VIE WITH ABILENE AND SAN ANGELO IN REGIONAL TOURNEY

With a county and district championship to their credit, Cross Plains high school basketball team will invade Abilene this week for their first taste of regional competition. The locals upset Mineral Wells, Throckmorton, Cisco and Breckenridge in the order named for the district six diadem last week.

Abilene, San Angelo, Burkett and Cross Plains will compete for the region two title Friday and Saturday nights. Winner of the week end tournament will join seven other regional champs in Austin March fourth and fifth for the state interscholastic league championship playoff.

Burkett won entrance into the finals last week by defeating Carlton 13 to 11 in the closing seconds of a hotly contested game.

Cross Plains and Burkett have played six games this season, with the former winning four and the latter two. Another game set for Tuesday night of this week was called off. Cross Plains and Abilene have also met twice this year, with the Taylor countians winning both clashes. San Angelo's strength is highly tested, however, no comparisons are available.

The district championship in basketball is the first to be won by Burkett. Cross Plains and Abilene, however, San Angelo has had the honor before and will be no new comer to regional cage competition.

Dope favors Abilene in view of the Eagles impressive record of 28 consecutive victories and no defeats this season.

Both Snows Of Current Winter Arrived On Monday Morning; 3 Inches Each Time

The snow was preceded by about a third of an inch rain and freezing weather. The moisture is credited with having prevented fruit from being killed by the low temperatures. Despite the fact that at least half the fruit trees in the trade territory are already in bloom, the crop is believed to be virtually undamaged, according to orchardmen.

Possibly the only real inconvenience caused by the recent cold snap was experienced by townspeople here, many of whom rose Friday morning to find the gas supply inadequate to warm homes or cook meals. A broken main was blamed for the trouble. It was repaired by twelve thirty.

Several reports have been received stating that small grains and garden crop damage by cut worms this year is unusually heavy.

The warm days during the latter part of January and early part of February caused the unusual activity of the worms at this early date, and it is hoped the recent cold snap has checked the work and damage of this insect," says County Agent Ross Brisson.

On large areas such as grain fields grasshopper poison bait sown at the rate of five pounds per acre over the whole field is recommended. The formula is as follows: Bran 50 lbs., Paris Green or white arsenic two pounds, Molasses one gallon, Water, 2 gallons. Mix the bran and arsenic or Paris Green thoroughly, then pour the molasses into the water thoroughly mix, adding more water if necessary, until the entire mass is moist (not wet) and crumbly.

For garden crops the above formula may be cut down to 5 pounds of bran, 1-4 pound of Paris Green or white arsenic, and one teaspoonful of molasses. Since chickens are fenced out of the gardens the poison bran may be put in piles about the size of a small pecan near each plant to be protected.

WORK ON DEEP TEST STILL HALTED DUE TO BOILER TROUBLE

Work was still halted yesterday at noon after a shut down of eight days on the E. I. Vestal, deep oil test, two miles Northeast of town, due to boiler trouble.

Flues ordered from San Antonio arrived early this week but were a wrong size and a substitute order was immediately made. Members of the crew said Thursday morning they hoped to be drilling again by Saturday.

Drilling with rotary equipment began Tuesday of last week and good progress was being enjoyed until flues in both boilers went to the bad and operations were necessarily suspended. The hole is about 130 feet deep.

A hand dug water well has been completed to assist a drilled well and nearby tank is supplying water for the test. The contractors opined yesterday that things should move at a rapid clip when drilling is again resumed, there being no obvious reason for further delays.

Added to the much revived oil interest here was the announcement yesterday morning that a shallow test on the Mrs. J. P. Henderson tract, along the West-ern city limits, would be spudded Saturday morning. A spudder is already on location and rigging up was going forward yesterday. The test will be drilled on a block of acreage assembled by R. Elliott, Bryant and C. D. Lane. The hole is to be drilled, however, by Hillson Oil Company et al. Plans call for the drilling to a 900 foot horizon unless a commercial well is located in the grassroots sand, expected to be encountered about 300 feet, or in some other strata.

Local Students Put On Program Tuesday Over Station KRBC

"Voice of the Public Schools" a regular weekly feature over radio station KRBC was presented Wednesday afternoon by Cross Plains high school speech and voice departments, under the supervision Miss Eileen Tate and Miss Dolores Tanner.

Patsy Ruth Mitchell sang as a solo "The Last Rose of Summer." Emma Jean Settle rendered "The Ancient Beautiful Things." Nancy Henkel and Louise Graves presented a dialogue "Secrets of the Heart." Dorothy Ripper rendered a piano number and Betty Jo Freeman read, Harold Barclay was student announcer.

Many people report hearing the program and say reception was very good.

NEW FARM BILL HAS MANY WHEAT PLAN FEATURES

The new AAA Farm Bill just passed by Congress will offer wheat farmers a well-rounded program including acreage allotments, agricultural conservation payments, wheat loans, crop insurance, and marketing quotas if supplies are so large that quotas are necessary, according to County Agent Ross H. Brisson.

The following brief summary of how these provisions in the new farm bill will operate for wheat farmers is given by Brisson.

The Act provides for acreage allotments to wheat farmers each year which will produce enough wheat for domestic consumption and exports and provide a substantial surplus for reserve. The Act will aim to provide a supply each year of around 900 million bushels. Wheat allotments will be made for 1938, but only for the purpose of comparing the allotments to farmers. The act provides that compliance for 1938 shall be checked against the general soil-depleting goal for each farm. The first acreage allotments which will apply fully will be those for 1939.

Payments to farmers will be made under the provisions of the 1938 Agricultural Conservation Program. The Act also provides for parity payments to farmers, but only if specific additional funds are made available for this purpose.

The Act provides that wheat loans are to be made to farmers in any year in which the farm price of wheat on June 15, is less than 52 percent of the parity price of wheat, or in any year in which the July wheat estimate is more than the normal domestic consumption and exports of about 700 million bushels. These loans are to be made by the Commodity Credit Corporation and are to be made at between 52 and 75 percent of the parity price at the beginning of the marketing year. Loans may be made in 1938 if prices or supplies are within the limits set by the Act.

The Act establishes a Federal Crop Insurance Corporation. This corporation will offer crop insurance to wheat farmers, beginning with the 1939 crop. Farmers who store wheat under marketing quotas may use some of this wheat to pay premiums on crop insurance. Under the crop insurance plan farmers can pay premiums in wheat and receive loss payment in wheat.

Marketing quotas are provided in years when the total supplies of wheat exceed approximately 950 million bushels. Marketing quotas when approved by a two-thirds majority of farmers in a referendum, will apply to all commercial wheat growers. Farmers who produce (Continued on back page)

RAYMOND, SOTHERN STAR IN FILM SUNDAY AT LIBERTY THEATRE

Co-starring one of the screen's most popular teams, Gene Raymond and Ann Sothern, "There Goes My Girl," a high-voltage newspaper drama charged with romance, repertorial rivalry, and a murder mystery, is coming to the Liberty Theatre Sunday for a three day run.

Two ace reporters on rival newspapers are deeply in love. Their marriage is frustrated by the hard-shelled city editor of the sheet the girl works for, who can't see why his star news-hawk should succumb to mushy sentimentality. Dangling the bait of a sensational story under the pretty nose of his girl reporter, he twice side-tracks the pending nuptials. But his villainy does not end there.

"There Goes My Girl" is the fourth picture in which Gene Raymond and Ann Sothern have played starring roles. It is of a more serious mood than that of most of their past successes, and is said to be their best accomplishment on the screen.
