## GRAIN YIELD EXCEEDING ESTIMATES

### WHEAT AVERAGE 20 BUSHELS PER ACRE; FIRST BRINGS 90C

With grain yields turning out better than expected, local buyers told the Review Wednesday afternoon that they planned to ship at least 100 rail carsloads from Cross Plains this year. 52 moved from here in 1936.

E. V. Carter who has bought for B. L. Boydston here several years is again on the lot bidding for this year's crop. A new comer to the local grain market is T. A. Holck, buyer for Wilson Grain Company. The two told a representative of the Review yesterday that they "going to put Cross Plains on the map as a grain headquarters" this year.

Although harvesting will not get underway in full swing for another two or three days, several thousand bushels have already been sold on the local market. A. H. McCord marketed 1,000 bushels of wheat Wednesday. It brought him 90 cents per bushel. H. H. McDermitt sold 600 bushels of wheat Wednesday for 89 cents. Several smaller sales were also announced.

Mr. McCord's wheat is reported to have averaged 25 bushels to the acre. Mr. McDermitt's yield was not learned.

Wheat is reported yielding proportionately better than oats and barley.

Threshers will probably not benefit much in the Cross Plains trade territory before Monday. Among the machines to be operated this season are those belonging to: E. I. Vestal, Earl Webb, Olan Montgomery, C. D. Baird, Tom Cross, and R. T. Watson.

Checking with farmers, buyers and observers, the Review learned that the average yield on wheat is expected to be in the neighborhood of 18 bushels an acre. There are, however, a few spotted fields predicted to run as high as 30.

Business men and farmers alike appeared optimistic as to the outlook for the best grain market in the past several years. At least one local firm is also contemplating entering the market.

Death resulted from heart disease after an illness of several weeks. Mr. Bond suffered an attack of pneumonia early in May greatly weakening his condition. He recovered sufficiently to be up several days, however, an ailing heart returned him to bed shortly.

Born December 29, 1882, Taylor Bond was a member of one of Cross Plains' three oldest families. He was the first secretary of the city council of this city being elected at the time of the incorporation January 12, 1911. He was for more than 20 years cashier of a local banking institution, however, for the past seven years he was associated with Bond Brothers, general merchants, Cross Plains' oldest business institution.

Survivors include two brothers, S. F. Bond, Cross Plains, Parker Bond, Abilene, and two sisters, Mrs. W. E. Butler and Mrs. Tom Cross, both of this city.

All local business houses closed during the funeral service Wednesday afternoon.

Harlie Neel, formerly of this place, and Miss Dorothy Cauley, of Comanche, were married at the Methodist parsonage at Comanche Tuesday afternoon of last week at one o'clock, with the Rev. W. H. Cole reading the single ring ceremony.

The couple left immediately after the rites were concluded for San Antonio, Corpus Christi and other resort points. They returned to Comanche Saturday afternoon, then drove on to Cross Plains Sunday morning to spend the day in the home of his parents Mr. and Mrs. George R. Neel.

R. A. Boiles left Thursday for Galveston to attend a staff meeting of the M.K.T. W. N. Norman of Sealy is acting as relief agent until Mr. Boiles returns.

### TAYLOR BOND LAID TO FINAL SLUMBER IN CEMETERY HERE

Funeral services for Taylor Bond, 54, local merchant, who died at his home here Tuesday afternoon shortly before six o'clock, were conducted from the First Methodist church Wednesday at four p. m. with Dr. T. W. Brubham, president of McMurry College at Abilene, Rev. P. L. Shuler, local Methodist pastor, and evangelist Horace Erwin officiating. Burial services were in charge of the local Masonic lodge, of which Mr. Bond was a long time member. Interment was made beside the grave of a brother and business associate, B. B. Bond, who expired three months ago.

Death resulted from heart disease after an illness of several weeks. Mr. Bond suffered an attack of pneumonia early in May greatly weakening his condition. He recovered sufficiently to be up several days, however, an ailing heart returned him to bed shortly.

