LUBBOCK MAN HAILS CAB, GETS FREE RIDE

A man on a Lubbock street, somewhat under the influence of liquor, flagged a car that he thought was a taxicab. He climbed into the car and told the driver to take him to an address he gave.

The policeman at the wheel drove on, but when he stopped it was at the police station. A charge of drunkenness was filed against the passenger. The policeman refused pay for the ride.

NEW CROP PEANUTS ABOUT PLANTED

With favorable weather conditions during the past week, planting of the new crop peanuts was about completed in all areas, according to the U. S. Department of Agriculture's Production and Marketing Administration.

About 80 per cent of the new crop has been seeded in North Texas, but rains the last two days have delayed planting for the present. Growing condition of the new crop in other producing sections of the country was generally good during the week.

Demand for edible peanuts continued slow and only scattered sales were reported. No. 1 shelled Spanish peanuts brought mostly 17½ to 17¾ cents a pound in the southwest this week. Prices stood only a fraction of a cent above the same week last month or a year ago.

Peanut meal sold unchanged to \$3 higher compared to a week ago. Meal of 41 per cent protein content was priced from \$50 to \$53 per ton, f.o.b. southwest mills. Quotations fell \$26 to \$28 a ton below this time last year.

Southwest crushers quoted peanut oil at 11½ cents a pound, or a quarter of a cent below last week and as much as 22 cents a pound under last year around the middle of June.

New Rules on Peanut Price Support Plan Are Made Public

Washington — Arrangements for new price support programs for peanuts and tobacco were announced last Monday by the Department of Agriculture.

The peanut prices will be supported at 90 per cent of the parity price on August first, 1949, on peanuts eligible for support under the 1949 crop marketing quota program.

This quota program cut the eligible acreage about 22 per cent under the 3,340,000 acres in 1948. Producers who pick or thresh peanuts in excess of their 1949 allotment will be ineligible for price support on production from the allotted acreage. They may receive up to 90 per cent of parity on excess marketings if they are disposed of through the government program.

If the farmer markets outside the support program, he has to pay a penalty equal to 50 per cent of the support price on marketings in excess of his quota.

Gals Fight In 'Pit' For Olivia's Favor

Rating a niche among the most actionful battles in screen annals is the knock-down scrap between two blondes in Darryl F. Zanuck's presentation of "The Snake Pit," starring Olivia de Havilland, Mark Stevens and Leo Genn at the Plains Theatre.

The fight is between Isabel Jewell and Betsy Blair, who is Mrs. Gene Kelly in private life, over their friendship for Olivia de Havilland in the film. They performed so realistically that Director Anatole Litvak gave them two days off. They needed it to recover!

Puzzle: \$1.00 Lost Where Did It Go?

Three men went to a hotel and paid \$10 each for a room. A short time later the clerk realized that he had overcharged them, the correct rate being \$25 for a room for three persons. He gave the bellboy \$5 with instructions to refund it to the three men.

The bellboy decided to put \$2 in his pocketbook and give each man back a dollar, which he did. This made the room cost each man \$9—\$10 minus the \$1 refund—which is \$27. The \$2 the bellboy put in his pocket made \$29. Where did the other dollar go?

Men Warned to Send Questionnaires Back Within Time Limit

Officials of the Taylor-Callahan Board of the Selective Service System, are calling attention to the fact that all young men reaching their 18th birthday, still must register within 5 days, at Board office in Abilene. Also, all men within the age groups of 18-26 still are subject to all Selective Service laws, as passed by Congress. They must report any change of address to the Board with which they are registered. Questionnaires must be filled out and returned within the time limit specified on the form.

The Armed Services have not called for any men in some time, but that has in no way changed the law. Classification of all men within this group, must still be made. At the present time there are several Callahan County men who have not returned their questionnaire: Hugh L. Tarrant, Clyde; Jimmie D. Womack, Cross Plains; John P. Warren, Clyde; Donald T. Underwood, Cross Plains; and Clifford W. Curtis, Baird.

