## R. ROBERTSON WRITES FROM "OVER THERE"

France July 27 1918  
Dear mother:

It has been some time since I heard from you and it has been the same since I wrote to you. I don't have the writing mood often, for it seems that we don't have much to write about except war, and when I say that, "The Germans are catching hell." It sounds to us like unnecessary bosh but never the less it's true.

I suppose you have read about the big Allied drive which is the biggest battle on record. The battle is still on and it's hard to tell when it will stop. I believe you have an idea where I am but of course we are not allowed to tell. Some times we live in the little tents we carry on the fields but at present I am, living in a very stylish residence owned by a rich sculptor. I sleep on the floor on one blanket and have one to cover with. Our packs are as light as we can possibly make them. That is why we stay up with the Boches.

The mail is very uncertain but would like for you to write often any way you have more to write about than I.

This part of France is simply great and the people are of the highest class.

Their grain fields are beautiful. Can you picture those damned thieves trying to steal it from the French? I will have to say the Dutchmen are out of luck.

We were first stationed in a very poor part of France and did not know how to really appreciate the country. My praise for France and the French people is 100 per cent.

I had a letter from Lillian stating that Uncle John Wagner wanted one of my pictures. I am enclosing one for him altho I am ashamed of them for it is customary for a fellow to dress up when he has his picture made.

I must close as the Y. M. C. A. is about to close.

They will have to drill this time or forfeit the contract. Uncle Jap is very anxious to get a well on his place.

## Most People Build But Once

The savings of years or of years to come are invested. Be sure you know just what you want and need. The home you build is the home you will live in—build for satisfaction. Don't build four walls and a roof—build a real home.

The interior beauty of your home will depend largely upon the kind of wood selected for trim, woodwork and flooring. These three are necessary to properly set off the home furnishings. We recommend that you use Southern Pine. It is suitable for all interior work because of its striking grain and soft beautiful texture.

If you have home-building problems, let us help you solve them. Our plans of modern homes and views of beautiful interiors are for your use. Why not look them over?

## THE ROAD TO BERLIN.

The road to Berlin begins in America—in Texas, don't forget that. The first line of defense is right here. In the measure that War Savings Stamps are purchased, in just that measure will the soldiers on the battle line in France be supplied with the things necessary to win victory. March down the road to Berlin today, walk along it tomorrow and keep treading it by investing in United States Government War Savings Stamps. Pay that pledge and pledge W.S.S. again.

## VICTORY POSTAGE

## PAY THE PRESIDENT.

This is the man you pledged in War Savings Stamps June 28, National War Savings Day. President Wilson is now calling on all loyal Americans, all true Texans, to pay their W.S.S. Pledge just as soon as they can. Put the punch of victory in your patriotism. Pay the President in W.S.S.

## W.S.S. WILL KILL THE HUN VULTURE

## McADOO ADVISES TEXANS.

"The people of the United States can render the most far-reaching patriotic service by refraining from the purchase of all unnecessary articles, and by confining themselves to the use of only such things and the expenditure of only such money as is necessary to maintain their health and efficiency. Buy United States Government War Savings Stamps."—Secretary William G. McAdoo.

## MAKE YOUR POCKETBOOK PATRIOTIC

Pay that pledge today. Show your mettle by investing your metal dollar mark your W.S.S. Pledge.

## SHOW YOUR METTLE.

Show your mettle by putting your metal in United States Government War Savings Stamps. Dollar mark your W.S.S. Pledge. The price of victory—the price of these Treasury bonds. Dig down deep and dig up. Pay the Pledge, quickly.

Listen, my children, and you will hear  
Of another rider than Paul Revere;  
Of a tiny lad on a strange, strange steed,  
Who rode a race for his country's need.

He heard of his country's call for men;  
He heard of their sacrifice, and then—

He heard of the need for money, too;  
For food and clothes to help them thru.

He wanted to help, tho he could not fight;  
He wanted to serve in the cause of right.

So he mounted a Thrift Card, reins in hand,  
And rode and rode thru'out the land.

"Money!" he cried, "Money for clothes!  
The boys in the trenches"—off he goes;

And 'mid the sound of the clattering hoofs  
The call re-echoed across the roofs:

"Gather your nickels! Gather your dimes!  
Help the Nation! Prepare, these times."

The people heard, as the boy flashed by,  
They heard his fervid, earnest cry.

And out of the stockings laid away,  
And out of the closets hid from day,

They gathered their savings of many years,  
And poured them forth with hearty cheers.

"Take these!" they cried, "in the cause of right,  
We'll save for the boys who nobly fight!"

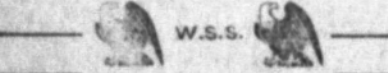

As on he sped, he heard them say,  
"We'll do our best—save every day."