Born December 29, 1882, Taylor Bond was a member of one of Cross Plains' three oldest families. R. A. Boiles left Thursday for Galveston to attend a staff meeting of the M.K.T. W. N. Norman of Sealy is acting as relief agent until Mr. Boiles returns.

Miss Elizabeth Tyson left Saturday for Austin where she will attend the University this summer.

Mrs. B. L. Harpole has returned home from a Brownwood hospital, where she was seriously ill with blood poisoning. She is reported improving now, however, and complete recovery is expected within the near future. The illness was caused by a hand injury.

### Hammett Beats Agnew To Win Golf Tourney 3rd Time

J. T. Hammett, local golfing ace, became a thrice crowned champion of Philpico country club's annual invitation event Sunday afternoon when he defeated H. G. Agnew, the southpaw veteran from Ballinger, in the finals of the championship flight. Hammett won one up when he ran down a long putt for a birdie on the eighteenth green.

Going two down on the first two holes, the Philpico ace squared the match at the ninth green. Each of the next eight holes was halved. Even up and with only one hole to go, Hammett hit a beautiful drive down the eighteenth fairway. Agnew followed with a long ball slightly in the rough. Agnew's pitch to the green was short while Hammett's ball stuck on the edge. The Ballinger veteran hit his next shot up for a "gimme" and a par four, however, Hammett's long putt for a birdie three was good.

Hammett traversed the 18 holes—72 par—in 71 strokes as compared with 72 for Agnew.

Second flight was won by A. P. Jones, of Brady, in a close match over his fellow townsman Grady Morrow. Third flight honors went to W. C. McDaniel, of Cisco, who nosed out P. R. Anderson of Cross Plains. Floyd Joyce, of Pioneer, took fourth flight laurels with a one up triumph over Rass Bomer, Cross Plains.

First flight consolations were won by Gid Faircloth of Ranger. He defeated W. W. (Red) Milner of Hamlin. The second flight consolations were won by Lowry Horton, of Rising Star. Third flight consolations were capped by O. J. Russell of Cisco. Chief Williams of Ranger won fourth flight consolation.

Prizes were awarded immediately after the close of the final match to winners and runners up of each flight, and to Bob Sikes of Eastland, medalist, to W. W. Milner, winner of the driving contest, and to Fred Tunnell, of Rising Star, approaching contest victor.

Officials of the tournament declared yesterday that this year's event was one of the most successful in the local club's history, from the standpoint of entrance, interest manifested, finances and sportsmanship. Plans are underway to build grass greens at the course before next year's tournament.

### LOCALS WILL PLAY SANTA ANNA SUNDAY

Philpico country club golfers will seek to dethrone the league leading Santa Anna team when they invade the local links Sunday afternoon. The domestic's chances, however, will be somewhat impaired by the absence of at least three ladder top-notchers.

Santa Anna is expected to bring at least 12 golfers here for the engagement, the Review was told Thursday morning.

If Philpico is able to defeat the Santa Anna team here and then repeat at the Santa Anna course, the Mid-Texas Golf Association championship will in all probability, come to the local club, say league observers.

Mrs. B. L. Harpole has returned home from a Brownwood hospital, where she was seriously ill with blood poisoning. She is reported improving now, however, and complete recovery is expected within the near future. The illness was caused by a hand injury.

## Grand Jury Returns 8 Indictments

### 7 FOR THEFTS ND 1 FOR ASSAULT TO MURDER; ADJOURNS

Eight indictments were returned Monday by a 42nd court grand jury, seven of the bills being for theft. The other indictment was on a charge of assault to murder.

The theft counts were: one for theft of a hog, two for theft of junk iron, three for automobile thefts, and one for theft of a suitcase of clothing.