Anyone who needs advice in preparing his questionnaire should consult the following Callahan County Advisors: D. J. Anderson and B. H. Freeland, Baird; Fred Tunnell, Cross Plains; and T. O. Dulaney, Clyde.

Members of the Board are Terrell Williams, Baird, chairman; C. T. Connerly, Abilene, co-chairman, and A. M. King, Abilene secretary. Offices are on the third floor of the courthouse in Abilene.

Cross Cut Soldier Gets Promotion

WITH THE EIGHTH U.S. ARMY IN TOKYO, JAPAN.—Recently promoted to Corporal for his outstanding manner of performance of duty is Cecil R. Partee, 18, son of Mr. S. E. Partee, of Route two, Cross Plains, presently on duty with the First Cavalry Division in the occupation of Japan.

Corporal Partee enlisted for military service in April 1947 and received his basic training at Fort Ord, California. He was then assigned to the Demonstration Unit at Camp Lee, Virginia. He served with the Demo Unit until May of 1948 and was then assigned to overseas duty with Headquarters Company of the First Cavalry Division, stationed at Camp Drake, Japan. His duties are with the Headquarters Supply as clerk. He, along with many other outfits of the First Cavalry Division will soon participate in maneuvers at Mt. Fuji, Japan. There he will receive valuable training in different phases of combat.

Corporal Partee attended Cross Cut high school and was later employed as an oil field laborer for a concern in Odessa.

Moran Child Dies From Electricity

A nine year old child, Roger David Connally, of Moran was killed instantly last Friday afternoon, when an electric shock was received while attempting to drink from a hydrant in the yard at his home. A copper tubing to an air conditioning set was connected to the hydrant which is believed to have been charged with electricity from wiring of the cooling apparatus. The child was standing in a pool of water when he started to drink.

The lad was the son of Mr. and Mrs. H. D. Connally, who has three other children.

Mrs. L. P. Foster left last Friday to visit several days in the home of a daughter in Pecos.

**More Milk
Dr. Geo. Cox,
State Health Head**

View of the fact that June proclaimed National Dairy Dr. Geo. W. Cox, State Officer, urges that with extensive use of milk, both for and consumer be concerned as to its quality. The use of safe milk is a health measure. Interest in improved methods of producing wholesome milk increased greatly in the past decades and the striking advance in milk control has been responsible for the enormous saving in infant life.

Milk is perishable and especially so in hot weather. To insure milk of high quality requires, cleanliness, sterilization, protection from flies, careful bottling and storage at low temperature. Presence in fresh milk of thousands of bacteria, due to unhygienic methods of production is a health hazard.

Cox added, "Among the diseases which may be transmitted through milk are tuberculosis, typhoid, scarlet fever, diphtheria, streptococcal sore throat, undulant fever, and enteritis. Numerous outbreaks of disease every year in this country are due to the use of milk that might be safe with proper care."

He should firmly insist that the consumer should be carefully instructed that we will have the most practicable protection available from the cow to the consumer.

COTTON FARMERS URGED TO FILE FOR BENEFITS DUE UNDER SMITH-DOXEY ACT

Cotton farmers in organized improvement groups are urged to file their applications for benefits due them under the Smith-Doxey Act as soon as they have planted their crop.

"This is necessary because it takes time for groups to make arrangements for having samples taken and submitted to the classing office," Mr. H. J. Matejowsky, who is in charge of the Abilene classing office of the Cotton Branch, Production and Marketing Administration, U. S. Department of Agriculture, said today.

He explained that it takes at least 15 days to process applications and then deliver supplies to gins, warehouses, compresses, or other agencies approved to take samples.

Groups that file their application as soon as their cotton is planted will be sure of getting them approved in plenty of time to get

their first bales classed. Cotton is classed without cost for farmers belonging to organized improvement groups under the Smith-Doxey Act.

