Informed Public Best Weapon Against Imperialism

The other day I gave my 6-year-old grandson, Justin, a pop quiz.

"Who's George Bush?" I asked him.

"The new king?" he answered in the unsure form of a question.

"President?" his 5-year-old sister, Kyera, corrected, also unsure.

"We don't have kings in the United States," their father and my son, Gil, told Justin.

"Thank goodness," I thought and went on to tell Justin that's the biggest responsibility newspapers like mine has, to make sure we never have any human kings of any kind here.

I then brought out my little soap box and told him the reason our forefathers protected the press was to ensure we'd never have any kings because they were sick to death of their oppression.

(I hope I'm able to teach my grandkids, and I think I've done a pretty good job with my three sons, not to be in awe of public officials. Sure, give them due respect, but, to me, the word "due" means it has to be earned. After all, they supposedly work for us.)

But I got to thinking later that it's not only the job of the press to make sure we never have any earthly kings, it's everybody's job. And we have to be always vigilant.

The gains of imperialism come slowly and quietly, but incessantly. Maybe it's something like federal elected officials getting a huge pay raise without having to lift a collective finger. Maybe it's something like a hidden tax you know nothing about until you get the bill. Maybe it's something like graft or other malfeasances which go unpunished.

We always say that the best weapon against imperialism is the ballot box. But is it? Most of the abuses we cite are perpetrated by people we elected.

No, I think the best weapon against imperialism is an informed public. It's the job of the press to get out this information, but it's the job of the public to absorb it and do something about it. Too often we read of some foul deed, shake our heads, say "shame, shame" and forget about it. When we do, imperialism has gained another step.

And it's not only federal officials who are wont to be kings. We've all heard horror stories about lowly local officials who assume more power than they have and then abuse it and about state officials who become demagogues.

Our forefathers knew about this. They'd gone through it all. That's why, along with the power of the ballot, they gave us the power to petition, to recall, to impeach.

I'm not suggesting that anybody should be impeached, or recalled and I know of no grievances that needed to be addressed by petition right now, but it's nice to know these powers are handy, just in case.

ASCS Office Taking Disaster Applications

The Callahan ASCS Office is currently accepting applications for the 1988 Disaster Assistance Program. Farmers have until March 31, 1989, to apply for payments on their 1988 crop production losses caused by drought, hail, excessive moisture, or a condition caused by these perils.

ASCS official Scott Odom, reminds farmers of an emergency provision under the disaster program. "Farm program participants who received advance deficiency payments on program crops (wheat, feed grains, and cotton) will not have to refund that part of the advance payment which represents loss of crop production up to 35 percent of their normal production. However, the producer must sign up under the Disaster Assistance Program to be eligible for this refund." He said producers who did not collect advance payments at sign up had 30 days after notification to request these payments.

The disaster program compensates eligible producers for production losses on commercially-grown crops for the loss of production in excess of 35 percent of their normal production. Persons with an annual qualifying gross income of \$2 million or more are not eligible for disaster payments. Mr. Odom said the total amount of benefits a person may receive both in disaster payments and emergency livestock feed assistance may not exceed \$100,000.

Before applying for the disaster assistance program, Mr. Odom said farmers must furnish 1988 acreage and crop production reports and certify that they have complied with sodbuster and swampbuster program requirements.

Difference In Prices In 1892 And 1899

By ORA BREEDING

Hugh Breeding and Callie Hailey were married on November 16, 1890 and moved to their farm in 1896. They lived in a log home until 1901 when he had lumber hauled from Fort Worth and built a house.

Gussie, Ardis, Arvie, and Arlie were all born in the new house. Arlie still lives on the farm he was born on.

Mr. Breeding kept records of his expenses in a ledger book which the family still has. Some of his transactions make for interesting comparisons to today's prices.

In 1892 he bought beef from J.C. Shuford — 16 pounds for \$.50 and two months later he purchased 14 pounds for \$.04 per pound.

A grocery list in 1893 showed the following items:

12 pounds coffee	\$.15
5 gallons syrup	\$2.50
5 gallons coal oil	\$.25
3 cans lye	\$.25
10 pounds soda	\$.75
1 broom	\$.35
100 pounds flour	\$2.00
19 pounds bacon	\$2.10

Purchases at the dry goods store were:

1 pair pants	\$2.00
14 yards ducken	\$1.25
1 pair shoes	\$1.35
hose	\$.25

He also kept track of the labor he hired to grub the trees before putting in his fields. In 1893 he hired Cager Bennett, Emma Woody's father, to work 3 days for \$2.80. He worked another day for a sack of flour and 2 days for a pig valued at \$2.

