Can Project Pride Count On You

By JACK SCOTT

Cross Plains is a friendly, little West Central Texas city, incorporated Jan. 12, 1911, which has a present population of 1,240 people, who are proud to live in one of the healthiest climates in the nation, in an area of hometown pride, free of ethnic or racial problems. Neighbors with common ideals, mutual hopes and aspirations experience a togetherness in small town living.

Cross Plains business community embraces more than 80 commercial enterprises, including financial institutions with more than 30 million dollars in assets. Stores and service firms are modern, friendly and qualified to supply most every community need. It is estimated that local sales and services aggregate between 15 and 20 million dollars annually.

Cross Plains points with pride to its nine churches with physicial properties worth more than a million dollars, all of which are free of capital debt or incumberance. The nine congregations regularly minister unto the spiritual needs of an estimated 2,000 people. Doors of these churches are always open and visitors and new members are cordially welcomed. Cross Plains Independent School District which embraces 343 square miles, with a taxable valuation of about \$68,000,000, employs 62 people, 48 of whom constitute a welltrained faculty and administrative staff. The district operates seven bus routes and offers students a wide and varied curriculum. Recent TEAMS tests graded the local system in the upper echelon for schools in this section of the state. The City of Cross Plains is served by a mayor and five councilmen, all of whom are elected at-large for two year tenures. The municipality owns and operates a modern waterworks and sewer system serving 585 homes and public enterprises. It provides fire and police protection, notwithstanding the fact that no property taxes are levied or collected. Wise and systematic management over a period of years has long since paid all bonded indebtedness and stashed sizeable savings into investments that now flow into city coffers. A source of pride to local people is one of the finest equipped and best trained fire companies for a town of this size to be found anywhere. The department owns and operates fire trucks and serves all areas of Cross Plains trade territory. Cross Plains Public Library has been cited for outstanding service and recently won a J. Frank Dobie award of \$5,375 to buy new books. It has on hand 7,500 volumes to accommodate a wide variety of reading appetites. The library's LAP (Learn About People) program for pre-school children is highly regarded and warmly received. Cross Plains has a city park with tennis courts of professional quality, playground equipment for children and barbecueing and picnic facilities. All this is situated at the East end of 9th Street, adjacent to the Community Center, which itself far exceeds what is customarily found in a city the size of Cross Plains. Three state highways and Farm-To-Market roads from three directions enter Cross Plains and serve to make this a focal point for sectional commerce. There are more paved streets within the township of Cross Plains than any city of this size within 100 miles. Housewives rejoice that when dust storms come this way, they experience far less invasive dirt than do their counterparts elsewhere. Cross Plains' finest improvement in recent years has been the organizing, training and equipping of an Emergency Medical Service that local people feel is without parallel. The unit, staffed by volunteers, each of whom has completed college-level training for medical emergencies, has built an enviable record of achievement. One telephone number everyone here remembers is 725-6666, for that brings help in a hurry when death or disaster lurks near. All the skilled peo-

ple who staff this enterprise work without pay. The community owes each of them a sizeable debt of gratitude.

Growing old is fun in Cross Plains. Senior citizens have a dining facility on Main Street where they gather for lunch. The food is great, the cost is minimal and the place is a certain cure for lonesomeness.

When it comes to recreation the Cross Plains area has much to offer. Brownwood Lake, with 102-mile shoreline is only a 30 minute drive. There are no less than 10 Soil Conservation Service Lakes within 15 miles of here. A 9-hole golf course and its accompanying facilities is just seven miles from Main Street. There are hunting, fishing, hiking-trails, golf and tennis, all close at hand, for lovers of the outdoors.

We have much to enjoy and appreciate about living in Cross Plains. Out of gratitude each of us should fall in line with that faithful little group of hometown supporters who have organized Project Pride. They are committed to brightening the appearance of our little city, restoring some of the collapsing buildings which otherwise are destined to become ratinfested fire traps. They want a pretty, little downtown park with benches, where people could pause for a visit on their way to the post office. They want to preserve and document the history and heritage of Cross Plains.

They deserve our support. We can best give them that by brightening our own premises and helping in some of the projects they advance. Tell them they can count on you.