Applications for this service should be sent to the U. S. Department of Agriculture, PMA, Cotton Branch, P. O. Box 2001, Abilene, Texas. Also, they can be secured from this office, the county PMA office, county agent or local gin.

WHEAT FIELD BURNS AT COLEMAN; DAMAGE ESTIMATED AT \$1,000.00

After almost six months without a general alarm, which Fire Chief E. W. Parker said set a new fire prevention record at Coleman, that city had one this week, when a wheat field caught fire on the nearby Claud Morris ranch.

An estimated 35 acres of stubble and 15 acres of uncut wheat burned. The 130-acre field was under lease to two Mexicans, who also lost a 1938 model car.

The grain loss was estimated at \$1,000, as the field was yielding 30 bushels to the acre.

Burkett News

By Mrs. T. C. Strickland

Let's all remember the homecoming Sunday, June 26, at the Burkett school grounds. Everyone is cordially invited to come and bring a well filled basket as lunch will be spread at the noon hour. A special effort is being put forth to get in contact with all ex-

graduates and ex-teachers of the Burkett school. A program will be given shortly after the lunch hour. The fourth Sunday singing will not be at the gymnasium as announced last week but will be at the Baptist church at 2:30 p.m.

The WSCS met Monday with 11 present and Rev. Frank Stone, with the president in charge. Two songs were sung and followed by a prayer by Mrs. J. E. Burkett. The devotional, the 23rd Psalm, was read by Mrs. J. J. Slack. Rev. Stone gave a talk on the 23rd Psalm which was enjoyed by all. A talk, "The Czecks and the Gospel" was given by Mrs. T. C. Strickland. Mrs. C. D. Baker gave a talk on "Con-go".

Next Monday there will be a Spiritual Life program and each one are to give a part on the program.

"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here has taken two bottles and is much better, his blood pressure down about 60 points. Mrs. W. F. Nelson of San Benito, who was in bad shape, is also very much better and her blood pressure down considerably. This Garlic works, and you are doing a fine job of producing it for the benefit of those suffering from high blood pressure."

Survey Indicates That Texans Prefer To Keep Poll Tax Law

By Joe Belden
Director, The Texas Poll

AUSTIN, Texas, June 18.—The rank and file of Texas adults still tend to favor the poll tax as a requirement for voting, even though feeling among the state's political leaders is that it should be abolished.

Research by The Texas Poll indicates there has been little or no change in public opinion on the poll tax during the past six months. Of a statewide cross section of adults questioned in May, 51 per cent said they thought Texas should keep the tax. Exactly the same percentage voted in favor of the tax in a comparable survey last December.

In its latest survey, The Texas

Poll asked persons favoring the poll tax why they thought it should be kept. One out of every three said they felt the state needed the revenue. Some of these pointed out that the tax now helps to finance the public school system, and a few were worried that other taxes might be raised if the poll tax were abolished.

Another important reason why people favor the poll tax, they confess, is because it "keeps the poor and ignorant from voting." Only two per cent, however, admitted they backed the poll tax because they feel it keeps Negroes from voting.

Most of those who want the poll tax abolished criticize it generally as being undemocratic. Their typical comment is that "voting is a privilege everyone should have without paying for it."

In its May survey, The Texas Poll asked these questions:

"In your opinion, should Texas do away with or continue to have a poll tax as a requirement for voting?"

Texas Losing 4 Million Annually

Austin, Texas, June 13.—The State of Texas is losing about four million dollars per year by failure to invest in government bonds state funds that are not immediately needed to meet expenditures.

Representative Preston E. Smith called attention to this fact this last week and recommended passage of his bill to require such investments.

The state funds in question are now deposited in banks, which in turn invest the money in government and other bonds and reap the benefit, therefrom, Smith declared.

