotted here. I will strive to support all of the great assets of this community and possibly broaden the list.

I wish to again thank the people for their support in the past and ask your vote in the May election. Here's hoping we can all work together for a greater and growing Cross Plains.

Most Respectfully,  
Ray Purvis

Are there gas stations in heaven?? One would conclude that there must be if the story I heard is true about a person being buried sitting upright behind the steering wheel of his Cadillac! The report went on to say that there was a lighted cigar in his mouth, and the motor to the car was running as the dirt accomplished the burying process. And to top it off, one observer was reported to have said: "Man, that's living!"

I wonder if this is not too sad a commentary on our society? And yet it is in such stark contrast to so many things we know the Creator tells us about it all: 1) "For we brought nothing into this world, and it is certain we can carry nothing out," 1 Timothy 6:7; 2) "But the day of the Lord will come as a thief in the night, in which the heavens will pass away with a great noise, and the elements will melt with fervent heat; both the earth and the works that are in it will be burned up," 1 Peter 3:10; 3) "Do not lay up for yourselves treasures on earth, where moth and rust destroy and where thieves break in and steal; but lay up for yourselves treasures in heaven...for where your treasure is, there your heart will be also," Matthew 6:19-21; 4) "...one's life does not consist in the abundance of the things he possesses," Luke 12:15b.

Well, are there gas stations in heaven? How about banks for our money or cleaners for our clothes? NO, of course not! Then why do we keep "living" (and dying?) like there must be?

Come join us each of the times as we meet together, in order to keep being reminded of the truth of the matter -- that to really live, we must die to ourselves and things...

### REGIONAL TENNIS TOURNAMENT HELD

By COACH MAC MCCONAL

Mindy Mitchell and Jarad Richards were in Abilene Wednesday and Thursday of last week to play in the Regional Tennis Tournament.

Jarad lost his first match to the boy who will advance to state as the number two contestant.

Mindy won three out of four matches and finished 3rd. She beat the number three seed in the second round and then beat the number two seed for 3rd place.

Both of these individuals Mindy and Jarad have represented themselves, their school and parents in an outstanding manner all year long.

Results were as follows:

#### Boy's Singles

J. Richards lost to Irion County (6-2) (4-6) (3-6)

Jarad was the only player to win a set off of this player except his teammate who beat him in straight sets in the finals.

#### Girl's Singles

M. Mitchell beat Grady (6-4) (6-1); beat Mullin #3 seed (6-4) (6-0); lost to Menard who was 2nd place finisher (3-6) (2-6); beat Prairie View Noeana #2 seed 3rd place (6-1) (6-4).

This concludes high school tennis for this year. Our team should be strong for next year. Hopefully team members will work and play during off season and keep their skill levels up for next year.

CROSS PLAINS SEVENTH GRADERS, SPONSORS, AND GOVERNOR GEORGE BUSH

### SEVENTH GRADE STUDENTS MEET GOV. GEORGE BUSH

By NORA ODOM

Tuesday, April 2, was a beautiful, sunny, spring day for the Cross Plains Seventh Grade students and four sponsors to have a fun filled and educational day in Austin. The trip is sponsored annually by Beta Sigma Phi Sorority and Cross Plains Schools.

Governor Bush met the students on the north steps of the capitol where he greeted the class and shook their hands. He posed for pictures and gave the students some words of wisdom. He encouraged them to study hard and mind their teachers and parents. Mrs. Bush waved to the students when entering the capitol with visiting dignitaries.

Next on the agenda was tour of the Capitol. The Capitol has undergone an extensive renovation and restoration. It has been restored to resemble as closely as possible the configuration and decor of the building when it was built in 1888. The Extension is a

new and unique addition to the Capitol. It is located immediately north of the Capitol, underground, and has several impressive views of the Capitol dome through the skylights and open-air rotunda. The class received souvenir packets and was presented with a Texas Flag, a gift from John Cook, as a gift to the "Class of year 2001."

The group picnicked at the historical Waterloo Park, which is walking distance from the Capitol. Beta Sigma Phi provided the drinks and the students brought their sack lunches. The students enjoyed this break in the day to visit and relax.

A tour of the new Capitol Complex Visitors Center was next on the agenda. It is located on the Capitol grounds in the 1856-57 General Land Office Building, which has been newly restored to serve as an orientation center offering Capitol history exhibits, a "Lone Star Legacy" video, and General Land Office Exhibits.

The Texas Memorial Museum on University of Texas campus was our last stop in Austin. This Natural History Museum has archaeological and geological collections. Exhibition items range from gems and minerals to fossils and the original "Goddess of Liberty" statue from atop the Texas State Capitol.

The trip home included a stop at Mr. Gattis in Lampassas for dinner where the students and sponsors enjoyed the pizza buffet and salad bar.

The students were energetic and showed interest in each new experience. They were well behaved, courteous, and considerate to each other, followed the rules, and were a good reflection on our school and community.

### 100% Juice The Best Choice For Children

HOUSTON -- clever advertising and packaging can mislead parents into buying "juices" for their children that have no real nutritional value, says Janice Stuff, a nutritionist at the USDA's Children's Nutrition Research at Baylor College of Medicine in Houston.

Stuff encourage parent to look for drinks made with 100 percent pure fruit juice. Fruit punches or 10-percent juice products may be fortified with vitamin C, but are usually low in potassium and high in sugar.

