

"Nothing but the United States' mint can make money without advertising"

The Cross Plains Review

Without offence to friends or foes we sketch Cross Plains exactly as it goes.

VOL. XXII 4 PAGES THIS WEEK CROSS PLAINS, TEXAS, FRIDAY, JUNE 16, 1933 5c PER COPY No. 24

CITY BEGINS WORK ON GAS SYSTEM

HOME TOWN GOSSIP

Here's something to meditate about. Cross Plains is more than 400 miles from any prominent body of water, yet we are to have a 'sea-side' cafe. If tenderloin trout and tartar sauce are not too expensive somebody may lose a good chili customer.

A fellow worth watching is Harve Keller. He started trading on 10 bucks here several months ago and can now produce a role of currency large enough to choke an ox at any time.

Maybe you've wondered why S. Freeman and Trnett Lovelace always wear white shirts and black ties while working. It's a regulation of their company.

The size of the Review is a little bit under normal this week but so was the editor's energy and ambition. An attack of 'Summeritis' prevented our hustling things as usual. But next week we promise you a Review worth the money and chucked full of interesting surprises.

J. F. Kelly, Jr., and Socrates Walker are engaged in a very interesting contest at present. Its hard to tell which will win but one thing is certain, Luke Westerman's light bill will certainly be higher as a result.

Our nomination for the cleverest crack of the week goes to Carl Slaughter. Tuesday, he said to us: "It amuses me how some people can always talk hard times and depression, yet go as dressed up as a new wax doll. Incidentally, he wasn't referring to us. Far be it from us to discuss depression. Prosperity is our topic."

Now that the school teachers are away and most everyone is leaving on vacations, we would like to trade jobs with Ike Kendrick for a few weeks. What a kick we would get out of reading all the postcards. Its an even bet that two-thirds of the vacationers, who write back, say simply this: "Having a great time wish you were here".

Nat Williams looked 'sorta' lost the past week loafing about town. His family is away and apparently Nat just couldn't keep himself busy.

ENTRIES COMING IN FOR COUNTRY CLUB GOLF TOURNAMENT

Entries are already being received for the Phil Pe Co country club invitation tournament June 23, 24 and 25. Indications are that several of West Texas most prominent public welders will be on hand to participate in the competition.

M. S. Sellers, general chairman of all tournament committees, informed the Review Tuesday night that he expected the invitation tournament to be the biggest thing of its kind ever staged by the local club.

Entries have been received from Ranger, Brownwood, Abilene, DeLeon, and Breckenridge, according to information received at the Review office.

Local Man Accepts Position At Alpine

Mr. and Mrs. Murman McGowen and family left Tuesday for Alpine, where he accepted a position the past week as manager of a grocery store.

Miss Anita Henkel of Wheaton, Ill., and Mrs. W. E. Hoskinson, of Norman, Okla., visited their brother J. E. Henkel and family Thursday of last week.

Mr. and Mrs. Arlie Brown visited in Stephenville over the week end.

Highway 36 Looms As A Reality

FARMERS, RANCHMEN AND BUSINESSMEN TO MEET MONDAY NIGHT

Funds Available From Federal Government To Build Road Without Local Cost

Temporary surveys on highway 36, from the Gulf Coast through Cross Plains to Abilene, began Thursday morning and those familiar with the project informed the Review yesterday at noon that possibilities of the road actually being constructed were highly probable. A recent law passed by the federal government would pay for the road. The only obstacle facing local citizens is that of securing a 100 foot right of way from here to the Western portion of the county line.

20 business men and interested individuals met in the high school auditorium Wednesday night and formulated plans to begin work on the securing of right-of-way immediately. T. N. Carswell, Abilene Secretary of Commerce, was present and interpreted the recent federal relief measure to the group and pointed out the possibilities of highway 36 becoming a United States designated road, as important as the Bankhead—federal highway 80.

At the meeting Tuesday night George R. Neel, Porter J. Davis and C. C. Neeb were named as a committee to choose a secretary for the local highway organization and begin immediately upon the securing of right of-way.

Another meeting will be held in the high school auditorium Monday night and those interested in the project are endeavoring to secure a good representation of farmers and ranchmen to be present.

Federal funds are available for the purpose of building 'farm to market roads' and it has been estimated that Callahan County's share of the allotment would be about \$20,000. None of the money is to be paid back.

A delegation of local citizens attended a mass meeting in Comanche Thursday morning, where the highway boom is also receiving generous support. Those making the trip from this place were: F. R. Anderson, Jesse McAdams, George Clifton and E. D. Priest. Mr. Carswell, who spent the night here Wednesday, also made the trip with the group.

