Washington, May 23.—Every man
of draft age must work or fight after
July 1 under a drastic amendment to
the selective draft service regulations
announced today by Provost Marshal
General Crowder.

Not only idlers but all draft regis-
trants engaged in what are held to be
nonuseful occupations are to be halted
before the local boards and given the
choice of a new job or the army.

Gamblers, race tract and bucket
shop attendants and fortune tellers
head the list, but those who will be
reached by the new regulation also
include waiters and bartenders, theat-
er ushers and attendants, passenger
elevator operators and other at-
tendants of clubs, hotels, stores, etc.,
domestic and clerks in stores.

Deferred classification granted on
account of dependants will be disre-
garded entirely in applying the rule.
A man may be at the bottom of class
1 or even may be at the bottom of
class 4 but if he falls within the re-
gulations and refuses to take useful
employment he will be given a new
number in class 1 that will send him
into the military service forthwith.
Local boards are authorized to use
discretion only where they find that
enforced change of employment would
result in disproportionate hardship
upon his dependants.

**Mitchells and Magnolia Making
Improvements.**

...The Magnolia and Elizabeth com-
panies have made a location for 55-
000 barrel steel tank on Jim Ned
creek a half mile east of their pro-
ducing wells and are surveying route
for pipe line to the Mitchell well six
miles northeast. Pipe for the line is
in transit.

The Mitchells have let contract for
construction on their lease of aware-
houses, 30x50 feet; four four room
houses; also a boarding house, 30x60
feet, for the accommodation of a con-
venience of their drilling crew. W.
E. Edgerton, a local contractor, has
the work in hand.

As a result of last week's rain the
streams in the northern portion of
the country were filled, many of them
to overflowing and oil development
will be speeded up as a result of it.
The Mitchell lake on Pecan Bayou is
filled and they have a body of water
a mile and a half long with an aver-
age depth of seven to eighteen feet—

Let's All Be True Soldiers

Germany made preparation for the present war 40 years
in advance. If necessary to win Uncle Sam intends to
fight that long. We can all help and we all must, help
win. Let the children buy Thrift Stamps. Let every-
one start a Savings Account NOW, and be ready for the
next Liberty Loan in the fall. Just a little saved every
week will buy a Bond next fall. Our recent Liberty Loan
Battle was a great success. Let's make the next a deci-
sive one. We are all on the firing line and must fight.

WOMANLESS WEDDING BRING NICE SUM FOR RED CROSS

Under the direction of Mrs.
Edgon Boydston, who was in the
city last week from Baird, visiting
friends and relatives. A "Woman-
less Wedding" was given at the Elec-
tric Theatre last Friday evening,
and the sum of about \$55.00 was
raised for the local Red Cross. A
large crowd was present and each
one from all reports went away
highly pleased with this new and
unique way of entertaining.
Mrs. Boydston is indeed to be
commended for the splendid service
she rendered this cause in getting
up the play, as there was lots of
hard work attached to same.

ANOTHER BOUNTIFUL RAIN FALLS AROUND CROSS PLAINS

Cross Plains and the surrounding
country was visited by a splendid
down fall of rain last Saturday
afternoon and again that night the
fall was even much greater. All told
the fall was two inches or better,
and came just at the right time to
push growing crops and bring up
seed planted. Infact the prospect
for splendid yields of most every
kind of farm product is splendid at
this time. Many old timers say the
range promises to be the best in
many years owing to the scarcity of
stock on same, which have either
been shipped to other parts for
grass or to market.

SCHOOL SUPT. ELECTED FACULTY IS NOW COMPLETE

At a meeting of the school board
this week, Prof. Davaney, of Santa
Anna, was chosen to head the Cross
Plains School. For three terms he
was principal of the Santa Anna
School and previous to that had
been Supt. of the Rockwood school
the third largest school in Coleman
county.

Prof. Davaney has a family and
we learn will move here this
summer and prepare for the fall
term of school. He comes well re-
commended as a school man and a first
class citizen, and with the assistance
of the balance of the faculty, all of
whom are competent and capable,
we see no reason why Cross Plains
should not have the best term of
school next year in the history of
the town.

One of the main things needed
for any school to be a success is
cooperation between the board,
faculty and the patrons. We be-
lieve the people of this city and
surrounding country will give the
board and faculty that backing and
cooperation needed to make this one
of the best schools this part of the
country.

DRAFT BOARD WANTS REPORTS ON IDLERS

Washington June 5.—Rules for the
enforcement of Provost Marshal
General Crowder's "work or fight"
regulations announced today call on
all citizen to report to the nearest
local draft board names of men
with n the draft age who are habit-
ually idle or who are employed
nonproductively.

