Are Small Towns Coming Back?

Residents of small towns have for years wondered if changing conditions would eventually force their removal to large industrial centers. An optimistic light was thrown on the question Tuesday when the Fort Worth Star Telegram, a great metropolitan daily, printed the following editorial...

There was a theory running through a number of the years of the present century that the rural communities and smaller towns outside the county seats were doomed by the same system that, allegedly, was draining the rural districts of the active, ambitious young men and women.

But all that is changed. The highways came. The state educational institutions found their agricultural courses overrun with students, the 4-H Clubs and Future Farmers of America came into being, the county agricultural agents and the home demonstration services developed surprising reactions, and the electrification processes stretched wires over all.

It is all true, because Federal Government reports contain the facts and figures. Further, the small town merchants confirm it. Any town that had legitimate excuse for existence under the old order is now enjoying a fair share of the spread of prosperity that has replaced the seven-year depression.

F. F. A. BOYS SET UP YEAR'S OBJECTIVES TUESDAY AFTERNOON

Local chapter of Future Farmers of America met in regular session Tuesday afternoon under the leadership of Colvin Lackey, chapter president, and outlined objectives for the ensuing year.

Objectives toward which the F. F. A. boys will work are: To develop competent, aggressive, rural and agricultural leadership. To strengthen the confidence of the farm boy in himself and his work.

Under the objective to develop competent, rural and agricultural leadership, the local boys plans to send all of their officers to at least three district officers' training schools...

Means of strengthening the farm boy's confidence in himself will be by endeavoring to advance at least 50 per cent of last year's "Green Hands" to "Future Farmer Degree"...

4 LOCAL MEN MEET WITH COMMISSION IN AUSTIN TUESDAY

Two proposed state highways to run through Cross Plains were discussed by members of a delegation from this place before members of the state highway commission in Austin Monday and Tuesday. No definite commitment was made by the Commission, however, it is believed that support of the body is behind both projects.

A delegation headed by Jesse McAdams, Walter Ramsey, Chas. F. Hemphill and B. H. Freedland left Monday for Austin to meet with the commission. At the capital city they were met by County Judge L. B. Lewis and B. L. Russell, of Baird, who were there in the interest of highway 191—from Coleman to Baird. The six appeared together before the Commission.

The Cross Plains delegation asked primarily for immediate action on highway 36, right-of-way for which has been secured from the Gulf coast to Abilene. However, the local men also entered a plea, which was augmented by Brown county citizens, for a road from Brownwood to Cross Plains. Both projects are believed to have been considered favorably by the Commission, although in keeping with their policy no commitments were made.

Messrs. McAdams, Ramsey, Hemphill and Freedland returned here Tuesday night.

"THE REST OF THE RECORD"

BY JAMES V. ALLRED, Governor of Texas

The newspapers during the past week have quoted members of the Senate Committee as predicting that the Legislature would block my program for new taxes unless the subjects of appropriations and reorganization are submitted.

Such statements by the senators are calculated to put me in the false position of being opposed to economy in state government when just the opposite is true and my record bears it out.

At the beginning of the regular session, I submitted the subject of appropriations and recommended the reorganization of certain state departments in the interest of economy. Not a single thing was done about it. In written messages to the Legislature, I stated definitely that while the Board of Control had recommended increases, and certain bills for salary increases were pending, I did not join in these recommendations; nor could I approve salary, or other, increases until and unless the Legislature provided additional funds to pay them. My recommendations were ignored and appropriations substantially increased, even to the point as these senators now admit, of being "top-heavy." They would not have been "top-heavy" if my recommendations had been followed.

For the purpose of keeping the record straight, I wrote a friendly letter to Senator Albert Stone, which was not intended to criticize him or to rebuke him, but merely to point out some of the facts in the controversy that has been started in the newspapers. There are no personal differences between us. In order that the record may be kept straight and the people of Texas may have the facts in this "Rest of the Record," I am quoting the following excerpts from my letter to Senator Stone:

"In the first place, I recommended no increases (in appropriations) except a little more than a million dollars for my insane. You voted for all increases, either as a member of the Senate; one of the biggest increases was in the departmental appropriation bill, for which you voted on May 22nd, as member of a conference committee shown at page 2288 of the Senate Journal. Only four senators voted against this bill, and this was the biggest vote cast against any general appropriation bill in the Senate.

"You were a member of the conference committee which recommended the passage of the educational appropriation bill—and admittedly top-heavy appropriation—and you voted for the passage of this bill on May 22nd as shown at page 2308 of the Senate Journal.

"You voted for the passage of the eleemosynary appropriation bill on May 19th, as shown at page 1905 of the Senate Journal.