James Dryder of near Fort Worth, who, with two Abilene boys, had been charged with theft of an automobile Sunday was no-billed. The automobile, owned by R. F. Mayfield, was taken from in front of a church at Baird Sunday. The car was recovered and the trio captured in Mineral Wells. Investigation revealed that Dryder had been picked up in Eastland by the Abilene boys.

Members of the grand jury were Ace Hickman, foreman, J. L. Farmer, John Berry, Leeman Hayhurst, E. D. Henderson, W. R. Wagner, Jr., Ode Strahan, R. M. Morrissett, C. M. Peck, Bill Flatchett, J. H. Barr, Fred Cutbirth.

### BROTHER OF LOCAL LADY IS INTERRED

Charles R. Austin, 45, of Lamesa and formerly of this place, died at his home Monday, May 31, of complications incurred in France when he was a member of the American Expeditionary Forces. He had returned to his home shortly before his death from the Veteran hospital in Kerrville.

He was interred in a Lamesa cemetery after the funeral services, conducted by Rev. William Thomas, Methodist pastor at Childress, there Tuesday.

He is survived by a sister, Mrs. Sam Swafford, of Cross Plains, one other sister, and four brothers. Mrs. Swafford and Mrs. Claude Reeler attended the funeral.

### Large Crowds Are Attending Revival In Progress Here

With 10 more days to run the Presbyterian-Methodist revival here is being attended by large crowds at both morning and evening services. Inclement weather has prevented services being held under the Baptist tabernacle as originally planned, however, the schedule still calls for moving to the tabernacle as soon as skies clear. In the meantime services are being conducted at the Presbyterian church.

Revs. F. L. Shuler and S. P. Collins, Methodist and Presbyterian pastors respectively, are alternating in the pulpit. The former was to preach last night—Thursday.

General management of the meeting is under the supervision of Horace Erwin, nationally known evangelist and gospel singer.

The revival is to continue through June 20.

A most cordial invitation to come and worship in any or all of the services has been extended to members of all churches, as well as to members of no church at all.

Emmett Branson of Talpa was a visitor in the home of Miss Ruth Mae Kelley and parents Thursday and Friday.

Miss Nancy Henkel had as her guests this week Misses Lucille Adams and Theda Evans of Burkett.

Mr. and Mrs. Scott Gilbert and daughter Frances, of Woodson were visitors here on Thursday of last week.

### Home Town Gossip

Believe it or not the epidemic of prizes hit a lull in the ol' home town this week, however, the mums are repeating and there are swollen jaws here than we'd like to count.

Perhaps you've noticed it ere, but anyway Kate Fleming is bringing a new diamond on the 4th finger of her left hand. The 400 is beautifully mounted on old gold band. Do you know it's difference, or perhaps we're guess-widly Katie.

Cross Plains had two prize winners in Philpico country club's annual golf tournament last weekend. While this department did not intentionally detract from the ability of either of the town nubile welders, it should be said that their luck was much better than their golf.

R. Anderson copped runner-honors in the third flight by being only one match. He drew wells in the first and third bids to place him in the finals, and counts Rass Bomer, who is a luckier, Rass was runner-up in the fourth flight before he ever had a ball. For a visit, eyes and hands were responsible for his eventual advance.

Anyway, both the fellows now dandy prizes while all this must claim is another moment experience.

Three Year Quail Law For Callahan

Since a move was started at the beginning of the year intended to preserve, promote, and improve the conditions of our wildlife in Callahan the county agent has watched with the keenest of interest a bill presented in the legislature that would prohibit the taking of a quail in the county for the coming three years. That bill has now become a law and has received the signature of the Governor. This law comes right at the time when men all over the county are becoming interested in setting up a voluntary game preserve in cooperation with the Texas Extension Service which has secured the cooperation of the State and Federal Departments in wildlife preservation.

application for fish to come from the State fisheries this year. Members of the Association may call at the office any day and their application will be taken. Many of the farmers and ranchers, both of the small and large landowners, are becoming members of the Association. They wish to be good neighbors with each other. They intend to see that the game and fish, our wildlife, shall be protected and the supply increased and that men who have no regard for the other fellows property shall become a most unwelcome guest on their property.

