## Local Firefighters Busy With 2 Fires

Last Saturday morning at 11:30 the Cross Plains Volunteer Fire Department was called to the Clovis Simons home, where a mobile home located behind the Simons residence was blazing. No one was living in the home, as Mr. Simons was salvaging parts for another trailer. Cause of the fire was unknown.

Another alert at 3 p.m. took the volunteers to the Rickey Carrouth place,

southwest of Cross Plains, where approximately 60 round bales of hay were destroyed. Flames were reported to have gotten dangerously near some equipment, also. The hay smoldered for two days.

Smoke from this fire could be seen for miles. The hay belonged to Andy Sanders.

## Make Valentine's Day Even Sweeter

Tuesday, February 14 is Valentine's Day. What better day to say, "I Love You", "Be Mine", or simply, "Just Because"? The Cross Plains Public Library can help with communicating those sentiments with sweets for the sweet. The first library bake sale of 1995 will begin at 8:00 a.m. on Valentine's Day and last until everything is sold. Home baked pies, cakes, cookies or bread would be a special treat for a special Valentine.

Proceeds from the sale are used for library necessities, such as materials for processing books and utilities. Anyone wishing to participate in the fund raiser may bring cakes, pies, cookies, or breads to the library on Monday afternoon, February 13 or on Tuesday morning, February 14. Someone will be at the library by 7:30

a.m. to take the baked goods.

## "Get Acquainted With Vanessa"

By JOE COPPINGER

On Thursday, February 16, at 7 p.m., there will be a meeting in the high school library so that interested people will have the opportunity to get acquainted with Vanessa Kimmel. Vanessa is one of our local high school students who has a highly unusual gift for writing. She was recently selected to participate in the Washington Journalism Conference in Washington D.C. where she will have the privilege of rubbing shoulders with those who are making and those who are reporting much of the news we watch daily. The conference is sponsored by the Congressional Youth Leadership Council.

The only thing standing in her way is the funding needed for the conference. All are invited to the February 16 meeting regardless of the ability to contribute toward this need.

Joe Coppinger, Vanessa's English teacher, will read some of her writing that have been turned in as assignments this year. Also to be read is a story Vanessa wrote when she was a student at Snyder Junior High School. This story was published in a national journal and is the basis for her invitation to this conference. If you enjoy reading and appreciate young talent, this meeting is an absolute must for you. Don't miss it!

## Valentine Parade February 11

The greatly-anticipated Annual Miss Valentine Parade is scheduled for Saturday evening, February 11, at 7:00 p.m. at the Cross Plains School Auditorium. The event involves young ladies and their escorts in kindergarten through eighth grades enrolled in Cross Plains Public Schools. It is sponsored by the local Alpha Rho Zeta Chapter of Beta Sigma Phi Sorority.

Entries will be presented and awards given in five divisions. There will be first, second and third places in each division; with a trophy awarded to first place, and banners to second and third.

Girls are evaluated on personality, poise, and appearance by five out-of-town judges. Personal interviews with two judges will be held on Friday during practice sessions with each girl. Three different judges will be present Saturday evening for the parade. All scores are tallied for the final count.

"Light the Way" is this year's theme, in keeping with the Sorority's International theme. The members of Beta Sigma Phi certainly do "Light the Way" as they spend much time and energy to present this Valentine Parade to the community.

The event is a major fund-raising project for the sorority. They, in turn, give back to the community by contributions to many organizations, families, and individuals in need.

Just as important as funds raised, they feel that the Valentine Parade contributes to the girls and boys participating a sense of importance and self-worth. "Everyone is BEAUTIFUL and everyone is a WINNER" is always emphasized throughout the entire process of practices, interviews and the Big Night!

Admission is \$2 for Adults and \$1 for

children and students. The public is invited and encouraged to join the enthusiastic participants for a night of fun and entertainment at the 1995 Miss Valentine Parade.

## Signup Period For Producers Announced

WASHINGTON—Acting Secretary Richard Rominger announced today that the signup period for producers wishing to participate in the 1995 commodity production adjustment and price support programs will be January 30 through April 28, at county offices of the U.S. Department of Agriculture's Consolidated Farm Service Agency. Purchase of crop insurance is required for 1995 program participation, and the deadlines for purchasing crop insurance are earlier than program signup deadlines.

"Producers must purchase at least the catastrophic level of crop insurance coverage to qualify for farm program benefits on a crop if insurance is offered for that crop in the producer's county," Rominger said. "Also, producers need to be aware that, in nearly all instances, deadline dates for purchasing crop insurance occur before the end of commodity program signup."

