BAIRD'S

Big - Millinery - Opening.

WILL OCCUR

Tues. Wedn's. Sept. 23-4.

Our Mrs. Miller, as usual has got the finest display ever shown in Baird before. She spent weeks in the East hunting the rarest things and best bargains, and to convince you is to simply come to our store and look and see.

We have the latest of all novelties, the prettiest designs and the handsomest colorings. It is useless for me to try to describe our Millinery Display, as Mrs. Miller and all her assistants are too well known to the ladies of Baird and Callahan Co., for pen and ink to describe it to its full extent. I simply want to invite every lady and girl in the City and county to come and inspect our stock before placing their order, if you do not you will be sorry, for you will see your neighbor wearing a prettier hat than you and one that cost them less money. I beg you to call and see, by doing so you will certainly please yourself also Mrs. Miller, Miss Teeple, Mrs. Shelton and Miss Holland, all anxious to show you. Our Skirt Department is overcrowded with all kinds of skirts from a rainy-day to a silk, from a calico to a satin. All I ask is your inspection, please remember the dates and call on our over anxious Milliners, Clerks and Salesladies.

Besides the bargains in Millinery, we carry \$60,000.00 worth of Dry Goods. These goods were bought in large quantities at a bargain, enabling us to sell them cheaper than any other house in the west, and you will find anything you want from the finest piece of silk to a calico dress.

Yours for trade,

T. E. POWELL,

Baird, Texas.

To My friends.

It is with joy I tell you what Kodol did for me. I was troubled with my stomach for several months. Upon being advised to use Kodol, I did so, and words cannot tell the good it has done me. A neighbor had dyspepsia so that he had tried most everything. I told him to use Kodol. Words of gratitude have come to me from him because I recommended it.—Geo. W. Fry, Viola, Iowa. Health and strength of mind and body, depend on the stomach, and normal activity of the digestive organs. Kodol, the great reconstructive tonic, cures all stomach and bowel troubles, indigestion, dyspepsia. Kodol digest any food you eat. Take a dose after meals. Sold by Powell & Powell.

A Cure of Cholera Infantum.
"Last May," says Mrs. Curtis Baker of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by R. Phillips & Son, Baird Texas, and Y. A. Orr, Putnam Texas. aug

PUTNAM POINTERS.

Wild Bill compliments the Putnam choir in general and Rusty Rube in particular, upon their singing, a compliment not wholly undeserved, and for which we are duly thankful. But had W. B. been a close observer and a regular attendant at the Christian meeting, he would, with few exceptions, have found us at our post of duty, as was also the case at the Baptist meeting and would have of a truth, perceived that we were no respecter of persons or churches, and instead of trying to catch some old Methodist man's girl, we have long since reached the stage where it was Lord any with us. Rube is ready for another meeting regardless of creed, trusts that ere long W. B.'s prophecy regarding him will be fulfilled, and in view of this we freely forgive William any wrong impressions made upon his mind.

Coke Cauthen came in Monday morning from a prospecting tour over the Plains and is making preparations to move his family out to Lubbock county where he has bought land.

Mrs. T. J. Collins is visiting relatives at Monahans.

Mr. and Mrs. J. J. Sigler attended church at Admiral last Sunday.

Dr. Brittain has returned from Dallas and reports that his brother is still very sick.

Our friend Gurney went to Cisco Sunday to see after some unfinished business appearing on the minutes. Of course he denies this and says that any one who doubts his "miracidity" will not fall in the day of "resticution" to be "Rhinostracised" by society.

Prof. Eills, principal of the public school at this place, has resigned and gone West. This leaves the Putnam school without a teacher and our trustees are waiting to be interviewed on the subject.

The City Hotel has again changed hands. Mr. Pitts and family having moved to Rosco. The parties having charge of it now will overhaul, repaint and refurnish it throughout and will run same in an up to the present manner.

Perry Hutchinson has returned to Dallas.

Dud Johnson's baby drank some coal oil Friday morning, which made him very sick for awhile, but Dr. Brittain soon brought the little fellow

HONOR OF MCKINLEY.

Services Were Held in Various Cities Throughout the Country.

JUDGE DAY'S EULOGY

He Pays a Glowing Tribute to the Martyred President, Who Was His Type of a True American Statesman and Scholar.

Canton, O., Sept. 16.—Judge Wm. B. Day delivered the chief McKinley memorial day address here Sunday in the First Methodist Episcopal church, of which the late president was a member and in which the funeral was held Sept. 13, 1901.

In addition to the tribute paid by Judge Day, who was secretary of state in McKinley cabinet and a close friend and adviser to the martyred president, there was a general observance of the day in Canton, which claimed him as its own. From almost every pulpit there was reference in prayer or in address to him and his work. His favorite hymns were sung. In the Catholic churches of the city special mass was said, tribute was also paid by some of the priests to the memory of McKinley.

Although deeply conscious of the fact that it was just one year ago that her husband died, Mrs. McKinley did not vary the program followed by her for several months. Her usual trip to Westlawn cemetery was taken and she laid flowers on the casket that contains the remains of the nation's martyred chief. Mrs. Garret A. Hobart, who is her guest, went with her into the McKinley tomb and also laid a bouquet of flowers on the coffin.

Judge Day's tribute of his martyred chief was in part as follows:

"This tragedy which fills our hearts with grief has a lesson for the living and calls upon lawmakers and law officers for all that legislation and courts can do for the suppression and punishment of those who teach or practice the dreadful tenets of this code of lawlessness and ruin."

"From the high school he heard the call of his country to her sons, and at once stepped into the ranks as a defender of the union. His associates in arms, officers of his regiment, included lawyers as Hayes and Matthews."

"Mr. McKinley never consciously wronged a fellow being," said Judge Day. "It was his rule not only to refrain from inflicting pain, but to scatter joy wherever he could. He would step aside from a march of retreat to assure a weeping mother who loved the union that defeat was but for a day and would be turned into victory. Steadfast in his friendship, he would not swerve from loyalty for the glittering prize of the presidency. Encouraging the burdens which came before, during and after the war, no word of impatience ever escaped him, and he met the people with a smile of welcome and a word of encouragement. He would attend from affairs of state to give a flower to a little child or to say a kind word to some visitor for whom he could do no more. Resentment he had none. He believed life was too short to give any of his time to cherishing animosity. Sensitive to criticism no one ever heard him utter an unkind word of another. His was gospel of cheerfulness. His presence was sunshine, never gloom; his encouraging word dispelled doubt and nerved others to heroic duty."

At Buffalo.

Buffalo, N. Y., Sept. 16.—The anniversary of the death of Wm. McKinley was universally observed in this city Sunday. The pastors in all the churches paid tribute to the memory of the martyred president and the congregation sang "Nearer, My God, to Thee" and "Lead, Kindly Light."

COMING TO TEXAS.

Chicago Business Men Looking for Places to Invest Money.

Chicago, Sept. 12.—Plans are being perfected here for a tour of investigation by prominent business men of Chicago through the states of Texas, Mississippi and Louisiana with a view to investigating Chicago capital in undeveloped resources of these states. Invitations have been extended by the governors of the above commonwealths and W. C. Moore of Houston, Tex., chairman of a reception committee for Texas, is now in this city arranging details for the trip, which will begin Nov. 4. Among those in the party may be: J. G. Shedd, James H. Eckels, D. R. Forgan, C. L. Hutchinson, Byron Smith, H. Y. Bartlett, B. A. Eckhart, Rollin Hayes, Graeme Stewart, H. H. Sebe, J. V. Farwell, Jr., J. W. Scott, Paul Morton, J. P. Harahan and J. C. Stubbs.

To Visit Texas.

Waco, Sept. 16.—Assistant General Passenger Agent T. J. Anderson, of the Southern Pacific system, says an excursion of land and immigration agents over that route will reach here on the 27th inst. on their tour of Texas, studying its resources in order to enable them to carry out their work with greater efficiency. Division Passenger Agent R. E. George will arrange with the Business Men's club for receiving the excursionists here. From this city they will go south.

After a Long Time.

Paris, Tex., Sept. 16.—Mrs. J. C. Hodges, living southwest of Paris, near Arabia, received a United States government check Saturday from Washington for \$136, in payment for a horse, saddle and bridle which were taken from her husband at the close of the civil war.

NINETEENTH WEEK.

Senator Platt's Prediction Failed and the Strike is as Tight as Ever.
Shenandoah, Pa., Sept. 16.—To-day will begin the nineteenth week of the coal strike. The date on which Senator Platt predicted that the strike would end has passed and the hope which was instilled into the people in this locality because of that prediction has been succeeded by a feeling that the end is still far off.

The reiteration by the coal presidents during the week that no concessions would be made and the resolutions passed by nearly all the local unions of the United Mine Workers renewing their allegiance to their officers and pledging themselves to continue the strike until concessions are granted show that neither side to the controversy is weakening.

General Gobin, in charge of the state troops encamped in this country, denies that he is preparing to remove the troops at an early date or that he expects an order from the governor to withdraw the troops. He says he does not anticipate an order of that kind until there is a settlement of the strike.

THE LINE DRAWN.

Negroes Will Not Be Admitted to the Northwestern University in Chicago.
Chicago, Sep. 16.—The color line has been drawn at Northwestern University and no negroes will be admitted to the young women's dormitories of the institution. The Women's Educational association which has general supervision over the several halls in which the girls live, has passed on the matter after stormy meetings and the faction in favor of drawing the color line won by a decisive majority.

The controversy over the question began a year ago when a young woman living in Texas engaged a room in Chapin hall. When she arrived at the beginning of the scholastic year to occupy it, it was learned for the first time that she was colored.

Fire and Suicide.
Birmingham, Ala., Sep. 16.—A special to the Age-Herald from Sylacauga, Ala., says: The large lumber plant and saw mill at Juniata, four miles from Sylacauga, was totally destroyed by fire. The total loss will foot up over \$10,000, with about \$5000 insurance. About three hours after the fire occurred Mr. John Kaupp, a brother of F. H. Kaupp superintendent of the planing mill, committed suicide at his residence in Juniata by cutting his throat from ear to ear with a razor. He had been suffering for some time with epileptic convulsions and it is thought that it was during one of these attacks that he took his life.

Destructive Storm in Germany.

Berlin, Sept. 16.—Destructive storms raged in many parts of Germany Saturday. In Saxony the temperature sank to zero and a hurricane-like wind unroofed many houses and injured a large number of people. The damage is estimated at millions of marks. A very severe northwest storm visited the cities on the North sea. Considerable damage was done to bathing establishments on the Elbe and a number of low-lying houses were partially wrecked.

Frisco Wreck.

Paris, Tex., Sept. 16.—The Frisco flyer, due here Saturday afternoon, did not arrive until Sunday morning. The delay was caused by a freight wreck above Monett, Mo. The passenger train got around the wreck by going over the Kansas City division to Springfield, the Missouri Pacific to Joplin and the Kansas division to Monett, where it reached the Texas division. Nobody was hurt in the wreck, but the track was torn up and obstructed for a considerable distance.

Expelling Sisters Second Time.

Brest, France, Sept. 15.—Sub Prefect of Finistere, accompanied by a strong force of gendarmes and military, unexpectedly arrived at Landerneau, and again expelled the sisters there who were turned out on August last, but who returned later after discovering a decree dated 1823, which they claimed, removed them from the scope of the law of associations. The sub-prefect also released the schools amid protests of the inhabitants.

Killed His Neighbor.

Guthrie, Ok., Sept. 16.—In a quarrel over school affairs Joseph Watkins, a farmer of Beaver county, was shot and killed by a neighbor, Doc Cravens. The school board had made a tax levy which did not meet Watkins' approval. The quarrel took place at Cravens' home. The letter surrendered and was released on bail.

Captain Bilo Killed.

Manila, Sept. 16.—"Captain" Bilo, a leader of Ladronez in Bulacan province, Luzon, who is guilty of thirty murders, and who has been an outlaw for years, was killed by the native constabulary last Friday. Bilo was surrounded but refused to surrender. The constabulary then shot him to death.

Indian School Burned.