And when the boy on his valiant steed  
Had spread the call of his country's need

He drew the reins on old "Thrift Stamp"  
And patted his nose, all sweaty and damp;

"Our work is done," he said, "old man,  
The Nation's roused to the War Savings Plan."

## LET YOUR UNCLE DO IT

Let Uncle Sam do the spending now; you spend later. Buy War Savings Stamps and save.

The ability of Texans to save is the measure of their patriotism and their desire to win the war and bring their boys back home. Pay your W.S.S. Pledge. Stick to the job and stick on more Savings Stamps.

Every dollar lent to the Government saves the lives of Texas boys in France. Dig deep into your savings and invest to the hilt in these victory bonds.

One War Savings Stamp will feed a Texas soldier or sailor for a week. It will buy enough gasoline to run one of our boy's aeroplanes for an hour. Dollar mark your W.S.S. Pledge.

Instead of spending your money for things you don't have to purchase, let Uncle Sam send it over the top with Pershing and the Lone Star State fighters. Hit the ball over here and the boys and your War Savings Stamps will hit the line over there.

Pay the President!

The Baptist meeting closed Sunday night. Bro. Nichols who has been holding the meeting used to be well known in this country, but not as a preacher. He is one of the most earnest men who has ever been in our community. The men who used to know him in his "poker" days were greatly touched by his sincerity, and believe he makes the Lord just as good a servant as he used to make for the devil. He begins a meeting next Friday night at Pioneer, and a large number of the Sabanno and Liberty people expect to attend the meeting there.

Misses Beatrice and Luna Green have been visiting in Rising Star.

The Farmers Institute met Monday morning and elected new officers as follows: President, C. E. Green; Vice-President, John Harris; Secretary, Prof. Luse. The following were elected delegates to the State Institute at Waco, the 21st and 22nd: A. A. Huntington, Mr. and Mrs. C. E. Green and C. L. Laminac.

Mrs. L. W. Green is visiting her father-in-law Rev. W. E. Green and family.

Miss Lorena Erwin is spending the week with friends at Rising Star.

Aeroplanes as yet are far from being frequently seen in this country, and this coupled with the fact that the Allies are doing wonders in the air service, makes their appearance here an occasion suitable for an interesting and patriotic celebration and novel. The greatest attraction our little town ever witnessed was the aeroplane flights at our annual picnic two of three years back. At that time airships was a rarity indeed, but now it is as common as birds in the cities where the aviation camps are located, but still far from common here. Besides, it is so closely associated with giving that arch enemy of civilization, Germany, thrashing, that most of us pay homage to the aviator.

A few days ago, so it is reported there appeared over a certain near-by town a small cloud, which is something of a novelty itself.

Good fortunes come not in single file, and behold circling round this harbinger of the approaching end of the drought, three masters of the air, some four thousand feet removed from this terrestrial sphere. How nice of aviators to stop over a small town and let all see what otherwise they would have to travel miles to witness. The whole street population, including visitors, with mingled curiosity and patriotism, posed as best they could to witness this feat given likely for their benefit. They evidently were looking for their bearings or the interest of the spectators. Many an eye was wet either from emotion or from the effects of the sun and perhaps from both. What embryo heroes? What might they not do on the Western Front in a few months? Perhaps one of these three should bomb Berlin! Some Cromwell of the air, now inglorious, no doubt then overhead. One of them makes the great dive. What do you call it? one fellow who is a little nearer the etherial blue than the others, cries, "Bazzard!" It was like a dream. Was the town dead?

The town was the Cross Plains, but one of the aviators was our oil man, who repeats the story.

## SHARE OUR SUGAR WITH THE ALLIES

British Get Two Pounds a Month  
French Pound and Half  
Italians One Pound.

## GERMAN SUPPLY PLENTY

All Nations Permit Use of Sweetener for Home Preserving Purposes.

America's new sugar ration of pounds a month per person is ample when compared with the ration enforced by rigid government order in England, France and Italy, nations with which we are sharing our surplus.

Each Allied nation—in the matter of sugar consumption—is sharing the most possible equal terms the laws imposed by greatly altered conditions in the world sugar situation. Formerly classed as a luxury, sugar is now a war time essential. The and just division of this essential in the hands of the various allied food controllers.

The United States Food Administration has asked this nation to share a voluntary sugar ration of pounds per person a month. In the other countries at war, Germany sugar is one of the articles on every menu—whether the households of both rich and poor or in the hotels.

England today has a sugar ration of two pounds per month per person. In France the ration is a pound and a half and in Italy it is one pound a month. And the prices in allied countries are from two to three times as high as in America.