Pettis Freeland worked 1 month for \$18. After getting the land cleared, Mr. Breeding planted 18 acres in apple, peach, pear, cherry, and plum trees.

From 1898 to 1899 Breeding cut and hauled 9 cords of wood to town, Cross Plains, for \$1.50 per cord.

Wages, prices, working conditions, and life in general have all made major changes over a period of 97 to 100 years. What will the next century hold in store?

Free Income Tax Advice Available For Residents

Free income tax assistance will be available for area residents during February 6, March, and April 15 through the tax-aide program of the American Association of Retired Persons.

Volunteer counselors, trained by Internal Revenue Service certified instructors, will be staffing a counseling site in the Cross Plains Multi-Purpose Center.

Walter Knowlden, overall coordinator for the Central Texas area of the A.A.R.P. Tax-Aide Program, said the service is designed to help older persons and also taxpayers who are unable to afford professional advice and to help them understand tax forms and to become familiar with special benefits available.

The counselors, many who have been in the tax-aide program for several years, receive 40 hours of training by the I.R.S. each year and are trained on all the new income tax changes.

According to Mr. Knowlden, past experience has indicated that many older persons are unaware of special benefits they are entitled to claim and are paying more than they are required to pay. Some may not even be required to file a return because of limited income.

Taxpayers using the service should bring copies of their previous year's returns and their forms for the current year. They should also bring with them all their W-2 and W-2P Forms with all their 1099 Forms regarding income received, including their 1099-SSA from Social Security. They should also have all their receipts of expenses, such as medical bills, prescription drugs, and medical insurance for possible deductions. They will also need to bring receipts of taxes, mortgage interest, and charitable contributions paid during the year so that all taxable deductions

can be applied.

Counselors will be available at the Cross Plains Multi-Purpose Center, East 8th Street, on February 6 through April 15. It will be held Monday and Tuesday from 10 a.m.-2 p.m. The telephone number is (817) 725-7698.

With more than 22 million members, A.A.R.P. is the nation's largest organization of Americans 50 or older with headquarters in Washington, D.C. The non-profit, non-partisan organization offers a wide range of membership benefits, legislative representation at federal and state levels, educational, and community service programs carried out through a national network of volunteers.

Blood Drive Set To Replenish Supply

A drive to help replenish the blood supply at the Meek Blood Bank is set for Thursday, February 9, at the Cross Plains Community Center from 2 p.m. to 6 p.m. The blood bank is in need of all types of blood to supply the Cross Plains community.

Your sharing and caring can help save a life.

Blood Pressure Clinic Tuesday

The regular monthly blood pressure clinic will be held at the Multi-Purpose Center Tuesday morning, February 7, from 10-11 a.m.

Federal Salary Hikes Not Taken Lightly At Cross Plains

The results of a promotion started by Susan Sharpe to halt federal salary increases by contacting Congressmen has been overwhelming. Cross Plains received favorable publicity by both the *Abilene Reporter-News* and KTXS Television concerning local efforts to stop the increases.

Last Thursday's issue of the *Abilene Reporter-News* published interviews with Sharpe and the *Cross Plains Review* editor, Vanda King.

Friday morning a television crew from KTXS Television traveled to the community to cover the story. Vera

Pearl Bunnell, Charlie Bird, Chuck Woody, and Frances Rone were interviewed at the Senior Citizens Center. Sharpe was filmed, with the petitions signed by local residents, at her home. King's articles were pictured and a brief interview was filmed at the *Review*. Also, a nice shot of the downtown area and the water tower were included in the footage. The story was aired Friday evening at 6 p.m. and 10 p.m.

A total of 238 signatures were secured on the petition from citizens who voiced their ideas. Sharpe stated that she had received calls from Cisco and Rising Star. She received letters as far away as Aspermont. A response from Abilene residents who saw the news program was also reported. Residents in Coleman and Brownwood were also touched by local concern.

If this small movement created this much interest — it was certainly worth the effort. Thanks goes to all those who signed the petition. Now, it's time to wait and see what Congress decides.

Contel Implements Lifeline Program

DALLAS — Contel of Texas has announced a new program that's designed to make phone service more affordable.

The program is available to current customers and to those citizens who do not have service.

The program, titled *Lifeline*, offers a telephone bill credit of \$3.20 per month and is available to qualified citizens.