Guthrie, Okla., Sept. 15.—The Indian school buildings owned by the government at the Otoe Indian reservation was destroyed by fire with all their contents. The loss will amount very high, although no statement has yet been given out. The school is situated 20 miles southeast of Ponca City. One hundred Indian children who live in the buildings during the school year escaped without injury.

Serious Outbreak in Austria.

Vienna, Sept. 15.—Serious anti-semitic outbreak has occurred at Czestochowa, a pilgrim resort in Poland. The mob stormed the Jewish shops and wrecked bread shops and fourteen Jews and one gendarme were killed and a number were injured. Military are summoned to restore order.

TWO BURNED.

Wife and Two Children Caught in the Forest Fire in Washington.
Kalama, Wash., Sept. 16.—R. L. Wallace, wife and two children were burned to death Saturday night by the forest fires on Lewis river. They were camping in the woods when caught by the fire. Their wagon was found burned up, the charred bodies lying near. A 12-year-old boy of Mr. Hanley's also is dead.

Mrs. John Polly and baby and a brother and Mr. Newhouse and Mrs. Graves are dead. Fifteen others were found without clothing except gunny sacks.

Five logging camps are burned out completely and many families have lost everything.

The worst of the fire is on Lewis river, about twelve miles from Woodland. The country is well settled and there are doubtless other casualties not reported.

The fire has spread from Lewis river north to the Kalama river and fifty sections of the forest of the timber on the coast are destroyed. It is impossible to give an estimate of the amount of the damage done to property. Oak Point, twenty miles below here on the Columbia river, is totally destroyed. There are no reports of lives lost, but loss to property is estimated at about \$300,000.

A great fire is also raging on the Cowman, in the northern part of the country. Everything combustible was consumed. The air is thick with smoke and falling ashes. Many lumber camps are reported destroyed or badly damaged. Two men from Barr's camp are reported missing and people are panic-stricken.

TEXAS REPUBLICANS.

They Met at Fort Worth and Nominated Two State Officers.

Fort Worth, Tex., Sept. 13.—The state Republican convention adjourned Thursday night after making only two nominations for state officers.

George P. Burkett of Palestine was nominated for governor, Eugene Nolte for treasurer.

The convention which promised at the beginning to be one of the most turbulent in the history of the party in this state, closed in perfect harmony amid inspiring scenes.

The auditorium Thursday night was packed to the doors. The leaders arm in arm on the platform and the delegates, white and black, in the hall, stood upon their seats and cheered for President Roosevelt and the Republican party.

The last act of the convention was to give E. H. R. Green full authority to supervise the campaigns in Texas during the next two years.

The platform deprecates the death of President McKinley; endorses without qualification all of the acts of President Roosevelt and says that he is "the unanimous choice of the Republicans for president in 1904."

Appropriations are asked from the government to prevent destructive overflows of Texas rivers; the present tariff law is endorsed and protection for the newspapers of the state against libel is demanded.

A local option plank was offered but after discussion it was voted down.

"Black Christ" a Fraud.

San Francisco, Sept. 13.—Rev. Joseph McQuaid, pastor of the Church of Holy Redeemer, in a lecture on the Philippines islands, delivered at St. Mary's Catholic cathedral, pronounced the so-called "Black Christ" brought to this country on the transport Buford, a fraud. The "real Black Christ of the Philippines," he said, "is nothing more than a beautiful block of dark wood fashioned by the sculptor to represent the face of Christ. It is looked upon merely as such, and not even specially venerated."

Claims No Dispensation Granted.

Rome, Sept. 13.—Lawyers of Princess Rospigliosi, who was Miss Marie Reid of Washington, D. C., formerly wife of Frederick Parkhurst of Bangor, Me., have requested that the propaganda have the original registers of St. Matthews church, Washington, and chancellor of Baltimore brought to Rome in order to support her contention that no church dispensation for her marriage to Parkhurst was granted.

NEWS IN BRIEF.

Spiro, I. T., was visited by a white frost on Saturday night.

D. J. Smith of Itaska, Tex., says he has a chicken with four legs. One grew on the breast and the other on the back of the chicken.

Donley county, Texas, went dry by a majority of 90 votes.

The little child of James Rainey, a farmer living near Bonham, Tex., was smothered to death in a cotton bin.

Major Luther R. Hare will command the troops at the carnival at Palestine, Tex.

The rain and hail in Mills county, Texas, damaged the crops considerably.

Cuba is said to be a good country for vegetables. They can be eaten within eighteen days after planting.

General John H. Forney, a Confederate soldier, died at Jacksonville, Ala. He was 83 years old.

America's Envied Complaint.

An American professor has found the way. Instead of bringing up children on historical novels, he bids wife parents turn the eyes of the youngsters upon the living, breathing, roaring, booming captains of modern commerce. Instead of Ivanhoe, Yerkes; instead of Coer de Lion, Pierpont Morgan; instead of Crusades, Combines. America's complaint just now is the dollareux.—London Globe.

Beecher's Withering Retort.

During a speech in Brooklyn Henry Ward Beecher once denounced slavery in a merciless manner, and, among other things, remarked that better men were in Sing Sing prison than those who dealt in human flesh and blood. A pro-slavery man in the audience called out: "That isn't so!" Beecher quickly answered: "Well, you ought to know; you've been there."

Russia to Found Museum.

Russia has decided to found an archaeological museum in Sebastopol. The building is to be erected in the style of an old Christian basilica, and to be arranged for three apartments, one devoted to the Greek, one to the Roman and a third to the Byzantine period. The whole project has been entrusted to the management of Grand Duke Alexander Michailovitch.

One Use for Big Guns.

It is said that the artillery practice at Fort Mott is knocking the caterpillars out of the fruit trees of Salem county, New Jersey, and stunning the pests. Once in awhile these big guns and soldiers are really of some use.

Greeks to Honor Dr. Howe.

A Samuel Gridley Howe monument fund has been started by the Greeks, who wish to erect a monument in Boston in memory of Dr. Howe's noble work for the Greek people.

Population of Sweden.

According to the census of December, 1901, Sweden has a population of 5,175,228 persons, whereof 2,526,179 are males and 2,649,049 females. The increase of the population during the year 1901 was 38,787 persons (76-100 per cent), whereof 19,743 are males and 19,044 females. During said year the rural population increased from 4,032,490 to 4,053,414 persons, and the urban population increased from 1,103,951 to 1,121,814 persons.

Resemblance Causes Annoyance.

Rev. Frank B. Rose, a chaplain in the United States navy, bears a strong resemblance to Admiral Dewey. He and his wife were in Wilkes-barre, Pa., recently and the rumor got abroad that the admiral was in town. Mr. and Mrs. Rose took a trolley ride in the afternoon and were followed by such crowds that it was necessary for some one to announce that he was not Admiral Dewey and that the demonstration was annoying. Then the visitors were left in peace.

Last Irish Toll Bridge.

Waterford possesses the only toll bridge in Ireland. After 108 years' agitation a movement is now on foot for the construction of a free bridge over the River Suir.

First Automobile in 1760.

The originator of the automobile is said to be Captain Planta, a Swiss, who in 1760 invented a steam carriage which ran on any ordinary road.

French Colonies Prosper.

The French colonies on the west coast of Africa are increasing in importance every year, and are receiving zealous attention from the French government. The United States exported to these colonies in 1900 \$657,266 worth, and received therefrom products to the value of \$601,165.

Would Be Rank Ingratitude.

It hardly seems possible that Miss Agnes Moran of New York will now give the cold shoulder to her lover because he has been arrested for stealing. In his endeavor to get money enough to enable him to marry her, such evidences of affection are touching and unusual.

Where There is Weakness.

There are governments where the printing of the news without comments and in the most colorless way is an offence that cannot be endured. Russia is one of these. That is all which it is necessary to know about Russia in order to be certain that its ruler is conscious of a weakness in the substructure of his throne.

Learning.

Elizabeth, a little Boston girl, is 7 this summer. Quite an old girl now is Elizabeth. "You do not mind me as well as you did when you were two years old," observed her grandmother. "You see, I didn't know anything then, and so, of course, I always did just what any one told me to," replied Elizabeth.

New Orders for Women.

King Edward VII. is to establish a new order, it is said, which will confer honor on distinguished women. Since the Baroness Burdett Coutts received her title, no woman has been elevated to the peerage because of her philanthropic benefactions.

A Millionaire's Occupation.

Miss Sara Van Alen, daughter of James J. Van Alen, our most exclusive millionaire, filled out the marriage license blank reserved for "occupation of father" with "nothing." Van Alen has been working at that all his life.

and this may be the rap that will tempt you to court the fair goddess that rules the world.

The days of '49 were a wild scramble of the adventurer to flud the yellow metal that has brought prosperity in its wake wherever found and made more millionaires than any other industry. Mining for precious metals has been gradually narrowing down to a science until to-day it is considered the safest avenue for the investment of money with almost surely the largest returns.

INTELLIGENT INVESTMENT

of small sums in the co-operative plan of mining has put out a few men and women on the road to prosperity. The company doing this advertising has four undeveloped but promising claims in a proven mining district and offers an attractive proposition to secure the co-operation of money to be used in the development of its property. It is now placing the first installment of treasury stock on the market at a nominal figure, and if you are interested, write for prospectus and other information. Address

A Weak Stomach

Indigestion is often caused by over-eating. An eminent authority says the harm done thus exceeds that from the excessive use of alcohol. Eat all the good food you want but don't overload the stomach. A weak stomach may refuse to digest what you eat. Then you need a good digestant like Kodol, which digests your food without the stomach's aid. This rest and the wholesome tonics Kodol contains soon restore health. Dieting unnecessary. Kodol quickly relieves the feeling of fullness and bloating from which some people suffer after meals. Absolutely cures indigestion.

TERRIBLE EXPLOSION.

Gas and Powder Set Fire by a Miner's Lamp in a Mine.

MINERS ENTOMBED.

Seventeen Men are Fastened in Mine and There is no Hope of Rescuing Them Alive as the Coal is Burning.

North Fork, W. Va., Sept. 16.—A destructive gas and powder explosion occurred in the Big Four mine of the Algoma Coal and Coke company here Monday morning about 8 o'clock, as a result of which Jas. Lester and John Roekkie, a Hungarian miner, and fifteen colored miners are known to be imprisoned in the mine. There is hardly a chance of the men being recovered alive as they are beyond the point where the explosion occurred. The gas and smoke is so thick that all rescuing parties have been driven back. H. F. Frankfield, a mine boss, and Geo. Gaspie, a Hungarian miner, succeeded in crawling over the fallen coal and late after the explosion, to the lights of the rescuing party and were taken out alive though badly burned and nearly suffocated by the gas and smoke inhaled.

The explosion is said to have been caused by an accumulation of gas catching on fire from the lamp of a miner who was going to work, and this in turn fired six kegs of blasting powder that had been stored in the mines.

The explosion knocked down all of the brattices for a quarter of a mile back toward the mine entrance, thus cutting out all of the air from the men imprisoned behind the debris.

There had been a small gas explosion in this mine on Sunday last and Mine Superintendent A. J. Stuart had personally cautioned the men who worked in the mine to not attempt to work again until the air had been tested by a safety lamp.

A rescuing party headed by Mine Inspector Cooper attempted a rescue but were driven back by the want of air.

It is now learned that the coal is burning and there is no hope of extinguishing the flames until a new air passage can be built to the point of the explosion.

Superintendent Stewart has a large force of men at work now and will make a second attempt to reach the imprisoned men.

THANKS TORRANCE.

Confederate Soldiers of Alabama Appreciate His Motive to Assist Them.

Birmingham, Ala., Sept. 16.—A special from Montgomery to the Age-Herald says:

The following resolution was passed by Confederate Veterans here:

"We, the members of Camp Faulkner, United Confederate Veterans, in special meeting assembled, take this, the earliest opportunity of expressing to General Torrance, commander of the Grand Army of the Republic, our heartfelt appreciation of his recent and generous act of kindness in appealing to all the people of this country for help for the Confederate home at Mountain Creek.

"The appeal of General Torrance was unexpected and unsolicited, and came from a heart that is big enough to take in all men that are in distress. He came among us and was received as a friend and comrade by those to whom the bitterness of war is but a memory. His every utterance showed that for those against whom he had stood in battle he had only friendship, and for those who were unfortunate, whose misfortunes have outlasted the war, his heart overflows with tenderness and sympathy. We send back to him and all those who co-operate with him a greeting in the spirit of comradeship, of gratitude and of our common citizenship."