The wildlife of Texas even in its present depleted condition has an annual value of ninety million dollars. Such a valuable natural resource commands our attention. It is a thread of natural fiber that should be woven into the fabric of a well balanced farm program in this state. Since our wildlife in Texas has such value it is necessary that we protect this most valuable farm crop.

Letters have gone out this week to many landholders that they may avail themselves of the opportunity of signing and thus becoming a member of the Association. For any who might have been missed the county agent would appreciate their dropping in on the office and signing and asking any questions relative to this move. This proposition meets with a ready response with all true lovers of nature and very few men in Callahan who own their property have been slow to see the value and need of such a demonstration.

Most AAA Checks Have Been Paid

With payments under the 1936 Agricultural Conservation Program practically complete, the Texas Triple A force has certified for payment to the General Accounting Office 482 Callahan County Applications, total \$46,358.06, according to R. B. Jenkins, county Agricultural agent.

Total payments of the State are expected to be slightly in excess of \$3 million dollars. To date the Texas office has certified for the payment of 182,329 applications totaling \$32,482,416.53, figures released by Geo. Slaughter, chairman of the Texas Agricultural Conservation Committee, here.

It is expected that Callahan will receive about \$1500 from the applications still pending. Prairie Dog Poison Also Affects On Ground Squirrels.

Mrs. Mamie Johnson of Opdin told the county agent last week that she found prairie dog poison to be equally as effective against ground squirrels as against prairie dogs. She said she had placed about one-half teaspoonful of the poison grain in the holes of these squirrels and the next day she found her squirrel on the out side dead.

Fred Cuthbert reported that he had been very successful in the eradication of dogs on his ranch and expected to complete the job

WARM POLITICAL CAMPAIGN PROMISED IN TEXAS IN 1938

Observers on Capitol Hill are looking forward to a series of political pyrotechnics in 1938 which will by far overshadow anything that has been seen in this state in the past decade.

The gubernatorial campaign will attract widespread attention. In addition to the prospective battle of giants between Attorney General William C. McCraw and Railroad Commissioner Ernest O. Thompson there will be several darkhorse candidates who will be fighting for run-off with one of these two top-fighters with the hope of getting the support of the one who is pushing overboard in the first primary.

Among those who are said to be seriously considering the race is Rev. Clarence Farmer of Fort Worth, who has made a name for himself among the pension people. There is some talk of Elliott Roosevelt, son of the president and also a Fort Worth resident, making the race. Karl Crowley, a third Fort Worth man, is believed to be making plans for the race.

In his recent column "Farmer Jim" Ferguson hinted that a "son of the soil" might step into the spotlight within the next few months. Some say Ferguson has in mind running Roy Sanderford again, but there are some who believe that Sanderford's race track lobbying against repeal this session has made him too vulnerable a target for a race. Sunday this reporter saw Ferguson having a talk on his front porch with John Wood, minority member of the state highway commission.

Incidentally, if the chairman of the highway commission, Gen.

Robert Lee Bobbitt, should decide to make the race it is probable that Thompson would not. Wood has been rumored as Ferguson's choice by some.

An unconfirmed rumor is that Governor Allred will not accept a federal judgeship but will urge the appointment of his secretary of state, Ed Clark, to that position. Newspapers erroneously reported last week that the state labor convention had adopted a resolution urging the legislature to not repeal racing. Such a resolution was offered but was then defeated through the efforts of Wallace Reilly, secretary of the state federation of labor. Four members of the state senate are considering the race for lieutenant governor. They are Wilbourne Collier, Clay Cotton, Will Pace and G. H. Nelson. Farm leaders are anxious for Governor Allred to sign the soil conservation bill passed in the regular session. Their hope is to get the bill on the books so that it may be changed to conform with federal requirements at some future session.