Children's Miracle Network Telethon Coming

Henrick Medical Center and KTAB TV, a CBS affiliate, will become part of an international event when they link up with the Children's Miracle Network Telethon, June 3-4. It is produced by the Osmond Foundation, a non-profit organization founded by the Osmond Family of Salt Lake City, Utah.

The Telethon is a 21-hour entertainment extravaganza, broadcast live from Disneyland and Walt Disney World. Established in 1983, the Children's Miracle Network Telethon is unique in that 100 percent of the money raised by the Abilene Telethon will benefit children's services at Hendrick Medical Center.

Named as honorary chairman for the local Telethon is Donald McDonald, M.D., a long-time Abilene pediatrician. "I have seen generations of Abilenians come through my pediatric practice and realize the importance of providing the best care for our children. Through all the years of my practice, nothing matched the feelings of watching a sick child become well. This Telethon and the efforts of so many people will help us continue,"

benefit children across the nation. In 1988, it raised almost \$60 million." said Michael C. Waters, Hendrick Medical Center President. All proceeds raised in the 16-county area around Abilene will go directly to benefit the Meek Children's Hospital, the nurseries and other children's services at Hendrick."

"The idea of working with the Children's Miracle Network Telethon caught my eye early this year and I thought the idea of pursuing it at Hendrick would be welcome," said Stanton J. Barron, M.D., long-time Abilene pediatrician. "I was right. We are joining forces to provide top-notch health care for our children and that is wonderful."

Hendrick's Telethon coordinator will be Nancy Estes, Director of Special Projects for the Hendrick Medical Center Foundation. Coordinating the event for KTAB will be Susan Robinson.

Herman Schaffer, M.D., echoes his colleagues' comments about this effort. "Working with the Children's Miracle Network Telethon is one of the most positive things we can do at this hospital to help our children. With the equipment we can purchase with these funds, we will be able to treat more children in Abilene and provide state-of-the-art care. We can only guess how many children's lives this

Found: A small white miniature chihuahua dog with a black spot on it's back, black and brown markings on the head and bob-tailed, at the home of Mr. and Mrs. Richard Smith in Cottonwood. Please call the Smith's if he is your lost pet. They will be able to keep him for one week. They will have to take the animal to a shelter if not retrieved by then.

Please do not drop your unwanted litters or adult cats and dogs in the rural areas. We have all the domestic pets we can care for and need. Some of our pets do not take kindly to strange animals on their place. Last year numerous animals were left loose throughout the country side. These had to be destroyed or were killed by the wild life predator. To prevent heartaches of destruction to unwanted off-springs, have your pet spayed or neutered.

The Cottonwood Country Store wishes to announce their new hours for spring will be from 8:00 A.M. to 6:00 P.M. during the week. Sunday hours are 12:00 P.M. until 5:00 P.M.

MINUTE MUSINGS Legion **By ESTHLOY S. DICKSON**

Now it is April, and it surely seems more like Spring-just hope we have some rain soon. I saw my first humming wird on Sunday afternoon. I immediately put up the feeder-it was back on Monday morning.

My son's family did join us in Cleburne for Easter Sunday. We all went to church together. My daughter brought me home on Monday of last week.

She was having some problems with her pretty new car. She took it to Johnston's Motors. She was here until Thursday morning. She did a bunch of laundry, and other things-she is the type that just has to be doing something-constantly

My neighbors, the Gobles, have done a bit of landscaping around their place-it looks great. They put out a lot of grass-I surely hope we have a good rain soon.

Our Spring revival began at First Baptist Church on Sunday. The church was packed for the first service. The Evangelist, Rev. Chris Osborne, delivered a very inspiring message-the music program was super. The revival continues through Thursday-I hope we all will be 'revived' much longer.

Sally and Bobby Roady visited with Cindy and Charlie on Sunday. Last Friday Art and Bertie Roady came here and took Ms. Nettie Roady home with them for the weekend. Billie and H.A. Freeman visited here on Friday evening. They all played "Spinner Dominoes"-had great fun! On Saturday afternoon, Joe and Beverly (from Brownwood) came to help celebrate Sally's birthday. On Sunday, Bobby and Sally went to Abilene and brought Ms. Nettie home with them.