San Antonio, Tex., Sept. 16.—E. L. Whitney, charged with bigamy, was before Judge Brooks of the Thirty-seventh court here on application for a writ of habeas corpus. The writ was refused and bail was fixed at \$3000, in default of which the prisoner was remanded. Whitney is charged with having two wives in San Antonio, one of whom he married in Portland, Ore., in 1892, and the other in this city on Sept. 2. He is a telegraph operator and worked for the Southern Pacific here nearly two years.

Larger Mail Cars.

Denison, Tex., Sept. 16.—All the combination postal cars in service on the Katy flyers between Denison and St. Louis will be discontinued next Sunday, when the new time card on the Katy goes into effect, and the new, full length postal cars will be put in service. The mail on the flyers between this point and St. Louis has increased so fast that it is impossible to handle it on the small cars.

On His Way Home.

New York, Sept. 15.—Herbert L. Bridgeman, secretary of the Peary Arctic club, received a dispatch from Lieutenant Peary, dated Chateau Bay, Labrador. Lieutenant Peary says in the dispatch that he is on his way home on the relief ship Windward and that all on board are well. Beyond this dispatch Mr. Bridgeman has no information as to the movements of the explorer who started with his expedition to the north pole July 4, 1898.

Secretary Boat Returned.

New York, Sept. 15.—Eliza Root, secretary of war, returned from Europe on the steamship Krossland.

Mrs. Laura S. Webb, Vice-President Woman's Democratic Club of Northern Ohio.

"I dreaded the change of life which was fast approaching. I noticed Wine of Cardui, and decided to try a bottle. I experienced some relief for three months, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax."

Female weakness, disordered menses, falling of the womb and ovarian troubles do not wear off. They follow a woman to the change of life. Do not wait but take Wine of Cardui now and avoid the trouble. Wine of Cardui never fails to benefit a suffering woman of any age. Wine of Cardui relieved Mrs. Webb when she was in danger. When you come to the change of life Mrs. Webb's letter will mean more to you than it does now. But you may now avoid the suffering she endured. Druggists sell \$1 bottles of Wine of Cardui.

The Safest Place in a Storm.

Every one is aware that it is not wise to seek a tree's shelter in a thunder storm, but if you must take refuge there, then climb to the top-most branches. It has been proved that the upper boughs of trees during a storm would be the safest position, and it is said that birds in the branches are seldom killed.

The Most Popular Mississippians.

As a result of a popular vote in Mississippi the portraits of the following ten natives of the state will adorn the walls of the new capital: Jefferson Davis, L. Q. C. Lamar, E. C. Walthall, James George, S. S. Prentiss, J. M. Stone, George Polk, William Sharkey, George Poote and J. L. Power.

A Cosmopolitan City.

Up to the time of the Prussian-Austrian war the old fortress of Mayence of the German Confederation was beyond doubt the most cosmopolitan city in the world. At that time the official language was German, the law French, the government Hesse-Darmstadt, the church Roman Catholic, the administration Austrian, the military commander Prussian, the garrison mostly Italian, the postoffice Thurn and Taxis, the gas works Baden and the telegraph Bavarian.

Undiscovered Cuba.

After more than 400 years it appears that Cuba has not yet been entirely discovered. Much of it and many of its treasures are yet unknown, according to the recent report made by Governor-General Wood. He says that after the centuries of Spanish occupancy there are large portions of the island that have never even been prospected, and practically remain undiscovered, so far as knowledge of what they contain goes.

Demand for Reading Matter.

Some idea of the increasing appetite of the American people for "reading matter" is conveyed by the census bulletin on "Printing and Publishing." The number of newspapers and periodicals published in 1900 was 18,226 and the aggregate number of copies issued in that year was \$168,148,749. The latter staggering total was an increase of 74 per cent over the corresponding total of the census of 1890.

Disappointment for Abbey.

Among those whose work was much disorganized by King Edward's illness is Edwin Abbey, R. A., the American artist selected to paint a picture of the coronation. He had made rough sketches of what he desired to be a historic picture, designed as it is for Buckingham palace, when the king was stricken with illness.

Claim Discovery of a Large Tree.

The largest tree in the world is said to have recently been discovered in Africa in the region of the upper Nile. Its height is said to be half again that of the tallest trees in California, and its thickness double that of the largest giant redwoods. The particulars are, however, suspiciously vague.

Record for Slow Shipbuilding.

A record in slow shipbuilding is reported from Spain. Ten years ago a cruiser, the Prince Sade Asturias, was put on the stocks, and a few days ago the minister of marine informed King Alfonso that the vessel would be ready to take part in the forthcoming naval review in the Mediterranean.

Leafless Trees.

There are forests of leafless trees in some parts of Australia. They respire, so to speak, through a little stem, apparently answering the purpose of a leaf. The tree is known as "the leafless acacia."

Tremendous Power of Explosive.

France has secured the patent rights of a new nitroglycerin powder which it is contended will send a rifle bullet seven and one-half miles and increase the artillery range eighteen miles.

Added to Rich Man's Wealth.

The father of Ian Malcolm, M. P., who has just married Miss Jeanne Langtry, recently succeeded to the valuable Scotch estates of Pottaloch on the death of Lord Malcolm.

Cultivation of the Orchid.

An authority on the orchid says an amateur cultivator often fails, not so much through want of attention, but through overattention and a disregard of nature and her laws.

Abyssinian's Grave Rebuke.

While Ras Makonnen, the Abyssinian general, was in Paris a reporter undertook to interview him, and among others put this decidedly leading question: "Do your countrymen like the French or the English the better?" The dark-skinned warrior gravely asked in return: "Is your respected mother still alive?" and on receiving an affirmative answer said: "May she teach you better discretion."

Coquelin Aids Brother Actors.

M. Coquelin, the elder, is one of the few actors on the Paris stage who has made a fortune. Through his efforts a home of retreat for veterans of the French stage is being established. A fine property has been bought near Meaux, in the department of Seine-et-Marne, a few hours from Paris. Here a large house will be erected, giving quarters to sixty old comedians.

Still Youthful at Ninety.

Lawyer Luther R. Marsh, aged 90, once the trusting victim of Editha Lolita Montez, or Ann O'Delia Doss De Bar, and purchaser of her "spook pictures," writes to a New York paper contradicting the story that he is sick, saying that he is "hunky-dory."

Cause of Steampipe Explosions.

Many steampipe explosions are due to water-hammer action. A plug of water only six inches long propelled by only two feet, under a pressure of fifteen pounds can exert a pressure of 6,400 pounds on being suddenly stopped.

Went Too Close to Danger.

One of the victims of the St. Pierre disaster was a French painter, Paul Merwert, who was at Martinique on an artistic mission from the government. He ascended to the crater of Mount Pelee as late as April 25.

Following letter descriptive of Cloudercroft, has just been received by Mr. E. P. Turner:

CLOUDCROFT

CLOUDCROFT has been appropriately named "THE ROOF-GARDEN of the SOUTHWEST."

According to the United States Weather Bureau observations, the highest noon temperature at Cloudercroft last year was seventy-two degrees, the general average running about sixty-five degrees. THE HOTEL FACILITIES have been increased, one additional Hotel, the "VIRGINIA," being completed and another now being erected, in addition to the famous "LODGE." The "LODGE" will of course remain the resort for the Four Hundred, but the other Hotels in connection with the Cottages and Tents provided, will form an accessory for the accommodation of those who do not desire to make the trip more expensive that is absolutely necessary. The "Lodge" will be under the management of Mr. Geo. Waterman, as well as the Dining Hall, and Pavilion and Lunch Stand. At the Dining Hall meals beyond criticism, will be served during the season at the uniform price of Fifty cents, while at the Lunch Stand, entertainment can be had "A la Carte" from a simple lunch to the more expensive fancy meal.

IN THE WAY OF AMUSEMENTS out-door as well as in-door, many additions have been made including excellent Golf Links, Tennis Courts and one of the finest Double Bowling Alleys in the Southwest; Billiards, Ping Pong and other attractions too numerous to mention. Private Theatricals will be among the more attractive features this season and will afford quite a scope for amateur work in that line among the Cloudercroft visitors. In the way of out-door pastime, mention should be made of the hunting, fishing, riding and driving in the vicinity of Cloudercroft, which are almost unexcelled. None of the visitors need suffer this season for the lack of amusements.

A well equipped Livery Stable will be maintained throughout the season affording facilities for small or large parties, as desired, and the forest drives in that vicinity are simply superb. The entire place, including the Hotels, Pavilion, Dining Hall and Grounds will be lighted with Electricity.

THE TRIP TO CLOUDCROFT embraces, on the Alamogordo & Sacramento Mountain line, about Twenty five miles of the grandest scenery on the American Continent without exception; the views obtainable from certain points are especially magnificent, embracing in places an expanse of Two Hundred miles with a vertical view of about One mile. Those who have never been over this line can have no adequate conception of its scenery nor of the Engineering problem involved in the construction of this line. The change from the arid regions to the "Man Woods" and their attendant surroundings is so sudden as to be absolutely startling, and must be seen to be appreciated.

LOCAL SLEEPER SERVICE.

Arrangements have been made for local sleeper service between El Paso and Alamogordo on the regular daily train between those points, leaving El Paso at 9 p. m., passengers being allowed to remain in sleeper until morning Alamogordo when connecting trains leaves for Cloudercroft, in addition to which, special Saturday service will be placed in effect commencing May 31st, leaving El Paso at 1.15 p. m. and making a fast run to Cloudercroft, returning each Monday, leaving Cloudercroft at 7.30 a. m. and arriving El Paso in time for dinner, thus affording daylight rides in both directions over the scenic route. Sleeping Car Fare \$1.50.

Yours truly

A. N. BROWN, G. P. A.

Chair cars and sleepers run through to El Paso daily. Pamphlet giving complete description will be gladly sent to any one upon application.

French Workingwomen.

More than 6,300,000 French women work for their living. Most of these outside workers (more than 2,700,000) are employed in forestry or agriculture, including women land owners. Industrial occupations claim nearly 2,000,000 more, the cloister 120,000, the theater about 12,000 and the liberal professions 138,460.

Life-Saving Costume of Value.

M. Probst, a native of Geneva, is experimenting with a new life-saving costume which he has just invented. It is made of Indian rubber and has a large opening in the center, so that it can be easily donned. So buoyant is it that, when worn in the water, nearly half the body remains above the surface.

Russian Women Nihilists.

According to a well known spy of the late Sipyagin, there are over 500 young women wandering about Russia at the present time engaged in propagating revolutionary and socialist notions and circulating the tracts printed on the secret presses. They assume all manner of disguises.

Kaiser Owns American Stocks.

The German Emperor is reputed to have nearly \$3,000,000 invested in United Pacific and other American railway stocks, lately acquired; his experiences in German investments under the recent collapse of speculation and industry having proved costly to him.

All Told in One-Syllable Words.

The following monosyllabic presentation of an old story was written by one of Boston's celebrated statisticians: A wife burnt her man's corpse. She put the ash in an urn on the best shelf in her best room. Her love led her to wed once more. An ice storm glazed the front steps. She took the ash from the urn and spread it on the steps to save the risk of slips by the man she loved while he lived. Thus she urned one man and made him earn his keep.

Willing to Take Chances.

A little girl wanted more buttered toast, but was told that she'd had enough and that more would make her ill. "Well," said she, "give me another piece and send for the doctor."

A Jersey Feat.

It was facetiously said years ago that at a fire in a Boston hotel some of the guests made their escape on a sentence uttered by Senator Evarts. The senator probably was no match for Secretary Payne of the New Jersey board of riparian commissioners, who, in granting a conditional permit for a 200-foot extension, wrote two sentences, one of which contained 288 words. That was somewhat more than a word per foot.

His Idea of Absent-Mindedness.

Counselor E—, while cross-examining a witness in a will contest, asked him what was his conception of absent-mindedness, the witness having characterized the decedent as exceedingly absent-minded. The witness replied: "I should say that a man who thought he left his watch at home and took it out of his pocket to see if he had time to go home and get it was a 'teetle' absent-minded."