Although nothing definite is yet known where the road would be located it is understood that it would follow highway 23 out of the city limits Westward to the W. E. Butler filling station and grocery and go straight West from there.

The next meeting to discuss the highway and make preparatory arrangements will be held in the high school building Monday night and the entire public is being invited to be present.

COTTONWOOD BOY IS HOME FROM MISSOURI UNIVERSITY

Lewis T. Nurdyke has returned to his home at Cottonwood from Columbia, Missouri, where he was graduated last week from the Missouri University School of Journalism.

Geo. Lamar, J. C. Huntington, Walter Westerman and W. A. Williams attended a chapter meeting in Rising Star Tuesday night.

John Salmon of Fort Worth was a business visitor in Cross Plains Tuesday.

Mr. and Mrs. Drew Baum and son visited her mother, Mrs. R. L. Bell over the week end.

Mrs. H. T. Schooley of Ranger visited Mrs. Ed Schaffner Monday.

Great Britain Publisher Asks Cross Plains Author For All Manuscripts

The writing of Robert E. Howard, of this place, have reached across the ocean, invading England with a storm of popularity.

One of Great Britain's largest publishing concerns recently made request for his future works and even offered premiums on scores of articles and stories that had been published in this country.

Dennis Archer, Publisher (The Search Publishing Company) at London has asked the Cross Plains author to submit a collection of his stories formerly published in various magazines, with the view of bringing them out in book form. This company is incorporated under the Royal

Charter of England and includes in its advertising catalogues the works of Anton de Bruyne, Michael Arlen, Brandon Fleming, Lord Dunsany and Countess of Warwick.

Robert Howard, who is the son of Dr. and Mrs. I. M. Howard, of this place, has been writing successfully and profitably for more than eight years. Stonestreet and Smith, publishers of no less than a dozen largest selling magazines on American newsstands, have printing his manuscripts as fast as they are turned out and are pressing him for more.

Almost every month he is featured by one of the publications on its cover page.

Despite the renown success with

which the Cross Plains author has already met, the recent offer of the England publishing company is perhaps the bright spot in his career of letters and bids fair to win him international prominence.

It has been a tradition among writers for decades that the hardest publications 'to crack'—sell stories to—were those in England. Robert Howard's recent success in this line and because of the fact that the Great Britain company solicited his articles places him in a class by himself. Other American novelists and freelance writers regard his recent achievement as accomplishing the impossible and will perhaps watch his career anxiously.

A. F. TATE EXPIRES MONDAY AFTERNOON AFTER LONG ILLNESS

A. F. Tate, 70, died at his home here Monday afternoon at two o'clock after an illness of more than three years. Death resulted from pernicious anemia. Funeral rites were conducted from the Baptist Church Tuesday afternoon, with Rev. Graves Darby, pastor, officiating. Interment was made in the Pioneer cemetery.

Abner Frank Tate was born February eighth 1863 in Gainsville, Georgia. He came to Eastland County as a young man. There, he was married to Miss Sarah Murphy. Six children were born to the union, four boys and two girls. Five survive and were present at the funeral Tuesday afternoon.

Mr. Tate was a church member for more than 61 years. He was first affiliated with the Methodist but late in life joined the Baptist due to the fact that the rest of his family belonged there.

Pall bearers were: John Rudloff, O. T. Laws, J. G. Saunders, Ben Pierce, Silas Smith and R. L. Penny.

SEALY HOSPITAL TO GRADUATE 6 NURSES TUESDAY EVENING

Prospects for advances in the price paid for crude oil here were regarded bright by oil operators, of this place, yesterday. A 10 cent hike is the quotation offered by one carrier in East Texas was expected to be met by pipeline companies serving this section.

INFANT BOY LAID TO REST HERE WEDNESDAY

Dalton Wade, infant son of Mr. and Mrs. Charlie L. Smith, was laid to rest in the city cemetery here Wednesday afternoon. Rev. Graves Darby conducted the funeral service. The child was born Tuesday.

MRS. F. A. LANE TAKEN TO SANTA ANNA HOSPITAL

Mrs. F. A. Lane was taken to the Sealy Hospital, Santa Anna, Monday morning for treatment. She is said to be suffering from adhesions. Her condition was regarded as quite serious yesterday morning.

Mrs. R. B. Forbes and son, Earl, of Arp, visited relatives and friends here Wednesday. Earl returned to Fort Worth Thursday where he has been for the past two months studying pharmacy.

FARM PRICES SHOOT UPWARD WITH WHEAT LEADING THE PARADE

Cotton, wheat, oats and barley were quoted on Texas markets the past week at the highest price the four commodities have reached this year.