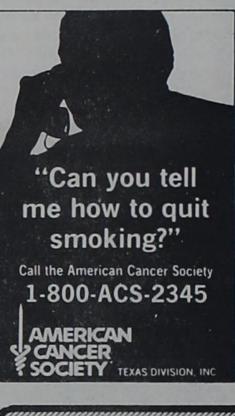

Rex Lee Beggs and children had Easter dinner with J.T. and Betty.

The Quilting Club finished a Fan last Tuesday and this Tuesday a Dahlia and a Nine Patch. They also started on what might be called a double Bow Tie, the last quilt-piecing efforts of a 102-year-old lady, Norma Foster's grandmother. The quilt is amazingly even and fitted.

Lou and Rufus Wilson went to San Angelo to visit their sons Randy and David. They also went fishing at Jay Rankin's place with the Murphys, singers at their revival and with Dorothy Mitchell. The place was beautifully dressed with early spring greens, flowers, and birds.

There were 15 who came forward at the Pioneer Baptist Church during the revival, including those who came for rededication.

Frankie and Oliver Smith enjoyed visiting with their daughter and son-inlaw, Bobbie and Roxie Nance and twin boys, Scot and Joey, for the Easter holiday.

The Easter season also brought visitors to the home of Cleo and Novilia Barton, including Cecil, their son, Novilia's sister and family, Merle and Raymond Woods and their son and wife, Dalton and Laura, all of Baytown.

Jean Fore's visitors were Lloyd and Virginia Hubbard and her mother, Pearl Covington, all of Lovington, New Mexico, and Juanita and Paul Harlowe with their grandsons, Ryan and Trey, also of Lovington, New Mexico; Vi Harlowe of Marble Falls and Bill and Billy June Foster of Pecos also were here. Everyone had a big fish fry at Jean's after a nice catch of fish.

Thursday Billie Freeman's niece, husband, and three children, Bobby Sue, and Cliff Holden, Chuck, Josh, and Becca, of Abilene, visited Billie and H. A. They went fishing and had a good time. H. A. and Billie also went to Anson and had Easter dinner with N. A. and Bridgette Roady. All of the other Roady family were there together.

Jean and James Alexander received their guests, Jim Alexander and his family of Richardson, who spent the Easter weekend. Jewel Foster went to visit with her daughter, Golda and her son, Don Houston. They, Jewel, and Jewel's son, Charles, and his wife, Lucille visited at Don's place on Sam Rayburn Lake. It rained all day Easter Sunday, and they all attended the little Country Church there. Lottie Sooter's company over the Easter weekend were her daughter and son-in-law, Jane and Bob Dixon of Monroe, Louisiana, and Gertrude and Shorty Dunn of Lubbock. The community of Pioneer received about 2 inches of rain in the showers of Monday and Tuesday nights.

A Message **To Teenage** Drivers

Editor's Note: Susan Sibley, mother of the late Jesse Sibley, requested that this article which appeared in the Odessa American on March 27, 1989 be published.

Dear Abby: I am enclosing a "paid notice" that appeared in The Raleigh (N.C.) Times. Perhaps you can use it in your column. My wife and I thought it was very moving and deserved nationwide exposure. We hope you agree.-Lori and Kevin Shannon, Raleigh

Dear Shannons: I agree, and so did Claude Sitton, my "boss" at The Raleigh Times: Here's the piece: Message to Teen-Age Drivers From The Parents Of A Deceased Teen-Age Driver

You have a power that no one else on Earth possesses. Your teachers, the police, the governor, the president-none of them have this power; only you have it. This "power" is the power not to kill yourself while behind the wheel of an automobile. This "power" is the power not to kill others with the car you're driving. This "power" is the power to not be a victim of the slaughter of teen-age drivers on our roadways.

You've all seen the stories in the newspaper. Many of you were friends of the teenagers killed. Maybe they were speeding, or passed illegally or ignored a stop sign, or tried to beat a red light. You cried for them, went to their funerals, participated at memorial services held for them at school. And then got into your car and did the same thing because it could

trip. On Christmas, your parents will decorate a little tree to put next to your cemetery marker. The smiles around the Thanksgiving table will never be as wide. Mother's Day. . .Father's Day. . .your birthday. . .the first warm day of spring-will always cause your parents to think of what might have been.

One year ago today, we buried our teenage son, Jack. Jack was killed in an automobile accident. The accident was a direct result of ignoring the posted speed limit. Jack was a great kid, and we could not have asked for a better son. However, a few seconds of bad judgment, whether caused by inexperience of a sense of "teenage immortality," or both, cost Jack his life.