If you go to a hotel in England, France these days and order coffee, they serve absolutely no coffee with it. If you want sugar you bring it with you.

In England it is allowable to one-seventh of an ounce of sugar in the preparation of each luncheon. France many persons carry little tinny cases about with them, use in hotels and in England rich people must take their sugar with them if they wish to have sweetened while visiting friends.

Before the war started France 625,000 acres devoted to sugar production. By 1917 the French sugar acreage had decreased to 130,000. Today the French man or woman who has a tinny case will be able to buy sugar. To buy it, one must find it.

Italy Has "State Sugar." Especially drastic regulations on the use of sugar in Italy. Its manufacture, distribution and sale are strictly controlled, and in part taken over by the state.

Saccharine is permitted to be used and used as a substitute for sugar in the government manufacture of the purest of saccharine and sugar "State Sugar," which is largely produced in Germany.

German Sugar Ration Adequate Germany, before the war, produced a great surplus of sugar and exports large quantities. Today the Germans have virtually gone out of the business, but have plenty of sugar for home use.

Wholesale prices prevalent in Allied nations, according to information received by the United States Food Administration are as follows: Beet sugar, 10 cents a pound; Cane sugar, 11 to 12 cents.

Wholesale prices are 25 cents a pound for the American sugar. The price of the sugar is 25 cents a pound.

## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spill of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. Cardui had a good effect. I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

## TAKE CARDUI

the Woman's Tonic

She writes further: "I am in splendid health... I owe it to Cardui, for I was in a dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health. Mrs. Spill. Give it a trial.

The Baptist meeting closed Sunday night. Bro. Nichols who has been holding the meeting used to be well known in this country, but not as a preacher. He is one of the most earnest men who has ever been in our community. The men who used to know him in his "poker" days were greatly touched by his sincerity, and believe he makes the Lord just as good a servant as he used to make for the devil. He begins a meeting next Friday night at Pioneer, and a large number of the Sabanno and Liberty people expect to attend the meeting there.

Aeroplanes as yet are far from being frequently seen in this country, and this coupled with the fact that the Allies are doing wonders in the air service, makes their appearance here an occasion suitable for an interesting and patriotic celebration and novel. The greatest attraction our little town ever witnessed was the aeroplane flights at our annual picnic two of three years back. At that time airships was a rarity indeed, but now it is as common as birds in the cities where the aviation camps are located, but still far from common here. Besides, it is so closely associated with giving the arch enemy of civilization, Germany, thrashing, that most of us pay homage to the aviator. A few days ago, so it is reported there appeared over a certain near-by town a small cloud, which is something of a novelty itself. Good fortunes come not in single file, and behold circling round this harbinger of the approaching end of the drought, three masters of the air, some four thousand feet removed from this terrestrial sphere. How nice of aviators to stop over a small town and let all see what otherwise they would have to travel miles to witness. The whole street population, including visitors, with mingled curiosity and patriotism, posed as best they could to witness this feat given likely for their benefit. They evidently were looking for their bearings or were just maneuvering for the interest of the spectators. Many an eye was wet either from emotion or from the effects of the sun and perhaps from both. What embryo heroes? What might they not do on the Western Front in a few months? Perhaps one of these three should bomb Berlin! Some Cromwell of the air, now inglorious, no doubt then over-head. One of them makes the great dive. What do you call it? One fellow who is a little nearer the etherial bliss than the others, cries, "Bazzoo!" It was like a dream. Was the town dead? The town was the Cross Plains, but one of the boys was our old mer, who repeats the story.

## SHARE OUR SUGAR WITH THE ALLIES

British Get Two Pounds a Month  
French Pound and Half  
Italians One Pound.

## GERMAN SUPPLY PLENTY

All Nations Permit Use of Sweetener for Home Preserving Purposes

America's new sugar ration of pounds a month per person is ample when compared with the ration enforced by rigid government order in England, France and Italy, nations with which we are sharing our sugar consumption—in the most sugar possible equal terms the hardest imposed by greatly altered conditions in the world sugar situation.

Formerly classed as a luxury, it is now a war time essential. The and just division of this essential in the hands of the various allied food controllers.

The United States Food Administration has asked this nation to share a voluntary sugar ration of pounds per person a month.

In the other countries at war Germany sugar is one of the articles on every menu—the households of both rich and poor in the hotels.

England today has a sugar ration of two pounds per month per person in France the ration is a pound a month and in Italy it is one pound a month. And the prices in all three countries are from two to three times as high as in America.

If you go to a hotel in England France these days and order to coffee they serve absolutely no sugar with it. If you want sugar you bring it with you.

In England it is allowable to one-seventh of an ounce of sugar in the preparation of each luncheon. France many persons carry little chocolate tablets about with them use in hotels and in England rich poor must take their sugar with them if they wish to have sweetened while visiting friends.