Don't be surprised if old age assistance checks are lower in June or July. Board of control members have indicated that failure of tax legislation at the regular session may force prorogation of checks in the near future. Plans are already under way to put the four-year term resolution through four-year term resolution through the legislature in the forty-sixth legislature. Rep. H. L. McKee is said to have abandoned his idea of running for Railroad Commission to return to the house to lead the fight.

Moreland Baldwin returned home last week end from Austin where he was a student in Texas University. He is the son of Mr. and Mrs. W. B. Baldwin.

DO YOU WANT TO WIN THE SILVER ANNIVERSARY 500-MILE INDIANAPOLIS RACE OR FIRESTONE GUM-DIPPED TIRES AT 113.58 MILES PER HOUR? BREAKING ALL RECORDS STOP! I KNOW I COULD WIN IF MY TIRES COULD STAND THE TERRIFIC HEAT GENERATED AT THESE HIGH SPEEDS. STOP WORDS CANNOT EXPRESS MY GRATEFUL APPRECIATION FOR THE MARVELOUS STRENGTH BUILT INTO YOUR TIRES AND THEIR OUTSTANDING PERFORMANCE.

Gum-dipped cords PROVIDE THE EXTRA MARGIN OF SAFETY ON THE SPEEDWAY OR THE HIGHWAY

THOUSANDS said that tires could not stand the terrific grind. They said cars had been built with much greater speed, turns in the track had been repaved with granite-like surface, yet Wilbur Shaw drove to victory on Firestone Gum-Dipped Tires setting a new record of 113.58 miles per hour on one of the hottest days in the history of the Indianapolis track.

Think of the terrific impact on these tires as the cars roared into the treacherous turns and out again. Tons of force straining, pulling, and twisting inside the tire, yet not one cord loosened, not one tread separated from the cord body—all because Gum-Dipping, the Firestone patented process, successfully counteracted the internal friction and heat that ordinarily destroy tire life.

You will never drive your car at these record-breaking speeds, but for the safety of yourself and family you need the safest, strongest and most dependable tires. Come in today. Join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Gum-Dipped Tires—the safest tires that money can buy.

DON'T RISK YOUR LIFE ON THIN WORN TIRES No car owner is going to risk his life and the lives of his family knowingly on thin worn tires.

DO YOU KNOW THAT last year highway accidents cost the lives of more than 32,000 men, women and children? THAT a million more were injured? THAT more than 45,000 of these deaths and injuries were caused directly by unsafe tires? THAT unsafe tires are the leading cause of highway accidents and highway deaths?

"You've never asked me to go with you to the office, have you?" Vicky asked presently, quite simply. "I have seen her," Quentin growled. "Since you got home?" "There were letters waiting when I got here, ten days ago," Quentin said, the painful rush of his words showing, even under the circumstances, his relief at finding an opportunity to talk. "All that week she telephoned, and twice she came to the office, but I was only doing appointment work last week and didn't see her. Then on Saturday when Vi and the kids were here—remember?—I went up to the barn to see Moogy and the puppies, and she was waiting there—said she had been watching us on the lawn. "Good heavens!" Vicky said. "Then it isn't that Spencer's ill," she mused. "He didn't look as if he'd been ill today." "Of course not." "You've changed and she hasn't," Vicky added, in the same reflective tone. "That's it?" "I've made such a mess of it; I've let you in for all this," Quentin muttered, grinding his graying hair in his hands. "Vic, there's no use saying I'm sorry! There's nothing I can say."

"She doesn't seem to have much shame about it," Vic observed mildly. "Oh, my God, to be as happy as this again!" she said in her soul. "Now," Quentin said, after thought, and with a change of tone, "now she's everywhere. Vic, wait! Why don't you see Serena and...

