

County Agent's Column

COMPLIANCE MEETING:
A. L. Cook, Assistant in Agricultural Conservation, Buford Tyson, clerk in county office, James Ashbury, and Ross Brison, county agent, attended a meeting held at Eastland Friday, June 3rd at which R. H. Nelson, District Supervisor, from the State office, discussed the methods of checking compliance on all cotton farms in 1938. It was Mr. Nelson's suggestion, as representative of the State office, that compliance work be started in all counties at the earliest possible date. Just as soon as all crops are planted in Callahan County it is expected that the committee will start the work of checking compliance.

SUBSIDY PAYMENTS
In view of the fact that compliance checking will be started at an early date, mainly to determine whether a cotton producer has overplanted his cotton allotment, it is expected that the work of paying off subsidy payments promised growers last fall will be speeded up considerably. All cotton producers who have not turned in sales slips covering cotton sold last fall are urged to send them in and the

county office will do all in its power to get each producer his subsidy payment.

GRASSHOPPERS:
C. H. Gable, District Supervisor in Grasshopper Control called by the county office last Saturday afternoon and commented that the grasshopper fight all over the district was well under way. He has observed in his work that those farmers who started early and sowed a strip of poison bran mash about 200 feet wide around their cultivated fields were controlling the grasshoppers. As a result no damage to fields occurred. He pointed out further that where only the fence rows were being poisoned the damage to crops from grasshoppers was heavy. Farmers of Callahan County who have practiced sowing a 200 strip in pastures outside of growing fields have reported excellent control of grasshoppers.

Farmers contacted who have used this method are E. A. Franke and W. M. Appleton, Baird; Quincy Lovin, Denton; and R. C. Yarbrough and Geo. Weeks, Union. There are many others, no doubt, who have followed the recommendations laid down above and are well satisfied with the results.

To date approximately 100,000 pounds of grasshopper poison bran mash ready to apply to fields have been distributed to 800 farmers.

DISTRICT 4-H ENCAMPMENT:

Callahan County 4-H Club boys attended the annual district club encampment held at Lake Brownwood last Monday, Tuesday, and Wednesday.

The main purpose of the camp was to provide an outing for club boys of Extension District No. 7. Softball and swimming were the main diversions. Five hours were devoted to talks and demonstrations.

J. H. Hughes carried the following boys to and from the camp in his school bus: Blanton Freedland, Robbie Joe Purvis, Richard Purvis, and Billy Mac Copinger of Cottonwood; Geo. P. Jobe and Benton Pruitt of Patnam; Robert L. Boston and J. W. Johnson of Oplais; Charnell McWhorter of Denton; Rex Baugh and David Archer of Edin; Billy Rose of Burton; and Jesse W. Redding of Milway.

POLITRY:
Many calls have been received lately that chicks 4 to 6 weeks old were dying at a very rapid rate. In practically all cases a check-up showed the disease to be coccidiosis. This is one of the most serious diseases of young chickens. It is more or less common to all types of poultry and there is no possibility of eradication. However, the proper control measures will keep the disease down to the minimum.

The most common symptoms of coccidiosis is bloody droppings. In a few days chicks begin to die unless something is done at once.

By following the procedure outlined below death losses can be held to a minimum:

(1) Thoroughly clean the house, use hot water and lye at the rate of 1/4 pound to a gallon of water for scrubbing the floor and walls. The feed troughs and drinking fountains should be scrubbed out also.

(2) Set the feed and water troughs on a frame made of 1"x4" planks and covered with 1/2 inch hardware cloth (half screen). This prevents the chicks from getting into the feed that is picked out onto the floor and contaminated with coccidiosis germs in droppings voided by chicks.

(3) Put 1 tablespoonful of soda in each gallon of drinking water. The chicks drink for 1 day. Continue to do this 1 day each week or ten days throughout the life of the chickens.

STOCKMEN WARNED TO PREPARE FOR SCREW-WORMS:
The Bureau of Entomology and Plant Quarantine of the U. S. Department of Agriculture has forecast a severe screw-worm infestation, probably worse than that of 1935, in many parts of the southwest, especially Texas and Arizona.

The screw-worm fly has started earlier than ever before. The infestation is extreme in southwest Texas had been held down by dry weather during the first part of the season, but the weather in other parts of the state has favored the rapid development of the insect.

The best way to protect livestock from screw-worms, R. E. Reppert, entomologist of the Extension Service of Texas, points out, is to examine animals frequently so that wounds may be treated before they are seriously infested. Many ranchmen report that they have found it advisable to hold wounded or infested animals in small hospital traps, located on a high open part of the range where flies are less abundant.