Before the war started France had 625,000 acres devoted to sugar production. By 1917 the French sugar acreage had decreased to 130,000 acres. Today the French man or woman with a sugar card has no assurance what that he or she will be able to get any sugar. To buy it, one must find it.

Italy Has "State Sugar."

Especially drastic regulations in the use of sugar in Italy. Its manufacture, distribution and sale are controlled, and in part taken over by the state.

Saccharine is permitted to be used as a substitute for sugar. The government manufactures a pure of saccharine and sugar of "State Sugar," which is largely used.

German Sugar Ration Adequate

Germany, before the war, produced a great surplus of sugar and exported large quantities. Today the Germans have virtually gone out of the business, but have plenty of sugar for home use.

Wholesale prices prevalent in Allied nations, according to information received by the United States Food Administration are as follows: England, 10 cents a pound; France, 15 cents a pound; Italy, 25 cents a pound.

## INVESTMENT PAYS LARGE DIVIDENDS

"What are you grinning about, Bill?" asked Sam, as the two friends met in front of the postoffice. "Did you find an oil well out in your field, or did a rich uncle die and leave you a million or so? Why all the happiness?"

"I've just gotten news that an investment I made turned out fine," enthusiastically replied Bill, "and I am as happy as an elected candidate. Wouldn't you be feeling pretty good if you had gotten that kind of news?"

"What kind of an investment was it?" Sam wanted to know. "Land? Cotton?"

"Not exactly," Bill said. "Didn't you read the paper?"

"Yes," but I didn't see anything about investments," declared Sam.

"Well, didn't you read the war news?" asked Bill. "Didn't you see the great news about the Americans and the French knocking the spots out of the German lines? You must have seen that list of prisoners and guns captured and the territory we gained."

"Oh, sure I saw that, and it looked mighty good, but what's that got to do with your investment?"

"Why, that's the investment. That's what I'm feeling so good about. I put my money in those boys, Sam, and I'm getting my money's worth," Bill replied.

"What do you mean? Invested in our soldiers? I don't get the point," said Sam, looking puzzled.

"Of course you see it," answered Bill. "I invested in our boys by lending my money to the Government. I bought War Savings Stamps, put a wad of the money my cotton and peanuts brought me in them. I paid my W.S.S. Pledge and the Government put it in bayonets, rifles, cartridges and food and told those old huskies over there to do the rest. They are doing it mighty well, too. Those Germans are running over themselves to keep out of the way. My War Savings Stamps are helping lick 'em and in just a little while the Government will give me back my money with interest. Sure I'm happy over my investment. Come on, let's go down to the bank and pay our W.S.S. Pledge so you can get in on the next big drive over there."

"I'm with you," declared Sam, fingering his pocketbook.

PROSECUTED FOR INTERFERING WITH W. S. S. CAMPAIGN

AUSTIN AMERICAN, THURSDAY MORNING, JULY 25, 1918

TWO YEARS PRISON TERM IS SENTENCE OF J. R. WUTRICH

Verdict of Guilty Against Man Who, Interfered With Thrift Stamp Sales at Cedar Valley

When the Federal District Court convened yesterday Deputy Clerk A. S. Coffey handed up to Judge Watts the sealed verdict of the jury in the case of J. R. Wutrich, Cedar Valley farmer, tried the day before on a charge of performing acts and making utterances calculated to interfere with the sale of United States Government securities. The acts and utterances complained of were proved to have taken place at a War Savings Stamp Campaign meeting held at Bear Creek schoolhouse, Hays County, the night of June 28.

The court told Clerk Hart to read the verdict which pronounced Wutrich guilty. Judge Watts then sentenced Wutrich to two years imprisonment in the Federal prison at Fort Leavenworth, Kan.

Whenever a person is arraigned before him on a technical charge, the Judge carefully considers the case and if a decision of guilty is reached, he fines the prisoner and requires him to invest the amount of the fine in War Savings Stamps.

"The best way a man can help his country and himself is to buy War Savings Stamps," declares the Texas magistrate. This court believes in giving a start in the right direction—personal economy.

By the way, Mr. Business Man, are you backing up those home boys who are in the service or are you backing off from them?

Is your place of business a War Savings Stamp Sales Agency? Do you keep W.S.S. on hand all the time? Do you try to sell these bonds for the Government?

Can you look the fathers and mothers of these boys squarely in the eyes and say you are doing everything you can to help them? There are a good many stars in the windows of your town. Some of them are going to be turned to gold by a Hun bullet. Do that make any difference to you?

If you are interested in your county, if you care for those boys, then keep War Savings Stamps in your store and sell them.
