MORE OIL LEASES

of last week parties representing various oil companies now in the Coleman and Brown county took leases on a good land in the Watson neighborhood south of Goms, paying one acre for the same. Land there had been trying to lease for time at this price, but had been unsuccessful. When the lease came not in single acre. The oil situation is promising near Coleman and good producing enough oil to set of people excited. A money has been spent in Callahan and Coleman for oil leases, and some of the best companies operating and the leases. It there is going to be found.

FIRE AGAIN

Fire destroyed Sheriff Moore's tent on his farm near the Peak, and all its contents on Tuesday morning, originating from the stove. Before Mrs. Moore noticed the fire it had got beyond control, and the burned her hands badly in getting some of the children to safety. All their household goods, relics, etc., except their best furniture, which is still at Baird, were destroyed. Mr. Moore was called from Baird, and he brought his family to his son, Jesse, in town.

What Are You Doing to Help Win the War?

D. S. TROOPS IN TRENCHES

Artillery and Infantry Take Places with the French at the Front. Take Part in Fighting.

With the American Army in France--American troops are now in the front line trenches on the French front. The artillery fired its first shot at 6 o'clock on the morning of a recent day at a German working party, marking the first contact of American and German troops there has been intermittent artillery fighting since.

Helmeted infantry marched without the knowledge of the enemy on the same night, through rain and mud. The French soldiers in the trenches welcomed them enthusiastically.

Americans Shelled Germans. The nearest enemy trench is several hundred yards away. The shot or is one of the quietest on the front. It has not been taken over since under the control of troops under the direction of the French.

The Americans have shelled German positions and troops, the enemy sending shell for shell. The first shell case will be sent to President Wilson. The shot was fired by a red-haired runner as his comrades in the ranks and the assembled officers cheered.

The run used in firing the first shot was one of the famous French. On the second day, the French shelled a German battery position which was located by sound, and the enemy replied vigorously, projectiles falling close to the Americans who joined in the artillery duel. All the troops will be relieved after a certain period by others.

Army Airplane Falls Near Granger.

Temple.--A government airplane on route from Waco to San Antonio plunged to the ground about a mile and a half west of Granger Tuesday afternoon and the captain and lieutenant in charge of the machine were badly bruised up, but not seriously hurt. The airplane was demolished. According to telephone information from Granger, the aviators were trying to effect a landing, presumably on account of engine trouble and lost control. Neither of the officers would discuss the accident.

Caranza Opponents Deported to U. S.

Laredo--Seventeen Mexicans, including three ex-generals of the Mexican army under the Diaz and Huerta regimes, were deported from Mexico here and were admitted into the United States as political refugees. Lawyers, physicians and wealthy men were among those deported. Mexican authorities in Nuevo Laredo said these men were opponents of the Carranza government and were "troublesome" citizens. It was stated that 200 more "troublesome" citizens were being deported via Vera Cruz and Galveston.

Robertson County Goes Dry by 655.

Franklin--Robertson county fell into the dry column Monday by a majority of 655 votes. The county had been only partially wet for several years. The vote was, for prohibition 1419 against prohibition 764. There are nine saloons in the county that will be put out of business as a result of the election.

Travis Co. to Vote on Prohibition.

Austin--Travis county, in which is located the state capital, will vote on prohibition Nov. 15. The election was ordered by the county commissioners' court, which received a petition signed by 1,300 persons asking that an election be held. The entire county, less one justice precinct, already dry, is included.

Falling Tree Strikes Auto, Kills Two.

Dallas--Frank Boyd, 36 years of age, and Miss Jean Hanby, aged 26, both of Rockwall county, were killed and three were injured on the Mesquite road about four and one-half miles east of Dallas when a large tree was broken off near its base by the strong wind and fell across their automobile as they were coming to Dallas to attend the fair. The injured were Carl Hanby, light scalp wound; Jeff Boyd, aged 8, and Bonnie Boyd, 13, children of Frank Boyd.

British Bomb German Works.