Each local board is created into
what will be practically a court to
sit probably weekly, to decide such
cases as may be brought before it.
Upon a case being presented the
board will serve a notice on the reg-
istrant of not less than three days
nor more than seven days, directing
him to present such evidences as he
may care to submit.

In every case the board must send
the complete record to the district
board for approval, even if the de-
cision is in favor of a man. If the
district board approves the finding
adverse to a registrant he will be
given notice and if any vacancies
exists will be sent immediately to
camp or place at the top of the list
of those next to go.

An appeal to the President may
be made only in the event of a dis-
senting vote in the district board,
and with recommendation of the
appeal agent or Adjutant General.

died at her home on Thursday of
last week after a very brief ill-
ness, and was buried in the
family cemetery at Cross Plains
on Friday afternoon, the Rev. D.
M. Strickland, her pastor, con-
ducting the funeral services.
Her untimely and unexpected
death was a great shock to the
many friends of the family.

FOUR ISSUES CONSTITUTE A MONTH

CROSS PLAINS, TEXAS.

If you want to live in a good clean, moral town, among the best people on earth come to Cross Plains.

There is work for everybody. There is no room for the professional loafer. The Government says every man should work or fight. That is right.

It's a busy time around Cross Plains. Another fine rain has fallen and farmers are busier than ever before. It will likely be peanuts and prosperity with them this fall.

Tick Eradication Carried

The tick eradication election held in Coleman county last Saturday carried by a majority of several to one, according to returns which are made to the office of the county clerk. The returns were incomplete at the time this paper went to press, but the returns indicate that the majority favoring eradication would likely be two to one.—Democrat-Voice

Visits Friends and Relatives Here

C. C. Neeb formerly with the Bank of Cross Plains, but now in the banking business at Rockwood, Colman County was here last Saturday and Sunday, mixing with friends and visiting relatives. Mrs. Neeb and children who had been visiting in Cormon, met Mr. Neeb here and accompanied him home in their car. Their many friends here are always glad to have them visit Cross Plains.

Cottonwood News

Cottonwood and vicinity got a nice shower Saturday afternoon and another Saturday night. These two will afford enough moisture to bring up everything that has been planted.

Luther Thomas happened to a serious accident last week, while coming back from east of town. He was driving his auto along a narrow roadbed and three horseback riders came riding toward him at race horse speed. Luther stopped his car but the horse failed to stop. He ran into the car and plunged into the front seat, breaking up the radiator, hood and wind shield and bending the windshield frame down across Luther, pinning him in the car. The flying glass struck Luther in the face inflicting several ugly gashes. He was taken to the home of Wylie Smith where Dr. Rumph was called in to dress his wounds. His head was badly bruised and it will be some time before he will be able to be around again. The car is badly damaged and the horse was badly cut. The rider of the horse was thrown into the back seat of the car, but escaped uninjured.

V. V. Hart, Cashier of the Bank of Cross Plains returned last Saturday from Brownwood, where he visited his family at the close of school. He was accompanied on his return by his son Vincent who will assist in the bank during the summer, while Mrs. Hart and little daughter Elizabeth are visiting for several weeks at Grandallie, Texas.

Boys Leave For Army Camp

In the list of boys to leave last Monday as given last week there were some changes. Sam Fraser and Clint Blakely went from other points to Camp Cody, New Mexico. The following volunteers in addition to list given last week, went: T. B. Coppinger, Charley Fuller and Byron Leslie Walker, the latter is a nephew of F. L. Walker, of Baird. His home is in Mississippi, where he is registered. He has been working in Baird for several months. The boys left on the noon train Monday and a large crowd of relatives and friends were at the depot to see them off.

Dr. R. G. Powell, of the county board, was present to see that every thing was in order. Mayor Schwartz made a very appropriate talk to the boys. Our Mayor is getting to be quite an orator.

Raymond Foy was elected captain of the bunch.

The following boys left Wednesday night for Fort Sam Houston: Paschal Bawl, Moses Clayton Baum, Harmon W. Henslee. On June 1st the following will leave for Camp Lee, Petersburg, Va., John Driskill, Elmer Hearn and Roy Martin Estes. Baird Star

THE FRENCH RETAKE SOME LOST GROUND

GERMAN DRIVE AGAINST PARIS BLOCKED, AT LEAST TEMPORARILY, BY ALLIED RESERVES

A SUPREME TEUTON EFFORT

With Undiminished Violence Fighting Continues and Every Inch is Bitterly Contested.

