Archie Hampton, son of Mr. and Mrs. G. C. Hampton, came in last week from Austin, where he had been attending the State University. Mr. Hampton has finished the course at the University and will leave in a short time for Galveston, where he will take a two years medical course. He is a splendid young man, and his many friends predict for him a brilliant and successful career.

Don't be a pessimist, you can't scatter any happiness with such views.

T. J. Beard Dead

T. J. Beard, who has lived four years southeast of town for the past year, and all his life in this section, died at his home Tuesday morning at 11 o'clock. He was buried in the Cross Plains cemetery on Wednesday, the Rev. J. M. Harlow conducting the services. Death resulted from an attack on the lungs. The deceased was a native Texan, born in Comanche County, Texas, May 24, 1858. He was a good farmer and was held in high esteem by all who knew him. He was married to Miss E. J. White of Comanche County in 1880, and to this union were born six children, nine of whom are living, six boys and three girls. He leaves his wife, his nine children and eleven grandchildren, and one daughter being present at the time of his death.

E. Alvis and family of Rowden spent Sunday and Monday with friends here. Mr. Alvis and other business interests were here and looking after the business. He formerly was manager of Davis-Garner and Co. store in Rowden, which he made a great success. It is said he has the largest dry goods business in Rowden, a town of about 4,500 people.

Att'y General Advises Women to Register

Austin, Texas, June 7.—Attorney General Loney is today advising County Tax Collectors and others that in order to be on the safe side, all women voters should be registered, including those in cities of 10,000 population and over and those residing outside of such cities. The Attorney General does not recind legal opinion holding that under the Texas decisions the registration of women outside of cities was not required under the new woman suffrage act as certain provisions are void. However, he says some lawyers have disagreed and a shadow of a doubt may be said to exist.

The Semans Buy Two Farms

A deal was consummated this week whereby the Semans Oil Operators through their representatives here, Messrs J. E. Clark and J. M. Hembree, purchased the two hundred acre farm belonging to the Bank of Cross Plains, which is located about a mile and a half southeast, and the 200 acre farm of L. C. Duncan some six miles west, at the sum of \$40.00 per acre. We understand this land had not been leased for oil purposes.

Red Cross Supper

Pioneer people are anything but slackers, according to R. W. Smith of that place, who was in town Monday. He states that a box supper given for the benefit of the Red Cross at that place Saturday night brought in the neighborhood of 100 dollars. A cake which was sold at auction, he acting in the capacity of auctioneer, brought the tidy sum of \$34.05, the last man bidding receiving the prize, which Mr. Hoover will let by owing to the purpose it was dedicated to.

A Fine Photo Play

Mr. Cross, proprietor of the Electric Theatre, informs us that he is making arrangements for the bringing to this city, the fine serial story, "The Lion's Claw", which will likely begin June 29. This is a very thrilling and interesting scene from beginning to end, and will be enjoyed by all attending.

Three Deep Test Wells Spudded in Brownwood

Brownwood, Texas, June 13.—Two more deep test wells were spudded in this district Wednesday. Bartles & Dumenil started drilling on the John M. Baugh ranch, nine miles north of Brownwood for a 3,500-foot test, and the Atlantic Oil Production Company spudded in its deep test on the Kennedy tract in Mills county, nine miles southwest of Goldthwaite. The Fidelity Oil Company will spud a deep test on the Young ranch in Mills County this week and two other deep test in that county are rigging up.

Bartles & Dumenil have an extensive acreage in the north part of Brown county on a splendid structure. The Atlantic Company paid \$44,000 for its acreage in Mills and San Saba county, and also have several thousand acres scattered through Colman county.

The production of the Brownwood shallow field was increased 150 barrels today with the completion of three more shallow wells in the vicinity of the T. E. Byrd tract.

Francis Kelley of Waco, is the guest of her cousin, Mary Sue Kumph for a month.

Mrs. W. C. Bagwell who has been visiting her mother at DeLeon since Sunday has returned home.

Mr. and Mrs. George Earle of Gatesville were from Saturday to Tuesday, making the trip with C. E. Alvis in his car. George is cashier for the railroad at Gatesville. He still owns his home in Cross Plains.

J. M. Hembree and W. G. Adam with their families spent Sunday in Panger taking in the sights.

Notice to Red Cross Knitters

After due consideration the following rules are submitted. These are not arbitrary but have been sanctioned by Mrs. Mabel Bearden of Baird, supervisor of knitting for Callahan County, and it is thought that by observing them carefully the best results will be obtained.