"But that's not all: There is a further contrasting record for 'economy'—

said next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND AND THE SEAL OF SAID COURT and issued at office in Baird, Texas, this 10th day of September A.D. 1937.

MRS. WILL RYLEE, Clerk District Court, Callahan County. (41-17)

"You voted for Senate Bill 14, which donated \$350,000.00 State taxes to Harris County each year for ten years, a total of \$3,500,000.00. I vetoed this bill, and you voted to override my veto and give this money to Harris County notwithstanding. Senate Journal, page 910.

"You voted for an \$821,000.00 appropriation for an insane asylum in East Texas. Senate Journal page 1592. I vetoed this and saved \$821,000.00.

"You voted for House Bill 24, which appropriated and diverted approximately \$1,500,000.00 each year for soil conservation work—and the Legislature did not provide other taxes to take the place of the diversion for which you voted. Senate Journal, pages 1588 and 2134. I vetoed it and saved the taxpayers \$1,500,000.00 per year.

"You voted for the departmental appropriation bill (S. J. 228), which carried an appropriation of \$750,000.00 for a Big Bend park, and \$250,000.00 for a cotton research laboratory. The Legislature provided no funds to take care of this appropriation, and I saved the taxpayers one million dollars by vetoing it.

"Thus, it will be seen that in addition to the 'admittedly top-heavy appropriations,' which you now wish to correct, you voted for a total of almost seven million dollars, which I vetoed. I am wondering if you can point to any such saving that you made for the taxpayers during the regular session? Or to any vote to save the taxpayers that much money? Had it not been for my vetoes, the State would now be about seven million dollars more 'in the hole' as a result of the measures for which you voted.

"I do not personally condemn you for these votes—I simply take the position that it is now the Legislature's duty to raise money to pay the increased appropriations.

"You now suggest that I submit the matter of appropriations and reorganization of the government at a special session which can only last thirty days; and after the appropriations have been made for several months and acted upon by the departments, contracts having been let under them.

"I want to appeal to your sense of fairness, Senator, is it reasonable to suppose that, waiving the question as to whether it is equitable to try to work these appropriations over after the departments have acted upon them and contracts have been made, if I should submit this subject to a special session, the same Legislature would do something in thirty days that it failed to do during a four months' session?

"In any event, even if you passed any economy measures, which I seriously doubt, could I hope for the passage of necessary tax measures that you failed to pass during a four months' session if the calendar is cluttered with anything other than revenue measures. As Governor, I am firmly convinced that no substantial saving would actually be accomplished."

The Legislature has submitted several constitutional amendments. The people have voted these amendments. No one can deny but what it is my duty as Governor to recommend a revenue program to finance the people's program. Is it reasonable to expect that the Legislature who so recently passed the appropriation by overwhelming votes, would now reverse themselves and substantially reduce the appropriations? I point to the fact that only four senators voted against the general departmental appropriation bill in the regular session. This vote is typical of all other votes on appropriation bills.

WASHINGTON NEWS

Washington, Sept. 23—Tennessee's own Cordell Hull—burning the midnight oil that our ship of State may keep her even keel, during these dangerous times of dictators and rulers jumping down each other's throats, and navigate safely the strange seas and war-stained waters to the harbor of peace with national honor intact—is outstanding among Administration appointees. No cabinet member has been immune from attack and denunciation in one form or other, mild, scathing or vicious, either from New Deal croakers, backsliders and deserters, or members of the opposition party, except the illustrious Secretary of State, Hon. Cordell Hull.

No other unelected high official retains such an exalted position of esteem, no other cabinet officer is so universally admired and respected.

This humble writer holds no degree in hagiology, nor is this column dedicated to the personal aggrandizement of any man. Yet, when we sought through-out the ranks of contentious New Deal castigators, both Democratic Lucifer and Republicans, for at least one who would give expression to even moderate, harsh or cautious judgement against the policies or person of Mr. Secretary Hull, we met with defeat.

Mr. Hull, it seems, combines diplomacy with statesmanship and devotion to duty. He shuns the pomp and heraldry of vainglorious publicity—just keeps busy doing a good job of keeping out of war.

The Pittsburg Post-Gazette, a newspaper published north of the Mason-Dixon line, in a spell of transcendental hyperpyrexia charges that a recent appointment to the United States Supreme Court has boosted Ku Klux Klan growth in certain sections farther south specifically and to-wit: that the Birmingham, Alabama Klan flouting the slogan, "A Klansman sits on the Supreme Court of the United States, Join the Klan"—is being swamped with applications for membership.