Reppert endorses the Bureau's recommendation for killing the maggots. The procedure is to treat the infested wound with 90 percent commercial benzol. The wound is then plugged with clean cotton saturated with benzol. Reinfestation is prevented by lightly covering the area around the wound with dehydrated pine-tar oil of 1:950 specific gravity.

The advantage of the benzol over most patented medicines lies in its low cost and in the fact that it does not cause shock to animal tissue. It does not deteriorate with age but is highly inflammable and will evaporate readily. It is this last property which makes it valuable in screw-worm control, for the maggots are killed not by the liquid but by the fumes.

Reppert also emphasized that the common pine-tar oil will often burn the animal while the dehydrated form will not.

NO WHEAT MARKETING QUOTAS FOR THIS YEAR:
The wheat crop will not be subject to the marketing quota plan in 1938, according to Geo. Slaughter, Wharton, chairman of the Texas Agricultural Conservation Committee.

The new farm act set May 15 as the latest date for establishing a national wheat marketing quota, subject to a referendum by wheat growers, and also provides that no wheat quotas can be in effect during the marketing year beginning July 1, 1938, unless provisions for parity payments have been made.

The Texas committee received word at its headquarters at Texas A and M College from AAA officials at Washington that the wheat marketing quota would have been proclaimed if parity payments had been provided for within the required time, Slaughter said.

The farm act provides that the wheat quota shall be proclaimed when the total supply of wheat will exceed the normal year's domestic consumption and exports by more than 35 per cent.

Miss Elizabeth Tyson and Miss Anna Mae McConathy left Wednesday for Lubbock where they will attend school at Texas Tech this summer.

Mr. and Mrs. Key Ferr and family of Amarillo were the guests of Mrs. Walton Wagner here this week.

It Is Dangerous
It is dangerous to sell a SUBSTITUTE for 666 just to make three or four cents more. Customers are your best assets; lose them and you lose your business. 666 is worth three or four times as much as a SUBSTITUTE.

MOTORING MANNERS
Ralph Waldo Emerson wrote, "Life is not so short but that there is always time for courtesy". There is more need for that sage philosophy now than when he wrote it before the automobile was invented. We all know persons who appear to be well bred, quiet and courteous ladies and gentlemen in their homes or yours who become hoarse-toned, noisy roughnecks when they get behind the wheel of a motorcar.

Why can't we take our best behavior with us upon the highway. Many persons who could never think of crowding in front of other people at a ricket window or into a door of their homes deserve the most discriminating judge of refinement until they get in an automobile where they become selfish savages with absolutely no regard for the safety and rights of others. The next time you feel the urge to cut around some other car at a high speed thereby endangering the lives of your own and the other car's passengers think how you would feel if the driver of the other car ran into a restaurant ahead of you and selected the chair that you were orderly approaching.

Ninety percent of the speed savages are weaklings either mentally or physically who can only express their superiority with the aid of a machine that some one else built, they deceive themselves when they pass another car that they have accomplished some knightly feat when in reality they are the reincarnation of the tragicomic bad man of another day who made the slogan of the Colt famous. You are not the equal of a gentleman merely because you insist on going around him in your car no more than was Billie the Kid because he happened to be faster on the draw than some of the other boys.

If you are a gentleman don't pull off your manners when you get in your automobile, you may need them more when you arrive at the party.

Mr. and Mrs. M. T. Hudson and children, Mrs. A. G. Hudson and Miss Pearl Hudson of Hamlin, visited Mr. and Mrs. C. D. Hudson and family Sunday.

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream, but kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body mechanism.

Symptoms may be nagging backache, persistent headache, feeling of dizziness, getting up nights, swelling, puffiness under the eyes, a feeling of nervous anxiety and loss of pep and strength.

Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills—they have been winning new friends for more than forty years. They have a worldwide reputation. Are recommended by grateful people the country over. Ask your neighbor!

CHILD WON'T EAT
If there is a child in your home who simply will not eat, is weak, listless, has no appetite and does not gain, try Doan's Pills. They have been winning new friends for more than forty years. They have a worldwide reputation. Are recommended by grateful people the country over. Ask your neighbor!

"DEAD END" POWERFUL DRAMA OF LIFE IN A CITY STREET TUESDAY

Twentyfour hours of throbbing life in a city street, paved with riches and poverty, comedy and tragedy, romance and heartaches, unfolds across the screen in Samuel Goldwyn's production of "Dead End," which begins a two-day engagement at the Liberty Theatre Tuesday night.