London.—With 45 divisions in action and with an equal number of divisions in reserve, the German general staff has apparently determined to make the "battle for Paris" its major offensive. Again as on Saturday the Germans directed their blows toward the west, striking between Soissons and Chateau Thierry on the Marne, and latest accounts put the farthest German advance to within 40 miles of Paris fortifications.

On this front the allied reserves made their strength felt, and the French, in brilliant counter-attacks, drove the armies of the German crown prince back on a front of about 15 miles and reoccupied Long Pont, Corey, Faverolles and Troese- nes, towns between Soissons and the Marne, which the Germans took Saturday. The French in a later counter-attack again drove the Germans back and recaptured Hill 162, just west of Neuilly-St. Front.

The Germans nowhere have been able to cross the Marne, but on the Dormans-Rheims road they pushed light forces forward in the vicinity of Oilly-Violaine and Ville-en-Tardenois, apparently in an effort to out-flank the city. The French here counter-attacked and late Sunday recaptured the village of Champlatt.

That portion of Chateau Thierry on the western side of the Marne is held by the French, but the Germans have entered the eastern portion of this railway center. The Germans also have been able to push to the heights west of the city and have established contact with the Marne there.

The forest of Villers Cotterets, about 13 miles southwest of Soissons, seems to be the immediate objective of the German commanders. It is here that the allied reserves have been able to recapture ground. The Germans retain the village Vanrezi, lying southwest of Soissons, and from that point the line runs through Saconin-et-Breuil, Chaudun, Licy and Bouresches, just west of Chateau Thierry.

In the fighting in the immediate vicinity of Rheims the Germans occupied fort de la Pompelle, but the French counter-attacked and drove them out.

Only meager claims are made by the Germans in their official reports, the German headquarter's statement issued Sunday night saying, "On the front of attack fresh progress has been made."

British troops southeast of Arras Saturday night carried out successful raids against German trenches, capturing 27 prisoners and a machine gun. Successful raids were also carried out southeast of Lens and north of Bethune.

Moderate artillery activity is reported on the Italian front, and advanced Italian posts recouped enemy patrols at various places.

Americans Arriving in Battle Area

AMERICAN AIRPLANES ON FRENCH FRONT

MACHINES EQUIPPED WITH LIBERTY MOTORS ARE NOW ON FIRING LINE.

AMERICANS CONTROL THE AIR

For Three Days Not One Enemy Aviator Has Dared Show Himself Before the American Sector.

With American Army in France.—The first airplanes to be furnished to the American army from the United States have arrived in France and are now in use in a training camp. These machines are of the type equipped with the Liberty motor.

For three days not one Boche aviator has stuck his nose over the American sector and our aviators going back of the Boche lines have not been able to start a fight. During the last month the Boche airmen confronting our lines lost 12 machines to our four, in addition to losses inflicted by the French. It is not known what is the reason for their inactivity. It is presumed that they are rebuilding the personnel of their damaged squadrons.

American airmen feel a pride in the situation, which is quite different from what it used to be when the Boche had the best air patrol on our sector. Our army has plenty of trained aviators, who would make themselves a big factor if they had an ample supply of machines.

The news that the first real airplanes had arrived in France from America, after so many promises, is enthusiastically received, because they are regarded as the forerunner of an enormous equipment.

NEW WAGE SCALE APPROVED.

Only Those Lines Under Government Control, and Not So-Called Short Lines, Will Be Affected.

Washington.—General pay increases for nearly 2,000,000 railway employees were announced by Director General McAdoo, effective next Saturday and retroactive to last January, carrying out substantially the recommendation of the railroad commission. The aggregate of the increases probably will be more than \$300,000,000 a year, half of which will be distributed within three weeks as back pay in lump sums ranging from about \$100 to nearly \$200 each.

The director general departed from the wage confabulation's recommendations at the following particulars: The principle of the basic eight-hour day is recognized, but owing to exigencies of the war situation, hours of employment are not actually reduced and overtime is to be paid pro rata; future adjustments of pay are to be made on the basis of eight hours.

In addition to the ordinary scale of increase, day laborers, employed mainly on track work, are to get at least 2 1/2¢ an hour more than they received last Dec. 31.

A minimum of 50¢ an hour is established for the shop trades, including machinists, boilermakers and blacksmiths. Women are to receive the same pay as men for the same work and negroes are to get the same as white men for similar employment.

The wage order applies to all employees of the 164 roads now under federal management, but not to the so-called short lines unless they are retained by the government after July 1.

The Mexico-Cuba Situation.