Ten years ago Mr. Chief Justice Hughes said "If conscientious, able and independent men are put on the bench you cannot predict their course by reference either to partisan motives or to personal or party loyalties." In spite of the fact that this generality has held true in the past, Alabama's Hugo L. Black, once Senator and now Mr. Justice Black, has again been catapulted across the front pages and into the center of a vicious and ugly fight—a fight that promises to project its ugly head and venomous fangs of hatred into the 1938 and 1940 elections. It is a fight which can and may, if foolishly

pressed, revive the Klan out of its present cataleptic state and create from its corpse a political juggernaut.

It has been charged, and not hypothetically, that Mr. Justice Black was and is a Ku Kluxer and that, being a member of that allegedly ethnical tribe he cannot be trusted in matters calling for free and impartial judgement; that he is hog-tied and bound by his "swaled with blood" and "witnessed by Almighty God" Ku Klux oath to "valiantly shield and preserve" class and racial supremacy.

Such magnitude and importance has this new Black Supreme Court issue assumed on the national horizon that the Washington Post carries a three column cartoon depicting a white hooded and robed Klan emblem Grand Dragon sitting on the court bench. The title of the Post's sardonic thrust is "Reform of the Judiciary," quoted from President Roosevelt.

The venerable Washington Evening Star also carries an editorial caricature showing Associate Justice Black being greeted and made welcome by Chief Justice Hughes as he, Mr. Hughes, warns Mr. Black to be careful and don the correct robe.

In its eruptive editorial the Washington Post rises to exclaim, "The burden of proof to show that he is not a Klansman rests on Mr. Black. And his unwillingness to do so comes close to self-conviction", and, further fervidly rails the Post, "If this is liberalism then Adolph Hitler is the world's outstanding liberal!"

All of which causes us to pause and wonder if any of these editors and political artists ever lived in the South!

If it proves anything, it proves that those who imprecate unmercifully in calling down damnation upon the heads of people or communities whom they suspect as being guilty of racial and religious intolerance may themselves come dangerously near being bigots.

"DANIEL BOONE" TO BE PRESENTED TO NIGHT

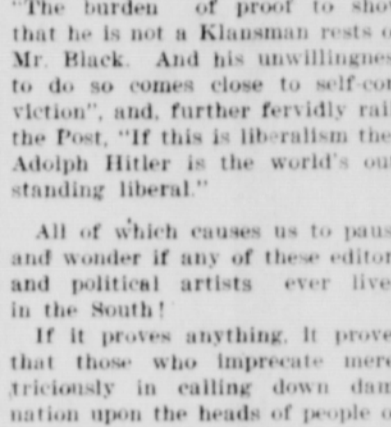

The battle on the cliff between George O'Brien as Daniel Boone, and John Carradine, as Simon Girty, renegade white man, is one of the most thrilling episodes in the historic adventure film "Daniel Boone."

The story relates how Girty, after leading hostile Indians in a nine-day attack against the settlers in the village of Boonesborough, at last comes to grips with Boone. There comes a struggle which is breathtaking and which involved much danger in the making as Boone and Girty fight it out on the virtual edge of a cliff over a sheer drop of hundreds of feet.

A strong supporting cast including Heather Angel, Ralph Forbes, George Regas, Harry Cording and others add life and color to the picture.

"Daniel Boone" is crated at the Liberty for Friday and Saturday.

SCORING RECORD

(Continued from page 1) member of the squad played, and at one time only two regulars were on the field. Against the best...

Children opened the fireworks again in the third quarter with another of his snivele dashes to the dirt. He placed kicked the extra point to make the score: Cross Plains 41, Moran 0.

Then again, Childs received a punt and kicked beautiful blocking by his mates ran 75 yards to the pay zone. His kick was bad. Cross Plains 54, Moran 0.

The performance was ended with a beautiful 25 yard run by the diminutive speedster Granville Pierce, who gave promise of making gridiron history. The 130 pound quarterback showed the Bulldogs some full-on hip action in his touchdown sprint. Placek kicked the line again for the extra point. The game ended Cross Plains 68, Moran 0.

Despite the fact that Childs scored 42 points, he was no more the star of the encounter than were Elliott, Strahan, Henderson, Lusk, McMillan, Greay and Lackey. In the line, these boys presented a forward wall that rained facts to smile secretly. Hall and Placek in the backfield looked good also.

Cross Plains made 15 first downs to Moran's two. The Cottonwood school will start Monday, September 27.

Q. For what purpose was the "Stockade" at Jefferson, built just after the Civil War, used? A. It was a prison, some 70 by 100 feet, built of immense timbers, some 15 feet high, used by Federal troops for imprisoning citizens for their activities in suppressing "cattle buggers" who had come to Texas to arouse opposition to local authorities.