Doing Good Work for His Race.

The first colored man to be graduated from Amherst college was Charles H. Moore of the class of 1878. Since leaving college Mr. Moore has been engaged in educational work in North Carolina, his native state. For the past five years he has been at the head of the academic department of the agricultural and mechanical college for the colored race at Greensboro.

Women at German Universities.

The number of women students at the German universities is increasing. At Berlin 365 have inscribed their names for this summer, as compared with 203 during the same term of last year. The number of male students is always higher during the winter in Berlin, and so it is with the women. Last winter there were 611 of them—the highest figure as yet attained.

A HEALTH POLICY

The system is, from natural causes, debilitated or run-down both in the spring and fall. The seasons' changes are always a tax on the human organism. The blood becomes impure in the spring, and vitality lags in the fall. A little care, a little assistance, and nature will do the rest, as it is always trying to maintain health. Frequently the weakest organ will show the most disorder, and this often leads to wrong treatment.

For the debilitated conditions of spring or fall, or any other time, for that matter, the right thing to do is to build up the whole system. It is not your stomach, or liver, or nerves alone that cause the trouble; you are weakened all over and must have renewed strength and vitality. These you cannot get so quickly or surely or safely as by using

DR. HARTER'S IRON TONIC

When you use Dr. Harter's Iron Tonic you are helping to renew the vigor of every fiber of your body. You are cleansing and enriching your blood; you are strengthening your stomach and increasing the digestive fluids; you are building up and renewing the activity of your kidneys and liver; and you are feeding and revitalizing your nervous system. You cannot do this without getting well, and you cannot take Dr. Harter's Iron Tonic without doing it.

CHICAGO, ILL., Nov. 25, 1901.

The Dr. Harter Medicine Co., Dayton, O. GENTLEMEN:—I unhesitatingly recommend Dr. Harter's Iron Tonic, as I firmly believe, it is the best tonic on the market to-day. Every spring and fall my system seems to be in need of a tonic, and for the past three years I have taken a bottle of your tonic twice a year. HON. JOHN J. FURLONG, Representative to the Illinois Legislature, 121 Ogden St., Chicago.

Wearing of Thumb Rings.

Thomas a Becket possessed a thumb ring set with a valuable ruby, which was about the size of a hen's egg. This ring was a gift from Louis VII. of France. At the reformation Bluff King Hal seized the archbishop's ring from his despoiled shrine and took it for his own personal adornment, thus bringing thumb rings back into fashion for a while. They had long been abandoned by the upper classes and had come to be considered as indicative of the burges class.

Lord Beresford's Coming Visit.

Lord Charles Beresford's coming visit to this country to inquire into the workings of shipping combinations seems to show that he has once more assumed the role of free lance, now that he has given up his position as second in command of the British Mediterranean squadron. He has been criticizing that fleet as poorly equipped and supplied and says that more fast cruisers are necessary to maintain its efficiency.

The Haskell Headlight says the Merkel Mail appropriated an original write up of Haskell county published in the Headlight and used by the Mail without credit in its trade edition. What's the odds? Haskell and the "Merkel Country" are close together and very much alike, and the description of one would answer very well for the other.

A prominent worker tells a story of a mother who won a silver cup at a euchre party; an displaying the same to the family the next morning her son, a lad in his teens, confidently told her that he had done better than that, by winning ten dollars at the pool table the night before. She could not condemn the lad but it taught her a lesson not soon forgotten.—Ex.

One of our neighboring papers relates the story of a lady in their locality who being of a jealous disposition thought that her husband had been in the habit of kissing the hired girl, and resolved to catch him in the act. After watching him a few days, she saw him coming home one evening and the kitchen was quite dark. Burning with jealousy the wife took a few matches and hastily placed a shawl over her head as the girl often did; she entered the kitchen by the back door, and immediately she was seized and kissed in a most ardent manner. With a heart almost bursting the wife prepared to administer a terrible rebuke to the faithless spouse, and tearing herself from the fond embrace, struck a match and stood face to face with the hired man. The husband said his wife has been exceptionally good to him since the eventful night.—Ex.

The Colorado Clipper of last week, gives the Baird Stars, Baird's ball team, a most unmerciful roast, and that too without excuse or justification. The Clipper says the Stars have never played anything but scrub teams and have won no trophy. Colorado had a chance to play the Baird Stars a short time ago and it was no fault of the Baird team that the game was called off after being matched. Now a bum ball player comes along and loads the Clipper with chestnuts and wind and it makes a great blow about what Colorado will do to the Baird Stars. The Stars have defeated every team they have played the last two years and tried to match a game with the Colorado team but failed. Now after the Baird team has disbanded some to the ranches, farms, stores and other places of business, the Clipper makes an ass of itself by giving a defy that it believes cannot be accepted. Manager Wilson has called the bluff of the windy Clipper and Colorado will either have to play ball or resume the back seat it has occupied so long in ball playing.

BEECHER'S IDEA OF HEAVEN.

"I could hardly wish to enter heaven did I believe its inhabitants were to idly sit by purling streams, fanned by balmy air.
"Heaven, to be a place of happiness, must be a place of activity. Has the far reaching mind of Newton ceased its profound investigations? Has David hung up his harp as useless as the dusty arms in Westminster Abbey? Has Paul, glowing with God-like enthusiasm, ceased itinerating the universe of God? Are Peter and Cayprin and Edwards and Payson and Evert idling away an eternity in mere psalm singing? Heaven is a place of restless activity, the abode of never tiring thought. David and Isaiah will sweep noble and loftier strains in eternity, and the minds of saints, unlogged by cumbersome clay, will forever feast upon the banquet of rich and glorious thought. My young friends go on; you will never get through. An eternity of untrifling action is before you, and the universe of thought is your field."

TOO MUCH BILL SCRIB.

Mr. Hazlewood from Cross Plains, gave us a call Wednesday morning. He informed us that the Cross Plains Herald lately published at that place has gone defunct.—Cottonwood Prod-gal.

It is not stated what caused the demise of the demise of the Cross Plains luminary(?) but one or two correspondents like Bill Scribber is enough to kill any ordinary paper. The demise of the Herald is not a serious loss to either Cross Plains or the county by any means. The editor of the Herald started out after the local option election with the evident intention of smashing THE STAR and give the people Callahan county a great reform paper. The early demise of the Herald shows that the people of Cross Plains and Callahan county know how to properly estimate the value of a newspaper. There is not a sufficient demand in this county for such papers as the Herald to insure success and it only succumbed to the inevitable.

This is said in no unkind spirit, but because it is the simple truth. The editor of the Herald made a mistake in believing he had a mission to reform the people of Callahan county.

STEAMER STRANDED IN CALIFORNIA DESERT.

There does not seem to be much use for a ship in the desert country of California which borders on the Colorado river, yet travelers in that region may see there a veritable "ship of the desert." Far from any body of water capable of floating a mudscrew may be found a big stern wheel steamer, accustomed to ply up and down the river carrying passengers and freight. She has been lying there since last September stranded high and dry on the sands a mile and a half from the stream's present course.

This strange condition of affairs has come about simply because the Colorado, a mighty stream, but one of the most treacherous of rivers, chose to cut a new channel for itself in the early fall without notice or warning.

One night last September the Alviso Capt. J. W. Babson, tied up to the shore a couple of miles above Needles, awaiting telegraphic orders. She was loaded with passengers and supplies, and as travel is sometimes leisurely pursued on the Colorado, all hands turned in for a good night's sleep. Between 3 and 4 o'clock Capt. Babson was aroused by Indians, who warned him that for some reason the river was falling rapidly and advised him to pull for midstream as soon as possible. This the Captain tried to do, but the water had already gone down so low that his prow stuck fast in the mud when he got up steam and tried to turn his paddle wheels and move out into navigable water. And there he has stuck ever since, becoming resigned to the situation perforce and hopefully awaiting the flood water that comes down at the time of the melting of the Colorado and Wyoming snows in June.

By this freak the Colorado river, which is always accomplishing some unusual feat, has annexed to California a strip of land from three-fourths of a mile wide and about four miles long. This kind of land annexation is going on all the time along the Colorado, which is the official dividing line California and Arizona. Sometimes Arizona steals from California and sometimes the state steals from the territory, but this is the first time on record that a steamer has been held on a pledge in the transaction.—Exchange.

HOTEL MANAGER DROWNED.

Galveston, Sept. 3.—E. E. Aiken, age 27 years, manager of the Tremont Hotel, was drowned tonight while bathing at the beach. He was a good swimmer, but evidently went out too far beyond the ropes. He entered the water at 9 p. m. How or when he met his death no one knows. A search was instituted at 11:30, but up to 2 a. m. no trace of his body has been found. His clothes and artificial arm were found.—Dallas News.

The subject of the above was a son of J. H. Aiken, of Bell county, Texas and a nephew of Jno. W. Aiken of this county.

Elmer was an exemplary young man and the pride of his loving parents, brothers and sisters, who idolized him. He had lived in Galveston for several years, and passed through the great flood two years ago. When the storm was raging he was at his place of business which he left and made his way as best he could through wind and wreckage to his own home, 1827 Church street, where he found those most dear to him in the city safe and out of probable danger. He then faced the raging elements to the rescue of some of his dearest friends in a distant part of the city, rendering them all the assistance in his power. In an attempt to return to those at home he was caught in the current and carried with lightning speed down the street toward the Gulf. He fortunately caught upon a house top where he remained until the water receded, then he returned, torn and bleeding, to his home he had left the morning before, to find all safe and well. After this he went bravely to work, tendering his services in any capacity to the authorities, and none did more for the elevation of the suffering of the living, and the last sad rites to the dead than Elmer Aiken. Such noble and unselfish devotion deserves at least a passing notice.

After the great storm he accepted a position to travel for a California Fruit concern, and while thus engaged lost his left arm in a railroad accident. When health was somewhat restored he returned to Galveston and accepted a subordinate position with the Tremont Hotel, and by honest integrity and devotion to business, rapidly rose to manager, which position he held at the time of his death.

"When the sea shall give up her dead" there will come forth no purer and nobler soul than that of Elmer Aiken. "JUAN" Burnt Branch, Sept. 6, 1902.

South Carolina has tired of the eccentric blackguardism of the Tillmans and has repudiated them in a state-wide primary. Decency in politics has at last asserted itself.—Ft. Worth Register.

Mr. Tom Perkins, of the McKinney Gazette, recently stated something to the effect that a man could not be a Democrat and Prohibitionist. He is enjoying the excitement the remark occasioned.—State Press, Dallas News.

Tom should be careful. Some people do not like to hear the truth so bluntly stated as he is in the habit of doing.

NEVER FOR BOYS.

Never make fun of old age; no matter how decrepit or unfortunate or evil it may be. God's hand rests lovingly on the aged head.

Never use intoxicating liquor as a beverage. You may never become a drunkard; but beer, wine and whiskey will do you no good and may wreck your life. Better be on the safe side. Make your influence count for sobriety.

Never tell nor listen to the telling of dirty stories. Cleanliness in word and act is the sign manual of a true gentleman. You cannot handle filth without becoming fouled.

Never cheat or be unfair in your play. Cheating is contemptible at any age. Your play should strengthen, not weaken your character.

Never call anybody bad names no matter what anybody calls you. You cannot throw mud and keep your own hands clean.

Never be cruel. You have no right to hurt even a fly needlessly. Cruelty is the trait of a bully; kindness the mark of a gentleman.

Never lie. Even white lies leave black spots on the character. What is your opinion of a liar? Do you wish other people to think the same of you.

Never hesitate to say no when asked to do a wrong thing. It will often require courage, the best kind of courage, moral courage, but say no distinctly that no one can possibly understand you to say yes.

Never idle away your time that might be profitably employed. Your talents will best develop when in use. No one has a smile for the lazy, slothful man.—Selected.

The young man who contents himself with complaining that he has no chance will never have a chance. He would let opportunity slip by without so much as hearing the wish of her garments as she passed him. The saying: "the world owes every man a living" may be true, but it's a debt that must be dunned repeatedly before it can be collected.—Ex.