Following advances registered on the national commodity markets, cotton was worth in Cross Plains Wednesday morning about 8.65, middling basis, fifteen-sixteenth inch staple. Wheat was listed at 60 cents, barley 28 and oats 23.

The cotton price was the peak offering made for that commodity since September 1932. Steady rising markets for all farm commodities from last November is bringing farm produce nearer the level of normal years, the Review was told by reliable sources here yesterday.

The first new wheat seen in Cross Plains was sent in Wednesday afternoon by H. H. McDermitt. It tested 60 pounds to the bushel.

FORT WORTH WRITER PICKS C. A. LOTIEF FOR STATE SENATE

Roscoe Fleming, political correspondent for the Fort Worth Press, in an article on the editorial page of his paper last week, selected Cecil A. Lotief, State Representative from this place, as a member of his honorary senate for the state of Texas.

The article is reprinted hereunder. "During the last few weeks of our purgatorial stay in Austin, I got an idea that grew almost into an obsession, and that was: What a grand idea it would be for the people of Texas to do something drastic about their state Senate."

"It grew very tiresome to watch the Senate killing good bills and progressive bills, and (as to certain Senators at least) walking around the capitol and up and down Congress Avenue, and huddling in the lobbies of the hotels, with the corporation lobbyists."

"I do not mean that the people should do anything cruel about their Senate, or should organize vigilante committees. But it seems a good idea for the people just to take a wet rag, so to speak, and wipe off the slate the political careers and aspirations of about half the members of that body.

"Just leave 'em at home with their railroad and corporation law practice, and their utter inability to conceive that the meaning of the words: 'New deal.' For you can take it from me, there will be no new deal in Texas as long as certain Senators are on the job."

"I will go a little further than that; I will say that a blind man could go down the list of House members, pricking it with a pencil and pick out a better Senate than the one we have now."

"Something happened to the House in the last two years. Maybe it was 87 new members; maybe it was that they live a little closer to the folks at home, and get down among the cotton and corn rows, and on the corner of Main Street, and have heard the folks talk."

"Whereas Senators may have been too busy in their law offices and their clubs and in their own little cliques, to find what Texas wants; or, if they have found out, their principal reaction to the people's desires or interests is on the order of: 'Naughty, naughty; baby mustn't have!'"

4,300 FEET OF PIPE AND METERS BOUGHT; LABOR STARTS MONDAY

"Installation Of System Is Certainty", Say City Fathers Thursday

"We expect work on a municipal gas system to begin here Monday morning", said members of the city council yesterday.

4,300 feet of three inch pipe were purchased the past week and will be delivered as soon as needed. Meters have also been contracted for and a trade is in the making for 45,000 feet of two inch pipe.

The materials that have been bought thus far have been with part cash and one year time on the balance.

"City Fathers" told the Review the past week that they believed that work on the system would actually begin Monday morning and that if citizens here remained loyal to the municipal company that it would be almost paid out at the end of 12 months. The municipal company plans to charge 50 cents for the first thousand cubic feet of gas with a graduated scale of reduction for more than that amount.

Engineers have reported that the source of supply from which the gas is to be taken, is adequate enough to supply a number of towns the size of Cross Plains for an indefinite number of years.

Labor on the gas system will probably be paid with gas, water, sewer and delinquent taxes script. The paper would be good for any of these purposes and would be negotiable. "We may be able to pay some cash with the script", said a member of the council yesterday.

The labor scale would be approximately \$2.00 per day.

JOHN N. GARNER IS INVITED TO ATTEND PECAN CONVENTION

Vice-President John N. Garner of Uvalde will be invited to attend the summer meeting of the West Texas Pecan Growers' association in Brownwood July 27. Mr. Garner, a pecan enthusiast, entered an exhibit at the pecan fair held in connection with the winter meeting of the association at Rising Star and won prizes.

H. G. Lucas of Brownwood, president of the National Pecan Marketing association, with J. T. McDonald and T. O. Hurst, both of Brownwood, are in charge of the program.

A REFRIGERATOR WITH SHELVES IN THE DOOR FOR EGGS, BUTTER, BACON, AND OTHER SMALL ARTICLES"

---at last CROSS PLAINS CITIZENS MAY ENJOY INEXPENSIVE REFRIGERATION

THE CROSELY ELECTRIC WITH ITS SHELVES IN THE DOOR SOLVES THE PROBLEM TO THE PROFIT AND SATISFACTION OF ALL—

A Happy Owner

READ BELOW WHAT A SATISFIED OWNER SAYS OF HER CROSELY—

I'VE wanted an electric refrigerator for a long time, but Jim and I just kept putting off buying although we knew we'd get one sooner or later.