"Passage of the Clinton Administration's Crop Insurance Reform Act boldly revamps the way Washington responds to crop disasters, saving taxpayers \$150 million over the next five years," Rominger said. "A system that was previously considered a disaster itself, riddled with redundancy, too costly and inefficient, is now streamlined and affordable to all producers and ranchers seeking an economic safety-net for disasters."

An estimated 251 million acres of farmland are eligible for crop insurance in the United States. In 1993, 84 million acres - or 33 percent of acres eligible for crop insurance--were insured. In 1994, 100 million acres--or 40 percent of eligible acres--were insured. Because of the Crop Insurance Reform Act, the

projection for 1995 doubles the number of acres insured to 200 million acres--or 80 percent of acres eligible for crop insurance.

While catastrophic insurance can be obtained from county CFSA offices, Rominger urged producers to carefully examine the benefits of additional coverage offered through local crop insurance agents.

"Enactment of the Crop Insurance Reform Act last year effectively transferred risk management from the old ad hoc crop disaster programs to producers themselves," Rominger said. "It is, therefore, very important that producers fully inform themselves of their options for risk management coverage and the linkage of crop insurance to eligibility for program benefits."

Rominger also announced projected deficiency payment rates for 1995 program crops. "Producers must have this information to be able to more accurately project their estimated cash flow for 1995," he said.

The rates are as follows: Wheat, 70 cents per bushel; corn, 40 cents per bushel; grain sorghum, 39 cents per bushel; barley, 40 cents per bushel; oats, 10 cents per bushel; upland cotton, 3.4 cents per pound; rice, \$4.21 per hundredweight.

Rominger said the percentage of advance deficiency payment rates will be announced at a later date.

Producers should contact their county CFSA office or crop insurance agent for further information. Or farmers may call USDA's Crop Insurance Reform Hotline toll free at 1-800-749-7774 or TDD 1-800-884-7797 for further information.

**Is It The Flu? Or A Cold?**  
Dr. Walter Wilson of the Mayo Clinic gives us these tips on knowing the difference.  
Colds: Sore throat, running nose and almost never a temperature above 101 degrees. Washing your hands is the best way to prevent catching or spreading colds.  
Flu: Fever, chills, body ache come on suddenly. Flu is spread through the air so try to minimize contact with those with the flu, especially children.  
Your better health is our concern.

A new endoscopic technique has been developed to correct heel pain caused from Heel Spur Syndrome. "Unless we have within us that which is above us, we will soon yield to that which is about us — and belong to the one below us!"

Influence from and influence of that which is about us is a very powerful force isn't it?! It can be for good — or it can be for bad. Since the world is, by and large, worldly, we must be keen to not yield to its temptations and influence. Unless we have within us HE who is above us, we will soon yield to that about us — and belong to the one below us!

I am told that once a steel bar weighing five hundred pound was suspended by a very delicate chain. A bottle cork, suspended by a silk thread, was swung repeatedly against the eight foot long steel bar. At first the bar refused to budge — but at the end of a mere thirty minutes of constant striking by the cork, the bar began moving, then swinging like the pendulum of a grandfather clock!

There is something about having some "weight" in resisting that which is about us — it is the having "that which is above us" within us — but if we're not very careful, even then the constant bombardment by "that about us" will make its effect. We must, therefore, increase our "weight" constantly in order to offset the "constant striking of the cork."

Never underestimate the power of influence — both for good and/or bad. Paul said, "Do not be deceived: Evil company corrupts good habits." 1 Corinthians 15:33. Let us be good influences and resist the bad ones — otherwise we might belong to the one below us.

Come join us in being strengthened in the Lord. We really do care about you, too.

Friends & Neighbors Caring In Jesus

## MINUTE MUSINGS

By ESTHLOY S. DICKSON

Here we go with our weather report and it is a good one. The sunshine is always a welcome sight. There is only a light wind and we won't knock it. It is carrying away some of the leaves still out there.

The Sewalt Butane man gave me a 'humorous quirk' 'tis last week. When he had filled my tank, he came to the door with the statement. He said "I brought you a load of stove wood this morning." Since I was reared in the country where we used 'stove wood', I recalled how my father and brothers prepared the wood for our stoves and fireplace. They knew exactly how the sticks were used in the house, and cut them at proper sizes.

Sally Roady is doing quite well. Somewhat improved from last week. I hope she will soon be entirely well. They were in our church on Sunday morning. Bob is in the church choir. They visited in Abilene with Art and Bertie Roady. They talked on the telephone with Cindy and their children (in Missouri).