"At the end of April, we had \$194 million in cash funds and suspense accounts," the representative declared. "The banks pay us only \$120,000 per year on the money."

By comparison, Smith stated that interest received on \$190 million held by the United States Government for the Texas Employment Commission amounts to more than \$4 million per year.

"During this session of the Legislature," Smith said, "we have had a good deal of trouble trying to hold down spending to match the state's income." He added:

"There is no reason why we should not increase that income by \$4 million per year through proper investment of state money. "The banks are now receiving the benefits of those investments. The money belongs to the people of Texas, and they should receive the interest from it—not the banks."

Smith took issue with DeWitt Ray, president of the Dallas Clearing House Association, who told a legislative committee that "buying United States Bonds is a gamble which the state ought not to take with its money."

"I still have faith in the United States," Smith declared. "It is a sad situation if the bankers do not have such faith. It is very strange to note that the bankers invest a great part of their depositors' money in federal securities and draw the interest therefrom. I don't understand why it's all right for the banks to do it, but wrong for the state."

"When you come right down to it," Smith concluded, "I believe that the Legislature ought to take just as much care of the citizens' money as the banks take of their depositors' money."

VISITORS FROM CALIFORNIA VISIT IN HOME OF RELATIVES

Mr. and Mrs. Ernie Michel and son, Jimmy, of Bakersfield, California visited her cousin, Mrs. Elmer Peevy, and family, and aunt, Mrs. Jim Moore, who is ill, last week.

Mrs. Michel is the daughter of Mr. and Mrs. Mack Perry, formerly of Cottonwood, now living in California. It was her first trip to Texas in 29 years and Mrs. Michel remarked that Texas was beautiful to her now.

The first two ironclad ships to participate in a naval engagement, in American history, were the Monitor and the Merrimack.

William Pitt "the younger" became prime minister of England at the age of 24.

ers, poll tax repeal has gained much support because of the threat of federal action. Two out of every three members of the Texas Legislature have put themselves on record in favor of a proposed constitutional amendment abolishing the poll tax. The people will vote on this proposed amendment in a special election set for September 24.

The poll tax as a requirement for voting is still in effect in six other Southern states, besides Texas. President Truman is insisting on federal action to kill it. Texas collected \$2,250,000 from its poll tax last year. Two-thirds of this amount was allocated to the public school fund and the rest to the general revenue fund.

Mr. and Mrs. Buddy Rodgers were Brownwood visitors one last week.

You ought to be driving a **49 PONTIAC**

A Very Fine Car at a Very Low Price!

When the 1949 Pontiac was introduced, its public reception made Pontiac history. Yet today, some six months later, it still continues to grow in public popularity and demand! For this extraordinary situation, there is a very simple and obvious reason. This big, distinctively styled beauty enables people to enjoy fine car ownership at a very low price.

Powered by the world's sweetest engine, it provides fine car performance wherever you drive. Its handsomely appointed Fisher body affords fine car spaciousness and fine car atmosphere. Because of

the exclusive Travelux Ride, Pontiac comfort over every road is fine car comfort. Its fine car steering and general handling ease are the happy result of fine car engineering and design. As you have the right to expect of a fine car, Pontiac ownership carries with it the definite promise of satisfactory, dependable performance over the years.

Yet for all its fine car quality, Pontiac is not expensive. Few cars undersell it. In fact, it is America's lowest-priced straight eight. Buy the fine car at its very low price and you'll be very, very happy for a long, long time!

Cut A. & M. Student Receives Degree In June

W. Newton, son of Mr. L. E. Newton of Cross Plains, received his degree from A&M College in June. As he is familiarly known as a graduate of Cross Plains school. Later entering John State College, he attended school there for one year entering the Navy in August. After receiving his discharge in 1946, he re-entered school for one year before returning to A&M. He was earning a Bachelor of Science degree in Agricultural Education. He held offices in the Heart of Texas Club, the J-TAC Club, the Collegiate Chapter of the Farmers of America while at college.