Sylvia Sidney and Joel McCrea are starred at the head of a great cast in this powerful human story based on the stage hit by Sidney Kingsley.

Miss Sidney has her greatest role as Drina, the girl who valiantly fought a losing battle to keep her little brother Tommy from the gangster's fate ahead of him and to raise them both out of the slums.

Great Cast McCrea is seen as Dave, the poor architect she loved, who dreamed of tearing down all the tenements in the world, and loved the beautiful Kay, played by Wendy Barrie, who had found a way out of the slums into penthouse luxury. Humphrey Bogart plays "Baby Face Martin," the killer, drawn back from his gangland haunts to the slum where he was spawned, by an irresistible yearning to see his mother and his beloved sweetheart "Tracy," once more—who faced the cold steel of the gunner's bullets, all to find that his mother hated the very sight of him and that Tracy had taken life the easiest way.

Claire Trevor plays Franey, Alvin Jenkins is seen as Hank, "Baby Face's" henchman and Billy Halop, Gabriel Dell, Bobby Jordan, Hantz Hall, Lew Gorney and Bernard Punsley in the Dead End kids from the original New York stage cast, are seen again in their unforgettable characterizations of Tommy, "T.R.," "Angel," "Dippy," "Spit," and Miltie.

Dr. C. D. Moreland, wife and son of Clear Water, Florida, and Dr. J. D. Moreland of Rome, Georgia, spent the week-end with their sister, Mrs. W. B. Baldwin and family.

Mrs. C. H. Wright had as her guest this week her daughter, Mrs. Virgil Dominek and her two daughters, Betty Jean, and Carol Ann of Amarillo.

Tommy Holden, Jr., of Fort Worth is visiting a few days here with his parents, Mr. and Mrs. T. S. Holden.

Mr. and Mrs. Dee Barn and daughter, Dorothy of Abilene spent the week-end here visiting friends and relatives.

Mrs. Lee Tyler an aunt of near Baird visited her mother, Mrs. W. C. Adams here Sunday.

RAISING CLYDE Hospital Election Today

of \$15,000. AND ISSUE TO BE DECIDED AT POLLS

of a \$15,000, bond to erect a county hospital will be written today, Friday. Balloting will be held in the Anderson Chev-Chem building.

ment regarding the bond is not clearly defined, how- ever, expect to en- gage their most opposition

South part of the Review learned from an informed source yesterday, that the greatest majority for and is expected to be heaped on Baird, where the luncheon and other civic organizations

and an unreserved camp- ing in its behalf.

After having 72 hours to harden, plans call for the going back into the hole, drilling the plug and thoroughly washing with clean water to further check the time. Acid may then be applied.

Local oil men were highly optimistic yesterday concerning the prospects of the test. It was pointed out that a well in the Caddo would be especially desirable because of the history of the formation, which reveals it to possess more permeability from an oil producing standpoint than any other time found in this section.

Nothing more will be done on the well until Saturday morning, when the necessary 72 hours required for cement hardening will have elapsed.

GOOD OIL SHOWING ENCOUNTERED IN J. V. HOWELL TEST HERE

Having encountered an extremely good showing of oil in the Caddo lime, the J. V. Howell deep test on the E. I. Vestal tract, two miles North-east of town, was planning yesterday to make a thorough check of the formation.

The Caddo was topped at 2,663 feet and drilled 29 feet to a depth of 2,692. Samples of the formation were taken and sent to a chemist for analysis. Chemists declared the lime contained high oil saturation.

Upon receipt of the report, Howell ran the six and five eights pipe and contacted an oil cementing concern to come here and prepare the hole for acidization. The cementing was completed Wednesday morning at three o'clock.

After having 72 hours to harden, plans call for the going back into the hole, drilling the plug and thoroughly washing with clean water to further check the time. Acid may then be applied.

BELOVED ELDERLY CITIZEN EXPIRES MONDAY MORNING

Last rites for B. F. Poevy, 69, one of Cross Plains' most beloved elderly citizens, were held from the family home in the Northeast part of town Wednesday morning, with Minister G. A. Dunn, Jr., pastor of the Rising Star Church of Christ, officiating. Interment was made in the Cottonwood cemetery.

Mr. Poevy expired shortly after one o'clock Monday morning after an illness of about four weeks. He had been in declining health, however, for the past year.

Having lost his eyesight in 1898, Mr. Poevy was blind the last 40 years of his life. For him, however, life remained pleasant, and with his wife, who was constantly at his side, the handicap was largely overcome.