- Owing to the fact that the world's supply of wool is limited, knit only the goods most needed; namely, socks, sweaters, and helmets. Wristlets should be knitted from remnants. Mufflers are NOT wanted.
- It is imperative in knitting socks to make them full 11 inches or a little over in the foot and 14 inches in the leg. Cast on the stitches at the top loosely. These socks are worn over the uniform and must be large.
- In knitting sweaters make full large and bind off loosely at the neck. Be sure that helmets are large enough.
- Obtain wool only from Mrs. J. F. Moragne, supervisor of the knitting department, attach name of knitter to finished articles and return to Mrs. Moragne, who will keep account of all wool issued and check off as articles are returned. Also return all remnants.
- It is advisable that children learn to knit from odd bits of yarn before taking out wool from the Red Cross.
- Lastly, we have nearly a million men in France. We are told there will be three million in the next year. This is why there is such an urgent demand for knitted articles, especially socks, and the knitting must be done correctly and according to the requirements. Mrs. John J. Horn, Pres.

Sapolio doing its work. Scouring for U.S. Marine Corps recruits.

PASTE the KAISER WITH W. S. S. ON June 28th

Paste him in the eye with a War Savings Stamp—then paste him again and again. Don't think that you have already done your duty. Pershing's men "over there" don't go home after their first battle—they go after the Hun again—they keep on pasting the Kaiser.

Your government has officially set Friday, June 28th as

National War Savings Day

On that day every American is asked to "sign the pledge"—to invest in a definite amount of War Savings Stamps each month. Every real American will prove his patriotism by agreeing to regularly paste the Kaiser.

Most of our advertising this week is 100 per cent patriotic. There is no question as to the loyalty of Cross Plains citizens.

This issue is a W. S. S. of Review. Are you going to do your duty in this campaign? Everybody will know what you do.

Every man, woman and child is expected to do his part in the W. S. S. campaign. There are a few here who have been derelict in their duty to their government, good men who have the means, people who are simply holding to the almighty dollar and strangling their patriotic impulses.

Demands For Peanuts Growing

Because the demands for peanuts for all purposes is increasing very rapidly, specialists of the United States Department of agriculture believes that the future of the peanut industry is very bright. The demand for peanut oil especially is increasing owing to the shortage of oil and the decrease in cotton production as a result of the spread of the boll weevil.

Probably the greatest opportunity for increasing the acreage for peanuts is for stock feeding purposes, says recent publication on the subject. Nearly every farm in the peanut-growing section could grow to advantage an acre or several acres, depending on the size of the farm, for feeding to hogs.

Peanut production has increased from about 3,500,000 bushels in 1899 to over 40,000,000 in 1916, and at the same time the price per bushel has increased.

Clyde to Drill For Oil

E. E. Cook, our hustling, wide-awake oil man, tells us he has everything ready for the drilling contract to be signed on the test well that he has been working on to be drilled southwest of town. He went to Moran yesterday when he expected to sign a drilling contract.

This is to be a thorough test for the shallow oil, and we feel sure that there is going to be oil found there in paying quantities, in paying quantities, in fact it has long been known that there was oil in this locality for in bunching for water in years gone by oil has been found in sufficient richness to burn and these tests pass.

The big deep well on the Cathey place at Putnam is now near the 600 foot depth, and has a fine showing of gas and oil, which verily promises to be as good as 25 barrels per day by the time the 600 foot sands are touched; however, this is to be a deep well, and they will only delay drilling to see what the sands at this depth shows.

Quite wells around Putnam are being pushed as fast as conditions will permit, some other locations have been made over the country.—Clyde Ester prise

Win With Potatoes

The enemy is out-eating us in potatoes—out-potatoing us. Here are the figures—per capita weekly consumption:
United States.....2.3 quarts
Austria-Hungary.....8 quarts
Germany.....16 quarts
We can beat them at their own food—which really isn't theirs; it's a native American crop. We must eat those potatoes, says the Department of Agriculture, and that right soon, or much of our record crop of last year will be waste. Potatoes are plentiful and getting cheaper. Eat them instead of bread. Fight the enemy with potatoes.

THAT is the war-time spirit of true-blue Americans—the spirit that will win the war. The day of talking patriotism has passed—the time has come to practice it.

Your government has officially set—

Friday, June 28th

National War Savings Day

On that day every American is summoned to "sign the pledge"—to save and invest in a definite amount of War Savings Stamps each month.

What Will Be Your Answer?

Many American ships with many American lives are at the bottom of the Atlantic, victims of the German lust for blood.

Our boys are going "over there," through a sea of hostile submarines, to fight that you and I at home may be safe.

But we can do something. Germany said to us, "You cannot cross the ocean with your men! You cannot fight us, because you cannot reach us!" What shall our answer be on June 28?

June 28th National War Savings Day

Let every man, woman and child join in an answer that can be heard from the sea of Germany to the answer we gave to the world, so strong and so true that we have a far greater claim than any of us can make on Germany's future policy.