Betty Beggs is always such a gracious neighbor. She reports that Mrs. Mack Taff of Pioneer visited her on Friday. On Saturday, Mr. and Mrs. Rusty Beggs of Amarillo, also Mr. and Mrs. DeWayne Jones of Copperas Cove, and baby daughter, Jordan, were with them. Mr. and Mrs. Sam Beggs of Morton Valley visited her during the week.

My daughter, Joan Elizabeth, called one day last week. She expressed her concern for me and my health situation. She thinks that I don't 'eat properly'. I have tried to assure her that I do follow a normal diet, and that I have 'no aches or pains'. I'm grateful for my good health.

## Buffaloes Have Tough Week

By BILL BOYD

Although the Cross Plains Runnin Buffs have clinched a playoff spot this was a very disappointing week. The Buffaloes were soundly beaten Gorman 71-48 and lost to Eula 50-47.

The Gorman game we played in spurts and never showed the all out effort which has made this team be successful. Donnie Dillard led the Buffaloes with 13 points and 5 steals. Matt Reed had 10 points and 13 rebounds, Brock Walker had 10 points and 5 assists. Jeremy Barnett showed signs of healing from his injury contributing 8 points.

We had a tremendous first half at Eula and could not buy a break in the second half. Brock Walker led Cross Plains with 19 points and 5 assists. Matt Reed had 10 points and 8 rebounds, Donnie Dillard was the leading rebounder with 13. Porcius Potter came off of the bench to give us a lift with 7 points and 8 rebounds.

Our playoff opponent in Bi-District will probably be May. This will be a rematch

of last years area game. We will play some warm-up games and those are being finalized as you read this. In the next two weeks we are going to work hard and try to get better in some areas that we are not very good at.

Our J.V. dropped two games this past week also. Losing to Gorman 41-28 and Eula 52-25. In the Gorman game Dusty Hargrove had 17 points and 8 rebounds. At Eula Jarad Richards led the Buffs with 9 points all from the 3 point arc. We will be moving up one or two of our J.V. players to varsity so they can get some playoff experience.

The playoffs are just around the corner and these kids need your support. I really feel like with hard work and 24 hour dedication this group has an excellent opportunity to win some playoff games. Although this last week was probably one of the most frustrating of my coaching career. I still have a lot of confidence in these young men. See you at the gym.

## Interested In Being A Congressional Page?

WASHINGTON, D.C.—High school sophomores interested in serving as Congressional Pages for the 1995-96 school year can now apply to Congressman Charles Stenholm's office.

Eligible students are those who reside in the 17th Congressional District, will be juniors in September 1995, and have a "B" average in four major courses, excluding electives.

"The congressional Page program offers young people a unique opportunity to see how Congress works," said Stenholm.

The pages perform a variety of duties, including delivering correspondence or small packages to offices within the Capitol complex, answering telephones in the Members' Cloakrooms and the Page Phone Banks, and taking messages to Members. The pages work on a rotation system so they all have an opportunity to experience all aspects of the job. The work does include a monthly salary, which covers basic living expenses.

School remains a part of the page's life because pages do study junior level curriculum at the U.S. Capitol Page School in the Library of Congress. Students are expected to maintain at least a "B" average while serving as a page.

Dormitories are located on the capitol grounds. Pages are supervised while in their quarters, which are guarded by the Capitol Police, 24-hours-a-day.

Congressman Stenholm will not be the page's employer, nor will he have daily contact with the page. Pages all answer directly to the Director of Page Services.

The deadline to apply for a page position is February 14. Applications will be forwarded to a Selection Committee who will notify finalists by March 8. Interviews will be conducted in Abilene on March 18 and pages will be selected on that date.

Application forms and additional information are available from the congressman's Abilene office at 915-673-7221.

## Reporting Changes In Living Arrangements For SSI Purposes

Do you know that if you receive Supplemental Security Income (SSI), you have a responsibility to report changes in your living arrangements to us? This is not difficult at all. All you need to know is what to report, when to report, and how to report.

The changes in your living arrangements you need to report include:

- ◊ If you move or change your address;
- ◊ If someone moves into or out of your household, someone in your household dies, or if someone in your household has a baby;
- ◊ If you enter or leave a residential

institution, hospital, skilled nursing facility, nursing home, intermediate care facility, halfway house, jail, prison, public emergency shelter or any other kind of institution; and/or

- ◊ If you leave the United States.

You must report a change in your living arrangements within 10 days after the month it happens. You should report a change even if you're late. If you don't report a change, you may miss out on money you need if the change will mean you can get a bigger check, or you may get too much money and have to pay it back.

If you don't report a change or if you make a false statement and get money you aren't supposed to, Social Security will make you pay back the money. You may also have to pay a fine, face imprisonment, or both.