News Letter and be responsible for a minimum of 30 stories in local paper.

Q. Where is Tonkaway Park? A. It is a small but attractive park at Crawford, on which the NYA will soon do about \$5,000 additional work, approximately one-fourth of which will be paid for by the town of Crawford and three-fourths by the Administration.

Q. What and where was Orazimba? A. It was the plantation home of Dr. James A. E. Phillips, on the Brazos about seven miles above Brazoria, and where Santa Anna was kept prisoner for several weeks in 1836, during which time a plot to release him was foiled by Texas officials. A marker has been erected there by Texas Centennial authorities.

Q. At what rate did Austin's colonies increase? A. The first census taken in the fall of 1825 showed 1,809, of whom there were 2,921 on June 30, 1830, 443 were slaves; on March 31, 1828, there were 4,218; in the summer of 1831, the number had increased to 5,965.

Q. What effect, if any, is the Centennial having on attendance at county and community fairs in Texas this year? A. Attendance at the local fairs and expositions this fall appears to be at least 50 per cent larger than heretofore, but whether the increase is due to the "Texas spirit" created by the Centennial can only be guessed. Perhaps a large part of it is.

Q. When did James Bowie first come to Texas? A. It is thought that his first trip was made in 1817 to visit Joan La Pette on Galveston Island, probably to interest him in Long's proposed expedition, which Bowie joined in 1819. For a short time he and his brothers, Rezin and John, were engaged in contraband slave trade with La Pette.

Q. What is the inscription on the Centennial marker at the site of the old Confederate arms factory at "Bastrop"? A. "Site of Confederate Arms Factory. Established by N. B. Tanner in 1862 for the manufacture of guns and bayonets. In operation until 1865."

POLITICAL FOES Settle '36 Co

After being shut down two days and a half because of a water shortage, work was resumed Tuesday at noon on the Phillips Petroleum Company's 4000 feet test on the Cozart farm, two miles Northwest of Scranton. Drilling was going forward at a depth of 300 feet yesterday.

To secure ample water with which to drill a line was laid to a spring about a mile Northwest of the well. Drillers told a representative of this newspaper Wednesday morning that they believed the spring would furnish an ample supply and that further shut-downs would be unnecessary.

With most acreage in the vicinity of the well tied up that which is available is commanding good prices. A 11 acre tract on the school campus was leased this week by the Scranton board of trustees for \$2500 an acre. The tract is more than a mile from the well. Only a few small tracts are said to be yet unleased.

Aside from the block of several thousand acres on which the well is located, the Phillips has another block of about equal size just North of Cross Plains. The company is expected to drill this second block as soon as the first test is completed.

PIONEER DEFEATED 37 TO 0 BY OLDEN FRIDAY AFTERNOON Pioneer high school Panthers suffered their first conference setback Friday afternoon when they were overpowered 37 to nothing by the powerful Olden Hornets.

The lighter Pioneer team battled the visitors on comparatively even terms through the first quarter, but the weight advantage of the Panthers lack of reserve material proved disastrous as the contest grew older. Olden scored late in the first quarter but the counter was due only to a costly break. Pioneer fumbled on the 12 yard stripe and a swarms of Hornets covered Melvin Holt, speedy back swept around the Panthers left end for the necessary distance and a touchdown. Olden's attempted placekick was blocked by a solid mass of Pioneer players.

The next Hornet counter came in the second quarter when Wilbur Norton skirted end, for a 75 yard gallop into pay dirt. The attempted placekick for extra point was again blocked by a charging Panthers forward wall. A few minutes later Holt raced around end for another touchdown. He passed to Norton over the goal line for the conversion. (Continued on page 6)

Law Makers Spent \$500 Worth Of Tax Payers Time To Make Little Sandwich Shop Remove 2c Deposit On Pop Bottle By Aubra Dodson Hip, hip, hooray! The solons are here again. They opened Monday and the minister prayed for wisdom. "I kinda" felt sad for I'm afraid he prayed for a lost cause. One thing the law makers won't have to worry about this session is the deposit on soda pop bottles. They took time out during the racing session to handle that. The little sandwich store just off the capitol grounds delivered the soda pop to the legislators, stenographers, clerks, etc. Well, a representative got all up in the air about having to put up a two cent deposit on the bottles. So, the house took time off at a cost of about \$500.00 to the tax payers and passed a resolution against paying the two cent deposit on bottles. So they are now getting their reformulations without any deposit. It's our guess there'll be plenty of bottles broken and missing from (Continued on page 6)