There is no pain on this Earth that's worse than losing a child. This tragedy will haunt us for the rest of our lives. And every week more parents must face the dreaded realization that they will never see their child again on this Earth-never to kiss them, never to laugh with them, never to hold them close. Never again.

Last month, three local teenagers were killed in an accident; the two brothers are buried next to Jack. When we saw these three kids lying side by side in the cemetery on Valentine's Day, we knew we had to try to do something to stop this carnage.

How successful we are will depend on you: that means each of you exercising your unique "power"-and using peer pressure to convince your friends to do likewise. If we succeed, it will mean that all these teenagers, and our son, Jack, haven't died in vain.-Barbara and Jack Ratz Sr., Raleigh Dear Barbara and Jack: My heart goes out to you in your sorrow. The piece you wrote is indeed powerful-and a fitting memorial to your son, Jack Jr.

FACTS & FANCIES

Do you catch cold from being cold? Doctors say "no" and "yes". While you can only actually catch the cold virus from another person who already has it, becoming chilled-or overheated, exhausted and under stress-can make you more susceptible to the germs with which you come into contact.

Many of those who do catch cold can find relief with a tried-and-true over-the-counter medication, such as Coricidin 'D'®. A product of Schering Corporation, its original formula was introduced to the medical profession as a prescription product.

Who catches cold? Some people are more likely to than others, no one knows exactly why. Children are particularly susceptible. Colds are a major cause of absenteeism in schools.

Quarterly Tax Payments May Be Required

Estimated tax payments may be required by anyone who receives income that is not subject to withholding of income tax, or income from which not enough tax is withheld, the Internal Revenue Service says.

Such income includes but is not limited to self-employment earnings, alimony, interest, dividends, rent and capital gains.

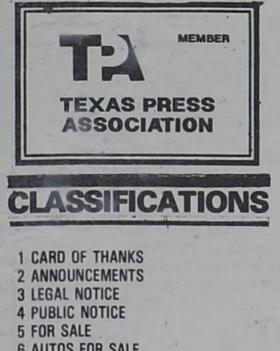

Estimated tax is the total of expected income tax and self-employment tax (as well as certain other taxes) less any tax withheld and tax credits. These other taxes include the alternative minimum tax.

Generally, individuals required to make estimated tax payments may make quarterly installments or may pay all their estimated tax at one time. In order to avoid a late payment penalty, the one-time payment must be made by the due date of the first quarterly payment for which the taxpayer is liable.

Payments are due on April 17, June 15, September 15, 1989 and January 17, 1990. A payment-voucher from the Form 1040-ES package should accompany each payment and should be mailed to the Internal Revenue Service Center for your state as shown in your 1040-ES package.

Form 1040A or 1040EZ cannot be used at tax time if estimated tax payments were made because there are no lines on these forms to show estimated tax payments.

Further information is contained in free IRS Publication 505, "Tax Withholding and Estimated Tax," and can be obtained by calling toll-free 1-800-424-3676.

CHECK YOUR TAX STATUS... OVERSIGHTS CAN BE COSTLY

Dear Commissioner Nabers: I read with interest a recent letter in your column about domestic help and the unexpected tax liability that may arise in such a situation. I need to know if I may also be liable under TEC law for individuals who stay with my mother around the clock, providing personal care.

I have my mother's power of attorney and take care of her affairs. She has not been well for several years and currently requires full-time care. I have three "sitters" who work eight hour shifts. Their primary responsibilities involve bathing, feeding, clothing, and dispensing medication, although they also perform some routine cooking and cleaning chores. These individuals were referred to me by word of mouth and none of them are registered nurses. They are paid out of my mother's account. Can you clarify what my liability is in this situation?

> - S.P. Longview, Tx.

Dear S.P.: Based on the information you have given me, I would say it is extremely likely that your mother will qualify as an employer under

TEXAS BUSINESS TODAY

the Texas Unemployment Compensation Act and consequently would be liable for reporting and paying taxes on the wages paid to these personal care providers. You should contact the local TEC tax office there in Longview and discuss this working arrangement in detail with one of the tax examiners. If it is determined that your mother is indeed an employer under the law, the examiner can assist you in filling out the appropriate forms so that an account can be established for her. I would advise you to do this right away, as further delay may result in additional costs.