Let our answer be every man, woman and child in this great land of ours pledge himself to buy as many War Savings Stamps as he can possibly buy. Let's show German slavery that instead of

undermining our morale, sinking our ships and killing our men only adds us to action.

If every American buys one War Savings Stamp on June 28th it will add 485 million dollars to our war fund.

But that is not enough. We must pledge five times that. Our quota for the Nation is two billion dollars, to be raised through the sale of War Savings Stamps this year.

Let's strike another telling blow to the Kaiser on June 28th by taking up every dollar of that two billion.

Keep Faith With Your Boy "Over There"

When your boy was so little that all the world was a foreign country to him, he trusted you to take care of him.

You sent that boy to school and to play and on your little errands, and with implicit faith he did your bidding.

Now we have sent your boy or your neighbor's boy out into a foreign land, into terrors that we cannot even know—and his faith has not faltered. He knows we will do our part, and we know he will do his.

Are we keeping the faith? Are we scrimping and saving and giving to help our boys do the thing that humanity has asked of them, and to help them come back to us sane and whole?

Presbyterian Pastor Arrives

Rev. J. W. Howell of Carrollton
Mo., who has accepted the pas-
torate of the Presbyterian church
of Cross Plains, came in first
of the week, and has entered upon
the duties of his position here.
Rev. Howell is a capable and
forceful minister, comes most
highly recommended, and we
join the citizenship of this town
and community in welcoming
him and his splendid family
among us.

The following is an account of
a farewell social given by the
people of his home town before
their departure for this city.

One of the most pleasant social
affairs which has ever been held
in Carrollton church circles was
that of Wednesday night at the
Presbyterian church in honor of
Rev. J. W. Howell and wife who
leave in a few days for Cross
Plains, Texas, where Mr. Howell
has accepted a call from the Pres-
byterian church.

The social while in charge of
the Christian Endeavor Society
was one of the most largely at-
tended ever held in this church
thus expressing the esteem in
which these good people are held
by the entire church membership
and congregation.

The church parlor had been de-
corated with roses, ferns and nat-
ural palms, banks of roses piled
in every convenient place, on
mats of ferns, producing a most
pleasing effect.

A musical program had been
arranged old familiar gospel
hymns were sung and several of
the men and women who have
been associated with Mr. and Mrs.
Howell during their years of re-
sidence here, spoke of these pleas-
ant associations; expressing their
regret at the loss of the church
in its various departments and
wishing for them a full measure
of success in their new home.—

dreaded disease that science has been
able to cure in all its stages, and that is
Catarh. Hall's Catarh Cure is the only
positive cure now known to the medical

disease, requires a constitutional treat-
ment. Hall's Catarh Cure is taken in-
ternally, acting directly upon the blood

by destroying the foundation of the dis-
ease, and giving the patient strength by
building up the constitution and assisting
nature in doing its work. The proprietors

What Is Your Baby Worth to You?

That baby of yours—he's the very center of the
world to you. When he laughs you laugh, when he
suffers you suffer. His future—to you that is the
most important problem of life.

His future—the conditions under which he is to
live depend upon the outcome of this war. His
future—the education that is to fit him for the
world may depend upon the size of the family
"nest egg" when he grows up.

Protect the future of that baby of yours—pro-
tect him from future wars, provide for his educa-

War Savings Stamps

War Savings Stamps are a direct loan to Uncle Sam. Nothing can lessen
their value. They're always at par. They pay you well, though that isn't half so
important to you as what money does for our soldiers "over there." Back them
up. Keep food going to them. Keep their clips full of cartridges. And shoes
on their feet.

Boys, get out and sell W. S. S.—and send our soldiers over the top with
the go-get-em feeling that comes from knowing you will see that they get what
is coming to them.

War Savings Stamps cost \$4.17 each
on June 28—and pay back \$5.00.

Marie Walcamp's serial master-
piece, as the popular motion-picture
press herself designates "The
Lion's Claws," her newest eighteen
chapter photoplay, is a breath-stop-
ping, hair-raising thriller, she says.
Marie Walcamp and her director
scored veritable triumphs in
serials "Liberty" and "The
Ace," have unquestionably
passed all their previous work in
the new Universal adventure serial
"The Lion's Claws," judging by
the opinions of critics who have
seen the episodes so far completed.

ere, Harry Von Meter, Rex De-
celli, Gertrude Astor, Alfred
H. Frank, Lanning, Charles

ported by the large aggregation of
animals that make their home
in Universal City, augmented by
a number of new lions and leopards
which have been handled by Marie
Walcamp from the first day of
her arrival in a manner that has
not only thrilled but actually given
chills to other members of the
company, accustomed as they have
come to the daredevil stunts of
the actress.