VETERANS LEAVING SCHOOL TO RECEIVE CHECKS SOON

Dallas—Veterans finishing school terms and carrying leave over into June will receive subsistence checks for this leave around June 30, 1949, Scott B. Harrington, Veterans Administration regional manager, said today.

Previously, separate vouchers were made up for each veteran as his leave expired and payment was made as soon as possible thereafter, it was explained.

The number of veterans receiving such payments this year will be large and it will be necessary to follow the month-end schedule used in making regular subsistence payments, VA said.

It is estimated some 5,000 veterans from fifty one counties in the Dallas VA region who attended schools and colleges the past term have accumulated from one to several days leave for which they will be entitled to payment at regular subsistence rates.

Blister Beetles

Several people have been having trouble with blister beetles in their vegetable gardens. The treatment for these insects is dusting with a 5-10% DDT dust or with undiluted cryolite dust. The undiluted cryolite dust should be used on tomatoes.

A cryolite-copper dust mixture could control fruit worms in tomatoes also.

Plan Safety For July Fourth Trip

Chicago, June 9.—Going somewhere over the Fourth of July?

If you are, then plan your trip safely. But even if you stay home, keep safety in mind for the Fourth of July holiday—one of the most dangerous week ends of the year.

That is the advice of the National Safety Council, which is coordinating a nationwide campaign to hold down the usual upsurge in accidental deaths during the Independence Day celebration. One hundred and thirty national organizations, as well as state and city officials, are cooperating in the effort.

Motor vehicle accidents lead the list of holiday hazards, the Council said. Drowning from swimming and fishing accidents is the second biggest risk. Other deaths are due to fireworks and firearms, sunstroke and heat exhaustion, food poisoning, falls and miscellaneous accidents.

The death toll for the month of July last year was 8,700, the council said. While it is impossible to determine the exact number of deaths from all causes occurring during the Fourth of July holiday, the Council said the total was well above the average for other days of the month.

The Council expects more pleas-

4-H Club Boys Attend State Round-Up

Three Callahan County 4-H Club boys attended the State 4-H Club Round-Up at College Station on June 12, 13, 14 and 15. Boys attending were Robert Collins of the Clyde 4-H Club, and Bud Farmer and George Crook of the Eula 4-H Club. There were about 1352 club boys and girls at the round-up from every county in the state.

The Callahan County boys were one of the two teams from this

area of the state to fire in the state 4-H club rifle matches. There were 28 teams in the rifle firing contest and the county team won 11th place.

County 4-H Club Camp To Be At Cisco Lake

The Callahan County 4-H Club boys camp will be held at Cisco Lake on June 27 and 28. Every 4-H club boy in the county is eligible to go to this camp. The fee for the camp will be \$1.00 in addition to the fee each boy should bring

ure-seeking holiday motorists to pile into more cars and roll up more miles during this one week end celebration than ever before in the nation's history. More than 33 million motor vehicles will be on the move during the holiday. The increasing number of new cars on the road and the substantial rise in gasoline consumption this year indicate a heavy death toll—unless everyone is fully aware of the holiday hazards and makes a real effort to avoid them. "There are two ways to hold down deaths during a holiday period such as the Fourth," said Ned H. Dearborn, president of the Coun-

cil. "One is for police, beach guards and others who have some authoritative control over public safety to be especially alert and vigorous in their enforcement of sane rules of public behavior.

"The other is for all of us to recognize that holidays are danger days, and to drive a car, walk across the street, swim, fish or otherwise conduct ourselves in a safe and prudent manner.

"If everyone would keep in mind the words "Take It Easy on the Fourth—Be Alive on the Fifth," this Fourth of July would bring much less tragedy and much more pleasure."

Mrs. Tom Bryant, Jr. and son, Tom III, of New York, arrived here last week for a visit in the home of Mr. and Mrs. Tom Bryant.