Dear Commissioner Nabers: One of our employees is quitting his job to move to another climate. His doctor advised him to do this because he suffers from severe allergies and no form of treatment has helped his condition. Will he be eligible for unemployment

Austin. Tx.

Dear H.Y.: Your situation offers a good opportunity to remind employees of some important provisions of the unemployment insurance law that they tend to forget: 1) a claimant will NOT be disqualified from receiving benefits if he was separated from employment due to illness or injury, 2) an employer's account will be **PROTECTED** from chargeback if the work separation was caused by medically verifiable illness. This is one of the rare instances in which the law provides for both the payment of

benefits and the non-charging

of the employer's account.

A Texas VHIP loan of up to \$17,500 will go a long way if you're thinking of adding a privacy fence, floodlights, landscaping, lawn sprinklers, shade trees, outdoor decks, adding a utility building, constructing a carport or a patio, or installing a scenic walk-way.

Designed to assist Texas veterans in making substantial improvements to existing homes, the state program allows eligible Texas veterans to borrow a maximum of \$17,500 at a fixed rate or 10.5 percent interest (plus FHA Title I insurance) for a term of up to 15 years. The minimum loan is \$4,000.

If the amount loaned is less than \$7,500, the maximum term of the loan is 10 years. No down payment is required and all loans are FHA insured. All work must be done by contractors approved to participate in the program.

have been frozen out of the conventional home improvement loan market by rising interest rates and prohibitive down payment requirements," said Garry Mauro, who administers the program through his position as chairman of the Texas Veterans Land Board.

"By using local lenders and contractors to do the work, the program stimulates the local economy, creates jobs for contractors and generates sales for local building supply dealers," he said. "That's a hard combination to beat."

Room additions, roofing, attached garages, driveways, screened porches, carpet installation, built-in kitchen equipment, gas heating systems, fireplaces, and stone siding are also examples of improvements that qualify for loans under the program.

A recent change in the law offers some protection against misleading advertisements that prey upon the public's concern about Social Security and Medicare. The rule gives the Secretary of Health and Human Services authority to take action against firms that use the words "Social Security" or copies of the Social Security cards or emblems to give the impression that the government is endorsing a particular product, service or organization.

The rule covers advertisements, circulars, books, pamphlets, radio and television broadcasts, and other communications. Violators are subject to civil monetary penalties.

The new rule represents a major gain in the Social Security Administration's fight against misleading advertisements. Such ads are generally appeals for money in exchange for some service purporting to enhance their Social Security protection. Generally, the appeal is presented as related to the Social Security Administration or the Federal Government. Official looking envelopes and titles may contain the words "Social Security" in some

form.

The appeals may offer to provide a Social Security number or earnings statement, or to change a name in the Social Security records. These services are provided free of charge at Social Security offices. Other types of appeals offer to fight the "threat" to Social Security or to "save" Social Security and Medicare.

We often get calls from confused beneficiaries wondering what the appeal is all about. We tell them to ignore the letter or ad and seek to provide free whatever service that is being offered. If the appeal alludes to the "threat" to Social Security, we refer callers to the latest report of the Social Security trustees which states that the program is adequately financed well into the next century.

The Children's Miracle Network Telethon to be held June 3rd and 4th on national television, is a benefit for children who are ill or handicapped. Sponsored by the Osmond Foundation, the CMNT charges no administrative expenses, is staffed by volunteers, and features stars such as Marie Osmond, Merlin Olsen, Marilyn McCoo and John Schneider.

All Dairy Queen labor devoted to CMNT is also on a volunteer basis, with participating Dairy Queen employees devoting their own time.

In 1987 and 1988, Dairy Queen in Cross Plains (yes, in a town of some 1,000 people!) raised more CMNT money than any other Dairy Queen in Texas; the CMNT money raised by the Cross Plains Dairy Queen was \$4,400 in 1987, and \$5,400 in 1988. This didn't happen naturally, it took lots and lots of hard work and planning on the part of Ophelia and her crew.

This year, Ophelia is planning a beauty pageant, a quilt drawing, a multi-attraction event at the Dairy Queen, and more. That's because Ophelia and her crew want to beat their own record in 1989. Won't you help Ophelia help the kids?