The credit is applied to the rate of the Federal Communications Commission's mandated subscriber line charge.

To qualify, you must be a head of a household with an income at or below the federally mandated poverty level OR you must be a recipient of benefits from specific public service programs.

Area residents may receive more information on *Lifeline* from the local Contel business office. Toll-free phone numbers to the business office are listed in the Contel directory.

Contel, a company with \$3 billion in revenue and sales, provides a broad range of telecommunications and information processing products and services through three sectors: Telephone Operations, Federal Systems, and Information Systems.

Contel of Texas is a subsidiary of Contel Corporation, providing local phone services to more than 161,000 rural customers across the state.

Chain Letter Promotions

Have you ever been asked to participate in a chain letter which is guaranteed to earn you lots of money with one small investment? Don't waste your money — chain letters are a form of lottery and may violate federal mail fraud laws. The same three elements that apply to lotteries (payment, prize, and chance) also make chain letter schemes illegal. The payment may be money or any other item of value. The prize is the large amount of money you are led to believe you will receive in the end if you participate. The chance is that the chain will break, and it must, because the chance that all participants in a chain letter will receive mail is mathematically impossible.

For example, a typical chain letter may require participants to mail letters

CHAIN LETTER

Continued From Page 1

containing money to six new participants, each of whom must mail six letters to six more individuals and so on. By the eleventh level of mailing, the entire population of the United States (almost three hundred million) would be exhausted. By the 13th level, the population of the world (over four billion) would be exhausted. And remember, even if the chain letter itself is not mailed, as long as the payment or prize is sent through the mail, the entire scheme is illegal.

Some chain letters masquerade as Multi-Level Marketing (MLM) Plans. These require an original promoter to sell a product and enlist several other people to become sellers, who in turn recruit others. Most Multi-Level Marketing Plans are schemes to sell the plan rather than the product, and the fact that selling a product is involved, instead of winning money, or statements saying the plan does not violate federal law, do not ensure legality.

Do not confuse regular chain letters or Multi-Level Marketing Plan chains with prayer chains that promise good luck but require no investment. These are not illegal — they're just a nuisance. You should not be intimidated by implied threats of bad luck, personal injury, or disaster for breaking the chain. Feel free to throw the chain letter away.

Remember, you are under no obligation to participate if you receive a chain letter, and to do so may be a violation of federal law. Turn the letter in to the local post office or send it to the Postal Inspector in Charge, P.O. Box 162929, Fort Worth, TX 76161-2929.

Postmaster Joe Hanke, Jr. submitted this information due to the large amount of inquiries regarding chain letter promotions.

Texas Commissioner Of Agriculture Asked To Resign

WACO — The president of the state's largest farm organization called on Texas Commissioner of Agriculture Jim Hightower to resign because of what he called the "damage" Hightower had caused livestock producers through public statements about the European ban on U.S. meat imports.

S.M. True, a grain, cotton, and beef cattle producer from Plainview, said in a letter to Hightower, "I am extremely disappointed at your press response to the European Economic Community ban of U.S. meat imports. The damage you have done to the state's \$6 billion livestock industry warrants your immediate resignation as Texas Commissioner of Agriculture."

In a statement to the press December 27, Hightower said the European Community, in opposing meat treated with growth hormones, "is not expressing the views of a group of hippies. The reality is a concern that is growing worldwide about chemicals and drugs in feed products."

Hightower said there is a "clear trend among consumers who are concerned about foods."

In his letter to the Commissioner, the Farm Bureau president said the agricultural industry in Texas and the nation has united over the years to support exports for meat and other products.

"Trade negotiations with the E.E.C. have been very sensitive due to their highly-protected and subsidized domestic agricultural programs," True said.

"These programs have created a surplus situation for European meat products, and the hormone issue has become a scapegoat for other political considerations."

The Texas Commissioner of Agriculture should be aware of and help promote the point that no scientist — on either side of the Atlantic — has provided any evidence that current methods of hormone use provide a health hazard.

"In your quest to oppose mainstream agriculture to chase self-promoting political headlines, you have either ignored or misunderstood the basics of international trade policy. You have created unnecessary embarrassment and economic difficulty for livestock producers."

"Your immediate resignation will provide relief to U.S. trade negotiators who must now face European counterparts now armed with supportive remarks from an agriculture official."