HE WANTED REALISM.

She could not see his face as he knelt and asked her to be his.

She was glad of that, for she did not wish to know how much suffering her refusal caused him.

She told him as gently as she could that their lives could not be linked together; that, although she admired him and esteemed him, she felt that it would be risking his future as well as her own, to consent to such a union when she was sure no affinity existed.

It was a touching speech and she threw so much heart into it that she did not observe he was taking notes in shorthand.

When she had concluded he arose and put his notebook in his pocket. Extending his hand he remarked, generally:

"I'm ever and ever so much obliged to you."

"S-ir!"

"You did it ever so nicely, and I'm under a thousand obligations. I'm writing a novel and I have a scene in which a girl refuses to marry a man. I was anxious to avoid the stereotype style of depicting such incidents and to make it realistic. You're the seventh girl I've proposed to and every one of the others accepted me. If you had said 'yes' I think I'd have completely discouraged."—St. Louis Republic.

A peculiar world is this and a queer lot when one thinks about it. One is feeling from it. One man is trying to save money to build a house and another is trying to sell for less than it cost to build. One man is spending all the money he makes taking his girl to the theater and sending her flowers with the hope of making her his, while his neighbor with what gold he gets is trying to get a divorce. One man bemoans the fate that compels him to work indoors at the desk, while the man that is out doors thinks he would be happy if his work was inside. The man in business hopes for the time to come when he can retire while another is struggling to get into business. The farmer hopes for the time when he can give up his farm and move to town, while every man in town dreams of a happy time when he can own a farm with a big farm bell at the kitchen door and plenty of healthy out door work to do.

GO SIN NO MORE.

Rev. Sam Small, for many years an eloquent evangelist and an able writer and speaker on public questions, recently yielded to temptation and became intoxicated. He is not the only one who has made the mistake, but the fact that he had for years been a totaler and had won distinction as a minister of the gospel has made him the target for cruel jests and the victim of malicious criticism. It is a sad commentary on human nature that those who themselves make no effort to set a good example are often prone to exult over the fall of one who is striving to follow a high ideal. For two decades Mr. Small led an exemplary life and rendered valuable service to his fellows and this service remains to his credit; if in an unguarded moment he has been overmastered by an appetite once strong, but long suppressed, let us be grateful for the good he has done, charitable toward his recent lapse and hopeful that he may yet have a long career of usefulness before him. If none but the innocent were in the habit of casting stones at the accused it would be easier for the guilty to hear and heed the admonition "Go sin no more," which for two thousand years has been both a correction and an inspiration to the erring.—Commoner.

BUILDERS SUPPLIES.

COOKING UTENSILS.

Here is a puzzle that puzzles everybody: Take the number of your living brothers, double the amount, add to it three, multiply the result by five, add to it the number of living sisters, multiply the result by ten, add the number of deaths of your brothers and sisters, subtract 150 from the result. The right hand figure will be the number of deaths; the middle figure will be the number of living sisters and the left will show the number of living brothers.—Mountain Home.

Beware of the Knife.

No profession has advanced more rapidly of late than surgery, but it should not be used except when absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unequaled for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips Paris, Ill. "DeWitt's witch Hazel Salve cured me in a short time." Soothes and heals. Grandma McKinney returned Tuesday from a few days visit with Mr. and Mrs. J. B. Hamilton, north of town.

Webb MaGee who has been spending his summer vacation at Abilene and in the Southwest part of the State, has returned and resumed his duties at B. L. Boydston's dry goods store.

Mr. Jno. Skinner and Mrs. Phillips father and sister of Mrs. Wash McFarlane, who were called here by the serious illness of little Dana McFarlane, left Tuesday for their home at Pilot Point.

Miss Bessie Caruthers, of Weatherford, has taken up a music class in our city. We understand that this young lady is an accomplished musician and feel sure that those who patronize her will be pleased with the result.

Mr. A. Cooke sold his stock of drugs last week to R. J. Estes and son, Dr. Jack Estes of Clyde, and has or will dispose of his remnant of dry goods and retire from business. J. A. Christian we learn has leased Mr. Cooke's building for two years. Mr. Cooke began business in East Texas thirty-one years ago. Ten years ago he moved to Baird and one year latter began business. Mr. Cooke says his move west did not prove profitable as he expected, but that he has always been able to discount his bills and does not owe a dollar. Few men can say as much after thirty years in business. Mr. Cooke always had the reputation of being strictly honest in all transactions. May he live long to enjoy the well earned rest he deserves.

FARM EXHIBITS WANTED.

S. H. French is getting up an exhibit for the Abilene Fair and requests all who can to help him. He requests the farmers of Cottonwood specially to send in specimens of anything they may have; corn, cotton, wheat, oats, milo maize, Kafir corn, fruits or vegetables of any kind. Most every farmer has something that will be of value in making up a county exhibit, and it will not cost them anything to give a small amount to Mr. French to enable him to get up a creditable exhibit. The time is short and whatever is done must be done quickly. Leave specimens at D. W. Wristen & Co., Baird, who will them over to Mr. French.

THE STAR earnestly requests the farmers of Callahan county to help Mr. French. Callahan county is interested in getting up a creditable exhibit and Mr. French is the only one who seems to take enough interest in the matter to get up an exhibit. Let us show our appreciation by helping him in every way.

Mr. French will leave for Abilene on the 8th of October and articles intended for the exhibit must be sent in before that date.

A sample of your farm products at Abilene will help you as well as Mr. French. Select something at once and send to S. H. French, care D. W. Wristen & Co. Baird.

CHURCH NOTICE.

Rev. Horace Bishop, D. D. the well known Methodist minister, will preach at the Methodist Church, Sunday Sept. 21, at 11 a. m. and at night. The public is most cordially invited to attend.

KINDERGARTEN SCHOOL.

I have opened a Kindergarten School in the residence formerly occupied by Mr. R. A. St John, one block west of the Baptist Church, and will greatly appreciate a share of the school patronage of the people of Baird. I have attended Kindergarten Schools of instruction and know I can do good and efficient work. MRS. LELIA RUSSELL.

CLOSING OUT.

We are closing out our stock of buggies, surreys and hacks and we will save you 20 per cent on a vehicle if you come while this lasts. These prices will last till Oct. 1st. Come quick and get your choice. 42-2t C. S. BOYLES.

You will have to keep up with the fashion if you want to be in the swim. The fashion just now is to put in electric lights. C. S. Boyles sells Gallup saddles.

All the lodges and all or most all the churches will put in electric lights. These lights for business houses, churches and lodges are not to be compared with other lights and in most instances are cheaper for residences, and safer than oil lamps. Have your lights put in while the electrician is here.

R. E. (Uncle Dick) Merchant and wife, of Hutchinson county, on the Canadian river, came in last week and spent a few days with old friends at Belle Plains their old home. They left Tues. for Abilene where they will spend a few days with relatives when they will return home via Roswell, New Mexico where they will stop over at the Fair to begin on Sept. 23.

Rev. W. B. Blois, of Ft. Davis, spent Monday in town on his way home from Albany. Rev. Mr. Blois is a Presbyterian minister and preached in Callahan county some 20 years ago, when Belle Plain was in the zenith of its glory as the county capital. Some years ago Mr. Blois went West and is now located at Fort Davis. Time seems to have dealt kindly with him as he does not show age but little more than he did twenty years ago.

UNANSWERABLE ARGUMENT.

While the late Judge Thurman of Ohio was in congress, says the New York Times, his wife, leaving for a visit to friends, exacted from the judge a promise that he would be a "teetotaler" during her absence. On the day of Mrs. Thurman's return the judge stopped in the dining room before going to welcome her to take a drop of that from which he had abstained during her absence. While in the act of pouring whiskey into his glass he heard Mrs. Thurman pattering down the stairs. Quickly putting his left hand, in which he held the glass, behind him, with his right hand extended, he said: "I am glad to see you home, my dear."

"Allen, what have you behind you?"

"Whiskey, my dear."

"Oh, Allen! Don't you remember last year, when you were stumping the state, you didn't take a drop, and you were never so well in your life?"

"Yes, my dear, I remember; but we lost the state."—Ex.

MOST ALARMING SIN

If I were called to point out the most alarming sins of today—those which are most deceitful in their influence, and the most destroying in their ultimate effects—I would not mention drunkenness with all its fearful havoc, nor gambling with its crazed victims nor harlotry with its hellish orgies but the love of money on the part of men and the love of display on the part of women.

When other vices send a thousand, the fashionable and favored indulgences sends their tens of thousands to perdition. They sear the conscience, incrust the soul with an impenetrable shell of worldliness, debauch the affection from everything high and heavenly and man or woman a worshiper of self. While doing all this the poor victim is allowed by public opinion to think himself or herself a Christian; while the drunkard, the gambler, or the prostitute is not deceived by such a thought for a moment.—Selected.

Will Scale the Himalayas.
An attempt to climb the highest Himalayas will be made this year by a party consisting of three Englishmen, two Austrians and a Swiss. They will begin with the Godwin Austen, 28,250 feet high, and Dapsang, 28,665 feet high. If they are successful they will then try Mount Everest, the highest mountain in the world, 29,000 feet high. The Himalaya record is held by Sir Martin Conway, who climbed the Pioneer peak, 21,000 feet high, ten years ago.

Race Spirit of Boers.
The Boer leaders are exhorting their people to preserve the race spirit, writes a reporter for the New York Sun. At the same time they acknowledge frankly that South Africa is now under one flag. Why should not the Dutch keep up the traditions of their country, as Scotland, Wales and Ireland do? Anyhow, as matters now stand, no other colony has such a glorious past to point to as the former South African republics.

Bay Revives Old Custom.
The new Bey of Tunis, reviving an old custom, will repair twice a week to the Palais at Tunis, which is the seat of government. Complying with the custom, which debar him from occupying his predecessor's residence, he will remain at Carthage, while the late Bey's palace will be assigned to his cousin and heir, Prince Naceur. As the new Bey understands French the office of interpreter will be abolished.

THE INTERNATIONAL FAIR.

Something of the Event at San Antonio in October Next.

When the gates of the Fourth International Fair at San Antonio are thrown open October 18 a scene of beauty and interest will charm the eye and delight the finest sensibilities of the visitor. To enjoy this will be a pleasure well worth many an effort. Many thousands of dollars have been expended in the Fair's production, the highest skill and science employed to bring to perfection a Fair worthy of the present wonderful era of development. Its scope is so broad as to include nearly all departments of humane effort. The purposes of the Fair are manifold. One great object is to bring in closer relationship, commercially and socially, the governments of the United States and Mexico.

The opportunity which the Fair affords to the counties and cities for placing conspicuously before the people of Texas a knowledge of their varied resources is widely appreciated. Every section of the state, as well as Mexico, will be represented in special buildings or in the several departments. The agricultural exhibits will claim the attention of all visitors to the Fair. From the manufacturing centers the exhibits will come principally from individuals who desire to take advantage of the opportunity to bring their wares to the attention of the thousands who will attend the Fair. Other displays will show the progress of the State along educational and industrial lines and the development of fine arts, and other features that have so much to do with the rapid advance of civilization.

In the live stock department will be a large collection of the finest animals bred in the western hemisphere and will give to this division high educational value. Much space and many stables and barns are to be devoted to this display, exclusive of the poultry and pet stock. The greatest list of premiums ever offered at any exposition in the South will be given the exhibitors.

Gifted and expert entertainers in large numbers will have their headquarters in the Midway. While the list of attractions is not yet complete there are many important ones already contracted for which will give the intending visitor plenty of the lighter and gayer features. The management has exercised great care in making the selection of attractions.

Twice daily in the Music Hall there will be vaudeville entertainments of a high order and absolutely free to the visitors and in addition concerts by several splendid musical organizations. On the last seven nights of the Fair will be presented Pain's magnificent spectacle "Last Days of Pompeii" a dazzling and awe-inspiring production in rainbow hued blazes of fire.

THE SUNDAY SCHOOL.

LESSON XII, THIRD QUARTER, INTERNATIONAL SERIES, SEPT. 21.

Text of the Lesson, Deut. xxxiv. 1-12. Memory Verses, 10-12—Golden Text, Ex. xxxiii. 11—Commentary Prepared by Rev. D. M. Stearns.