Washington.—There are no new developments in the breaking of diplomatic relations between Mexico and Cuba, as announced Saturday in Mexico city dispatches. No confirmation had come from the Cuban capital, although Havana advisers said that the Mexican charge d'affaires had turned his files over to the consulate and taken his formal leave of the Cuban authorities. Recall of the Mexican diplomatic official by Mexico city authorities was explained in the Mexico city advices as being due to the fact that Cuba, being involved in the war that government had been obliged to dictate measures that affect the interests of the Mexican government in many instances. Officials are keeping a close watch on the situation pending developments from either Havana or the Mexican capital.

Hindenburg Reported Sick.

General—Field Marshal von Hindenburg, chief of the German general staff, is in a hospital at Strassburg, suffering from typhoid fever, according to reports from that city. These advices state that the report of Von Hindenburg's death is incorrect, but that his condition is critical.

Americans Playing Big Part.

Paris.—In the work of strengthening the battle front the Americans are playing no secondary role. The steady stream of lads from overseas in the fighting line has served greatly to reassure the British and French contingents that have heretofore so valiantly held their own against tremendous odds. Those of the Americans already in the trenches have given and still are giving a good account of themselves.

C. S. Boyles

Miss Winnie Scuddy, one of the splendid lady clerks at the Higginbotham Co., left first of the week for a two weeks visit to her mother at Thorndale, Texas.

C. S. Boyles went over to Baird Sunday afternoon to meet his daughters who were returning from attending school at Denton. He reports a fine rain at Baird Sunday evening, but says it did not extend far this way, and that there is a dry streak between Baird and Cottonwood, while the season is good from Cottonwood to Cross Plains.

TO THE PEOPLE OF CALLAHAN COUNTY

I am requested by Headquarters to impress upon the people that the greatest importance now exists for the conserving of wheat flour and particularly of wheat. Never was there such need of both as now, by the allies and "Our Boys over there".

All are requested to abstain from eating pure wheat bread or using in any way pure wheat flour.

Violations of the rules and regulations of the Federal Food Administration by Licensees are punishable by a revocation of their licenses and the unlicensing, by having their supply cut off.

County Administrators, may for the purpose of ascertaining such violations, conduct informal examinations, and if the facts justify, the offender is reported to headquarters, for final action, and this, I hope I will not be compelled to do.

All owners of hotels and public eating houses, are required to make monthly reports on the forms furnished to them heretofore, on or before the 10 of each month.

Rules in reference to the sales of sugar have been furnished to the retailers, when a party wants to preserve fruit, with all information printed thereon.

Our people are better off than any of the Allies, the English are not making any white bread at all and France will soon follow suit.

The Fed-Food Administration asks that no barbecue be had this year at the different public gatherings. This does not have reference to such gatherings being had at any time or place for any purpose.

All owners or controllers of hotels and public eating houses, are requested to not place their sugar on any tables but to sweeten the drinks to suit the taste of the party served.

All public places are urged requested to close their places of business at some hour to be agreed upon by a majority of the persons so affected, and if such is disregarded, and there is a mix up with Uncle Sam, why I am not to be censured.

It Was Our Mistake

In the list of donation to the Red Cross printed in the last issue of the Review, there appeared an error in the amount subscribed by Mr. Martin Neeb. It showed that he gave 25 cents when the item should have read \$2.50. And besides this Mr. Neeb has given to this cause at a number of different times, and we gladly make this correction in justice to him.

City Garage

I am especially prepared to do all kinds of welding also have special machine for burning carbon off cylinder heads, doing away with the necessity of taking cylinder heads off and scraping valves.

This is quite a convenience as by my method your carbon can be removed in twenty minutes.

When all others fail to fix your starters and generators, bring them to me. All work guaranteed.

I can repair anything from a locomotive to a sewing machine.

Att'y General Advises

Women to Register

Austin, Texas, June 7.—Attorney General Looney is today advising County Tax Collectors and others that in order to be on the safe side, all women voters should be registered, including those in cities of 10,000 population and over and those residing outside of such cities. The Attorney General does not record legal opinion holding that under the Texas decisions the registration of women outside of cities was not required under the new woman suffrage act as certain provisions are void. However, he says some lawyers have disagreed and a shadow of a doubt may be said to exist.

Work in Ship Yards

PASTE the KAISER WITH W. S. on June

Paste him in the eye with a War Savings Stamp—then paste him. Don't think that you have already done your duty. Perspire! Don't go home after their first battle—they go after the Kaiser on pasting the Kaiser.

Your government has officially set Friday, June 28th as

National War Savings I

On that day every American is asked to "sign the pledge"—to count of War Savings Stamps each month. Every real Americanism by agreeing to regularly paste the Kaiser.

W. S. S. cost \$4.17 in June Worth \$5.00 on Jan. 1, 1923

Be ready to "sign the pledge" on June 28. Paste the Kaiser With War Savings Stamps.