London--Six tons of bombs were dropped by British aviators on the Turkish works, west of Saarbruck, in Rhenish, Prussia, Wednesday night, says a British official communication. The communication adds that four hostile aircraft were destroyed, 48 heavy bombs having been dropped and that street lights were obliterated on a group of houses.

HOUSE INVESTIGATING COMMITTEE AT WORK

DISCUSSION OF SCOPE AND MANNER OF INQUIRY FEATURES FIRST MEETING.

NOT AN EXECUTIVE SESSION

Suggestion for Delay Till Jan. 1 Meets Strong Opposition and Such Action Appears Improbable.

Austin--Discussion of the scope of work to be done by the legislative investigating committee occupied the first day's session of the house central committee that met here Thursday morning. The committee will hold further meetings in planning the investigation. It developed early in the discussion that the committee is in accord in desiring to make a complete survey of the state's departments and institutions with a view to accomplishing economies and reforms in operation. The work seems to have separated itself into two general divisions in an investigation with view to checking the departments.

The funds available for this latter task are generally considered insufficient to accomplish a thorough job, and the audit may be expected to be a general investigation of accounts to disclose whether a detailed audit will be asked.

Delay is Opposed.

Hope was expressed by Chairman Sly that the investigation of departments may be completed in six or seven weeks, and that after the holidays the whole committee may devote some time to looking into the university, the A. & M. and the penitentiary system, then formulate their report and have it ready for a special session of the legislature in March or early in the spring.

There was no sympathy in the committee for the movement to postpone the investigation until Jan. 1. On the other hand, the central committee seems to desire to get the work all done before the political campaign shall open and do it without the interference of political issues.

Corn bread is Hoover's substitute for wheat bread. A bumper crop of corn has been made this year. Corn bread is distinctly a Southern product, and we of the South should feel some pride in going back to it. Corn bread, properly made, with its concomitant, sweet milk, makes a most delicious dish. But there Mr. Hoover comes in again with his prohibition against using duice lache.

The Second Liberty bond issue came to a close on Saturday night the maximum of five billion dollars having been exceeded, so it is said. The exact amount subscribed was made known on the first of the month. Every man that subscribes is getting a receipt for his money.

to his government to help end the war. Those that have money, and do not get behind Uncle Sam, are not good Americans.

This is Hoover week. Good women have you signed the pledge card? The local committees have doubtless given every housekeeper in town an opportunity to sign one, and everybody that reads a paper has had a blank card to sign and send to the Food Administration. We are asked to have meatless and wheatless days, and curtail the use of everything needed for the allies. In this war every resource of the allies is pitted against every resource of the central powers. Have you enlisted to help our soldiers?

It takes a little bit of vision and so-called nerve for a farmer to sow grain in the dust this fall as the he was assured of good seasons. But in the prairie country we understand that wheat and soybeans are being put in the ground. The weather is being put in the ground. There is an element of chance in the operation that would bluff some people, but West Texas men do not faint by the wayside, nor count the seasons. Next year may be as wet a year as this has been a dry one. When this drought is broken you had better look out for your boats. There must be some water stored somewhere.

More Peace Talk

that Germany and Austria-Hungary have agreed to make another peace offer. The offer is to have for its basis practically the terms of status quo ante, and no indemnities on either side; that is, to go back to where things were before the Teutons started the war, to make a draw, to call the war a statement. A big peace demonstration was held recently in Vienna, at which it was said, "We are assembled to declare how warm and glowing are our longings for peace. We demand peace in the name of Europe, which is sinking to exhaustion." Why do Germany and Austria cry for peace? Did they not force the war when all the world wanted peace? Belgium wanted peace when the forces of the Imperial Government invaded her territory. Servis wanted peace when Austria declared war on her people. France wanted peace when the hordes of Huns under von Moltke swept upon her in an effort to take Paris in August, 1914. England wanted peace when she asked that the neutrality of Belgium be respected by Germany, which country made a scrap of paper of her treaty guaranteeing the neutrality of little Belgium, thus forcing England into war. The United States wanted peace, but was forced to recognize a state of war which Germany was waging against us in the destruction of our property on our soil and on the high seas.