You can make your report by calling Social Security's toll-free number, 1-800-772-1213, from 7 a.m. to 7 p.m. any business day. The best times to call are later in the week and later in the month to avoid busy telephone lines.

You can also report by mail or in person. If you mail your report, be sure it shows:

- ◊ The name of the person the report is about;
- ◊ The Social Security number of the person who gets the SSI checks;
- ◊ The change being reported;
- ◊ The date the change happened; and
- ◊ Your signature, address, and phone number.

## Board Of Health Adopts Statewide Rabies Quarantine

The Texas Board of Health today approved emergency rules designating all Texas counties as a quarantine area to prevent the spread of rabies. The quarantine, effective immediately, forbids the transport of potentially infected animals within or from the state.

"We must act quickly to contain the threat of rabies—now rampant in South and Central Texas. We must do this to minimize the number of animal rabies cases and reduce the threat this deadly disease poses to people," Dr. David Smith, Commissioner of Health, said.

He explained that the board took action following reports of the exportation of coyotes and foxes, including some infected animals, to other states.

"We know that South Texas coyotes have been shipped out-of-state to stock hunting clubs. And just this week we learned that two of four foxes shipped from Texas to Montana have been confirmed with rabies. This is a dangerous situation—one which can spread rabies beyond the point of our ability to control it," Dr. Smith said.

Similar transportation of potentially infected animals exists within Texas, but the extent is unknown, he added.

"This situation is similar to the raccoon rabies outbreak in the eastern United States. When it began in the 1950s, it was considered a local problem. Another outbreak began in the 1970s in Virginia, after infected raccoons were shipped from Florida to hunting clubs there. Now the entire East Coast is battling a raccoon rabies epizootic," Dr. Smith said.

Animals subject to the quarantine are dogs and cats over 3 months old without a current rabies vaccination certificate, hybrid animals—such as domestic dog-wolf crosses—and wild animals at high risk of rabies—such as skunks, bats, foxes, coyotes and raccoons.

In South Texas, a canine rabies epizootic (an epidemic in animals) began in 1988 in Starr County and rapidly moved northward, now including at least 18 counties. Canine rabies is a strain of rabies virus that has become established in coyotes and is readily transmitted from coyotes to domestic dogs and, subsequently, between domestic dogs. Because it often infects domestic dogs, this rabies strain poses a greater risk for human exposure.

From 1988 through 1994, some 530 cases of canine rabies were confirmed, primarily in coyotes and domestic dogs. During this period, about 1,500 people in South Texas were exposed to rabies and receive treatment. In recent years, two Texans died from canine rabies—a Starr County woman in 1991 and an Hidalgo County boy in November 1994.

The Texas Department of Health (TDH) is planning an air drop of coyote bait containing oral rabies vaccine in

hopes of stopping the spread of the South Texas epizootic. The air drop follows extensive development of the oral vaccine and delivery system. Set for next month, it is unprecedented in this state.

In 1994, a fox rabies epizootic in Central Texas resulted in 270 cases of this virus, primarily in foxes. Another 247 cases were reported from 1987 through 1993.

Gray fox rabies is readily transmitted to raccoons and livestock, especially cows and goats. It may also be transmitted to cats and dogs. More than 300 persons from the gray fox rabies epizootic area received treatment for exposure to this rabies strain in 1994.

TDH will place warning signs about the quarantine in post offices and other high-traffic areas throughout the state. Local health officials and animal control officers will also be asked to help enforce the quarantine. Violation of the quarantine is a Class C misdemeanor.

## Greeting From Your Senior Citizens

By THELMA LONG

Game day was a lot of fun on Friday. We give Faye Jackson Credit for winning. We laugh a lot, so join us next Friday for fun and games. The pool table was also a busy place on Friday.

We still have quite a number who are sick. Faye Jackson has been out sick but is able to be back. Ruby Harrell remains at home, not feeling well. Vera Pearl Burnell had to go back to the hospital. We all care about Vera Pearl and we miss her. Minnie Swan had been in the hospital, August Gartlitz remains with his daughter, but at last report he was better, Paul Greenwood is recuperating from surgery. Marie Dillard is back after undergoing surgery. Frank Rone recently had laser done on his eye in Fort Worth. Earl Mosley was out of town for a few days.

Helen Freeman's sister from Henderson, visited Helen, an enjoyable time for both of them.

Friday was Fannie Bowden last day with us. She is moving out of town. We will miss her, but wish her happiness in her new home.

How do you like our weather? Summer one day and winter the next day. Soon it will be time to start our gardens and yard work. The little daffodils are ready to burst into bloom. For me, I like spring better than any time of the year.

Be still and listen.