[Copyright, 1902, by American Press Association.]

1-2 And the Lord shewed him all the land.

Read with prayer and reliance upon the Holy Spirit the parallel passages in Num. xxvii, 12-17; Deut. iii, 23-29; xxxii, 48-52, and notice Moses' great desire to go over into the land, his prayer to God that he might be permitted to do so, God's refusal to allow him, Moses' meek submission and his request that some one be appointed in his stead, so that Israel might not be as sheep which have no shepherd. Observe that it was Moses' sin when he disobeyed God at Kadesh in striking the rock instead of speaking to it and thus failed to sanctify God in the eyes of Israel that kept him from entering the promised land at that time. See Num. xx, 7-13, in connection with the above passages.

4. I have caused thee to see it with thine eyes, but thou shalt not go over thither.

When Moses pleaded to be permitted to go over, the word from the Lord was, "Let it suffice thee, speak no more unto Me of this matter" (Deut. iii, 26), and that was enough. It was Israel's sin in murmuring and rebelling that led Moses to sin, but that did not excuse Moses. How holy is our God, and what holiness He requires in us! And who is equal to it? Failure is seen in Adam, in Noah, in Abraham, Isaac and Jacob, in Moses and Aaron, in David and Elijah, in the apostles and everywhere. There is none good but one. That is God. And Jesus was God manifest in the flesh. It is only as He is manifested in us by His Spirit that our life will be what He desires.

5-7. Moses was an hundred and twenty years old when he died. His eye was not dim nor his natural force abated.

When Aaron died, Moses and Eleazar were with him, but no one was with Moses when he died. He had often been alone with God, on two different occasions for forty days and nights at a time, but previous to this occasion he had always come back to continue with the people. Now in health and vigor of body and in the use of all his faculties he went up into the mountain alone and returned to Israel no more. Out from the earthly tabernacle in which he had sojourned for 120 years Moses, the servant of the Lord, went to live with God forever. No sickness, no suffering, as far as we know, but he just closed his eyes to earth and entered into the presence of God and of the redeemed and of the holy angels, absent from the body, present with the Lord, which was very far better for him (Phil. i, 21, 23). He is still there alive and well, and after more than 1,400 years from the time of his departure Peter and the others saw him on the Mount of Transfiguration with Jesus Christ, as he and Elijah spake with our Lord of His approaching decease (Luke ix, 30-32). The body of Moses was buried, but, no man being present, no man knows where, for God has not seen fit to tell. To bury bodies in the earth is Scriptural, to burn with fire is heathenish, though it matters little how the body is disposed of, for God will raise it up (John v, 28; vi, 39, 40, 44, 54).

8. And the children of Israel wept for Moses in the plains of Moab thirty days.

Although the great enemy death can only bring gain to the believer, yet his work on the body is to be deplored, and our Lord Himself wept at the grave of Lazarus. Death came by sin, but in due time both death and sin shall be found no more on earth, but shall be destroyed (Ios. xiii, 14; I Cor. xv, 26; Rev. xxi, 3, 4).

9. And Joshua the son of Nun was full of the spirit of wisdom, for Moses had laid his hands upon him.

When Moses asked that some one might be appointed to take his place, God designated Joshua as his successor (Num. xxvii, 18, 19), and now the people hearken to him as they had done to Moses. His story will come before us in the next quarter's lessons. Meanwhile let all be looking up the past mention of him and thus getting better acquainted with him.

10-12. And there arose not a prophet since in Israel like unto Moses, whom the Lord knew face to face.

In many respects Moses stands alone; none like him. It is written of him, "And the Lord spake unto Moses face to face as a man speaketh unto his friend" (Ex. xxxiii, 11). But in Heb. iii we see how much greater Christ is than Moses, and in that epistle it is set forth how much higher Christ is than angels, than Moses or Aaron or Joshua or any other, our High Priest forever after the order of Melchisedec. The last two verses of our lesson set forth the way in which Moses was greater than any other prophet in the matter of the signs and wonders which God wrought by him in connection with Israel's deliverance from Egypt. A greater deliverance for Israel is drawing nigh, when with similar but greater wonders she shall be delivered from all nations and placed in her own land forever to the glory of God and the blessing of all nations (Jer. xvi, 17, 18; xliii, 7, 8; Mic. vii, 15-20). Death may remove from earth a Joseph or a Moses or a Joshua, but the Lord liveth, and all the promises of God are yea and amen in Christ Jesus, and like Isaiah when Uzziah died, we may look up into heaven and see a Priest-King who never dies, who said to John, "I am He that liveth and was dead, and behold, I am alive for evermore, amen, and have the keys of hell and of death" (II Cor. i, 20; Isa. vi, 1; Rev. i, 18).

STATEMENT DENIED.

Americans Did Not Criticize the German Infantry, as Stated. Berlin, Sept. 16.—Major General Henry C. Corbin, who, together with Major General Samuel B. M. Young and Brigadier General Leonard Wood, attended the German army maneuvers near Frankfurt-on-the-Oder last week, gave out a statement before he left for Dusseldorf denying what purported to be an interview with him in which he was represented as unfavorably criticizing the German infantry. In this statement General Corbin said: "My companions and I have reached the conviction that the German army, in every respect, but particularly in organization, instruction, discipline and equipment, is among the best in existence, if not the best. "The army excited the admiration of all of the American officers who witnessed the maneuvers, and we shall never forget the many marks of distinction and courtesy bestowed upon us by Emperor William and his officers."

MANILA NEWS.

Colonel Rafferty Dead and Rios' Band Scattered by the Troops.

Manila, Sept. 16.—Colonel William A. Rafferty of the Fifth cavalry died at San Felipe Saturday from injuries sustained by a fall a week ago. General Chaffee was with the colonel when he expired.

Account of the impoverishment of the people by war and cholera, the United States commission has remitted the land tax in the provinces of Batangas, Luzon, for the year 1902.

The force of native constabulary which has been in pursuit of the Rios band of irreconcilables in Tayoabas province, north Luzon, has killed eighteen and captured twenty-five of the bandits. The constabulary encountered the band upon four different occasions during the chase, but suffered no losses whatever. Rios, the leader of the bandits, says he will never be captured alive.

SERIOUS WRECK.

Santa Fe Passenger Runs Into a Freight Killing Three Men.

Denver, Sept. 15.—The Santa Fe passenger train, known as the Newspaper train, which left Denver at 3:50 o'clock Saturday morning, bound for Colorado Springs, Pueblo, St. Louis and Chicago, collided with a freight train at Struby, and three members of the passenger train's crew were killed and another perhaps fatally injured.

The dead are: Mack Barnhart, engineer. J. A. Pettigill, fireman. John Rogers, fireman. Archie Stewart, engineer, was seriously injured, and some of the passengers were badly shaken up and bruised, but so far as known none killed or seriously injured.

FIRE AT SONORA.

Several Business Houses Destroyed Causing a Loss of \$75,000.

San Angelo, Tex., Sept. 15.—Fire at Sonora, in Sutton county, on Friday destroyed \$75,000 worth of property. The fire broke in the store of the Mayfield Mercantile company. A coal oil tank exploded in the building after the fire started and all window glass in the courthouse were broken out. The entire business block was burned and a number of citizens were slightly injured. The fire was under such headway when the first alarm was given and the wind blowing so hard that no company in the state could have checked the flames any sooner.

GIN AND CONTENTS BURNED.

Greenville, Tex., Sept. 15.—Moody & George's cotton gin at Floyd, this county, was destroyed by fire. Loss about \$4000; insurance \$2000. A small quantity of seed cotton and \$600 worth of seed were destroyed.

Storm at Terrell.

Terrell, Tex., Sept. 15.—This city was visited by a terrific wind and rain storm Thursday night. The storm came from the southwest at 7 o'clock. The wind whipped shade trees to the ground and lifted outhouses here and there, but no damage of a serious character was done in the city. Several houses were blown from blocks in the city and county but no one killed.

Her Condition Hopeless.

Brussells, Sept. 16.—The Soir says the condition of Marie Henrietta, queen of the Belgians, is hopeless and that King Leopold probably will be obliged to shorten his visit at Bagneres de Luchon, France, in consequence. Queen Marie Henrietta has long been ill with a malady of the heart. She is at Spa and it was reported from there last Thursday that she had been seized by a severe attack of asthma.

Not Definitely Known.

The Hague, Sept. 16.—It is not yet definitely known whether the postponement of the hearing of the Pius fund case between Mexico and the United States, before the arbitration court, which was Saturday regarded as not improbable, will be necessary; but Mexico does appear to be quite ready, and there is some doubt as to whether all the persons interested can reach here in time. It has been announced that the court will open September 15.

Fatally Scalded.

Tyler, Tex., Sept. 16.—While pumping water near his home near Tyler the boiler blew up and fatally scalded Major M. J. Dean and seriously injured a grandson. Major Dean's death is hourly expected. Major Dean is one of the oldest citizens of Smith county.

Lunatic Aboard.

Denison, Tex., Sept. 16.—An escaped lunatic boarded the Katy train at Fort Worth Saturday night. He was very neatly attired, and when the brakeman found him he jumped through a window near Bethard, receiving slight injuries.

AFTER MORE WAGES.

Conductors and Trainmen Are Now Voting for Increase of Wages.

Chicago, Sept. 16.—Lodges of railroad trainmen and railroad conductors west of a line drawn from Duluth, Minn., south of New Orleans, are voting on a proposition to ask for additional compensation for their services. E. E. Clark, grand chief of the Order of Railway Conductors and P. J. Morrissey grand chief of the Brotherhood of Railway Trainmen, stated that "owing to the vastly changed conditions as compared with those in existence at the time the present wage scales were made, both the conductors and trainmen believe they are entitled to an increase in wages."

The movement was begun at a meeting of the chairmen of the adjustment committees held in Kansas City in June, the decision being reached that an increase of from 10 to 20 per cent should be demanded. The chairmen of these committees met again in Cleveland, O., July 24, where the project was submitted to the grand officers of both bodies. With a few alterations and corrections to conform to the laws of both organizations, it received their endorsement.

The lodges are now voting and send the returns to Kansas City where the joint committees will hold their meeting Oct. 12. Should a two thirds vote be cast in favor of demanding an increase in wages on any one or more railroad systems, or on railroads within the prescribed territory, the joint committees will prepare a uniform wage scale for all parallel lines, through lines and independent systems and feeders to these.

"The present talk of a wide spread strike is unwarranted sensationalism," declared Grand Chief Clark of the conductors.

"No strike will occur, at least not until all other means have been entirely exhausted and then only upon a two-thirds vote of the members of the organization involved."

Mr. Morrissey for the trainmen said: "If anything is done it will be along orderly lines in accordance with the long established policies of the bodies affected."

QUIET REIGNS.

Peace Hovers Over the Mines at Wyoming Mining Region.

Wilkesbarre, Pa., Sept. 16.—Sheriff Jacobs and a large number of deputies assembled at the courthouse at an early hour Monday morning in anticipation of trouble occurring at some of the mines. But outside of an outbreak at Old Forge, in which an Italian was badly beaten by strikers, the day was a very quiet one in the strike region.

John Fallon went to Nanticoke early in the morning to head off any trouble in that section, and other prominent officials of the United Mine Workers went to other parts of the country to advise against any marches on the collieries. But no marches were attempted, neither was there any effort made to resume work at any of the big mines. It is said that the attempt may be made when least expected, probably some day this week.

An important conference will be held at strike headquarters. Among those who will take part will be President Mitchell, District Presidents Nichols, Duffy, Fahy and National Treasurer Wilson of Indianapolis and Samuel Gompers, president of the American Federation of Labor. Bishop Fallows, of the Reformed Episcopal church of Chicago, may also be present. It is stated the chief topic will be the relief plan. Mr. Gompers, it is said, has some proposition to make which will insure steady relief for the striking miners all winter, should they decide to continue the battle.

NEGROES ARE BARRED.

The Republicans of Alabama Will Not Admit Them as Delegates.