FORD "60" OWNERS REPORT 22-27 MILES PER GALLON

The 60-horsepower Ford V-8 is writing remarkable mileage records on American roads. Private owners and fleet operators alike report averages from 22 to 27 miles on a gallon of gasoline. You can fill the tank of your Ford "60" and drive all day—300 to 400 miles—without stopping again for fuel. Besides costing less to run than any Ford car ever built, it sells at the lowest price in years. That's double economy! The "60" delivers V-8 smoothness and quiet at speeds up to 70 miles an hour. It is built into the roomy body as the famous "85"—with the modern features of comfort and dependability that make the 1937 Ford V-8 unquestionably THE QUALITY CAR IN THE LOW-PRICE FIELD.

### TWO-FISTED STAR USES BOTH AT PIANO

Fulfilling a boyhood ambition, Michael Whalen is spending an hour a day taking piano lessons. When a youngster in Wilkes-Barre, Pa., the two-fisted romantic young sports editor of "Woman-Wise," Twentieth Century-Fox film, co-featuring Rochelle Hudson, opening Tuesday at the Liberty Theatre, determined that he would become a concert pianist.  
Although today his success on the screen has superseded his concert ambitions, he does want to become a finished pianist, and hopes that some day he will have a screen role calling for the rendition of a classical number.

### CREATE REVOLVING STAGE FOR FILM

A Word To The Wise  
ALKA-SELTZERIZE  
EVERYONE SEEMS TO BE USING ALKA-SELTZER THESE DAYS  
I SHOULD THINK THEY WOULD... IT DOES WONDERS FOR ME

Millions of users feel that they get quicker, more pleasant, more effective relief from ALKA-SELTZER than from old-fashioned unpalatable preparations. That's why ALKA-SELTZER is more in demand than almost any other single item in the average drug store.  
We recommend ALKA-SELTZER for the relief of Gas on Stomach, Sour Stomach, Headache, Colds, "Morning After," Muscular Pains, and as a Gargle in Minor Throat Irritations.  
We really mean it.  
Use ALKA-SELTZER for any or all of these discomforts. Your money back if it fails to relieve.  
In addition to an analgesic (Acetyl-Salicylate of Soda), each glass of ALKA-SELTZER contains alkalis which help to correct those everyday ailments due to Hyper-Acidity.

## Texas to Vote on Six Proposed Constitutional Amendments in Special Election August 22

The Legislature has submitted six proposed amendments to the State Constitution to be voted on the fourth Monday in August.

In substance the six amendments propose the following changes:

Senate Joint Resolution No. 9 provides that the Legislature may authorize the incorporation of banking bodies and provide for their regulation restricting foreign corporation from doing business to one place.

House Joint Resolution No. 23 would prohibit property from being assessed at greater value for ad valorem than its market value, also to allow certain discounts on tax payments if paid at certain times.

Senate resolution number 16 applies only to Harris county in road building matters.

House resolution No. 26-A would permit the Legislature to provide necessary enactments to match State money with Federal aid in caring for destitute children under 14 years of age. And House Joint resolution No. 26 applies similarly to blind persons and aid for them.

The one which will provide the most interest perhaps is that fixing the basis and manner of compensation for all district, county and precinct officers, leaving it up to the Legislature to prescribe these compensation methods.

Out of the maze of amendments to the constitution of Texas proposed at this session of the legislature—71 of them—six will be submitted to a vote of the people.

Social security, road building, return of the fee system, limiting the liability of stockholders in state banks and discount for prompt payment of ad valorem taxes are the changes in the constitution on which the people will vote in a special election August 22.

The proposed amendment to eliminate the "no duel fighting" phase of the constitutional oath of office will await the general election in November, 1938.