Now the Teutons want peace. This is a wonderful change in their way

me. But what kind of peace do the central powers desire? A peace that makes no reparation of damage done, no humiliation and repentance for the colossal sin against civilization and no guarantee against its repetition in the future.

A murderer and assassin at the head of his neighbors, kills men, wounds and children, burns and destroys property and violates all the norms of humanity. The people moved to defend themselves against such criminal acts, rise up in arms, and the criminal, seeing he is about to be brought to justice, asks for peace on the grounds of a draw. He says to his pursuers, "You stop and I will stop." He cries, "Let's call this fight a stalemate." Would those people, whose fathers, mothers, brothers, sisters, and little children has been so cruelly killed, whose property had been burned and country ravaged, make peace with him on such terms? No. They would demand an unconditional surrender, and punishment of the criminal. They would not accept the promise of reform from one who had shown no regard for his word. They would insist on such restraints being put on him that he could not commit the same crimes again.

Certainly we all want peace, but we want it on just grounds, with good assurance of peace for the future. Nobody wants to annihilate Germany, but we want her hereafter to keep the peace, and to make sure that she does her power to repeat her offenses must be destroyed. In the words of President Wilson, "The object of this war is to deliver the free peoples of the world from the menace and actual power of a vast military establishment, controlled by an irresponsible government."

A peace "planted at the tested foundations of political liberty." The autocracy of military power must be destroyed before there can be an everlasting peace and security of the world. When Germany offers to make peace on the basis of status quo ante, she will use her soy system and every means to influence opinion in this country in favor of this peace.

The La Follets, the Stones, the pro-German papers, the hyphenates and the pacifists will urge the acceptance of such a peace. But let us watch and guard against the day when Germany offers to call war a draw. It would be a sad day for civilization if America's influence were to be given to such a peace. R. D. C.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught." Seventy years of successful life made Theodor's Black-Draught standard, household remedy. A member of every family, it gives the help that Black-Draught gives in cleansing the system and relieving the troubles that come from constipation, indigestion, laxative, etc. You cannot keep well unless your stomach, liver and bowels are in working order. Keep them that way with Black-Draught. It acts promptly and in a natural way. If you feel sluggish, take a dose today. You will feel fresh tomorrow. 25c. a package—One cent a dose. All druggists.

Three Killed in Powder Explosion

Miami Okla.—Two miners were instantly killed, another was fatally hurt, one man and a woman were probably fatally injured, and another woman slightly injured in an explosion of a powder box at the powder house of the Producers' company mine, one mile north of Cardin, Okla. All the victims were in the powder house. Reports say the accident probably was caused by the powder becoming heated or a spark from steel being sharpened striking a cap in the open powder house.

To Let Italy Have Transport Ships

Washington.—The shipping board has agreed to charter the Italian government approximately 26 American commandeered steel ships of an aggregate of 100,000 dead-weight tons, to relieve Italy's shortage of shipping to transport vitally needed supplies. This was announced by Chairman Stanley of the board. Great Britain has been supplying France and Italy with shipping to meet emergency needs, but can not continue to do so, in view of the increasing British shipping.

German Government Owes \$50 Bond

Philadelphia.—The Imperial German government is the owner of a Liberty bond. A local attorney has been handling funds of German estates in and about Philadelphia and in settling one account recently he had a balance of \$50 which belonged to the imperial government. He applied \$50 of that amount to a Liberty bond to help the United States to win the war.

Soldiers From Camp MacArthur to Stage Big Military Pageant at Opening of Cotton Palace

Waco, Texas.—The greatest military parade ever witnessed in Texas will take place at six o'clock on the night of the formal opening of the Texas Cotton Palace Exposition, Saturday, November 3.

Thousands of soldiers from Camp MacArthur will march in this stupendous procession. It is estimated that it will require at least two hours for the parade to pass a given point.

In addition to the commanding General of the great army camp located at Waco, there will be many other army officers in the parade who have won world-wide fame during their careers in the United States army.

Many state, county and city officials will also be in the line of march.

An abundance of red fire and other kinds of fire works will give the parade a decidedly battle-like appearance.