"Read the label," Stuff said. "Any juice containing more than 22 grams of sugar probably means sugar has been added."

### NIGHT OF NOTABLES MON., MAY 6

On Monday, May 6, at 7:00 p.m., students involved in the gifted education program at Cross Plains Elementary will complete a semester research project by hosting "Night of the Notables." Parents and community members are cordially invited to attend this unique reception.

Students will assume the identities of the past and contemporary historical figures they have been researching. In that role, they will present mini-learning centers, an-

swer questions about "themselves," and treat visitors to delicious edibles appropriate to their eras.

All community members are invited to attend this special presentation which will begin at 7:00 p.m. in the elementary library. A brief overview of the year's activities in G/T will be presented, as well as a preview of changes being made by the State Board of Education. Come and participate in this hands-on history investigation.

### VOTE MAY 4TH MONTY RICHARDS FOR SCHOOL BOARD

To The Voters Of Cross Plains

I would like to first thank all those that supported me in the last two elections, and ask for your support once again.

I would like another opportunity to serve this school and district because I care about these kids and want them to have every opportunity to be successful in school and life. And at the same time watch our tax dollars be spent in an effective way to benefit this school. I will always strive to work for these kids, teachers, and administrators even in difficult decisions.

I also welcome the chance to work with our new superintendent, Mr. Jackie Tennison, as we continue to grow and remain a strong school district, that Mr. Thompson has worked very hard the last 16 years to achieve.

I would ask that you be in prayer for our seniors as they are about to begin another chapter in their young lives, and that they would make good choices and decisions concerning their future. Keeping God by their side as they make their walk through life.

Thanks,  
Monty Richards

## Texas Farm Bureau Sponsoring Special Briefing Monday, May 6

WACO—The Texas Farm Bureau will sponsor a special briefing via satellite to inform agricultural producers about the recently enacted 1996 farm bill. Farmers interested in participating should contact their County Farm Bureau Office for details. The briefing will be conducted on May 6 from 7:00 p.m. to 8:30 p.m. Most County Farm Bureau offices across the state are serving as viewing sites, as well as many Texas Agricultural Extension Service District offices. The program will be received via satellite on Telstar 401 (KU-Band), Transponder 11.

Texas Farm Bureau will provide experts including U.S. Department

of Agriculture personnel who are writing the implementing rules to appear on the program to answer specific questions about the legislation. The new law is called the Federal Agricultural Improvement and Reform Act (FAIR). The broadcast will originate from the studios of KWTX-TV in Waco, and questions from producers will be taken via a toll-free telephone number.

"This legislation is a watershed event in the history of federal farm programs," said Bob Stallman, president of the Texas Farm Bureau. "Farmers have a lot of questions about the details of the new farm

program, and the broadcast will try to answer as many of those questions as possible."

FAIR replaces current farm programs with a system of declining market transition payments to participating producers over the course of seven years. It also gives farmers more flexibility to plant crops so that are better able to respond to market forces.

The new law contains a number of environmental measures, including the conservation reserve program, wetlands reserve program and the environmental quality incentives program.

## LETTER TO EDITOR

The Cross Plains Little League, PeeWee League, and Pony League had it's annual workday on April 27, with four people showing up to work, President Ronnie Pancake, Vice President Jim Cook and wife Patricia and Secretary/Treasurer Debbie Gosnell.

With approximately 120 kids playing PeeWee, Little League, and Pony League, you would think more people than four would show up to get the fields in shape, to help finish the concession stand and bathrooms for the games which start in less than one week. I wonder what the parents would say if nothing was done and their kids didn't have a nice place to play or get something to eat or drink or a place to go to the restroom.

The City maintains a lot on the fields and Cord Woerner, high school coach has done a tremendous job on the pony league field, but there is ALOT left to do. The excuse of having something else to do on

workday just won't cut it. We've all got something else we can do on workday and not show up...but come game time where will we all be...down at the ball field.

Please don't take it for granted that the work will get done...One of these days it might not!

Debbie Gosnell

What is the latest date that a service person could contribute to VEAP?? **ANSWER:** Benefits are indeed available under that law for eligible Veterans. To be eligible, service members must have contributed before April 1, 1997.

**STATE CEMETERY AT FORT BRAGG, NC**—The Department of Veterans Affairs has announced the award of a \$792,353 grant to the State of North Carolina to develop a new State Veterans Cemetery in Fayetteville adjacent to the Ft. Bragg Army Base. The 55 acre cemetery will be located at the intersection of Bragg Boulevard and Murchison Road northwest of Fayetteville. Landscaping features will buffer

the cemetery from roadway traffic. To complement V A's National Cemetery System, the State Cemetery Grants Program has helped to develop, expand or improve 34 State Veterans Cemeteries by providing matching funds on a 50-50 basis. Since the program was established in 1980, V A has awarded 94 grants totaling more than \$41 million to 18 states and the Territory of Guam.

### Free 10-year parts and labor warranty.

We appreciate manners as much as the next guy, but we thought we'd give you something you could use a little more. That's why we're offering a free 10-year manufacturer's parts and labor extended warranty with our already reliable Trane XL 1400 air conditioners and heat pumps. And, in addition to peace of mind, you'll get the quiet, comfortable economy you can only get from Trane. It's just our little way of saying, "Thanks." Call your participating Trane dealer today. *It's Hard To Stop A Trane.*