Weekly Health Tip

ASTHMA RELIEF

Vitamin B6 (pyridoxine) is under study for symptomatic relief of asthma. A USDA study of the effect of vitamin B6 on sickle cell anemia surprisingly showed the beneficial effect of taking 100 mg of B6 daily among members of the control group who happened to be asthmatics but otherwise healthy. They had a reduced frequency and duration of asthmatic attacks. Researchers then found low levels of B6 in the blood of both the asthmatics and those with sickle cell anemia who had responded favorably to B6 treatment.

Your better health is our concern.

MINUTE MUSINGS

By ESTHLOY S. DICKSON

This is a beautiful Monday morning, following a nice rain last week. I hope we have more rain — it had been so long since the last one.

The Abilene Reporter-News had an article the past week which was of special interest to me — on the Logsdon contributions to Hardin-Simmons University.

I knew Mrs. Logsdon while I lived in Abilene — in Sunday School and church. Also, Dr. H.K. Neely, away back "in the beginning," was pastor of the Necessity Baptist Church where my family worshipped.

Another item in Sunday's paper, an obit for Austin Richardson of Arlington. He was reared in Stephens County — we all went to school together. I've exchanged Christmas cards with his sister all these years.

My daughter, Joanie, called one day following their flight to Atlanta, Georgia, where she and Bob attended the National Home Builders Assn. show. They flew to Atlanta. She said she was not really afraid of the flying, but she just sat quietly and "prayed all the way." Bless her heart!

Bobby and Sally Roady visited with Mr. Mack Childers in Cross Plains one day. Her brother, Gene Hicks of Rising Star, visited one day. Bob and Sue McNeil came on Friday and took Ms. Nettie home with them. They brought her home Sunday evening. Pete and Donna Gibson of Lake Brownwood visited them on Sunday afternoon.

Betty Lou Beggs stated that they are really grateful for the nice rain. Betty and son, Rex, went to De Leon on Saturday, looking for tractor parts. On Sunday evening, J.T. and Betty went to Eastland where they heard Rev. Freddy Gage of Houston preach. They heard him thirty-four years ago in Lawton, Oklahoma. Rev. Charles Massagee was in the audience.

My little neighbor, Sherry! Goble, came to the door one day recently and gave me a big bear-hug, which I appreciated. They all are so busy, I don't get to visit with them very often.

Mrs. Dale Gary called me this morning. She thanked me for the armload of magazines I took to her recently. She told me she had passed them on to someone else, and they were very much appreciated. Made me happy that I had saved them for her — and I already have another stack.

I keep a 'close eye' on Jimmielee Payne's cows in the pasture across the highway from me. This week I discovered a 'new baby' out there. I'm sure there will be more soon. They are so cute!

Mrs. L.G. Akins of Cisco visited Ms. Jewel Foster on Saturday. Eugene and Norma Foster of Austin came on Thursday, and Jewel went with them to Abilene to attend a funeral there. Golda Huston of Houston came here this past week.

Guests of Cole and Helen Tillotson last week for dinner Tuesday evening and breakfast Wednesday morning were three of her cousins and their spouses: Mr. and Mrs. Harlan Sage of Lake City, Minnesota; Mr. and Mrs. Paul Morgan of Cedar Falls, Iowa; and Mr. and Mrs. Charles Johns of Tulsa, Oklahoma. The three couples

FIRST BORN

Kelli and Mike Douglass became the proud parents of a daughter on January 20, 1989, at 3:16 p.m. at Hendrick Medical Center. Mykea Shyenne weighed 7 pounds 3 ounces and was 20 1/2 inches long. She was welcomed home by her maternal grandparents, Jim and Cliffadean Hargrove, Aunt Kami, and Uncle Dusty; her maternal great-grandparents, Cleo White of Rising

Star, B.R. Hargrove of Cross Plains; Mr. and Mrs. Buster Gary of Baird, and great-great-grandmother, Mrs. Ethel White of Dumas; her paternal grandparents, Doug and Donna Nehring of Borden County, and Jackie Douglass of Sweetwater; her great-grandparents, Mr. and Mrs. L.C. Lankford of Roby, Mr. and Mrs. Alfred Douglass of Sylvester, and Mr. and Mrs. Bud Nehring of Illinois.

ROWDEN NEWS

By MRS. N.V. GIBBS

The Gibbs rain gauge measured one half inch when showers came over this area Friday night. Every drop was appreciated. There were water puddles in the driveway and back yard early, but soon all soaked into the dry ground.

Visitors in the home of Emma Johnson and Lizzie Burks this week were two nieces, Ludie Parks and LeAnn Burleson and her children, Christopher, Clayton, Dusty, and Sarah Burleson of Abilene.