### Social Security Amendment

Far-reaching in its significance is the double-barreled amendment which would bring Texas under two more phases of the president's social security plan. Aid for the needy adult blind is proposed in one section of the amendment. And up to \$1,500,000 a year for destitute children under 14 is proposed in another section. Interest also will center in the return to the fee system of compensating county, district and precinct officials. Governor Allred urged the submission of this amendment in a special message to the legislature, admitting the "error" of his former stand in favor of the salary method.

## REPORT OF CENSUS BUREAU INDICATES TRADE HERE BETTER

An accurate index of the progress of retail trade in Callahan county, in various lines of business, through comparison of sales figures for two successive years in identical business establishments, is made available for the first time in a report just issued by the census bureau.

Here is what the new report shows: The 70 Callahan county stores reporting figures for both years showed an increase from \$659,000 to \$845,000.

17 food stores, had a sales boost from \$172,000 to \$251,000.

Eight eating and drinking places increased their sales from \$51,000 in 1934 to \$67,000 in 1935.

Four general stores (with food) increased sales from \$15,000 to \$27,000.

Auto sales, service and accessory businesses showed an increase, as did filling stations. The automotive group's sales as reported by four firms, went up from \$129,000 to \$149,000, while sales of 11 filling stations increased from \$39,000 to \$47,000.

Other business groups for which increases were reported, include, 9 lumber and hardware dealers, from \$55,000 to \$57,000; and 6 drug stores with increased sales of from \$57,000 to \$73,000.

Texas' increase was from \$948,486,000 to \$1,058,277,000 or 12 per cent, with reports received for both 1934 and 1935 from 45,313 stores representing 82 percent of the State's total business.

Durwood Varner of A&M College has returned home to spend the summer months.

# HAPPY DAYS ARE HERE for me

Save the vitamins! Why cook away so much food value? Electric cookery preserves precious energy... energy that disappears into thin air when food boils or bakes the boisterous way over flame-type stove. Electrically-cooked foods cook gently. In this way, they retain the richness of the raw product, yet give the flavor of a well-done morsel. ONLY in electric cookery do you get full value from your groceries. And it's fast... and economical! Best of all, it's cool!

... and take advantage of the wonderful gains on merchandise unsurpassed quality.

It is Thursday morning and gossip column must be written. Mark a red circle around the eighth and ninth on your calendar for a good time is being had for everyone.

Some months ago a questionnaire was sent the County Agent making inquiry of him if grasshoppers were likely to be numerous in his county this year and if so how many acres did he think would probably be affected. His reply was that from the egg count then made and such there would be the largest number on record. He then asked for sufficient poison to treat 50,000 acres of land.

The first car load is going to be distributed at the rate of one pound to the field acre. It takes about 10 pounds of poison to the acre for adequate results. A strip two tenths of a chain wide around a hundred acre field would cover about three acres. At 10 pounds per acre it would require 30 pounds. Therefore 100 pounds would treat 100 acres three times which should about take care of the situation.

Farmers are asked to bring sufficient sacks to handle the mash as the bran must have the poison mixed with it before the agent can let it go. It is suggested that some extra help be brought along if much is to be got as it is some trouble to do the mixing.

There were five counties receiving poison in this shipment. They are Wichita, Cottle, Haskell, Throckmorton, and Callahan.

"The value of the shipment calculated at current market prices of the material would be \$1,000 and should treat about 40,000 acres.

Congress appropriated one million dollars to fight grasshoppers with this season and is distributing it through the Extension Service agents to the affected areas. Callahan has been promised 80 tons total if the infestation requires that amount.

This poison is being distributed free of charge to farmers and to all men regardless of whether or not they have signed a worksheet to cooperate in the AAA farm program.

"Auto-Intoxication Swells Accident Rate"

Not all "drunk drivers" are intoxicated by alcohol.

Dr. George W. Cox, Texas state health officer, says carbon monoxide in automobile exhausts causes intoxication which results in the driver becoming confused and losing control.

"Many automobile accidents each year are due to a mild form of poisoning by this gas," he says.
