Farmers Asked To Sign Work Sheet

FEDERAL PROGRAM MUST AWAIT THIS DETAIL SAYS AGENT

County Agent Ross H. Brison announced yesterday that information concerning the federal government's 1938 farm program is being delayed until work sheets are filled out by farmers. Committeemen are to be in key points Saturday to assist in this work.

The following information was submitted the Review yesterday by Mr. Brison concerning the federal program:

To date no definite information has been received in the county agent's office concerning the 1938 farm program. However, the State Office has advised that a 1937 work sheet must be executed on every farm in the county before farm goals can be announced for the 1938 program. These work sheets are to be used also to establish a basis for the 3 cent subsidy payment. The execution of these work sheets does not place the producer under any obligation to the government. The work sheets will be government nor the government used only by the state office in establishing proper acreages to the county under the 1938 farm program and in calculating the subsidy payment. Every tenant farmer or landlord in the county is urged to render assistance in obtaining work sheets on all farms which were not signed up on the 1937 program.

If you have moved to another farm for the 1938 season and the farm was not signed under a 1937 work sheet you are the one to sign it. The person who owns or operates the farm in 1938 is the proper person to sign the work sheet.

The following committeemen and a few other men are being called into the office Wednesday, to receive instructions in filling out these work sheets so that they may help you: S. N. Foster, Atwell; A. E. Young, Baird; T. N. Minix, Denton; Otto Betcher, Dudley; John A. McKee, Eula; Lester Farmer, Eula; Fred W. Stacey, Cross Plains; Ed Henderson, Cross Plains; George Clifton Cottonwood; Joel Griffin, Clyde; Ed Davis, Admirel; R. L. Clinton, Putnam; Sidney S. Harville, Oplin; Chas. D. Straley, Oplin; C. T. King, Lanning; Lee A. Coats, Bayou; and Eugene Green, Brooks Store.

The above named men will be at a convenient place in his community on Saturday, February 5th, so be sure to see the one nearest to you on that date if you did not sign a work sheet in 1937.

FLAT CARS BRING IN BIG STEEL DERRICK; WORK IS PROGRESSING

With 100 feet area, rigging up was going forward yesterday for the 4,000 feet rotary test on the E. I. Vestal tract, two miles North-east of town.

The large steel derrick and incidental equipment arrived on flat cars Monday night and is now being assembled on location. Scores of other large pieces were already on the ground having been brought in by trucks last week.

J. V. Howell, who is to drill the test, could not say yesterday just when he expected to have the big rotary in operation, however, no more than 10 days is expected to be required in getting underway.

To supply water for the test a well has been drilled about 100 feet from the location. The water well was drilled by E. N. Schaffner, who also spudded a 10 inch hole to 100 feet for the rotary.

Some speculation has already begun in royalties near the well. Half royalty on a small tract sold this week for \$10 per acre. Other tracts are being priced from \$5. to \$15. for half royalty, however, some of the "best bets" appear not to be for sale.

2 Sets of Texas Twins Strut Stuff In Madis-on Square Garden.

DENTON, Tex.—Speedy double trouble for both their competitors and dazed fans attending the 31st annual Millrose Games in Madison Square Garden February 5, this medley relay team from the North Texas State Teachers College at Denton is unique in sports history.

It is the first time in all track records that two sets of twins have ever run together on one team, says their coach, Choc Sportsman, who is sending his two sets of "identicals" to compete on the boards against Manhattan, Indiana, and Ohio State. They are, left to right, Delmer Brown, who will run the 440;

brother Elmer, who paces the 220; Wayne Rideout, the half, and Blaine Rideout, his twin, who finishes with the mile. Fortunately for the dizzy fans who will watch the twins run February 5, Alvin's twin brother Alton won't be there, isn't an athlete, and is safely at home in Baird, Texas.

COTTONWOOD

During the last week in January boys' 4-H Club meetings were held at Oplin, Denton, Eula, Cottonwood, Putnam and Bayou schools. One hundred ninety-six boys attended the meetings where county agent Ross Brison encouraged those present to secure certified seed for as registered animals for hog and their crop demonstration as well as dairy calf demonstrations. Pig feeding demonstrations should be started about May 1st in order to grow a 200 pound hog by September. It is expected that several boys will choose beef calf demonstrations and start with a 400 pound calf about August 1st.

The following club officers were elected for the various clubs:

OPLIN: President, Charley Tom Starley Vice President, A. D. Correll Secretary, Troy Mask Reporter, Dupree Slough Mr. Bill Tyler is the Oplin Club sponsor and Mr. Chas. D. Straley is the Oplin Club leader.

DENTON: at the gym next Friday night.

The Methodist of Pioneer with Rev. and Mrs. Sanders met with the ladies here Monday and organized a missionary society to meet each Tuesday afternoon.

DOUGLAS MILLER IS BEST STUDENT AREA'S

(Continued from page 1)

and the correct answers follow: (1) Who wrote the first five books of the Bible; Moses. (2) Which letter is used most frequently in the English language; the letter E. (3) What is odd about a cow's mouth; she has only one set of front teeth. (4) How many men play on a soft ball team; ten. (5) How many children did George Washington have; none. (6) Who is treasurer of the United States; M. A. Julian. (7) In mathematics how much is pi; 3.1416 or three and one seventh. (8) Spell these words, Quantity, Vacuum, Prairie; all three had to be spelled correctly to make anything on the question. (9) Who draws "Mutt and Jeff"; Bud Fisher. (10) Who is Lieutenant Governor of Texas; Walter Woodul. (11) What colors (considering white a color) are the stripes in the American flag; red and white. (12) Who discovered electricity; Benjamin Franklin. (13) What woman is a member of president Roosevelt's cabinet; Francis Perkins. (14) Give the slogan of some Cross Plains business concern. (15) The poison of what snake is believed to be most deadly; the cobra. (16) In what month does the longest day of the year come; June. (17) What is greater one-sixth or 200; the latter.

Young Miller with the best grade missed five questions; numbers four, nine, eleven, thirteen and seventeen.

Perhaps the most difficult question of the group was number nine, for only four students knew the correct answer despite the name is on the face of all pieces of currency. All four of the students answering this question were from Atwell.

Included in the group of papers were humorous answers to many of the questions. For instance of the one "What were the first words ever sent over telegraph", one student wrote: "My God, it works." For the question, "What woman is a member of president Roosevelt's cabinet", several said: "Ma Ferguson". Another oddity was that more than 50 students said the stripes in the American flag were red, white and blue.

Douglas Miller, 15, winner of the contest, is the son of Mr. and Mrs. W. H. Miller who recently moved into the Holder community from Oklahoma. Despite his brilliance Douglas is not an honor student in his school. One subject is particularly difficult for him and prevents his making the honor roll in spite of the fact that all of his other grades are well above 90. The Review was told. Before entering school at Williams in September, young Miller attended Haskell, Oklahoma high schools.