Birmingham, Ala., Sept. 16.—The Republican executive committee has refused the admittance of negro delegates to the state convention which meets here. This action was the result of several hours' strenuous struggle between those of the new regime, known as the Lily Whites, and those not in favor of barring out the negroes. This means that henceforth the Republican party in Alabama is to be a white man's party.

The elimination of the negro was accomplished through the passage of a resolution adopting the report of the sub-committee which was appointed at the meeting of the full committee on Saturday, and which had considered all contests and passed upon all credentials presented by delegates throughout the state. When this report was read not a single negro's name appeared upon it, although on the list of delegates from more than one county there were the names of negroes when the credentials were given to the sub-committee for action.

Immediately following a resolution to adopt the report as a whole there came from several parts of the house protests of a vehement nature. These protests kept coming in so fast that at one time it looked as though the resolution could not be passed. By strenuous work, however, those favoring the resolution finally put it through with a vote of 17 for to 10 against.

An Election Will Be Ordered.

Austin, Sept. 12.—The governor has addressed a letter to M. D. Carroll of Mincoola, advising him that an election for the successor to the late Congressman DeGraffenreid would be ordered according to the old district.

Will Not Leave.

Manila, Sept. 15.—Commissioner Luke E. Wright will not leave for home on the United States army transport McClellan with Gen. Chaffee, being prevented from doing so by work still to be completed.

Anti Win in Nolan County.

Sweetwater, Tex., Sept. 12.—Returns from all boxes in Nolan county give the anti-prohibitionists about 30 majority.

ANNOUNCEMENT

By Texas State Fair Management.

On the morning of July 20th, our grounds were visited by a fire which swept away Exposition Building and Music Hall, the Poultry Department and smaller buildings, including the Green House, and which withered a large part of the trees, shrubbery and flowers, entailing a loss of \$100,000.00. But we are glad to be able to announce that heavy as this loss is, and late in the season as it came, it will in no wise interfere with the Fair, which, as previously announced, will open on the 27th of September and continue until the 12th of October and will be fuller in each of its departments and bigger and better in its entirety than ever before. The morning after the fire we put to work large forces of men clearing away the debris preparatory to putting up modern buildings modeled after those at Buffalo and Omaha.

On account of the fire we will not lose a single one of our exhibits or attractions, nor shall we be compelled to turn away any for lack of space. W. H. GASTON, Pres. SIDNEY SMITH, Sec. and Gen'l Mgr. Dallas, Texas, July 21, 1902.

NOTICE.

I have sold my entire stock of Hardware, Implements, etc., to Hadley Bros. & Co. and am out of business. I wish to thank my friends and customers for their liberal patronage, and I hope they will give the same patronage to the new firm. My books and accounts can be found at the store, where you can settle what amount you may be due me and I hope you will meet these accounts promptly as I am very much in need of money. Respt. yours, M. SUMMERS.

I have opened a barber shop next door to Barhill's shoe shop where I will be pleased to serve my friends. T. S. MILLS.

THE WEST TEXAS FAIR.

It is with pleasure that we announce to our readers that the West Texas Fair will hold its sixth annual inter-territorial at Abilene, Texas, October 14, 15, 16, 17, and 18, 1902. Each year has seen an increase in amusements and exhibits and the coming entertainment will surpass all past efforts.

Besides the usual premiums on county exhibits, some special attractive ones are offered on cotton and forage, as they are conceded to be the staple of West Texas. All departments are fully up to the standard and especially will the racing be a strong feature this fall.

Attractions of all kinds have been secured and the management will spare neither pains nor money to please the people. The time has come when the western portion of Texas is in position to support an enterprise of this kind and Abilene will supply that want.

For premium list, racing program or any other information concerning the West Texas Fair, address MAX R. ANDREWS, Secretary, Abilene, Texas.

CROUP

Usually begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Linctament externally to the throat. 50c at R. Phillips & Son.

MULES WANTED.

We want a car load of broke mules, 4 to 8 years old, 14 hands or over. See us at once. A. G. & S. E. WEBB, 41-4t Baird, Texas.

For a bad taste in the mouth take Chamberlain's Stomach and Liver Tablets. For sale by R. Phillips & Son Baird Texas and Y. A. Orr Putnam Texas.

All who desire to have Electric Lights wired in their houses will please leave order for same at Harry Meyer's hardware store. A. V. Wallan, Mgr. 41-2

Josh Westhafer, of Loogootee, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost him five dollars a bottle for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by R. Phillips & Son Baird Texas and Y. A. Orr Putnam Texas.

A Communication.

MR. EDITOR—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. BROCKMAN, Bagnell, Mo. This remedy is for sale by R. Phillips & Son, Baird Texas and Y. A. Orr, Putnam Texas.

NOTICE TO CUSTOMERS.

I will exchange new furniture for second hand goods. Will also trade for your second hand heating stoves and cook stoves. J. T. SANDS, 41-1t Baird Texas.

EXCURSION RATES.

A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party, that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip success-fully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by R. Phillips & Son, Baird Texas, and Y. A. Orr, Putnam Texas.

FARMS TO RENT.

Two good farms within five miles of Baird, to rent for cash. One hundred acres in each farm. Teams and tools for sale on farms. J. E. PACE, Mangum, O. T. or JESSE RICE, Baird, Tex., 35-12t

Devoured By Worms.

Children often cry not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at R. Phillips & Son.

Raised From The Dead.

C. W. Landis, "Porter" for the Oriental Hotel, Chanute, Kan., says: "I know what it is to suffer with neuralgia indeed I did, and I got a bottle of Ballard's Snow Linctament and I was 'raised from the dead.' I tried to get some more, but before I had 'disposed' of my bottle, I was cured entirely. I am tellin' de truth too." 25c, 50c and \$1.00 at R. Phillips & Son.

THE SUNDAY SCHOOL.

LESSON XIII, THIRD QUARTER, INTERNATIONAL SERIES, SEPT. 28.

Text of the Lesson, a Comprehensive Review of the Quarter's Lessons. Golden Text, Deut. viii, 18.—Commentary Prepared by Rev. D. M. Stearns.

(Copyright, 1902, by American Press Association.)

LESSON I.—The giving of manna (Ex. xvi, 1-15). Golden Text, Matt. vi, 11, "Give us this day our daily bread." If we would as the people of God please Him, we must remember that in Him we live and move and have our being, that He giveth life and breath and all things and that in His hand are our breath and all our ways (Acts xvii, 25, 28; Dan. v, 23). Therefore without a murmur we should gratefully accept day by day all He sends or permits to come and daily feed on Him in His word (John vi, 57).

LESSON II.—The Ten Commandments—duties to God (Ex. xx, 1-11). Golden Text, Luke x, 27, "Thou shalt love the Lord thy God with all thy heart." Because He delivered them from the bondage of Egypt by His great power that they might for their own happiness and the happiness of others be a special people unto Himself He asks their whole heart, and no true lover would like less from one he loved.

LESSON III.—The Ten Commandments—duties to men (Ex. xx, 12-17). Golden Text, Matt. xix, 19, "Thou shalt love thy neighbor as thyself." The Golden Text tells us the only way in which we can show to man that we love God is by loving our fellow men.

LESSON IV.—Worshipping the golden calf (Ex. xxxii, 1-35). Golden Text, Ex. xx, 3, "Thou shalt have no other gods before Me." One of the most amazing things recorded in Scripture is the love and the long suffering of God, and another is the great sinfulness of man. These people who had said to God, "All that Thou sayest we will do," are seen in a few days making an idol and calling it their God; yet He bears with them.

LESSON V.—The tabernacle (Ex. xl, 1-38). Golden Text, Ps. c, 4, "Enter into His gates with thanksgiving and into His courts with praise." Although they were such as they were and He knew them thoroughly, yet He commanded a tabernacle to be built that He might dwell in it among them. The Lord Jesus was indeed the true tabernacle, God manifest in the flesh (Heb. viii, 2; 1 Tim. iii, 16), and now each believer is a temple of God (1 Cor. vi, 19, 20).

LESSON VI.—Nadab and Abihu (Lev. x, 1-11). Golden Text, 1 Thess. v, 6, "Let us watch and be sober." God had sent from heaven the fire to consume the sacrifice (chapter ix, 24) and had appointed the way in which everything should be done, but these men, like Cain, disregarded God's way and preferred their own way before the Lord, and before the Lord they died. All in our churches today that is not of God may be counted strange fire.

LESSON VII.—Journeying toward Canaan (Num. x, 11-13, 29-36). Golden Text, Ps. xxxi, 3, "For Thy name's sake lead me and guide me." God never left them, although they oft provoked Him to do so, but the pillar of cloud by day and of fire by night was their faithful guide and oracle and shield. Moses seemed inclined to lean a little upon his father-in-law, but in that he was wrong.

LESSON VIII.—Report of the spies (Num. xiii, 1-13, and xiii, 25-xiv, 4). Golden Text, Ps. xl, 4, "Blessed is that man that maketh the Lord his trust." This looking to see if God was as good as His word and if the land was what He said it was gave no evidence of faith in God. But because they desired to deny the spies God permitted them (Deut. i, 29-33), and we see the result.

LESSON IX.—The brazen serpent (Num. xxi, 1-9). Golden Text, John iii, 14, 15, "And as Moses lifted up the serpent in the wilderness," etc. There are many foreshadowings of God's way of redemption, such as the shedding of blood and the coats of skins of Gen. iii, 21, and the sacrifice of Isaac in Gen. xxii, but none more suggestive than this of the serpent upon the pole to which our Lord refers.

LESSON X.—The prophet like Moses (Deut. xviii, 9-22). Golden Text, John vi, 14, "This is of a truth that prophet that should come into the world." Every prophet, priest and king, as well as every sacrifice and the whole tabernacle and its furnishings, all foreshadowed the true Prophet, Priest and King, the true tabernacle, the true and only Lamb of God, of whom the Father said, Hear Him!

LESSON XI.—Loving and obeying God (Deut. xxx, 11-20). Golden Text, 1 John v, 3, "For this is the love of God that we keep His commandments." The New Testament comment upon this lesson in Rom. x points us to Christ, who is the end of the law for righteousness to every one who believeth, the only one who ever truly loved and obeyed God and who becomes the righteousness and the life of every believer.

LESSON XII.—The death of Moses (Deut. xxxiv, 1-12). Golden Text, Ex. xxxiii, 11, "The Lord spake unto Moses face to face." The greatest of earthly prophets died; all kings and priests die; it is appointed unto men once to die, but our great High Priest, Prophet and King tasted death for every man, died, rose from the dead, is now at the right hand of God in heaven, crowned with glory and honor, and will come again to restore all things of which Moses and all the prophets have spoken (Heb. i, 1-3; II, 9; Acts ii, 19-21). Every believer is one with Him in the glory, shall take part in the first resurrection and reign with Him in His kingdom.

American Shoes Go Abroad.
The exporting of American shoes is comparatively recent growth. In 1925 this country exported only \$1,000,000 worth of boots and shoes, but for the fiscal year 1931 it sent abroad \$5,500,000 worth of boots and shoes, and England and her colonies took \$1,400,000 worth of this total.

Campanile Legends.
One of the legends connected with the Campanile is that Napoleon I. rode on horseback to the very top; but whether this is true or not, it is quite sure that a young officer, Count Wimpson, went up 160 feet, also on horseback, while Venice was under Austrian dominion.

To Train Colored Girls.
A training school for colored nurses has been established in Charleston, S. C., by a colored woman physician, Dr. Lucy Hughes Brown, a graduate of the Woman's Medical College of Pennsylvania. The Southern people seem to take kindly to this innovation, and the enterprise is highly commended by the Charleston press.

Clergyman Tells Fish Story.
Rev. Dr. Howard Lee Jones, pastor of the Baptist Church of the Epiphany at New York, claims to have caught a black bass in Connecticut weighing five and one-half pounds and measuring twenty-two inches. These figures are absolutely authentic, for they were furnished by the reverend fisherman himself.

Morning in the Country.
Only the born countryman rises with the sun to enjoy the freshest and loveliest part of the day, which is between sunrise and 8 a. m. The equal or vacation countryman rises with the breakfast bell, which is generally rung at the accommodating hour of 7:30. The farmer rightly thinks that the urban visitor is fit only to take money from.—Boston Journal.