R.G. Watson of Olan Hill, Maryland, father of Robert Watson, arrived this week to return his wife, Glenneth Watson, to their home after visiting three weeks. Other members of the family were here in Robert and Dorothy's home Wednesday. Dutch Watson of Wichita Falls and Mr. and Mrs. Bill Beck of Jacksboro. On Monday night, the grandparents attended basketball games in Baird and on Tuesday the four drove to Sadler to visit Wayne Dossey and other relatives in that area.

Judy Steele accompanied the group of four athletes of Cross Plains High School to Houston with their coach, Terry Taylor, Friday. The athletes were invited to participate in athletics sponsored by the Elite Track Club of Houston and Houston Chronicle Newspaper. This event was held in the Astro Arena near the Astrodome in Houston. The four athletes were Tye Flippin, Casey Williams, Curtis Wyatt, and Tonya Steele. Here is hoping that all were winners in their fields. Sunday morning, Tonya Steele placed second in her race.

Don and Maryana Harrell and daughter, Leigh, spent the weekend in Fort Worth where they met his cousin and family, David and Debbie Evans and children of Dallas. The two couples ate out and attended the rodeo. The children spent the night with friends.

Visitors Saturday in the James Reynolds home were Jim and sons, Chris and Colby Reynolds of Midland, and John and Ellen Carpenter of Azle. Ellen was being honored with a birthday dinner.

Friday, Robert and Dorothy Watson drove to Haskell and Rule where they visited with friends. On Saturday, Cody Watson was at Stamford for a U.I.L. practice meeting. He was representing his class from the Baird school.

Julie and Bryan Patterson of Coperas Cove spent the weekend with her

parents, Bob and Kathy Dye. Bob and Kathy have been working on their house in Baird, reporting they were about finished. Kathy and Julie drove on to Abilene to do some shopping.

This writer had a good visit with her aunt, Faye White in Baird Monday. James and Dorothy Reynolds were among a group from their church in Clyde, Cherry Heights Baptist, that ministered to inmates at the Taylor County Jail Saturday night.

A week or so ago, this writer spent some time waiting for her granddaughter in front of the Cross Plains Public School. After seeing all the activity during a day of schooling there, one's mind goes back to country schools back in the twenties.

It can be remembered that students had no bus rides, no cafeteria, no basketball gym, and no student had his or her own vehicle as of today.

A pupil back then usually walked to school or on very cold days a parent drove them. Also, there were as many as two classrooms and two teachers taught all their classes, one after the other in those two rooms. Lunches were carried from home in a paper sack or small syrup bucket.

Basketball was played on an outside court, and sometimes games were played on Friday afternoons against other two-teacher schools in the area.

A bell with clapper announced all activities for the day, time to begin the lesson periods, lunch, and time to go home.

These buildings were heated by pot bellied, wood burning stoves, and kids were allowed to sit by the stove if their feet got too cold in the back of the room. Schools have come a long way from the twenties, but those days were good, too.

Georganna Lee Bomar Named To HPU Dean's List

BROWNWOOD—Georganna Lee Bomar, a 1986 graduate of Cross Plains High School, has been named to the dean's list at Howard Payne University.

Requirements for the select honor include maintaining a 3.65-3.99 grade point average. Students become eligible for consideration after their first full-time semester of course work.

Miss Bomar, currently a junior education major at HPU, is the daughter of Mr. and Mrs. Robert R. Bomar of Cross Plains.

Beta Sigma Phi Meets In Oglesby Home

Beta Sigma Phi met at the home of Pauniece Oglesby on January 23 for the Spring "Rush" Party.

A skit called "Clean Dean Team" was presented by Pat Stephens, Sandy Yates, and Brenda Conner (Nadean, Geraldine, and Claudean respectively). They were a cleaning group who told about Beta Sigma Phi while they went about their chores. The skit was very well done and very entertaining also.

The "Miss Valentine Parade" and the "Photogenic Contest" were discussed and finalized plans.

Refreshments were served to 15 members and 8 guests. Those attending were Mary Dunn, Sarah Brashear, Pauniece Oglesby, Bobbie Johnston, Pat Stephens, Vernelle Bishop, Brenda Conner, Pam Harris, Joyce McCoy, Margaret McNeel, Nora Odom, Janice Phillips, Kim Childers, Sandy Yates, and Berdesa Saunders. Guests attending were Patty Bowden, Janis Buckner, Karen Combs, Olinda Hale, Carolyn Morgan, Melissa Parker, Carol Rogers, and Beverly Ross.

