Water usage within the city

The Cross Plains area needs

By Freeda Burkett

The Burkett water supply has been a very serious issue here the past several months. The rain we got a few weeks ago helped, but the amount bers of our Burkett Water Supply Board have worked hard, including Jack Strickland, Bill Davee, Ebb Jennings, L. Mountain, D. A. Boyle, Ed Rasbury, J. L. Golson, W. V. Adams, Leonard Long and C. H. Barnett, however, two of them along with the others have resigned for personal reasons but they, along with the others, have done everything to keep the water flowing through the lines. They have completed two shallow wells along the Bayou bank that has been supplying water for the past several weeks, but they are weakening. These men are now having a deep large hole dredged, out with a drag line and sinking a large plume in the water-laden gravel and a pump will be connected with it that they have hopes will furnish water for some time, that is, as long as the gravel contains water. In the meantime the water board directors have asked everyone to conserve what water we have by using it for household use only. They urge everyone to comply with this request strictly until they lift the ban.

Donations to the Burkett-Adams Cemeteries during the month of June amounted to \$492.00. Following is a list of donors: Claudia George, and Preston Burkett each \$5.00; Nathan and Opal Oliver, Phelix Watson, Mrs. Maurince Parsons. Buel Evans, Gertrude Wilson. Mrs. Madie C. Edington Weelle Jr., Melvin Brown, Mrs. Hattie Woodard, Mr. and Mrs. Clayton Verner, and Lon Gray \$10.00 each; Ralph Prentice \$7.00; James L. Golson, Robert L. Cross \$15.00 each; Jim H. Coffee, Elbert Campbell, Henry J. Fox, B. C. Porter, Ruby Hinesly, and Velma Byers \$20.00 each; Gordon Chambers, Carson Walker, Sammie Porter, J. T Sheppard, Hulan Harris, Tommie Connelly, and S. Jeanette CLYDE SAILOR DRAWS Smith all \$25.00 each; and Virgil Adams \$50.00.

LOCAL RURAL FIREMEN AID IN PASTURE FIRE SUNDAY

Eight members of the rural division of the Cross Plains Volunteer Fire Department helped in combating a stubborn pasture fire between Rising Star and May, mile or two west of U.S. Highway 183. An estimated 300 to 500 acres

were blackened in the rough terrain. Local firemen fought the blaze about four and a half

Other depatments helping were Rising Star and Early, two trucks each, Brownwood and May.

The American bison was one of the first endangered species to be rescued from near extinc tion, reports National Wildlife magazine. Its population has risen from 551 in 1889 to about 10.000 today.

Microwave Radio

It helps us give you a better bottom line on your phone bill.

Microwave radio systems are costly for a telephone company to buy and install. In certain areas, however, they help Continental do a better job for less money. And these savings are reflected in the rates you pay for telephone service These systems can transmit hundreds of phone conversations at the same time, relaying them instantly from one telephone exchange to another.

Special equipment scrambles your words into radio signals for the transmission, then re-scrambles the signals into words at the receiving exchange

Conversations between the exchanges and your telephone set are carried by conventional ies, of course, and have the cianty of sations carned all the way by wire.

By using microwave systems, we can provide good phone service to customers in remote rural areas where it would be much too expensive to install many miles of lines and

Service rates throughout our system are based on our costs of doing business throughout our system Microwave radio is one of the ways we're doing our best to do more for you

In the early 1900's, a concrete solution was needed to prevent flooding along the Colorado River. The Hoover administration provided it. 4,400,000 cubic yards' worth. Enough concrete to pave a two-lane highway between New York and San Francisco.

It was the Hoover Dam at Boulder City, Nevada.

And it not only controlled flooding and irrigation, but today it generates power for Southern California, Arizona and Nevada.

The cost: \$385 million. And one of the ways money was generated was by Americans buying government securities and taking

stock in America. Today, you can take stock in America by buying United States Savings Bonds. It's easy when you join

the Payroll Savings Plan. That way, a little is automatically set aside from each paycheck to buy Bonds. Before you know it, you'll build up a nice reservoir of savings.

So buy Bonds. It's one savings plan that holds water.

HINTS FOR ADVERTISERS

When you next call The Review, 725-6111, to place a classified ad, remember that words are your business. Words properly put together in an ad mean more phone calls and more sales for you. Follow the rules below and get more and faster results.

1. Put in the address

Many out-of-town readers will write you, but will not spend money for a long distance call.

2. Put in the phone number

Many readers will call you but will not find it convenient to come to your home or business.

3. Avoid use of blind boxes

Avoid them if possible. They are difficult to answer and people prefer to deal directly.

4. Put in the price, by all means Surveys show that many people will not answer an ad unless the price is given.

5. Keep the readers from guessing On important details it is better to include them if they are relevant to a sale.

6. Be available

If you advertise your phone and address, be sure you are not absent when the ad appears so as to accommodate the reader.