Encouragement for Marconi.
The Royal Academy of Lincei, at Rome, conferred an unusual distinction upon Signor Marconi, in awarding him, by unanimous vote, at its last meeting, a prize of the value of 10,000 lire. It was adjudged to him in token of the interest taken by the academy in the progress which wireless telegraphy has made and continues to make through Signor Marconi's work.

A Sure Test.
Words, money, all things else, are comparatively easy to give away, but when a man makes a gift of his daily life and practice, it is plain that the truth, whatever it may be, has taken possession of him.—Lowell.

Will Erect Monument to Castelar.
A committee of prominent Spaniards has been selected to raise a fund to erect a monument at Madrid to the late Emilio Castelar. The subscription has already reached 100,000 pesetas.

German Mines Shut Down.
Notices of dismissal have been posted on the colliers in the Bochum and Dortmund districts, Westphalia, where it has been decided to restrict the output of coal.

Relic of Prince "Charley."
Prince Charley's tartan cloak, which he wore during the rebellion in 1745, is now being exhibited in a tailor's window at Pitlochry, Perthshire.

Seton's Studies of Animal Life.
Ernest Seton, whose studies of animal life have delighted so many readers, for twenty years has been not only by word or sketch every small fact he discovered. Among them are innumerable footprints of wild animals, most of which he gives Mrs. Seton credit for obtaining. She has often gone into an animal's case in the New York zoo and with the keeper's assistance caajoled the creature into walking to and fro on light brown paper which would show his tracks.

Centenary of Thomas Aird.
Steps are being taken in Dumfries to commemorate the centenary of Thomas Aird, the Scottish writer of prose and verse. Aird was a fellow student and lifelong friend of Carlyle and during his life he was intimately associated with many other notable men of letters. Among other arrangements in connection with the centenary a bust of the poet by John Hutchinson, R. S. A., will be placed in the vestibule of Dumfries library.

The Only "Harp" There.
The waiters at a big restaurant in the Park Row building are all French or German, with one exception, and he is a son of the "ever faithful isle." "Patsy," said the man with the very high collar, cocking his ear, the better to hear the orchestra playing in the upstairs dining room. "Is that a harp they have upstairs?" "No, sir," said Patsy, "I guess I am the only 'harp' there is here."—New York Tribune.

Fearful Destruction of Sheep.
Mr. Samuel McCaughey, the Australian sheep king, has suffered a record loss on account of the great drought. It has diminished his Riverina sheep flock of 1,250,000—the largest in the world which belonged to one man—by no fewer than 1,000,000 head.

Got Paid for His Autographs.
It is related that Prince Metternich once asked Jules Janin for his autograph. Janin took a sheet of paper and wrote over his signature: "Good for a hundred bottles of *St. Raphael* to be placed in my cellar." The prince sent them.

A Peculiarity of the Snake.
A remarkable phenomena in connection with the digestive powers of big snakes has been observed. It seems that the gastric juices of their stomachs are so powerful that they dissolve even the bones and teeth of the animals they have swallowed. A peculiar fact is that, on occasions when the snake has accidentally swallowed one of its own teeth, the tooth will be found undigested; whereas, the teeth of its prey always disappear in the snake's digestive process.

Dogs at Newport.
Dogs have always been popular at Newport. Time was when it was usual to see pretty young women ride up and down Bellevue avenue with poodles of price at their sides—high-priced, high-bred pets, shaved in the most astonishing designs and all decked out in fancy ribbons and bells. Fashion has changed that, but pups are more popular than ever. There are pet dogs in Newport that cost \$3,000 each.

Agricultural Banks in Turkey.
The empire of Turkey possesses an extensive system of agricultural banks under government management, the purpose of which is to furnish small loans to farmers. The capital is provided by a light annual tax on agricultural property. Principal agencies have been established in sixty-five cities, capitals of provinces or counties, and there are 803 branches in less important places.

Fifty Years a Minister.
The Rev. J. W. Chesley, rector of All Faith parish, Mechanicsville, St. Mary's county, Maryland, celebrated the fiftieth anniversary of his ordination to the ministry at All Faith, the old parish church, July 16.

Inventor Is Wealthy.
Lord Kelvin is the richest of British inventors. He is now receiving royalties on fourteen of his patent appliances which have been fitted on board the latest Japanese warship.

Growth of the Nails.
The nails of two fingers never grow with the same degree of rapidity. The nail of the middle finger grows with the greatest rapidity and that of the thumb the least.

The Storing of Honey.
Honey properly stored will improve with age, and the older it is the better it will be. But kept in a damp place it soon becomes thin and watery.

Prince Henry a Musical Composer.
The Emperor of Germany is not the only member of his family who finds time to do other things than those of state. Prince Henry of Prussia has composed a gavotte, which has been published at Leipzig. He has also arranged a composition for a string band.

Chuck the Pipe Out of the Window.
The Ladies' Home Journal for this month has a long article telling what husbands should do to please their wives. When you are sitting in a room, reading, and your wife comes in, arise to your feet promptly, and bow.—Atehonian Globe.

To Start Work on Battleship.
Work on a foundation for the ways on which the new battleship Connecticut is to be built at New York navy yard will be started shortly, it is announced. It will be necessary to drive 3,000 piles, because of the sandy soil.

An Officeholding Family.
At Guildford, England, the other day, upon the presentation of the honorary freedom of the borough to Ferdinand Smallpeice, who for upward of a quarter of a century filled the office of town clerk, it was stated that 400 years ago exactly Thomas Smallpeice was mayor of Guildford, and since then no fewer than thirteen other members of the family have filled the chair.

One Prayer Always Answered.
A friend tells me, says "M. A. P." that he met Mr. Balfour one evening at a dinner party, when the conversation turned on the importance in life of self-confidence. My friend repeated the saying, "God give us a guide or ourself." Mr. Balfour heard it, and, bending across, added: "And that, sir, is the only prayer the gods always answer!"

Second Time of Taking.
A dignified gentleman in Liverpool, Rev. Mr. Radley, while at religious meeting, met with a slight accident. As he was about to sit down he missed his chair and fell with a thud on the platform. When at last it came to his turn to speak the chairman introduced him in these words: "Mr. Radley will again take the floor!"

What Twenty Acres Will Do.
It is estimated that twenty-two acres of land are necessary to sustain one man on fresh meat. The same space of land, if devoted to wheat culture, would feed forty-two people; if to oats, eighty-eight; potatoes, Indian corn and rice, 175, and if to the plantain or bread-fruit tree, over 6,000 people.

Touching Benevolence.
"We want the people not to patronize the hated opposition that is now springing up," wailed the man who represented an incompetent monopoly. "We are not afraid of competition, but we know the other people will lose money at their venture, and we can't bear to see them do it."

A Peculiar Election Law.
The peculiar primary election law of South Carolina compels a candidate for state office or for United States senator to make at least one speech in every county of the state before the date of the primary election. As a result the pursuit of office in the Palmetto state has, as the Atlanta Constitution says, developed into a profession, requiring a strenuousness and endurance that qualify the candidates for membership on a 'varsity eight or champion football team.

Author Seeks Fresh Material.
James B. Conolly, whose stories of sea adventures, have given him high rank among the younger American writers, is off on a European trip in search of new seas to conquer. His Gloucester yarns are well known. Last year he was living with the fisher folk of the North sea and the Baltic. Now he has turned his face southward and will cast his lot with the sailors and fishermen of the Mediterranean and other southern seas.

Brain and Intellect.
The exact seat in the brain of the highest intellectual faculties has formed a moot point in science since the functions of the organ of mind began to be investigated with accuracy. The general opinion localizes what we term "mind" in the prefrontal lobes of the brain, but by another school of thinkers the hinder lobes have been credited with performing our highest cerebral duties.

Veteran British Soldier Dead.
William Cox, a soldier who bore more medals than any other soldier in the British army, died at his home in Ballynahinch, Ireland, recently. Lord Roberts once wanted to give him a commission, but he refused it.

Vast Destruction by Locusts.
The Rocky mountain locust, or grasshopper, in 1874 destroyed \$100,000,000 of crops of Kansas, Missouri, Nebraska and Iowa, and the indirect loss was probably as much more.

Triumph in Surgery.
A French physician, Dr. Fontan, surgeon of the military garrison at Toulon, reports that he has recently preserved the life of a soldier who was stabbed through the heart.

Largest Building Stones.
The biggest building stones ever used are found, not in Egypt, but at Baalbec, in Syria. They measure sixty feet long and twenty feet square.

Giant Tree of the World.
What is undoubtedly the largest known tree in the world has been recently discovered at Converse Basin, far up in the Sierras. The monster was measured six feet from the ground and it took a line 154 feet and 5 inches long to encircle it, making it over fifty-one feet in diameter. This tree is a few rods from the company's boundary line and is on the government reserve.

Splendid Table Service.
Not even the white house can display such a splendor of tableware as the British embassy in Washington. The silver service provided for the ambassador's use is in itself worth \$10,000. It contains 1,000 pounds' weight of silver and the regal arms of England are worked upon it with exquisite skill, with flowers, birds and vines surrounding them.

Depew Satisfied with Life.
Mr. Depew, nearly a year younger than Senator T. C. Platt, but still well along in his sixtieth year, wrote from Europe to his colleague on the occasion of the latter's birthday that "I would be quite willing with this bright, beautiful and enjoyable world about us if we could indefinitely postpone the progress of time."

John W. Mackay Was an Expert.
The late John W. Mackay was one of the best expert gold and silver prospectors in the United States. In the early days on the coast he was quite famous for his ability along this line and, while unable to find "paying leads" for himself, made a living by giving expert opinions upon other people's "claims."

Farm Laborers in Sweden.
There is a special class of farm laborers in Sweden who are given so many acres of land for their own use, in consideration of so many days' labor during the year for the owner of the farm. They are a sort of fixture to an estate, and their like exists in no other country.

Heat-Measuring Extraordinary.
The star Arcturus, the hottest of celestial bodies, gives us as much heat as a standard candle six miles away. This fact was ascertained by the radiometer, an instrument which will show the amount of heat given off from a man's face at 2,000 feet distance.

Case Was Not Hopeless.
During the recent coronation bustle in London, two of society's pet dames got quarreling. One of those handy Chauncey Depew peace-makers having heard of it, asked, "Did they call each other ugly?" "No," "Well, I shall soon reconcile them."

Artificial Birds' Nests.
Artificial birds' nests are about to be placed on the fir trees of Belgium with a view to favoring both the multiplication of insectivorous birds and the destruction of the numerous insects which do so much damage to the trees.

STOCK FARM OR SALE.
1800 acres of rich, loamy land, 180 acres in cultivation, two sets houses, everlasting water, lies in edge of timber. 4 miles from Clyde, 8 miles from Baird. This is one of the best stock farms in the county.

Lingering Summer Colds.

Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A longseige like this will pull down the strongest constitution. One Minute Cough Cure will break up the attack at once. Safe, sure, acts at once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it. So'd by Powell & Powell.

Some women show their ages and some cover it with a coat of paint.

A woman will forgive a man anything except his failure to admire her.

A Parson's Noble Act.

"I want all the world to know," writes Rev. C. J. Budlong, of Ashaway R. I., "what a thoroughly good and reliable medicine I found in Electric Bitters. They cured me of jaundice and liver troubles that had caused me great suffering for many years. For a genuine, all-round cure they excel anything I ever saw." Electric Bitters are the surprise of all for their wonderful work in Liver Kidney and Stomach troubles. Don't fail to try them. Only 50 cts. Satisfaction is guaranteed by Powell & Powell, Baird, Texas, and Y. A. Orr, Putnam, Texas.

DR. MOFFETT'S TEETHINA (TEETHING POWDERS)

Rev. J. W. Berry (of Arkansas Methodist Conference, writes): "Enclosed find fifty cents for which please mail me two packages of 'TEETHINA.' We wonder how we have raised children without it. The other day a lady in Missouri sent us a package and it came at a most opportune time; our babe was in a serious condition; his bowels had been in bad condition for days, and nothing that we gave did any good; the second dose of 'TEETHINA' gave perfect relief and he has had no further trouble. Other members of the family have used it and every dose has been a perfect success."