Cross Plains	11	7	12	12	42

The leading scorers for Cross Plains were Evans 14, Montgomery 11, and Helms with 10.

The "Ladies" traveled to Baird Friday to finish round one. After a tight first quarter, the Buffs warmed up and began to play their type of game. The girls outscored the bears 37-13 the last half.

Score By Quarters:	1	2	3	4	Total
Baird	10	6	4	9	29
Cross Plains	10	14	18	19	61

Leading scorers for Cross Plains were Walker with 15, Evans with 13, and Helms with 12.

It has been a total team effort by these girls. We try to make each one of us a threat to score, so no one can key on one player. These girls have something special going for them, also — they just won't quit. They never give up no matter how bleak it may look!

The Lady Buffs began second round action Tuesday against Moran at 6:30 p.m. in Cross Plains. They then travel to Eula Friday, February 3. The last district ball game will be February 7 when Baird comes to Cross Plains.

The Ladies ended first round action with a record of 15-6.

A Tribute In Loving Memory Of Irma Tunnell Carter

By MABEL FALLS HALSELL

"I have brought you another book to read," said Irma.

"Oh, I am glad. I just finished the 'Girl of the Limberlost,' and it was good. What book did you bring?"

"At the Foot of the Rainbow," by Gene Stratton Porter. It is very good," said Irma.

Not an uncommon greeting from a very dear friend and classmate, Irma Tunnell.

All that I shall write may seem like ancient history to some who read it, but to me it is very vivid in my memory, and it was a vital part of my growing up. While growing up, Irma and I became very dear friends. We shared the joys and sorrows of twelve years together in school. Visiting one another became a habit. Once she said, "Mabel, you never come to see me without my asking you. Surprise me once in a while and come." I took her up on that and when I arrived, she was sick in bed. It didn't daunt me. I sat by her bedside and we visited just the same.

There were times when I visited her, we would sit on the sunny side of the house and shell and eat pecans and walnuts, or we would go to their winter hot bed and pick lettuce, radishes, and onions for supper. In the summer time, we liked to cut out and play with paperdolls in their upstairs bedroom. We often went to church together.

It was just before our graduation. Irma was insisting I go home with her following her visit with me. The persuasion she gave when she sat down by my dad prevailed. "Now, Mr. Falls, school will soon be out and we may go our ways and not get to see each other very often. Please let her go."

That statement proved to be a fulfilled prophecy.

Years later, my husband and I were teaching at a rural school in Eastland County. It was a foggy evening in the fall when Irma and her husband-to-be drove up to our house. After a joyous visit, Irma asked us to go to Eastland where they were to be married. We dressed and followed them in our car. After much searching and failing to find a Methodist preacher, my husband remembered a Presiding Elder, Rev. Webb who lived in Cisco.

Most preachers were attending Methodist Conference, which was in session. We found Rev. Webb at home and in due time we witnessed their wedding. Afterward, we were treated to a turkey dinner at a local restaurant. They departed on their honeymoon and we returned home.

Irma was a good Christian wife and mother of two sons. Her brave and graceful acceptance of the death of one son was typical of her staunch character. Her recent death in Las Cruces marked the passing of a very dear friend and an outstanding person. We will miss her.

KTXS Sponsors 5 Weeks Of Lifeplanning

Clay Milstead, general manager of KTXS Television has announced that KTXS will sponsor a 5-week community outreach campaign called Lifeplanning.

"Lifeplanning," according to Milstead, "is an approach to living that is based on the premise that to best chart your course in life, you must first have a clear understanding of the world about you."

According to John Harrod, KTXS news director, "Lifeplanning will be broken into five segments. KTXS reporters will report for an entire week on each of the five segments which include Health, Wealth, Companionship, Career, and Recreation. Lifeplanning will dominate our news during February."

Milstead also stated that the station will supply tangible information about each of the five topics. Information that can be applied to daily living.

Liza Burgess, KTXS anchor woman, will report on Health, January 30 through February 3.

Week two, February 6 through 10, Kevin Marks reports on Wealth.

Anchor man Greg Beatty will report week three, February 13 through 17, on Companionship.

Week four runs February 20 through 24 and will be hosted by Monique Borden. Her topic will concern career.

Lifeplanning concludes with Jim Matthews reporting week 5 on Recreation, February 27 through March 3.