One day I happened to see an ad describing the new Crosley refrigerator with the Shelvador. I showed it to Jim. We both thought it was the finest feature we had ever seen in any refrigerator.

It didn't take us long after that to visit the dealer so that we could see the Shelvador on display. I was as thrilled as could be. The moment I saw it I said, "That's what I must have."

Well, we have our Crosley now and you'd be surprised how much everyone admires it because I just open the door and there are my eggs, oranges, lemons, butter, bacon and other ordinarily hard-to-find articles right on the shelves in THE DOOR. Not a bit of searching. Everything is right where I can find it. One of my friends said it seems as though there is an extra pantry inside the refrigerator.

It's surprising, too, how much refrigerator space the Shelvador really saves. Why just the other day, out of curiosity, I emptied the shelves of the refrigerator and then took the food out of the Shelvador and placed it on the shelves I had just emptied. Would you believe it?—the articles I had in the Shelvador almost filled the refrigerator!

Maybe it sounds a little high-hat to say it, but, honestly, my friends' electric refrigerators look so hopelessly out of date when compared with mine. And Jim never gets finished telling everyone of the low price of our Crosley. He says most refrigerators are advertised at one price and then freight, installation, taxes and a lot of other charges are added. But our Crosley sold at the same low price advertised.

Of course, I'm not telling anyone what to buy. But if anyone wants a refrigerator that's up-to-date and costs little, I advise them to see the Crosley electric refrigerator with the Shelvador.

This Amazing New Feature—this Time Saver—this Space Saver—this Refrigeration Saver is Found Only in a Crosley—It Makes Other Refrigerators Obsolete—

Shelvador

Nowhere Else Can You Find These Features—a few points of excellence and advantages of the "Shelvador" found only in a Crosley—

Provides convenient storage space for eggs, butter, bacon, lemons, and other small articles.

Increase the usual capacity of the refrigerator by 50 per cent because in the Shelvador a lemon takes up only as much space as a lemon should, while on the shelves it utilizes as much refrigeration space as a bottle of milk.

Save current. Food is right at your finger tips in the Shelvador. Consequently the door is kept open for only a moment while you are taking something out of the refrigerator.

Saves time. Open the door of the refrigerator and there are the eggs, butter, bacon, etc., right before you in the Shelvador.

Saves foods. Tomatoes, peaches and other fruit which often becomes bruised by other articles being crowded against them on the refrigerator shelves, are protected in the compartments of the Shelvador.

Saves floor space and refrigerator space. Makes the smaller refrigerator larger by enabling you to utilize more of the refrigeration space inside the refrigerator. Thus it is possible for you to use a smaller size refrigerator.

WE HAVE A CROSELY SUITABLE FOR YOUR USE AT ONLY— **\$89.50**

FORTH WORTH WRITER PICKS C. A. LOTIEF FOR STATE SENATE

(Continued from page 1)

"I was expressing some such sentiments to some other legislative correspondents, and they pointed out that it was a little unfair to pick the best among 150 House members and compare them with 31 Senators. I hardly think so, particularly after sensing the Senate's hearty and haughty belief in itself. Anyway, I hereby submit a list of 31 House members who, in my humble opinion, would make a Senate not only better than the present Senate, but one 10 times as good."

"The name of Sarah Hughes of Dallas leads all the rest. The lone woman members came close to being the best man of the lot. Then, in alphabetical order:"

"Bob Alexander, Childress; Lon E. Alsop, Carthage; R. B. Anderson, R. W. Calvert, Hillsboro; Emory Camp, Rockdale; W. E. Clayton, El Paso; Albert K. Daniel, Crockett; Otis T. Dunagan, Big Sandy; John W. Fain, Weatherford; J. B. Ford, McGregor; Harry N. Graves, Georgetown; W. M. Harman, Waco; George C. Hester, Georgetown; Pat Jefferson, San Antonio; A. P. Johnson, Carrizo Springs; Cecil Lotief, Cross Plains; John M. Mathis, Sr., Houston; J. W. McCullough, McKinney; T. H. McGregor, Austin; Penrose Metcalf, San Angelo; George Moffett, Chillicothe; Weaver Moore, Houston; Emmett Morse, Houston; Tom Renfro, Fort Worth; S. D. Shannon, Fort Worth; Coke Stevenson, Junction; Olan Van Zandt, Tioga; Ben F. Vaughan, Greenville; F. C. Weinert, Seguin; and George W. Wingham, Mexia."

"There may be excellent fellows not on this list. In fact, there are. But it fairly reflects a cross-section of the upper half of the House, so far as ability is concerned."