Mr. and Mrs. Poevy were married at Cottonwood January 29, 1886, where they remained until 1889, when they moved to Oklahoma—then Indian territory—where they stayed two years before returning to Cottonwood. In 1918, they moved to Cross Plains from Cottonwood and have made their home here continuously since.

Mr. Poevy had attended every celebration of the Cross Plains picnic, with the possible exception of one or two, he told a representative of the Review in a recent interview.

Surviving are the widow, two sons and two daughters. They are: Henry Poevy, DeLeon; Mrs. R. D. Jones, Haskell; Mrs. D. A. Shawen, Bridgeport; George Poevy, Chandler, Arizona. A brother, W. O. Poevy, of Cottonwood, also survives.

Pall bearers at the funeral and interment services were: Hugh Edington, J. L. Settle, C. W. Kompfer, J. C. Huntington, J. M. McMillan, O. T. Laves, Craig Merryman and J. W. Cox.

LOCALS BEAT EASTLAND COCA COLA TEAM 20 TO 1

Cross Plains all-stars defeated Coca Cola Bottling Company of Eastland 20 to one in a softball game here Tuesday evening. In the night cap the local Knight of Pythians were defeated by Cross Cut 17 to four.

Two games are scheduled under the lights here Friday night.

COLLEGE GRADUATION IS JUST STARTED FOR CHARLES F. HEMPHILL

Charles Frank Hemphill, son of Mr. and Mrs. Chas. F. Hemphill of Cross Plains, who graduated from the University of Texas last week, accepted a job the following day with the Board of Control at Austin, and has enrolled in the university law school.

Charles Frank took his bachelor of arts degree from the school in the annual June commencement exercises. Mr. and Mrs. Hemphill were present at the exercises.

It will take three more years for the Cross Plains youth to complete his law course.

PLANS BEING MADE FOR BURKETT EVENT

Plans are being made for the 45th Old Settlers' reunion and picnic to be held at Burkett on July 7, 8 and 9, according to Wade Golsen of Burkett.

This year's event is to be held in a new location, on the Golsen farm just south of the community tabernacle. Plenty of shade, seats and drinking water are promised the visitors.

Some of the features of this year's program include a rodeo, carnival, speaking and entertainment by various towns.

July 7 is Santa Anna, Coleman and Baugs day, July 8 is Cross Plains, Rising Star and Brownwood day, and July 9 is everybody's day.

DRUNK DRIVER GETS 30 DAYS PLUS FINE

L. E. Snodgrass was sentenced to 30 days in jail, assessed a \$50 fine and deprived of the right to drive for six months by Judge M. S. Long, of 42nd district court Wednesday.

The penalty was imposed when Snodgrass pleaded guilty to driving while intoxicated.

Two civil suits set for trial at Baird Wednesday were settled out of court.

CROSS PLAINS BEATS SUNDAY CISCO 7-5 SUNDAY

Cross Plains baseball team defeated Cisco seven to five Sunday afternoon, to maintain a perfect percentage with three victories and no defeats in the newly organized tri-county league.

WHEN LIFE DEPENDS ON TIRE SAFETY IT'S ALWAYS Firestone FOR 19 CONSECUTIVE YEARS THE WINNERS OF THE INDIANAPOLIS 500-MILE RACE HAVE PROTECTED THEIR LIVES WITH FIRESTONE GUM-DIPPED TIRES THEY said it couldn't be done — that tires could not withstand the torture of the new high speeds. Yet Floyd Roberts set a new record, at this year's Indianapolis Race, averaging 117.2 miles an hour for the 500 miles on Firestone Gum-Dipped Tires. With the sun-baked brick of the straight-away and the granite-hard surface of the turns pulling and grinding at their tires, 33 daring drivers, every one on Firestone Tires, waged a thrilling battle for gold and glory. Never before have tires been called upon to take such punishment. Never in all the history of the motor car has tire safety been put to such a grueling test. Yet not one tire failed — not one single cord loosened — because Gum-Dipping, that famous Firestone patented process saturates and coats every cotton fiber in every cord in every ply with liquid rubber counteracting the tire-destroying internal friction and heat that ordinarily cause blowouts. Why risk your life and the lives of others on unsafe tires? Join the Firestone SAVE A LIFE Campaign today by equipping your car with Firestone Triple-Safe Tires — the only tires made that are safety-proved on the speedways for your protection on the highways. JOIN THE FIRESTONE Save a Life CAMPAIGN TODAY!
